RISK TO INVESTORS

For details, refer to section titled “Risk Factors” on page 28 of the RHP.

1. **Significant dependence on export sales, particularly the United States:** Our Revenue from outside India aggregated to ₹1,212.44 million, ₹1,166.83 million and ₹1,044.75 million in Fiscals 2026, 2025 and 2024, respectively, representing 95.39%, 96.27% and 94.56% of our revenue from Sale of Products for the respective periods. Accordingly, any adverse developments affecting our export markets, particularly the United States, including recessionary conditions, tariff revisions, changes in trade policy, trade remedy actions, foreign exchange fluctuations or delays in collection of export receivables, could materially and adversely affect our business, financial condition, results of operations, cash flows and prospects.

(₹ in million, except percentages)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts
Revenue from Outside India	1,212.44	95.39%	1,166.83	96.27%	1,044.75	94.56%
Revenue from India	58.65	4.61%	45.26	3.73%	60.07	5.44%
Total	1,271.09	100.00%	1,212.09	100.00%	1,104.82	100.00%

Our export sales are also significantly concentrated in the United States. Revenue from the United States amounted to ₹651.78 million, ₹778.00 million and ₹751.47 million in Fiscals 2026, 2025 and 2024, respectively, representing 53.76%, 66.68% and 71.93% of our export sales, respectively.

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Revenue from the United States (₹ million)	651.78	778.00	751.47
% of Export Sales	53.76%	66.68%	71.93%

Further, propeller shafts and driveline components exported to the United States are subject to additional tariffs under the U.S. tariff framework. Accordingly, the continuation or escalation of such tariffs, or other adverse changes in international trade policy, could adversely affect the competitiveness of our products in the United States.

Further, our foreign currency exposure remained substantially unhedged during Fiscals 2026, 2025 and 2024. Our net foreign exchange gain/(loss) was ₹5.04 million, ₹(38.15 million) and ₹(53.78 million) in Fiscals 2026, 2025 and 2024, respectively. Any significant fluctuation in foreign exchange rates may adversely affect our revenue realisations, profitability, cash flows, working capital requirements and financial position.

...continued from previous page.

2. Significant customer concentration: Our revenue from Sale of Products is significantly concentrated among a limited number of customers. Our top 1, top 5 and top 10 customers contributed 20.92%, 48.91% and 60.86%, respectively, of our revenue from Sale of Products in Fiscal 2026. The contribution of our top customers for the periods indicated is set out below:

(₹ in million unless stated otherwise)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts
Top 1 customer	265.96	20.92	311.24	25.68	133.91	12.12
Top 5 customers	621.65	48.91	622.80	51.38	522.89	47.33
Top 10 customers	773.60	60.86	798.84	65.91	758.00	68.61

Further, revenue from repeat customers aggregated to ₹1,147.23 million, ₹1,077.14 million and ₹1,014.77 million in Fiscals 2026, 2025 and 2024, respectively, representing 90.26%, 88.87% and 91.85% of our revenue from Sale of Products for the respective periods. Our sales are order-based and we do not have long-term supply commitments with our customers. Any reduction, delay, modification or termination of orders by one or more of our key customers, or our inability to maintain existing customer relationships or diversify our customer base, could materially and adversely affect our business, financial condition, results of operations, cash flows and prospects.

3. Manufacturing operations concentrated in Madhya Pradesh: Our manufacturing operations are concentrated at three facilities located in Madhya Pradesh, India. Any disruption, slowdown or shutdown at any of such facilities may materially and adversely affect our business, financial condition, results of operations, cash flows and prospects. Our manufacturing operations are vertically integrated, with different stages of production undertaken across these facilities. Our facilities may be affected by events such as natural disasters, fire, accidents, labour unrest, power shortages, transportation bottlenecks, equipment failures, interruption in supply of raw materials or disruptions in regional infrastructure. Further, the procurement, installation and commissioning of specialised manufacturing equipment involves significant capital investment and long lead times. Any significant damage to or replacement of critical manufacturing equipment may therefore result in prolonged production downtime, increased capital expenditure and delays in servicing customer orders.

4. Dependence on our Subsidiary, Adroit Driveshafts Private Limited: Our downstream operational activities are undertaken through our Subsidiary, Adroit Driveshafts Private Limited (“ADPL”), and a significant portion of our consolidated manufacturing operations, operational revenues and cash flows are dependent on the business operations and financial performance of ADPL. Our Pithampur Facility, which represents the downstream stage of our vertically integrated manufacturing operations and undertakes machining, assembly, balancing, inspection and testing activities relating to propeller shafts and driveline assemblies, is operated through ADPL. Forged components manufactured at our Dewas Facility are substantially utilised for downstream operations undertaken at the Pithampur Facility.

The operational and financial interdependence between our Company and ADPL is set out below:

(₹ in million, except percentages)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Sale of goods by our Company to ADPL	368.83	404.71	517.19
As a % of consolidated revenue from operations	26.36%	30.23%	41.53%

Further, our financial exposure to ADPL as of March 31, 2026 was as follows:

Particulars	As of March 31, 2026 (₹ million)
Outstanding loans given by our Company to ADPL	143.87
Corporate guarantees provided on behalf of ADPL	669.90

Any adverse development affecting the business, operations, profitability, liquidity, statutory approvals, manufacturing capabilities or financial condition of ADPL may adversely affect our consolidated manufacturing operations, production schedules, customer servicing capabilities, liquidity, cash flows and results of operations. Further, any restriction on ADPL's ability to distribute funds or make payments to us could adversely affect our financial flexibility and funding requirements.

5. Exposure to foreign currency exchange rate fluctuations and absence of a hedging policy: Our business is significantly exposed to foreign currency exchange rate fluctuations. Revenue from outside India represented 95.39%, 96.27% and 94.56% of our revenue from Sale of Products in Fiscals 2026, 2025 and 2024, respectively, and our Company does not have a hedging policy in place. Our revenue from India and outside India for the periods indicated is set out below:

(₹ in million, except percentages)

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts	Amount	% of Revenue from Sale of Prod-ucts
Revenue from Outside India	1,212.44	95.39%	1,166.83	96.27%	1,044.75	94.56%
Revenue from India	58.65	4.61%	45.26	3.73%	60.07	5.44%
Total	1,271.09	100.00%	1,212.09	100.00%	1,104.82	100.00%

A substantial portion of our revenue is denominated in foreign currencies, particularly in relation to export receivables and other foreign currency-denominated monetary items. Accordingly, appreciation or depreciation of the Indian Rupee against the U.S. Dollar and other foreign currencies may affect the value of our revenues, receivables and foreign currency-denominated liabilities and may result in foreign exchange gains or losses. Further, as on date, our Company does not have a hedging policy in place. Accordingly, any significant volatility in foreign currency exchange rates, particularly in the absence of hedging arrangements, may adversely affect our revenue realisations, profitability, cash flows and financial condition.

6. Past delays in statutory filings and regulatory non-compliances: There have been multiple instances of delays in statutory filings and non-compliances with corporate and regulatory reporting obligations in the past, including delays extending up to 3,771 days. Certain charge-related filing defaults are not compoundable and/or cannot be regularised by payment of additional fees. These matters may expose us to regulatory actions, penalties and reputational risk. Further, our Company has filed suo motu applications with the Registrar of Companies, Mumbai II for adjudication of penalties in relation to, among other matters, delay in appointment of a whole-time Company Secretary, certain historical buy-backs undertaken with an interval shorter than that prescribed under applicable law and non-preparation of consolidated financial statements for Fiscal 2023 in respect of Adroit Driveshafts Canada Limited. Such applications were pending as of the date. Our Company has also filed an application dated August 17, 2026 with the Reserve Bank of India for compounding in relation to procedural lapses associated with its investment in Adroit Driveshafts Canada Limited. Further, discrepancies were identified in certain Foreign Liabilities and Assets returns for Fiscals 2023, 2024 and 2025, for which revised returns have been submitted.

Although no action, penalty, proceeding or adverse direction had been initiated or imposed in relation to such matters as of the date, there can be no assurance that regulatory authorities will not initiate proceedings or impose penalties in the future, which may adversely affect our business, financial condition, results of operations, cash flows and reputation.

7. Negative cash flows from investing and financing activities: Our Company and our Subsidiary, Adroit Driveshafts Private Limited (“ADPL”), have experienced negative cash flows from certain activities in the past, on a consolidated as well as standalone basis, and may continue to do so in the future. The negative cash flows from investing and financing activities for the periods indicated are set out below:

(₹ in million)

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Adroit Industries (India) Limited – Consolidated			
Investing activities	(120.89)	32.12	(4.57)

Investing activities	(45.36)	54.28	(14.96)
Financing activities	(233.22)	(120.69)	(62.74)

Negative cash flows from investing activities were primarily attributable to capital expenditure and the extension of inter-corporate loans/capital advances, while negative cash flows from financing activities were primarily attributable to repayment of borrowings and payment of finance costs. Any continued or significant negative cash flows may adversely affect our liquidity, working capital requirements, ability to service debt or fund growth initiatives and may require us to rely on external sources of funding.

8. Investments and inter-corporate loans and advances: We have made investments and extended inter-corporate loans and advances to certain entities. Any delay in recovery, default, impairment or diminution in value of such exposures may adversely affect our liquidity, cash flows, working capital and financial condition. Our exposure as at March 31, 2026 is set out below:

(₹ in million)

Particulars	As at March 31, 2026
Non-current investments	214.93
Inter-corporate loans and advances	100.63
Total exposure	315.56

The recoverability of such loans and advances and the value of such investments depend on the financial condition, liquidity and repayment capacity of the relevant counterparties. Any delay in repayment, default, impairment or diminution in value may require us to recognise provisions, impairment losses or write-offs and may adversely affect our liquidity and financial condition.

9. Exposure to interest rate fluctuations: We are subject to risks arising from interest rate fluctuations. As of July 31, 2026, our outstanding borrowings aggregated to ₹689.76 million, of which ₹632.13 million was from banks and financial institutions and was subject to variable interest rates. Any increase in interest rates may increase our finance costs and adversely affect our profitability, cash flows and financial condition. Our outstanding borrowings as of July 31, 2026 are set out below:

(₹ in million)

Particulars	Amount
Borrowings from banks and financial institutions	632.13
Unsecured borrowings	57.63
Total outstanding borrowings	689.76
Borrowings subject to variable interest rates	632.13

...continued from previous page.

The interest expense for the periods indicated is set out below:

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount	% of Total Expenses	Amount	% of Total Expenses	Amount	% of Total Expenses
Interest on term loans	10.80	0.98%	18.84	1.66%	27.85	2.60%
Interest on working capital	32.50	2.95%	34.20	3.00%	27.97	2.61%

Certain of our borrowings carry floating interest rates linked to applicable benchmark rates, together with agreed spreads. Accordingly, changes in prevailing interest rates may increase our debt servicing costs. There can be no assurance that we will be able to refinance our borrowings or obtain alternative financing on commercially acceptable terms.

10. Outstanding legal proceedings involving Company, Subsidiaries and Promoters: There are outstanding legal proceedings involving our Company, our Subsidiary and our Promoters. The Price Band and the *Offer Price* will be determined by our Company, in consultation with the Book Running Lead Manager, on the basis of assessment of market demand for the Equity Share of face value ₹10 offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹10 each and the *Offer Price* is [•] times, and Floor Price is 12.6 times the face value and the Cap Price is 13.4 times the face value. Investors should also see “*Risk Factors*”, “*Summary of Restated Consolidated Financial Information*”, “*Our Business*”, “*Restated Consolidated Financial Information*”, and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 28, 110, 300, 395, and 453 of the RHP, respectively, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors and our strengths which form the basis for computing the *Offer Price* are as follows:

- **Offering over 5,000 SKUs of torque-transmission components and assemblies forming part of driveline systems:** As on July 31, 2026 we offer over 5,000 SKUs of torque-transmission components and assemblies that form part of driveline systems. The product range addresses customer requirements across automotive and non-automotive applications.
- **Vertically integrated manufacturing operations with end-to-end control across forging, machining and assembly operations:** Our manufacturing operations are supported by a vertically integrated production framework that enables us to undertake key stages of the manufacturing process in-house. As of March 31, 2026, we operate three manufacturing facilities located in Madhya Pradesh, India comprising (i) the Dewas Facility, (ii) the Pithampur Facility, and (iii) the Sanwer Facility. These facilities collectively support our upstream forging operations and downstream machining, assembly and finishing operations required for the manufacture of propeller shafts and related torque-transmission components.
- Our Dewas Facility, spread over approximately 15,095.50 sq. m., undertakes die making and forging operations and houses forging hammers, presses, billet heating equipment, heat treatment systems and metallurgical testing infrastructure.
- The Pithampur Facility spans approximately 27,535 sq. m. and is equipped with CNC lathes, horizontal machining centres, spline cutting machines, broaching and hobbing machines, cylindrical grinding machines, induction hardening equipment and assembly lines used in the manufacture of propeller shafts and related torque-transmission components.
- Our Sanwer Facility, spans approximately 8,918.69 sq. m. Historically, Sanwer Facility has been used for machining and assembly operations relating to driveline products and has supported our downstream manufacturing activities.

5. Justification for Basis of Offer price	
(i) The following provides an explanation to the Cap Price being 4.71 times of weighted average cost of acquisition of equity shares that were acquired or sold by the Promoters/ Promoter Selling Shareholder, members of the Promoter Group, or other shareholders with rights to nominate directors by way of secondary transactions in the last three full Financial Years preceding the date of the Red Herring Prospectus compared to our Company's KPIs, financial ratios for Financial Years 2026, 2025 and 2024 in view of external factors, if any:	
i. We offer over 5,000 SKUs of torque-transmission components and assemblies that form part of driveline systems. The product range addresses customer requirements across automotive and non-automotive applications. We have expanded our product portfolio in response to customer requirements. The expansion has been supported by our integrated manufacturing capabilities, which include forging, machining, heat treatment, assembly and balancing operations. These capabilities facilitate the production of driveline components and the development of SKUs for customer applications and platforms.	
ii. Our manufacturing operations are supported by a vertically integrated production framework that enables us to undertake key stages of the manufacturing process in-house. We operate three manufacturing facilities located in Madhya Pradesh, India comprising: (i) the Dewas Facility; (ii) the Pithampur Facility; and (iii) the Sanwer Facility. These facilities collectively support our upstream forging operations and downstream machining, assembly and finishing operations required for the manufacture of propeller shafts and related torque-transmission components.	
iii. Our ability to serve a diversified customer base comprising distributors, Tier-1 driveline component suppliers and OEMs, together with our presence across both automotive and non-automotive end-use sectors, reduces dependence on any single customer category or industry segment. The strength and continuity of our customer relationships is reflected in the proportion of repeat business generated by our Company. For the Fiscal 2026, revenue from repeat customers accounted for 90.26% of our revenue from operations.	
iv. A significant portion of our revenue from operations is derived from export sales, reflecting our presence in international markets for propeller shafts and related torque-transmission components. We supply our products to customers located outside India primarily through distributors, Tier-1 driveline component suppliers and also directly to OEM customers across multiple geographies. To support and strengthen our export operations we have incorporated a subsidiary in Canada for customer engagement, coordination and after-sales support for customers located in Canada and other North American markets. We believe that our ability to supply products in accordance with customer-specific technical specifications and delivery schedules across multiple geographies supports continued engagement with international customers.	
v. We have demonstrated consistent growth in our revenue from operations across the periods presented. Our revenue from operations increased from ₹1,245.28 million in Fiscal 2024 to ₹1,338.94 million in Fiscal 2025 and ₹1,399.43 million in Fiscal 2026, reflecting an expansion in our scale of operations. Our operating performance has improved over the same period. Our EBITDA increased from ₹296.85 million in Fiscal 2024 to ₹310.19 million in Fiscal 2025 and ₹387.10 million in Fiscal 2026. Our profit after tax (PAT) has also increased from ₹145.27 million in Fiscal 2024 to ₹181.44 million in Fiscal 2025 and ₹261.58 million in Fiscal 2026, with PAT margins improving from 11.67% in Fiscal 2024 to 13.55% in Fiscal 2025 and 18.69% in Fiscal 2026 indicating continued improvement in profitability.	
The Offer Price of ₹11 has been determined by our Company, in consultation with the Book Running Lead Manager, on the basis of the demand from investors for the Equity Shares through the Book Building process. Our company, in consultation with the BRLM, is justified of the Offer Price in view of the above qualitative and quantitative parameters. Investors should read the abovementioned information along with “Risk Factors”, “Our Business” and “Restated Consolidated Financial Information” beginning on pages 28, 300 and 395 of the RHP, respectively, to have a more informed view.	
The Trading price of the Equity Shares could decline due to the factors mentioned in the section titled “Risk Factors” beginning on page 28 of the RHP or any other factors that may arise in the future and you may lose all or part of your investments.
