Risk to Investors

For details, refer to section titled "*Risk Factors*" on page 20 of the RHP.

1. Dependence of our Total Income on the Variable Additional Return:

Our Variable Additional Return constitutes 32.41%, 27.54%, 30.14%, 24.25% and 16.19% of our Total Income for the three months period ended June 30, 2026, June 30, 2025 and Financial Years 2026, 2025 and 2024, respectively. Further, the realized Variable Additional Return may be different from our Variable Additional Return recognized on a year-on-year basis and the timing and receipt of Variable Additional Return are unpredictable and contribute to volatility in our cash flows.

2. Dependence of our Total Income on the Management and Advisory Fees:

A significant portion of Total Income comes from our Management and Advisory Fees. There is a risk that it may fluctuate depending on the performance of our funds, changes in fee structure, competition and market conditions which may consequently affect our Total Income.

3. Historical growth rates may not be indicative of the future growth:

Our business growth depends on, among other things, our ability to retain client trust, our ability to deal with changing market conditions, such as developing new investment products, maintaining and extending our distribution capabilities, and complying with new regulations. Any failure in managing our growth could affect our AUM and/or FPAUM, or damage our brand or reputation, which could result in a reversal of any growth that is achieved.

4. Risk related to valuation methodologies

Most of the investments of our funds are illiquid and thus may have no readily

ascertainable market prices. We value these investments based on our estimate, or an independent third party's estimate, of their fair value as of the date of determination, which often involves significant subjectivity.

5. Lack of directly comparable Indian listed peers

The absence of directly comparable Indian listed peers may present challenges in terms of how investors perceive and value our Company. The lack of comparable companies in the domestic market can create uncertainty and variability in the assessment of our financial performance, growth prospects, and overall business value.

6. Risk related to the capital commitment

Our funds are dependent on our clients honoring their capital calls for disbursements to enable our funds to make investments and cover fund expenses. However, these capital calls may not be honored due to several factors, which in turn can adversely affect the operations and performance of our funds. Any failure to timely secure capital commitment in future, if arisen, may compel us to divest assets under suboptimal conditions, adversely impacting investment returns and fund performance.

7. Risk related to the regulatory and statutory restrictions

Our Group Companies and Promoters are subject to purview of various authorities such as SEBI, RBI and tax authorities which may result in financial penalties, additional compliances and regulatory restrictions.

...continued from previous page.

8. Risk related to the negative cash flows
