RISK TO INVESTORS

1. Risk to Investors: Summary description of key risk factors based on materiality.

I. Our company’s revenue is largely driven by the performance of the EPC sector, which presents a range of potential risks. Any downturns or disruptions within this sector could significantly impact our overall business performance and financial stability.

II. Delays in the completion of construction of current and future projects could lead to termination of EPC contracts or cost overruns or claims for damages, which could have an adverse effect on our cash flows, business, results of operations and financial condition.

III. Our Objects to issue – “Investment in Equity of our wholly owned subsidiary, Current Infra Dhanbad Solar Private Limited for setting up 1800 KW solar plant under RESCO Model at Indian Institute of Technology (Indian School of Mines) IIT(ISM), Dhanbad, Jharkhand” (“Proposed Project”) is subject to the risk of unanticipated delays in implementation, cost overruns and certain Government approvals and licenses. If we are unable to implement the expansion plans at the planned cost or time or unable to obtain Government approvals and licenses, it could materially and adversely impact our business, results of operations and financial condition.

IV. Our financial performance is dependent on our successful bidding for new projects and the non- cancellation of projects awarded to us. If we are not able to successfully bid for new projects, it will adversely affect our business operations and financial conditions.

V. We cannot assure that the completion of our projects will be free from any or all defects, which may adversely affect our business, financial condition, results of operations and prospects.

VI. We are dependent on and derive our 81.82%, 92.52% and 92.93% of revenue from our top 10 key customers for the fiscal year ended on March 31, 2025, 2024 and 2023 respectively. A decrease in the revenues we derive from them could materially and adversely affect our business, results of operations, cash flows and financial condition.

VII. Our business is concentrated in three states of India namely Rajasthan, Kerala and Uttar Pradesh. 81.22%, 67.94% and 54.96% of our total revenue from operations for the fiscal year ended on March 31, 2025, 2024 and 2023 is derived from these three states of India. Any adverse impact in this region may adversely affect our business, results of operations and financial condition.

VIII. We are dependent upon a limited number of suppliers. Our 40.36%, 40.76% and 36.75% of our total purchases are derived from our top 10 suppliers for the Fiscal Years ended on March 31, 2025, 2024 and 2023. Any failure of our suppliers to deliver products in the necessary quantities or to adhere to delivery schedules, credit terms or specified quality standards and technical specifications may adversely affect our business and our ability to deliver orders on time at the desired level of quality.

IX. Our business is subject to seasonal fluctuations that could result in delays or disruptions to our operations during the critical periods of our projects and cause severe damages to our premises and equipment’s.

X. We have certain significant tax proceedings pending against our Company which can have an adverse effect on our financial condition.
