In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security.

The manner of India Ratings factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in India where the rated security is offered and sold, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Analytical Approach

To arrive at the ratings, Ind-Ra continues to consider the standalone financials of PEL while adjusting for the outstanding debt of its subsidiaries - PBSR Developers Pvt. Ltd. (100%) and Patel SEW JV (60%) for which a corporate guarantee (CG) was provided by the company at end-FY25.

Detailed Rationale of the Rating Action

The ratings reflect the company's healthy consolidated operational performance with volume growth in FY25 and Ind-Ra's expectation of continued growth and healthy profitability in the near to medium term.

List of Key Rating Drivers

Strengths

- Long operational track record; established market position
- Increasing scale of operations; growth trajectory to continue in FY25-FY26 with stable EBITDA margin
- Moderate credit metrics but on an improving trajectory

Weaknesses

- Elongated working capital cycle
- Adequate order book but on a downward trend

Detailed Description of Key Rating Drivers

Long Operational Track Record; Established Market Position: PEL has been engaged in the construction of dams, bridges, tunnels, roads, piling works, industrial structures and other kinds of heavy civil engineering works since 1949. The company has seven decades of experience in executing domestic and international projects. At end-March 2025, it had completed over 300 projects, which include works related to the construction of more than 15,000MW hydro projects, 87 dams, 300kms of tunnels, over 1,200kms of roads, irrigation works of over 0.55 million acres of land and construction of more than 2,000 metres of shaft boring.

Increasing Scale of Operations; Growth Trajectory to Continue in FY26-FY27 with Stable EBITDA Margins: Ind-Ra expects PEL's revenue to grow 8%-10% yoy in FY26 and 5%-8% yoy in FY27, due to the presence of an order book of INR152 billion at end-FY25, providing a revenue visibility of 3.0x, liquidity buffer to support operations and a steady pace of order execution. The revenue visibility is slightly lower than the highs of 5.0x-6.0x during FY22-FY23 due to a slight change in the underlying order mix as well as a decline in the order book at end-FY25 (FYE24: INR187 billion; FYE23: INR208 billion). During FY25, PEL's revenue grew to INR50.1 billion (FY24: INR44.1 billion; FY23: INR38.2 billion; FY22: INR30.3 billion), aided by an improved pace of order execution. The EBITDA margin remained stable at 13.8% in FY25 (FY24: 14.1%; FY23: 14.2%; FY22: 15.1%) and are likely to sustain around 13.75%-14.00% in FY26 and FY27, considering the underlying contracts which will have a dominant share in the revenue in FY26 and FY27. Ind-Ra expects the company to achieve revenue growth of 7%-10% yoy in FY26. The scale of operations is medium to large, with the presence of long-tenor orders; however, the execution rate of the projects will be a key rating monitorable.

Moderate Credit Metrics but on an Improving Trajectory: Ind-Ra expects PEL's credit metrics to improve further in FY26 with the interest coverage sustaining above 2.2x and the net adjusted leverage (net debt including corporate guarantee/EBITDA) remaining below 3.0x, due to a reduction in its debt and CG and growth in its absolute EBITDA. At end-FY25, PEL had a total outstanding debt of INR14.9 billion (FY24: INR17.3 billion; FYE23: INR15.4 billion; FYE22: INR19.9 billion), of which working capital borrowings stood at INR9.3 billion (INR10.3 billion; INR9.6 billion; INR11.1 billion). The outstanding CG marginally reduced to INR0.4 billion at end-FY25 (FYE24: INR0.4 billion; FYE23: INR4.4 billion, FYE22: INR4.9 billion).

The net adjusted leverage reduced to 1.7x in FY25 (FY24: 2.6x; FY23: 3.4x) and the interest coverage improved to 2.2x (1.7x; 1.4x), owing to an improvement in the absolute EBITDA as well as the replacement of higher interest carrying mobilisation advances with debt. The total outside liabilities (TOL; borrowings, creditors and advances) as a percentage of EBITDA also improved to 8.1x in FY25 (8.9x; 9.8x); nevertheless, PEL's balance sheet is levered much higher than that of other Ind-Ra-rated peers. This can be attributed to a heavy reliance on a combination of external debt, mobilisation advances and trade creditors. Any significant reliance on debt to maintain liquidity or any significant delays in the realisation of trade and work-in-progress receivables over FY26-FY27 could result in deterioration in the credit metrics.

Elongated Working Capital Cycle: Ind-Ra expects the company's working capital cycle to remain elongated in FY26-FY27 due to the nature of underlying contracts which are reflected through high unbilled revenues. Although the company has been able to recover dues from customers in ongoing projects with a collection efficiency of about 92% in FY25, the net working capital cycle elongated slightly to 253 days in FY25 (227 days; 214 days), due to a rise in the working capital lock-up of INR5 billion (FY24: INR2 billion; FY23: release of INR0.4 billion). The gross working capital cycle as a percentage of revenue moderated to 120% in FY25 (FY24: 118%; FY23: 125%), it remained high compared to that

of other Ind-Ra-rated peers, due to the presence of non-moving work-in-progress items under various arbitration levels. Ind-Ra believes the collection efficiency shall remain intact to ensure liquidity is maintained and shall remain a key monitorable.

Adequate Order Book but on a Downward Trend: At end-FY25, the order book was majorly concentrated across two segments - hydro/hydro-electric projects (66%) and irrigation (21%), while the remaining was spread across tunnel-related works (8%) and other construction works (5%). The top five projects accounted for 52% of the outstanding order book while the top three projects by value accounted for 38%. At end-FY25, 17% of the order book was less than 10% executed and 19% was executed between 10% and 25%, posing an inherent project risk. The company has received any orders of INR2.4 billion during the past six months and this shall improve its revenue visibility. Excluding the new projects awarded in FY24, Ind-Ra estimates a majority of the orders to be behind schedule. Despite the projects running in active status, the projects would require high execution run-rates to meet the scheduled completion timelines or rely on extension of timelines from project-awarding authorities. These projects were predominantly delayed owing to issues pertaining to design changes, land acquisitions, environmental clearances, COVID-19 disruptions and operational challenges arising out of geographical constraints. However, Ind-Ra draws comfort from the diversified geographical order book with the orders from the central/state governments forming 97%, where the counterparty credit risk is minimal; however, the risk of a delay in the certification and realisation of receivables persists. Ind-Ra further draws comfort from the presence of a bidding pipeline of more than INR150 billion which can materialise over the medium term and may result in an order inflow of about INR50 billion in FY26.

Liquidity

Adequate: Ind-Ra expects PEL's liquidity position to be adequate over FY26-FY27 with positive cash flow from operations of nearly INR4 billion. The cash flow from operations improved to INR2.2 billion in FY25 (FY24: INR1.7 billion; FY23: INR2.2 billion) owing to large inflows from interest and dividend income, despite a working capital lock-up of about INR4.9 billion during the year. PEL had unencumbered cash and cash equivalents of around INR3.4 billion at end-FY25 (FYE24: INR1.9 billion; FYE23: INR1.7 billion; FYE22: INR1.9 billion). The company has scheduled repayment obligations of INR1.7 billion in FY26 and INR1.4 billion in FY27. Post the qualified institutional placement, the company prepaid INR0.7 billion of debt in May 2024. Additionally, the company had undrawn fund-based limits of nearly INR4 billion at end-April 2025. The average use of the fund-based and non-fund-based working capital limits was around 59% and 76%, respectively, for the 12 months ended April 2025. The company is expected to incur capex of about INR5 billion over FY26-FY27 which shall be met through debt and internal accruals.

Ind-Ra had previously expected the monetisation of non-core assets to continue over FY24-FY25. The company monetised INR1.4 billion from the sale of non-core assets during FY25 and received arbitration proceeds of nearly INR3.6 billion. The monetisation of land bank is still under pursuit and shall remain one of the focus areas of the company in its overall debt reduction plan over the medium term. During FY25, the company had extended support worth INR500 million to a real estate entity. The management has articulated that the support will be returned once the sale activity at the real estate project picks up and does not envisage any further cash outflows. Any cash outflow, affecting the liquidity profile of the company, shall be negative for the ratings.

Rating Sensitivities

Positive: Sustenance of the scale of operations, profitability and liquidity with a shorter working capital cycle, leading to the interest coverage increasing and remaining above 2.5x and TOL/EBITDA improving below 7.5x, on a sustained basis, will be positive for the ratings.

Negative: A decline in the scale of operations, profitability, liquidity and/or an increase in the working capital intensity resulting in the interest coverage sustaining below 2.0x and/or TOL/EBITDA remaining above 8.5x, will be negative for the ratings.
