8. Risk Factors

The following are the top 10 internal risk factors as disclosed in the Red Herring Prospectus:

- Our business is more dependent on Projects/OEM business which contributed 67.55%, 69.16%, and 63.99% of our revenue from operations (excluding scrap sale and export incentive) for Fiscals 2026, 2025, and 2024, respectively, with the remaining contributed by our MRO business, and adverse changes in either category may materially and adversely affect our business, financial condition, results of operations, and cash flows.
- Our performance is influenced by demand trends in certain end-user industries, in particular, metal and petro chemical industries which collectively contributed 41.13%, 42.90%, and 41.52% of our revenue from operations (excluding scrap sale and export incentive) for Fiscals 2026, 2025, and 2024, respectively. Negative developments in these sectors may materially affect our business, results of operations and cash flows.

IN THE NATURE OF ABRIDGED PROSPECTUS - MEMORANDUM CONTAINING SALIENT FEATURES OF THE RED HERRING PROSPECTUS

- Dependence on a limited group of suppliers and absence of definitive supply agreements for raw materials may increase our exposure to supply disruptions, with the potential to adversely affect our business, results of operations, and cash flows.
- Significant concentration of our manufacturing units at Udaipur in Rajasthan, India and operating risks at both domestic and international manufacturing units including infrastructure and location-specific shortcomings could result in disruptions that adversely affect our business, financial condition, results of operations, and cash flows.
- Our reliance on Subsidiaries / Joint Ventures for international market entry and product launches may expose us to operational and strategic risks, potentially impacting our business, results of operations, and growth prospects.
- Our ability to control and respond swiftly within our joint ventures is constrained by the need for majority consent or unanimous consent or consent of our joint venture partner on key business actions, which may lead to delays or limit our operational flexibility, potentially adversely affecting our business, results of operations, and growth prospects.
- Our inability to maintain and protect our brand and business reputation could adversely affect our business, prospects and financial performance.
- Recognition of significant goodwill arising from the Marathon Heater amalgamation as at March 31, 2025 is a one-time event and may not be repeated in future periods. Any goodwill recognised in subsequent periods may arise from separate acquisitions and may not be comparable.
- Our business is dependent on temperature sensing solutions, electrical heating solutions, and specialised cables, and adverse changes in demand for any vertical may materially and adversely affect our business, financial condition, results of operations, and cash flows.
