INTERNAL RISK FACTORS

The below mentioned risks are top 10 risk factors as per the Red Herring Prospectus:

- Our business is concentrated around key clients, which account for a significant amount of our revenue. If we fail to retain these clients, or diversify our client base or if our key clients reduce their marketing budgets, our business, revenue growth, results of operations, cash flows and financial condition may be materially and adversely affected.
- Our operations are dependent on a limited number of key suppliers. Any disruption or change in terms with these suppliers could impact our ability to deliver services, affecting our business, financial condition, and results of operations.
- Our revenues are highly dependent on certain key industries. Any decrease in demand for marketing services in these industry verticals could reduce our revenues and adversely affect our business, financial condition and results of operations.
- Our Promoters are involved in certain tax litigations, and adverse outcomes in these proceedings could have a material adverse effect on them and, consequently, on our Company.
- Digital marketing forms a substantial part of our offerings and hence is our major source of income. Any changes in trend, decrease in digital advertisement-spend by our clients could have a material adverse effect on our business, revenue growth and results of operations and financial condition.
- Our inability to consistently upgrade our data analytics capabilities in line with the latest technologies or if our data-based predictions are wrong because our technology hasn't evolved enough or due to any other reasons, it may adversely affect our quality of services and clients' satisfaction. The cost of implementing any new technologies could adversely affect our business and financial condition.
- Companies may undertake their advertising projects, market research and data analysis functions inhouse and setting up dedicated departments to service their marketing needs, thus reducing our prospective customer base. This may adversely affect our revenues and growth prospects.
- We have undertaken, and may continue to undertake strategic acquisitions, which we may fail to integrate efficiently and which may not perform in line with our expectations or may be prone to other contingencies.
- Our revenue depends on project-based contracts, and we do not have long-term commitments from our clients.
- Our results of operations and our key business measures are subject to quarterly variations that could cause fluctuations in our results of operations.

For further details, see "Risk Factors" beginning on page 38 of the RHP.
