SECTION VI

MANAGEMENT PERCEPTION OF RISK FACTORS

Prospective investors should carefully consider all the information in this Private Placement Memorandum, including the risks and uncertainties described below, before making an investment in the Bonds. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business prospects, results of operations and financial condition. If any of the following or any other risks actually occur, our business prospects, results of operations and financial condition could be adversely affected and the price of, and the value of your investment in the Bonds could decline and you may lose all or part of your redemption amounts and/ or interest amounts.

A. RISK RELATING TO BUSINESS AND INDUSTRY

1. *Our business and financial performance could suffer if we are unable to effectively manage our growing asset portfolio and control the level of our NPAs.*

As at September 30, 2022, March 31, 2022, March 31, 2021 and March 31, 2020, the total value of our gross NPAs was ₹1708.77 Crore, ₹1768.25 Crore, ₹2441.55 Crore and ₹2373.00 Crore, respectively. Our gross NPAs represented 5.06%, 5.21%, 8.77% and 10.08% of our loans as at March 31, 2022, March 31, 2021 and March 31, 2020, respectively. Our net NPAs represented 2.72%, 3.12%, 5.61% and 7.18% of our loans as at September 30, 2022, March 31, 2022, March 31, 2021 and March 31, 2020, respectively. In Fiscal 2019, the RBI withdrew the exemptions from their prudential norms which were previously available to all Government NBFCs ND SI vide their circular dated May 31, 2018. As per the revised RBI norms, the NPA classification, as at March 31, 2020, shall include any loan asset that is in default for more than 90 days. Further, as per RBI guidelines updated on March 03, 2022, NPA includes any loan asset that remains overdue for a period of 3 months or more. In addition, the increases in our net NPAs and gross NPAs has been primarily due to delay in payment from State electricity distribution companies ("DISCOMs"), tariff and regulatory related issues, force majeure events (drought, flood, diversion of water of river/canal), delay in project implementation and commissioning, technology and generation related issues, rise in raw material prices (biomass/MSW/gas) and financial stress due to other factors. For example, to address our NPAs that have arisen from credit problems in biomass, co-generation, and small hydro power projects, we reduced our funding of biomass and co-generation loans to 50% of the project cost; and we reduced our funding of small hydro power projects (for greenfield projects of more than 15 MW capacity) to not more than 50% of the project cost. We also have made credit quality the major focus of our funding in the wind and solar sectors. For some of the projects which have fallen into stressed category/NPAs due to delays in implementation or completion, our management, after evaluating the merits of the project credentials, has decided to continue to support the project and allowed loan drawdowns with the sole objective of achieving project completion.

Although we are increasing our efforts to improve collections and to foreclose on existing impaired loans in a timely manner, there cannot be any assurance that we will be successful in our efforts or that the overall quality of our loan portfolio will not deteriorate in the future. If we are unsuccessful in controlling or reducing our impaired loans, if there is a significant increase in impaired loans, or if there is deterioration in the quality of the assets that we hold as security, our future financial performance could be materially and adversely affected.

While we had already made provisions with respect to 47.58% of our gross NPAs as at September 30, 2022, we may need to make further provisions if recoveries with respect to such NPAs do not materialize in time or at all. Any increase in NPAs will reduce the net interest-earning asset base and increase provisioning requirements, thereby adversely affecting our results of operations and financial condition. Any significant increase in provisions would materially and adversely impact our financial performance. Various factors beyond our control, like changes in electricity tariffs, prolonged recessionary conditions in the world economy, a sharp and sustained rise in the interest rates, developments in the Indian economy, changes in Indian laws, regulations and policies and other factors beyond our control could have an adverse impact on the quality of our loan portfolio. Further, certain assets classified as restructured may

subsequently be classified as delinquent or non-performing if a borrower fails to restore its financial viability and honour its loan servicing obligations. There can be no assurance that the debt restructuring criteria approved by us will be adequate or successful and that borrowers will be able to meet their obligations under restructured loans. Any resulting increase in delinquency levels may adversely impact our business, financial condition and results of operations.

2. *Volatility in interest rates could adversely affect -our business, net interest income and net interest margin, which in turn would adversely affect our business, results of operations and financial condition.*

Our business depends on interest income from our loans made by us and the interest rates at which we borrow from banks and/or financial institutions. Accordingly, we are affected by volatility in interest rates in our borrowing and lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors. Furthermore, the rise in inflation and consequent fluctuation in interest rates, repo rates (the rates at which the RBI lends to commercial banks) and reverse repo rates (the rates at which the RBI borrows from commercial banks) has led to revision in the interest rates on loans provided by banks and financial institutions. Due to these factors, interest rates in India have experienced a relatively high degree of volatility.

Our ability to raise funds on competitive terms and in a timely manner, and the pricing of our loan products are determined by a number of factors including our current and future results of operations and financial condition, macroeconomic factors, our credit ratings, the regulatory environment and policy initiatives in India and developments in the international markets affecting Indian economy, many of which are beyond our control. If we suffer a decline in net interest margins, we would be required to increase our lending activity in order to maintain our profitability. In case we are not able to do so we may suffer reduced profitability or losses which may adversely affect our business, results of operations and financial condition.

Furthermore, the majority of the loans taken by us are long-term in nature and are fixed rate borrowings. However, our portfolio includes loans where the interest rates are subject to periodic resets. When interest rates decline, we may be subject to greater repricing and prepayment risks. During periods of low interest rates, our borrowers may seek to reduce their borrowing cost by asking to reprice loans. When assets are repriced, the spread on loans, which is the difference between the average yield on loans and the average cost of funds, could be affected. If we reprice loans, our financial results may be adversely affected in the period in which the repricing occurs. To the extent that our borrowers prepay loans, the return on our capital may be impaired as any prepayment premium we receive may not fully compensate us for the redeployment of such funds elsewhere. When interest rates increase, we may be unable to pass on such increase to the borrowers in full by increasing the corresponding borrowing interest rates and increase in the interest rate on reset may also result in the borrowers' prepayment of such loans. Such prepaid loans may not be immediately redeployed by us which may result in loss of interest income. If we are unable to effectively and efficiently manage such interest rate variations over the duration of the project loans, our business, results of operations and financial condition may be adversely affected.

3. *The impact of the COVID-19 pandemic is uncertain and still evolving, and could adversely affect our business, the quality of our portfolio of assets and liabilities and our financial performance.*

The outbreak of COVID-19 was declared a pandemic by the World Health Organization on March 11, 2020, and as of the date of this Offer Document, it is still ongoing and rapidly evolving. The GoI initiated a nation-wide lockdown from March 24, 2020, that lasted until May 31, 2020 and has been extended periodically by varying degrees by state governments and local administrations. However, financial services like our Company were determined to be operating as an essential industry, which allowed us to continue our operations with limited workforce and other safety measures. Although the nationwide lockdown was lifted on June 1, 2020, restrictions on non-essential activities and travel were imposed until August 31, 2020, in multiple states across specific districts that were witnessing increases in COVID-19 cases. The second wave of COVID-19 infections impacted India in April, May and June 2021. The second wave resulted in significant strain on the health infrastructure in the country resulting in several states announcing lockdown measures. The second wave also resulted in a large part of the population working from home and implementing social

distancing measures. In June 2021, the COVID-19 reported cases from the second wave declined and the GoI and state governments started gradually easing some of the strict precautionary measures. In early 2022, the reported cases of COVID-19 increased and new variants of COVID-19 like Omicron and Delta continued to emerge.

The COVID-19 pandemic caused substantial disruption to the global economy and supply chains, creating significant volatility and disruption in financial markets, including India. In order to address the financial implications of the COVID-19 pandemic, central banks around the world, including India, have taken monetary, fiscal and administrative measures. For instance, the RBI issued guidelines as part of a COVID-19 Regulatory Package dated March 27, 2020, April 17, 2020 and May 23, 2020. In terms of these guidelines, we have granted a moratorium of up to six months on the payment of all instalments and/ or interest, as applicable, falling due between March 1, 2020 and August 31, 2020 to all eligible borrowers, in accordance with the schemes approved by our Board in line with RBI guidelines issued from time to time for COVID-19.

In addition, the RBI issued the circular on the “Resolution Framework for COVID-19 Related Stress” (“Resolution Framework 1.0”) dated August 6, 2020 which enabled lending institutions to implement a resolution plan for corporate exposures, without requiring a change in ownership and personal loans while continuing to classify such exposures as standard assets, subject to specified conditions. Further, the RBI, vide its circular dated September 7, 2020 on “Resolution Framework for COVID- 19-related Stress – Financial Parameters”, laid down key ratios to be mandatorily considered while finalizing the resolution plans in respect of resolution framework. Further, it also laid down, sector specific thresholds to be considered by the lenders, intended as floors or ceilings. The resolution plans shall take into account the pre-Covid-19 operating and financial performance of the borrower and impact of COVID19 on its operating and financial performance at the time of finalizing the resolution plan, to assess the cash flows in subsequent years, while stipulating appropriate ratios in each case. However, the extent of economic disruption on account of the extended lockdown currently remains unknown and may have significant impact on our ability to achieve its strategies.

In accordance with RBI guidelines, we have granted a moratorium of up to six months on payment of all instalments and/or interest, as applicable, falling due between March 1, 2020 and August 31, 2020 (the “Moratorium Period”) to eligible borrowers in accordance with the Board approved policy. All accounts for which such moratorium is granted will get the benefit of an ageing standstill and, hence, will not be classified as NPAs if the accounts have any instalments or interest are overdue for more than 90 days during the moratorium period. Lenders are required to make general provisions of 10% in respect of accounts which were in default on February 29, 2020 where moratorium is granted and asset classification benefit is availed. The utilization and/or release of the provision, are subject to the applicable RBI directions that may be amended from time to time. Post moratorium, there has been considerable increase in recovery, and it has also been consistent up to March 31, 2022. The second wave of the COVID-19 pandemic did not significantly affect our collection during the three months of April 2021, May 2021 and June 2021 in view of close monitoring and follow up of the accounts. Given that the COVID-19 situation is continuously evolving, it is difficult to ascertain with certainty the exact impact on our loans portfolio due to COVID-19 related lockdown. We will continue to assess our portfolio on an ongoing basis.

4. *Our credit ratings have been downgraded and received negative outlooks in the past. Further downgrading in our credit ratings could adversely affect our business, results of operations and financial condition.*

Our external credit ratings assess our overall financial capacity to pay our obligations and are reflective of our ability to meet financial commitments as they become due. Rating agencies may reduce, or indicate their intention to reduce, the ratings at any time.

In Fiscal 2019, in respect of our US\$300 million Masala Bonds issued internationally, Fitch Ratings downgraded our Long-Term Foreign- and Local-Currency Issuer Default Ratings (IDR) as well as our senior unsecured rating to “BB+” from “BBB- Outlook Stable”. Fitch Ratings also downgraded the Short-Term IDR to “B” from “F3”. The key reason for downgrade according to Fitch was our concentrated business model, moderate capitalisation against our high-risk appetite and volatile asset quality, which is vulnerable to sharp deterioration due to the characteristics of the renewable energy sector. On December 10, 2020 Fitch Ratings upgraded our Long-Term Foreign – and Local-Currency Issuer Default Ratings (IDRs) and long-term senior unsecured rating to “BBB-“ from BB+ Outlook Negative”. At the same

time, Fitch also upgraded our short-term IDR and the short-term senior unsecured rating to “F3” from “B”. According to Fitch, the upgrade was driven by an increase of the overall support score to 45 and our ratings were equalised to the ratings on Indian sovereign debt. The outlook on our Long-Term IDRs currently mirrors that of the ‘BBB-’ India sovereign rating.

Further, in Fiscal 2019, Moody’s affirmed our Baa3 local and foreign currency issuer rating but changed the rating outlook to negative from stable. In addition, Moody’s affirmed our “(P)Baa3/(P)P-3” rating assigned to our senior unsecured medium-term note program and our “Baa3” rating assigned to our senior unsecured debt issued under this medium-term note program; however, it has changed the outlook to “negative”. Moody’s reported that the key reason that they assigned a negative outlook was the deterioration in our financial performance, due to an increase in problem assets, as well as a significant decline in our profitability, driven by certain changes in accounting norms. On October 8, 2021, Moody’s affirmed our “Baa3” local- and foreign-currency issuer ratings and changed the outlook to “stable” from “negative”.

Further, India Ratings had on September 4, 2019 changed our domestic bonds’ outlook to “Negative” and affirmed our “IND AAA” rating; further on September 1, 2020, India Ratings downgraded our bonds and subordinated debt to “IND AA+’/Stable”.

Our ability to raise further borrowings at an attractive pricing in the form of bond offerings in international and markets may be adversely affected if there is rating downgrade or change in outlook by Fitch Ratings, Moody’s, India Ratings & Research Private Limited, ICRA Limited, CARE Ratings Limited or Brickworks Ratings.

There can be no assurance that we will not experience any further downgrade in our debt ratings in future. The rating agencies can also decide to withdraw their ratings altogether, which may have the same effect as a reduction in our ratings. Any further reduction in, or withdrawal of, our ratings may increase our borrowing costs, limit our access to equity and debt capital markets and adversely affect our ability to engage in business transactions, particularly longer term transactions, or retain our customers, thereby affecting our net interest income and net interest margin. In addition, any further downgrade of our credit ratings could result in additional terms and conditions being included in any additional financing or refinancing arrangements in the future. This, in turn, could reduce our liquidity and have an adverse effect on our business, results of operations and financial condition.

5. *We operate in a highly competitive environment and increased competition in lending to the renewable energy sector could have a material adverse effect on our business, results of operations and financial condition.*

The financial and banking sector in India is highly competitive and we compete with a number of public sector finance companies, public sector banks, private banks (including foreign banks), financial institutions and other NBFCs. Competition in our industry depends on, among other factors, the ongoing evolution of GoI policies relating to the industry, the entry of new participants into the industry and the extent to which there is consolidation among banks, financial institutions and NBFCs in India. Many of our competitors may have larger resources or balance sheet sizes than us and may have considerable financing resources. In addition, since we are a non-deposit accepting NBFC, we may have restricted access to funds in comparison to banks and deposit taking NBFCs as they are better rated. Our ability to compete effectively is dependent on our ability to maintain a low effective cost of funds. With the growth of our business, we are dependent on funding from the equity and debt markets and commercial borrowings. If we are unable to access funds at an effective cost that is comparable to or lower than our competitors, we may not be able to offer competitive interest rates for our loans to renewable energy projects. This is a significant challenge for us, as there are limits to the extent to which higher costs of funds can be passed on to borrowers, thus potentially affecting our net interest income. In addition, competition in the renewable energy sector may become more intense due to the increased interest in the sector among domestic and international banks and finance companies, and we may incur additional expenses relating to customer acquisition and retention, further reducing our operating margins.

6. *We may be unable to secure funding on commercially acceptable terms and at competitive rates, which could*

adversely affect our business, results of operations and financial condition.

Our business is dependent upon our timely access to, and the costs associated with, our borrowings. Our borrowings primarily include secured and unsecured long-term bonds and secured and unsecured term loans obtained from various domestic and multilateral and bilateral institutions. Our ability to borrow on acceptable terms and at competitive rates depends on various factors including, our credit ratings, our capital adequacy ratios, foreign exchange rates, hedging cost and volatility in interest and exchange rates, the regulatory environment, liquidity in the markets, policy initiatives in India, developments in the international markets affecting the Indian economy and the perception of investors, and our current and future results of operations and financial condition.

Our ability to raise funds on acceptable terms, at competitive rates and in a timely manner, depends on various factors including our current and future results of operations and financial condition, our risk management policies, our credit ratings, our brand equity, the regulatory environment and policy initiatives in India and developments in the international markets affecting the Indian economy including the effects of events such as the COVID-19 pandemic. The cost of our borrowings may increase due to market volatility or changes in the risk premiums required by lenders or if traditional sources of debt capital are unavailable. Volatility or depressed valuations or trading prices in the equity markets may similarly adversely affect our ability to obtain equity financing. If we raise additional funds through further issuances of equity or convertible debt securities, our existing shareholders could suffer significant dilution.

A major factor that determines interest rates on our borrowings is our credit ratings. Our ability to raise further borrowings at attractive pricing in the form of bank loans or bond offerings in international markets may be adversely affected by any downgrade or change in outlook by rating agencies.

Any downgrade or negative credit rating reports could increase interest rates for our new borrowings and could adversely affect our ability to borrow in the future. To honour our lending commitments, therefore, we may be required to avail ourselves of loans at high costs, which may in turn affect our spread on loans and our financial condition. Furthermore, due to our nature and tenure of the loans, it may not be possible for us to pre-pay the existing loans by incurring additional indebtedness without payment of penalty and interest.

Furthermore, an increase in debt would lead to leveraging the balance sheet, thereby exerting pressure on the financial covenants that we are required to maintain under our various loan agreements. In such an event, we cannot assure you that we would continue to follow our loan agreements conditions in the future. Any future default under a loan agreement may further affect our availability of funding.

Unavailability of borrowings at commercially acceptable terms, or at all, may adversely affect our capacity to lend in the future and would therefore have an adverse effect on our business, results of operations and financial condition.

7. *Projects and schemes for generating electricity and energy through renewable sources like solar, wind and small hydro have inherent risks and, to the extent they materialize, could adversely affect our business, results of operations and financial condition.*

Our business mainly comprises financing of projects and schemes for the generation of energy like solar, wind, and small hydro through utilization of renewable sources of energy and projects involving energy efficiency and conservation measures. These projects and schemes carry technology as well as sector specific risks, some of which include:

- political, regulatory, fiscal, monetary, legal actions and policies that may adversely affect the viability of

- projects to which we lend;
- the fact that renewable energy projects are intermittent, seasonal and prone to vagaries of nature;
 - decrease in tariff for solar power;
 - delays in the construction and operation of projects to which we lend;
 - adverse changes in demand for, or the price of, energy generated or distributed by the projects to which we lend;
 - the willingness and ability of off-takers (including DISCOMs) to pay for the energy produced by projects to which we lend;
 - environmental challenges and changes in environmental regulations may result in time and cost overrun there by impacting the project viability;
 - potential defaults under financing arrangements of project companies and their equity investors;
 - failure of co-lenders with us under consortium lending arrangements to perform on their contractual obligations;
 - failure of third parties such as contractors, sub-contractors and others to perform on their contractual obligations in respect of projects to which we lend;
 - adverse changes in the supply chain;
 - adverse changes in the commodity prices may impact the viability of projects;
 - adverse changes in the overall economic environment in India;
 - adverse fluctuations in interest rates or currency exchange rates;
 - lack of infrastructural facilities for transmission of power from generating stations to DISCOMs; and
 - economic, political, health and social instability or occurrences such as natural disasters, armed conflict, pandemics like COVID-19 and terrorist attacks, particularly where projects are located or in the markets they are intended to serve.

These or other risks relating to the renewable energy projects we finance could materially adversely affect our business, results of operations and financial condition.

8. *There are outstanding litigations against our Company and any adverse outcome in any of these litigations may have an adverse impact on our business, results of operations and financial condition.*

Certain legal proceedings involving our Company are pending at different levels of adjudication before various courts, tribunals and authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties, we may need to make payments or make provisions for future payments and which may increase expenses and current or contingent liabilities.

We cannot assure you that any of the outstanding litigation matters will be settled in our favour, or that no (additional) liability will arise out of these proceedings. Our Company is in the process of litigating these matters and based on the assessment in accordance with applicable accounting standard, our Company has presently not made provision for any of the pending legal proceedings. Further, such proceedings could divert management time and attention, and consume financial resources in their defence. In addition to the foregoing, we could also be adversely affected by complaints, claims or legal actions brought by persons, before various forums such as courts, tribunals, consumer forums or sector-specific or other regulatory authorities in the ordinary course or otherwise, in relation to our products and services, our technology and/or intellectual property, our branding or marketing efforts or campaigns or our policies or any other acts/omissions. Further, we may be subject to legal action by our employees and/or ex-employees in relation to alleged grievances such as termination of their employment with the Company. There can be no assurance that such complaints or claims will not result in investigations, enquiries or legal actions by any courts, tribunals or regulatory authorities against us.

9. *Our level of indebtedness and the restrictive covenants in our borrowing agreements that we have with our lenders could adversely affect our ability to react to changes in our business environment, limit our flexibility in managing our business and maintaining the growth of our loan portfolio, which may in turn have a material adverse effect on*

our business, results of operations and financial condition.

A substantive portion of our funding is obtained through credit facilities and loans provided by bilateral and multilateral institutions and issuance of bonds. A high level of indebtedness could:

- in the event our cash flows do not increase in the same proportion, require us to dedicate a substantial portion of our cash flows from operations to payments in respect of our indebtedness, thereby reducing the availability of cash flow to fund our working capital requirements, capital expenditures and other general corporate expenditures;
- increase our vulnerability to adverse general economic and industry conditions;
- limit our flexibility in planning for, or reacting to, competition and/or changes in our business or industry;
- limit our ability to borrow additional funds; and
- place us at a competitive disadvantage relative to competitors that have less debt or greater financial resources.

There are restrictive covenants in agreements we have with our lenders. These restrictive covenants require us to intimate and/or seek the prior permission of these lenders for various activities, including, among other things, affecting undertaking any merger, amalgamation, change in control of ownership, charge creation, utilizing loans for purposes other than those set out in the financing agreement, and raising further capital. We are currently not in compliance with certain financial and non-financial covenants for our international lines of credit under our financing documents with the Asian Development Bank (ADB) in relation to maintenance of gross non-performing loan level. ADB has agreed to modify the covenant in the subsequent agreement. Additionally, there have been breaches in the past under our financing arrangements with Nordic Investment Bank in relation to maintenance of debt equity ratio. However, the said loan has been fully repaid and closed. We have also in the past obtained waiver from Agence Francaise De Developpement in respect of breaches of the credit-exposure ratio. In the event of any breach of any covenant contained in these financing agreements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. Furthermore, financing arrangements also contain cross default provisions which could automatically trigger defaults under other financing arrangements. As of the date of this Offer Document, none of our lenders have issued any notice of default or required us to repay any part of our borrowings as a result of such breaches. Any failure to comply with these covenants in the future could constitute an event of default under the relevant loan agreements.

Any or a combination of some or all of these factors may result in a failure to maintain the growth of our loan portfolio or could result in a credit rating downgrade that could lead to difficulties in raising funds at competitive rate, each of which may in turn have a material adverse effect on our business, results of operations and financial condition.

10. Our business is entirely concentrated in, and dependent on, the Indian renewable energy sector, which in general has many challenges and effective addressing of these risks are key to the growth of the sector. If risks in the sector are not managed effectively, the sector growth will suffer, and our business and operations will in turn will also be adversely affected.

Our business is majorly concentrated in, and dependent on, the Indian renewable energy sector. The GoI has set a target of renewable energy capacity addition of 175 GW by year 2022. Further, GoI plans to establish 500 GW of installed electricity capacity from non-fossil fuel sources by the year 2030 and achieving net zero emission by 2070. (Source: India Brand Equity Foundation, Renewable Energy, March 2022). The viability of the renewable energy sector is linked to a favourable policy framework and the related fiscal and financial incentives available thereunder. Reduction or withdrawal of these benefits may impact the sector adversely. In addition, issues relating to land acquisition, grid evacuation infrastructure, open access permission, grid management problem arising from the variable and intermittent nature of solar, wind and hydro power, tariff related uncertainties, prolonged project commissioning periods on account of delay in approvals from the state governments, large capital outlay, delay in payment to generators by DISCOMs, frequent policy changes can affect project viability during the implementation /operational stages, with negative impact on debt servicing capability of our borrowers and in turn will also adversely affect our business and operations.

11. The RBI prudential norms are applicable to us and if the level of non-performing assets in our loan portfolio were

to increase, our business, results of operations and financial condition would be adversely affected.

In Fiscal 2019, the RBI withdrew the exemptions from their prudential norms which were previously available to all Government NBFCs ND SI vide their circular, dated May 31, 2018. As per the revised RBI norms, the NPA classification, as at March 31, 2019, provides that an NPA includes any loan asset that is in default for more than 120 days and, as at March 31, 2020, includes any loan asset that is in default for more than 90 days. The RBI pursuant to its updated circular, dated March 3, 2022, applicable to the NBFC-ND-SI sector, provides that an asset is to be classified as NPA if it is overdue for a period of three months or more.

In the past, our gross and net NPAs have been as follows:

	Gross NPAs as percentage of total loans	Net NPAs as percentage of total loans
As at September 30, 2022	5.06%	2.72%
As at March 31, 2022	5.21%	3.12%
As at March 31, 2021	8.77%	5.61%
As at March 31, 2020	10.08%	7.18%

The Company follows provision on the basis of expected credit loss (ECL) methodology as per the RBI circular. Accordingly, our impairment provisions on account of NPAs as at September 30, 2022, March 31, 2022, March 31, 2021 and March 31, 2020 were ₹813.06 Crore, ₹732.86 Crore, ₹931.33 Crore and ₹735.57 Crore, respectively.

12. *The poor health of the State DISCOMs may lead to delays in payments to renewable energy projects that we finance. This poses a risk which may adversely affect the repayment capability of our borrowers.*

The power off-take from the renewable energy projects is largely through long term power purchase agreements (“PPAs”) with the State DISCOMs. However, many of the DISCOMs in India are in poor financial health as noted in the Ministry of Power’s report entitled “State Distribution Utilities Ninth Annual Integrated Rating”, dated July 2021, where 23 out of 41 utilities have been assigned a rating of B or less, indicating “Below Average Operational and Financial Performance Capability”.

The financial problems experienced by the DISCOMs often results in delayed payments to the renewable energy power generators and irregular payment cycles of our renewable energy project borrowers. This may affect the repayment capability of our borrowers and in turn may adversely affect our business, results of operations and financial condition.

Furthermore, if such borrowers are unable to manage their cash flow and other financial risks applicable to such borrowers, our NPAs could increase which would also adversely affect our business, financial condition and results of operations.

13. *Certain DISCOMs that purchase electricity from our borrowers and certain states have sought revision in the terms of their existing PPAs. A downward revision in the tariffs could negatively affect the cash flows and financial conditions of our borrowers and may affect their repayment capabilities.*

Our borrowers could be negatively affected if DISCOMS or state governments, for any reason, become unable or unwilling to fulfil their related contractual obligations under their PPAs with our borrowers, refuse to accept delivery of power delivered under PPAs with our borrowers or otherwise terminate such PPAs prior to the expiration thereof. If such events occur, the cash flow and financial condition of such borrowers may be adversely affected with may impact their repayment of capabilities of our loans to them. Further, On July 7, 2019, the Government of Andhra Pradesh vide an order bearing no. GO RT No 63 (“Order”), constituted a High-Level Negotiation Committee to revisit and review PPAs for solar & wind projects in the state of Andhra Pradesh with a view to bring down the tariffs. Pursuant to the same, a letter dated July 12, 2019, was issued by Andhra Pradesh Distribution Company to the developers to reduce the quoted tariff to ₹2.43 per unit for wind projects for the pending bills, and ₹2.44 per unit for solar projects from the date of commissioning and threatened termination of the PPA in case of refusal of the developers to accede to such

reduction ("Letter"). The developers challenged both the Order and the Letter in the High Court at Vijayawada. The High Court vide order dated September 24, 2019, set aside both the Order and the Letter. However, as an interim measure, until the issue of possibility of reduction of existing tariff is decided by the Andhra Pradesh Electricity Regulatory Commission ("APERC"), directed to honor the outstanding and future bills of the developers, and pay at an interim rate of ₹2.43 and ₹2.44 per unit for wind and solar projects, respectively. This order of the single judge had been challenged in an appeal filed by the developers. The Andhra Pradesh High Court during the hearing on March 15, 2022, set aside the earlier order setting the interim tariff of ₹2.44/kWh for solar power and ₹2.43/kWh for wind power and directed the Andhra Pradesh DISCOMs to make payment of all pending and future bills at the tariff mentioned in the PPAs within six weeks. Legal or regulatory disputes of this nature or an adverse outcome for our borrowers could result in deterioration in their receivables under the PPAs. If our borrowers do not receive payments as provided under their PPAs, they may not have sufficient cash flows to meet their repayment obligations towards us.

14. We are exposed to fluctuations in foreign exchange rates, which in turn could adversely affect our results of operation and financial condition.

As at September 30, 2022, March 31, 2022, March 31, 2021 and March 31, 2020, we had foreign currency borrowings of ₹9,982.67 Crore, ₹10,432.03 Crore, ₹10,318.09 Crore and ₹10,632.95 Crore, respectively. We may seek to obtain additional foreign currency borrowings in the future. We are therefore affected by adverse movements in foreign exchange rates. In the past, the Indian Rupee has seen adverse movement against US\$, Euro and Japanese Yen, which has been significantly volatile. If the Rupee depreciates against the currencies in which we borrow in, it will result in a higher outflow in relation to the foreign currency denominated loan. Although we have hedged our foreign currency loan in accordance with our foreign exchange and derivatives risk management policy, our hedges may not cover sufficiently, or at all, an increase in foreign currency loans resulting from the depreciation of the rupee against such currencies. Volatility in foreign exchange rates could adversely affect our results of operations and financial condition.

We currently hold, and have in the past held, derivative contracts, including forward exchange contracts and interest rate swaps. We believe that these forward exchange contracts, and cross currency swaps, have the effect of reducing the volatility of our profit and reducing our exposure to foreign exchange and interest rate risk. If, in the future, foreign exchange rates or interest rates move contrary to our expectations, or if our risk management procedures prove to be inadequate, we could incur derivative-related or other charges and opportunity losses independent of the relative strength of our business, which could affect our results of operations and financial condition.

15. If we are unable to manage our growth effectively, our business, results of operations and financial condition could be adversely affected.

In Sep 30, 2022, Fiscal 2022, Fiscal 2021 and Fiscal 2020, our profit before tax was ₹616.17 Crore, ₹833.84 Crore, ₹569.52 Crore and ₹241.11 Crore, respectively, and our profit after tax was ₹410.27 Crore, ₹633.53 Crore, ₹346.38 Crore and ₹214.61 Crore, respectively. Our loans (on a gross basis) outstanding increased from ₹23,547.84 Crore as at March 31, 2020 to ₹33,930.61 Crore as at March 31, 2022, at a CAGR of 20.04%. This business growth and future business growth could place significant demands on our operational, credit, financial and other internal risk controls. Rapid growth could expose us to a wide range of increased risks, including business risks, such as the possibility that some of our loans may become impaired faster than anticipated, as well as operational risks, fraud risks and regulatory and legal risks. Our growth may also exert pressure on our capital adequacy, making management of asset quality increasingly important. Our growth also increases the challenges involved in preserving and improving our internal administrative, technological and physical infrastructure. Addressing the challenges arising from our growth would put significant demands on our management and other resources.

Although we started our operations in 1987, our loans have been increasing, showing a CAGR of 20.04% over last three fiscal years. Accordingly, a part of our loan portfolio is relatively new and unseasoned.

We intend to grow our loan portfolio, income and profits by leveraging on inherent strengths towards providing loans at competitive rates, entering into consortium and/or co-financing with other lenders for financing large size renewable energy projects, by diversifying customer and financial portfolio and maintaining strong asset quality through continued

focus on risk management among others. Further, to boost our equity base and net worth, the Government of India infused an additional capital of ₹1500.00 Crore on March 28, 2022 into our Company by way of a rights issue that was completed on March 31, 2022, which will enable us to pursue additional lending opportunities in the renewable energy sector.

We cannot assure you that we will be able to sustain our growth or that we will be able to further expand our loan portfolio. As we grow and diversify, we may not be able to implement, manage or execute our strategy efficiently in a timely manner or at all, which could adversely affect our business, results of operations and financial condition.

16. We are subject to capital adequacy requirements and other requirements imposed by the RBI. Any failure to meet these requirements or any change by the RBI in the regulatory regime for Government NBFCs, may adversely affect our business, results of operations and financial condition.

We are a non-deposit taking Government owned NBFC, and we are required to maintain a CRAR above 12% as on March 31, 2020; 13% as on March 31, 2021 and 15% by March 31, 2022. Our CRAR was 23.55% as at September 30, 2022.

The RBI continues to prescribe higher risk weights to unrated loan exposure to Banks than NBFCs. If the RBI prescribes such a requirement of higher risk weights on a NBFC like us, it will have significant impact on Tier 1 capital requirements. If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier 1 capital to continue to meet applicable capital adequacy ratios. Any equity financing or other Tier 1 financing, if available at all, may be on terms that may not be favourable to us.

There may be future changes in the regulatory system or in the enforcement of the laws and regulations, including policies or regulations or legal interpretations of existing regulations, relating to or affecting interest rates, taxation, inflation or exchange controls that could have an adverse effect on non-deposit taking NBFCs. In addition, we are required to make various filings with the RBI, the RoC and other relevant authorities pursuant to the provisions of the RBI regulations, Companies Act and other regulations. If we fail to comply with these requirements, or a regulator claims we have not complied with such requirements, we may be subject to penalties. Moreover, these laws and regulations can be amended, supplemented or changed at any time such that we may be required to restructure our activities and incur additional expenses in complying with such laws and regulations, which could materially and adversely affect our business. In addition, any historical or future failure to comply with the terms and conditions of our existing regulatory or statutory approvals may cause us to lose or become unable to renew such approvals.

Our Company, continues to follow exposure norms as prescribed by RBI and approved by our Board of Directors, which are set out below:

Lending Ceilings	Percentage
Lending to any single borrower	15+5*
Lending to any single group of borrowers	25+10*

**As per RBI guidelines, the NBFC may exceed the concentration of credit by 5% for any single borrower and by 10% for a single group of borrowers for infrastructure loans. Since Renewable Energy projects falls under the infrastructure category, the 5% and 10% additional exposure limits are available to us.*

The RBI vide a letter dated March 22, 2021 has acceded to our request seeking relaxation from credit concentration norms for another two years until March 31, 2023 for exposure of 60% (for the solar and wind sectors) of our net worth. Borrowers the solar and wind sectors can receive lending up to 60% of our net worth for group exposure levels.

In addition, the RBI conducts periodic on-site inspections on matters relating to, among other things, our portfolio, risk management systems, credit concentration risk, counterparty credit risk, internal controls, credit allocation, systems and information technology infrastructure and regulatory compliance. Any significant deficiencies identified by the RBI that we are unable to rectify to the RBI's satisfaction could lead to sanctions and penalties imposed by the RBI, as

well as expose us to increased business and credit risks.

- 17. We may fail to obtain certain regulatory approvals in the ordinary course of our business in a timely manner or at all, or to comply with the terms and conditions of our existing regulatory approvals and licenses which may have a material adverse effect on the continuity of our business and may impede our effective operations in the future. In addition, our business is subject to periodic inspections by the RBI, and our non-compliance with observations made by the RBI during these inspections could expose us to penalties and restrictions.**

We may require certain new regulatory approvals, sanctions, licenses, registrations and permissions for operating and expanding our business. We may not receive or be able to renew such approvals in the time frames anticipated by us, or at all, which could adversely affect our business. If we do not receive, renew or maintain the regulatory approvals required to operate our business in a timely manner or at all, we may be subjected to sanctions and penalties pursuant to inspection and supervision by regulatory authorities, including the RBI and it may have a material adverse effect on the continuity of our business and may impede our effective operations in the future.

In addition to the numerous conditions required for the registration as an NBFC with the RBI, we are required to maintain certain statutory and regulatory permits and approvals for our business. In the future, we will be required to renew such permits and approvals and obtain new permits and approvals for any proposed operations. There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time frame anticipated by us, or at all. Failure by us to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

The RBI conducts periodic on-site inspections on all matters addressing our operations as a NBFC and relating to, among other things, our portfolio, risk management systems, credit concentration risk, internal controls, credit allocation and regulatory compliance. During the course of finalizing this inspection, the RBI inspection team shares its findings and recommendations with us and provides us an opportunity to provide clarifications, additional information and, where necessary, justification for a different position, if any, then that observed by the RBI. The RBI incorporates such findings in its final inspection report and, upon final determination by the RBI of the inspection results, we are required to take actions specified therein by the RBI to its satisfaction, including, without limitation, requiring us to make provisions, impose internal limits on lending to certain sectors and tighten controls and compliance measures and restricting our lending and investment activities. Any significant deficiencies identified by the RBI that we are unable to rectify to the RBI's satisfaction could lead to sanctions and penalties imposed by the RBI, as well as expose us to increased risks.

Any failure to meet regulatory requirements could materially and adversely affect our reputation, business, financial condition, cash flows, results of operations, pending applications or requests with the regulators and our ability to obtain the regulatory permits and approvals required to expand our business.

- 18. We operate a 50 MW solar project in Kerala which may be subject to tariff changes by Kerala State Electricity Regulatory Commission (KSERC) which may adversely affect the financial viability of the project.**

We were the developer, and we are now the operator, of a 50 MW Solar Photovoltaic Project in Kasaragod Solar Park in the State of Kerala. The project was part commissioned in December 2016 and fully commissioned in September 2017. We have entered a power purchase agreement with the Kerala State Electricity Board Limited for the project, which has set the tariff rate ₹4.95/unit, subject to approval of the KSERC. The KSERC has passed an order for the tariff to be set at ₹3.83/ unit, and, accordingly, the power generation revenue for the project has been accounted for at this rate since Fiscal 2018. Any further downward revision of the tariff rates by the KSERC may adversely affect the financial viability of the project. There may be variation in solar power generation as well as interruption in operation of the solar power plant which may lead to revenue loss.

Further, we are eligible for certain special tax benefits in respect of the project which might not be available to us in

future which also could adversely affect the profitability of the project.

19. *We may face asset-liability mismatches that could adversely affect our cash flows, financial condition and results of operations.*

In past, our funding requirements primarily have been met through a combination of equity investments by the Government, the issuance of secured and unsecured non-convertible debentures and unsecured and secured long-term loans made available from domestic as well as multilateral and bilateral institutions. We may face liquidity risks due to mismatches in the maturity of our assets and liabilities. If we are unable to effectively manage our funding requirement and the financing we provide (which may be aggravated if our borrowers are unable to repay any of the financing facilities we grant to them or if we are unable to obtain additional credit facilities in a timely and cost effective manner, or at all), we may have mismatches in our assets and liabilities, which in turn may adversely affect our liquidity, results of operations and financial condition.

20. *Our borrowers that relied upon Renewable Energy Certificates (RECs) as part of their project cash flow and financial models may experience financial and cash flow issues as the market for RECs has not been realized as originally expected.*

Renewable Purchase Obligations (RPOs) are the obligation imposed by the Electricity Act, 2003 on the State DISCOMs and other large consumers of power to either buy electricity generated by specified renewable energy sources, or buy, in lieu of that, renewable energy certificates (“RECs”) from the market. RECs are issued to companies that produce power from renewable power and to the eligible distribution licensee.

The Central Electricity Regulatory Commission (CERC) has taken a position that it does not have the jurisdiction to enforce the RPOs in the States and that the responsibility of setting RPO targets and implementation rests with the State Electricity Regulatory Commissions (SERCs). To date, some of the SERCs have not enforced RPOs. Furthermore, the market for RECs has not been matured as originally expected when the legislation was adopted. As a result, some of our borrowers that relied upon RECs as part of their project cash flow and financial models may experience cash flow shortfalls and other financial issues which in turn could increase our NPAs and adversely affect our business, results of operations and financial condition. However, revenue from REC sales has resumed, post the recent order of the Appellate Tribunal for Electricity’s (APTEL) to resume REC trading from November 24, 2021 after a ban on REC trading since July 2020.

21. *Our Company as well as our borrowers are required to comply with Government Policies in relation to our business. If we fail to comply with these policies or if we or our clients are required to comply with new or additional regulations or guidelines requiring reorganizing or restructuring, there may be an adverse effect on our business, results of operations and financial condition.*

We are a ‘Government Company’ under Section 2(45) of the Companies Act, 2013, and wholly owned by the Promoter. Our business and our sector depend, directly and indirectly, on the policies and support of the Government in many significant ways, including with respect to the cost of our capital, the financial strength of our borrowers, the management and growth of our business and our sector. Like any other public sector undertaking, the Government can influence key decisions about our Company, including with respect to the appointment and removal of members of our Board. We are required to follow the public policy directives of the Government by concentrating our financing on specific projects or sectors in the public interest.

Our borrowers are significantly impacted by the Government policies and support in a variety of ways. In particular, the Government has in the past made sustained increases to budgetary allocations towards projects and schemes generating energy through non-conventional and renewable material to encourage greater private sector participation. Since governmental entities are responsible for awarding concessions and maintenance contracts and are parties to the development and operation of such renewable energy projects, any withdrawal of support or adverse changes in their policies may lead to our financing agreements being restructured or renegotiated and could adversely affect our

business, results of operations and financial condition.

22. *If we fail to identify, monitor and manage risks and effectively implement our risk management policies, it could have a material adverse effect on our business, financial condition and results of operations.*

We believe we have developed comprehensive risk management policies and procedures. We place importance to actively managing and controlling our risk exposures. These processes include a detailed appraisal methodology, identification of risks and suitable structuring of credit risk mitigation measures. We have set up a Risk Management Committee to monitor various risks, examine risk management policies and practices and initiate action for mitigation of risks relating to our operations. Despite this, our policies and procedures to identify, monitor and manage risks may not be fully effective. Some of our risk management systems are not automated and are subject to human error. Some of our methods of managing risks are based upon the use of observed historical market behaviour. As a result, these methods may not be able to predict future risk exposures, which could be significantly greater than those indicated by the historical measures.

To the extent any of the instruments and strategies we use to hedge or otherwise manage our exposure to market or credit risk are not effective, we may not be able to mitigate effectively our risk exposures in particular market environments or against particular types of risk. Further, some of our risk management strategies may not be effective in a difficult or less liquid market environment, where other market participants may be attempting to use the same or similar strategies to deal with the difficult market conditions. In such circumstances, it may be difficult for us to reduce our risk positions due to the activity of such other market participants. Other risk management methods depend upon an evaluation of information regarding markets, clients or other matters. This information may not in all cases be accurate, complete, up-to-date or properly evaluated. To the extent our assessments, assumptions or estimates prove inaccurate or not predictive of actual results, we could suffer higher than anticipated losses.

If we fail to effectively implement our risk management policies, it could materially and adversely affect our business, financial condition, results of operations and cash flows.

We also take steps to establish and maintain compliance and disclosure procedures, systems and controls, and to maintain internal controls over financial reporting to produce reliable financial reports and prevent financial fraud. However, internal controls over financial reporting are reviewed on an ongoing basis as risks evolve, and the processes to maintain such internal controls involve human diligence and compliance and are subject to lapses in judgement and breakdowns resulting from human error. To the extent that there are lapses in judgement or breakdowns resulting from human error, the accuracy of our financial reporting could be affected, resulting in a loss of investor confidence and could adversely affect our reputation, business, results of operations and financial condition.

23. *The success of our business depends on our ability to attract and retain our senior management and high-quality employees, and the loss of their services could have a material adverse effect on our business, results of operations and financial condition.*

The success of our business to a large extent depends on the continued service of our senior management and various professionals and specialists, including information technology specialists, finance professionals, legal professionals and risk management specialists. Our senior and middle management personnel have significant experience and in-depth industry knowledge and expertise. As a result of ever-increasing market competition in the financial sector, the market demand and competition for experienced management personnel and finance professionals and specialists has intensified. We face a challenge to recruit and retain skilled personnel knowledgeable in the renewable energy sector to which we lend. Our business and financial condition could suffer if we are unable to retain our senior management, or other high-quality personnel, or cannot adequately and timely replace them upon their departure.

Moreover, we may be required to increase substantially the number of our professionals and specialists in connection with any future growth plans, and we may face difficulties in doing so due to the competition for such personnel. Our failure to retain or replace competent personnel could materially impair our ability to implement any plan for growth and expansion. Competition for quality employees among finance companies and other business institutions may also

necessitate increases in compensation and commissions, which would increase operating costs and reduce our profitability. As a GoI owned company, however, we may face difficulty in raising compensation in line with private industry employee expectations.

24. *Our Company continues to be controlled by the Promoter.*

The Promoter holds majority of the paid-up Equity Share capital of our Company. Consequently, the Promoter acting through the MNRE will continue to control us and will have the power to elect and remove the Directors and therefore determine the outcome of most proposals for corporate action requiring approval of the Board or the shareholders, including with respect to the payment of dividends, preparation of budgets, capital expenditure, and transactions with other public sector companies. We continue to be a public sector undertaking under the Companies Act, and the GoI may issue directives with respect to the conduct of our business or its affairs or change in control or impose other restrictions in terms of our Articles of Association.

25. *The interests of the Promoter as our controlling shareholder may conflict with the interests of other shareholders.*

Under our Articles of Association, the Promoter, by holding a majority of our Equity Share capital may issue directives with respect to the conduct of our business or our affairs for as long as we remain a Government company, as defined under the Companies Act. The interests of the Promoter may be different from our interests or the interests of other shareholders. As a result, the Promoter may take actions with respect to our business and the businesses of our peers and competitors, designed to serve the public interest in India and not necessarily to maximize profits. In addition, as a result of our controlling ownership by the Promoter, we are required to adhere to certain restrictions with respect to the types of investments we may make using our cash balances, which may restrict us from entering into certain investments providing a higher rate of return. The Promoter will retain control over the decisions requiring adoption by our shareholders and could exercise its powers of control, delay or defer or initiate a change of control of our Company or a change in our capital structure, delay or defer a merger, consolidation, or discourage a merger with another public sector undertaking.

B. EXTERNAL RISKS

1. *Any downturn in the macroeconomic environment in India could adversely affect our business, results of operations and financial condition.*

We are incorporated in India and all of our funded projects, and companies to which we have extended borrowings are located in India. As a result, our results of operations and financial condition are significantly affected by factors influencing the Indian economy. Any slowdown in economic growth in India could adversely affect us, including our ability to grow our asset portfolio, the quality of our assets and our ability to implement our strategy. In addition, an increase in India's trade deficit, a downgrading in India's sovereign debt rating or a decline in India's foreign exchange reserves could increase interest rates and adversely affect liquidity, which could adversely affect the Indian economy and our business, results of operations and financial condition.

2. *Recent global economic conditions have been unprecedented and challenging and continue to affect the Indian market, which may adversely affect our business, results of operations and financial condition.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in

Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any of these factors could depress economic activity and restrict our access to capital, which could have a material adverse effect on our business, results of operations and financial condition and reduce the price of our equity shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our equity shares.

3. *Difficulties faced by other financial institutions or the Indian financial sector generally could adversely affect us.*

We are exposed to the risks of the Indian financial system, which may be affected by the financial difficulties faced by certain Indian financial institutions because the commercial soundness of many financial institutions may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is referred to as "systemic risk", may adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges with whom we interact on a daily basis. Our transactions with these financial institutions expose us to credit risk in the event of default by the counterparty, which can be exacerbated during periods of market illiquidity. The problems faced by individual Indian financial institutions and any instability in or difficulties faced by the Indian financial system generally could create adverse market perception about Indian financial institutions. This in turn could adversely affect our business, results of operations and financial condition.

4. *Any downgrade of credit ratings of India may adversely affect our ability to raise debt financing. India's sovereign ratings reflect an assessment of the Indian government's overall financial capacity to pay its obligations and its ability or willingness to meet its financial commitments as they become due.*

No assurance can be given that any statistical rating organization will not downgrade the credit ratings of India. Any such downgrade could adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance.

5. *A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition.*

Flows to foreign exchange reserves can be volatile, and past declines may have adversely affected the valuation of the Rupee. Further declines in foreign exchange reserves, as well as other factors, could adversely affect the valuation of the Rupee and could result in reduced liquidity and higher interest rates that could adversely affect our future financial performance and the market price of the equity shares.

6. *Our ability to raise foreign capital may be constrained by Indian law, which may adversely affect our business, financial condition, cash flows and results of operations.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, if at all. Limitations on raising foreign debt may have an adverse effect on our business, financial condition, cash flows and results of operations.

7. *If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business, and results of operations.*

Any change in tax laws, including for indirect taxes, may result in us no longer being able to enjoy the existing exemptions/ benefits, available to us, which could adversely impact our profitability. If there is an upward revision to the currently applicable special corporate tax rates, our tax burden will increase. Other benefits such as inapplicability of minimum alternate tax rates, as applicable to other corporates, exemption for income earned by

way of dividend from investments in other domestic companies and units of mutual funds.

8. ***Communal disturbances, riots, terrorist attacks, other acts of violence or war involving India and/or other countries, health epidemics and natural calamities or similar events that are beyond our control could adversely affect India's economy and the financial markets, result in loss of client confidence, and adversely affect the price of our equity shares, our business results of operations and financial condition.***

India has experienced communal disturbances, terrorist attacks and riots during recent years. Any major hostilities or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business and may adversely affect the Indian stock markets where our equity shares will trade as well as global equity markets generally. Such acts could negatively impact business sentiment and consumer confidence, which could adversely affect our business and results of operations.

India and other countries may enter armed conflict or war with other countries or extend pre-existing hostilities. Military activity or terrorist attacks could adversely affect the Indian economy by, for example, disrupting communications and making travel more difficult. Such events could also create a perception that investments in Indian companies involve a higher degree of risk. This could adversely affect client confidence in India, which could have a negative impact on the economies of India and other countries, on the markets for our products and services and on our business.

9. ***Natural disasters, acts of war, political unrest, epidemics, terrorist attacks or other events which are beyond our control, may cause damage, loss or disruption to our business and have an adverse impact on our business, financial condition, results of operations and growth prospects.***

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we export our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the equity shares. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID- 19 virus. A worsening of the current outbreak of COVID-19 pandemic or future outbreaks of COVID-19 virus or a similar contagious disease could adversely affect the Indian economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business.

10. ***India has also experienced natural calamities such as earthquakes, floods, drought and a tsunami in the recent past. The length and severity of these natural disasters determine the extent of their impact on the Indian economy. Prolonged spells of abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy.***

Such events could have a material adverse effect on the market for securities of Indian companies, including the equity shares, and adversely affect our business, results of operations and financial condition.

C. RISKS RELATING TO INVESTMENT IN THE BONDS

11. ***There is no guarantee that the Bonds issued pursuant to this Issue will be listed on NSE and BSE in a timely manner, or at all.***

In accordance with Indian law and practice, permissions for listing and trading of the Bonds issued pursuant to this Issue will not be granted until the relevant stock exchanges as well as SEBI approve of the listing, which will be available only after an updated document is accordingly filed with the relevant authorities at the time of such listing. Approval for listing and trading will require all relevant documents authorizing the issuing of Bonds to be submitted. There could be a failure or delay in listing the Bonds on the NSE and/or BSE. If permission to deal in and for an official quotation of the Bonds is not granted by the Stock Exchanges, the Bonds will remain unlisted.

12. *There has been only a limited trading in the Bonds of such nature and the same may not develop in future, therefore the price of the Bonds may be volatile.*

There has been only a limited trading in bonds of such nature in the past. Although the Bonds shall be listed on NSE and BSE, there can be no assurance that a public market for these Bonds would be available on a sustained basis. The liquidity and market prices of the Bonds can be expected to vary with changes in market and economic conditions, our financial condition and prospects and other factors that generally influence market price of Bonds. Such fluctuations may significantly affect the liquidity and market price of the Bonds, which may trade at a discount to the price at which the Bonds are being issued.

Further, the price of our Bonds may fluctuate after this Issue due to a wide variety of factors, including:

- Changes in the prevailing interstate;
- Volatility in the Indian and global securities markets;
- Our operational performance, financial results and our ability to expand our business;
- Developments in India's economic liberalization and deregulation policies;
- Changes in India's laws and regulations impacting our business;
- Changes in securities analysts' recommendations or the failure to meet the expectations of securities analysts;
- The entrance of new competitors and their positions in the market; and
- Announcements by our Company of its financial results.

We cannot assure that an active trading market for our Bonds will be sustained after this Issue, or that the price at which our Bonds are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue.

13. *Foreign Investors, including Eligible NRIs, FIIs and Eligible QFIs subscribing to the Bonds are subject to risks in connection with (i) exchange control regulations, and, (ii) fluctuations in foreign exchange rates.*

The Bonds will be denominated in Indian rupees and the payment of interest and redemption amount shall be made in Indian rupees. Various statutory and regulatory requirements and restrictions apply in connection with the Bonds held by Eligible NRIs, FIIs and Eligible QFIs ("Exchange Control Regulations"). Amounts payable to Eligible NRIs, FIIs and Eligible QFIs holding the Bonds, on redemption of the Bonds and/or the interest paid/payable in connection with such Bonds or the amount payable on enforcement of security would accordingly be subject to prevailing Exchange Control Regulations in case of applicants who have invested on repatriation basis.

Any change in the Exchange Control Regulations may adversely affect the ability of such Eligible NRIs, FIIs and Eligible QFIs to convert such amounts into other currencies, in a timely manner or at all. Further, fluctuations in the exchange rates between the Indian rupee and other currencies could adversely affect the amounts realized by Eligible NRIs, FIIs and Eligible QFIs on redemption or payment of interest on the Bonds by us. Additionally, our Bonds are quoted in Indian rupees in India and Investors may be subject to potential losses arising out of exchange rate risk on the Indian rupee and risks associated with the conversion of Indian rupee proceeds into foreign currency. Investors are subject to currency fluctuation risk and convertibility risk since the Bonds are quoted in Indian rupees on the Indian stock exchanges on which they are listed. Returns on the Bonds will also be paid in Indian rupees. The volatility of the Indian rupee against the U.S. dollar and other currencies subjects Investors who convert funds into Indian rupees to purchase our bonds to currency fluctuation risks.

- 14. *Investor may not be able to recover, on a timely basis or at all, the full value of the outstanding amounts and/or the interest accrued thereon in connection with the Bonds.***

Our ability to pay interest accrued on the Bonds and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including our financial condition, profitability and the general economic conditions in India and the global financial markets. We cannot assure you that we would be able to repay the principal amount outstanding from time to time on the Bonds and/or the interest accrued thereon in a timely manner, or at all.

- 15. *Changes in prevailing interest rates may affect the price of the Bonds.***

All securities where a fixed rate of interest is offered, such as the Bonds, are subject to price risk. The price of such securities will vary inversely with changes in prevailing interest rates, i.e., when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon rate, days to maturity and the increase or decrease in the level of prevailing interest rates. Increased rates of interest, which frequently accompany inflation and/or a growing economy, are likely to have a negative effect on the trading price of the Bonds.

- 16. *Legal investment considerations may restrict certain investments***

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) the Bonds are legal investments for it, (ii) the Bonds can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of Bonds.

- 17. *The Bonds are subject to the risk of change in-law.***

The terms and conditions of the Bonds are based on Indian law in effect as of the date of issue of the relevant Bonds. No assurance can be given as to the impact of any possible judicial decision or change to Indian law or administrative practice after the date of issue of the relevant Bonds and any such change could materially and adversely impact the value of any Bonds affected by it.

- 18. *No debenture redemption reserve will be created for the Bonds issued under this issue since as per Companies (Share Capital & Debentures) Rules, 2014, as amended (“Debentures Rules”), or NBFC’s registered with the RBI under Section 45-1A of the RBI (Amendment) Act, 1997, no DRR is required in the case of privately placed debenture.***

According to the Companies (Share Capital and Debentures) Rules, 2014, or NBFCs registered with the RBI under Section 45-1A of the RBI (Amendment) Act, 1997 no DRR is required in case of privately placed debentures. Therefore, creation of DRR is not envisaged against the Bonds being issued under the terms of this Private Placement Memorandum.

D. GENERAL RISK

Investment in bonds involve a degree of risk and investors should not invest any funds in such securities unless they can afford to take the risk attached to such investments. Investors are advised to take an informed decision and to read the risk factors carefully before investing in this offering. For taking an investment decision, investors must rely on their examination of the Issue including the risks involved in it. Specific attention of investors is invited to statement of risk factors contained under this Section VI of this Private Placement Memorandum. These risks are not, and are not intended to be, a complete list of all risks and considerations relevant to the bonds or investor’s decision to purchase such Bonds.

SECTION VII

BRIEF HISTORY OF ISSUER SINCE INCORPORATION, DETAILS OF ACTIVITIES INCLUDING ANY REORGANIZATION, RECONSTRUCTION OR AMALGAMATION, CHANGES IN CAPITAL STRUCTURE (AUTHORIZED, ISSUED AND SUBSCRIBED) AND BORROWINGS

1. CONSTITUTION

IREDA is a Public Sector Enterprise wholly owned by GoI under the administrative control of Ministry of New and Renewable Energy, incorporated on March 11, 1987 under the Companies Act. IREDA was declared as a Public Financial Institution under Section 4A of the Companies Act, 1956 and registered as Non-Banking Financial Company under Section 45-IA of the RBI Act, 1934 and classified as “Investment and Credit Company (NBFC-ICC)”. IREDA has been conferred as Mini-Ratna PSU status by the GoI.

2. BRIEF SUMMARY OF BUSINESS/ ACTIVITIES OF ISSUER AND ITS LINE OF BUSINESS

We are a domestic financial institution with more than three decades of experience in the Indian renewable energy sector. We provide financial assistance to renewable energy projects, companies, and manufacturers in India for power generation, equipment supplies and fuel source projects including wind power, solar power, hydro power, biomass, co-generation, and waste to energy as well as energy efficiency and conservation. Our comprehensive suite of financial products and services includes various fund-based financial products including long-term and short-term project and manufacturing loans/ loans to government entities, Top up loans, take out financing, bridge loans, securitization of project/GBI receivables, Factoring for purchasing receivables for purchasing receivables of solar power developers payable by eligible govt. entities, various financing schemes for renewable energy suppliers, manufacturers and contractors as well as non-fund based assistance, like performance guarantees, letters of comfort, letters of undertaking.

Currently, we are a 100% GoI owned enterprise under the administrative control of the Ministry of New and Renewable Energy (the “MNRE”). Our Company is a “Public Financial Institution” (a “PFI”) under Section 2(72) of the Companies Act, 2013 and is registered as a non-banking financial company (a “NBFC”) with the Reserve Bank of India (the “RBI”). We believe that our classification as a PFI enhances our ability to raise funds on a cost-competitive basis (including through the issuance of various types of bonds that offer certain tax benefits to the Bondholders). We also were conferred with the Mini Ratna (Category 1) status in June 2015 by the Department of Public Enterprises.

We were established as an integral part of, and have played a strategic role in, the GoI’s initiatives for the promotion and development of the renewable energy sector in India. We have been involved in the development and implementation of various policies and structural and procedural reforms in the renewable energy sector. Under the IREDA-NCEF Refinancing Scheme, we utilize funds received from the National Clean Energy Fund (“NCEF”) to refinance renewable energy projects for biomass (up to 10MW) and small hydro (up to 5MW). We have also been involved in various GoI programs for the development of renewable energy sector including the Wind GBI Scheme, the Solar GBI Scheme and the Solar Water Heating System Capital Subsidy Scheme. We are the implementing agency of the Production Linked Incentive (“PLI”) Scheme as well as Central Public Sector Undertaking (CPSU) Scheme Phase-II on behalf of the MNRE.

3. HIGHLIGHTS OF IREDA

- A. IS/ISO 9001:2008, 27001:2013 Certified company
- B. Profit earning since inception.
- C. Programmes Classified “Socially Oriented” by Planning Commission
- D. MOU signing since 1992-93
- E. Notified as a Public Financial Institution under Section 4A of Companies Act.
- F. Non-Banking Finance Company (NBFC) as per RBI Classification.

- G.** Upgraded from 'Schedule C' to 'Schedule B' Central Public Sector Enterprise
- H.** 'Mini Ratna' Category-I
- I.** IREDA's Motto is "Energy for Ever"
- J.** To give financial support to specific projects and schemes for generating electricity and / or energy through new and renewable sources and conserving energy through energy efficiency.
- K.** To increase IREDA's share in the renewable energy sector by way of innovative financing.
- L.** Improvement in the efficiency of services provided to customers through continual improvement of systems, processes and resources.

4. MISSION'S STATEMENT

"Be a pioneering, participant friendly and competitive institution for financing and promoting self-sustaining investment in energy generation from Renewable Sources, Energy Efficiency and Environmental Technologies for sustainable development".

5. VISION STATEMENT

"Expanding & transitioning renewable energy towards affordability, scalability & establishing sustainability in the country."

6. MAIN OBJECTS OF THE COMPANY

The main objects as contained in the Memorandum of Association are as follows:

- A.** "To operate a revolving fund for promoting and developing new and renewable and non-conventional sources of energy (NRSE).
- B.** To give financial support to specific projects and schemes for generating energy through non-conventional and renewable materials and sources.
- C.** To extend financial support to projects and schemes for generating energy through renewables / hybrid energy systems (conventional-cum-renewables or renewables and renewables); and conserving energy and / or energy efficiency of renewables/conventional energy.
- D.** To provide financial support to manufactures of new and renewable sources of energy systems and devices.
- E.** To provide financial assistance for leasing out or to directly lease out NRSE (New and Renewable Sources of Energy) equipment to individuals and institutions.
- F.** To function as financial intermediary with the financial institutions on behalf of NRSE industries.
- G.** To undertake evaluation of the performance of the scheme for which financial assistance is granted by the Company.
- H.** To partially finance renovation and modernization of industries engaged in manufacturing NRSE systems and devices.
- I.** To partially finance schemes aimed at revival of the NRSE systems and devices, already established.
- J.** To finance partially, in collaborating with other financial institutions, innovative projects based on NRSE by providing seed money.
- K.** To partially finance maintenance and repair of capital equipment including facilities for repair of such equipment, training of manpower employed in this area.
- L.** To partially finance surveys, studies, schemes, experiments and research activities associated with various aspects of technology in energy development and supply through new and renewable sources of energy.
- M.** To promote, organize or carry on consultancy services in the related activities of the Company, referred to in paras (1) to (12) above.
- N.** To assist in promoting selected pilot and demonstration projects related to the activities of the Company.
- O.** To monitor periodically the progress of the projects financed by the Company.
- P.** To finance schemes/ projects for generating conserving energy, especially in rural areas.
- Q.** To assist in the rapid commercialization of NRSE technologies, systems and devices.
- R.** To assist in upgradation of technologies in the country through appropriate means including their importation.

- S. To own, develop, set up projects for generation in Solar, Wind & Hydro Power sectors and all other forms of renewable energies both grid connected and off-grid and all ancillary activities thereto including planning, investigation, design and preparation of preliminary feasibility and definite project Reports, construction, generation, comprehensive operation, maintenance, renovation and modernization of power stations and projects, associated transmission, distribution and sale, exchange of power generated at stations in India and abroad, either on its own or through subsidiary company or in joint venture with public or private sectors.”
- T. (a) To provide finance or financial services, in India or abroad, to the following;
- entities engaged in generation, transmission, distribution or storage of Renewable Energy;
 - other projects/activities related to Renewable Energy including those which pertain to e-mobility;
 - projects/activities pertaining to energy efficiency; and
 - activities referred to in clause 1 to 19 above.
- (b) To develop/issue/float/participate/promote new financial instruments and/or products and to manage, services the same in relation to activities referred in Clause (a) above;
- (c) To form, manage, participate in trusts/funds/factoring business, and to act as administrators/managers/sponsors/authors of such entities as are formed in relation to activities referred in Clause(a) above; and
- (d) To promote, undertake, manage or dispose of any special purpose entity or body corporate for carrying out the activities referred in Clause (a) above.

The main objects to be pursued by our Company and the matters necessary in furtherance of the objects as contained in our Memorandum of Association enable our Company to carry on business presently being carried out.

7. QUALITY POLICY

Committed to maintain its position as a leading organization to provide innovative financing in Renewable Energy & Energy Efficiency/Conservation and Environmental Technologies through efficient system & processes for providing total satisfaction and transparency to its customer. Strive for continual improvement in the quality of services to its customers through effective quality management system.

8. QUALITY OBJECTIVES

- Drive towards total customer satisfaction.
- Continual up-gradation of capability and improvement in the professional skills of employees.
- Improvement in efficiency of services provided to customer
- Continual improvement of systems, process and services.

(i) FUTURE OUTLOOK

- High projected economic growth requires corresponding growth in energy.
- GoI plans to have installed capacity of 175GW from Renewable by 2022 and further enhanced target of 500 GW by 2030.

(ii) OUR PRODUCTS AND Services

We are primarily engaged in providing finance to projects, companies, manufactures and schemes that generate energy through new or renewable energy sources, through debt financing.

We operate from our corporate office and registered office in New Delhi, our branch offices in Mumbai, Chennai, Bhubaneshwar and Hyderabad.

We provide financial assistance to the renewable and energy efficiency projects including wind power, solar

power, hydro power, biomass, co-generation and waste to energy as well as energy efficiency and conservation, E-mobility and new technologies such as battery energy storage systems and green hydrogen.

Fund Based Products

We offer the following financial products:

- Term loans for renewable energy and energy efficiency and conservation projects and equipment financing;
- Term loans for renewable energy manufacturing;
- Take-out financing from banks and financial institutions;
- Short term loans to renewable energy developers and suppliers;
- Term loans to Government entities including DISCOMs, transmission companies and state-owned trading companies;
- Project specific funding;
- Co-financing and consortium financing;
- Factoring scheme for purchasing receivables of solar power developers payable by eligible entities (Central Government entities/Government owned companies/State entities with good payment track records);
- Bridge loans for solar viability gap funding and generation-based incentives;
- Securitization of receivables;
- Lines of credit to NBFCs for on- lending to RE/EEC projects;
- Policies for underwriting debt and loan syndication;
- Loan scheme for financing of rooftop solar grid connected and interactive power projects;
- “Access to Energy” scheme under a KfW line of credit;
- Policies for financing of transmission projects;
- Top-up loan scheme;
- Loans under Guaranteed Emergency Credit Line (“GECL”);
- Scheme for financing manufacturing of biomass pellets, briquettes, torrefied pellets and refuse derived fuels;
- Scheme for power generation through biomass gasifiers;
- Scheme for financing of biomass projects for heating applications for commercial use;
- Financing scheme for setting up of new ethanol distilleries and expansion of distillery production;
- Comprehensive policy for financing new technologies for promoting and increasing usage/penetration of renewable energy & funding of green mobility segment;

- Loan Scheme to promote the Concentrating Solar Thermal (CST) projects in India for Industrial Process Heat Applications;
- Loan scheme for “Compressed Bio- Gas (CBG)” under SATAT Scheme; and
- Special product for funding renewable energy project through bonds, banks loans and other financial instruments.

Non-fund Based Products

- Letters of Comfort and Undertaking;
- Credit Enhancement Scheme;
- Guarantee assistance scheme to renewable energy suppliers, manufacturers and EPC contractors;

(iii) BUSINESS STRATEGY

Our objective is to devise and offer innovative financing and consolidate our position as the leading financial institution in the renewable energy sector. To fulfil this goal, we plan to pursue the strategies set forth below.

Continue to leverage our industry expertise and relationships to capitalize on the expected growth in the Indian renewable energy sector

The MNRE has set a target of renewable energy capacity addition of 175 GW by 2022, comprising 100 GW of solar power, 60 GW of wind power 10 GW of biomass power and 5 GW of small hydro, with a clear roadmap supported by policy and regulatory support for the sector. The target has been further increased to 500 GW by 2030.

Our plan is to continue to leverage our industry expertise and relationships to capitalize on the expected growth in the Indian renewable energy sector. With over three decades of experience, we are one of the preferred financing providers for the renewable energy sector in India. Our relationships with the Central and State governments, various regulatory authorities, significant power and renewable energy sector organizations, Central and State power utilities, private sector project developers, as well as other intermediaries in the renewable energy sector will further helps us in capitalizing the growth.

Expand and diversify our products and services

We believe that our diverse offering of financial products and services to a wide range of projects and businesses in the renewable energy sector has been an important competitive advantage over other lenders currently operational and entering the renewable energy financing domain. Our strategic focus will be to continue to expand our financial products and services offering as well as to diversify the types of projects and customers that we serve.

We have identified the following key areas for diversification and expansion.

- More focus on Solar-Wind Hybrid (WSH) – Having rich experience in funding solar and wind projects in India, WSH can become a next go-to-technology for IREDA to fund.
- Solar Pumps - KUSUM scheme offers huge opportunity for IREDA to fund these projects.
- Electric Vehicles and Charging Infrastructure - The market size for EV and EVCI is huge
- CBG - CBG, not a new technology for IREDA, but with the SATAT scheme targeting 5000 CBG plants, many developers are coming forward to implement CBG plants
- Battery Manufacturing - Battery manufacturing is gaining developer attraction in India
- Battery Storage/RTC – Since round the clock (RTC) is foreseen as the future to manage the grid issues'
- Hydrogen – The National Hydrogen Mission would provide ample opportunities in this space,

- Offshore wind - GoI has set a target of 30 GW by 2030.

Continue to focus on improving the credit quality of our loan book

We will continue to focus on improving the credit quality of our loan book with the goal of reducing our NPA levels. We aim to identify credit issues among renewable energy borrowers and address these issues by modifying our underlying policies and procedures. For example, to address our NPAs that have arisen from credit problems in biomass, co-generation, waste to energy and small hydro power projects, we reduced our funding of biomass, co-generation (Main loan may be limited to 50% (fifty percent) of the project cost), and small hydro power projects (for projects of more than 15 MW capacity) to not more than 50% (fifty percent) of the project cost. We have made the major focus of our funding in the wind and solar sectors.

We also intend to improve our monitoring and recovery process to improve our collections on existing impaired loans. We review our debt repayment positions on a regular basis to identify potentially problematic loans at an early stage and prepare for immediate corrective action to ensure recovery from these loans.

Continue to focus on improving processes and delivery

With the goal of client retention and generating new business development opportunities, we are focused on improving our delivery processes to customers including lowering transaction costs, expanding our geographic reach, improving customer satisfaction and reducing transaction time.

Lowering transaction costs

We intend to reduce the transaction cost of our customers. For example, we are working to lower customer costs through

- our online loan application for customers to facilitate submission of loan applications through our website as a step towards making processes more transparent, system driven and to reduce cost; and
- an operationalized customer portal to facilitate our customers view of the status of their applications and projects and repayment schedules online.

Improving customer satisfaction

Our endeavor is to improve customer satisfaction through technological intervention, reducing the transaction time and continuous improvement and simplification of systems and processes.

Increase our market visibility to new and existing renewable energy borrowers

We believe that we have developed a trusted position as a provider of financing products and services in the Indian renewable energy market. As the Indian banking and financial sector continues to become more competitive, we intend to increase the market visibility of our product and service offering and our brand. We were the first Indian company to raise green masala bonds from the international market with listings on international exchanges (SGX and LSE). For the last three decades, we have been supporting establishment of renewable energy projects and have been successful in the commercialization of sustainable energy technologies in India by introducing various innovative schemes for development and financing of the sector.

Income Tax

Income Tax Cases - AY 1998-99 – AY 2009-10:

The Income Tax cases for AY 1998-99 to AY 2002-03 were referred back on the direction of Hon'ble High Court of Delhi to Hon'ble ITAT and Hon'ble ITAT to the Assessing Officer and Income Tax cases for AY 2003-04 to AY 2009-10 were referred back on the direction of Hon'ble ITAT to the Assessing Officer (referred as AO). The AO had not passed the order on these cases within the statutory time limit prescribed under the Act. Earlier the company had deposited the taxes under protest on the basis of demand raised for the aforementioned Assessment Years.

In view of the foregoing, the demands paid over and above the tax payable as per returns filed became refundable. Accordingly, during Financial Year 2018- 19, a Writ petition has been filed with Hon'ble High Court to issue the necessary directions to the department to grant the refund for the aforementioned years. The Hon'ble High Court at Delhi had passed an interim order as under—"In the meanwhile, the respondents are permitted to proceed and complete the assessment orders and not give effect to it or take any coercive action." Final decision in the matter is still pending.

The Company is in receipt of Intimation U/s 143(1) for AY 2020-21, wherein certain addition has been made to the returned income and demand of ₹ 17,033.48 Lakhs (including interest) has been raised . Such amount was already disallowed by the company while filling the Income Tax Return. As the same is a mistake apparent from records , the company has filed an application for rectification u/s 154 as well as petition for revision under Section 264 of the Income Tax Act, 1961 respectively, therefore the same is not considered for disclosure as a contingent liability.

Service Tax

The Company is in receipt of Notice of Demand/Order from the Commissioner, Adjudication, Central Tax, GST Delhi East vide no GST-15/Adju/DE/IREDA/71/2017-18/3706-08 dated 15.03.2022. In the Order, the adjudicating Commissioner has raised the demands on IREDA amounting to ₹ 11,709.11 Lakhs for Financial year 2012-13 to 2015-16. Although the company contends that entire demand is barred by limitation, it has provided for ₹ 1,101.41 Lakhs including interest on conservative basis. Based on law and facts in the matter, Service Tax demand (including interest) of ₹ 19,993.88 Lakhs has been disclosed as contingent liability.

Further, since the company is a government enterprise, no mala fide intention can be attributed to it and thus, extended period of limitation ought not to be invoked based on certain decisions of Hon'ble Supreme Court in such cases and hence the penalty has not been considered for disclosure as a contingent liability.

³Refers to the cases pending before Hon'ble High Court of Delhi in the form of Writ Petition against the order of disciplinary authority for dismissal of staff from service of IREDA . There is no interim order in this matter.

¹ Income Tax

Income Tax Cases - AY 1998-99 – AY 2009-10:

The Income Tax cases for AY 1998-99 to AY 2002-03 were referred back on the direction of Hon'ble High Court of Delhi to Hon'ble ITAT and Hon'ble ITAT to the Assessing Officer and Income Tax cases for AY 2003-04 to AY 2009-10 were referred back on the direction of Hon'ble ITAT to the Assessing Officer (referred as AO). The AO had not passed the order on these cases within the statutory time limit prescribed under the Act. Earlier the company had deposited the taxes under protest on the basis of demand raised for the aforementioned Assessment Years. In view of the foregoing, the demands paid over and above the tax payable as per returns filed became refundable. Accordingly, during Financial Year 2018- 19, a Writ petition has been filed with Hon'ble High Court to issue the necessary directions to the department to grant the refund for the aforementioned years. The Hon'ble High Court at Delhi had passed an interim order as under-“In the meanwhile, the respondents are permitted to proceed and complete the assessment orders and not give effect to it or take any coercive action.” Final decision in the matter is still pending.

The Company is in receipt of Intimation U/s 143(1) for AY 2020-21, wherein certain addition has been made to the returned income and demand of ₹ 17,033.48 Lakhs (including interest) has been raised . Such amount was already disallowed by the company while filling the Income Tax Return. As the same is a mistake apparent from records , the company has filed an application for rectification u/s 154 as well as petition for revision under Section 264 of the Income Tax Act, 1961 respectively, therefore the same is not considered for disclosure as a contingent liability.

²Service Tax

The Company is in receipt of Notice of Demand/Order from the Commissioner, Adjudication, Central Tax, GST Delhi East vide no GST-15/Adju/DE/IREDA/71/2017-18/3706-08 dated 15.03.2022. In the Order, the adjudicating Commissioner has raised the demands on IREDA amounting to ₹ 11,709.11 Lakhs for Financial year 2012-13 to 2015-16. Although the company contends that entire demand is barred by limitation, it has provided for ₹ 1,101.41 Lakhs including interest on conservative basis. Based on law and facts in the matter, Service Tax demand (including interest) of ₹ 19,993.88 Lakhs has been disclosed as contingent liability.

Further, since the company is a government enterprise, no mala fide intention can be attributed to it and thus, extended period of limitation ought not to be invoked based on certain decisions

of Hon'ble Supreme Court in such cases and hence the penalty has not been considered for disclosure as a contingent liability.

³Refers to the cases pending before Hon'ble High Court of Delhi in the form of Writ Petition against the order of disciplinary authority for dismissal of staff from service of IREDA . There is no interim order in this matter.

The Bond will be redeemed at the registered office of IREDA on the expiry of the number of years/months as specified in the terms of the Bond issue for each series from the Deemed Date of Allotment or on such earlier date on exercise of put/ call option, if applicable. The redemption proceeds shall be made through electronic mode to the Bondholders whose names appear on the list of Beneficial Owners given by the depository participant to Registrar and Transfer Agent as on the Record Date fixed by IREDA in the bank account which is linked to the demat of the Bondholder. However, in absence of complete bank details, i.e., correct/updated bank account number, IFSC/RTGS code /NEFT code etc, Issuer shall be required to make payment through cheques / DDs on the due date at the sole risk of the Bondholders. The redemption proceeds

shall be paid to those Bondholders whose names appear on the list of Beneficial Owners given by the Depository Participant to Registrar and Transfer Agent as on the Record Date fixed by IREDA for the purpose of redemption. In case the Beneficial Owner is not identified by the depository on the record date due to any reason whatsoever, IREDA shall keep in abeyance the payment of redemption proceeds, till such time the Beneficial Owner is identified by the depository and intimated to Registrar and Transfer Agent. IREDA shall pay the redemption proceeds to the beneficiaries identified within 15 (fifteen) days of receiving such intimation. IREDA will not be liable to pay any interest, income or compensation of any kind in whatever name for the intervening period from record date to the actual date of payment of redemption proceeds, in such cases where the depository participant does not identify the Beneficial Owner on the Record Date.

9.35 EFFECT OF HOLIDAY

If any coupon payment date falls on a day that is not a Business Day, the payment shall be made by the Issuer on the following working day in line with Operational Circular no. SEBI/HO/DDHS/P/CIR/2021/613 dtd. 10.08.2021 issued by SEBI, as amended.

If the redemption date (also being the last coupon payment date) of the Bonds falls on a day that is not a Business Day, the redemption proceeds shall be paid by the Issuer on the preceding Business Day along with interest accrued on the Bonds until but excluding the date of such payment.

In the event the Record Date falls on a day which is not a Business Day, the immediately succeeding Business Day will be considered as the Record Date.

Assumptions and Notes:

1. For the purposes of the above illustration, as per notification dtd 20 August 2015, only such dates that fall on second and fourth Saturday of every month have been considered as non business day. Further, Sundays, have also been considered as non-Business Days.
2. The aggregate coupon payable to each Bondholder shall be rounded off to the nearest rupee as per the Fixed Income Money Market and Derivatives Association handbook on market practices.
3. The actual dates and maturity amount will be in accordance to and in compliance with the provisions of SEBI circular CIR/IMD/DF-1//22/2016 dated November 11, 2016 giving effect to actual holidays and dates of maturity which qualifies the SEBI requirement.

In the event the Record Date falls on a day which is not a Business Day, the immediately succeeding Business Day will be considered as the Record Date.

9.36 RECORD DATE FALLING ON DAY OTHER THAN BUSINESS DAY

The 'Record Date' for the Bonds shall be 15 days prior to actual Interest / exercise of put option date / Principal Payment Date. In case of redemption of Bonds, the trading in the Bonds shall remain suspended between the Record Date and the Redemption Date. Interest payment and principal repayment shall be made to the person whose name appears as beneficiary with the Depositories as on Record Date. In the event of the Issuer not receiving any notice of transfer at least 15 days before the Coupon Payment Date, the transferees for the Bonds shall not have any claim against the Issuer in respect of interest so paid to the registered Bondholders.

9.37 DEPOSITORY ARRANGEMENT

IREDA has entered into depository arrangements with National Securities Depository Limited (NSDL) and Central Depository Services Limited (CDSL). The securities shall be issued in dematerialized form as per the provisions of Depositories Act, 1996 (as amended from time to time).

9.38 RIGHT TO REPURCHASE, RE-ISSUE AND CANCELLATION

IREDA shall have the right to purchase the Bonds at any time during the tenor of the bonds. IREDA may at its discretion, re-issue or cancel the repurchased bonds in accordance with the relevant provisions of law.

9.39 RIGHT OF BONDHOLDER(S)

Bondholder is not a shareholder. The Bondholders will not be entitled to any other rights and privileges of shareholders other than those available to them under statutory requirements. The Bond(s) shall not confer upon the holders the right to receive notice, or to attend and vote at the General Meeting of the Company. The principal amount and interest on the Bonds will be paid to the registered Bondholders only, and in case of joint holders, to the one whose name stands first.

Besides the above, the Bonds shall be subject to the provisions of the Companies Act, the Articles of Association of IREDA, the terms of this bond issue and the other terms and conditions as may be incorporated in the Trust deed and other documents that may be executed in respect of these Bonds.

9.40 AMENDMENT OF THE TERMS OF THE BONDS

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least three fourth of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Issuer where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Issuer.

9.41 BUY-BACK OF BONDS

Unless stated otherwise, the Company may buy-back the Bonds subject to the statutory compliance, if any.

9.42 DEBENTURE REDEMPTION RESERVE ("DRR")

Circular no. 9/2002 dtd 18.04.2002 issued by Department of Company Affairs and Rule 18(7)(b)(ii) of Companies (Share Capital & Debenture) Rules, 2014 as amended, provides that no Debenture Redemption Reserve (DRR) is required in the case of privately placed debentures for NBFC's registered with the RBI under Section 45-IA of the RBI (Amendment) Act, 1997. Accordingly, IREDA being registered as NBFC with RBI is not required to create DRR in respect of Private Placement of debentures. However, as matter of prudence, IREDA is maintaining the DRR.

9.43 NOTICES

The notices to the Bondholder(s) required to be given by IREDA or by Registrar shall be deemed to have been given if sent by courier / ordinary post to the original sole / first holder of the Bonds or if an advertisement is given in a leading newspaper.

All notices to be given by the Bondholder(s) shall be sent by registered post or by hand delivery to Registrar or to such persons at such address as may be notified by IREDA in offer document

9.44 MATERIAL CONTRACTS AND DOCUMENTS FOR INSPECTIONS

Copies of the contracts and documents, referred to below, may be inspected at the Head Office of IREDA between 10.00 a.m. and 12.00 noon on any working day (Monday to Friday) until the date of closing of the issue.

Material Contracts and Documents

1. Memorandum and Articles of Association of IREDA.
2. Resolution of the Board of Directors of IREDA passed for borrowing programme of ₹16,400 crores during FY23.
3. Credit Rating letters from INDIA RATING, CARE and ICRA.
4. Copies of the audited Balance Sheets and Profit & Loss Accounts for three years ended March 31, 2022, 2021 and 2020.

9.45 FUTURE BORROWINGS

IREDA will be entitled to borrow/ raise loans or avail financial assistance in whatever form (both in rupees and in foreign currency) as also issue debentures / Bonds / other securities (secured and unsecured) in any manner having such ranking in priority / pari-passu or otherwise and change the capital structure including the issue of shares of any class on such terms and conditions as IREDA may think appropriate without the consent of or intimation to the Bondholders or the Trustees.

9.46 REISSUANCE AND CONSOLIDATION OF BONDS

Our company shall have right to reissue or consolidate the Bonds under present series in accordance with applicable law.

9.47 CONSENTS

Currently, IREDA has appointed SBICAP Trustee Company Ltd., to act as debenture trustee for its Bonds. IREDA holds consent from SBICAP Trustee Company Ltd., to act as trustees and the consent has not been withdrawn.

Currently IREDA has appointed Link Intime India Private Limited as Registrar & Transfer Agent ("R&TA") for our Bonds. IREDA holds consent from Link Intime India Private Limited to act as R&TA and the consent has not been withdrawn.

In case there is any change in R&TA, IREDA will appoint a new R&TA and obtain and hold their consent to act as R&TA before the launch of the bond issue of a particular series and disclose the facts in the terms of the Bond issue of a particular series.

9.48 UNDERTAKINGS FROM THE ISSUER:

IREDA hereby undertakes that

- ❖ The complaints in respect of the Issue would be attended to expeditiously and satisfactorily.

- ❖ IREDA would take necessary steps for completion of the necessary formalities for listing and commencement of trading at stock exchange.
- ❖ IREDA shall co-operate with the rating agencies in providing true and adequate information.
- ❖ The funds to be raised through the private placement are to augment long-term resources of IREDA and not for a specific project. Hence, no monitoring agency is required to be appointed.
- ❖ Since it is a Private Placement of Bonds and IREDA is a public financial institution under Section 4A of the Companies Act, 1956 (now Section 2(72) of Companies Act 2013), all monies received out of issue of bonds shall be utilized for the purpose as stated in this offer letter. However, IREDA undertakes to refund the application money in case the allotment is not done within 60 days and / or the application for permission to deal in bonds is not granted by NSE/BSE. (Please refer to sub-title 'Listing' and 'Interest in case of delay on allotment/dispatch' of this offer letter).
- ❖ IREDA shall disclose the complete name and address of the debenture trustee in the annual report.
- ❖ IREDA shall provide a compliance certificate to the debenture trustee in r/o compliance with the terms and conditions of issue of bonds as contained in this offer document.

9.49 INVESTOR RELATIONS AND GRIEVANCE REDRESSAL:

Arrangements have been made to redress investor grievances expeditiously, IREDA endeavor to resolve the investors' grievances within 30 (thirty) days of its receipt. All grievances related to the issue quoting the application number (including prefix), number of bonds applied for, amount paid on application, may be addressed to the Registrar and Transfer Agent. All investors are hereby informed that the company has appointed an Registrar and Transfer Agent/ Compliance Officer who may be contacted in case of any problem related to this Issue.

9.58 COMMON FORM OF TRANSFER

IREDA undertakes that it shall use a common form/ procedure for transfer of Bonds issued under terms of this Disclosure Document.

9.59 INTEREST ON THE BONDS

The Bonds shall carry interest at the coupon rate i.e. **7.94%** p.a. from, and including allotment date, but excluding date of payment of interest, **27-01-2023**, payable in arrears, in each year to the holders of Bonds (each, an "Interest Payment Date"), commencing **27-01-2024**, to the holders of Bonds (the "Holders" and each, a "Holder") as of the relevant Record Date. The interest payable on any Interest Payment Date will be paid to the Bondholder(s) whose names appear in

the List of Beneficial Owners given by the Depository to the Company as on the Record Date.

The first interest period is defined as the actual number of days falling between , **27-01-2023 to 27-01-2024** including the first date but excluding the last date. The first interest payment would be made on **27-01-2024**. The second and subsequent interest period (except the last interest period) is defined as the actual number of days in a year as 365 (366 in case of a leap year) between **27-01-2024** and redemption date i.e. after 10 (Ten) years **27-01-2033**, including the first date but excluding the last date and so on. The last interest period is defined as the actual number of days falling between immediate previous interest payment date and redemption date, including the first date but excluding the last date. The last interest payment would be made on redemption date, along-with the redemption of principal amount.

If any coupon payment date falls on a day that is not a Business Day, the payment shall be made by the Issuer on the following working day in line with SEBI circular No CIR/IMD/DF-1/122/2016 dtd November 11, 2016.

If the redemption date (also being the last coupon payment date) of the Bonds falls on a day that is not a Business Day, the redemption proceeds shall be paid by the Issuer on the preceding Business Day along with interest accrued on the Bonds until but excluding the date of such payment.

In case the Deemed Date of Allotment is revised (preponed / postponed) then the above Interest Payment Dates may also be revised preponed/ postponed) accordingly by the Company at its sole and absolute discretion.

9.60 COMPUTATION OF INTEREST

Interest for each of the interest periods shall be calculated, on 'actual/ actual days' basis, on the face value of principal outstanding on the Bonds at the applicable coupon rate rounded off to the nearest Rupee.

9.61 REDEMPTION

The face value of the Bonds will be redeemed at par only.

9.62 DEFAULT INTEREST RATE

In the event of delay in the payment of interest amount and/ or principal amount on the due date(s), the Issuer shall pay additional interest of 2% (two percent) per annum in addition to the coupon rate payable on the Bonds, on such amounts due, for the defaulting period i.e., the period commencing from and including the date on which such amount becomes due and up to but excluding the date on which such amount is actually paid.

9.63 ADDITIONAL COVENANTS

- a. Listing: The Issuer shall complete all the formalities and seek listing permission within T+3 days from the Deemed Date of Allotment
- b. Default in Payment: In case of default in payment of Interest and/or principal redemption on the due dates, additional interest of at least @ 2% (two percent) p.a. over the coupon rate will be payable by the Company for the defaulting period

9.64 LIST OF BENEFICIAL OWNERS

IREDA shall request the Depository to provide a list of Beneficial Owners as at the end of the Record Date. This shall be the list, which shall be considered for payment of interest or repayment of principal amount, as the case may be.

9.65 SUCCESSION

In the event of the demise of the sole/first holder of the Bond(s) or the last survivor, in case of joint holders for the time being, the Company shall recognize the executor or administrator of the deceased Bondholder, or the holder of succession certificate or other legal representative as having title to the Bond(s). The Issuer shall not be bound to recognize such executor or administrator, unless such executor or administrator obtains probate, wherever it is necessary, or letter of administration or such holder is the holder of succession certificate or other legal representation, as the case may be, from a court in India having jurisdiction over the matter. The Issuer may, in its absolute discretion, where it thinks fit, dispense with production of probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Bond(s) standing in the name of the deceased Bondholder on production of sufficient documentary proof or indemnity.

Where a non-resident Indian becomes entitled to the Bond by way of succession, the following steps have to be complied with:

1. Documentary evidence to be submitted to the Legacy Cell of the RBI to the effect that the Bond was acquired by the NRI as part of the legacy left by the deceased holder.
2. Proof that the NRI is an Indian National or is of Indian origin. Such holding by the NRI will be on a non-repatriation basis.

The applications must be accompanied by certified true copies of (1) Memorandum and Articles of Association/ Constitution/ Bye-laws (2) Resolution authorising investment and containing operating instructions (3) Specimen signatures of authorised signatories and (4) Necessary forms for claiming exemption from deduction of tax at source on the interest income/ interest on application money, wherever applicable.

9.64 Applications under Power of Attorney

A certified true copy of the power of attorney or the relevant authority as the case may be along with the names and specimen signature(s) of all the authorized signatories and the tax exemption certificate/ document, if any, must be lodged along with the submission of the completed Application Form. Further modifications/ additions in the power of attorney or authority should be notified to the Issuer or to its Registrars or to such other person(s) at such other address(es) as may be specified by the Issuer from time to time through a suitable communication.

9.65 Application under Power of Attorney or by Limited Companies

In case of applications made under a power of attorney or by a limited company or a body

corporate or registered society or mutual fund, and scientific and/or industrial research organizations or Trusts, etc., the relevant power of attorney or the relevant resolution or authority to make the application, as the case may be, together with the certified true copy thereof along with the certified copy of the Memorandum of Association and Articles of Association and/or bye-laws as the case may be must be attached to the Application Form or lodged for scrutiny separately with the photocopy of the Application Form, quoting the serial number of the Application Form and the bank's branch where the application has been submitted, at the office of the Registrars to the Issue after submission of the application form to the bankers to the issue or any of the designated branches as mentioned on the reverse of the Application Form, failing which the applications are liable to be rejected. Such authority received by the Registrars to the Issue more than 10 (ten) days after closure of the subscription list may not be considered.

9.66 Acknowledgements

No separate receipts will be issued for the application money.

9.67 Right to Accept or Reject Applications

The Issuer reserves its full, unqualified and absolute right to accept or reject any application, in part or in full, without assigning any reason thereof. The rejected applicants will be intimated along with the refund warrant, if applicable, to be sent. Interest on application money will be paid from the date of realization of application money till one day prior to the date of refund. The Application Forms that are not complete in all respects are liable to be rejected and would not be paid any interest on the application money. Application would be liable to be rejected on one or more technical grounds, including but not restricted to:

- Number of Bonds applied for is less than the minimum application size;
- Applications exceeding the Issue Size;

In the event, if any Bond(s) applied for is/ are not allotted in full, the excess application monies of such Bonds will be refunded, as may be permitted.

9.68 Signatures

Signatures should be made in English or in any of the Indian languages. Thumb impressions must be attested by an authorized official of a bank or by a magistrate/ notary public under his/her official seal.

9.69 Nomination Facility

As per Section 72 of the Companies Act, only individuals applying as sole applicant/ joint applicants can nominate, in the prescribed manner, a person to whom his/ their Bonds shall vest in the event of his death. Non-individuals including holders of power of attorney cannot nominate.

9.70 Bondholder not a Shareholder

The Bondholders will not be entitled to any of the rights and privileges available to the shareholders. If, however, any resolution affecting the rights attached to the Bonds is placed before the members of the Company, such resolution will first be placed before the Bondholders for their consideration.

9.71 Modification of Rights

The rights, privileges, terms and conditions attached to the Bonds may be varied, modified or abrogated with the consent, in writing, of those holders of the Bonds who hold at least 3/4th (three fourths) of the outstanding amount of the Bonds or with the sanction accorded pursuant to a resolution passed at a meeting of the Bondholders, provided that nothing in such consent or resolution shall be operative against the Issuer where such consent or resolution modifies or varies the terms and conditions of the Bonds, if the same are not acceptable to the Issuer.

9.72 Purchase/ Sale of Bonds

The Issuer may, at any time and from time to time, purchase Bonds at discount, at par or at premium in the open market or otherwise in accordance with the applicable laws. Such Bonds, at the option of the Issuer, may be cancelled, held or resold at such price and on such terms and conditions as IREDA on the direction of MNRE may deem fit and as permitted by law.

9.73 Right to Re-Issue of Bonds

Where the Issuer has redeemed any such Bonds, subject to provisions of the Companies Act or any other applicable law, the Issuer shall have and shall be deemed always to have had the right to keep such Bonds alive for the purpose of re-issue and in exercising such right, the Issuer shall have and shall be deemed always to have had the power to re-issue such Bonds as per the provisions of law either by reissuing the same Bonds or by issuing other Bonds in their place on the direction of GoI.

9.74 Joint-Holders

Where two or more persons are holders of any Bond(s), they shall be deemed to hold the same as joint tenants with benefits of survivorship subject to other provisions contained in the Articles of Association of the Issuer.

9.75 Notices

All notices to the Bondholder(s) required to be given by the Issuer or the Trustees from time to time, shall be deemed to have been given if sent by registered post/ by courier to the sole/ first allottee or sole/ first Beneficial Owner of the Bonds, as the case may be, or if published in one English and one regional language daily newspaper in Mumbai, New Delhi, Kolkata and Chennai.

All notice(s) to be given by the Bondholder(s) shall be sent by registered post or by hand delivery to the Company or to such persons at such address as may be notified by the Company from time to time through suitable communication.

9.76 Tax Benefits to the Bondholders of the Company

The Bondholder(s) are advised to consider in their own case, the tax implications in respect of subscription to the Bonds after consulting their own tax advisor/ counsel.

9.77 Disputes and Governing Law

The Bonds are governed by and shall be construed in accordance with the existing laws of India. Any dispute arising thereof will be subject to the exclusive jurisdiction of the Courts at New Delhi.

Dear Sir,

Re: Rating Letter for FY23 Borrowing programme

This is in reference to the rating action commentary released on 8th July 2022.

India Ratings and Research (Ind-Ra) is pleased to communicate the following rating:

-INR149,000 million FY23 Borrowing programme : IND AA+/Positive

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings' factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors

Users of India Ratings' ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating, to investors.

It will be important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.

Nothing in this letter is intended to or should be construed as creating a fiduciary relationship between India Ratings and you or between India Ratings and any user of the ratings.

In this letter, "India Ratings" means India Ratings & Research Pvt. Ltd. and any successor in interest.

We are pleased to have had the opportunity to be of service to you. If we can be of further assistance, please email us at infogrp@indiaratings.co.in

Sincerely,

India Ratings

**INDEPENDENT AUDITOR'S REPORT
ON THE AUDITED FINANCIAL RESULTS
FOR THE HALF YEAR ENDED 30th SEPTEMBER 2022**

To

The Board of Directors,
Indian Renewable Energy Development Agency Limited

Report on the audit of the financial results

Opinion

We have audited the accompanying statement of financial results of Indian Renewable Energy Development Agency Limited ('the Company'), for the quarter and half year ended 30th September 2022, (the "Statement"), being submitted by the Company pursuant to the requirements of Regulation 33, 52 and other applicable regulations of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations").

In our opinion and to the best of our information and according to the explanations given to us, the statement:

- i. is presented in accordance with the requirements of regulation 33, 52 and other applicable regulations of the Listing Regulations in this regard.
- ii. gives a true and fair view in conformity with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" (Ind AS 34) prescribed under section 133 of the Companies Act, 2013 (the "Act") read with relevant rules issued thereunder, RBI guidelines and other accounting principles generally accepted in India of the net profit and other financial information for the quarter and half year ended 30th September 2022.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013, as amended ("the Act") issued by the Institute of Chartered Accountant of India (ICAI). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Results' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial results of the company under the provisions of the Act and Rules thereunder and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

- i. The company has classified certain accounts required to be classified as stage III /Non-Performing Assets (NPA) as stage II / Standard aggregating to Rs. 113676.91 Lacs in terms of interim order of Hon'ble High Court of Andhra Pradesh. The statutory disclosures have been made accordingly. However, as a matter of prudence, interest income on such accounts becoming NPA in terms of prudential norms of Reserve Bank of India (RBI) has been recognized on collection basis and allowance for impairment loss has been made in accounts accordingly.

Our opinion on the statement is not modified in respect of this matter.

Board of Directors' Responsibility for the Financial Results

These financial results have been compiled from the related audited interim financial statements for the half year ended 30th September, 2022. The Board of Directors of the company is responsible for the preparation and presentation of these Financial Results that give a true and fair view of the net profit and other financial information in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 "Interim Financial Reporting" (Ind AS 34) specified under section 133 of the Act, read with the relevant rules issued thereunder, circulars guidelines and directions issued by the Reserve Bank of India ('RBI') from time to time ('RBI Guidelines') and other accounting principles generally accepted in India and in compliance with regulations 33, 52 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial results that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the statement, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Results

Our objectives are to obtain reasonable assurance about whether the statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial results.

: 3 :

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial results, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors.
- Conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial results, including the disclosures, and whether the financial results represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
