BUSINESS RISK FACTORS

The below mentioned risks are top 10 risk factors as per the Prospectus:

1. During Fiscal 2025, Fiscals 2024 and Fiscal 2023, we derived 89.68%, 94.81% and 91.05% our revenue from operations from domestic sales from our customers in Northern India, which exposes us to risks specific to these Indian geographies and market.
2. Our business requires significant amount of working capital. We may not be able to obtain future financing on favourable terms or at all. If we experience insufficient cash flows from our operations or are unable to borrow funds to meet our working capital requirements, it may materially and adversely affect our business and results of operations.
3. We are a fast fashion fabrics solutions and manufacturing company which is vulnerable to variations in demand and changes in consumer preferences, which could have an adverse effect on our business, results of operations and financial condition.
4. We recently adopted digital textile printing technology in our operations and any challenges in digital textile printing operations could negatively affect our business and financial performance.
5. We do not have long term agreements for supply of our raw materials. If we are unable to procure raw materials of the required quality and quantity, at competitive prices, our business, results of operations and financial condition may be adversely affected. Majority of our raw materials are sourced from few key suppliers. Discontinuation of operations of such suppliers may adversely affect our ability to source raw materials at a competitive price.
6. Inability to accurately gauge product demand and maintain optimal inventory levels could adversely affect our business and financial performance.
7. Our business is seasonal in nature, which could adversely affect our financial performance.
8. Our relationship with our distributors is critical to our business. During Fiscals 2025, 2024 and 2023, 41.61%, 45.56% and 35.26% respectively, of our total revenue from operations was attributable to our distributors. If we are unable to maintain successful relationships with our distributors, our business, results of operations and financial condition may be adversely affected.
9. Our business prospects in the branded segment rely on the strength and market acceptance of our brands, and any inability to sustain or increase product sales could negatively impact our business performance.
10. If any new products that we launch are not as successful as we anticipate, our business, cash flows, results of operations and financial condition may be adversely affected.

For further details, see "Risk Factors" beginning on page 39 of the RHP.
