Amount proposed to be raised	Rs 15,000 Mn
Price Band	Not available at the time of grading
Lead managers	Enam Securities Private Limited, Kotak Mahindra Capital Company Limited

Company Background

DB Realty Limited incorporated as a public limited company on 8 January 2007, was later converted into a private limited company on May 14, 2007 and renamed D B Realty Private Limited. Subsequently, it reverted to a public limited company on September 23, 2009 and the original name of D B Realty Limited ("DBRL") was retained. DBRL is part of the DB Group, which also has interests in hospitality, power and telecom. Its real estate development is primarily residential (67% of total projects), followed by mass housing and cluster development (29%) and commercial and retail developments (4%).

Grading Highlights

Business Prospects

- DBRL operates in the real estate development market and is primarily into the residential segment. Geographically, of the total saleable area of 60.9 million square feet ("msft"), 84.1% (or 51.9msft) is in and around Mumbai, with the rest in Pune. The company currently has 30.6msft of land, which it plans to develop over the next 4-5 years.
- DBRL has 25 projects totally: ongoing (10), forthcoming (nine) and upcoming (six) projects; this depends on the stage of construction, development and approvals.
- The company classifies a project as 'ongoing' if land excavation work has commenced. It has 10 such projects currently with saleable area of 18.6msft on land of 5.4msft with a total estimated cost of Rs 53.1 Bn. Among the projects, 33% are residential and 59% are mass housing and cluster development.
- DBRL classifies 'forthcoming' projects as those for which (a) land has been acquired or a memorandum of understanding or development agreement has been executed; (b) change of land use has been completed if need be, or an application for change in land use has been submitted to the relevant authorities; and (c) management's project development plans are complete. It has nine such projects with a saleable area of 20.2msft, 68% of which is residential and 31% are mass housing and cluster development.
- Currently, DBRL has six upcoming projects with a total saleable area of 22.2msft of which 94% is residential. It defines projects as 'upcoming' when (a) land has been acquired or a memorandum of understanding or development agreement has been executed; (b) preliminary architect plans and management development plans are complete but (c) no applications have been made for approvals to commence developments.
- The company generates Transferable Development Rights (TDRs) for its mass housing projects which can be utilized to construct buildings or other developers' projects within Mumbai. Currently, for the ongoing, forthcoming and upcoming projects, it can generate TDRs of up to 10.94, 6.21 and 0.73msft, respectively in Mumbai—totally amounting to nearly 17.88msft.

Financial Performance

- DBRL was formed in February 2007 and so, has a limited operating history with no revenues in FY07 (April 2006–March 2007) and Rs 0.06 Bn in FY08. Its FY09 revenues of Rs 4.7 Bn comprised Rs 3.5 Bn and Rs 1.1 Bn from sale of TDRs and flats and car parking, respectively while with the rest coming from assigning development rights.
- Successful selling of projects in pipeline will drive future revenues.
- The company incurred loss at both operating as well as net levels in FY08, with net loss at Rs 0.2 Bn. In FY09, DBRL earned EBIDTA of Rs 2.3 Bn translating into a margin of 49%; this at the net level was Rs 1.4 Bn and a 30% margin.

Management Capabilities

- DBRL's promoters, Vinod Goenka and Shahid Balwa are into real estate development business for a fairly long time. Put together, they developed projects covering nearly 15.9msft of residential, commercial and retail real estate.
- At operational level, the company operates with two managing directors who share the roles and responsibilities. However, there are no strict delineated roles and responsibilities between the two.

- The key management team has, on an average, more than 20 years of experience.
- Seven of DBRL's 10 subsidiaries and a few group companies had negative net worth as at FY09.

Corporate Governance

- DBRL has fairly well-experienced independent directors on the board, However, two of them have been recently inducted into the Board (in September 2009).
- Based on our interactions with the company, it appears that the level of engagement of the nominee directors in company affairs is reasonably good.
- The company has advanced unsecured interest-free loans to entities related to the promoters.

Detailed Grading Rationale

To arrive at the overall grade, CRISIL has considered the following parameters:

- Business prospects and financial performance
- Management capability
- Corporate governance

CRISIL has assigned a CRISIL IPO Grade '2/5' (pronounced 'two on five') to the proposed Initial Public Offer of D B Realty Limited. This grade indicates that the fundamentals of the issue are below average relative to other listed equity securities in India. However, this grade is not an opinion on whether the issue price is appropriate in relation to the issue's fundamentals. The offer price for the issue may be higher or lower than the level justified by its fundamentals. The grade is not a recommendation to buy/sell or hold the graded instrument, its future market price or suitability for a particular investor.

Our IPO grade for DBRL reflects that while it has no operating history and is yet to deliver its projects, the presence of its experienced promoters in the real estate business is a key positive. The grading also considers real estate industry's high fragmentation and intense competition. Also in the recent past, this industry saw a significant slowdown as demand depleted and the supply backlog piled up. However, what works in DBRL's favour is its primary concentration in and around Mumbai which, among other cities, is less affected and expected to recover faster. The grading also takes into account high level of corporate guarantees, which total more than the company's net worth, and that seven out of ten subsidiaries have a negative net worth. The fact that DBRL has extended unsecured interest-free loans to entities related to the promoters, with such advances having no written agreements to document the terms and conditions is an area of concern. Also, some of these loans are given to entities, which are either loss-making or have a negative net worth. Our grading also considers that although DBRL's managerial team has adequate work experience, it needs to be strengthened further, considering its colossal development plans over the next few years.

Source: DRHP

➤ **Promoters have strong background and presence in real estate**

Both the promoters, Vinod Goenka and Shahid Balwa belong to families who have operated in real estate development over many years. Before coming together in DBRL, Goenka and Balwa were in the same business through Dynamix and Balwas groups, respectively. They have individually completed several development projects such as Yashodham, Gokuldharm Vasant Vihar, Orchid Tower and Le Meridian; and even jointly like DB Mall and Shagun Arcade—with most of these in and around Mumbai. Put together all the projects, promoters have developed more than 15.9msft in an around Mumbai.

➤ **No operating history of DBRL**

Although the promoters have a strong background and are in the real estate business for many years, there is no operating history in DBRL. The company was formed in February 2007 and earned Rs 0.06 Bn in FY08 and Rs 4.7 Bn in FY09, mostly from the sale of TDRs. Also, in the past few years, operating cash losses have become significant: Rs 2.4, 8.5 and 4.9 Bn in FY07, FY08 and FY09, respectively. This was primarily because of continuing land development and acquisition expenses, unmatched by revenue streams.

➤ **Real estate industry is highly fragmented and competitive**

DBRL faces fierce competition from many small to large real estate developers operating in Mumbai—from DLF, Omaxe, Unitech and HDIL to Akruti City, Lodha Group and Indiabulls Real Estate. Moreover, within Mumbai, there are numerous players as well. Oberoi Constructions, Rustomjee, Lodha Group, Lokhandwala Construction, etc concentrate in western sub-urban Mumbai; while Orbit Construction, Mittal Builders, Shree Naman Developers, Sumer Group, etc concentrate in south Mumbai. Success of any builder/project depends on various factors including location, similar options available in the nearby vicinity, price of the unit and facilities provided.

➤ **Redevelopment projects are tied up with unique set of operational hurdles and complexities**

Currently, DBRL is undertaking or slated to undertake seven redevelopment projects (two ongoing, three forthcoming and two upcoming) in and around Mumbai. Many factors affect completion of redevelopment projects such as getting consent from 70% of tenants and providing intermediary accommodation to tenants. DBRL is set to earn from 17.9msft of TDRs, expected to be generated from these redevelopment projects. DBRL's ability to generate those TDRs, and thereby revenues and earnings, would hinge on execution those redevelopment projects within stipulated time and estimated costs.

➤ **Corporate guarantees amount to more than the net worth of DBRL**

The company has given corporate guarantees in connection with certain debt facilities for related entities, aggregating to nearly Rs 22.5 Bn and \$ 138 Mn (or Rs 6.7 Bn) as at 31 August 2009; this includes guarantees for businesses other than those related to real estate development such as telecom and hospitality. The guarantee was Rs 21.5 Bn as at 31 March 2009, which is far in excess of DBRL's net worth of Rs 8.1 Bn.

➤ **DBRL has lent unsecured loans to various related entities**

DBRL has extended interest-free interest free loans to various entities related to the promoters, amounting to more than Rs 4.7 Bn as at 31 August 2009. Further, it has not signed written agreements to document the terms and conditions of such loans. Moreover, some of these entities are either incurring losses or have negative net

worth.

➤ **Ambitious development plans would require strengthening management at execution level**

DBRL derives strength from promoters' extensive knowledge and relationship with various participants in real estate industry. However, as it has massive plans to develop more than 60msft of saleable area over the next 4-5 years, we see a need to further strengthen the second line of management to support this scale of operations.

➤ **Potential conflict of interest between promoters and the company**

In the current scheme of things, DBRL can take over only FDI-compliant projects. Before it was formed, both its promoters operated in real estate development and still continue to undertake their legacy projects. Although DBRL has non-compete agreement in place with its promoters, a potential conflict of interest for the projects may arise.

Financial Profile

- DBRL's revenues were Rs 4.7 Bn in FY09 over Rs 0.06 Bn in FY08 and nothing in FY07. Sale of TDRs and flats and car parking contributed Rs 3.5 Bn and Rs 1.1 Bn, respectively, to the FY09 revenue.
- Its FY09 EBITDA was Rs 2.3 Bn, translating into a margin of 49%, comparing well with a negative EBITDA of Rs 0.06 Bn in FY08. DBRL earned net profit of Rs 1.4 Bn translating into a margin of 30%, against a net loss of Rs 0.2 Bn in FY08.
- DBRL has incurred operating cash losses for three consecutive years: Rs 4.9, 8.5 and 2.4 Bn in FY09, FY08 and FY07, respectively.

Financial performance snapshot

Profile of Management and Board

Both promoters, Vinod Goenka and Shahid Balwa are DBRL's managing directors. Goenka, 51, has over 20 years of experience in the real estate industry while Balwa, 36, has more than 10 years. The Board is chaired by Karunchandra A. Srivastava who has more than 38 years of experience. He has worked in administrative services in various capacities like Municipal Commissioner (Greater Mumbai), Chairman of Second Maharashtra Finance Comm., Additional Chief Secretary of Govt. of Maharashtra, etc. He is on board of various companies including Videocon Industries and joined the Board of DBRL in September 2009. Other Board members include Shahzaad Dalal, a nominee director of IF&FS with over 28 years of experience; Mahesh Gandhi, nominee director of Trikona Capital with more than 30 years of experience; Chandan Bhattacharya, who has more than 37 years of experience and is a former MD of State Bank of India, was inducted as an independent director in September 2009. The Board comprises two managing directors, three independent directors (one of whom is a non-executive chairman) and four investor-nominee directors. The key management team has an average work experience of more than 20 years and has been with the company for two years on an average.
