Forward-looking statements

Some information in this report may contain forward-looking statements which include statements regarding Company's expected financial position and results of operations, business plans and prospects etc. and are generally identified by forward-looking words such as "believe," "plan," "anticipate," "continue," "estimate," "expect," "may," "will" or other similar words. Forward-looking statements are dependent on assumptions or basis underlying such statements. We have chosen these assumptions or basis in good faith, and we believe that they are reasonable in all material respects. However, we caution that actual results, performances or achievements could differ materially from those expressed or implied in such forward-looking statements. We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

The Credit LEAP, Lending & Enabling, Aspiration & Passion.

Credit has always enabled growth.

Today, it must do more, it must keep pace with changing aspirations, reach new markets, and create greater opportunities for businesses to thrive.

FY26 marks a defining chapter in ECLF's transformation towards this vision as the Company accelerated its shift towards a retail-led, MSME-focused business model.

Through digital innovation, AI-led capabilities, and an expanding presence across Tier 2 and Tier 3 India, ECLF is making credit faster, more accessible, and more relevant to the evolving needs of entrepreneurs.

Retelling Credit, for India's Next LEAP, captures this journey, one where credit goes beyond capital to become a catalyst for enterprise, opportunity, and sustainable growth.

Message from the Managing Director

From Transformation to Momentum

FY26 marked the transition from Transformation to Momentum as we strengthened ECL Finance into a faster, smarter, and more trusted partner to India's MSMEs.

Dear Shareholders,

FY2025-26 has been a defining year in the evolution of ECL Finance.

Over the past few years, we have been repositioning our business with a clear objective: to build a focused, scalable, and future-ready MSME lending franchise. This year marked the transition from transformation to

execution as our strategic priorities translated into tangible outcomes across business growth, customer reach, digital capability, and organisational resilience. We crossed annual disbursements of ₹1,000 crore, expanded our branch network to 64 locations, and further strengthened our position as a trusted partner to India's entrepreneurs.

India's MSMEs remain central to the country's economic progress. They create employment, drive innovation, and contribute significantly to local and national development. As formalisation and digital adoption continue to reshape the business landscape, access to timely and responsible credit has become increasingly important. At ECL Finance, we view this not merely as a business opportunity, but as our purpose: to expand access to formal finance, especially for underserved entrepreneurs, first-time borrowers, and businesses entering the formal credit ecosystem.

Building a Retail-Focused MSME Franchise

FY26 was a year of focused execution.

We continued our transition towards a predominantly secured and retail-oriented lending model, strengthening the foundations of a business designed for sustainable growth. During the year, we diversified our product offerings through the introduction of six new Prime LAP variants and expanded into the Small Business Loan Against Property (SBLAP) segment, enabling us to serve a broader spectrum of entrepreneurs and business owners.

These initiatives have allowed us to deepen customer relationships, improve market penetration, and build a more resilient lending franchise that is aligned with the evolving needs of the MSME sector. Today, with most of our portfolio comprising secured lending, our retail business has become a key driver of sustainable growth and positions us strongly for the future.

Expanding Our Reach

Scale is meaningful when it expands access.

During FY26, we significantly strengthened our physical presence, adding 40 new branches and taking our network to 64 locations across India. This expansion also marked a strategic shift towards a direct sourcing model, with the new branches serving as key touchpoints for customer acquisition and relationship building. By strengthening our on-ground presence, we are better positioned to reach underserved markets, deepen local market engagement, and bring formal credit closer to customers who have historically remained outside the mainstream financial ecosystem.

Our growing distribution footprint, complemented by digital capabilities and a customer-centric approach, enables us to better understand local business realities while delivering faster, simpler, and more responsive financing solutions. Together, these capabilities are expanding access to formal credit across Tier II and emerging markets. We believe this combination of reach and relevance will remain a key differentiator as we continue to scale.

Strengthening the Foundations of Growth

As we scale the business, our focus remains firmly anchored on quality, discipline, and governance.

Throughout the year, we continued to invest in strengthening operational capabilities, enhancing customer experience, and improving organisational agility. We also accelerated digital adoption across the lending lifecycle and embedded AI-led capabilities to strengthen underwriting, improve turnaround times, and enhance decision-making. Together, these investments are helping us build a faster, smarter, and increasingly self-sufficient operating model while ensuring that growth is supported by robust risk management, governance, and operational discipline.

The progress achieved during the year is reflected not only in business performance but also in the strength and resilience of the franchise we are creating. Our objective is clear: to build an institution that delivers sustainable value across economic cycles and remains trusted by customers, partners, regulators, and investors alike.

Powered by People

At the heart of every milestone achieved during the year are our people.

The dedication, resilience, and customer-first mindset demonstrated by our employees have been instrumental in driving our transformation journey. Their willingness to embrace change, innovate, and consistently raise the bar has enabled ECL Finance to evolve into a stronger and more agile organisation.

I would also like to express my sincere gratitude to our customers, lending partners, sourcing partners, investors, regulators, and all stakeholders for the trust and confidence they continue to place in us. Their support remains integral to our success and inspires us to keep improving every day.

Looking Ahead

Our aspiration is clear: to build one of India's fastest, most trusted, and digitally-enabled MSME-focused financial institutions.

India's MSME sector continues to demonstrate remarkable resilience and entrepreneurial spirit, creating long-term demand for institutions that can deliver fast, responsible, and customer-centric financing solutions. As we move into the next phase of our journey, we will continue expanding our presence across growth markets, strengthening our digital and AI capabilities, improving productivity and turnaround times, and investing in capabilities that support sustainable long-term value creation.

FY26 was a year in which ECL Finance moved beyond transformation and began to build momentum. While there is still much to accomplish, the foundations we have established, the trust we have earned, and the capabilities we continue to build give us confidence in the road ahead.

Together, we remain committed to enabling entrepreneurial aspirations, advancing financial inclusion, and creating sustainable long-term value for our customers, our stakeholders, and the communities we serve.

Warm Regards,

Ajay Khurana
Managing Director

MSMEs Shaping India's Growth Narrative

**~6.3 crore
MSMEs**

power India's economy.

MSME Contributions in India's growth story:

- ~30% of the nation's GDP
- Account for ~45% of exports
- Generate employment for over 25 crore people

Source: pib.gov.in

As India's entrepreneurial landscape expands beyond metros into Tier 2 and Tier 3 markets, the need for timely, accessible, and trusted credit has never been greater.

Recognising this shift, ECLF continued its strategic transition towards a retail-led, MSME-focused business model. By strengthening its presence on the ground, expanding customer access, and leveraging technology to deliver faster, smarter experiences, the Company is bringing credit closer to the businesses driving India's next phase of growth.

This is ECLF 2.0: a more focused, more agile, and more purposeful institution, built to enable the businesses driving India's next leap.

The Changing MSME Narrative

India's MSME landscape is evolving faster than ever before. As businesses become more formal, digital, and ambitious, the role of credit must evolve alongside them. Understanding this shift is the first step towards Retelling Credit, one that is aligned with the opportunities shaping India's next leap.

The MSME financing ecosystem continues to evolve, supported by strong structural fundamentals, increasing formalisation and a widening credit opportunity. As one of the key contributors to India's economic growth, the MSME sector accounts for approximately 30% of GDP, ~41% of manufacturing value added and ~45% of exports, while also supporting a large share of employment. Despite its significance, the sector remains underpenetrated in institutional credit, with an estimated credit gap of ~₹30 lakh crore, creating a sustained opportunity for NBFCs such as ECL Finance to drive growth through calibrated and targeted lending strategies.

Credit Demand Trends in MSME Financing

Credit demand in the MSME segment continues to exhibit strong momentum, with total MSME credit outstanding* reaching ~₹43.3 lakh crore and growing at approximately 18% year-on-year. The growth trajectory is largely driven by micro and small enterprises, which account for the majority of loan accounts and a significant share of portfolio value.

Secured lending products, particularly Loan Against Property (LAP), have gained prominence due to their lower risk profile, collateral backing, and stable margins. The rising demand for structured financing to support working capital and business expansion continues to shape portfolio strategies, with lenders increasingly focusing on quality-led scaling.

* For exposure up to ₹100 Cr and covers only TL, Property Loans, WC (CC & OD) considered as MSME by bureau.

Formalisation and Digitisation Trends

The sector continues to benefit from strong formalisation tailwinds, driven by the expansion of GST, Udyam registrations and digital financial infrastructure. These developments have enhanced borrower visibility, expanded the addressable market, and enabled more informed credit decisioning. Technology adoption,

including AI-driven underwriting, data analytics, and integration of digital data sources such as GST filings and payment trails, has significantly improved credit assessment, turnaround times, and risk management capabilities for lenders.

Liquidity, Interest Rate, and Financing Environment

The liquidity and funding environment for NBFCs continue to be influenced by broader macroeconomic conditions, and systemic liquidity dynamics. While the sector has seen stable credit growth and improving access to capital through diversified funding channels,

lenders are increasingly focused on maintaining prudent asset-liability management and optimising funding costs. The shift towards secured products such as LAP provides improved risk-adjusted returns and resilience across credit cycles, supporting balance sheet stability.

Competitive Landscape

The MSME lending ecosystem remains highly competitive, with participation from public sector banks, private banks and NBFCs. NBFCs have emerged as the fastest growing segment, recording ~71% growth in MSME AUM between Sep'23 and Sep'25, supported by their ability to serve niche and underpenetrated

customer segments with faster turnaround times and flexible underwriting approaches. This competitive advantage has strengthened the role of NBFCs in bridging the MSME credit gap, particularly in segments where traditional banking models face operational challenges.

Customer Behaviour Trends

Customer preferences in MSME lending continue to evolve, with increasing demand for faster disbursements, simplified processes, and digitally enabled experiences. Borrowers, particularly in the micro and small segments, are progressively shifting towards

formal credit channels, supported by improved access to financial data and credit infrastructure. There is also a growing preference for secured borrowing structures, reflecting increasing awareness of cost efficiencies and long-term financing needs.

Government Initiatives and Policy Support

Government-led initiatives continue to play a key role in strengthening the MSME ecosystem through formalisation, credit access, and regulatory support. Programmes such as Udyam registration, expansion of digital payments, and frameworks like account

aggregators have contributed to improved borrower visibility and credit flow. Additionally, priority sector lending (PSL) requirements for banks continue to create opportunities for NBFCs to act as origination partners through co-lending and structured arrangements.

Regulatory Environment and RBI Developments

The regulatory framework for NBFCs continues to evolve under the Reserve Bank of India's scale-based regulatory architecture, with increased focus on governance, risk management, and capital adequacy. ECL Finance operates as a Middle Layer NBFC, reflecting a regulatory environment that emphasises enhanced compliance, prudent lending practices, and stronger oversight mechanisms. These developments reinforce the need for disciplined underwriting, robust monitoring systems, and adherence to evolving regulatory standards, while supporting sustainable and risk-calibrated growth in MSME lending. Overall, the industry remains well-positioned for long-term expansion, supported by a large, untapped credit opportunity, improving data infrastructure, and increasing alignment between borrower needs and lender capabilities. The focus for lenders, including ECL Finance, remains on balancing growth with portfolio quality, leveraging technology, and strengthening risk frameworks to deliver resilient performance across economic cycles.

Rewriting the Way We Lend

Retelling credit begins with reimagining how it is delivered. Guided by trust, discipline, and customer-centricity, ECLF has built a business model that balances responsible lending with scalable growth. It reflects a deliberate shift towards enabling long-term value for businesses, while staying resilient through changing market cycles.

Purpose-Led Approach to MSME Financing

ECL Finance Limited's business model is anchored in its core purpose of being a trusted financial partner to MSMEs, supporting their growth through structured and responsible credit solutions tailored to their evolving needs. The Company's strategy aligns with its broader vision of empowering enterprises through customised

financial offerings, delivered with strong governance, transparency, and customer-centricity. This purpose-led approach enables ECLF to move beyond transactional lending and establish itself as a long-term partner in the development and formalisation of MSME businesses.

Focused and Disciplined Market Positioning

ECLF has sharpened its market positioning through a decisive shift towards secured MSME lending. This strategic evolution reflects the Company's conviction that resilient growth is built on disciplined portfolio

construction, prudent underwriting, and long-term value creation. As the business continues to strengthen this focus, it is building a lending franchise designed for consistency across market cycles.

Secured Lending as the Cornerstone of the Business Model

The Company's lending architecture is fundamentally anchored in secured financing, with Loan Against Property (LAP) forming the core of its MSME portfolio strategy. This secured orientation provides enhanced collateral cover, improved recovery outcomes, and

greater predictability of cash flows, enabling ECLF to maintain stability across credit cycles. By prioritising secured lending, the Company reinforces its commitment to balancing growth with capital preservation and disciplined risk management.

Strategic Expansion through Small Business LAP (SBLAP)

ECL Finance is taking its secured lending proposition deeper into India's underserved MSME landscape through Small Business LAP (SBLAP). Designed for small business owners and first-time formal borrowers, the proposition expands access to structured credit while extending ECLF's reach into emerging markets. The expansion is backed by a growing branch network

and direct sourcing model, bringing ECLF closer to businesses on the ground and enabling deeper customer understanding and sharper credit assessment. More than a new product, SBLAP strengthens ECLF's ability to serve a wider MSME universe, accelerate formalisation, and build the foundation for the next phase of its secured lending franchise.

Transition to an On-Balance Sheet Lending Model

ECLF has undertaken a strategic shift from an asset-light, co-lending driven model to a predominantly on-balance sheet lending approach, thereby enhancing control over the entire credit lifecycle. This transition enables the Company to retain full lending economics,

exercise greater discipline in underwriting and pricing, and ensure stronger accountability in portfolio management. The move reflects ECLF's long-term strategy of building a self-sustaining, scalable MSME lending platform with direct ownership of risk and returns.

Integrated Distribution Model for Scalable Growth

The Company has developed a hybrid sourcing architecture, combining the reach of channel partners with the depth of direct distribution. Through a well-structured DSA ecosystem supported by training and governance frameworks, ECLF ensures alignment with its credit and compliance standards, while its

expanding SBLAP branch network enables direct engagement with customers in key MSME geographies. This integrated model enhances customer acquisition efficiency, strengthens underwriting quality through closer borrower interaction, and reduces dependence on intermediaries, thereby supporting scalable and controlled growth.

Alignment with Structural MSME Sector Opportunities

ECLF's business model is closely aligned with key structural trends shaping the MSME ecosystem, including increasing formalisation, improved data availability, and the growing role of specialised NBFCs in credit delivery. By combining secured lending,

technology-enabled underwriting, and integrated distribution, the Company is well-positioned to capture long-term growth opportunities while maintaining operational and financial resilience.

Future Growth Strategy and Strategic Direction

Looking ahead, ECLF remains focused on scaling its MSME franchise through a balanced approach that emphasises secured lending, expansion into emerging segments such as Small Business LAP, strengthening of direct distribution capabilities, and continued investment in technology and analytics. The Company aims to build

a diversified, high-quality MSME lending platform that delivers consistent performance while enabling inclusive and responsible growth, in line with its long-term vision of creating enduring value for customers and stakeholders.

Turning Credit into Opportunity

Every business has its own journey, and every journey calls for the right financial support. ECLF's portfolio of solutions is designed around evolving business needs, making credit more accessible, relevant, and responsive for entrepreneurs across every stage of growth, across India.

At ECL Finance Limited (ECLF), our Products & Solutions portfolio is built around a singular objective, enabling the growth aspirations of India's Micro, Small, and Medium Enterprises (MSMEs) through accessible, flexible, and customer-centric financing solutions. Recognising the diverse and evolving credit needs of entrepreneurs across sectors and geographies, we offer a comprehensive suite of secured and unsecured lending products, complemented by value-added insurance solutions.

Our offerings span Loan Against Property (LAP), Small Business Loan Against Property (SBLAP) and Unsecured Business Loans, catering to requirements such as working capital, business expansion, machinery acquisition, capital expenditure, debt consolidation, loan takeover, and liquidity enhancement.

Loan Against Property (LAP)

Our Loan Against Property proposition is the flagship offering within our secured lending portfolio, designed for businesses seeking larger-ticket funding against residential, commercial, or industrial properties. Loan sizes range from ₹20 lakh to ₹10 crore, addressing diverse business requirements across the MSME segment.

The product supports both fresh lending against unencumbered properties and balance transfer with top-up facilities against existing loans, thereby catering to funding as well as refinancing requirements. Customers utilise these loans for business expansion,

A key differentiator of ECLF's lending model is its ability to combine traditional credit assessment methodologies with digitally enabled and alternate underwriting capabilities. Beyond financial statements and conventional income documents, our credit evaluation framework leverages multiple data points including banking behaviour, bureau insights, cash-flow assessment, surrogate income indicators like GST details, bank churning etc., and property analytics. This enables us to extend formal credit access to a wider spectrum of MSME borrowers, including those with limited financial documentation but demonstrated repayment capacity and business stability.

Supported by technology-led processes, digital sourcing platforms, and data-driven decision engines, we continue to enhance customer experience through faster credit assessment and more informed lending decisions.

working capital augmentation, capital expenditure, debt restructuring, and long-term growth initiatives.

The proposition is differentiated through customised loan structuring, higher loan eligibility based on borrower profile, flexible repayment options, tenures extending up to 15 years, and a relationship-led service model. Backed by digital process enablement and efficient underwriting capabilities, the product delivers a seamless borrowing experience while helping enterprises unlock the value of their property.

Unsecured Business Loans

Our Unsecured Business Loan offering addresses the financing needs of entrepreneurs seeking collateral-free access to credit. Loan amounts range from ₹3 lakh to ₹50 lakh with repayment tenures of up to 48 months, making the product suitable for working capital requirements, inventory purchases, business growth initiatives, and operational liquidity needs.

The strength of this offering lies in its speed, convenience, and flexibility. Leveraging digital-led

processing, bureau-led assessment, banking analytics, and alternate underwriting parameters, ECLF is able to deliver quicker credit decisions and streamlined processing. ECLF supports customers with customised financing structures, enabling businesses to access formal credit without the need to pledge assets.

Small Business Loan Against Property (SBLAP)

The Small Business Loan Against Property (SB LAP) is one of ECLF's strategic growth products, specifically designed to address the credit requirements of micro and small enterprises that often remain underserved by traditional financing channels.

The product enables business owners to leverage residential, commercial, or industrial properties to access formal credit of up to ₹50 lakh through simplified documentation, faster approvals and efficient disbursal processes. SBLAP addresses a broad range of requirements including working capital support, business expansion, debt consolidation, and refinancing. A key feature of the proposition is its ability to serve customers through a combination of relationship-led engagement and technology-enabled underwriting.

By incorporating alternate credit assessment methodologies and digital validation tools, ECLF is able to evaluate a broader borrower universe and improve credit accessibility for emerging businesses.

The product plays a significant role in advancing financial inclusion by helping small enterprises enter the formal credit ecosystem, build financial credibility, and create sustainable growth opportunities. With customised programmes, faster turnaround times, and strong distribution capabilities, SBLAP continues to be a key enabler of MSME growth across geographies.

Insurance Cross-Sell as a Value-Enhancing Layer

At ECL Finance Limited, we view insurance not merely as a cross-sell opportunity but as an integral component of customer financial wellbeing and risk protection. As a registered Corporate Agent (Composite) with the Insurance Regulatory and Development Authority of India (IRDAI), ECLF is authorised to distribute Life, General, and Health Insurance products through partnerships with leading insurers.

Our insurance proposition is designed to complement lending solutions by helping customers safeguard their

businesses, assets, health, and families against unforeseen risks. By embedding protection solutions within the customer journey, we aim to enhance financial resilience, strengthen customer relationships, and deliver a more holistic financial services experience and at the same time secure the portfolio.

Growing Through Connections

Meaningful progress is built together. By strengthening its ecosystem of distribution partners, strategic alliances, and insurance relationships, ECLF is extending its reach, enhancing its capabilities, and creating greater value for the businesses it serves.

ECL Finance Limited continues to strengthen its partnership-led growth model to expand market reach, enhance customer value propositions, and support sustainable growth within the MSME sector. The Company has developed a diversified ecosystem comprising distribution partners, insurance alliances, and strategic co-lending arrangements, enabling scalable customer acquisition, deeper market penetration, enhanced customer engagement, and diversified revenue streams.

Distribution Partnerships - Direct Sales Agents (DSAs)

The Company's extensive Direct Sales Agent (DSA) network remains a key pillar of its sourcing and distribution strategy, facilitating wider outreach across geographies and MSME customer segments. ECL Finance has adopted a structured, relationship-driven approach towards partner engagement, supported through robust onboarding processes, regular capability-building programmes, product training sessions, and ongoing engagement initiatives.

The Company continues to invest in strengthening partner productivity through technology-enabled processes, faster turnaround times, and transparent communication mechanisms. This collaborative ecosystem has played a significant role in driving business volumes across the Company's core lending products, including Loan Against Property (LAP) and Unsecured Business Loans, while ensuring quality sourcing and customer acquisition.

Insurance Partnerships - Strengthening Customer Proposition

ECL Finance has established strategic partnerships with leading insurance providers, including Bajaj Life Insurance, Tata AIA Life Insurance, Bajaj General Insurance, Zuno General Insurance, and Niva Bupa Health Insurance, to offer comprehensive protection solutions alongside its lending products.

These alliances enable the Company to deliver a more holistic financial proposition by addressing the protection needs of borrowers and their businesses. The integration of insurance offerings within the lending ecosystem enhances customer engagement, supports financial resilience, and creates meaningful cross-sell opportunities. Additionally, these partnerships contribute towards portfolio risk mitigation, improved customer lifecycle management, and the generation of ancillary fee-based income streams, thereby strengthening the overall value proposition for customers and the Company alike.

Building a Collaborative Growth Ecosystem

Through its integrated partnership ecosystem, ECL Finance continues to create a scalable and resilient business model that combines distribution strength, customer protection solutions and strategic funding partnerships. By leveraging these collaborations, the Company is well-positioned to deepen customer relationships, expand market presence, and drive sustainable, quality-led growth while supporting the evolving financing needs of India's MSME sector.

Where Trust Takes Shape

The true value of credit lies in how it is experienced. Through simpler processes, digital capabilities, and relationship-led engagement, ECLF is creating seamless experiences that strengthen trust and build lasting customer relationships.

Strengthening MSME Customer Engagement Through Digital Capabilities

During the year, we enhanced MSME customer engagement by upgrading our CRM platform to provide seamless access to critical loan servicing documents.

This improved service turnaround times, enabled more informed customer interactions, and strengthened service continuity across channels.

Enhancing MSME Customer Experience Through Technology-Led Transformation

Enhancing the experience of MSME customers remains a core strategic pillar of ECL Finance Limited's digital transformation journey.

We launched a redesigned website and customer portal to enable intuitive self-service and faster omnichannel query resolution.

Customer-Centric and Relationship-Led Engagement

ECLF adopts a relationship-oriented approach to customer engagement, focusing on creating long-term value rather than single-product transactions. The Company leverages its existing customer base to offer insurance solutions, thereby strengthening

customer relationships, enhancing customer lifetime value, and supporting portfolio risk coverage. This approach reinforces the Company's positioning as a holistic financial partner to MSMEs.

Strengthening Collections Through Technology-Led Transformation

During FY26, we introduced M-Collect, a mobile-based application, marking a significant milestone in enhancing process-driven collections. The system enables comprehensive recording and documentation of customer interactions, along with geo-tagging of field visits, thereby strengthening transparency and

accountability. This technology-led intervention facilitates systematic, real-time monitoring and review of collection activities, improving operational efficiency and ease of supervision, while ensuring alignment with regulatory guidelines.

Sanjay Gupta

Continental Electric Store
New Delhi

"The Service has been exemplary and well organised and the entire loan requirement was fulfilled. Even the TAT period was well maintained and the entire activity took around 7-8 days. Even the Balance transfer transaction was well executed. I surely would recommend my business partners to Edelweiss."

Ankit Mann

Livivo Distributors Pvt. Ltd.
New Delhi

"The Loan Requirement was fulfilled by Edelweiss and the entire Loan process was well taken care by Edelweiss RM. There was an urgency for funds which has been well managed by Edelweiss and timely action helps me in improvising business volumes. Thanks to Edelweiss and I would surely recommend Edelweiss to other business partners."

Sumit Kumar

Manhas Traders
New Delhi

"The application process was fast and hassle free with digital process. Team ensured everything was cleared without delay."

Tejinder Singh

Ghuman Hospital
Ludhiana, Punjab

“Outstanding service from start to finish. The process was transparent, the team was highly supportive, and the loan was approved faster. Thanks to the ECL Finance Ltd. team which helped me with my financial need on time”.

Sanjeev Kumar

S S Industries
Ludhiana, Punjab

“Excellent service, the team was professional, responsive, and efficient throughout the process. Everything was handled smoothly on time. The loan was approved quickly and the team guided me on every step. It helped me meet my financial needs on time”.

Jayashriben Patel

Shree Khodiyar Store
Modasa

“Partnering with ECL Finance has been a valuable experience for our business. Their quick loan processing and customer-focused approach enabled us to seize growth opportunities without delay. The team was highly supportive, transparent, and committed to helping us at every stage. We truly appreciate their professionalism and reliable service.”

Reading Beyond the Surface

Retelling credit begins with understanding businesses more deeply. By combining data, behavioural insights, and predictive analytics, ECLF goes beyond conventional assessment to make lending more informed, precise, and responsive.

Unlocking Value Through Data-Led Decisioning

At ECL Finance, data analytics is a foundational pillar of our strategic approach. By embedding data-driven decisioning across the enterprise, we effectively navigate the complexities of the Indian financial ecosystem,

enhance operational agility, strengthen risk management, and deepen customer relationships, driving sustainable, long-term value creation.

Driving Informed Decisions and Strengthening Risk Resilience

- Enables timely, insight-led decision-making
- Strengthens fraud detection and portfolio health monitoring
- Powers advanced risk assessment models, enhancing underwriting precision
- Improved resilience, stronger governance, and enhanced protection of stakeholder value

Enhancing Operational Excellence Through Data-Driven Execution

- Leverages advanced analytics across critical business functions:

- Streamlines workflows by redesigning processes for agility and scalability
- Supports predictive decision-making using historical and behavioural data
- Uncovers hidden inefficiencies and operational bottlenecks through data insights
- Enables real-time performance monitoring with dashboards and KPIs
- Drives continuous improvement through feedback loops and data-led interventions
- Strengthens risk controls by embedding analytics in operational checkpoints

Outcome: Reduced turnaround times, enhanced workforce productivity, improved decision accuracy, and more agile, resilient, and cost-efficient operations.

Elevating Customer Engagement with Advanced Analytics

At ECL Finance, customer engagement is driven by deep data insights that enable proactive, personalised, and lifecycle-based interactions. Predictive analytics helps anticipate customer needs and trigger timely, relevant outreach, while end-to-end journey mapping identifies and eliminates friction points to deliver a seamless experience. Advanced segmentation and

behavioural analysis ensure targeted communication across the most effective channels, enhancing relevance and responsiveness. Additionally, early detection of churn signals allows for intelligent, data-led retention strategies, strengthening relationships, and maximising customer lifetime value.

Core Initiatives Powering Business Growth

Over the past year, we have significantly advanced the integration of analytics across key business functions to drive measurable impact. Enhanced risk models have improved underwriting precision, supported by real-time portfolio monitoring for faster, data-driven decisions. Collections strategies have been strengthened through behavioural segmentation and targeted engagement, improving recovery effectiveness. At the same time, analytics-led interventions have streamlined operations

by identifying bottlenecks and optimising workflows, resulting in reduced turnaround times and improved overall efficiency.

Data Analytics at ECL Finance is not just an enabler, it is a strategic differentiator driving smarter decisions, operational efficiency, superior customer engagement, and long-term sustainable growth.

Built on Prudence

Progress is meaningful only when it is built responsibly. ECLF's disciplined risk framework balances opportunity with prudence, enabling confident decisions while safeguarding long-term value across every stage of growth.

Managing Risks Effectively

At ECLF, Enterprise Risk Management (ERM) is a central pillar of our governance and strategic decision-making framework. Our ERM structure provides a structured and proactive approach to identifying, assessing, and managing risks across the organisation. Risk oversight is integrated into business processes, supported by strong governance, clear accountability, and regular risk reviews.

We maintain continuous monitoring of credit, operational, market, liquidity, outsourcing, fraud, technology, and compliance risks through a coordinated effort between business units and the central risk function.

Technology-enabled controls, real-time reporting, and early-warning mechanisms strengthen our ability to detect emerging risks and ensure timely intervention.

A strong risk culture is fostered across the organisation through training, awareness, and consistent adherence to policies and regulatory requirements.

Environmental, Social, and Governance (ESG) considerations form an integral part of our risk approach, reinforcing responsible and sustainable business practices. Environmental, Social, and Governance (ESG) considerations are integrated into our risk thinking to ensure that long-term sustainability, ethical business conduct, and responsible operations remain integral to our strategy.

Our ERM framework enables resilience, supports prudent growth, and ensures that risk management remains aligned with regulatory expectations and industry best practices.

People Risk

Integrity in employee actions, accountability across all levels, effective stakeholder engagement and communication

Fraud Risk

Anti-fraud policies and controls, monitoring and investigation of suspicious activities

Liquidity Risk

Asset-liability management, market positioning, investment & borrowing diversification

Information and Cyber Security Risk

Robust technology and IT infrastructure management, continuous monitoring and threat detection

Market Risk

Interest rate fluctuations, price volatility, foreign exchange exposure, equity and commodity risk

Credit Risk

360-degree client evaluation, diversified exposure, tech-enabled risk analysis, securing high-quality collateral

Outsourcing Risk

Robust vendor governance, due diligence, and performance oversight to ensure operational resilience and regulatory compliance

Compliance Risk

Compliance monitoring systems, training and awareness on compliance obligations risk-aligned service agreements, commitment to data confidentiality, controls for data integrity

Governance Risk

Strong governance framework with clear accountability, effective oversight, and adherence to regulatory and internal standards

Operational Risk

Proactive risk monitoring, anti-fraud framework, strengthening of critical processes

Robust Risk Governance and Portfolio Discipline

Risk management remains central to ECLF's business strategy, with a sustained focus on secured lending exposures and rigorous legal and technical due diligence. The Company follows a quality-first approach to portfolio construction, supported by ongoing monitoring and

governance oversight, particularly for emerging segments such as Small Business LAP. This disciplined framework ensures that growth is achieved without compromising portfolio stability, enabling sustainable expansion across economic cycles.

Governed by Trust

Every next leap must be built on trust. By embedding governance, ethics, and compliance into every decision, ECLF ensures that growth is responsible, transparent, and aligned with the highest standards of accountability.

As per our Company's philosophy, we believe in integrating compliance with the organisational ethos and cultural capital.

An effective and sound business model is fundamental to the Company's resilience and sustainable growth. We are navigating a new reality that is redefining the business model/ strategy. Our focus will be on fostering a business model that balances growth with resilience and long-term success which also promotes financial inclusion.

This demands financial stability and consumer protection, and our mandate is to enhance both the parameters. These trade-offs between stability and efficiency. We will keep these trade-off in mind while formulating our business policies and operating models. It will be our endeavour to strike the right balance, keeping in view the benefits and costs associated with the applicable regulations/ compliance requirement.

While traditional governance responsibilities such as regulatory compliance, financial oversight, and risk management will continue to remain our top priorities, going ahead, we will embrace and leverage technology, drive AI-led digital transformations, enhance customer centricity, and reinforce ethical leadership across all levels of the organisation.

We will continue to strengthen, rationalise, and refine our prudential and conduct-related framework with risk-based prioritisation in the overall interest of the Company as well as our stakeholders, including internal and external.

The Board's leadership and governance are central to navigating these changes; one that can harness change effectively, address risks strategically (including outsourcing and cyber security risks), and reinforce resilience across the organisation.

The Board will play its role in fostering a strong governance culture that actively encourages innovation that is aligned with the Company's long-term goals. It will encourage responsible innovation, ensuring that progress remains steady, sustainable, and fully compliant with the applicable regulatory requirements. Technology transformations are not only focused on automation of existing processes and operational efficiency but also places the customer experience at the centre, offering instant, personalised services, not just at the branches, but through mobile applications and digital platforms.

High standards of customer service are not just expectations; they are obligations we owe as conduct goes beyond regulatory compliance. The Company's service delivery embodies empathy and fairness, and we will remain committed towards building customer-centric organisation with ethical conduct and sound business practices. Customer-centric governance would be evident across our policies, processes, and service touchpoints, treating our customers fairly and in a transparent manner. This is an area where we are significantly focusing to enhance the customers' trust.

We understand that the future strength of our Company rests on the governance practices we put in place today which focuses on proactive compliance rather than reactive compliance. A resilient organisation is one that can anticipate change, manage risks, withstand crises, and continuously adapt to dynamic and evolving environment. We will thrive to be a transformative force, shaping not only our Company's long-term success but also the trust we build with our customers and other stakeholders.

Making Lending Tech-Smart

ECLF is transforming not just how credit is delivered, but also how customers experience it. By streamlining processes across the lending journey, the Company is making credit faster, more intuitive, and better aligned with the evolving needs of India's businesses.

Efficient processes, data-informed evaluation, and continuous portfolio oversight are embedded throughout the lending lifecycle. These capabilities enable faster decision-making, greater consistency in credit assessments, and proactive identification of risks. This approach supports the Company's vision and roadmap of building a modern, insight-driven lending business capable of delivering growth with precision and control.

During FY 2025-26, the organisation strengthened its operational capabilities and advanced key strategic initiatives while maintaining resilience across its activities. Significant improvements were made in customer acquisition, collections, lead management, and customer onboarding processes, resulting in enhanced efficiency, accuracy, and scalability.

The Company also relaunched its digital presence with a strong focus on customer-centricity, delivering a faster, simpler, and more intuitive experience.

The Company continued emphasis on governance, risk management, and operational stability, ensuring uninterrupted business continuity and reliable service delivery through judicious use of technology.

The technology function played a key role in supporting the Company's branch expansion strategy by enabling rapid operational readiness and seamless business integration across new locations. Through standardised deployment practices and centralised coordination, the Company ensured consistent service delivery, operational efficiency, and adherence to governance standards from the outset.

Drivers of the Shift Forward

Every transformation is powered by people. By investing in talent, capability, and a culture of shared purpose, ECLF is building teams that are ready to lead the Company into its next phase of growth while creating greater value for customers and stakeholders alike.

Our people are central to ECL Finance's transformation and long-term growth. FY2025-26 was a foundational year in this journey, marked by a deliberate focus on building the people, capabilities, infrastructure, leadership, and systems required to support the next phase of the organisation's growth.

As ECL Finance advances its ECLF 2.0 strategy and transitions towards a scaled retail and MSME-led franchise, the emphasis during the year was on creating the organisational capacity and infrastructure required for sustainable growth. This included strengthening talent acquisition and sourcing channels, expanding the physical infrastructure through new branches across markets, building learning and employee experience frameworks, enhancing digital HR processes, strengthening performance management, investing in leadership alignment, and establishing a stronger foundation for employee communications, engagement, and wellbeing.

The focus was therefore not only on meeting the talent requirements of the current business, but on building an organisation equipped to operate with greater scale, consistency, and agility.

Building a Scalable Talent Engine

The evolution of ECL Finance's business model and expansion of its physical presence created a need for talent with strong customer orientation, regional market understanding, and execution capabilities. During the year, Talent

Acquisition focused on building a scalable and cost-effective hiring engine that could support business expansion while maintaining quality, governance, and responsible hiring standards.

We broadened our sourcing ecosystem through multiple channels, including employee referrals, job portals, recruitment partners, and other targeted sourcing mechanisms. These channels enabled greater access to talent across markets and supported the evolving requirements of the retail and MSME business.

Recruitment processes were also strengthened through greater digitisation of the candidate journey, enabling a more structured and consistent experience from application through pre-offer and joining. Technology enhancements and recruitment governance mechanisms supported improved visibility, process discipline, and due diligence across the hiring lifecycle.

Our approach to talent extends beyond immediate hiring requirements. Market mapping and engagement with potential candidates for senior and critical positions continued to strengthen the external talent pipeline and support the organisation's succession planning agenda.

The adoption of the National Apprenticeship Training Scheme (NATS) further supported the creation of an early-career talent pipeline while contributing to the broader objective of developing employable talent.

Building Capability for the Next Phase of Growth

Capability building was a key pillar of the FY26 people agenda. With the organisation becoming increasingly technology-enabled and customer-focused, our learning approach evolved to support both current business requirements and future capability needs.

During the year, we established the foundations of a more structured learning ecosystem, combining digital and classroom-based learning. The learning architecture was designed to enable employees to build functional, digital, behavioural, and compliance capabilities relevant to their roles and the organisation's evolving business model.

1000+ hours of learning interventions were conducted during the year, supporting technology adoption, process effectiveness, customer-centricity, regulatory awareness, and responsible lending practices. The increasing use of digital learning also provides employees with greater flexibility and enables learning to be scaled more consistently across locations.

These investments are intended to create a continuous learning culture in which employees can build relevant skills as the organisation, its products, and its operating environment evolve.

Creating a Stronger Employee Experience

As the organisation scaled, strengthening the employee experience became an important component of building organisational readiness.

During the year, we designed a structured new-joiner experience and induction programme, covering the employee journey from pre-joining through the initial settling-in period. The programme is designed to provide new employees with greater clarity on the organisation, their roles, products, processes, culture, and expectations, while enabling them to integrate more effectively into their teams.

The employee experience agenda was complemented by continued digitisation of HR processes and technology enhancements, creating more consistent and accessible employee touchpoints.

We also strengthened the organisation's external talent proposition through the revamp of the ECL Finance website, providing a more comprehensive view of our people, leadership, culture, career opportunities, and business offerings. This initiative supports both

employer branding and our ability to communicate the organisation's evolving identity to prospective talent and other stakeholders.

Strengthening Performance and Accountability

As the organisation transitions towards greater scale, clarity of expectations and a strong performance culture are critical to ensuring that individual contribution remains closely aligned with business priorities.

During FY26, we strengthened our performance management framework through a more structured, scorecard-based approach. Key performance indicators were aligned with business priorities, with greater standardisation of performance expectations across roles and functions.

The performance framework is designed to support a more meritocratic approach to performance outcomes

by establishing greater transparency around goals, measurement, and evaluation. Our rating framework enables meaningful differentiation, while structured performance conversations provide opportunities to discuss achievements, development areas, and future expectations.

More than 275 employees participated in interventions for managers and employees focused on effective goal setting, feedback, and performance conversations. Increasing use of dashboards and workforce insights is also enabling more informed productivity tracking and evidence-based people decisions.

Leadership for Scale

Building leadership capability and alignment was an important part of preparing the organisation for its next phase of growth.

The Leadership Summit held in Alibag brought together more than 50 leaders around the shared ambition of ECLF 2.0. The summit, themed around the concept of a “Bridge”, reflected the organisation's transition into its next phase and the role of leadership in connecting the foundation built to the scale ahead.

The summit provided a platform for strategic dialogue, cross-functional collaboration, and alignment on organisational priorities. A subsequent refresher session helped sustain the momentum and reinforce the themes and commitments emerging from the leadership dialogue.

Together, these interventions helped strengthen leadership alignment, collective ownership, and cross-functional collaboration as the organisation prepares for greater scale and complexity.

Strengthening Communication and Organisational Alignment

As the organisation expanded across products, functions, and geographies, effective communication became increasingly important to ensuring clarity and consistency.

During FY26, we strengthened the foundation for structured internal communications, leadership communications, and external-facing messaging. The focus was on creating greater consistency in how organisational priorities, policies, business updates, and employee initiatives are communicated.

Particular emphasis was placed on ensuring that information reaches employees across the organisation

in a clear and accessible manner. For the expanding Small Business LAP business, communication content was standardised and enabled in regional languages to support better understanding and percolation of information across the field workforce.

These initiatives are helping build a more connected organisation, with greater transparency and alignment between leadership intent, business priorities, and employee understanding.

Employee Wellbeing and Benefits

Employee wellbeing remained an important component of our people agenda during the year. Our approach encompasses physical, mental, emotional, lifestyle, and financial wellbeing, supported through awareness initiatives, health interventions and easier access to employee benefits.

During the year, 11 wellbeing initiatives were conducted, covering key aspects of physical, mental, emotional, lifestyle, and financial wellbeing. These initiatives encouraged preventive care, healthy lifestyle choices, and greater awareness of holistic wellbeing.

Structured helpdesks and awareness interventions also supported employees in accessing medical benefits, learning resources, and health-related services.

We continued to strengthen the value proposition for employees through enhancements to key benefits. Employee term insurance coverage for frontline employees was enhanced by 2x during the year, strengthening financial protection for employees and their families.

The focus remains on making employee benefits more accessible, relevant, and meaningful, while building greater awareness and utilisation of the support available to employees.

Governance, Compliance, and Responsible People Practices

The development of our people infrastructure was accompanied by a continued focus on governance, compliance, and responsible employment practices.

During the year, we ensured alignment with applicable regulatory and statutory requirements while implementing changes arising from the evolving labour and wage framework. The overall people and technology enhancements were undertaken with a focus on wage code reforms, compliance, transparency, and employee communication.

Our people processes are being progressively standardised and digitised to strengthen governance, improve employee experience, and create scalable operating practices. This foundation will enable the organisation to manage a larger and more distributed workforce with greater consistency and accountability.

Looking Ahead

FY26 established the building blocks for the next phase of ECL Finance's growth. The investments made during the year across talent acquisition, capability building, employee experience, performance management, leadership, technology, communications, benefits, governance, and physical infrastructure have strengthened the organisational foundation required to operate at greater scale.

As ECL Finance continues its ECLF 2.0 journey, our people strategy will evolve from building capacity to continuously strengthening capability and productivity. We will focus on attracting and retaining talent aligned with our retail and MSME ambition, developing leaders for scale, deepening digital and functional capabilities, strengthening meritocracy and performance, and creating an employee experience that supports engagement and growth. In parallel, we will continue to strengthen the physical and organisational infrastructure required to support our expanding workforce and business footprint.

Our objective is to build an organisation where people have the capability to deliver, clarity to perform, opportunities to grow, and a shared commitment to the ECLF 2.0 vision. By building organisational capability and infrastructure alongside business scale, we aim to create a resilient, agile, and future-ready organisation capable of supporting ECL Finance's next phase of sustainable growth.

Board's Report

To,
The Members of,
ECL Finance Ltd.

The Directors hereby present their 21st Annual Report on the business, operations, and the state of affairs of the Company together with the Audited Financial Statements for the year ended March 31, 2026:

Financial Highlights (Standalone)

	(₹ in crore)

assets), as at March 31, 2026, and March 31, 2025, accordingly, no amount is required to be transferred to the impairment reserve.

Information on the State of Affairs of the Company

Information on the Operational and Financial performance, amongst others, is given in the Management Discussion and Analysis Report which is annexed to this Report as Annexure I and is in accordance with the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015, ("Listing

Regulations") and the provisions of the Reserve Bank of India (Non-Banking Financial Companies - Financial Statements: Presentation and Disclosures) Directions, 2025 dated November 28, 2025 as updated from time to time.

Merger of Edelweiss Retail Finance Limited with the Company

Pursuant to the Scheme of Amalgamation approved by the Hon'ble National Company Law Tribunal (NCLT) vide order dated September 12, 2025, under Sections 230 to 232 of the Companies Act, 2013 (hereinafter referred to as the "Scheme"), Edelweiss Retail Finance Limited ("ERFL" or "Transferor Company"), a Company under common group control, was amalgamated with ECLF ("ECLF" or "Transferee Company"), both registered as Non-Banking Financial Companies (NBFCs) engaged in the business of financing of loans. The Scheme became effective upon filing of the certified copy of the NCLT order with the Registrar of Companies on September 30, 2025.

The amalgamation had been accounted for as a business combination of entities under common control in accordance with the "pooling of interest" method prescribed under Appendix C to Indian Accounting Standard (Ind AS) 103 - "Business Combination", and in accordance with the relevant provisions of the Scheme. Accordingly, all assets and liabilities recorded in the books of the Transferor Company were transferred to and vested in the Transferee Company and were recorded by the Transferee Company at their carrying amount. Further, the financial information of the Transferee Company for prior periods has been restated as if the amalgamation had occurred from the beginning of the preceding period as per the terms mentioned in the Scheme.

As per the Scheme, the Transferee Company issued equity shares to the shareholders of the Transferor Company based on the swap ratio as specified therein, the details of which are as follows:

"₹1,124 (One thousand, One hundred and twenty-four) fully paid-up equity shares having face value of ₹1/- {Indian Rupee One only} of the Transferee Company shall be issued and allotted for every 100 (Hundred) equity shares having face value of ₹10/- {Indian Rupees Ten only} each held in the Transferor Company."

Accordingly, the Company had allotted 48,27,58,000 Equity Shares of ₹1/- each to the shareholders of ERFL.

Introduction of Small Business LAP

The Company has introduced secured MSME loans for small business segment, which will play a vital role in enabling small businesses to access timely and cost-effective credit. By leveraging owned property as collateral, these loans offer low and medium ticket sizes at comparatively higher interest rates, supporting business expansion, working capital needs, and liquidity management. The security-backed nature of LAP also enhances credit discipline while allowing lenders to manage risk effectively. With streamlined processes and wider geographic reach, Small Business LAP will help to drive financial inclusion by empowering entrepreneurs to scale operations and contribute to overall economic growth.

During the year, the Company has maintained a strategic focus on scaling the Small Business LAP portfolio by increasing geographical presence, strengthening sourcing through its direct sales channels, and deepening penetration across key markets. Supported by multi-product capabilities across its network and a focus on operational efficiency, the Company continues to enhance cross-sell opportunities, improve portfolio quality, and drive sustainable, balanced growth in the segment.

Reserves and Surplus

The details of the Reserves and Surplus are given in the Financial Statements attached herewith.

Share Capital

During the year, the Authorised Share Capital of the Company increased from ₹6,74,00,00,000 (divided into 6,70,00,00,000 Equity Shares of ₹1/- each and 40,00,000 Preference Shares of ₹10/- each) to ₹7,24,00,00,000 (divided into ₹7,20,00,00,000 Equity Shares of ₹1/- each and 40,00,000 Preference Shares of ₹10/- each) and the Paid-up Share Capital of the Company increased from ₹2,70,01,57,812 to ₹3,18,29,15,812. The said increase was pursuant to the Scheme of Amalgamation approved by the Hon'ble National Company Law Tribunal (NCLT) under Sections 230 to 232 of the Companies Act, 2013, whereby

Edelweiss Retail Finance Limited amalgamated with ECLF with effect from September 30, 2025.

As at March 31, 2026, the Authorised Share Capital and Paid-up Share Capital of the Company stood at ₹7,24,00,00,000 and ₹3,18,29,15,812 respectively.

Dividend

On account of accumulated losses and with a view to conserve the resources of the Company, the Directors are not recommending any dividend for the year ended March 31, 2026.

Finance and Credit Rating

The Company continued to borrow funds via Commercial Papers and terms loans through banks.

During the year, the Company raised ₹473.85 crore through Commercial Papers (non-episodic) and ₹350 crore by way of bank borrowings. The outstanding bank borrowings as on March 31, 2026 stood at ₹642.88 crore.

The Company enjoys credit ratings from various Rating Agencies. The details of the credit ratings are furnished in the Notes to the Financial Statements.

Subsidiaries, Joint Ventures, and Associate Company

During the year, neither did the Company have any Subsidiary or Associate Company, nor did it enter into any Joint Venture Agreement under the provisions of the Companies Act, 2013 ("the Act").

Our Network of Offices

As of March 31, 2026, the Company operates through a diversified network of 64 offices, including 40 exclusive branches dedicated to Small Business Loan Against Property (LAP), spread across 14 States and 3 Union Territories. This extensive geographic footprint enables the Company to efficiently service its existing customer base while also enhancing its ability to acquire new customers across regions. Each of the Company's offices is equipped to service multiple products, which optimises operational efficiencies, reduces overall operating costs, and supports improved business scalability. The widespread distribution of offices also enables the transfer and adoption of best practices developed in one region to other regions.

Further, the geographically diversified presence reduces dependence on any single region and mitigates exposure to regional, climatic, and cyclical risks, including those arising from factors such as heavy monsoons or drought conditions.

Loans, Investments, and Guarantees

The Company is an NBFC, registered with the Reserve Bank of India. During the year, the Company did not give any guarantee. Further, the provisions of Section 186 of the Companies Act, 2013 pertaining to giving of loans, guarantees or providing security are not applicable to the Company.

Related Party Transactions

All related party transactions entered into by the Company were at arm's length and in the ordinary course of business, except for the following transaction, which, although conducted at arm's length, was not in the ordinary course of business:

Name of Related Party	Nature of Relationship	Nature of Transaction	Period	Maximum Value
Edelweiss Rural and Corporate Services Limited	Fellow Subsidiary	Sale of fixed asset (Premises situated at 10 th Floor of Edelweiss House, Off C.S.T. Road, Kalina, Mumbai – 400 098)	Dec'25	~₹100 crore

The Company has not entered into transactions with the Promoters, Directors, and Key Managerial Personnel, which may have potential conflict of interest with the Company.

The Company has formulated the Related Party Transactions Policy, which is available on the website of the Company at <https://www.eclf.com/> Particulars of contracts or arrangements with the

Related Parties as prescribed in Section 188 of the Act in Form AOC-2 is annexed to this Report as Annexure II. All the Related Party Transactions as required under the applicable Accounting Standards are reported in the financial statements.

Annual Return

Pursuant to Sections 92 and 134 of the Act, the Annual Return as at March 31, 2026, in Form MGT-7, is available on the website of the Company at the link: <https://www.eclf.com/>

Material Changes and Commitments, if any, Affecting the Financial Position of the Company

No Material changes and commitments affecting the financial position of the Company have occurred between the end of the Financial Year to which the Financial Statement relates (i.e. March 31, 2026) and the date of the Report.

Transfer of Unclaimed Amounts

In accordance with the provisions of the Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016 (as amended from time to time), an amount of ₹30,54,576.38 was transferred from the Unclaimed Accounts to the IEPF during FY2025-26. This amount comprises both interest and principal on NCDs. Consequent to the merger of ERFL with ECLF effective September 30, 2025, the said transfer includes balances relating to both entities.

Directors and Key Managerial Personnel

The Company has a professional Board with Executive Directors & Non-Executive Directors who bring the right mix of knowledge, skills, and expertise and help the Company in implementing the best Corporate Governance practices. Ms. Kashmira Mathew, Executive Director of the Company will retire by rotation at the ensuing 21st Annual General Meeting and being eligible, offers herself for re-appointment as per Section 152 of the Companies Act, 2013.

(I) Independent Directors

In accordance with the provisions of Section 149 of the Companies Act, 2013, the Independent Directors have given a declaration that they meet the criteria of independence as provided in the said section. Accordingly, the Company confirms that in the opinion of the Board of Directors, the Independent Directors fulfil the conditions specified in Section 149(6) of the Companies Act, 2013 and that the Independent Directors are independent of the Management. In the opinion of the Board, the Independent Directors are people of integrity and possess relevant expertise, experience and proficiency. Further, the Independent Directors have, in terms of Section 150 of the Act read with Rule 6 of the Companies (Appointment & Qualification of Directors) Rules, 2014, enrolled themselves in the Independent Directors' Databank maintained with the Indian Institute of Corporate Affairs.

Declaration by Independent Directors:

The Independent Directors have submitted their declaration of independence, stating that:

- a. They continue to meet the criteria of independence as prescribed under Section 149(6) of the Act, read with the applicable Rules framed thereunder and Regulation 16(1)(b); and
- b. There has been no change in the circumstances affecting their status as Independent Directors of the Company.

The Independent Directors have also confirmed their compliance with the Company's Code of Conduct. Further, in terms of Section 150 of the Act and the Rules framed thereunder, they have confirmed their registration with the Indian Institute of Corporate Affairs (IICA), including renewal of the applicable tenure, and compliance with the online proficiency self-assessment test, wherever applicable (unless exempted).

The Board, in terms of Rule 8 of the Companies (Accounts) Rules, 2014, is of the opinion and confirms that the Independent Directors are persons of high repute and integrity, possessing relevant expertise and experience in their respective fields.

(ii) Change in Directors

- The Board, at its meeting held on January 27, 2025, appointed Mr. P Kumaresan as an Additional (Nominee) Director of the Company, subject to the approval of the Reserve Bank of India, for a term up to March 31, 2028. The approval of the Reserve Bank of India was subsequently received on May 23, 2025.

Thereafter, the appointment was placed before the shareholders at the General Meeting held on June 23, 2025. Mr. P Kumaresan was appointed to represent LIC on the Company's Board, in recognition of LIC's significant debt exposure and longstanding support, and in line with IRDAI's Stewardship Code which encourages insurance companies to actively engage with investee companies to strengthen governance, transparency, and strategic decision-making.

- Ms. Ananya Suneja was appointed as an Additional (Non-Executive) Director by the Board at its meeting held on August 1, 2025, subject to the approval of the Reserve Bank of India (RBI). The appointment was to take effect with effect from such date as may be determined by the Board, post receipt of approval of the Reserve Bank of India.

The Company subsequently received RBI approval on October 31, 2025, valid until April 30, 2026. In line with this approval and based on the recommendation of the Nomination and Remuneration Committee, the Board, at its meeting held on February 4, 2026, approved Ms. Suneja's appointment with effect from February 4, 2026.

This appointment will be placed before the shareholders at the forthcoming General Meeting for their approval. The Board is of the opinion that her association, considering her expertise and experience, would immensely benefit the Company.

(iii) Key Managerial Personnel

The Board appointed Mr. Ajay Khurana as Additional Director of the Company to be designated as Managing Director with effect from April 1, 2025, subject to approval of the Reserve Bank of India, at its meeting held on January 3, 2025. The approval from Reserve Bank of India was received on March 7, 2025. The said appointment was approved by the Shareholders of the Company at the Extra-Ordinary General Meeting held on June 23, 2025.

Number of Board Meetings Held

During the year under review, Six Board Meetings were convened and held. The gaps between the Meetings were within the period prescribed under the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Following is the attendance of each of the Directors at the Board Meetings held during the period under review:

Sr. no.	Date of Meeting	Total no. of Directors as on the date of meeting	Attendance	
			No. of directors attended	% of attendance
1	May 05, 2025	7	7	100
2	June 18, 2025	8	8	100
3	August 01, 2025	8	8	100
4	September 30, 2025	8	8	100
5	November 07, 2025	8	8	100
6	February 04, 2026	9	9	100

Nomination & Remuneration Policy

The Company has formulated a Nomination & Remuneration Policy ("the Policy") as per the provisions of Section 178 of the Companies Act, 2013. The said Policy is placed on the website of the Company at <https://www.eclf.com/api/upload/view-pdf?name=Nomination-and-Remuneration-Policy-February-4-2026>. The Policy encapsulates a compensation philosophy and structure that will reward and retain talent; and provides for a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals. The Policy, inter-alia, provides for criteria for payment to Executive and Non-Executive Directors, Board diversity etc.

Evaluation of the Performance of the Board

The Board has framed a Board Evaluation Policy ("the Policy") for evaluating the performance of the Board, Chairman, Directors, and the Committees of the Board. The said Policy is placed on the website of the Company at <https://www.eclf.com/api/upload/view-pdf?name=Board-Evaluation-Policy-February-4-2026>.

The Policy **inter-alia** provides the criteria for performance evaluation and authorises the Nomination and Remuneration Committee to prescribe criteria/ framework for Board Evaluation. Accordingly, the Nomination & Remuneration Committee has prescribed a detailed methodology/ approach for the aforesaid evaluations. Based on the same, the performance was evaluated for the financial year ended March 31, 2026. The Independent Directors at their meeting reviewed the performance of the Board, Non-Independent Directors, and Board Chairperson. The Board of Directors in its meeting evaluated the performance of Individual Directors, performance of Board, its Committees, and Board Chairperson along with flow of information for conducting meetings of Board/ Committees. The Nomination & Remuneration Committee also evaluated the performance of all Directors.

Internal Financial Controls and Internal Control System

The Company has in place adequate internal financial controls with reference to financial statements. The Company's internal control system is designed to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting, and compliance with the laws and regulations. The internal control system is also supported by an internal audit process. The Company has a strong Internal Audit Team in place.

Based on its internal evaluation and as confirmed by the Statutory Auditors of the Company, the Management believes that adequate Internal Financial Controls exist in relation to its Financial Statements.

Risk Management

The Company has adopted a comprehensive Enterprise Risk Management Framework which provides for the systematic identification of key events and risks that may impact the achievement of its business objectives. The framework is supported by clearly defined risk policies and strategies designed to ensure timely evaluation, reporting, monitoring, and mitigation of key business risks. The Risk Management Framework of the Company prescribes the Risk Appetite Statement, along with detailed risk policies defining Risk Thresholds, Process Controls, Risk Dashboards, and Early Warning Signals (EWS) to facilitate proactive risk identification and management. These elements collectively enable a structured and disciplined approach to risk management across the organisation. The Risk Management Committee (RMC) of the Company supervises the management of these risks and provides oversight and guidance to ensure alignment with the Company's strategic priorities and regulatory expectations. The Company has implemented dashboards to measure and manage various risks including credit risk, liquidity risk, people risk, compliance and regulatory risk, operational risk, technology risk, fraud risk, market risk, and outsourcing risk. These dashboards support continuous monitoring of risk indicators and enable timely management action. In addition, the Company has a well-defined Internal Capital Adequacy Assessment Process (ICAAP) document that identifies both present and future risks to which the Company is exposed and outlines the methodologies for monitoring, evaluating, and mitigating such risks. The ICAAP framework also assesses the capital requirements necessary to adequately support the Company's risk profile and sustain its future growth, ensuring alignment with the Company's risk appetite and long-term strategic objectives.

Committees of the Board

The Board of Directors has inter-alia constituted the following Board Committees:

- (1) Audit Committee
- (2) Stakeholders Relationship Committee
- (3) Corporate Social Responsibility Committee
- (4) Nomination and Remuneration Committee
- (5) Risk Management Committee
- (6) IT Strategy Committee
- (7) Asset Liability Management Committee

(1) Audit Committee

During FY2025-26, the Committee met five times on May 05, 2025, August 01, 2025, November 07, 2025, December 23, 2025, and February 04, 2026.

The Committee's composition and terms of reference are in compliance with the provisions of the Companies Act, 2013. All the members possess financial/ accounting expertise/exposure and have relevant financial/ accounting experience. The Composition as on March 31, 2026, and attendance during the year ended March 31, 2026 is as under:

Name	No. of Meetings attended	% of meetings attended
Mr. Shiva Kumar	5	100%
Mr. Sameer Kaji	5	100%
Mr. Aalok Gupta	5	100%
Ms. Kashmira Mathew	2*	40%*

*Ms. Kashmira Mathew ceased to be a member of the Committee w.e.f. 01-08-2025

The Audit Committee invites executives as it considers appropriate, particularly the Chief Financial Officer, Head – Internal Audit, Chief Compliance Officer and representatives of Statutory Auditors to be present at its meetings. The Company Secretary acts as the Secretary to the Committee. There were no instances wherein any recommendation of the Audit Committee was not accepted by the Board.

Pursuant to RBI Regulations, the Committee also meets the Head – Internal Audit and Chief Compliance Officer excluding the presence of the Management.

Terms of Reference of the Committee are attached as Annexure III.

(2) Stakeholders Relationship Committee

During FY2025-26, the Committee met four times on April 30, 2025, July 31, 2025, November 06, 2025, and February 03, 2026.

The Committee's composition and terms of reference are in compliance with the provisions of the Companies Act, 2013.

The Composition as on March 31, 2026, and attendance during the year ended March 31, 2026 is as under:

Name	No. of Meetings attended	% of meetings attended
Mr. Sameer Kaji	4	100%
Mr. Aalok Gupta	4	100%
Mr. Ajay Khurana	4	100%
Mr. Atul Pande	4	100%
Ms. Kashmira Mathew	4	100%
Ms. Leena Shrungare	2*	50%*
Mr. P Kumaresan	2**	50%**

*Ms. Leena Shrungare ceased to be a member of the Committee w.e.f. 01-08-2025

** Mr. P Kumaresan was inducted in the Committee w.e.f. 01-08-2025

Terms of Reference of the Committee are attached as Annexure III.

Based on the reports received from the Registrar to an Issue & Share Transfer Agents during the year ended

March 31, 2026, the Company received 13 complaints from the investors which were satisfactorily resolved/ replied. As on March 31, 2026, there were no outstanding complaints.

(3) Corporate Social Responsibility (CSR) Committee

The Committee's composition and terms of reference are in compliance with the provisions of the Companies Act, 2013. Since the CSR obligations were not applicable to the Company for FY25-26, no meeting of the Committee was held.

The Composition of the Committee as on March 31, 2026, is as under:

Name	No. of Meetings attended
Mr. Shiva Kumar	Not Applicable
Mr. Ajay Khurana	
Mr. Sameer Kaji	
Mr. P Kumaresan*	

*Mr. P Kumaresan was inducted in the Committee w.e.f. 01-08-2025

Terms of Reference of the Committee are attached as Annexure III.

The Corporate Social Responsibility Policy ("CSR Policy") was devised in accordance with section 135 of the Companies Act, 2013 as amended from time to

time. The CSR policy is aimed at promoting social welfare through its comprehensive programmes. The said Policy is available for reference at the Company's website at [Policy-on-Corpor-ate-Social-Responsibility.pdf](#)

(4) Nomination and Remuneration Committee

During FY2025-26, the Committee met four times on May 05, 2025, June 18, 2025, August 01, 2025, and February 04, 2026. The Committee's composition and terms of reference are in compliance with the provisions of the Companies Act, 2013.

The Composition as on March 31, 2026, and attendance during the year ended March 31, 2026, is as under:

Name	No. of Meetings attended	% of meetings attended
Mr. Shiva Kumar	4	100%
Mr. Atul Pande	4	100%
Mr. Rashesh Shah	4	100%
Mr. Sameer Kaji	3	75%

Terms of Reference of the Committee are attached as Annexure III.

(5) Risk Management Committee

During FY2025-26, the Committee met four times on April 30, 2025, July 31, 2025, November 06, 2025, and February 03, 2026. The Committee's composition and terms of reference are in compliance with the provisions of the Companies Act, 2013.

The Composition as on March 31, 2026, and attendance during the year ended March 31, 2026, is as under:

Name	No. of Meetings attended	% of meetings attended
Mr. Shiva Kumar	4	100%
Mr. Aalok Gupta	4	100%
Mr. Ajay Khurana	4	100%
Mr. Sameer Kaji	4	100%
Ms. Kashmira Mathew	2*	50%*
Mr. Sandeep Agarwal	2**	50%**

*Ms. Kashmira Mathew was inducted in the Committee w.e.f. 01-08- 2025

**Mr. Sandeep Agarwal was inducted in the Committee w.e.f. 30-09-2025

The Committee also meets the Chief Risk Officer excluding the presence of the Executive Directors and Management, in accordance with RBI (Non-Banking Financial Companies - Governance) Directions dated November 28, 2025.

Terms of Reference of the Committee are attached as Annexure III.

(6) IT Strategy Committee

IT Strategy Committee is constituted in compliance with the applicable RBI guidelines. The Committee's composition and terms of reference are in compliance with the provisions of the RBI Guidelines.

During FY2025-26, the Committee met four times on April 30, 2025, July 31, 2025, November 06, 2025, and February 03, 2026.

Terms of Reference of the Committee are attached as Annexure III.

(7) Asset Liability Management Committee (ALCO)

The ALCO is constituted in compliance with the applicable RBI guidelines. The Committee's composition and terms of reference are in compliance with the provisions of the RBI Guidelines.

During FY2025-26, the Committee met four times during the year on April 30, 2025, July 31, 2025, November 06, 2025, and February 03, 2026.

Terms of Reference of the Committee are attached as Annexure III.

Statutory Auditors

In accordance with the provisions of Section 139 of the Companies Act, 2013 and the Rules framed thereunder (the Act) and RBI circular ("Circular") dated 27th April, 2021 on the Guidelines for appointment of Statutory Central Auditors (SCAs)/ Statutory Auditors (SAs) of Commercial Banks (excluding RRBs), UCBs, and NBFCs (including HFCs), M/s. G.K Choksi & Co. are the current Statutory Auditors of the Company.

The Statutory Audit Report does not contain any qualifications, reservations, and adverse remarks.

Secretarial Audit

The Board had appointed M/s Alwyn Jay & Co., Company Secretaries, as Secretarial Auditor of the Company for the financial year ended March 31, 2026.

The Report issued by the Secretarial Auditors is attached herewith as Annexure IV. The Secretarial Audit Report does not contain any qualifications, reservations, and adverse remarks.

Details of Corporate Social Responsibility (CSR) Expenditure

Every company meeting the criteria prescribed under Section 135 of the Companies Act, 2013, is required to spend, in each financial year, at least 2% of the average net profits earned during the three immediately preceding financial years, in accordance with its Corporate Social Responsibility (CSR) Policy.

Since the Company did not meet the prescribed criteria relating to average net profits for the three immediately preceding financial years, it was not required to comply with the provisions of Section 135 of the Companies Act, 2013, for FY26.

It is pertinent to note that, prior to the merger, Edelweiss Retail Finance Limited (ERFL) was covered under the applicability of Section 135 based on its standalone financial statements. Accordingly, ERFL incurred CSR expenditure of ₹0.24 crore for the period from April 2025 to September 2025.

However, pursuant to the merger of ERFL with the Company, w.e.f 30th September, 2025, the CSR provisions are not applicable to the merged entity, as the prescribed thresholds under Section 135 are not met on a combined basis.

Accordingly, the details provided above pertain only to the CSR expenditure incurred by ERFL during the period from April 2025 to September 2025, as stated above.

Prevention of Sexual Harassment of Women at Workplace

The Company prohibits any form of sexual harassment, and any such incident is immediately investigated, and appropriate action is taken in the matter against the offending employee(s) based on the nature and the seriousness of the offence. The Company has in place, a corporate policy on Prevention, Prohibition and Redressal of Sexual Harassment of Women at Workplace (the 'Policy') and matters connected therewith or incidental thereto covering all the aspects as contained under the 'The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013' ("POSH Act"). The Company also has in place an Internal Committee constituted under POSH Act and Rules made thereunder to look into all complaints of sexual harassment made by an Aggrieved Person where the sexual harassment has taken place at workplace or in the course of official duties.

There was no sexual harassment complaint filed during the financial year and no complaint was pending at the end of the financial year.

Conservation of Energy, Technology Absorption, and Foreign Exchange Earnings/ Outgo

A. Conservation of energy

(i) Steps taken or impact on conservation of energy:

The operations of the Company are not energy intensive in nature. Nevertheless, the Company remains committed to responsible energy management and has implemented appropriate measures to optimise energy usage across its operations. These initiatives include:

- Rationalisation of IT infrastructure across branch locations by reducing dependence on onsite hardware and progressively centralising operations, thereby lowering energy consumption and improving operational efficiency.
- Periodic and proactive maintenance of supporting equipment such as uninterruptible power supply (UPS)

systems, batteries, and air-conditioning units to ensure optimal performance, prevent energy loss, and extend asset life.

(ii) Steps taken by the Company for utilising alternate source of energy:

While the Company's current operations do not involve significant energy consumption, it maintains a forward-looking approach towards sustainability. The Company remains open to evaluating and adopting alternative and renewable energy solutions as its operational scale and business requirements evolve, including potential initiatives supporting its field workforce. This approach ensures preparedness for future sustainability initiatives, contributes to environmental conservation, and may offer long-term operational efficiencies.

(iii) The capital investment on energy conservation equipment - Nil.

B. Technology absorption

(i) The efforts made towards technology absorption:

The Company continues to make sustained investments in technology to enhance operational efficiency, scalability, customer experience, and regulatory compliance.

- The Company has implemented an integrated, end-to-end digital loan origination platform to standardise and automate key processes including customer onboarding, credit assessment, approval, and disbursement. The system-driven workflows have improved transparency, reduced turnaround time, and strengthened regulatory compliance and audit trails.
- Customer-facing digital channels were modernized to improve user interface, navigation, and performance. These enhancements have strengthened digital engagement, improved accessibility, and supported customer acquisition and servicing across devices.
- The underwriting and credit profiling framework was upgraded with advanced analytics and rule-based decisioning to improve risk assessment, credit accuracy, and consistency, while aligning underwriting practices with evolving risk policies.

- Mobility-enabled digital applications were deployed for internal sales teams to digitise lead management, application sourcing, and documentation. This has enhanced field productivity, reduced manual processes, and enabled real-time monitoring of sales activities.
- Secure, consent-based access to customer financial data was enabled in line with regulatory guidelines, improving income assessment, underwriting quality, and data privacy.

In parallel, the Company has systematically phased out legacy applications and transitioned to a cloud-first enabling improved scalability, cost optimisation, system resilience, and business continuity.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution:

The technology-driven initiatives have yielded measurable benefits, significantly impacting our product offerings and operational cost structures:

The technology initiatives have delivered measurable operational and customer-centric benefits:

- Automated, workflow-driven loan processing has resulted in faster turnaround times, improved process standardisation, and enhanced compliance adherence.
- Integration of sales channels with core systems has eliminated data duplication, improved data accuracy, and reduced processing and onboarding errors.
- Advanced underwriting analytics and profiling have strengthened credit decision-making, improved risk segmentation, and enhanced portfolio quality.
- AI-enabled document recognition and automated validation mechanisms have significantly reduced data-loss risks and improved customer onboarding experience.
- Secure financial data access has reduced reliance on physical documents while improving underwriting efficiency and transparency.
- Overall system integrations and digital upgrades have improved operational controls, reduced compliance exposure, and enhanced customer satisfaction.

(iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year) – Not applicable

(iv) The expenditure incurred on Research and Development:

a) The Company continues to leverage innovation as a key enabler of business growth and risk optimisation. During the year, targeted initiatives in Artificial Intelligence and Machine Learning were undertaken to analyse historical and transactional data, enabling deeper insights into customer behaviour, credit risk patterns, and portfolio performance. These capabilities support sharper underwriting decisions and help align product offerings more closely with evolving customer needs.

b) In addition, the Company adopted a disciplined approach to innovation by undertaking several proof-of-concept initiatives to assess emerging and cutting-edge technologies. These evaluations were executed at minimal or no incremental cost, allowing us to validate scalability, effectiveness, and business relevance prior to enterprise-wide adoption, while maintaining prudent cost management.

The Company operates in a highly automated and digitally enabled environment supported by a robust IT governance framework. Comprehensive information security controls and a well-defined business continuity plan are in place to mitigate technology-related risks. The Company adheres to the Information Security and Cyber Security policies prescribed under the RBI Master Direction on the Information Technology Framework for NBFCs. Independent Information Systems audits are conducted under the oversight of the Head – Internal Audit, providing reasonable assurance to Management. Employees undergo mandatory and periodic information security awareness and training programmes to ensure continuous compliance and risk awareness across the organisation.

Foreign Exchange Earnings and Outgo

There were no foreign exchange earnings during the year. There was outgo of ₹1.49 crore (previous year: ₹2.12 crore).

Secretarial Standards

The Company has devised proper systems to ensure compliance with the provisions of all applicable Secretarial Standards issued by the Institute of Company Secretaries of India and that such systems are adequate and operating effectively.

Other Disclosures

- No disclosure is required in respect of the details relating to the issue of Equity Shares with differential rights as to dividend, voting or otherwise and Sweat Equity Shares, as the Company has not issued these types of shares.
- There were no significant or material orders passed by any regulator or court or tribunal which would impact the status of the Company as a going concern and the Company's operations in future.
- Further, no fraud was reported by the Auditors under sub-section (12) of section 143 during the year.
- There was no application made or any proceeding pending under the Insolvency and Bankruptcy Code, 2016 (31 of 2016) during the year.
- There was no instance of one-time settlement with any Bank/ Financial Institution in respect of loan taken by the Company.
- There was no revision in the financial statements of the Company.

Deposits

The Company neither held any public deposits at the beginning of the year nor has it accepted any public deposits during the year.

Whistle Blower Policy/ Vigil Mechanism

Pursuant to Section 177 of the Companies Act, 2013, the Company has in place a Whistle Blower Policy for establishing a vigil mechanism for Directors and employees to report instances of unethical and/or improper conduct and to take suitable steps to investigate and correct the same. The Directors, employees, vendors, customers or any person having dealings with the Company may report non-compliance of the Policy to the reporting platforms as mentioned in the policy. The copy of the Policy is available on https://www.eclf.com/api/upload/view-pdf?name=Whistleblower_Policy_-_November_7_2025.

The Directors and the Management personnel maintain confidentiality of such reporting and ensure that the

whistleblowers are not subjected to any discrimination. The Audit Committee of the Board of Directors of the Company oversees the vigil mechanism. No person was denied access to the Audit Committee during the year.

There was no complaint filed during the financial year and no complaint was pending at the end of the financial year.

Compliance with the Maternity Benefit Act, 1961

The Company has complied with the provisions of the Maternity Benefit Act, 1961, including all applicable amendments and rules framed thereunder. The Company is committed to ensuring a safe, inclusive, and supportive workplace for women employees. All eligible women employees are provided with maternity benefits as prescribed under the Maternity Benefit Act, 1961, including paid maternity leave, nursing breaks, and protection from dismissal during maternity leave.

The Company also ensures that no discrimination is made in recruitment or service conditions on the grounds of maternity. Necessary internal systems and HR policies are in place to uphold the spirit and letter of the legislation.

Particulars of Employees

In accordance with the provisions of Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the particulars of the employees are set out in the annexure to this Report. In terms of the provisions of Section 136 of the Act, the Report is being sent to the Members of the Company excluding the annexure. Any Member interested in obtaining a copy of the annexure may write to the Company Secretary at the Registered Office of the Company.

Further, disclosures on managerial remuneration as required under Section 197 read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 are provided as Annexure V to this Report.

Gender-Wise Composition of Employees

In alignment with the principles of diversity, equity, and inclusion (DEI), the Company discloses below the gender composition of its workforce as on March 31, 2026:

Employment type	Male	Female	Transgender	Total
On-roll	519	66	0	585
Off-roll	117	15	0	132
Total	636	81	0	717

This disclosure reinforces the Company's efforts to promote an inclusive workplace culture and equal opportunity for all individuals, regardless of gender.

Maintenance of Cost Records

The Company is not required to maintain Cost Records as specified by the Central Government under Section 148 (1) of the Act.

Management Discussion & Analysis Report

MSME Finance - Landscape, Trends, and Key Updates

Structural Importance of the MSME Sector

The MSME sector continues to be a foundational pillar of the Indian economy, contributing approximately 30% of GDP, ~41% of manufacturing GVA, and ~45% of national exports, while also providing employment to a significantly large workforce. As of March 2026, Udyam and Udyam Assist registrations stand at ~7.9 crore enterprises, with nearly 99% classified as Micro enterprises, underscoring both the scale of the segment and the latent demand for formal credit solutions.

Despite its economic relevance, MSMEs remain materially underpenetrated in institutional finance. The total MSME credit addressable market is estimated at ~₹64 lakh crore, while the structural credit gap remains ~₹30 lakh crore, reinforcing the long-term opportunity for specialised and risk-calibrated lenders.

Industry Structure and Credit Landscape

As of September 2025, total MSME credit outstanding* has expanded to approximately ₹43.3 lakh crore, growing at a robust ~18% YoY. Growth momentum is primarily driven by Micro and Small enterprises, which together account for ~97% of active loan accounts by count and ~77% of POS value, reflecting the dominance of granular, high-velocity credit demand within the MSME ecosystem. While Micro enterprises continue to dominate loan counts, the Small enterprise segment holds ~40% of total POS value.

The Medium segment, though larger in ticket size, remains relatively less attractive due to tighter pricing, higher operational complexity and lower risk-adjusted returns, especially for NBFCs.

*For exposure up to ₹100 crore and covers only TL, Property Loans, WC (CC & OD) considered as MSME by bureau.

Evolving Lender Mix and Competitive Dynamics

The MSME lending ecosystem remains competitively

diversified across PSU banks, Private sector banks and NBFCs. NBFCs have emerged as the fastest-growing cohort, with ~71% growth in MSME AUM between Sep'23 and Sep'25, significantly outpacing banks, and reinforcing their relevance in niche, underserved, and faster-turnaround segments.

Notably, Micro and Small enterprises account for ~78% of NBFC MSME outstanding, reflecting strong alignment between NBFC economics and the dominant MSME demand clusters.

Product Mix and Structural Shift Towards Secured Financing

From a structural standpoint, property-backed loans constitute a significant share of MSME portfolio exposure, particularly within the Small and Medium segments, reflecting sustained demand for long-term investments, capacity expansion and modernisation. Bridging the working capital gap remains the primary purpose for which the loans are availed, reflecting the continued need to manage cash flow cyclicity and sustain business operations.

A key industry development has been the rapid expansion of Loan Against Property (LAP) portfolios. The LAP market is expected to grow at ~15–17% CAGR, reaching ~₹23 lakh crore by FY28. NBFCs have grown fastest in this segment with ~19.4% CAGR, increasing market share to ~23.3%, supported by data-led underwriting and collateral-backed risk structures.

LAP's characteristics of full collateral cover, lower delinquency, improved recovery prospects and stable margins have positioned it as a foundational secured asset class within MSME portfolios, driving a gradual industry-wide shift towards secured financing structures.

Technology-led Transformation and Risk Management Advances

Technology has emerged as a defining structural driver within MSME finance. Lenders are increasingly deploying

advanced analytics, AI-driven underwriting and digital sourcing models to improve credit decisioning, reduce TATs and enhance scalability. The integration of GST data, Udyam registration data, bureau insights and digital payment trails has significantly improved credit visibility, reduced information asymmetry and strengthened fraud and early-warning frameworks.

These advancements have enabled lenders to pursue calibrated growth without materially compromising portfolio quality, even amidst rapid balance sheet expansion.

Asset Quality Trends

Despite robust growth across products and lenders, sector-wide asset quality indicators have remained resilient. Risk outcomes across MSME portfolios indicate that lenders adopting disciplined underwriting, granular ticket sizes and secured structures have been able to sustain stability through cycles. Peer evidence highlights that AUM scaling of 2x–5x over a three-year period is achievable while maintaining GNPA levels broadly below ~3%, provided growth is quality-led rather than volume-driven.

Policy Support and Formalisation Tailwinds

Formalisation continues to be a powerful structural tailwind. The expansion of GST, Udyam registrations, account aggregator frameworks and digital payments has enlarged the addressable borrower universe and improved lender confidence. Additionally, PSL obligations (~40% of bank advances) continue to create supply-demand mismatches, positioning NBFCs as critical partners in originating priority-sector compliant MSME assets through DA/PTC structures.

Outlook

Overall, the MSME finance industry remains structurally well-positioned for sustained long-term growth. A large unmet credit gap, improving data availability, increasing lender sophistication and strong policy support together create significant headroom for responsible expansion. The opportunity lies in quality-led scaling, deeper penetration of secured products, disciplined unsecured exposure, and technology-enabled underwriting frameworks that balance growth with resilience.

ECL Finance Overview

ECL Finance Limited (ECLF), incorporated on July 18, 2005, is a Public Limited Company recognised as a NBFC - Middle Layer (ML) under Reserve Bank of India (Non-Banking Financial Companies - Registration, Exemptions and Framework for Scale Based Regulation) Directions, 2025 dated November 28, 2025 as amended from time to time. The Company received its Certificate of Registration (N-13.01831) from the RBI on April 24, 2006, under Section 45-IA of the Reserve Bank of India Act, 1934. This certification authorises ECLF to operate as a Non-Banking Financial Institution that does not accept public deposits, subject to the conditions outlined by the RBI.

ECLF has established itself as a niche participant in MSME lending, with a strategic focus on borrower segments where it believes risk-adjusted returns are attractive and sustainable. Our vision is to be a trusted financial partner to the micro, small and medium enterprises in their growth journey to success. To achieve this, we continue to broaden our product suite, improve operational efficiency and deepen digital capabilities.

During FY26, MSME disbursements amounted to ₹1,051 crore, and MSME Assets Under Management stood at ₹1,431 crore as of March 31, 2026. The MSME portfolio exhibited stable asset quality, supported by calibrated sourcing, strengthened credit governance and improved collection and monitoring mechanisms. Loan Against Property (LAP) constitutes the Company's flagship MSME product and forms the core of its lending portfolio. The product caters to MSMEs seeking structured, medium-to-long tenure financing, supported by underlying collateral. From a risk management perspective, LAP enables better alignment between asset duration and funding tenor, supporting balance sheet resilience.

In line with its long-term MSME strategy, the Company has shifted from an asset-light, co-lending model to building an on-balance-sheet MSME portfolio to strengthen control over origination, underwriting, pricing and portfolio composition. This calibrated transition enables retention of full lending economics, improved accountability across the credit lifecycle, while

maintaining portfolio quality and risk metrics within internal thresholds.

Technology and data analytics form an integral part of ECLF's MSME operating model. The Company has implemented digital workflows and analytics-based decision support systems across origination, underwriting and portfolio monitoring. These initiatives have contributed to improved turnaround times, consistency in credit assessment and proactive risk monitoring, while supporting scalable operations.

Core Capabilities

Strengthening Channel Partnerships and Driving Growth through Granular Focus

During the year, ECLF continued to strengthen its sourcing and distribution strategy across MSME segments, with Loan Against Property remaining the principal contributors to business volumes and portfolio scale. This product continues to anchor the Company's MSME franchise, supported by established distribution channels, seasoned credit frameworks and strong demand from borrowers.

ECLF continued to deepen its channel partnerships across MSME products through a structured, relationship-driven approach. Regular Direct Sales Agent (DSA) training programmes, onboarding initiatives and engagement forums were conducted to enhance capability, regulatory awareness and alignment with the Company's risk and compliance philosophy.

Building on this core portfolio, ECLF also initiated a calibrated expansion into emerging MSME markets through the launch of the Small Business Loan Against Property (SBLAP) product line. This initiative represents a strategic diversification of the MSME offering, aimed at addressing the secured credit needs of under-penetrated small business owners and first-time formal borrowers in emerging markets, while maintaining prudent risk standards.

The Company undertook a significant enhancement of its physical presence by establishing 40 exclusive branches across selected locations in Tamil Nadu and Gujarat. These states are characterised by robust trade and manufacturing activity, high density of small enterprises and favourable collateral ownership patterns, making them conducive markets for Small Business LAP

offerings. The newly established branches are primarily focused on direct sourcing through ECLF employees, enabling closer customer engagement and stronger on-ground credit assessment. This model is also expected to progressively improve customer loyalty and acquisition economics by nullifying dependence on intermediary-led sourcing.

The integrated sourcing model has strengthened ECLF's MSME capabilities. This approach enables the Company to balance scale and stability with selective expansion unlock ancillary opportunities such as insurance cross-sell and build a sustainable platform for long-term MSME growth.

While LAP continued to drive scale during the year, the Small Business LAP portfolio remained at an early stage with close performance monitoring.

In line with its overall risk framework, the Company maintained a disciplined approach to portfolio construction, with continued emphasis on secured exposures, conservative loan-to-value parameters and robust legal and technical evaluations.

Building Robust Governance, Compliance and Resilience

At ECL Finance Limited (ECLF), we view compliance not merely as a regulatory requirement but as an intrinsic part of our organisational culture and ethos. In an evolving financial landscape, we are actively recalibrating our business model to balance sustainable growth with institutional resilience, ensuring long-term value creation for all stakeholders. Our approach integrates and anchor "Compliance First" and "Regulations Plus" principles with a growing emphasis on Regtech and a strong compliance culture across the organisation. While regulatory compliance, financial prudence, and risk management remain core priorities, we are equally committed to advancing technology-led transformation, customer-centricity, and ethical leadership across all levels. Guided by our Board, we continue to enhance our governance framework with a sharp focus on outsourcing risks, cybersecurity resilience, and customer trust. Through responsible innovation and consistent high service standards, we aim to build a resilient, adaptive, and customer-focused organisation that earns long-term trust and delivers sustainable value to all stakeholders. Harnessing the Power of Data: Driving

Efficiency, Risk Management, and Customer Value at ECLF, data analytics has become a cornerstone of our strategic and operational framework.

Key Financial Performance Highlights	(₹ in Crores)

Summary of ECL Finance standalone financial highlights during FY2026:

- Total Revenue ₹672.13 crore (₹742.76 crore for FY2025), down 9.51%
- Profit after Tax ₹13.86 crore (₹53.73 crore for FY2025), down 74.2%
- *Net worth ₹1,437.34 crore (₹1,537.84 crore at the end of FY2025)
- Return on Average Equity 0.67% (1.97% for FY2025)
- Return on Average Assets 0.18% (0.52% for FY2025)
- EPS ₹0.04 (₹0.18 for FY2025) (FV ₹1.00 per share)

* net of Deferred Tax Assets.

Income

Fund Based Revenue

Fund based revenue comprises of interest income and revenue from treasury and dividend income.

Interest income continued to be a major contributor to the gross revenue from operations at ₹420.06 crore as against

₹461.82 crore during the previous year, constituting around 62.50% of the total income. Decrease in interest income is due to reduction in average loan book during the year.

Net profit on fair value changes on financial instrument stood at ₹128.18 crore as against ₹178.75 crore during the previous year, constituting 19.07 % of total income.

Fee and Commission

Our fee & commission revenue was ₹68.00 crore for the year, compared to ₹70.85 crore in FY2025.

Expenses

Our total costs for FY2026 was ₹654.39 crore (₹675.08 crore in FY2025), down by 3.06%.

Credit Cost

During the current year, the Company has recorded for the year ended March 31, 2026, an amount of ₹14.52 crore towards impairment on financial instruments, ₹0.40 crore towards loss on derecognition of financial instrument.

Employee benefit expenses

Employee benefit expenses for FY2026 were ₹55.38 crore (₹85.52 crore in FY2025).

Based on the revised definition of wages and expanded eligibility criteria, the Company has recognised an incremental expense of ₹0.75 crore during the year ended March 31, 2026 on account of past service cost in accordance with Ind AS 19 – Employee Benefits and disclosed as an exceptional item.

Other expenses

Other expenses including depreciation and amortisation for FY2026 were ₹74.33 crore (₹132.01 crore in FY2025), down by 43.69%.

Profit after tax

The Company has posted profit after tax of ₹13.86 crore for FY2026 against profit after tax of ₹53.73 crore for FY2025.

Analysis of Profitability

The Company has posted profit after tax of ₹13.86 crore for FY2026 which has decreased from FY2025, primarily due to Net gain on derecognition of financial instruments in FY2025.

Balance Sheet Gearing

For an NBFC like ECLF, financial capital is one of the most important resources. We believe that a strong balance sheet imparts unique ability to our Company, strengthening our ability to meet demands of our diversified clientele base, capture any episodic opportunities and be able to raise debt capital whenever required. ECLF has a total net worth of ₹1,437.34 crore as at the end of FY2026 compared to ₹1,537.84 crore at the end of FY2025. Amount of debt on the Balance Sheet as on March 31, 2026, was ₹4,776.89 crore (₹6,116.17 crore as on March 31, 2025), a Gearing Ratio of 2.35 times. The gross Balance Sheet size at the end of FY2026 was ₹7,079.41 crore compared to ₹8,742.33 crore a year ago.

The asset quality of the overall credit book continued to remain under control in spite of headwinds with Gross NPLs at 2.20% and Net NPLs at 1.21% as on March 31, 2026, compared to 2.73 % and 1.60% respectively a year ago. The specific Provision Coverage Ratio (PCR) on Gross NPLs was 45.46% at the end of FY2026 compared to 42.06% at the end of FY2025. Total Provision Cover including the expected credit loss provision on stage I and II assets is 116.89 % at the end of this year compared to 149.80% at the end of FY2024.

Capital Adequacy Ratio

As per the Non-Banking Financial Companies Prudential Norms stipulated by Reserve Bank, all NBFCs–ND–SI are required to maintain a minimum Capital to Risk-weighted Assets Ratio ("CRAR") of 15%. Our CRAR over the period of last two years is as under:

	March 31, 2026	March 31, 2025
Total Income		
CRAR prescribed by RBI %	15	15
Total CRAR	29.86%	34.16%
Out of which:		
Tier I	29.83%	31.46%

Enterprise Risk Management

At ECL, Enterprise Risk Management (ERM) is a central pillar of our governance and strategic decision-making framework. Our ERM framework provides a structured and proactive approach to identifying, assessing, and managing risks across the organisation. Risk oversight is integrated into business processes, supported by strong governance, clear accountability, and regular risk reviews.

We maintain continuous monitoring of credit, operational, market, liquidity, outsourcing, fraud, technology, and compliance risks through a coordinated effort between business units and the central risk function. Technology-enabled controls, real-time reporting, and early-warning mechanisms strengthen our ability to detect emerging risks and ensure timely intervention.

A strong risk culture is fostered across the organisation through training, awareness and consistent adherence to policies and regulatory requirements.

Environmental, Social and Governance (ESG) considerations are integrated into our risk thinking to ensure that long-term sustainability, ethical business conduct, and responsible operations remain integral to our strategy.

Our ERM framework enables resilience, supports prudent growth, and ensures that risk management remains aligned with regulatory expectations and industry best practices.

Internal Control Policies and Their Adequacy

At ECL Finance Limited (ECLF), robust internal controls and a strong compliance ethos form the backbone of our governance framework. Consistent with the Edelweiss Group's overarching commitment to transparency and stakeholder trust, ECLF embeds compliance into its operational DNA as a critical pillar of responsible corporate conduct. Our internal control

systems are designed and implemented in a manner commensurate with the size, scale and complexity of our operations, as well as all applicable statutory and regulatory frameworks. These controls are structured to ensure operational efficiency, prudent resource utilisation, reliable and timely financial reporting, and sustained compliance with the highest standards of governance and ethical conduct.

They offer reasonable assurance on the accuracy of accounting records, prevention and early detection of fraud and errors, and compliance with regulatory provisions, including Section 134(5) (e) of the Companies Act, 2013.

Human Resources

Building a Future-ready, People-Centric Organisation

At ECL Finance Limited (ECLF), our people continue to be the cornerstone of our long-term value creation and sustainable growth. In FY26, we further strengthened our people strategy by deepening the integration of progressive HR practices, fostering a culture of inclusion, agility, and high performance. Our continued focus on capability building, leadership development, and employee experience has enabled us to build a resilient, future-ready organisation aligned with evolving business priorities.

Fostering a Culture of Inclusion and Engagement

During the year, the organisation continued to strengthen its focus on employee engagement and culture-building through a series of thoughtfully curated initiatives. Key festivals and organisational events were celebrated across locations, fostering a sense of inclusion and shared identity. Engagement was further enhanced through structured tournaments such as chess and cricket, which encouraged collaboration, team bonding, and a strong sense of organisational spirit.

A key highlight of the year was the successful launch of the ECLF 2.0 initiative, which was unveiled during a 3 Day Leadership Summit. The summit brought leaders from across the organisation onto a common platform, enabling strategic discussions, strengthening alignment, and ensuring a shared understanding of ECLF 2.0 and its role in reinforcing organisational values across all levels. The forum also served as an opportunity to reflect

on business, collective pride, and a unified direction for the way forward.

We partnered with NGOs by providing them a platform within the organisation to showcase and promote their products. This initiative supported community development while encouraging employees to actively engage with, support and contribute to meaningful social causes, thereby strengthening the organisation's commitment to social responsibility.

These initiatives collectively contributed to building a more connected, engaged, and socially responsible workforce.

Continuous Learning and Leadership Development

Our learning and development initiatives during the year were anchored in the need for regulatory agility and superior service delivery, with a strong focus on strengthening product knowledge across core functions and enhancing customer engagement capabilities.

We delivered robust compliance and functional training through deep-dive Shiksha product sessions, alongside modules on Account Aggregator, CAS, CKYC, the M-Collect application for collections teams and AML/KYC compliance. These programmes were tailored for Sales, Operations, and Credit teams, enabling greater underwriting accuracy, seamless onboarding, and strict adherence to regulatory standards. In parallel, targeted behavioural workshops for our Customer Service teams focused on empathy, conflict resolution, and behavioural agility to elevate the overall customer experience.

By bridging functional expertise with compliance, these interventions have strengthened our operational risk management framework and built a more agile, future-ready workforce.

Complementing these efforts, leadership alignment, and capability building remained central to our agenda, enabling cohesive and purpose-led transformation. To this end, a 3 Day Leadership Summit was organised, bringing together our leaders to drive strategic alignment and collective ownership of the ECLF 2.0 vision. The summit symbolised transition, unity, and a shared commitment to the organisation's next phase of growth, fostering open dialogue and reinforcing a collaborative leadership approach.

A follow-up refresher session helped sustain momentum

by revisiting key themes and reinforcing alignment for execution. Collectively, these initiatives strengthened alignment on ECLF 2.0 priorities, deepened collaboration and trust across the leadership team, and fostered a strong sense of ownership and accountability, while reinforcing a future-ready leadership mindset.

Commitment to Wellbeing and Governance

Employee wellbeing remained a core HR priority, driven through structured, accessible, and proactive people practices. During the year, we strengthened employee support through fortnightly helpdesk initiatives and targeted awareness communications, improving access and benefit utilisation.

Medical helpdesks enabled faster resolution of insurance-related queries, enhancing transparency and turnaround efficiency. Librarywala helpdesks improved access to learning resources, while focused campaigns increased utilisation of Annual Health Check-up benefits, reinforcing preventive healthcare adoption. We undertook wellness initiatives across physical and preventive health, mental and emotional wellbeing, lifestyle and nutrition, and financial wellness, through onsite camps, webinars, and interactive workshops to ensure broad participation.

Workplace governance remained robust, supported by active POSH Committees, Disciplinary Committees, and well-defined data privacy and protection frameworks, reinforcing a safe, ethical, and inclusive work environment.

Data-driven People Practices

Data-led HR practices were further scaled through enhanced analytics and dashboards, enabling timely and informed decisions across workforce planning, business scalability, employee development, and attrition analysis.

Stronger HR system integration improved data accuracy, reporting efficiency, and leadership visibility into workforce trends, reinforcing consistent, technology-enabled, and evidence-based HR decision-making aligned with business priorities.

Technology Risk and Governance

The Company recognises technology risk as a critical enterprise risk and has established a robust governance

mechanisms are in place to ensure the confidentiality, integrity, and availability of information assets. The Board and senior management provide strategic direction and periodic oversight, supported by structured risk assessments, internal controls, and independent audits. Key initiatives around cybersecurity, data protection, infrastructure resilience and regulatory compliance continue to strengthen the Company's risk posture while enabling secure and sustainable digital transformation.

Strengthening Collections Through Technology-led Transformation

During FY26, we introduced M-Collect, a mobile-based application, marking a significant milestone in enhancing process-driven collections. The system enables comprehensive recording and documentation of customer interactions, along with geo-tagging of field visits, thereby strengthening transparency and accountability. This technology-led intervention facilitates systematic, real-time monitoring and review of collection activities, improving operational efficiency and ease of supervision, while ensuring alignment with regulatory guidelines.

Customer Engagement Enhancements

We enhanced the CRM platform by enabling seamless access to critical loan servicing information directly within the interface. This provides teams with a more unified and intuitive view of customer data, enabling faster response times, improved service quality, and a more consistent customer experience across interactions.

Regulatory Compliance and IT Security

In line with our digital expansion, regulatory compliance and information security remain foundational to our operations. We align with applicable regulatory guidelines and requirements, ensuring that compliance and security considerations are seamlessly integrated across business processes. We continuously refine our systems and practices to keep pace with evolving business and regulatory landscapes. Our information security framework is supported by the adoption of advanced technologies and evolving safeguards, helping protect customer data and uphold the reliability of our digital platforms. Ongoing monitoring and risk management efforts further support operational stability and reinforce trust across our services.

Technology Initiatives and Outlook

In FY26, our technology function played a pivotal role in advancing the organisation's digital priorities while ensuring operational resilience. We successfully delivered key strategic platforms such as an advanced Customer Acquisition System (CAS), Collection System, Sales Application for lead management and customer onboarding, supported by extensive API integrations like Account Aggregator to automate process workflow that improved efficiency, accuracy, and scalability. We launched our enhanced website with a strong focus on customer centricity. It delivers a faster, simpler, and more intuitive experience for customers.

The year also saw continued focus on enterprise security, governance and system stability, ensuring high availability and seamless business operations.

The IT team enabled timely rollout of new branches by ensuring complete infrastructure, network readiness, and secure connectivity. Standardised deployment and centralised provisioning ensured seamless operations and compliance from day one.

Enhancing Customer Experience through Digital Innovation

At ECL Finance Limited, enhancing customer experience remains central to our technology-led transformation. During the year, we launched a new website and customer portal, enabling seamless self-service, and faster omnichannel query resolution, and introduced a new sales app that streamlined onboarding and reduced turnaround times.

Simplified processes across onboarding, servicing and grievance redressal, along with a strengthened complaint management framework, have enhanced responsiveness and governance. Supported by targeted employee training, these initiatives helped maintain our Net Promoter Score (NPS) at 81%, alongside higher customer satisfaction, reduced complaints and increased customer trust.

Cautionary Statement

Statements made in this Annual Report may contain certain words or phrases that are forward-looking statements, which are tentative, based on current expectations of the management of ECL Finance Limited. Actual results may vary from such statements

contained in this report due to various risks and uncertainties. Annexure III

Terms of Reference of Board Committees

I. Audit Committee

1. Oversight of financial reporting process and disclosure of financial information of the Company to ensure that the financial statement is correct, sufficient, and credible;
2. Recommendation for the appointment, removal, remuneration and terms of appointment of Statutory Auditors and Internal Auditors of the Company;
3. Approval of payment to Statutory Auditors for any other services rendered by them;
4. Reviewing with the management, the Annual Financial Statements and Auditor's Report thereon before submission to the Board for approval with particular reference to:
 - a. Matters required to be included in the director's responsibility statement to be included in the Board's Report in terms of clause © of sub-section (3) of Section 134 of the Companies Act, 2013;
 - b. Changes, if any, in accounting policies and practices and reasons for the same;
 - c. Major accounting entries involving estimates based on the exercise of judgment by management;
 - d. Significant adjustments made in the financial statements arising out of audit findings;
 - e. Compliance with listing and other legal requirements relating to financial statements;
 - f. Disclosure of any related party transactions;
 - g. Modified opinion (s) in the draft audit report;
5. Reviewing, with the management, the quarterly financial statements before submission to the board for approval;
6. Reviewing, with the management, the statement of uses/ application of funds raised through an issue (public issue, rights issue, preferential issue, private placement etc.), the statement of funds utilised for purposes other than those stated in the offer document/ prospectus/ notice and the report submitted by the monitoring agency monitoring the utilisation of proceeds of a public or rights issue or preferential issue or qualified institutional placement, and making appropriate recommendations to the board to take up steps in this matter;
7. Review and monitor the auditor's independence and performance, and effectiveness of audit process;
8. Approval or any subsequent modification of transactions of the company with related parties;
9. Scrutiny of inter-corporate loans and investments;
10. Valuation of undertakings or assets of the company, wherever it is necessary;
11. Evaluation of internal financial controls and risk management systems;
12. Reviewing, with management, performance of Statutory and Internal Auditors and adequacy of the internal control systems;
13. Reviewing the adequacy of Internal Audit function, if any, including the structure of the internal audit department, staffing and seniority of the official heading the department, reporting structure coverage and frequency of internal audit;
14. Discussion with Internal Auditors of any significant findings and follow up there on;
15. Reviewing the findings of any internal investigations by the Internal Auditors into matters where there is suspected fraud or irregularity or a failure of internal

control systems of a material nature and reporting the matter to the Board;

16. Discussion with Statutory Auditors before the audit commences, about the nature and scope of audit as well as post-audit discussion to ascertain any area of concern;
17. To look into the reasons for substantial defaults in the payment to the depositors, debenture holders, shareholders (in case of non-payment of declared dividends) and creditors;
18. Reviewing the functioning of the whistle blower/ vigil mechanism;
19. Approval of appointment of chief financial officer after assessing the qualifications, experience and background, etc. of the candidate;
20. Carrying out any other function as is mentioned in the terms of reference of the Audit Committee;
21. Reviewing the utilisation of loans and/ or advances from/investment by the holding company in the subsidiary exceeding ₹100 crore or 10% of the asset size of the Subsidiary, whichever is lower including existing loans/ advances/ investments existing as on the date of coming into force of this provision;
22. Consider and comment on rationale, cost-benefits and impact of schemes involving merger, demerger, amalgamation etc., on the listed entity and its shareholders;
23. Review the Management discussion and analysis of financial condition and results of operations;
24. Review Management letters/ letters of internal control weaknesses issued by the Statutory Auditors as well as Internal Audit reports relating to internal control weaknesses;
25. Review the Statement of Utilisation/Material Deviations: to review the Statement indicating the utilisation of the issue proceeds of non-convertible securities, till such proceeds of the issue have been fully utilised or the purpose for which the proceeds were raised has been achieved and/or a statement disclosing material deviation (if any) in the use of the issue proceeds to be submitted to the Stock Exchanges along with the quarterly financial results

in terms of Regulation 52(7) and (7A);

26. To monitor fraud;
27. Consider and take on record the periodic statement/report of Related Party Transactions and grant omnibus approval for Related Party Transactions including any subsequent modifications from time to time;
28. Oversee implementation of regulatory policies including Anti Money Laundering and KYC (Know your Customer) Policies;
29. Ensure that an Information System Audit of the internal systems and processes is conducted at least once in two years to assess operational risks faced by the NBFCs;
30. Investigate into any matter in relation to the items specified in the relevant section of The Companies Act, 2013 or referred to it by the Board and for this purpose the Committee shall have full access to information contained in the records of the company and external professional advice, if necessary;
31. Review and approve such activities as may be stipulated under various statutes/ laws/ regulations including amendments thereof from time to time, to be performed by the Committee;
32. To do all such acts, things or deeds as may be necessary or incidental to give effect to the above;
33. To authorise any executives of the Company to sign and execute the documents/deeds/papers in connection with any of the aforesaid activities for and on behalf of the Company and to do all acts, deeds, matters and things, as may be necessary;
34. To oversee the implementation of the Compliance Policy and periodic review of the same;
35. Reviewing the report and findings of the compliance risk assessment conducted;

7. Monitoring transfers, transmissions, dematerialisation, re-materialisation, splitting and consolidation of Equity Shares and other securities issued by the Company, including review of cases for refusal of transfer/ transmission of securities;
8. Reference to statutory and regulatory authorities regarding investor grievances and customer complaints;
9. Ensure proper and timely attendance and redressal of investor queries and grievances and customer complaints;

10. Determine the structure of emoluments, facilities and benefits accorded to the Internal Ombudsman (IO) / Deputy Internal Ombudsman, if any, proposed to be appointed;
11. Oversight over grievance redressal framework including complaints reviewed by Internal Ombudsman and to ensure that standard processes and systems are in place;
12. Review the periodic reports (including the analysis of complaints) on the activities, as submitted by the Internal Ombudsman including cases in which the decision of the Internal Ombudsman has been rejected by the company;
13. To do all such acts, things or deeds as may be necessary or incidental to give effect to the above; and
14. To review and approve such activities as may be stipulated under various statutes/ laws/ regulations including amendments thereof from time to time, to be performed by the Committee.

III. Corporate Social Responsibility Committee

1. Formulate and recommend to the Board, an annual action plan in pursuance of its CSR Policy, which shall include the following, namely:
 - a. The list of CSR projects or programmes that are approved to be undertaken in areas or subjects specified in Schedule VII of the Act;
 - b. The manner of execution of such projects or programmes;
 - c. The modalities of utilisation of funds and implementation schedules for the projects or programmes;
 - d. Monitoring and reporting mechanism for the projects or programmes; and
 - e. Details of need and impact assessment, if any, for the projects undertaken by the Company.

2. Recommend to the Board, alteration of such plan at any time during the financial year, based on the reasonable justification to that effect;
3. Recommend the amount of expenditure to be incurred on the CSR activities;
4. Monitor the CSR Policy of the Company from time to time;
5. Review and approve such activities as may be stipulated under various statutes/ laws/ regulations including amendments thereof from time to time, to be performed by the Committee;
6. To do all such acts, things or deeds as may be necessary or incidental to give effect to the above; and
7. To authorise any executives of the Company to sign and execute the any documents/ deeds/ papers in connection with any of the aforesaid activities for and on behalf of the Company and to do all acts, deeds, matters and things, as may be necessary.

IV. Nomination and Remuneration Committee

1. Formulation of the criteria for determining qualifications, positive attributes and independence of a director and recommend to the Board of Directors a policy relating to, the remuneration of the Directors, Key Managerial Personnel and other employees;
2. Annually review the structure, size, and composition (including the skills, knowledge, experience, and diversity) of the Board and make recommendations to the Board with regard to any changes;
3. Formulation of criteria for evaluation of performance of independent directors and the Board of Directors and whether to extend or continue the term of appointment of the independent director, on the basis of the report of performance evaluation of independent director;
4. Specify manner for effective evaluation of performance of the Board, its Committees, and individual Directors and review its implementation and Compliance;

5. Identify the persons who are qualified to become directors and who may be appointed in senior management in accordance with the criteria laid down, explore their interest and availability for board/ senior management service, recommend to the Board their appointment and removal as and when need arise;
6. To ensure 'fit and proper' status and credentials of proposed/ existing Directors and that there is no conflict of interest in appointment of Directors, KMP and Senior Management;
7. Formulate the criteria for determining the qualifications, positive attributes etc. and independence of a Director;
8. Evaluate the balance of skills, knowledge and experience on the Board and on the basis of such evaluation, prepare a description of the role and capabilities required of an Independent director;
9. Work in close coordination with the Risk Management Committee to achieve effective alignment between compensation and risks and ensure that compensation levels are supported by the need to retain earnings of the Company and the need to maintain adequate capital based on Internal Capital Adequacy Assessment Process (ICAAP);
10. Make recommendations to the Board regarding:
 - a. Policy relating to the remuneration for the Directors, Key Employees and other employees;
 - b. Plans for succession for both executive and non-executive Directors, Key Employees as well as Senior Management;
11. Report to the Board on its proceedings after each meeting on all matters within its responsibilities;
12. Recommend to the board, all remuneration, in whatever form, payable to senior management;
13. To review and approve such activities as may be stipulated under various statutes/laws/regulations including amendments thereof from time to time, to be performed by the Committee;
14. To obtain, at the Company's expense, outside legal or other professional advice on any matters within

the terms of reference of the Committee; and

15. Such other functions as may be prescribed from time to time.

V. Risk Management Committee

1. Identifying, measuring, and monitoring the various risks faced by the Company;
2. To formulate a detailed risk management policy which shall include:
 - a) A framework for identification of internal and external risks specifically faced by the Company, in particular including financial, operational, sectoral, sustainability, information, cyber security risks, or any other risk as may be determined by the Committee;
 - b) Measure for risk mitigation including systems and processes for internal control of identified risks;
 - c) Business continuity plan;
3. To ensure that appropriate methodology, processes, and systems are in place to identify, monitor, and evaluate risks associated with the business of the Company including Stress testing in coordination with business departments;
4. To monitor and oversee implementation of the risk management policy, including evaluating the adequacy of risk management systems;
5. To periodically review the risk management policy, at least once in two years, including by considering the changing industry dynamics and evolving complexity;
6. To keep the Board of Directors informed about the nature and content of its discussions, recommendations and actions to be taken;
7. The appointment, removal and terms of remuneration of the Chief Risk Officer (if any) shall be subject to review by the Risk Management Committee;
8. Mitigating various risks associated with functioning of the Company through Integrated Risk Management Systems, Strategies and Mechanisms;
9. To deal with issues relating to credit policies and procedure and manage the credit risk, operational risk, management of policies and process;

11. Promoting an enterprise risk management competence throughout the organisation, including facilitating development of IT-related enterprise risk management expertise;
12. Establishing a common risk management language that includes measures around likelihood and impact and risk categories;
13. To evaluate the effectiveness of the progressive risk management system and strategy followed by the Company.
14. To evaluate the overall risks faced by the Company including liquidity risk and report to the Board;
15. Evaluating the risks and materiality of all existing and prospective outsourcing activities;
16. To provide update on the non-cooperative borrowers (if any);
17. Review and approve risk management framework and related policies to ensure that all material risks are appropriately identified, measured, monitored, and controlled and are commensurate with the Company's size, nature, and complexities;
18. Ensure that the Company maintains adequate capital commensurate with its risk profile;
19. Supervision and review of Implementation of ICAAP;
20. To ensure that updates of all ICAAP working group will be presented to RMC; and
21. Any other matters as delegated by the Board.

VI. Asset Liability Management Committee

1. Review and monitoring of macro-economic scenario, impact of industry and regulatory changes monitoring

the asset liability gap and if necessary, arrange for advising RMC suitably;

2. Strategising action to mitigate liquidity and other risks associated with the asset liability gap. Review and suggest corrective actions on liquidity mismatch, negative gaps and interest rate sensitivities. Formulate a contingency funding plan (CFP) for responding to severe disruptions and develop alternate strategies as deemed appropriate, which take into account changes in:
 - a. Interest rate levels and trends
 - b. Loan products and related markets
 - c. Monetary and fiscal policy
3. Articulating and monitoring liquidity risk tolerance that is appropriate for its business strategy and its role in the financial system, and verifying adherence to various risk parameters and prudential limits;
4. Implementation of liquidity risk management strategy of the Company and reviewing the risk monitoring system;
5. Decide the strategy on the source, tenor, and mix of assets and liabilities, in line with its business plans, taking into account the future direction of interest rates. Establish a funding strategy that provides effective diversification in the sources and tenor of funding;
6. Provide guidance to Business/treasury to review Interest rate environment, on various components of the Interest Rate model, product pricing for advances, prevailing interest rates offered by peer NBFCs/ HFC's/ Banks for similar services/ products etc, approve any changes in the interest rate charged to existing and new customers as per the interest rate model policy and reset frequencies basis overall assessment of the liquidity and interest rate risk;
7. Consider product pricing for advances, change in PLR, desired maturity profile and mix of the incremental assets and liabilities, prevailing interest rates offered by peer NBFCs for similar services/ products, etc. Discuss and report on the impact of major funding shifts and changes in overall investment and lending strategies;
8. Endeavour to develop a process to quantify the liquidity costs, benefits and risk in the internal product pricing;

9. Review behavioural assumptions and validate models for study of assets & liabilities in preparation of Liquidity and Interest Rate Sensitivity Statements and ALM analysis;
10. Review stress test scenarios including the assumptions and results;
11. Analyse and deliberate at meetings, issues involving interest rate and liquidity risk;
12. Review the results of and progress in implementation of the decisions made in the previous meetings. Report the minutes of its meeting to the Board of Directors on quarterly basis;
13. Formulate & monitor ALM policy/guidelines for the Company & report any breach to RMC along with its views and comments action to be taken regarding the same;
14. In respect of liquidity risk oversight would include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of the Company;
15. Ensure that an independent party regularly reviews and evaluates the various components of the Company liquidity risk management process;
16. Any other matters as delegated by the Board/ under ICAAP policy.

VII. IT Strategy Committee

1. Approving IT strategy and policy documents, within the framework approved by the Board, and ensuring that the management has put an effective strategic planning process in place;
2. Ascertaining that management has implemented processes and practices that ensure that the IT delivers value to the business;
3. Guiding in preparation of IT Strategy and ensure that the IT Strategy aligns with the overall strategy of the Company towards accomplishment of its business objectives;

FORM NO. MR.3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2026

[Pursuant to section 204(1) of the Companies Act, 2013 and Rule No.9 of the
Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To
The Members,
ECL Finance Limited

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by ECL Finance Limited (CIN - U65990MH2005PLC154854) (hereinafter called "the Company") for the financial year ended 31st March, 2026.

Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

Based on our verification of the Company's statutory registers, books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on 31st March, 2026 complied with the statutory provisions listed hereunder and also that the Company has followed proper Board-processes and has required compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on 31st March, 2026, according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder for compliance in respect of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings - **Not Applicable to the Company during the period under review;**
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'), as amended from time to time - **As applicable to the Company with respect to its listed debentures:**
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 – **Not Applicable to the Company during the period under review;**
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 – **Not Applicable to the Company during the period under review;**
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021- **Not Applicable to the Company during the period under review;**
 - e) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 2025 regarding the Companies Act and dealing with client - **Not Applicable to the Company during the period under review;**
 - f) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 - **Not Applicable to the Company during the period under review;**

- g) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 - Not Applicable to the Company during the period under review;
- h) The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021;
- i) The Securities and Exchange Board of India (Depositories and Participants) Regulation, 2018;
- (vi) Other specific business/industry related laws applicable to the Company - The Company has complied with the Reserve Bank of India Act, 1934, Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, Non-Banking Financial Companies Auditor's Report (Reserve Bank) Directions, 2016, Non-Banking Financial Company Returns (Reserve Bank) Directions, 2016, RBI (Co-Lending Arrangements) Directions, 2025 and various RBI Master Directions and Circulars as applicable, thereunder, Insurance Regulatory and Development Authority of India (IRDAI) Regulations and the other applicable general laws, rules, regulations and guidelines.

We have also examined compliance with the applicable clauses of the following:

- (a) the Secretarial Standards with regards to Meeting of Board of Directors (SS-1) and General Meeting (SS-2) issued by the Institute of Company Secretaries of India; and
- (b) SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 to the extent applicable to listed Non-Convertible Debentures.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines and Standards etc. mentioned above.

We further report that –

- (a) The Board of Directors of the Company is duly constituted with proper balance of Executive Director, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act;

- (b) Adequate notice including shorter notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting;
- (c) The minutes of the Board meetings and Committee Meetings have not identified any dissent by members of the Board /Committee of the Board, respectively hence we have no reason to believe that the decisions by the Board were not approved by all the directors present. The Minutes of the Board Meetings and Committee Meetings were duly approved at the Meeting by the Chairman of the Meeting,

We further report that there are adequate systems and processes in the Company commensurate with its size and operations to monitor and ensure compliance with applicable laws, rules, regulations and guidelines. As informed, the Company has responded appropriately to communication received from various statutory/regulatory authorities including initiating actions for corrective measures, wherever found necessary.

We further report that during the audit period, there were following specific events /actions have taken place that have a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines and standards etc.:

1. Approval of the Shareholders of the Company at the Extra Ordinary General Meeting held on 23rd June, 2025 was obtained for issue, offer and allot secured, unsecured, perpetual, listed and/or unlisted Non-Convertible Debentures including subordinated Debentures qualifying as Tier-II debt aggregating to Rs. 5,000 crores during the period of one year from October 1, 2025, to September 30, 2026, to the eligible investors, on a private placement basis, in one or more tranches under section 42 and 71 of the Companies Act, 2013.
2. The Hon'ble National Company Law Tribunal ('NCLT'), Mumbai Bench vide its order dated 12th September, 2025 has approved the Scheme of Amalgamation between Edelweiss Retail Finance Limited and the Company and their respective shareholders. The amalgamation was effective on 30th September, 2025, upon filing of the certified true copy of the NCLT Order with Registrar of Companies, Mumbai.

3. Pursuant to the order passed by NCLT on 12th September, 2025, all the Non-Convertible Debenture holders (NCD holders) of Edelweiss Retail Finance Limited holding its Non-Convertible Debentures as on the record date i.e 10th October, 2025 have become the NCD holders of the Company.

4. Pursuant to the order passed by NCLT on 12th September, 2025, the Company has allotted 48,27,58,000 Equity shares of Re.1 each to the Shareholders of Edelweiss Retail Finance Limited in dematerialized form on 13th October, 2025.

5. Pursuant to the order passed by NCLT on 12th September, 2025, an application for voluntary surrender and cancellation of certificate of registration for Edelweiss Retail Finance Limited was submitted with Reserve Bank of India (RBI) on 14th October, 2025 and RBI vide its letter dated 29th December, 2025 has cancelled the same.

Financial Statements

Independent Auditor's Report

To,
The Members of,
ECL Finance Ltd.

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of ECL Finance Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the Ind AS financial statements, including summary of material accounting policies and other explanatory information (hereinafter referred to as the "Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026 and its loss including other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further

described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS Financial Statements of the current period. These matters were addressed in the context of our audit of the Ind AS Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report and describe the process of how our audit addressed the matter.

We have determined the matter described below to be the key audit matter to be communicated in our report. We have fulfilled the responsibility described in the Auditors' responsibility for the audit of the Ind AS Financial Statements section of our report including in relation of this matter. Accordingly, our audit included the performance of procedures and design to respond to our assessment of the risk of material misstatement of the Ind AS Financial Statements. The results of our audit procedure, including the procedures performed the matter addressed below, provide the basis of our audit opinion on the accompanying financial statement.

i) Impairment of financial assets (expected credit losses)

Key Audit Matter	How the matter was addressed in our audit
<p>The Company has recorded an impairment loss allowance of ₹45.48 crore as at March 31, 2026 and has reversed a charge of ₹6.16 crore (net) for the year ended March 31, 2026 in its statement of profit and loss.</p> <p>Under Ind AS 109, Financial Instruments, allowance for loan losses are determined using expected credit loss (ECL) model. The estimation of impairment loss allowance on financial instruments involves significant judgement and estimates. The key areas where we identified greater levels of management judgement and therefore increased levels of audit focus in the Company's estimation of ECLs are:</p> <p>Data inputs - The application of ECL model requires several data inputs. This increases the risk of completeness and accuracy of the data that has been used to create assumptions in the model.</p> <p>Model estimations – Inherently judgmental models are used to estimate ECL which involves determining Exposures at Default ("EAD"), Probabilities of Default ("PD") and Loss Given Default ("LGD"). The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are considered one of the most significant judgmental aspects of the Company's modelling approach.</p> <p>Economic scenarios - Ind AS 109 requires the Company to measure ECLs on an unbiased forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the economic scenarios used and the probability weights applied to them.</p> <p>Qualitative adjustments - Adjustments to the model-driven ECL results as overlays are recorded by management to address known impairment model limitations or emerging trends as well as risks not captured by models. These adjustments are inherently uncertain, and significant management judgement is involved in estimating these amounts.</p> <p>The underlying forecasts and assumptions used in the estimates of impairment loss allowance are subject to uncertainties which are often outside the control of the Company. Given the size of loan portfolio relative to the balance sheet and the impact of impairment allowance on the financial statements, we have considered this as a key audit matter.</p>	<p>Our key audit procedures included:</p> <ul style="list-style-type: none"> • Performed walkthroughs to identify the key systems, applications and controls used in the impairment loss allowance processes. We tested the relevant manual (including spreadsheet controls), general IT and application controls over key systems used in the impairment loss allowance process on sample basis. • Testing the design and operating effectiveness of the key controls over the completeness and accuracy of the key inputs, data and assumptions into the Ind AS 109 impairment models and identification of Significant Increase in Credit Risk ('SICR') and staging of the assets. • Testing assumption used by the management in determining the overlay. • Tested the arithmetic accuracy of computation of ECL provisions performed by the company in spreadsheets, on sample basis. • Assessed the disclosures made in relation to the ECL allowance to confirm compliance with the Ind AS provisions. • Read the report on ECL model reviewed by external consultant during the year.

i) IT Systems and Controls

Key Audit Matter	How the matter was addressed in our audit
<p>The reliability and security of IT systems play a key role in the business operations and financial accounting and reporting process of the Company. Since large volumes of transactions are processed daily, the IT controls are required to ensure that applications process data as expected and that changes are made in an appropriate manner. Any gaps in the IT control environment could result in a material misstatement of the financial accounting and reporting records.</p> <p>Therefore, due to the pervasive nature and complexity of the IT environment, the assessment of the general IT controls and the application controls specific to the accounting and preparation of the financial information is considered to be a key audit matter.</p>	<p>We obtained an understanding of the Company's IT applications, databases and operating systems relevant to financial reporting and the control environment. We performed the following procedures for testing IT general controls and for assessing the reliability of electronic data processing, assisted by specialised IT Team:</p> <ul style="list-style-type: none"> • We tested the design, implementation, and operating effectiveness of the Company's general IT controls over the IT systems relevant to financial reporting. This included evaluation of Company's controls over segregation of duties and access rights. • We also tested key automated business cycle controls and logic for the reports generated through the IT infrastructure that were relevant for financial reporting or were used in the exercise of internal financial controls with reference to Ind AS financial statements. Our tests included testing of the compensating controls or alternate procedures to assess whether there were any unaddressed IT risks that would materially impact the Ind AS financial statements.

Information Other than the Ind AS Financial Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the Ind AS financial statements and auditor's reports thereon. The Company's annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Responsibilities of Management and Those Charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a

material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS Financial Statements, including the disclosures, and whether the Ind AS Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

As described in Note 44A to the Financial statements according to the Scheme of Amalgamation approved by the Hon'ble National Company Law Tribunal ("NCLT") under Sections 230–232 of the Companies Act, 2013,

Edelweiss Retail Finance Limited ("ERFL") was amalgamated with ECL Finance Limited ("ECLF") with effect from appointment date October 1, 2024, which has become effective on September 30, 2025. Consequently, the Company has restated the Financial Statements for the year ended March 31, 2025 after carrying out adjustments with respect to amalgamation.

Further, we did not audit financial statements for the year ended March 31, 2025 of ERFL as these were audited by other auditors, whose reports have been furnished to us by the management. Our opinion on the financial statements, to the extent they have been derived from such financial statements, is based solely on its auditor's report.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of section 143(11) of the Act, we give in "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

e) On the basis of the written representations, received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “**Annexure B**”.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

i. The company has disclosed the impact of pending litigations on its financial position in its Ind AS Financial Statements – Refer note no. 43 of the Ind AS Financial Statements.

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer note no. 54.A of the Ind AS Financial Statements.

iii. There was no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are

material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The Company has not declared and paid any dividend during the year which requires any compliance with respect to section 123 of the Act.

vi. Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company as per the statutory requirements for record retention.

3. In our opinion and according to the information and explanation given to us, during the current year, the managerial remuneration paid by the Company to its Directors is in accordance with the provisions of Section 197 read with Schedule V of the Act. Further, the Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

Annexure - A to the Independent Auditors' Report of even date on Ind AS financial statements of ECLF

i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:

(a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment were physically verified by the Management over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to such program, no material discrepancies have been noticed on verification.

(c) Based on the information provided to us the title deed of all the immovable properties disclosed in the financial statements are held in the name of the Company.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) and Intangible Assets during the year. Accordingly, the provisions of Clause 3(i)(d) of the Order are not applicable to the Company.

(e) According to information and explanation given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 and rules made thereunder. Accordingly, the provisions of Clause 3(i)(e) of the Order are not applicable to the Company.

ii. (a) The Company does not have any inventory and accordingly reporting under Clause 3(ii)(a) of the Order are not applicable to the Company.

(b) The Company has been sanctioned working capital limits in excess of ₹5 crore, in aggregate, during the year, from banks or financial institutions on the basis of security of current assets. Quarterly returns & statements filed by the Company with such banks or financial institutions are materially in agreement with the

books of account of the company.

iii. (a) The Company is a registered Non-Banking Financial Institution and its principal business is to give loans. Accordingly, the provisions of Clause 3(iii)(a) of the Order are not applicable to the Company.

(b) In our opinion and according to information and explanations given to us, the terms and conditions of investments and loans granted during the year are not prejudicial to the interest of the Company. Further, the company has not provided guarantees or given security to any person and accordingly terms and conditions of such, whether prejudicial or not, have not been commented upon.

(c) In respect of loans and advances in the nature of loans, granted by the Company as part of its business, the schedule of repayment of principal and payment of interest has been stipulated by the Company. Having regard to the voluminous nature of loan transactions, it is not practicable to furnish entity-wise details of amount, due date for repayment or receipt and the extent of delay (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for reporting under this clause) in this report, in respect of loans and advances which were not repaid / paid when they were due or were repaid / paid with a delay, in the normal course of lending business.

Further, except for those instances where there are delays or defaults in repayment of principal and / or interest as at the balance sheet date, in respect of which the Company has disclosed asset classification / staging of loans in note 13.A(a) to the Ind AS financial statements in accordance with Indian Accounting Standards (Ind AS) and the guidelines issued by the Reserve Bank of India, the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest, as applicable.

(d) In respect of loans and advances in the nature of loans, the total amount overdue for more than ninety days as at March 31, 2026 and the details of the number of such cases, are disclosed in note 13.A(a) to the Ind AS financial statements. In such instances, in our opinion, reasonable steps have been taken by the Company for recovery of the overdue amount of principal and interest.

(e) The Company's principal business is to give loans. Accordingly, the provisions of Clause 3(iii)(e) of the Order are not applicable to the Company.

(f) In our opinion and according to information and explanations given to us, the Company has not granted

any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. Accordingly, the provisions Clause 3(iii)(f) of the Order are not applicable to the Company.

iv. In our opinion and according to the information and explanations given to us, the Company has not either directly or indirectly, granted any loan to any of its directors or to any other person in whom the director is interested, in accordance with the provisions of section 185 of the Act and the Company has not made investments through more than two layers of investment companies in accordance with the provisions of section 186(1) of the Act. The other sub-sections of Section 186 of the Act are not applicable to the Company and hence not commented upon.

v. According to information and explanations given to us, the Company has not accepted any deposits within the meaning of section 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules 2014 (as amended). Accordingly, the provisions of Clause 3(v) of the Order are not applicable to the Company.

vi. The maintenance of cost records has not been specified by the Central Government under sub-section (1) of section 148 of the Companies Act, 2013 for the business activities carried out by the Company. Accordingly, the provisions of clause 3(vi) of the Order are not applicable to the Company.

vii. In respect of statutory dues:

(a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

(b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2026 on account of disputes are given below:

Name of the Statute	Nature of dues	Forum where dispute is pending	Period to which it relates Financial Year	Amount under dispute (₹ in crore)	Amount paid (₹ in crore)*
Income tax Act, 1961	Income Tax	Income Tax Appellate Tribunal	2013-14	0.12	4.00
Income tax Act, 1961	Income Tax	Commissioner of Income Tax(Appeals)	2016-17	33.34	34.89
Income tax Act, 1961	Income Tax	Commissioner of Income Tax(Appeals)	2017-18	65.24	15.89

CGST/SGCT Act, 2017	Goods and Service Tax	Deputy Commissioner Appeal	2018-19	1.00	0.06

Name of the Statute	Nature of dues	Forum where dispute is pending	Period to which it relates Financial Year	Amount under dispute (₹ in crore)	Amount paid (₹ in crore)*
CGST/SGCT Act, 2017	Goods and Service Tax	Deputy Commissioner Appeal	2019-20	0.08	0.01
CGST/SGCT Act, 2017	Goods and Service Tax	Deputy Commissioner Appeal	2020-21	0.31	0.02
CGST/SGCT Act, 2017	Goods and Service Tax	Deputy Commissioner Appeal	2021-22	0.20	0.02

*Amount paid also include Refund adjusted.

Amount disclosed as "0.00" represent amount less than 50,000/-.

viii. According to information and explanations given to us, the Company has not surrendered or disclosed any unrecorded transaction as income during the year in the tax assessments under the Income Tax Act, 1961. Accordingly, the provisions of Clause 3(viii) of the Order are not applicable to the Company.

ix. (a) The Company has taken loans and other borrowings from lenders. As per the information and explanation given and represented by the management, we report that there is no material default in case of any repayment of loans and borrowing.

(b) The Company has not been declared willful defaulter by any bank or financial institution or any other lender.

(c) The company has taken term loans during the year and the same have been applied for the purpose for which they were obtained.

(d) On an overall examination of the Ind AS Financial Statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) Based on the information received and as represented by the management, the Company does not have any subsidiary, associates or joint venture. Accordingly, the provisions of Clause 3(ix)(e) and (f) of the Order are not applicable to the Company.

x. (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the provisions of clause 3(x)(a) of the Order are not applicable.

(b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally). Accordingly, the provisions of clause 3(x)(b) of the Order are not applicable.

xi. (a) According to information and explanation provided to us, no fraud by the Company or no fraud on the Company has been noticed or reported during the year. Accordingly, the provisions of Clause 3(xi)(a) of the Order are not applicable to the Company.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the provisions of Clause 3(xi)(b) of the Order are not applicable to the Company.

(c) As represented by the management, there are no whistle blower complaints received by the Company during the year.

xii. The Company is not a Nidhi Company and accordingly, the provisions of clause 3(xii) of the Order are not applicable.

xiii. According to the information and explanations given to us, transactions with the related parties are in compliance with section 177 and 188 of the Act, where applicable and details have been disclosed in the Ind AS Financial Statements as required by the applicable accounting standards.

xiv. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.

(b) The internal audit reports furnished by the internal auditors for the year under audit have been considered by us.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or people connected with him. Accordingly, paragraph 3(xv) of the Order are not applicable to the company.

xvi. a) The Company is registered with the Reserve Bank of India ('RBI') and has obtained the certificate of registration under section 45 IA of the Reserve Bank of India Act, 1934(2 of 1934). Company, being a registered NBFC, categorised as Investment and Credit Company, the provisions of Clause (xvi)(b) and (xvi)(c) of paragraph 3 of the Order are not applicable to the company.

(b) Based on the information and explanations provided by the management of the Company, the Group has one CICs as part of the Group. We have not, however, separately evaluated whether the information provided by the management is accurate and complete.

xvii. In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses during the current financial year and in the immediately preceding financial year.

xviii. There has been no resignation of the statutory auditors during the year and accordingly, reporting under clause 3(xviii) of the Order are not applicable.

xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

Also refer to the Other Information paragraph of our main audit report which explains that the other information comprising the information included in Company's annual report is expected to be made available to us after the date of this auditor's report.

xx. Based on the verification of the details provided, the company exceeds the thresholds prescribed under Section 135 of the Companies Act, 2013. However, since the company does not have average net profits during the three immediately preceding financial years, it is not required to incur expenditure on Corporate Social

Responsibility (CSR) activities for the current financial year. Accordingly, reporting under clause 3(xx)(a) and (b) of the Order are not applicable.

Annexure - B to the Independent Auditors' Report of even date on Ind AS financial statements of ECLF

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls with reference to Ind AS financial statements of ECLF (the "Company") as of March 31, 2026 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such Internal financial controls with reference to Ind AS financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Management's Responsibility for Internal Financial Controls

The Management of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records,

and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountant of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to Ind AS financial statements included obtaining an understanding of internal financial controls with reference to Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal financial controls with reference to Ind AS financial statements

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those

policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS Financial Statements.

Inherent Limitations of Internal financial controls with reference to Ind AS financial statements

Because of the inherent limitations of internal financial controls with reference to Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

1. Corporate Information:

ECL Finance Limited ('the Company') a public limited company domiciled and incorporated under the provisions of the Companies Act applicable in India. The Company was incorporated on July 18, 2005 and is registered with the Reserve Bank of India ('RBI') as a Systemically Important Non-Deposit taking Non-Banking Financial Company (NBFC-ND-SI). The company is in the middle layer under scale based regulation (SBR) for NBFC.

As an NBFC-ND-SI, the Company is primarily in business of lending and carries out only such activities as are permitted under the guidelines issued by RBI for NBFC-ND-SI.

2. Basis of Preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared on a historical cost basis, except for certain financial instruments such as, financial asset measured at fair value through other comprehensive income (FVOCI) instruments, derivative financial instruments, fair value through Profit or Loss and other financial assets held for trading, certain property plant and equipment which have been measured at fair value. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest crores, except when otherwise indicated.

3. Presentation of Financial Statements:

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in "Note 47-Maturity Analysis of assets and liabilities".

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and or its counterparties

Derivative assets and liabilities with master netting arrangements (e.g. ISDAs) are only presented net when they satisfy the eligibility of netting for all of the above criteria and not just in the event of default.

4. Material Accounting Policies Information

4.1 Recognition of Revenue:

4.1.1 Effective Interest Rate (EIR):

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVTOCI. The EIR is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate a shorter period to the gross carrying amount of financial instrument.

The EIR is calculated by considering any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the financial asset. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle including prepayments penalty interest and charges.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income.

4.1.2 Interest Income:

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the EIR to the amortised cost (net of expected credit loss) of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

4.1.3 Dividend Income:

The Company recognised Dividend income when the Company's right to receive the payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

4.1.4 Revenue from contracts with customers:

Revenue is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Company consider the terms of the contracts and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Company excludes the estimates of variable consideration that are constrained.

The Company recognises fee income including advisory and syndication fees at a point in time in accordance with the terms and contracts entered between the Company and the counterparty.

4.2 Financial Instruments:

4.2.1 Date of Recognition:

Financial Assets and liabilities with exception of debt securities and borrowings are initially recognised on the trade date, i.e. the date the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the marketplace. Loans are recognised when funds are transferred to the customers' account. The Company recognises borrowings when funds are available for utilisation to the Company.

4.2.2 Initial Measurement of Financial Instruments:

Financial assets and financial liabilities are initially measured at fair value. Trade receivables are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

4.2.3 Day 1 Profit and Loss:

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

4.2.4 Classification & measurement categories of financial assets and liabilities:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

Financial Assets Carried at Amortised Cost (AC)

A financial asset is measured at Amortised Cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in carrying value of financial assets is recognised in Profit and Loss account.

Financial Assets at Fair Value Through Other Comprehensive Income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in fair value of financial assets is recognised in Other Comprehensive Income.

Financial Assets at Fair Value Through Profit Or Loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL. The Company measures all financial assets classified as FVTPL at fair value at each reporting date. The changes in fair value of financial assets is recognised in Profit and Loss Account.

4.3 Financial Assets and Liabilities:

4.3.1 Amortised Cost and Effective Interest Method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

4.3.2 Financial Assets Held for Trading:

The Company classifies financial assets as held for trading when they have been purchased primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

Financial asset measured at FVOCI-Loans

Unrealised gains or losses on debt instruments measured at FVOCI are recognised in other comprehensive income, and on derecognition of such instrument accumulated gains or losses are recycled to Profit and Loss statement. Interest income on such instrument is recognised in Profit and Loss statements using EIR method.

4.3.3 Investment in Equity Instruments:

The Company subsequently measures all equity investments at fair value through Profit or Loss, unless the management has elected to classify irrevocably some of its strategic equity investments to be measured at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

4.3.4 Financial Liabilities:

All financial liabilities are measured at Amortised Cost except loan commitments, financial guarantees, and derivative financial liabilities.

4.3.5 Derivative Financial Instruments:

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate risk, market risk and foreign exchange rate risks.

Derivatives are initially recognised at fair value at the date the derivative contracts are entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in Profit or Loss.

4.3.6 Debt securities and other borrowed funds:

The Company measures debt issued and other borrowed funds at Amortised Cost at each reporting date. Amortised Cost is calculated by taking into account any discount or premium on issue of funds, and costs that are an integral part of the EIR.

The Company issues certain non-convertible debentures, the return of which is linked to performance of specified indices over the period of the debenture. Such debentures have a component of an embedded derivative which is fair valued at a reporting date. The resultant 'net unrealised loss or gain' on the fair valuation of these embedded derivatives is recognised in the statement of Profit and Loss. The debt component of such debentures is measured at amortised cost using yield to maturity basis.

4.3.7 Financial Assets and Financial Liabilities at Fair Value through Profit or Loss:

Financial assets and financial liabilities in this category are those that are held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109. Management only designates an instrument at FVTPL upon initial recognition when one of the following criteria are met. Such designation is determined on an instrument-by-instrument basis.

- The designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis; Or
- The liabilities are part of a group of financial liabilities, which are managed, and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; Or
- The liabilities containing one or more embedded derivatives, unless they do not significantly modify the cash flows that would otherwise be required by the contract, or it is clear with little or no analysis when a similar instrument is first considered that separation of the embedded derivative(s) is prohibited.

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in Profit and Loss with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Company's own credit risk. Such changes in fair value are recorded in the Own Credit Reserve through OCI and do not get recycled to the Profit or Loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

4.3.8 Financial Guarantee:

Financial guarantees are contract that requires the Company to make specified payments to reimburse to holder for loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument.

Financial guarantee issued or commitments to provide a loan at below market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently they are measured at higher of this amortised amount and the amount of loss allowance.

4.3.9 Loan Commitments:

Undrawn loan commitments are commitments under which, the Company is required to provide a loan with pre-specified terms to the customer over the duration of the commitment. Undrawn loan commitments are in the scope of the ECL requirements.

4.3.10 Financial Liabilities and Equity Instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

4.4 Reclassification of Financial Assets and Liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

4.5 Derecognition of Financial Instruments:

4.5.1 Derecognition of Financial Asset

A financial asset (or, where applicable a part of a financial asset or a part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either

- The Company has transferred the rights to receive cash flows from the financial asset or
- It retains the contractual rights to receive the cash flows of the financial asset but assumed a contractual obligation to pay the cash flows in full without material delay to third party under pass through arrangement.

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates.
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients.

The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

The Company also derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded. The newly recognised financial assets are classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be POCI.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

4.5.2 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised statement of Profit and Loss.

4.6 Impairment of Financial Assets:

The Company records provisions based on expected credit loss model ("ECL") on all loans, other debt financial assets measured at Amortised Cost together with undrawn loan commitment, in this section all referred to as "Financial instrument". Equity instruments are not subject to impairment.

ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original effective interest rate. Because ECL consider the amount and timing of payments, a credit loss arises even if the entity expects to be paid in full but later than when contractually due.

Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However, if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

General Approach

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of expected credit losses is a function of the probability of default (PD), loss given default (LGD) (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default (EAD), for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

Company categories its financial assets as follows:

Stage 1 Assets:

Stage 1 assets includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 2 Assets:

Stage 2 Assets includes financial instruments that have had a significant increase in credit risk since initial recognition for these assets lifetime ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 3 Assets:

Stage 3 for Assets considered credit-impaired the Company recognises the lifetime ECL for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

The ongoing assessment of whether a significant increase in credit risk has occurred for working capital facilities is similar to other lending products. The interest rate used to discount the ECLs for working capital facilities is based on the average effective interest rate that is expected to be charged over the expected period of exposure to the facilities.

Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

The expected credit losses on the loan commitment have been recognised together with the loss allowance for the financial asset.

The Company's product offering includes a working capital facility with a right to company to cancel and/or reduce the facilities with one day's notice. The Company does not limit its exposure to credit losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Company's expectations of the customer behaviour, its likelihood of default and the Company's future risk mitigation procedures, which could include reducing or cancelling the facilities.

4.7 Collateral Valuation:

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Company's balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a quarterly basis. However, some collateral, for example, securities relating to margin requirements, is valued daily.

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market value are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers or based on housing price indices.

4.8 Collateral Repossessed:

The Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Company's policy.

In its normal course of business, the Company does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the balance sheet.

4.9 Write-offs:

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery besides technical /policy write off as per relevant policy.

4.10 Forborne and Modified Loan:

The Company sometimes makes concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Company considers a loan forborne when such concessions or modifications are provided as a result of the borrower's present or expected financial difficulties and the Company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms. It is the Company's policy to monitor forborne loans to help ensure that future payments continue to be likely to occur. If these procedures identify a loss in relation to a loan, it is disclosed and managed as an impaired Stage 3 forborne asset and Company continues to monitor until it is collected or written-off.

4.11 Determination of Fair Value:

The Company measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either;

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 Financial Instruments:

Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 Financial Instruments:

Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 Financial Instruments:

Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

4.12 Leases:

Company as a Lessee:

The Company has applied Ind AS 116 using the partial retrospective approach.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of Use Assets:

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short Term Lease

The Company has elected not to recognise right of use asset and lease liabilities for short-term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight-line basis over lease term.

Company as Lessor:

The Company's accounting policy under Ind AS 116 has not changed from the comparative period. As a lessor the Company classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

4.13 Earnings per Share:

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

4.14 Foreign Currency Transaction:

The Standalone Financial Statements are presented in Indian Rupees which is also functional currency of the Company. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

4.15 Retirement and Other Employee Benefit:

4.15.1 Provident Fund and National Pension Scheme:

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of Profit and Loss.

4.15.2 Gratuity:

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Re-measurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurement are not reclassified to profit or loss in subsequent periods.

4.15.3 Compensated Absences:

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of Profit and Loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the Projected Unit Credit Method.

4.15.4 Deferred Bonus:

The Company has adopted a Deferred Bonus Plan under its Deferred Variable Compensation Plan. A pool of identified senior employees of the Company is entitled for benefits under this plan. Such deferred compensation will be paid in a phased manner over a future period of time. The measurement for the same has been based on actuarial assumptions and principles.

4.15.5 Share-based Payment Arrangements:

Equity-settled share-based payments to employees are granted by the ultimate parent Company. These are measured by reference to the fair value of the equity instruments at the grant date. These includes Stock Appreciation Rights (SARs) where the right to receive the difference between the SAR price and the market price of equity shares of the ultimate parent Company on the date of exercise, either by way of cash or issuance of equity shares of the ultimate parent Company, is at the discretion of the ultimate parent Company. These are classified as equity settled share-based transaction.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the 'ESOP reserve'. In cases where the share options granted vest in instalments over the vesting period, the Group treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

4.16 Property, plant and equipment:

Property plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the reporting period, in which they are incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Nature of assets	Estimated useful lives
Building (other than Factory Building)	60 years
Plant and Equipment	15 years
Furniture and Fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

Land and buildings are subsequently shown at fair value based on periodic valuations by external independent valuers, less subsequent depreciation for buildings. Valuations will be carried out on a regular basis, unless the management consider it appropriate to have an earlier revaluation, such that the carrying amount of property does not differ materially from that which would be determined using fair values at the end of the reporting period. Any accumulated depreciation at the date of revaluation is eliminated from the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset.

Subsequent measurement of land and building under revaluation model.

Increases in the carrying amount arising on revaluation of land and buildings are credited to other comprehensive income and shown as a revaluation reserve in shareholders' equity. An exception is a gain on revaluation that reverses a revaluation decrease (impairment) on the same asset previously recognised as an expense. Decreases that offset previous increases of the same asset are charged in other comprehensive income and debited against the revaluation reserve directly in equity; all other decreases are charged to profit or loss. Each year the difference between depreciation based on the revalued carrying amount of the asset charged to profit or loss and depreciation based on the asset's original cost is transferred from the revaluation reserve to retained earnings.

4.17 Intangible Assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably.

Intangibles such as software are amortised over a period of 3 - 5 years based on its estimated useful life.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are recognised in profit or loss when the asset is derecognised.

4.18 Impairment of Non-Financial Assets:

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of Profit and Loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the impairment is reversed subject to a maximum carrying value of the asset before impairment.

4.19 Provisions and Other Contingent Liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

4.20 Income Tax Expenses:

4.20.1 Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

4.20.2 Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head "capital gains" are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

4.20.3 Current and Deferred Tax for the Year:

Current and deferred tax are recognised in Profit or Loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

4.21 Cash and Cash Equivalents:

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

5. Significant Accounting Judgements, Estimates and Assumptions:

In the application of the Company's accounting policies, which are described in note 4, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies:

The following are the critical judgements, apart from those involving estimations, that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

5.1 Business Model Assessment:

Classification and measurement of financial assets depends on the results of the sole payments of principal and interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how Company's financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

5.2 Significant Increase in Credit Risk:

Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

5.3 Fair Value of Financial Instruments:

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

5.4 Effective Interest Rate (EIR) Method:

The Company's EIR methodology, as explained in Note 4.1, recognises interest income/expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given/taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle including prepayments and penalty interest and charges.

This estimation, by nature requires an element of judgement regarding the expected behaviour and life cycle of the instrument, as well expected changes India's base rate and other fee income, expenses that are integral part of the instrument.

5.5 Impairment of Financial Assets:

The measurement of impairment losses across all categories of financial assets requires judgement the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- PD calculation includes historical data, assumptions and expectations of future conditions.
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a life-time expected credit loss and the qualitative assessment.
- The segmentation of financial assets when their ECL is assessed on a collective basis.
- Development of ECL models, including the various formulas and the choice of inputs.
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EAD and LGD.
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

It is Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

5.6 Investment Property

Properties held to earn rentals and/or capital appreciation are classified as investment property and are measured and reported at cost, including transaction costs.

Depreciation is recognised using written down value method so as to write off the cost of the investment property less their residual values over their useful lives specified in Schedule II to the Companies Act, 2013 or in the case of assets where the useful life was determined by technical evaluation, over the useful life so determined. At the end of each accounting year, the Company reviews the carrying amounts of its investment property to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists investment property are tested for impairment so as to determine the impairment loss, if any.

The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life / residual value is accounted on prospective basis.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of property is recognised in the Statement of Profit and Loss in the same period.

6. Recent Accounting Pronouncements:

The Ministry of Corporate Affairs (MCA) vide notifications dated May 07, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and the Companies (Indian Accounting Standards) Second Amendment Rules, 2025 which amended certain Indian Accounting Standards (see below), and are effective for accounting periods beginning on or after April 01, 2025:

- i) Ind AS 21 – The Effects of Changes in Foreign Exchange Rates
- ii) Ind AS 101 – First-time Adoption of Indian Accounting Standards
- iii) Ind AS 1 – Presentation of Financial Statements
- iv) Ind AS 7 – Statement of Cash Flows
- v) Ind AS 107 – Financial Instruments: Disclosures
- vi) Ind AS 12 – Income Taxes

The above amendments do not have any material impact on the amounts recognised in prior periods and the current financial year.

7. Pursuant to Securities Subscription Agreement dated March 5, 2019 amongst the Company, Edelweiss Financial Services Limited, Edelweiss Securities Limited, Edelweiss Rural & Corporate Services Limited and Edel Finance Company Limited and CDPQ Private Equity Asia Pte Limited (as the "Investor"), a wholly owned subsidiary of Caisse de dépôt et placement du Québec (CDPQ), for an investment of US\$ 25 crores, amounting to approximately ₹ 1,800 crores into the Company, the Investor has subscribed to 1000 Equity shares of ₹ 1/- each at premium of ₹ 31/- per Equity Share and 10,39,49,680 Compulsorily Convertible Debentures (CCDs) at ₹ 100 per CCD and accordingly paid the Company a total sum of ₹ 1,039.5 crores on May 7, 2019, towards first tranche. During the financial year 2024-25 such CCD's were due for conversion and accordingly 56,18,90,162 equity shares with a face value of ₹ 1 each were issued on conversion to Ecap Equities Limited.
8. Pursuant to the Scheme of Amalgamation approved by the Hon'ble National Company Law Tribunal (NCLT) under Sections 230-232 of the Companies Act, 2013, Edelweiss Retail Finance Limited ("ERFL"), a company under common group control, was amalgamated with the ECL Finance Limited ("ECL Finance Limited") with effect from appointment Date i.e. October 1, 2024. The scheme became effective upon filing of the certified order of NCLT with the Registrar of Companies on September 30, 2025. (Refer Note 44A)

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Note: The notional/units held indicate the value of transactions outstanding at the year end and are not indicative of either the market risk or credit risk.

Hedging activities and derivatives

The Company is exposed to certain risks relating to its ongoing business operations. The primary risks managed using derivative instruments are interest rate risk and equity index risk. The Company's risk management strategy and how it is applied to manage risk are explained in Note 51.

Derivatives designated as hedging instruments

The Company has not designated any derivatives as hedging instruments

11. A Offsetting

The tables below summarise the financial assets and liabilities subject to offsetting, enforceable master netting and similar agreements, as well as financial collateral received to mitigate credit exposures for these financial assets, and whether offset is achieved in the balance sheet:

Financial Assets subject to offsetting, netting arrangements

As at March 31, 2026	Offsetting recognised in balance sheet			Netting potential not recognised in balance sheet			Assets not subject to netting arrangements	Total Assets	Maximum Exposure to Risk
	Gross asset before offset	Amount offset	Net asset recognised on the balance sheet	Financial Liabilities	Collaterals Paid	Assets after consideration of netting potential	Assets recognised on the balance sheet	Recognised in the balance sheet	After consideration of netting potential
Derivative Assets	35.35	(3.40)	31.95	(25.77)	13.98	20.15	–	31.95	20.16
Margin placed with broker*	215.30	–	215.30	–	–	215.30	–	215.30	215.30

Financial Liabilities subject to offsetting, netting arrangements

As at March 31, 2026	Offsetting recognised in balance sheet			Netting potential not recognised in balance sheet			Liabilities not subject to netting arrangements	Total Liabilities	Maximum Exposure to Risk
	Gross Liabilities before offset	Amount offset	Net Liabilities recognised on the balance sheet	Financial Assets	Collaterals Received	Liabilities after consideration of netting potential	Liabilities recognised on the balance sheet	Recognised in the balance sheet	After consideration of netting potential
Derivative Liabilities	25.77	–	25.77	(25.77)	–	–	–	25.77	–
Margin payable	5.75	–	5.75	–	–	5.75	–	5.75	5.75

Financial Assets subject to offsetting, netting arrangements

As at March 31, 2025	Offsetting recognised in balance sheet			Netting potential not recognised in balance sheet			Assets not subject to netting arrangements	Total Assets	Maximum Exposure to Risk
	Gross asset before offset	Amount offset	Net asset recognised on the balance sheet	Financial Liabilities	Collaterals Paid	Assets after consideration of netting potential	Assets recognised on the balance sheet	Recognised in the balance sheet	After consideration of netting potential
Derivative Assets	0.98	(0.01)	0.97	(4.32)	13.84	10.49	–	0.98	10.50
Margin placed with broker*	4.95	(0.35)	4.60	–	–	4.60	–	4.60	4.60

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Financial Liabilities subject to offsetting, netting arrangements

As at March 31, 2025	Offsetting recognised in balance sheet		Netting potential not recognised in balance sheet			Liabilities not subject to netting arrangements	Total Liabilities	Maximum Exposure to Risk
	Gross Liabilities before offset	Amount offset	Net Liabilities recognised on the balance sheet	Financial Assets	Collaterals Received	Liabilities after consideration of netting potential	Recognised in the balance sheet	After consideration of netting potential
Derivative Liabilities	5.38	(1.07)	4.32	(4.32)	–	0.00	–	–
Margin payable	0.71	–	0.71	–	–	0.71	–	0.71

*As on the reporting date, margin placed with broker net off with net liability towards mark to market loss on derivatives future contracts and similarly, net mark to market gain are added to margin placed with broker. Accordingly the same are presented in the financial statement.

12. Trade receivables

a) Trade receivables

	As at March 31, 2026	As at March 31, 2025

Note

- The Company has not granted any loans or advances in the nature of loans to promoters, directors or key managerial personnel, either severally or jointly with any other person.
- Loans and advances in the nature of loans granted to group company amount to ₹100.84 crores As at 31 March 2026 (31 March 2025: ₹ Nil) None of these loans are repayable on demand or without specifying any terms or period of repayment.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

13. A Credit quality of assets

The table below shows the credit quality and the maximum exposure to credit risk based on the Company's year-end stage classification. The amounts presented are gross of impairment allowances. Details of the Company's internal grading for stage classification are explained in Note 51.D.1 and policies on ECL allowances are set out in Note 4.6

a Credit quality of assets

	As at March 31, 2026				As at March 31, 2025			
	Stage I	Stage II	Stage III	Total	Stage I	Stage II	Stage III	Total
Performing								
High grade	1,656.82			1,656.82	1,037.66	–	–	1,037.66
Standard grade		72.83		72.83	–	191.16	–	191.16
Non-performing								
Individually impaired*			38.90	38.90	–	–	34.47	34.47
	1,656.82	72.83	38.90	1,768.55	1,037.66	191.16	34.47	1,263.29

*Total numbers of borrowers as on 31st March 2026 are 121 (previous year 138)

b Reconciliation of changes in gross carrying amount and corresponding ECL allowances for loans and advances to corporate and retail customers:

The following disclosure provides stage wise reconciliation of the Company's gross carrying amount and ECL allowances for loans and advances to corporates and retail customers. The transfers of financial assets represents the impact of stage transfers upon the gross carrying amount and associated allowance for ECL. The net remeasurement of ECL arising from stage transfers represents the increase or decrease due to these transfers.

The 'New assets originated /repayments received (net)' represent the gross carrying amount and associated allowance ECL impact from transactions i.e. new lending, further disbursements, repayments and interest accrual on loans.

Capital Reserve	(4.51)	(4.51)
Revaluation Reserve	–	22.79
Other Comprehensive income on Equity instrument	(1,582.35)	(1,473.68)
	1,711.13	1,808.66

A. Nature and purpose of reserves

a. Securities premium reserve

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

b. Statutory reserve

Reserve created under 45-IC(1) in The Reserve Bank of India Act, 1934 a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared.

c. Debenture redemption reserve

The Company being an NBFC is required to create and maintain debenture redemption reserve (DRR) equivalent to 25% of the public issue of debentures, as required by Companies Act, 2013. The amounts credited to the DRR may not be utilised except on redemption of such debentures. On redemption of debentures, the amount may be transferred from debenture redemption reserve to retained earnings. However, as per the recent amendment to the Companies Act 2013, NBFCs are no longer required to create and maintain DRR. Accordingly, the Company has not created incremental DRR on existing public issue of debentures, post the said amendment, though the Company continues to maintain the DRR created earlier till the maturity of these debentures.

d. Retained earnings

Retained earnings comprises of the Company's undistributed earnings after taxes.

e. Deemed capital contribution - equity

Deemed capital contribution relates to share options granted to eligible employees of the Company by the ultimate holding company under its employee share option plan.

f. Revaluation Reserve

The revaluation reserve relates to the revaluation of property, plant and equipment.

g. Other Comprehensive income on Equity instrument

The fair value change of the equity instruments measured at fair value through Other Comprehensive Income is recognised and reflected under Equity Instruments through Other Comprehensive Income.

h. Capital Reserve

Capital reserve represents the gains of capital nature which is not freely available for distribution and also includes capital reserve created on account of merger (Refer Note 44A)

- 37 A.** Under the Shareholders' Agreement dated March 5, 2019, entered between Edelweiss Financial Services Limited (EFSL), CDPQ Private Equity Asia PTE. Limited (CDPQ) and the Company (together referred as Parties), EFSL had agreed, pursuant to clause 8.1 & 8.2 to make equity investment of an amount equivalent to the amount of losses on Select real state/structured finance Loans (Select Loans) into the Company within six months of the default leading to loss incurred by the Company on or before the date of the conversion of the Investor CCDs into Equity Shares. The rationale for this undertaking was to keep the total equity/net worth of the Company unimpacted on account of impairment in these loan accounts. During the year ended March 31, 2025, Parties have discussed and agreed that loss event for three of the borrowers in the Select Loans have crystalized and hence, EFSL has agreed to make good the loss amounting to ₹ 181.22 crores incurred by the Company in earlier years. Accordingly, ECLF has recorded such recovery in its profit and loss account for the year ended March 31, 2025.

Staff welfare expenses	2.04	2.01
	55.38	85.52

Notes:

- Edelweiss Financial Services Limited ("EFSL") the ultimate holding Company has granted an ESOP/ESAR option to acquire equity shares of EFSL that would vest in a graded manner to Company's employees. Based on group policy / arrangement, EFSL has charged the fair value of such stock options, Company has accepted such cross charge and recognised the same under the employee cost.

39. A Employee Benefits

a) Defined contribution plan - provident funds

In accordance with Employees' Provident Fund and Miscellaneous Provisions Act, 1952, employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which, both the employee and the Company contribute monthly at a determined rate. These contributions are made to a recognized provident fund administered by Regional Provident Fund Commissioner. The employees contribute 12% of their basic salary and the Company contributes an equal amount.

The Company recognised ₹3.27 crores (March 31, 2025 : ₹ 3.57 crores) for provident fund and other contributions in the Statement of profit and loss.

b) Defined benefit plan - gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, a non-contributory defined benefit arrangement providing lump-sum gratuity benefits expressed in terms of final monthly salary and year of service, covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment in accordance with the rules laid down in the Payment of Gratuity Act, 1972.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out As at March 31, 2026. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements As at balance sheet date:

	As at March 31, 2026	As at March 31, 2025
Present value of funded obligations (A)	5.17	4.08
Fair value of plan assets (B)	8.63	7.06

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Actuarial assumptions:

The following were the principal actuarial assumptions at the reporting date:

	As at March 31, 2026	As at March 31, 2025
Discount rate	6.50%	6.40%
Salary growth rate	7.00%	7.00%
Withdrawal/attrition rate (based on categories)	16.00%	16.00%
Mortality rate	IALM 2012-14 (Ultimate)	IALM 2012-14 (Ultimate)
Expected weighted average remaining working lives of employees	4.5 Years	4.5 Years
Interest rate on net DBO/ (asset) (% p.a.)	6.40%	7.00%

Notes:

- The discount rate is based on the benchmark yields available on Government Bonds at reporting date.
- The estimates of future salary increases take into account the inflation, seniority, promotion and other relevant factors.
- Assumptions regarding future mortality experience are set in accordance with the published rates under the Indian Assured Lives Mortality (2012-14) Ult table.

Sensitivity analysis:

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	As at March 31, 2026		As at March 31, 2025	
	Increase	Decrease	Increase	Decrease
Salary Growth Rate (+/- 1%)	0.28	(0.26)	0.65	(0.61)
Discount Rate (+/- 1%)	(0.26)	0.28	(0.61)	0.65
Withdrawal Rate (+/- 1%)	(0.04)	0.04	(0.01)	0.01

Note: The sensitivity is performed on the DBO at the respective valuation date by modifying one parameter whilst retaining other parameters constant. There are no changes from the previous year to the methods and assumptions underlying the sensitivity analyses.

Description of asset liability matching (ALM) policy

The Company has an insurance plan invested in market linked bonds. The investment returns of the market-linked plan are sensitive to the changes in interest rates. The liabilities' duration is not matched with the assets' duration.

Description of funding arrangements and funding policy that affect future contributions

The liabilities of the fund are funded by assets. The company aims to maintain a close to full-funding position at each Balance Sheet date. Future expected contributions are disclosed based on this principle.

Maturity profile

The weighted average duration of the obligation is 4.5 years (March 31, 2025: 4.5 years) As at the date of valuation. This represents the weighted average of the expected remaining lifetime of all plan participants.

Asset liability comparisons

Particulars	March 31, 2026	March 31, 2025	March 31, 2024	March 31, 2023	March 31, 2022
Present value of DBO	5.17	4.08	4.43	4.16	4.78
Fair value of plan assets	8.63	7.06	8.10	7.56	8.58
Net (assets)/liability	(3.47)	(2.98)	(3.67)	(3.40)	(3.80)

C) Compensated absences :

The Company provides for accumulated compensated absences As at the balance sheet date using projected unit credit method based on actuarial valuation.

40. B Details of CSR Expenditure:

As per the provisions of section 135 of the Companies Act, 2013, every company including its holding or subsidiary and a foreign company defined under clause (42) of section 2 of the Act having its branch office or project office in India, having net worth of rupees five hundred crore or more, or turnover of rupees one thousand crore or more or a net profit of rupees five crore or more during the immediately preceding financial year shall spend, in every financial year, at least two percent of the average net profits of the Company made during the three immediately preceding financial years, in pursuance of its Corporate Social Responsibility Policy

Since the Company does not satisfy condition related to net average profit "average net profits of the Company made during the three immediately preceding financial years" as mentioned in the provisions of section 135 of the Company's Act 2013, the Company is not required to comply the provisions of section 135 of Companies Act 2013.

Prior to the merger, ERFL was covered under the applicability provisions of section 135 of the Companies Act, 2013 based on its standalone financials statements and accordingly incurred CSR expenditure for the period from April 2025 to September 2025 amounting to ₹ 0.24 crores.

However, subsequent to the merger of ERFL with the company effective from 1st October 2025, the CSR provisions were not applicable to the merged entity, since the prescribed thresholds under Section 135 were not exceeded on the merged basis.

Accordingly the details furnished hereunder relate to the CSR expenditure incurred by ERFL during the period from April 2025 to September 2025 as referred above.

Basic earnings per share (in rupees) (A/B)	0.04	0.18
Diluted earnings per share (in rupees) (A/B)	0.04	0.18

43. Contingent Liability & Commitment:

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis, with the assistance of external legal counsel, wherever necessary. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The Company believes that the outcome of these proceedings will not have a materially adverse effect on the Company's financial position and results of operations.

Contingent Liability

	For the year ended March 31, 2026	For the year ended March 31, 2025
Direct/Indirect tax Litigation pending against the Company	21.03	20.40

Commitment

	For the year ended March 31, 2026	For the year ended March 31, 2025
Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for	0.48	0.00
Undrawn committed credit lines	164.96	5.31
AIF Undrawn amount	–	179.57

To meet the financial needs of customers, the Company enters into various irrevocable commitments, which primarily consist of undrawn commitment to lend.

44. A Merger Note :

Pursuant to the Scheme of Amalgamation approved by the Hon'ble National Company Law Tribunal (NCLT) under Sections 230 to 232 of the Companies Act, 2013 (hereinafter referred to as the "Scheme"), Edelweiss Retail Finance Limited ("ERFL" or "Transferor Company"), a company under common group control, has been amalgamated with ECL Finance Limited ("ECL" or "Transferee Company"), both registered as Non-Banking Financial Company (NBFC) engaged in the business of financing of loans. The Scheme provides October 1, 2024, as the appointed date and became effective upon filing of the certified copy of the NCLT order with the Registrar of Companies on September 30, 2025.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

The amalgamation has been accounted for as a business combination of entities under common control in accordance with the “pooling of interest” method prescribed under Appendix C to Indian Accounting Standard (Ind AS) 103 – “Business Combination”, and in accordance with the relevant provisions of the Scheme. Accordingly, All assets and liabilities recorded in the books of the Transferor Company will be transferred to and vested in the Transferee Company and shall be recorded by the Transferee Company at their carrying amount. Further, the financial information of the Transferee Company for prior periods has been restated as if the amalgamation had occurred from the beginning of the preceding period as per the terms mentioned in the Scheme.

As per the Scheme, the Transferee Company has issued equity shares to the shareholders of the Transferor Company based on the swap ratio as specified therein, details of which are as follows:

1,124 (One thousand One hundred and twenty-four) fully paid-up equity shares having face value of INR 1/- {Indian Rupee One only} of the Transferee Company shall be issued and allotted for every 100 (Hundred) equity shares having face value of INR 10/- {Indian Rupees Ten only} each held in the Transferor Company.

Details of the purchase consideration and net value of assets, liabilities and reserve transfer and capital reserve as on appointed date is as under:

Sr. No.	Particulars	Amounts	Amounts
I	Purchase Consideration (Refer Note 1 below)		48.27
II	Transfer of Assets, Liabilities and Reserves:		
	Total Assets	1,012.40	
	Total Liabilities	(460.79)	
	Other Equity	(508.67)	42.94
III	Capital Reserve (II-I) (Refer Note 2 below)		5.33

Note 1 - The purchase consideration of ₹48.27 crores has been discharged through the issuance of 48,27,58,000 fully paid-up equity shares of ECL Finance Limited each having a face value of ₹1.

Note 2 - The excess of net assets acquired over the consideration paid amounting to ₹5.33 crore has been recognized as Capital Reserve in accordance with Appendix C to Ind AS 103.

44. B Segment Reporting

The company is engaged primarily in the business of financing and accordingly there is no separate reportable segment and hence no disclosure is made under Ind AS 108 - ‘Operating Segment Reporting’. Further, segmentation based on geography has not been presented as the company operates only in India.

45. Transfer of financial assets

45. A Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities.

	For the year ended March 31, 2026	For the year ended March 31, 2025
Securitisations		
Carrying amount of transferred assets (held as Collateral)	170.47	381.53
Carrying amount of associated liabilities	163.71	348.75
Fair value of assets	182.77	373.20
Fair value of associated liabilities	151.52	286.53
Net position at FV	31.25	86.67

45. B Transferred financial assets that are derecognised in their entirety but where the Company has continuing involvement:

The Company has not transferred any assets that are derecognised in their entirety where the Company continues to have continuing involvement.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

46. A. Change in liabilities arising from financing activities

Particulars	As at April 01, 2025	Cash Flows (net)	Changes in Fair value	Others (net)*	As at March 31, 2026
Debt securities	1,987.11	(228.00)	–	(7.90)	1,751.21
Borrowings other than debt securities	3,062.45	(731.54)	–	(1.66)	2,329.25

49. Capital management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements from its regulators and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The pillars of its policy are as follows:

- Maintain diversity of sources of financing and spreading the maturity across tenure buckets in order to minimize liquidity risk.
- Maintain investment grade ratings for all its liability issuances domestically and internationally by ensuring that the financial strength of the balance sheets is preserved.
- Manage financial market risks arising from Interest rate, equity prices and minimise the impact of market volatility on earnings.
- Leverage optimally in order to maximise shareholder returns while maintaining strength and flexibility of balance sheet.

This framework is adjusted based on underlying macro-economic factors affecting business environment, financial market conditions and interest rates environment.

Regulatory capital

According to RBI circular "RBI/DOR/2025-26/345 DOR.CAP.REC.264/21-01-002/2025-26 Reserve Bank of India (Non-Banking Financial Companies – Prudential Norms on Capital Adequacy) Directions, 2025" issued on November 28, 2025 read with circular "RBI/DOR/2025-26/359 DOR.ACC.REC.No.278/21.04.018/2025-26 Reserve Bank of India (Non-Banking Financial Companies – Financial Statements: Presentation and Disclosures) Directions, 2025" issued on November 28, 2025.

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Capital Funds		
Net owned funds (Tier I capital)	1,084.08	802.45
Tier II capital	1.10	322.09
Total capital funds	1,085.17	1,124.54
Total risk weighted assets/ exposures	3,634.26	3,447.26
% of capital funds to risk weighted assets/exposures:		
Tier I capital	29.83%	23.28%
Tier II capital	0.03%	9.34%
Total capital Funds	29.86%	32.62%

* The figures for the current financial year represent those of the merged entity, whereas the figures for the previous financial year are as reported in the audited financial statements of the Company without giving effect to the merger. Accordingly, the figures for the current year are not comparable with those of the previous year.

– No changes have been made to the objectives, policies and processes from the previous year. However, they are under constant review by the Board.

50. Fair Value measurement:

A. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques:

Level 1 – valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that company can access at the measurement date.

Level 2 – valuation technique using observable inputs: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 – valuation technique with significant unobservable inputs: Those that include one or more unobservable input that is significant to the measurement as whole.

Refer note 4.11 for more details on fair value hierarchy

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

B. Valuation governance framework

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions.

Where fair values are determined by reference to externally quoted prices or observable pricing inputs to models, independent price determination or validation is used. For inactive markets, Company sources alternative market information, with greater weight given to information that is considered to be more relevant and reliable.

The responsibility of ongoing measurement resides with the business and product line divisions. However finance department is also responsible for establishing procedures governing valuation and ensuring fair values are in compliance with accounting standards.

C. The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

D. Valuation techniques:

Government debt securities:

Government debt securities are financial instruments issued by sovereign governments and include both long term bonds and short-term Treasury bills with fixed or floating rate interest payments. These instruments are generally highly liquid and traded in active markets resulting in a Level 1.

Debt securities:

Whilst most of these instruments are standard fixed rate securities, however nifty linked debentures have embedded derivative characteristics. Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market As at the reporting date. Group has used quoted price of national stock exchange wherever bonds are traded actively. In cases where debt securities are not actively traded company has valued the debts on the basis of valuation report from the registered valuer.

Security receipts

The market for these securities is not active. Investments in SRs issued by ARCs shall be valued periodically by reckoning the Net Asset Value (NAV) declared by the ARC and as per RBI guidelines. Securities receipts with significant unobservable valuation inputs are classified as Level 3.

Equity instruments and units of mutual fund:

The majority of equity instruments are actively traded on stock exchanges with readily available active prices on a regular basis. Such instruments are classified as Level 1. Units held in funds are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions. Such instruments are also classified as Level 1. Equity instruments in non-listed entities are initially recognised at transaction price and re-measured at each reporting date at valuation provided by external valuer at instrument level.

Alternative Investment Fund / Venture Capital Fund

Units held in Alternative Investment Fund / Venture Capital Fund are measured based on their published net asset value (NAV), taking into account redemption and/or other restrictions. Such instruments are classified as Level 3.

Interest rate swaps:

Under Interest rate swap contract, the Company agrees to exchange the difference between fixed and floating rate interest amount calculated on agreed notional principal. Such contracts enable the Company to mitigate the risk of changing interest rate. the fair value of interest rate swap is determined by discounting the future cash flows using the curves at the end of reporting period and the credit risk inherent in the contract. company classify the Interest rate swaps as level 2 instruments.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Embedded derivative:

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative.

Company uses valuation models which calculate the present value of expected future cash flows, based upon 'no arbitrage' principles. Inputs to valuation models are determined from observable market (Indices) data wherever possible, including prices available from exchanges, dealers, brokers. company classify these embedded derivative as level 3 instruments.

Exchange traded derivatives:

Exchange traded derivatives includes index/stock options, index/stock futures, company uses exchange traded prices to value these derivative and classify these instrument as level 1

Loans Measured at FVOCI

Fair value of loans measured at FVOCI approximates its carrying value and are classified as level 3.

- E. There have been no transfers between levels during the year ended March 31, 2026 and March 31, 2025.
- F. The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy of financial assets.

G. Impact on fair value of level 3 financial instrument of changes to key unobservable inputs

The below table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 Instruments i.e. Securities receipts, Units of AIF Fund and Real Estate Fund. The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation. Relationships between unobservable inputs have not been incorporated in this summary.

Type of Financial Instruments	Fair value of asset as on March 31, 2026	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security receipts	1,500.27	Net asset value method and as per RBI guidelines	Expected future cash flows	1,500.27	5% increase in Expected future Cash flow	75.01	5% Decrease in Expected future Cash flow	(75.01)
Pass through Certificates	28.08	Discounted Cash flow. The present value of expected future economic benefits to be derived from the ownership of the underlying investments of the Trust.	Expected future cash flows	28.08	5% increase in Expected future Cash flow	1.40	5% decrease in Expected future Cash flow	(1.40)
Loans	314.77	Discounted Cash flow. The present value of expected future economic benefits to be derived from the loans	Expected future cash flows	15.00%	0.25% increase in Risk-adjusted discount rate	0.79	0.25% decrease in Risk-adjusted discount rate	(0.79)

Type of Financial Instruments	Fair value of asset as on 31 March 2025	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security receipts	2,277.96	Net asset value method	Expected future cash flows	2277.96	5% increase in NAV	113.90	5% Decrease in NAV	(113.90)
Pass through Certificates	28.08	Discounted Cash flow. The present value of expected future economic benefits to be derived from the ownership of the underlying investments of the Trust.	Expected future cash flows	28.08	5% increase in Expected future Cash flow	1.40	5% decrease in Expected future Cash flow	(1.40)

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Type of Financial Instruments	Fair value of asset as on 31 March 2025	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Loans	410.45	Discounted Cash flow. The present value of expected future economic benefits to be derived from the loans	Expected future cash flows	14.75%	0.25% increase in Risk-adjusted discount rate	1.03	0.25% decrease in Risk-adjusted discount rate	(1.03)
Units of Alternative Investment Fund / Venture Capital Fund	196.19	Net Asset approach	Fair value of underlying investments	196.19	5% Increase in Fair value of Underlying Investment	9.81	5% Increase in Fair value of Underlying Investment	(9.81)
Equity Shares	19.59	Comparable market multiple method	Expected future cash flows	19.59	5% increase in Expected future Cash flow	0.98	5% increase in Expected future Cash flow	(0.98)

H. Fair value of financial instruments not measured at fair value:

The table below is a comparison, by class, of the carrying amounts and fair values of the Company's financial instruments that are not carried at fair value in the financial statements. Carrying amounts of cash and cash equivalents, trade receivables and trade payables as on March 31, 2026 approximately equivalent to the fair value because of their short-term nature. Difference between carrying amounts and fair values of bank deposits, other financial assets, other financial liabilities and borrowings subsequently measured at amortised cost is not significant in each of the years presented.

As at March 31, 2026	Carrying Value	Fair value			Total Net Balance
		Level 1	Level 2	Level 3	
Financial Assets					
Loans	1,408.29	–	–	1,597.45	1,597.45
Financial Liabilities					
Debt securities	1,751.21	–	1,767.54	–	1,767.54
Borrowings (other than debt securities)	2,329.25	–	–	2,329.25	2,329.25
Subordinated Liabilities	696.43	–	738.15	–	738.15
Off balance-sheet items					
Undrawn commitments	164.96	–	–	164.96	164.96
As at March 31, 2025	Carrying Value	Fair value			Total Net Balance
		Level 1	Level 2	Level 3	
Financial Assets					
Loans	801.20	–	–	867.78	867.78
Financial Liabilities					
Debt securities	1,987.11	–	2,071.87	–	2,071.87
Borrowings (other than debt securities)	3,062.45	–	–	3,062.45	3,062.45
Subordinated Liabilities	1,066.61	–	1,084.46	–	1,084.46

Undrawn commitments	184.88	–	–	184.88	184.88

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

I. Valuation Methodologies of Financial Instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained in notes.

Financial assets at amortised cost

The fair values financial assets measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk.

Issued Debt

The fair value of issued debt is estimated by a discounted cash flow model.

Off balance-sheet

Off balance sheet exposures are disbursements which are expected to disburse after the reporting date hence the fair value is same as carrying value.

51. Risk Management

51. A Introduction and risk profile

Risk is an integral element of the Company's operations. When the Company extends a corporate or retail loan, buys or sells securities in market, or offers other products or services, the Company takes on some degree of risk. Risk management is the process of identifying, assessing, and prioritizing risks followed by a coordinated efforts to minimize, monitor, and control the likelihood or impact of unforeseen events. It outlines the specific risks the organization faces, their potential impact, and the likelihood of their occurrence.

The Company believes that effective risk management requires:

- 1) Acceptance of responsibility, including identification and escalation of risk issues, by all individuals within the Company;
- 2) Ownership of risk identification, assessment, data and management within each of the lines of business and Corporate; and
- 3) Firmwide structures for risk governance

By understanding its risk profile, the company make informed decisions, allocate resources effectively, and implement appropriate risk management strategies to protect its assets, reputation, and long-term viability.

51. B Risk Management Structure

We have a well-defined risk management policy framework for risk identification, assessment and control to effectively manage risks associated with the various business activities. The risk function is monitored primarily by the business risk group.

Our risk management policy ensures that the margin requirements are conservative to be able to withstand market volatility and scenarios of sharply declining prices. As a result, we follow conservative lending norms. The Group centralises the risk monitoring systems to monitor our client's credit exposure which is in addition to the monitoring undertaken by the respective businesses.

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

51. C Risk mitigation and risk culture

The Company's business processes are designed to ensure full independence of functions and a clear segregation of responsibilities. Our credit appraisal and credit control processes, along with a centralized operations unit and an independent audit unit, provide comprehensive checks to ensure compliance with established policies and approve loans at the transaction level. Additionally, our risk management processes and policies include multiple layers of verification and oversight. The head of our business or operations regularly monitors these key processes. Furthermore, our loan approval, administration, collection, and enforcement procedures are specifically designed to minimize delinquencies and maximize recoveries.

At all levels of the Company's operations, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information. The risk mitigation involves minimizing the effects of risks to an acceptable level, ensuring the organization can continue to operate smoothly despite uncertainties.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

It is the Company's policy that a monthly briefing is given to the Board of Directors and all other relevant members of the Company in the utilisation of market limits, proprietary investments and liquidity, plus any other risk developments.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture. Employees are expected to take ownership and be accountable for the risks the Company is exposed to. The Company's continuous training and development emphasises that employees are made aware of the Company's risk appetite and they are supported in their roles and responsibilities to monitor and keep their exposure to risk within the Company's risk appetite limits. Compliance breaches and internal audit findings are important elements of employees' annual ratings and remuneration reviews.

51. D Types of Risks

The Company's risks are generally categorized in the following risk types:

Notes	Risks	Arising from	Measurement, monitoring and management of risk
51.D.1	Credit risk Credit risk is the possibility of a loss resulting from a borrower's failure to repay a loan or meet their financial obligations as per the agreed terms. It refers to the risk that a borrower or counterparty may default on their debt, either by failing to make scheduled payments or by not fulfilling other contractual obligations, leading to financial losses for the lender or investor.	Arises principally from financing, dealing in Corporate Bonds, Investments in Mutual Fund, Equity, but also from certain other products such as guarantees and derivatives	Measured as the amount that could be lost if a customer or counterparty fails to make repayments; Monitored using various internal risk management measures and within limits approved by individuals within a framework of delegated authorities; and Managed through a robust risk control framework, which outlines clear and consistent policies, principles and guidance for risk managers.
51.D.2	Liquidity risk Liquidity risk is the risk that we do not have sufficient financial resources to meet our obligations as they fall due or that we can only do so at an excessive cost.	Liquidity risk arises from mismatches in the timing of cash flows. Arises when illiquid asset positions cannot be funded at the expected terms and when required. Relying on a limited number of funding sources increases liquidity risk.	Measured using a range of metrics, including Asset Liability mismatch, Debt Equity Ratio, Current Ratio, Quick Ratio, Cash Ratio. Measures the difference between available liquid assets and short-term liabilities, helping identify potential liquidity shortages and monitoring structural liquidity positions. Maintain diverse sources of funding and liquid assets to facilitate flexibility in meeting our liquidity requirements of the Company Maintaining a buffer of liquid assets (such as cash or marketable securities) to ensure the company can meet its short-term obligations without resorting to debt.
51.D.3	Market risk Market risk is the risk that movements in market factors, such as Interest rates, equity prices and Index prices, will reduce our income or the value of our portfolios	Exposure to market risk is separated into two portfolios: trading and non-trading. Changes in stock prices can affect investments and portfolios that are exposed to the equity market. Rising inflation erodes the purchasing power of money, affecting both costs and returns on investments.	Measured using sensitivities, detailed picture of potential gains and losses for a range of market movements and scenarios. Monitored using measures, including the sensitivity of net interest income. Managed using risk limits approved by the risk management committee Create stress testing tools which simulates extreme market scenarios (e.g., sharp interest rate hikes, economic crashes) to assess the portfolio's response.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Notes	Risks	Arising from	Measurement, monitoring and management of risk
51.D.4	Operational Risk Operational Risk is the potential for loss due to failures in internal processes, systems, human errors, or external events. It encompasses a wide range of risks, including technology breakdowns, fraud, legal issues, supply chain disruptions, and other operational failures that may impact a company's ability to achieve its objectives.	Arises from Failures or inefficiencies in business processes, such as errors in data entry, fraud, or poor decision-making. Breakdowns, malfunctions, or cyberattacks on IT systems, software failures, or data breaches. Non-compliance with laws and regulations, or legal disputes that lead to financial or reputational damage. Human errors, negligence, or intentional misconduct (e.g., fraud, employee misconduct, or lack of training).	Measured by maintaining proper KRI (Key Risk Indicators) which track specific metrics such as fraud instances, system downtimes, etc to monitor risk exposure. Performing RCSA (Risk and Control Self Assessment) which involves departments assessing their own risks and controls, identifying potential operational risks, and evaluating the effectiveness of current controls. Internal audits are conducted to assess the effectiveness of operational processes, controls, and compliance with internal policies and external regulations.
51.D.5	Outsourcing Risk Outsourcing Risk refers to the risk of financial loss, operational disruption, reputational damage, or regulatory non-compliance arising from the Company's reliance on third-party service providers to perform activities that are otherwise conducted internally.	Service provider failure to meet agreed service levels, timelines, or quality standards. Over-dependence on a single vendor, leading to concentration or continuity risks. Inadequate due-diligence, contract management, or unclear responsibilities. Weak cybersecurity or data protection practices at the vendor's end. Operational lapses, including process gaps, staff issues, or technology failures at third-party/vendor locations. Non-compliance by the vendor with regulatory guidelines, resulting in legal or supervisory implications for the Company.	Robust vendor due-diligence before onboarding, covering financial, operational, compliance parameters. Clearly defined contracts, specifying responsibilities, performance standards, data handling protocols, audit rights, and exit clauses. Business continuity plan to oversight and to ensure vendors can maintain operations during disruptions. Centralized vendor management function to enforce uniform policies, regulatory compliance, and risk-based monitoring.
51.D.6	Information Security Risk Information Security Risk refers to the potential for unauthorized access, misuse, disruption, modification, or loss of the Company's information assets—including customer data, transactional records, and internal systems—due to internal vulnerabilities or external threats. This risk encompasses cyberattacks, data breaches, system failures, and technology misuse that may result in financial loss, regulatory penalties, operational disruption, and reputational damage.	Cyber threats such as malware, ransomware, phishing, and denial-of-service attacks. Unauthorized access to systems, networks, or confidential information by internal or external parties. Weaknesses in IT infrastructure, outdated systems, or inadequate security configurations. Human error, including mishandling of sensitive information or accidental data exposure. Business continuity events, such as system outages or technology disruptions impacting critical operations.	Cybersecurity controls, including firewalls, intrusion detection/prevention systems, endpoint protection, encryption, and secure authentication protocols. Continuous monitoring of networks and systems through security operations center (SOC) tools, threat detection mechanisms, and real-time alerts. Employee awareness and training programs to strengthen cyber hygiene and reduce human-related vulnerabilities. Incident response and escalation mechanisms to ensure timely containment, investigation, and reporting of security events. Regular audits and independent reviews to identify gaps and ensure compliance with evolving security standards. Business continuity and disaster recovery frameworks to safeguard critical operations in the event of cyber or system disruptions.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

51. D. 1 Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's Trade receivables and Loans. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In case the loans are to be restructured, similar credit assessment process is followed by the Company.

Credit risk can arise from various sources, including borrower default, credit rating downgrades, a decline in collateral value, concentration of exposure to a single borrower or sector, economic downturns, and counterparty risk in derivative contracts.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties/Groups (Single Borrowing Limit/Group Borrowing Limit) and for industry concentrations, and by monitoring exposures in relation to such limits.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company and market intelligence. Outstanding customer receivables are regularly monitored. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

Derivative financial Instruments:

Credit risk arising from derivative financial instruments is, at any time, limited to those with positive fair values, as recorded on the balance sheet. With gross-settled derivatives, the Company is also exposed to a settlement risk, being the risk that the Company honours its obligation, but the counterparty fails to deliver the counter value.

Impairment Assessment:

The Company applies the expected credit loss model for recognising impairment loss. The expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The expected credit loss is a product of exposure at default, probability of default and loss given default. The Company has derived an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS including qualitative factor of an account or of pool of retail loan portfolio. Accordingly, the loans are classified into various stages as follows:

Internal rating grade	Internal grading description	Stages
Performing	–	–
High grade	0 DPD & 1 to 30 DPD	Stage I
Standard grade	31 to 90 DPD	Stage II
Non-performing	–	–
Individually impaired	90+ DPD*	Stage III

*Classified as non performing asset (NPA) as per RBI guidelines

Credit loss is the difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Expected Credit Loss (ECL) computation is not driven by any single methodology, however methodology and approach used must reflect the following:

- 1) An unbiased and probability weighted amount that evaluates a range of possible outcomes
- 2) Reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions;
- 3) Time value of money

While the time value of money element is currently being factored into ECL measurement while discounting cash flows by the Effective Interest Rate (EIR), the objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the first two requirements. This has been achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Significant increase in credit risk (SICR)

Company considers a financial instrument defaulted, classified as Stage 3 (credit-impaired) for ECL calculations, in all cases when the borrower becomes 90 days past due or classified as non performing asset (NPA) as per RBI guidelines. Classification of assets from stage 1 to stage 2 has been carried out based on SICR criterion. Accounts which are more than 30 days past due have been identified as accounts where significant increase in credit risk has been observed. These accounts have been classified as Stage 2 assets. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

Probability of Default

Probability of default (PD) is an estimate of the likelihood of default over a given time horizon. PD estimation process is done based on historical internal data available with the Company. While arriving at the PD, the Company also ensures that the factors that affects the macro economic trends are considered to a reasonable extent, wherever necessary. Company calculates the 12 month PD by taking into account the past historical trends of the Loans/portfolio and its credit performance. In case of assets where there is a significant increase in credit risk / credit impaired assets, lifetime PD has been applied.

Loss Given Default (LGD)

The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money. The Loss Given Default (LGD) has been computed with workout methodology. Workout LGD is widely considered to be the most flexible, transparent and logical approach to build an LGD model. Along with actual recoveries, value of the underlying collateral has been factored in to estimate future recoveries in LGD computation. Workout LGD computation involves the actual recoveries as well as future recoveries (as a part of the workout process) on a particular facility, as a percentage of balance outstanding at the time of Default/Restructuring. The assessment of workout LGD was then performed. Principal outstanding for each loan was assessed, which went into the denominator of the LGD calculation. LGD computation has been done for each segment and sub-segment separately.

Exposure at Default (EAD)

The amount which the borrower will owe to the portfolio at the time of default is defined as Exposure at Default (EAD). While the drawn credit line reflects the explicit exposure for the Company, there might be variable exposure that may increase the EAD. These exposures are of the nature where the Company provides future commitments, in addition to the current credit. Therefore, the exposure will contain both on and off balance sheet values. The value of exposure is given by the following formula:

$$\text{EAD} = \text{Drawn Credit Line} + \text{Credit Conversion Factor} * \text{Undrawn Credit Line} + \text{Interest Accrual for one year}$$

Where,

Drawn Credit Line = Current outstanding amount

Credit Conversion Factor (CCF) = Expected future drawdown as a proportion of undrawn amount

Undrawn Credit Line = Difference between the total amount which the Company has committed and the drawn credit line While the drawn exposure and limits for the customer are available, the modelling of CCF is required for computing the EAD

Forward looking adjustments

"A measure of ECL is an unbiased probability-weighted amount that is determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions."

To fulfil the above requirement Company has incorporated forward looking information into its measurement of ECL. The objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the requirements of unbiased, probability weighted outcomes while taking into account current conditions as well as future economic conditions. This will be achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

Exogenous macroeconomic parameters were used as independent (X) variables to predict the dependent (Y) variable. Keeping in mind Ind AS requirements around obtaining reliable and supportable information, without incurring undue cost or effort-based on advice of risk committee members and economic experts and consideration of a variety of external actual and forecast information, the Company formulates base case view of the future direction of relevant economic variable as well as a representative range of other possible forecast scenario. This process involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome.

Data sourcing

The Company is expected to obtain reasonable and supportable information that is available without undue cost or effort. Keeping in mind the above requirement macroeconomic information was aggregated from Economic Intelligence Unit (EIU), Bloomberg, World Bank, RBI database. The EIU data has a database of around 150 macroeconomic variables as well as their forecasted values. Beyond 2022 macro-economic variables are forecasted by mean reverting the values to their long term average. External information includes economic data and forecasts published by governmental bodies and monetary authorities in the country, supranational organisations such as the OECD and the IMF, and selected private sector and academic forecasters.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Probability weighted scenario creations:

To incorporate macroeconomic impact into probability-weighted, each scenario has an associated probability. In order to ensure consistency across macroeconomic models, these probabilities were calculated at an overall level for both Retail and Non-Retail portfolios, keeping in mind that though the impact of a scenario across different portfolios may differ based on endogenous factors, the probability of a scenario unfolding is purely exogenous, and hence should not vary.

The Company has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and using an analysis of historical data, has estimated relationship between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analysing historical data over the past years.

Risk Concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Company's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Company's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

The following table shows the risk concentration by industry for the components of the balance sheet

As at March 31, 2026

Particulars	Central & State Government	Financial services	Agriculture	Manufacturing industry	Real estate	Service sector	Retail	Total

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptability and valuation of each type of collateral. The main types of collateral obtained are charges over real estate properties, inventory, trade receivables, mortgages over residential properties, Securities. Management monitors the market value of collateral and will request additional collateral in accordance with the underlying agreement.

The tables below shows the maximum exposure to credit risk by class of financial asset along with details on collaterals held against exposure.

Maximum exposure to credit risk

	As at March 31, 2026	As at March 31, 2025	Principal type of collateral

51.D.2 Liquidity Risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances.

Company has a Liquidity Contingency Policy in place to ensure various liquidity parameters are defined and tracked regularly. Liquidity Management Team is provided with update on expected liquidity shortfalls in Normal as well as Stress scenario.

To manage the stressed circumstances the Company has ensured maintenance of a Liquidity Cushion in the form of Investments in Government Securities and Mutual Funds. These assets carry minimal credit risk and can be liquidated in a very short period of time. A liquidity cushion amounting to 8-10% of the borrowings is sought to be maintained through such assets. These would be to take care of immediate obligations while continuing to honour our commitments as a going concern. There are available lines of credit from banks which are drawable on notice which further augment the available sources of funds. Funding is raised through diversified sources including Banks, Public and Private issue of Debt, Commercial paper, ECB, Sub Debt etc to maintain a healthy mix.

Liquidity Cushion:

Liquidity Cushion:

	As at March 31, 2026	As at March 31, 2025

The Company expects that not all of the contingent liabilities or commitments will be drawn before expiry of the commitments

51.D.3 Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates, equity prices and Index movements. The company classifies exposures to market risk into either trading or non-trading portfolios and manages each of those portfolios separately. All the positions are managed and monitored using sensitivity analyses.

Total Market risk exposure

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

Interest Rate Risk

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

ALCO is the monitoring body for compliance with these limits. ALCO reviews the interest rate gap statement and the mix of floating and fixed rate assets and liabilities. Balance Sheet Management Unit is in-charge for day to day management of interest rate risk.

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. The Board has established limits on the non-trading interest rate gaps for stipulated periods. The Company's policy is to monitor positions on a daily basis and hedging strategies are used to ensure positions are maintained within the established limits.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held at 31 March 2026 and at 31 March 2025

Interest rate sensitivity

As at March 31, 2026

	Increase in basis points	Sensitivity of Profit	Sensitivity of Equity	Decrease in basis points	Sensitivity of Profit	Sensitivity of Equity
Bank Borrowings	25	(1.38)	–	25	1.38	–

Government securities	25	6.91	–	25	(6.91)	–
Corporate debt securities	25	0.54	–	25	(0.54)	–

Price risk

The Company's exposure to price risk arises from investments held in Equity Shares, Exchange traded futures, Mutual fund units, all classified in the balance sheet at fair value through profit or loss. To manage its price risk arising from such investments, the Company diversifies its portfolio.

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the level of individual investment in prices of financial instruments.

As at March 31, 2026

	Increase in price (%)	Sensitivity of Profit	Sensitivity of Equity	Decrease in price (%)	Sensitivity of Profit	Sensitivity of Equity

51.D.4 Prepayment Risk

Prepayment risk is the risk that the Company will incur a financial loss because its customers and counterparties repay or request repayment earlier or later than expected, such as fixed rate Loans/borrowings in the falling interest rate scenario.

If 5% of total repayable financial instruments were to prepay at the beginning of the year following the reported period, with all other variables held constant, the profit before tax for the year would be decreased by ₹ 3.07 crores (previous year ₹ 1.78 crores)

51 E. Additional Regulatory disclosure

- The title deed of all the immovable properties disclosed in the financial statements are held in the name of the Company.
- There is no proceedings which have been initiated or pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.
- The Company has been sanctioned working capital limits during the year, from banks or financial institutions on the basis of security of current assets. Quarterly return & statement filed by the Company with such banks or financial institutions are in agreement with the books of account of the company.
- Relationship with Struck off Companies

Where the company has any transactions with the companies struck off under section 248 of Companies Act, 2013 or section 560 of Companies Act, 1956, the Company shall disclose the following details, namely:-

Name of struck off Company	Nature of transactions with struck-off Company	Balance outstanding as on March 31, 2026	Balance outstanding as on March 31, 2025	Relationship with the Struck off company, if any, to be disclosed
Glossy Creations Private Limited	Receivable	–	0.32	Customer
Aditi Financial Services	Payable	–	0.00	Vendor
Suraj Petroleum	Receivable	–	0.29	Customer
Shri Sham Fisheries	Receivable	–	0.04	Customer

- Registration of charges or satisfaction with Registrar of Companies (ROC)
No charges or satisfaction yet to be registered with ROC beyond the statutory period by the company.
- Compliance with number of layers of companies
Being a non-banking financial company registered with the Reserve Bank of India as per Reserve Bank of India Act, 1934 (2 of 1934), the provisions prescribed under clause (87) of section 2 of the companies Act 2013 read with Companies (Restriction on number of Layers) Rules, 2017 is not applicable to the company.
- The company is not declared as a wilful defaulter by any bank or financial Institution or other lender.
- Utilisation of Borrowed funds and share premium:
 - During the year, the company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries
 - During the year, the Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party(Ultimate Beneficiaries) or

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

- (ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries
- (ix) The Company does not have any transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961
- (x) The Company has not traded or invested in crypto currency or virtual currency during the financial year 2025-2026

51 F. Income Tax

The Company had duly responded to all the notices and provided all the requisite details and clarification to the Income Tax Authorities ('ITA'). Subsequently, Assessment orders / demand notices were issued to the company by the ITA against which the Company has filed appeal before Commissioner of Income Tax (Appeals) and rectification applications.

The Company believes that there will not be any significant impact on its financial statements or results in this regard.

51 G. Insurance Commission Income

Particulars	As at March 31, 2026	As at March 31, 2025
Commission Income - Life Insurance	1.57	0.00
Commission Income - General Insurance	6.10	0.36

- 51 H. During the year company has complied with all the covenants related to Debt securities ,Borrowings (other than debt securities) and Subordinated liabilities

52. Regulatory disclosures - RBI

In the terms of RBI circular – "RBI/DoR/2025-26/355 DoR.LRG.REC.No.274/13-10-004/2025-26 Reserve Bank of India (Non-Banking Financial Companies – Asset Liability Management) Directions, 2025" dated November 28, 2025.

Qualitative Disclosure on Liquidity Coverage Ratio (LCR)

The Liquidity Coverage Ratio (LCR) is a global minimum standard to measure the liquidity position in a stress scenario. Reserve Bank of India introduced LCR requirement for NBFCs having asset size of ₹ 5,000 crore and above. LCR will promote resilience of NBFCs to potential liquidity disruptions by ensuring that they have sufficient High Quality Liquid Asset (HQLA) to survive any acute liquidity stress scenario lasting for 30 days. HQLA refers to the category of liquid assets that can be readily sold or immediately converted into cash at a little loss of value or used as collateral to obtain funds in a range of stress scenarios. LCR is calculated by dividing the stock of HQLA's by its total net cash outflow over a 30 day calendar period.

The Company has adopted the liquidity risk management framework as required under RBI guidelines. It ensures a sound and robust liquidity risk management system by maintaining sufficient liquidity through inclusion of a cushion of unencumbered, high quality liquid asset to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Board of Directors have delegated responsibility of balance sheet Liquidity Risk Management to the Asset Liability Committee. Liquidity risk refers to the risk that the Company may be unable to service its contractual or contingent obligations or support its committed disbursements due to lack of adequate funding or liquidity. This risk is measured and managed by setting limits on structural liquidity gaps across various time-buckets and on relevant liquidity stock ratios. The Company manages liquidity risk through periodic stress testing and maintains a substantial liquidity buffer designed to withstand a 30-day survival period under a severe stress scenario. This buffer includes High-Quality Liquid Assets, fixed deposits and mutual funds. The Company continuously monitors its Liquidity Coverage Ratio (LCR) above regulatory minimum requirements and uses Early Warning Indicators (EWIs) under its Contingency Funding Plan to proactively identify and address potential liquidity challenges. The Company maintains a well-diversified funding mix with an adequate proportion of long-term borrowings, which supports liquidity stability.

The LCR is calculated by dividing a Company's stock of HQLA by its total net cash outflows over a 30 -day stress period. The guidelines for LCR were effective from 1st December 2020 with the minimum LCR to be 50%, progressively increasing, till reaches the required level of 100% by 1st December, 2024 as follows;

From	1/12/2020	1/12/2021	1/12/2022	1/12/2023	1/12/2024
Minimum LCR	50%	60%	70%	85%	100%

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

In order to determine HQLA, Company considers Cash and Bank Balances and Investment in Government Securities. Other liquid assets such as callable fixed deposits, certificates of deposit, liquid mutual funds and commercial papers, which can be readily liquidated, are considered as cash inflows but are not classified as HQLA. In order to determine net cash outflows, Company considers total expected cash outflow minus total expected cash inflows for the subsequent 30 calendar days. As per guidelines, stressed cash flows is to be computed by assigning a predefined stress percentage to the overall cash outflows (i.e. 115%) and cash inflows (with haircut of 25%). Net cash outflow over next 30 days is computed as stressed outflows less minimum of stressed inflows, 75% of stressed outflow. Accordingly, LCR would be computed by dividing Company's stock of HQLA by it's total net cash outflow.

Cash outflow under secured wholesale funding includes contractual obligations under Term loans, NCDs, Interest payable within 30 days. Outflow under other collateral requirement, the Company considers the loans which are callable under rating downgrade trigger up to and including 3- notch downgrade. Outflow under other contractual funding obligations primarily includes outflow on account of overdrawn balances with Banks and sundry payables. In order to determine Inflows from fully performing exposures, Company considers the contractual repayments from performing advances in next 30 days. Other Cash inflows includes investments in liquid mutual funds, and other assets which are maturing within 30 days.

Notional principal amount of exchange traded IR derivatives undertaken during the year	9,206.61	9,795.09
Notional principal amount of exchange traded IR derivatives outstanding	355.38	318.14
Notional principal amount of exchange traded IR derivatives outstanding and not "highly effective"	–	–
Mark-to-market value of exchange traded IR derivatives outstanding and not "highly effective"	–	–

III) Disclosures on risk exposure in derivatives

Qualitative disclosure

The Company undertakes transactions in derivative products in the role of a user with counter parties. The Company deals in the derivatives for balance sheet management i.e. for hedging fixed rate, floating rate or foreign currency assets/liabilities and for hedging the variable interest in case of benchmark linked debentures. All derivatives are marked to market on reporting dates and the resulting gain/loss is recorded in the statement of profit and loss.

Dealing in derivatives is carried out by specified groups of the treasury department of the Company based on the purpose of the transaction. Derivative transactions are entered into by the treasury front office. Mid office team conducts an independent check of the transactions entered into by the front office and also undertakes activities such as confirmation, settlement, risk monitoring and reporting.

The Company has a credit and market risk department that assesses counterparty risk and market risk limits, within the risk architecture and processes of the Company. The Company has in place a policy which covers various aspects that apply to the functioning of the derivative business. Limits are monitored on a daily basis by the mid-office.

4) Intra-group exposures

Particulars	As at March 31, 2026	As at March 31, 2025
i) Total amount of intra-group exposures	474.04	220.38
ii) Total amount of top 20 intra-group exposures	474.04	220.38
iii) Percentage of intra-group exposures to total exposure of the NBFC on borrowers/customers	8.38%	2.37%
5) Unhedged foreign currency exposure	Nil	Nil

53. G Details of financing of parent company products:

Details of financing of parent company products during the year: Nil (Previous year : Nil)

53. H Details of single borrower limit and borrower group limit exceeded by the Company:

The Company's credit exposure to single borrowers and group borrowers were within the limits prescribed by the RBI, except below cases:

FY 2025-26

City Gold Education Research Limited

FY 2024-25

Shree Naman Developers Private Limited

City Gold Education Research Limited

The above loans were disbursed within in the limit of Single Borrower Limit (SBL) and Group Borrower Limit (GBL) as prevailing guidelines at the time of disbursement. However this was a passive breach in SBL due to reduction of Net Owned Fund for the year.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

53. I Registration obtained from other financial sector regulators - The Company is acting as corporate agent (composite) for insurance business. It has obtained license form Insurance Regulatory and Development Authority of India (IRDAI) (Registration no. CA0932) dated April 19, 2024.

53. J Disclosure of penalties imposed by RBI and other regulators- Nil (Previous year - Nil).

53. K Related party transactions

All Material transactions with related parties are reflected in Note 48

53. L Details of transaction with non executive directors

Other short-term liabilities***, if any as a % of total public funds*	20.23%
Other short-term liabilities, if any as a % of total liabilities**	19.14%
Other short-term liabilities, if any as a % of total assets	13.65%

**"Total public funds" refers to the aggregate of Debt securities, borrowings other than debt securities and subordinated liabilities.

***"Total liabilities" refers to the aggregate of financial liabilities and non-financial liabilities. (i.e., excluding total equity).

****"Other short-term liabilities" includes cash credit, working capital demand loans, loans from related parties.

f) Institutional set-up for liquidity risk management

The Board of Directors of the Company has constituted the Asset Liability Management Committee and the Risk Management Committee.

Notes to the Financial Statement for the year ended March 31, 2026

(Currency: Indian rupees in crores)

- **The Asset Liability Management Committee, inter alia**
 - a. Review of macro-economic scenario, impact of industry and regulatory changes monitoring the asset liability gap.
 - b. Strategizing action to mitigate liquidity and other risks associated with the asset liability gap. Review and suggest corrective actions on liquidity mismatch, negative gaps and interest rate sensitivities. Formulate a contingency funding plan (CFP) for responding to severe disruptions and develop alternate strategies as deemed appropriate, which take into account changes in:
 - i. Interest rate levels and trends
 - ii. Loan products and related markets
 - iii. Monetary and fiscal policy
 - c. Articulating and monitoring liquidity risk tolerance that is appropriate for its business strategy and its role in the financial system, and verifying adherence to various risk parameters and prudential limits.
 - d. Implementation of liquidity risk management strategy of the Company and reviewing the risk monitoring system.
 - e. Ensure that credit exposure to any one group does not exceed the internally set limits as well as statutory limits set by RBI.
 - f. Decide the strategy on the source, tenor and mix of assets & liabilities, in line with its business plans, taking into account the future direction of interest rates. Establish a funding strategy that provides effective diversification in the sources and tenor of funding. Consider product pricing for advances, desired maturity profile and mix of the incremental assets and liabilities, prevailing interest rates offered by peer NBFCs for similar services/products, etc. Discuss and report on the impact of major funding shifts and changes in overall investment and lending strategies.
 - g. Endeavour to develop a process to quantify liquidity costs, benefits & risk in the internal product pricing.
 - h. Review behavioural assumptions and validate models for study of assets & liabilities in preparation of Liquidity and Interest Rate Sensitivity Statements and ALM analysis.
 - i. Review stress test scenarios including the assumptions and results.
 - j. Review and approve the capital allocation methodology.
 - k. Analyse and deliberate at meetings, issues involving interest rate and liquidity risk, including capital allocation, liquidity cost, off balance sheet exposures, contingent liabilities, management of collateral position and intra-group transfers.
 - l. Review the results of and progress in implementation of the decisions made in the previous meetings. Report the minutes of its meeting to the Board of Directors on quarterly basis.
 - m. Formulate ALM policy for the Company; and
 - n. In respect of liquidity risk oversight would include, inter alia, decision on desired maturity profile and mix of incremental assets and liabilities, sale of assets as a source of funding, the structure, responsibilities and controls for managing liquidity risk, and overseeing the liquidity positions of the Company.
- **The Risk Management Committee, inter alia**
 - a. Identifying, measuring and monitoring the various risks faced by the Company;
 - b. Mitigating various risks associated with functioning of the Company through Integrated Risk Management Systems, Strategies and Mechanisms;
 - c. To deal with issues relating to credit policies and procedure and manage the credit risk, operational risk, management of policies and process;
 - d. To assist in developing the Policies and verifying the Models that are used for risk measurement from time to time;
 - e. To have oversight over implementation of risk and related policies;
 - f. Promoting an enterprise risk management competence throughout the organisation, including facilitating development of IT-related enterprise risk management expertise; and
 - g. Establishing a common risk management language that includes measures around likelihood and impact and risk categories
