#### EXTERNAL RISK FACTORS

**Below mentioned risks are the top 5 risk factors as per the RHP:**

- 1) The majority of our product sales is concentrated in the regions namely, Maharashtra and Gujarat. For the Fiscal 2025, 2024 and 2023 our revenue from sale of products in Maharashtra and Gujarat accounted for 98.50%, 98.70%, and 97.39% of our revenue from operations, respectively any adverse developments affecting our operations in these regions could have an adverse impact on our business, financial condition, results of operations and cash flows.
- 2) We do not have any long-term agreements with our raw material suppliers. If we face difficulties in obtaining the necessary quality and quantity of raw materials in timely manner and at fair prices, or if we fail to secure them altogether, it could detrimentally affect our business, financial performance, and cash flow.
- 3) There is an increased awareness towards controlling pollution and many economies including India have joined in the efforts to ban plastic product. In case any plastic packaging products manufactured by us are banned in India or in any of the markets where we export our products, it could have a material and adverse effect on our business and results of operations.

- 4) Our manufacturing facilities are dependent on adequate and uninterrupted supply of electricity and fuel. Any shortage or disruption in electricity, water, or fuel supply may lead to disruption in operations, higher operating cost, and consequent decline in our operating margins.
- 5) A downgrade in our credit rating could adversely affect our ability to raise capital in the future.

Due to character limits prescribed in the applicable regulations, entire text of the Risk Factors has not been incorporated here. Please refer the section titled 'Risk Factors' on page 26 of the RHP for further details.
