1. **Blister Foils:** Blister packaging is two-part pre-formed packaging consisting of a thermoformed plastic tray or a cold formed tray and a lidding material. Our company manufactures the lidding material which typically contains aluminium foil and is bonded to the formed tray by heat sealing. Blister packs are often used for medicines in the pharmaceutical industry. These consist of the push-through Blister (or shorter “Blister”), a moulded plastic with cavities for the individual tablets, and a push-through closure made of aluminium foil, which is called blister film or lid film.
 - a) **Push-through blister packaging:** Push-through blister packaging is constructed so medication doses are pushed through the lidding. As such, hard temper aluminium and soft temper aluminium is used. Lidding with a relatively higher puncture strength can sometimes be used to achieve a level of child resistance.

- b) **Peel-open blister packaging:** Peel-open blister packaging is constructed so medication doses are dispensed when the lidding is peeled from the tray. Lidding for peel-open applications combines aluminium with a paper backing or a paper/PET backing.
- c) **Peel-push blister packaging:** Peel-push blister packaging is constructed so medication doses are dispensed through a combination of peeling back a lidding layer, then pushing the pharmaceutical through the remaining aluminium foil. Peelpush lidding is layered paper/PET/aluminium foil/HSC.
- d) **Tear-open packaging:** Tear-open packaging is constructed so medication doses are dispensed by tearing the package open. Materials used for tear-open packaging are paper/PET/aluminium foil/HSC.

SECTION III: RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the section “Summary of Letter of Offer” and “Introduction” on pages 17 and 40 respectively. The industry-related information disclosed in this section has been derived from publicly available documents from various sources believed to be reliable, but their accuracy and completeness are not guaranteed, and their reliability cannot be assured. Neither our Company, nor any other person connected with the Issue have independently verified the information in the publicly available information cited in this section.

Unless otherwise stated, references in this section to the “Company” or “our Company” means “GSM Foils Limited”, and “we”, “our” or “us” (including in the context of any financial information) is a reference to our Company as applicable. Unless otherwise stated, references to “Group” or “GSM Group” shall mean GSM Foils Limited as applicable.

This Letter of Offer also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 16.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Audited Financial Information, prepared in accordance with Indian GAAP and the Companies Act and in accordance with the SEBI ICDR Regulations.

Materiality

The Risk factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality.

- Some risks may not be material individually but may be found material collectively.
- Some risks may have an impact which is qualitative though not quantitative.
- Some risks may not be material at present but may have a material impact in the future.

The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another. In this Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

Object Related Risk

- 1. We require working capital for our day-to-day operations of business and any discontinuance or our inability to acquire adequate working capital timely and on favorable terms may have an adverse effect on our operations, profitability and growth prospects.***

Our business demands working capital requirements. In case there are insufficient cash flows to meet our working capital requirement or we are unable to arrange the same from other sources or there are delays in disbursement of arranged funds, or we are unable to procure funds on favorable terms, it may result into our inability to finance our working capital needs on a timely basis which may have an adverse effect on our operations, profitability and growth prospects.

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of our current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations.

- 2. Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised and may be subject to change based on various factors, some of which are beyond our control.***

Our funding requirements and deployment of the Net Proceeds are based on internal management estimates based on current market conditions and have not been appraised by any bank or financial institution or other external agency. Further, in the absence of such external appraisal, our funding requirements may be subject to change based on various factors which are beyond our control. For details, see “*Objects of the Issue*” on page 45.

- 3. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the Objects of the Issue. Any shortfall in raising / meeting the same could adversely affect our growth plans, business operations and financial condition.***

As on date of this Letter of Offer, we have not made any alternate arrangements for meeting our capital requirements for objects of the issue. We meet our capital requirements through, owned funds, debt and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Net Issue proceeds may delay the implementation schedule and could adversely affect our growth.

Risk Material to our Company and Our Business

- 4. We depend on the success of our relationships with our customers. We derive a significant part of our revenue from our top 10 customers and we do not have long-term contracts with these customers. If such customers choose not to source their requirements from us, our business, financial condition and results of operations may be adversely affected.***

Our revenue from operations from our top 10 customers were ₹ 5,860.11 Lakhs, ₹ 2,376.33 Lakhs, and 2,863.41 Lakhs representing 43.80 %, 45.92 % and 43.46% of our total revenue from operations for the financial year ended March 31, 2025, 2024 and 2023, respectively. Given the nature of our business, there can be no assurance that we would be able to attract new customers or reduce our dependence on any of our top customers. We expect that we will continue to be reliant on our major customers for the foreseeable future.

Accordingly, any failure to retain these customers or to remain suppliers to these customers and/or negotiate and execute contracts on terms that are commercially viable, with these select customers, could adversely affect our business, financial condition and results of operations. In addition, any defaults or delays in payments by a major customer or the insolvency or financial distress by a major customer may have an adverse effect on business, financial condition and results of operations. Cancellation by customers or delay or reduction in their orders or instances where anticipated orders fail to materialize can result in mismatch between our expectant and existing

inventory levels at our unit, thereby increasing our costs relating to maintaining our inventory and reduction of our margins, which may adversely affect our profitability and liquidity.

Further, we may not find any customers or purchasers for the surplus or excess capacity, in which case we would be forced to incur a loss. Further, our inability to find customers for surplus products may result in excessive inventories which may become obsolete and may be required to be written off in the future. Additionally, our customers have high and stringent standards for product quality and quantity as well as delivery schedules. Any failure to meet our customers' expectations could result in the cancellation or non-renewal of contracts or purchase orders. There are also several factors, other than our performance that could cause the loss of a customer, which include those customers who may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, or replace their existing products with alternative products, any of which may have an adverse effect on our business, financial condition, results of operations and prospects.

5. *We generate our major portion of sales from our operations in certain geographical regions especially Maharashtra, Gujarat and Dadra & Nagar Haveli. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.*

For the financial year ended March 31, 2025, 2024 and 2023, our revenue from our customers situated in Maharashtra, Gujarat and Dadra & Nagar Haveli are as follows:

(₹ in Lakhs)

Particulars	FY 2024-2025		FY 2023-2024		FY 2022-2023	
	Revenue from Operation	% of total Revenue from Operation	Revenue from Operation	% of total Revenue from Operation	Revenue from Operation	% of total Revenue from Operation
Maharashtra	8,915.17	66.63	4,005.45	77.40	4,375.01	66.41
Gujarat	1,975.36	14.76	514.97	9.95	1,117.41	16.96
Dadra & Nagar Haveli	1,753.06	13.10	413.86	8.00	859.86	13.05

Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. Factors such as competition, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets.

6. *Our Company is reliant on the demand from the pharmaceutical industry for a significant portion of our revenue. Any downturn in the pharmaceutical industry or an inability to increase or effectively manage our sales could have an adverse impact on our Company's business and results of operations.*

Our Company is engaged in the business of manufacturing finished goods which are used in the pharmaceutical industry and therefore, our revenues are highly dependent on our customers from the pharmaceutical industry and the loss of any of our customers from the said industry which we cater to may adversely affect our sales and consequently on our business and results of operations. Further, in the event, there is a shift of practice of developing our products in-house in the pharmaceutical industries, it may have an adverse impact on the demand for our products. Similarly, in the event of any new breakthrough in the development of a novel product or raw material by our competitors or customers, our products may become obsolete or be substituted by such alternatives; thereby impacting our revenues and profitability adversely. It may also happen that our competitors are able to improve the efficiency of their manufacturing process or their distribution or raw materials sourcing process and thereby offer their similar or high-quality products at lower price our Company may be unable to adequately react to such developments which may affect our revenues and profitability.

7. *Any slowdown or shutdown of our Manufacturing operations at our Manufacturing Facilities which is concentrated in a single region i.e., Thane, Maharashtra, any inability to operate and grow our business in*

this particular region, could have an adverse effect on our Business, Financial Condition and Results of Operations.

We have one manufacturing facility situated at Gala No 06/106/206/306, Sapphire Building, Diamond Industrial Estate, Vasai East, Thane - 401208 Maharashtra, India, which exposes us to the risks of concentration. Our business is dependent upon our ability to manage our manufacturing facility, including productivity of our workforce, which are subject to various operating risks, including those beyond our control, such as the breakdown, failure of equipment or industrial accidents, severe weather conditions and natural disasters. Any significant malfunction or breakdown of our machinery, our equipment, our reactors, our automation systems, obsolescence or any other part of our manufacturing processes or systems (together, our “**Manufacturing Assets**”) may entail significant repair and maintenance costs and cause delays in our operations. However, we cannot assure you that we shall not experience any malfunction or breakdown of our Manufacturing Assets in the future. If we are unable to repair Manufacturing Assets in a timely manner or at all, our operations may need to be suspended until we procure the appropriate Manufacturing Assets to replace them. Further, there can be no assurance that in future, if we suffer accidents or if we are subject to shutdowns due to malfunctions, that we would be able to recover insurance costs covering all losses. Any uninsured losses in the future would adversely impact our results of operations and profitability. Additionally, any regulatory notices received indicating shortfall in quality or inadequacies of quality control measures or in our products could require us to make unplanned shutdowns to our manufacturing facilities in the future, resulting in losses and operational difficulties. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections, customer audits and testing, or may shut down certain facilities for capacity expansion and equipment upgrades.

8. ***Any disruptions to the supply, or increases in the pricing, of the raw materials, may adversely affect the supply and pricing of our products and, in turn, adversely affect our Business, Cash Flows, Financial Condition and Results of Operations.***

We depend on third-party suppliers for certain of our raw materials. The key raw materials that we use for our manufacturing operations include Aluminium Sheets and variables including chemicals for our formulations, key starting materials and intermediaries for our internally manufactured Blister Foils and Aluminium Pharma Foils. We have no control on the prices of our basic raw material.

Any such fluctuations in prices of aluminium may adversely affect our business operations and financial performance. Aluminium foil (Aluminium Sheets) is the major raw material for our packaging products. Hence our profitability will also be affected to the extent we are unable to pass on any increase in the cost of aluminium to our customers. The prices of these raw materials fluctuate due to availability and demand. Such fluctuations in prices of raw material and our inability to negotiate at optimum market rates may affect our profitability. We may be unable to control the factors affecting the price at which we procure our raw material. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Upward fluctuations in the prices of raw material may thereby affect our margins and profitability, resulting in a material adverse effect on our business, financial condition and results of operations

9. ***Our Registered Office and Manufacturing facility are not owned by us. In the event we lose such rights, our business, financial condition and results of operations and cash flows could be adversely affected.***

Our Registered office and Manufacturing facility situated at Gala No 06/106/206/306, Sapphire Building, Diamond Industrial Estate, Vasai East, Thane - 401208, Maharashtra, India is not owned by us and is taken on Leave & License basis for a period of 55 months commencing from November 01, 2023 and expiring on May 31, 2028 from Kanhaiya Lal Agrawal and Suchita Vyankat Bastapure. Further, we cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favourable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favourable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

10. The industry in which we operate is labour intensive and our manufacturing operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

Aluminium industry being labour intensive is dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. Though we have not experienced any major disruptions due to disputes or other problems with our work force in the past; however, there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits.

11. Inventories and trade receivables form a major part of our current assets. Failure to manage our inventory and trade receivables could have an adverse effect on our sales, profitability, cash flow and liquidity.

Our Company's business is working capital intensive and hence, inventories and trade receivables form a major part of our current assets. The results of operations of our business are dependent on our ability to effectively manage our inventory and trade receivables. To effectively manage our inventory, we must be able to accurately estimate customer demand / potential orders and supply requirements and purchase new inventory accordingly. However, if we misjudge expected customer demand/ Potential orders, it could cause either a shortage of products or an accumulation of excess inventory. As at March 31, 2025 and March 31, 2024, our inventories were ₹ 1,886.04 lakhs and ₹ 1,023.45 lakhs, respectively. To effectively manage our trade receivables, we must be able to accurately evaluate the credit worthiness of our customers and ensure that suitable terms and conditions are given to them in order to ensure our continued relationship with them. However, if we fail to accurately evaluate the credit worthiness of our customers, it may lead to bad debts, delays in recoveries and / or write-offs which could lead to a liquidity crunch, thereby adversely affecting our business and results of operations.

As at March 31, 2025 and March 31, 2024, our trade receivables were ₹ 3,376.64 lakhs and ₹ 732.46 lakhs, respectively. We may be subject to working capital risks due to delays or defaults in payment by clients, which may restrict our ability to procure raw materials and make payments when due. In addition, any delay or failure on our part to supply the required quantity or quality of products, within the time stipulated by our agreements, to our customers may in turn cause delay in payment or refusal of payment by the customer. Such defaults/delays by our customers in meeting their payment obligations to us may have a material effect on our business, financial condition and results of operations. Such situation may require an additional and, consequently, higher finance cost which will adversely impact our profitability.

12. Our Company had negative cash flows in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

As per our Audited Financial Statements, our cash flows from operating, investing and financing activities are as set out below:

Particulars	For the Financial Year ended on		
	2025	2024	2023
Net Cash Generated/(Used) from Operating Activities	(1,769.31)	(1,371.54)	60.36
Net Cash Generated/(Used) from Investing Activities	(455.37)	(96.76)	(71.54)
Net Cash Generated/(Used) from Financing Activities	2,209.39	1,507.84	19.17

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external

resources. If our Company is not able to generate sufficient cash flows, it may adversely affect our business and financial operations.

13. Our ability to anticipate changes in Customer Preferences, and Industry trends to meet customers' demands and any variations in the Government Regulations/policies or Technology Upgradation is a significant factor to remain competitive, any failure to identify and understand the trends may materially adversely affect our Business.

Changes in Customer Preferences, Regulatory or Industry requirements, variation in any of the Government policies or Competitive Technologies may render certain of our products obsolete or less attractive. Since our Business is Customer centric, our ability to anticipate changes in Technology and Regulatory standards and to successfully introduce new and enhanced products on a timely basis is a significant factor to remain competitive. If we are unable to obtain such knowledge in a timely manner, or at all, we may be unable to effectively implement our strategies, and our Business and our Results of Operations may be adversely affected. We are also subject to the risks generally associated with new products and applications, including lack of market acceptance and failure of products to operate properly. Customer preferences in the markets we operate are difficult to predict and changes in those preferences or the introduction of new products by our competitors could put our products at a competitive disadvantage. To compete effectively in the industry, we must be able to produce new products to meet our customers' demands in a timely manner. Our failure to successfully produce new products could materially and adversely affect our Results of Operations.

14. We do not have long-term agreements with suppliers for our raw materials and any shortfall in the availability or quality of such raw materials could have an adverse effect on our business, financial condition and results of operations.

Our business is significantly affected by the availability and cost of the raw materials with which we need to develop our products. Our principal raw materials include Aluminium Sheets. We usually do not enter into long-term supply contracts with any of our raw material suppliers. Our raw materials are majorly procured in the domestic market from Dadra & Nagar Haveli, Gujarat, Maharashtra, Rajasthan and Uttar Pradesh and the prices and supply of these raw materials depend on factors beyond our control, including general economic conditions, competition, transportation costs and capital market fluctuations both domestic and international. If for any reason, our suppliers of raw materials and components should curtail or discontinue their delivery of such materials to us in the quantities we need or at prices that are competitive or expected by us, our ability to meet the requirements of our customers could be impaired and our earnings and business could suffer. Further, we may not be able to pass on any increase in the cost of manufacturing our products to our customers which may adversely affect our results of operations.

15. Pressure from Customers with regards to pricing may affect our Gross Margins, Profitability and ability to Increase our Prices.

Our customers negotiate for larger discounts in price of our products as the volume of their orders increase. Pursuing cost cutting measures while maintaining rigorous quality standards may lead to an erosion of our margins, which may have a material adverse effect on our Business, Results of Operations and Financial Condition.

In addition, estimating amounts of such price reductions is subject to risk and uncertainties, as any price reduction is the result of negotiations and other factors. Accordingly, suppliers must be able to reduce their operating costs in order to maintain Profitability. Such price reductions may affect our Sales and Profit Margins. If we are unable to offset Customer price reductions in the future through improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives, our Business, Results of Operations and Financial Condition may be materially adversely affected.

Additionally, our Business is engaged in bulk manufacturing of products, with high-cost capital expenditure involved in the Business. Therefore, our Profitability is dependent, on our ability to recover the fixed costs over higher sales volume. If we are unable to generate sufficient production cost savings in the future to offset price reductions or if there is any reduction in demand for our products, which will result in decreased sales, our Gross Margin and Profitability may be materially adversely affected.

16. *Improper storage, processing and handling of our raw materials, work products and finished products could damage our inventories and, as a result, have an adverse effect on our business, results of operations and cash flows.*

We typically store our raw materials, work-in-progress, stock in trade and finished goods in covered warehouses. In the event that our raw materials, work products and finished products are improperly stored, processed and handled, the quality of our raw materials could be reduced and our work products could be damaged. As a result, our production outputs could be adversely affected, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

17. *We regularly work with activities in our operation which can be dangerous and could cause injuries to people or property.*

Our business requires individuals to work under dangerous circumstances. For example, moving machineries can seriously injure employees or other persons, and cause damage to our properties and the properties of others. Despite compliance with requisite safety requirements and standards, our operations are subject to significant hazards, including explosions, fires, mechanical failures and other operational problems, discharges or releases of hazardous substances, chemicals or gases and other environmental risks.

These hazards can cause personal injury and loss of life or destruction of property and equipment as well as environmental damage. In addition, the loss or shutting down of our facilities resulting from any accident in our operations could disrupt our business operations and adversely affect our results of operations, financial condition and reputation. We could also face claims and litigation filed on behalf of persons alleging injury predominantly due to occupational exposure to hazards at our facilities. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, financial condition, results of operations and cash flows could be adversely affected.

18. *If we fail to keep our technical knowledge and process know-how confidential, we may suffer a loss of our competitive advantage.*

We possess extensive technical knowledge about our products and such technical knowledge has been developed through our own experiences. Our technical knowledge is an independent asset of ours, which may not be adequately protected by intellectual property rights such as patent registration or design registration. Some of our technical knowledge is protected only by secrecy. As a result, we cannot be certain that our technical knowledge will remain confidential in the long run.

Certain proprietary knowledge may be leaked (either inadvertently or willfully), at various stages of the manufacturing process. A significant number of our employees have access to confidential design and product information and there can be no assurance that this information will remain confidential. Moreover, certain of our employees may leave us and join our various competitors. Although we may seek to enforce non-disclosure agreements in respect of research and development, we cannot guarantee that we will be able to successfully enforce such agreements. The potential damage from such disclosure is increased as many of our designs and products are not patented, and thus we may have no recourse against copies of our products and designs that enter the market subsequent to such leakages. In the event that the confidential technical information in respect of our products or business becomes available to third parties or to the general public, any competitive advantage we may have over other companies in the pharmaceutical manufacturing sector could be compromised. If a competitor is able to reproduce or otherwise capitalize on our technology, it may be difficult, expensive or impossible for us to obtain necessary legal protection. Consequently, any leakage of confidential technical information could have an adverse effect on our business, results of operations, financial condition and future prospects.

19. *We have previously engaged in related party transactions and may continue to do so in the future. However, there is no assurance that we will be able to secure more favorable terms in such transactions compared to those with unrelated parties.*

We have entered into transactions with our related parties in the ordinary course of business and may continue to do so in the future. These transactions include, among others, sales and purchases, loans and advances. While such transactions were entered into during the financial year were on an arm's length basis and were in the

ordinary course of business and did not attract provisions of section 188 of the Companies Act, 2013 and were also not material RPTs under Regulation 23 of SEBI LODR Regulations, they may involve inherent risks. There can be no assurance that all such transactions have been or will be on terms that are more favourable, or as favourable, as those that could have been obtained from unrelated third parties. Further, there is a potential risk of conflict of interest, perception of preferential treatment, or non-arm's length dealings, which could adversely impact our business, financial condition, and reputation. In addition, if we extend credit or loans to related parties, we may be exposed to risks of delayed recovery, default, or write-offs, which could adversely affect our financial results.

We strive to ensure that all related party transactions are conducted in compliance with Companies Act, 2013 and SEBI LODR Regulations. We enter into related party transactions from time to time. If we extend loans or advances, or purchases or sales to related parties, we may face risks related to defaults or non-recovery. There is no assurance that we will be able to secure more favourable terms for such transactions if conducted with unrelated parties.

20. Our Company has incurred substantial indebtedness which exposes us to various risks which may have an adverse effect on our business and results of operations.

As on March 31, 2025, we had short-term borrowings of Rs. 1,782.01 Lakhs from Bank of India, DBS Bank, Aditya Birla Finance, Bajaj Finance, L & T Finance and Tata Capital 4. In the event that we fail to meet our debt servicing obligations under our financing documents, the relevant lenders could declare us to be in default, accelerate the maturity of our obligations or takeover our properties or even sell our properties. We cannot assure investors that in the event of any such acceleration we will have sufficient resources to repay these borrowings. Failure to meet such obligations under debt financing agreements may have an adverse effect on our cash flows, business and results of operations. Our ability to meet our debt service obligations and to repay our outstanding borrowings will depend primarily upon the cash flows generated by our business. We cannot assure you that we will generate sufficient cash to enable us to service existing or proposed borrowings. Incurring significant indebtedness may limit our flexibility in planning for or reacting to changes in our business & industry and limit our ability to borrow additional funds.

21. Our Company has availed unsecured loans from non-banking financial companies("NBFC"), which may be recalled on demand.

For the financial year ended March 31, 2025, we have outstanding unsecured loan amounting to ₹ 1,782.01 Lakhs as unsecured loans from non-banking financial companies, which are repayable on demand to the relevant lenders. These loans may not be repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. In such cases, we may be required to repay the entirety of the unsecured loans together with accrued interest. We may not be able to generate sufficient funds at short notice to be able to repay such loans and may resort to refinancing such loans at a higher rate of interest and on terms not favourable to it. Failure to repay unsecured loans in a timely manner may have a material adverse effect on our business, results of operation financial condition and cash flow.

22. We are dependent on third party transportation providers for the delivery of our raw material and products. Accordingly, continuing increases in transportation costs or unavailability of transportation services for them, as well the extent and reliability of Indian infrastructure may have an adverse effect on our business, financial condition, results of operations and prospects.

We use third party transportation providers for the delivery of our raw material and products. Transportation strikes could have an adverse effect on our receipt of raw materials and our ability to deliver our products to our customers. In addition, transportation costs in India have been steadily increasing over the past several years. Continuing increases in transportation costs or unavailability of transportation services for our products may have an adverse effect on our business, financial condition, results of operations and prospects. In addition, India's physical infrastructure is less developed than that of many developed nations, and problems with its road networks, electricity grid, communication systems or any other public facility could disrupt our normal business activity, including our supply of raw materials and the delivery of our products to customers by third-party transportation providers. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and add costs to doing business in India. These problems could interrupt our business operations, which could have a material adverse effect on our results of operations and financial condition.

23. *The success of our business relies on the expertise of our employees including key managerial personnel, and senior management, as well as our ability to attract, train, and retain skilled employees.*

The continued success of our business is significantly dependent on the knowledge, expertise, and experience of our employees, particularly our key managerial personnel, senior management, and technical staff. Their contributions have been instrumental in driving our operational performance, consistent profitability, and maintaining a strong liquidity and capital position. Our future growth and competitiveness will depend on our ability to attract and retain qualified professionals, particularly in the areas of operations and manufacturing.

We face challenges in recruitment and retention due to increasing competition, better opportunities in the market, and industry-specific factors. If we are unable to attract or retain qualified personnel, our ability to execute business strategies, deliver high quality products, and expand into new markets could be compromised. Additionally, the departure of key personnel without timely and adequate replacement could disrupt our operations, delay projects, and result in increased training and hiring costs. We would also need to ensure that new hires are properly trained and integrated into our internal control systems and risk management framework, failure of which could impact operational efficiency and compliance.

Furthermore, any labour unrest, strikes, or agitations involving our employees may result in production halts, delivery delays, and reputational damage. Such disruptions could lead to increased costs, lowered employee morale, and strained customer relationships. Although we strive to maintain a harmonious work environment and address employee concerns proactively, there is no assurance that such disputes can be prevented or resolved in a timely manner. However, we confirm that there have been no incidents of labour unrest, strikes, or employee agitations affecting our operations during the last three financial years. While this track record reflects positively on our employee relations, it does not preclude the risk of such events occurring in the future.

24. *We have a very limited operating history of our manufacturing operations, which may make it difficult for investors to evaluate our historical performance or future prospects.*

Our Company was originally formed and registered as a Limited Liability Partnership in the name and style of “GSM Foils LLP” on April 05, 2019. Later, “GSM Foils LLP” was converted from a Limited Liability Partnership to a Private Limited Company under Companies Act, 2013 with the name of “GSM Foils Private Limited” and received a fresh certificate of incorporation from the Registrar of Companies, Central Registration Centre on June 27, 2023 and thereafter the Private Limited Company was converted into Public Limited Company “GSM Foils Limited” pursuant to the fresh a certificate of incorporation dated September 04, 2023 issued by Registrar of Companies, Mumbai. Our manufacturing operations started in 2019, thus we have very limited operating history from which one can evaluate our business, future prospects and viability. Our future revenues and profitability are also difficult to estimate and could fluctuate significantly and as a result the price of our equity shares may be volatile.

25. *We are subject to various laws and extensive government regulations and if we fail to obtain, maintain or renew our statutory and regulatory licenses, permits and approvals required in the ordinary course of our business, including environmental, health and safety laws and other regulations, our business financial condition, results of operations and cash flows may be adversely affected.*

We are required to comply with Indian laws, among other things, relating to occupational health and safety (including laws regulating the generation, storage, handling, use and transportation of waste materials, and the health and safety of employees) and mandatory certification requirements for our facilities and products. There can be no assurance that we will be in compliance at all times with such laws, regulations and the terms and conditions of any such consents or permits. If we violate or fail to comply adequately with these requirements, we could be fined or otherwise sanctioned by the relevant regulators. Our business and operations are subject to a number of approvals, licenses, registrations and permissions for construction and operation of our manufacturing facility in addition to extensive government regulations for the protection of the environment and occupational health and safety. We have either made or are in the process of making an application or renewal for obtaining necessary approvals that are not in place or have expired. Further, we may also need to apply for additional approvals including the renewal of approvals which may expire from time to time, in the ordinary course of business. We cannot assure you that these approvals will be granted by the relevant authorities. In the event these approvals are not granted, we will have to make alternate manufacturing arrangements including

increasing production in our other existing manufacturing facility, which may adversely impact our business, financial condition, results of operations, cash flows and prospects.

If we fail to retain, renew or receive any of such approvals, licenses, registrations, permissions or renewals, in a timely manner or at all, our business, financial condition, results of operations, cash flows and prospects may be adversely affected. Further, our government approvals and licenses are subject to certain conditions, some of which are onerous and require us to make substantial compliance-related expenditure. If we fail to comply or a regulator claim that we have not complied with such conditions, our business, prospects, financial condition, results of operations and cash flows may be adversely affected. There can be no assurance that other environmental and safety allegations will not be made against us in the future. The relevant regulator may order closure of our unit where it is found to be non-compliant with the applicable norm. In some instances, such a fine or sanction could adversely affect our business, reputation, financial condition, results of operations or cash flows. In addition, these requirements may become more stringent over time and there can be no assurance that we will not incur significant environmental costs or liabilities in the future. In addition, we may be subject to additional laws, regulations and rules with respect to environment protection, health and safety in the jurisdiction we currently operate. Our inability to control the costs involved in complying with these and other relevant laws and regulations could have an adverse effect on our business, financial condition, results of operations and cash flows.

26. The present promoter of the Company are first generation entrepreneurs.

Our present Promoters are first generation entrepreneurs. Their experience in managing and being instrumental in the growth of our Company is limited to the extent of their knowledge and experience and we cannot be sure that this will not affect our business growth. Although our Promoters have experience of around 6 years in our Company in pharmaceutical packaging industry.

27. Our insurance coverage may not adequately protect us against all material hazards.

We maintain insurance coverage that we believe is adequate for our operations. Our insurance policies, however, may not provide adequate coverage in certain circumstances, and are subject to certain deductibles, exclusions and limits on coverage. We cannot assure you that the terms of our insurance policies will be adequate to cover any damage or loss suffered by us, or that such coverage will continue to be available on reasonable terms, or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. A successful assertion of one or more large claims against us that exceeds our available insurance coverage or changes in our insurance policies, including premium increases or the imposition of a larger deductible or co-insurance requirement, could adversely affect our business, results of operations and financial condition.

28. Our Fiscal 2025 Audited Financial Statements has not yet been placed before our Shareholders in a general meeting.

Pursuant to a resolution dated May 08, 2025, our Board approved the Fiscal 2025 Audited Financial Statements. In terms of Section 134(3) of the Companies Act, 2013, as amended, read with Rule 8 of Companies (Accounts) Rules, 2014, as amended, a board report on the reporting period which shall be placed before our Shareholders in a general meeting. Our Company, in due course will hold its annual general meeting for the year ended March 31, 2025 and place our Fiscal 2025 Audited Financial Statements, before our Shareholders. The link where of such financial statements has been included in this Letter of Offer, shall remain subject to adoption, remarks and observations of our Shareholders, if any.

29. Our ability to pay dividends in the future will depend on our future cash flows, working capital requirements, capital expenditures and financial condition.

Our Company has not paid any dividend since incorporation. The amount of our future dividend payments, if any, will be at the sole discretion of our Board of Directors and will depend on our future earnings, cash flows, financial condition, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that we will pay dividends. We may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Additionally, in the future, we may be restricted by the terms of our financing agreements in making dividend payments unless otherwise agreed with our lenders. Our historical payment of dividends is not

indicative of any payments of dividends in the future. We may be unable to pay dividends in the near or medium term and our future dividend policy will depend on our capital requirements, financial condition and results of operations. Investors should consult their own tax advisors about the consequences of investing in or trading in Equity Shares.

Issue Related Risk

- 30. *You may not receive the Equity Shares that you subscribe in this Issue until two days after the date on which this Issue closes, which will subject you to market risk.***

The Equity Shares that you may be Allotted in this Issue may not be credited to your demat account with the depository participants until approximately two days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. We cannot assure you that the Equity Shares allocated to you will be credited to your demat account, or that trading in such Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

- 31. *Eligible Equity Shareholders holding Equity Shares in physical form will have no voting rights in respect of Equity Shares until they provide details of their demat account and Equity Shares are transferred to such demat account from the demat suspense account thereafter.***

In terms of the SEBI ICDR Regulations, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar no later than two clear Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

- 32. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Rights Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operations or financial condition, or other events affecting the Applicant's decision to invest in the Rights Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of our Equity Shares will not decline below the Issue Price. To the extent the market price for our Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Rights Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

- 33. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue.

Renouncees may not be able to apply in case of failure of completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncees prior to the Issue Closing Date. Further in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

34. *Our Company will not distribute the Letter of Offer and other Issue related materials to overseas shareholders who have not provided an address in India for service of documents.*

We will not distribute the Issue Material to the shareholders who have not provided an address in India for service of documents. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in various overseas jurisdictions. In the case that Eligible Equity Shareholders have provided their valid e-mail address, this Letter of Offer will be sent only to their valid e-mail address and in the case that such Eligible Equity Shareholders have not provided their e-mail address, then this Letter of Offer will be dispatched, on a reasonable effort basis, to the Indian addresses provided by them.

However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdiction. While our Company will request its shareholders to provide an address in India for the purposes of distribution of Issue Materials, our Company cannot assure that the regulator would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject our Company to fines or penalties.

35. *Investors will be subject to market risks until the Equity Shares credited to the investor's demat account are listed and permitted to trade.*

Investors can start trading the Equity Shares allotted to them only after they have been credited to an investor's demat account, are listed and permitted to trade. Since the Equity Shares are currently traded NSE EMERGE, investors will be subject to market risk from the date they pay for the Equity Shares to the date when trading approval is granted for the same. Further, there can be no assurance that the Equity Shares allocated to an investor will be credited to the investor's demat account in a timely manner or that trading in the Equity Shares will commence in a timely manner.

36. *The Rights Equity Shares may experience price and volume fluctuations.*

The market price of the Rights Equity Shares can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian finance and lending sector, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies, and significant developments in India's fiscal regulations. In addition, the stock exchanges may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Rights Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance also affect the price of the Rights Equity Shares. In particular, the stock market as a whole recently experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

37. *No market for the Rights Entitlements may develop and the price of the Rights Entitlements may be volatile.*

No assurance can be given that an active trading market for the Rights Entitlements will develop on the Stock Exchanges during the Renunciation Period or that there will be sufficient liquidity in Rights Entitlements trading during this period. The trading price of the Rights Entitlements will not only depend on supply and demand for the Rights Entitlements, which may be affected by factors unrelated to the trading in the Equity Shares, but also on the quoted price of the Equity Shares, amongst others. Factors affecting the volatility of the price of the Equity Shares, as described herein, may magnify the volatility of the trading price of the Rights Entitlements, and a

decline in the price of the Equity Shares will have an adverse impact on the trading price of the Rights Entitlements. Since the trading of the Rights Equity Shares will be on a separate segment compared to the Equity Shares on the floor of the Stock Exchanges, the trading of Rights Equity Shares may not track the trading of Equity Shares.

38. *Overseas shareholders may not be able to participate in our Company's future rights offerings or certain other equity issues.*

If our Company offers or causes to be offered to holders of its Equity Shares rights to subscribe for additional Equity Shares or any right of any other nature, our Company will have discretion as to the procedure to be followed in making such rights available to overseas holders of the Equity Shares or in disposing of such rights for the benefit of such holders. For instance, our Company may not offer such rights to the holders of Equity Shares who have a registered address in the United States unless: (i) a registration statement is in effect, if a registration statement under the U.S. Securities Act is required in order for the Company to offer such rights to holders and sell the securities represented by such rights; or (ii) the offering and sale of such rights or the underlying securities to such holders are exempt from registration under the provisions of the U.S. Securities Act. Our Company has no obligation to prepare or file any registration statement. Accordingly, shareholders who have a registered address in the United States may be unable to participate in future rights offerings and may experience a dilution in their holdings as a result.

39. *Any future issuance of Equity Shares by our Company or sales of our Equity Shares by any of our Company's significant shareholders may adversely affect the trading price of our Equity Shares.*

Any future issuance of Equity Shares by us could dilute your shareholding. Any such future issuance of our Equity Shares or sales of our Equity Shares by any of our significant shareholders may also adversely affect the trading price of our Equity Shares, and could impact our ability to raise capital through an offering of our securities. We cannot assure you that we will not issue further equity shares or that the shareholders will not dispose of, pledge, or otherwise encumber their equity shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

40. *There are significant differences between Indian GAAP, Ind AS, and other accounting standards such as IFRS and U.S. GAAP, which may affect investors' assessment of our financial position.*

We have not quantified the impact of U.S. GAAP or IFRS on our financial data, nor have we provided a reconciliation of our financial statements to these standards. As U.S. GAAP and IFRS differ significantly from Ind AS and Indian GAAP, the relevance of our financial statements in this document largely depends on the reader's familiarity with Indian accounting practices. Therefore, those not familiar with Indian accounting standards should limit their reliance on the financial information presented.

41. *You may be subject to Indian taxes arising out of capital gains on the sale of the Rights Equity Shares.*

Under the current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Additionally, a securities transaction tax ("**STT**") is levied both at the time of transfer and acquisition of the equity shares (unless exempted under a prescribed notification), and the STT is collected by an Indian stock exchange on which equity shares are sold. Any capital gain realized on the sale of listed equity shares on the stock exchanges held for more than 12 months immediately preceding the date of transfer will be subject to long term capital gains tax in India. Such long-term capital gains exceeding ₹125,000 arising from the sale of listed equity shares on the stock exchange are subject to tax at the rate of 12.50% (plus applicable surcharge and cess). This beneficial provision is, *inter alia*, subject to payment of STT. Further, any capital gains realised on the sale of listed equity shares of an Indian company, held for more than 12 months, which are sold using any platform other than a recognized stock exchange and on which no STT has been paid, will be subject to long-term capital gains tax in India at the rate of 12.50% (plus applicable surcharge and cess).

Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short term capital gains tax in India at the rate of 20.00% (plus applicable surcharge and cess), subject to STT being paid at the time of sale of such shares. Otherwise, such gains will be taxed at the applicable rates. Capital gains arising from the sale of the Rights Equity Shares will not be chargeable to tax in India in cases where relief from such taxation in India is provided under a

treaty between India and the country of which the seller is resident and the seller is entitled to avail benefits thereunder, subject to certain conditions.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Rights Equity Shares. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning, investing or trading in the Rights Equity Shares.

42. Our Equity Shares are quoted in Indian rupees in India and investors may be subject to potential losses arising out of exchange rate risk on the Indian rupee and risks associated with the conversion of Indian rupee proceeds into foreign currency.

Investors are subject to currency fluctuation risk and convertibility risk since our Equity Shares are quoted in Indian rupees on the Indian stock exchanges on which they are listed. Dividends on the Equity Shares will also be paid in Indian Rupees. In addition, foreign investors that seek to sell Equity Shares will have to obtain approval from the RBI, unless the sale is made on a stock exchange or in connection with an offer made under regulations regarding takeovers. The volatility of the Indian rupee against the US dollar and other currencies may subject investors who convert funds into Indian rupees to purchase our Equity Shares to currency fluctuation risks.

43. Rights of shareholders under Indian law may differ or may be more limited than under the laws of other jurisdictions.

The Companies Act and rules made thereunder, the rules and regulations issued by SEBI and other regulatory authorities, the Memorandum of Association, and the Articles of Association govern the corporate affairs of our Company. Indian legal principles relating to these matters and the validity of corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. In accordance with the provisions of the Companies Act the voting rights of an equity shareholder in a company shall be in proportion to the share of a person in the paid-up equity share capital of that company. Further, Section 106(1) of the Companies Act read with the Articles of Association specifically provides that no member shall exercise any voting right in respect of any shares registered in his name on which any calls or other sums presently payable by him have not been paid.

44. Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by the company. However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

Justification for increase in working capital requirement

Particulars	Justification
Inventory	<p>Inventory held by our Company comprises both raw materials and finished goods. In Fiscal 2024, our Company reported inventory days of approximately 87 days, which decreased significantly to around 47 days in Fiscal 2025. The elevated inventory levels in FY 2024 were primarily driven by our Company's strategic decision to stock aluminium worth approximately ₹600.00 lakhs at the end of March 2024, in anticipation of a price increase. This move was intended to capitalize on potential profit opportunities arising from the expected rise in aluminium prices.</p> <p>Looking ahead to Fiscal 2026, our Company expects to maintain inventory levels in the range of 45–50 days. This is mainly due to the recent trend of monthly price revisions in aluminium, our Company's key raw material, which typically fluctuate on the 1st of every month. To mitigate price volatility and ensure uninterrupted production, our Company plans to maintain raw material inventory sufficient to cover minimum stock requirements and lead times for delivery.</p> <p>Given that both existing and newly introduced product require a conversion cycle of just one day, the finished goods inventory is maintained at an average of 5 days, supporting a lean and efficient production and delivery system by keeping average inventory days at 45-50 days.</p>
Trade Receivable Days	<p>Our Company has demonstrated consistent improvement in the management of its trade receivables. In Fiscal 2024, the average receivable period stood at 63 days, which reduced to 56 days in Fiscal 2025. Our Company estimates maintaining this level in Fiscal 2026, with receivable days expected to remain within the range of 50–60 days.</p> <p>This improvement is largely attributed to our Company's sustained relationships with existing customers, allowing it to offer a favourable credit period while managing cash flows efficiently. Given the increasing competition and the entry of new players in the market, our Company has strategically balanced its credit terms to retain and support key customers.</p> <p>As our Company introduces new product into its portfolio, it anticipates the need to extend competitive credit terms to customers and dealers in order to support market acceptance and penetration. Accordingly, our Company plans to maintain trade receivable days in the</p>

	range of 50–60 days going forward, ensuring both customer satisfaction and working capital stability.
Trade Payable Days	<p>Our Company primarily procures raw materials by making advance payments or under short credit terms, with a maximum credit period of 15 days. In Fiscal 2024, trade payable days stood at 25 days, which reduced to 16 days in Fiscal 2025. Our Company expects to maintain trade payable days at around 15 days in Fiscal 2026, while continuing to negotiate better rates and benefiting from cash/trade discounts offered by suppliers.</p> <p>The combination of shorter credit periods and increased procurement volumes is expected to strengthen our relationships with suppliers, allowing us to secure more favorable pricing. This, in turn, will enhance our ability to offer competitive pricing to our customers.</p> <p>As our Company expands operations, raw material purchases are projected to increase, leading to a moderate rise in trade payables in absolute terms.</p>
Short Term Loans & Advances	Short-term loans and advances primarily comprise prepaid expenses, balances with revenue authorities, and other operational receivables. These balances are expected to increase proportionately with the growth in our Company's scale of operations and the corresponding increase in revenue. As business activity expands, associated operational expenses and statutory balances are also likely to rise in line with the overall growth trajectory.
Other Current Assets	Other current assets primarily consist of advances paid to suppliers for raw materials. These are expected to increase in line with our Company's operational scale and the anticipated growth in revenue. As production volumes rise, the need for securing timely raw material supply will lead to a corresponding increase in supplier advances, ensuring continuity and efficiency in the procurement cycle.
Other Current Liabilities	Other current liabilities primarily comprise advances received from customers and expenses payable. These liabilities are expected to increase proportionately with the growth in our Company's operations and revenue.
Short Term Provisions	Short-term provisions primarily consist of provisions for income tax, outstanding GST liabilities, and statutory dues such as ESIC and PF payables. These provisions are expected to increase in line with our Company's operational scale, driven by the growth in revenue and profitability (PAT).

It is noteworthy that despite an increase in overall working capital requirements, our Company has demonstrated a consistent decline in average inventory days, trade receivables, and trade payables, reflecting an overall improvement in working capital efficiency.

The working capital cycle has reduced significantly from 125 days in Fiscal 2024 to 87 days in Fiscal 2025, and is further expected to improve to 80–85 days in the coming fiscal year. This positive trend highlights our Company's ability to manage its funds efficiently, with optimal allocation across key components of working capital.

The improved working capital churn ratio indicates the effective utilization of available funds, enabling our Company to support higher levels of operation without proportionately increasing the working capital burden. This efficiency reinforces our Company's strong operational discipline and financial management practices.

SECTION XVI: RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, of the Government of India and FEMA. While the Industrial Policy, 1991, of the Government of India, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. The Union Cabinet, as provided in the Cabinet Press Release dated May 24, 2017, has given its approval for phasing out the Foreign Investment Promotion Board (“**FIPB**”). Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“**FDI**”) and approval from the Government of India will now be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), Ministry of Finance, Department of Economic Affairs, **FIPB** section, through a memorandum dated June 5, 2017, has notified the specific ministries handling relevant sectors.

The Government has, from time to time, made policy pronouncements on FDI through press notes and press releases. The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Policy**”) by way of circular bearing number DPIIT file number 5(2)/2020-FDI Policy dated October 15, 2020, which with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict between FEMA and such policy pronouncements, FEMA prevails.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company fall under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the existing policy of the Government of India, erstwhile OCBs cannot participate in this Issue. OCBs or Overseas Corporate Bodies have been de-recognized as a class of investor entity in India with effect from September 16, 2003.

Overseas Corporate Body means a company, partnership firm, society and other corporate body owned directly or indirectly to the extent of at least sixty per cent by Non- Resident Indians and includes overseas trust in which not less than sixty percent beneficial interest is held by Non-resident Indians directly or indirectly but irrevocably, which was in existence as on September 16, 2003 and was eligible to undertake transactions pursuant to the general permission granted under FEMA. Any investment made in India by such entities will be treated as investments by incorporated non-resident entities, i.e. a foreign company. The Rights Equity Shares purchased by non- residents shall be subject to the same conditions including restrictions in regard to the repatriation as are applicable to the original Equity Shares against which Rights Equity Shares are issued on rights basis.

No investment under the FDI route (i.e., any investment which would result in the investor holding 10% or more of the fully diluted paid-up equity share capital of the Company or any FDI investment for which an approval from the government was taken in the past) will be allowed in this Issue unless such application is accompanied with necessary approval or covered under a preexisting approval from the government. It will be the sole responsibility of the investors to ensure that the necessary approval or the pre-existing approval from the government is valid to make any investment in this Issue.

The above information is given for the benefit of the Applicants / Investors. Our Company is not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Letter of Offer. Investors are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
