RISK TO INVESTORS

1. **Loss incurred in the past:** Our profit/(loss) from continuing operations for the six months ended September 30, 2023 and September 2022 and the Financial Year ended March 31, 2023, March 31, 2022 and March 31, 2021 was ₹ 274.63 million, ₹ (67.75) million, ₹ 310.31 million, ₹ 303.95 million and ₹ 126.76 million, respectively. We have recorded operating losses of ₹ 107.91 million from continuing and discontinued operations for the Financial Year ended March 31, 2021.

2. **Negative cash flow in the past:** We have sustained negative cash flow used in operating activities for the six months ended September 30, 2022 and the Financial Year 2021 primarily due to losses, investments in growth development activities, higher debt and longer cashflow cycles.

3. **Industry growth risk:** The revenue from operations from the EV Charger Business has increased from ₹ 441.20 million, representing 8.60% of our revenue from operations, in the Financial Year ended March 31, 2021 to ₹ 2,242.09 million, representing 31.67% of our revenue from operations, in the Financial Year ended March 31, 2023.

Accordingly, our ability to remain profitable in the future depends on the growth of the EV industry in India, which is at a nascent stage and is characterized by rapidly changing technologies, changing consumer preferences and behaviors, and governmental initiatives related to climate change and the environment generally (Source: CRISIL Report).

4. **Customer concentration risk under Critical Power Business:** Our five largest customers by revenue under our Critical Power Business contributed 57.10%, 39.80%, 51.02%, 81.77% and 72.60% of our total revenue from operations for the six months ended September 30, 2023 and September 30, 2022 and Financial Years 2023, 2022 and 2021, respectively, The loss of one or more such customers could adversely affect our business and operations.

5. **Import of raw material risk:** We are dependent on global suppliers for our key raw materials such as Li-ion cells and battery packs, semi-conductors, rectifier modules etc. from suppliers in China, Singapore, Hong Kong, South Korea among others. The percentage of total purchases from global suppliers as a percentage of total cost of material was 66.80%, 56.66%, 65.67%, 84.09% and 66.68% during the six months ended September 30, 2023 and September 30, 2022 and Financial Years 2023, 2022 and 2021, respectively. Further, China accounted for 60.80%, 40.03%, 52.57%, 73.41% and 59.46% of the total cost of material during the six

months ended September 30, 2023 and September 30, 2022 and Financial Years 2023, 2022 and 2021, respectively.

6. **Customer sector concentration risk:** Our five largest customers by revenue belong to the Indian telecommunications sector, being telecommunication companies and tower companies, which contributed 46.31%, 55.84%, 51.49%, 80.90% and 77.33% of our total revenue from operations for the six months ended September 30, 2023 and September 30, 2022 and Financial Years 2023, 2022 and 2021, respectively.

7. **Dependence on third party suppliers:** We are dependent on third party suppliers for our raw materials, such as Li-ion cells, printed circuit boards, cable assemblies, electronic components, switchgear components, plastic enclosures, mechanical components and bus bars. The cost of material consumed as a percentage of our total expenses was 77.08%, 64.60%, 74.94%, 80.56% and 75.79% during the six months ended September 30, 2023 and September 30, 2022 and Financial Years 2023, 2022 and 2021, respectively.

8. **R&D related risk:** Our operations are dependent on our continued research and development initiatives, and our inability to identify and understand, or keep up with evolving industry trends, technological advancements, customer preferences and develop new products to meet our customers' demands may adversely affect our business.

9. **Disruption of manufacturing facilities risk:** We operate three manufacturing facilities in India, comprising our Solan Facility situated at Solan, Himachal Pradesh, and Gurugram Facility I and Gurugram Facility II situated at Gurugram, Haryana. The disruption, shutdown or breakdown of operations at our manufacturing facilities may have a material adverse effect on our business, financial condition and results of operations.

10. **Utilisation of Net Proceeds risk:** We intend to utilize a portion of the Net Proceeds towards part-financing the cost of setting up production/assembly lines at our planned manufacturing facility. While we have procured quotations from vendors in relation to the capital expenditure to be incurred towards the said production/assembly lines, orders constituting 72.97% of the total estimated cost are yet to be placed.

11. The average cost of acquisition of Equity Shares held by the Promoter Selling Shareholder is ₹ 31.43 and the Offer Price at the upper end of the Price Band is ₹142.

BASIS FOR OFFER PRICE

The Price Band will be determined in compliance with the SEBI ICDR Regulations. The Offer Price will be determined in compliance with the SEBI ICDR Regulations, on the basis of assessment of market demand for the Equity Shares offered in the Offer through the Book Building Process and on the basis of the qualitative and quantitative factors as described below. The face value of the Equity Shares is ₹ 10 each and the Offer Price is 13.5 times the face value at the lower end of the Price Band and 14.2 times the face value at the higher end of the Price Band.

Investors should also refer to the sections **“Risk Factors”**, **“Our Business”**, **“Financial Information”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”** beginning on pages 32, 208, 286 and 362 respectively of the RHP, to have an informed view before making an investment decision.

Qualitative factors

Some of the qualitative factors and our strengths which form the basis for computing the Offer Price are:

- established player in the Indian EV Charger market, with an early-mover-and-learner advantage in a fast-growing industry characterized by high entry barriers;
- domain experience and know-how and diversified product portfolio with a track record of demonstrated outcomes in critical cases;
- vertically integrated operations, backed by manufacturing capabilities, robust supply chain, significant research and development activities and sales and marketing initiatives;
- significant product development and focussed engineering capabilities;
- track record of long-standing relationships with an established customer base; and
- experienced and qualified leadership and management team.

8. Key performance indicators (“KPIs”)

The table below sets forth the details of our KPIs that our Company considers having a bearing for arriving at the basis for Offer Price. These KPIs have been used historically by us to understand and analyze the business performance, which in result, help us in analysing our performance in comparison to our peers. The Bidders can refer to the below-mentioned KPIs, being a combination of financial indicators and operational key performance indicators, to assess our performance over the six months ended September 30, 2023 and September 30, 2022 and the last three Financial Years and make an informed decision. All the KPIs disclosed below have been approved by a resolution of our Audit Committee dated February 20, 2024 and have been certified by the Statutory Auditors, Khandelwal Jain & Co., Chartered Accountants, pursuant to certificate dated February 20, 2024. This certificate on KPIs shall form part of the material contracts for inspection and shall be accessible on the website of our Company at <https://www.exicom.in/investors.html>. Further, pursuant to its resolution dated February 20, 2024, the Audit Committee noted that no investment has been undertaken in the Company at any point during the preceding three years and accordingly, no other KPIs pertaining to the Company, other than as disclosed below, have been disclosed to earlier investors of the Company for raising funds at any point of time during the three immediately preceding years.

The above KPIs of our Company have also been disclosed, along with other key financial and operating metrics, in **“Risk Factors”**, **“Our Business”**, **“Other Financial Information”** and **“Management’s Discussion and Analysis of Financial Condition and Results of Operations”**, beginning on pages 32, 208, 286 and 362, respectively, of the RHP. Further, definitions of such KPIs have been compiled and presented in **“Definitions and Abbreviations – Industry Related Terms”** on pages 10 to 11 of the RHP.

Our Company shall continue to disclose the KPIs included in this section on a periodic basis, at least once in a year (or for any lesser period as determined by the Board of our Company), for a duration of one year after the date of listing of the Equity Shares, on the Stock Exchanges or for such other duration as may be required under the SEBI ICDR Regulations.

Explanation for the KPIs

The following table provides a brief explanation of the rationale for our KPIs that have a bearing on arriving at the basis for Offer Price and the relevance of such KPIs to our business operations are set forth below:

KPI	Explanations
Revenue from operations	Revenue from Operations is used by the management to track the revenue profile of the business and in turn helps assess the overall financial performance of the Company and size of the business.
Growth in revenue from operations (%)	Growth in Revenue from Operations provides information regarding the growth of the business for the respective period.
Gross profit	Gross Profit provides information regarding the value addition by the Company (including its profits) over cost on sale of products and services by the Company.
Gross profit margin (%)	Gross Margin (%) is an indicator of the value addition by the Company (including its profits) over cost on sale of products and services by the Company.
EBITDA	Earnings before interest, tax, depreciation, and amortization and is calculated as the profit for the period or year plus tax expense, finance cost, depreciation and amortization expenses excluding exceptional items and other Income. EBITDA provides information regarding operational profitability and efficiency of our Company
EBITDA Margin (%)	EBITDA Margin (%) is computed as EBITDA divided by revenue from operations. This metric helps in benchmarking the operating profitability against the historical performance of our Company
EBIT	Earnings before interest and tax is calculated as the restated profit for the period or year plus tax expense and finance cost excluding exceptional items and other Income.
EBIT Margin (%)	EBIT Margin (%) helps in keeping track of the operational efficiency of our company after the depreciation and amortization expenses calculated as EBIT as a percentage of revenue from operations.
Profit/ (Loss) after tax	The amount that remains after a company has paid off all of its operating and non-operating expenses and taxes. It provides information regarding the profitability of our Company
Profit/ (Loss) after tax margin (%)	Percentage of the amount that remains after a company has paid off all of its operating and non-operating expenses, and taxes. It provides information regarding the operational profitability of our Company.
RoE (%)	Return on Equity is calculated on the basis of net profit after tax divided by shareholder’s equity (equity share capital and other equity). It indicates our Company’s ability to turn equity investments into profits
RoCE (%)	Return on capital employed is calculated using two components, i.e. earnings before interest and tax divided by capital employed. Capital employed is calculated by sum of net worth and total debt less Intangible assets. This provides us information on efficiency of our capital deployment and utilization.
Revenue from operations (Split between products and services)	This metric enables the company to track the progress of revenue from operations from products and services
Revenue from operations (Split between our segments)	This metric enables the company to track the progress of revenue from operations between our Critical power and EV Charger
Order received during the year/period	This metric enables the Company to track the order book between our segments and thereby provides various operational insights which are used to improve offerings
Order backlog	This metric enables the Company to track the open orders.

9. Description on the historic use of KPIs by our Company to analyze, track or monitor the operational and/or financial performance of our Company

In evaluating our business, we consider and use certain KPIs, as presented above, as a supplemental measure to review and assess our financial and operating performance. The presentation of these KPIs are not intended to be considered in isolation or as a substitute for the Restated Consolidated Financial Information. We use these KPIs to evaluate our financial and operating performance. Some of these KPIs are not defined under Ind AS and are not presented in accordance with Ind AS. These KPIs have limitations as analytical tools. Further, these KPIs may differ from the similar information used by other companies and hence their comparability may be limited. Therefore, these metrics should not be considered in isolation or construed as an alternative to Ind AS measures of performance or as an indicator of our operating performance, liquidity, profitability or results of operation. Although these KPIs are not a measure of performance calculated in accordance with applicable accounting standards, our Company’s management believes that it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance, when taken collectively with financial measures prepared in accordance with Ind AS. Investors are encouraged to review the Ind AS financial measures and to not rely on any single financial or operational metric to evaluate our business. See **“Risk Factors – Risks Relating to India - Significant differences exist between Ind AS and other accounting principles, such as Indian Generally Accepted Accounting Principles, U.S. Generally Accepted Accounting Principles and International Financial Reporting Standards, which may be material to investors’ assessments of our financial condition.”** on page 77 of the RHP.

13. The Offer Price is [●] times of the face value of the Equity Shares

The Offer Price of ₹ [●] has been determined in compliance with the SEBI ICDR Regulations, on the basis of assessment of demand from investors for Equity Shares through the Book Building Process and, is justified in view of the above qualitative and quantitative parameters.

The trading price of the Equity Shares could decline due to the factors mentioned in the “Risk Factors” beginning on page 32 of the RHP and you may lose all or part of your investments.

14. Detailed explanation for Cap Price being 7.77 and 1.01 times the weighted average cost of acquisition of primary issuances and secondary transactions respectively (set out in point 11 above) along with our Company’s key performance indicators/KPIs and financial ratios for six months ended September 30, 2023 and September 30, 2022 and for Financial Year ended March 31, 2023, March 31, 2022 and March 31, 2021

Please note the following rationale in relation to the justification of the Offer Price:

- (a) We were amongst the first entrants in the EV Chargers manufacturing segment in India and as of March 31, 2023, we had a market share of 60% and 25% in the residential and public charging segments, respectively (Source: CRISIL Report).
- (b) In our Critical Power Business, we occupy a market share of 16% in the DC Power Systems market and are recognized in the market for Li-ion Batteries for application in the telecommunications sector, having a market share of approximately 10% as of March 31, 2023 (Source: CRISIL Report).
- (c) As of September 30, 2023, we had deployed over 61,000 EV chargers across 400 locations in India (Source: CRISIL Report). Further, as of September 30, 2023, our Company has deployed 470,810 Li-ion Batteries for application in the telecommunications sector, equivalent to a storage capacity of over 2.10 GWH. As on the date of the Red Herring Prospectus, we have also achieved deployment of our DC Power Systems across 15 countries in South East Asia and Africa.
- (d) The telecommunications power systems market in India is expected to grow from approximately ₹15 billion in Financial Year ended March 31, 2023 to ₹ 22 billion in Financial Year ended March 31, 2028 at a CAGR of 8.50% (Source: CRISIL Report). The energy storage solutions market for telecommunications is expected to grow from ₹ 19.50 billion in Financial Year ended March 31, 2023 to ₹ 36.10 billion in Financial Year ended March 31, 2028 at CAGR of 13.10%, with an aggregate market potential of approximately ₹ 150 billion over the next five Financial Years (Source: CRISIL Report).
- (e) As per the CRISIL Report, the Indian EV industry is one of the fastest growing markets in the world with growth of over 130% for the Financial Year ended March 31, 2023, from Financial Year ended March 31, 2022 (despite lack of FAME demand incentive, albeit on a lower base). To support this shift towards EVs, the EV charging network will need to ramp up its capacity, presenting a significant, industry-wide market opportunity for EV charging products with a projected total addressable market (“TAM”) of ₹ 9.0-9.5 billion by Financial Year ended March 31, 2028 in India (Source: CRISIL Report).
- (f) We have strategically expanded our presence and operations to overseas markets by establishing five Subsidiaries (including direct and indirect), Exicom Tele-Systems (Singapore) Pte. Ltd. in Singapore, Horizon Tele-System SDN BHD in Malaysia, Horizon Power Solutions DMCC and Horizon Power Solution L.L.C-FZ in U.A.E. and Exicom Power Solutions B.V in Netherlands
- (g) We have a dedicated R&D team of 145 employees, as of September 30, 2023, housed at our two R&D centres located in Gurugram, Haryana and Bengaluru, Karnataka. Overall, during the six months ended September 30, 2023 and Financial Years ended March 31, 2023, March 31, 2022 and March 31, 2021, we developed and commercialized 16 products.
- (h) We have been able to grow our revenue from operations of ₹ 5,129.05 million in the Financial Year ended March 31, 2021 to ₹ 7,079.30 million in the Financial Year ended March 31, 2023, representing a CAGR of 17.48%. Further, our revenue from operations for the six months ended September 30, 2023 was ₹ 4,550.42 as compared to ₹ 2,159.49 for the six months ended September 30, 2022.
- (i) Our extensive product portfolio is manufactured in-house at our three manufacturing facilities in India at Solan, Himachal Pradesh and at Gurugram, Haryana, which have an annual capacity of 12,000 DC Power Systems; and 44,400 AC and DC EV Chargers, and a total built-up area of 134,351.95 sq. ft.
- (j) During the six months ended September 30, 2023 and the Financial Year ended March 31, 2023, we served a diverse customer base of 450 and 350, respectively, through our Critical Power Business and EV Charger Business. We serve telecommunications companies like Jio Infocom Limited, Maxis Telecom (an operator in South East Asia) and tower companies like American Tower Corp., Eastcastle Infrastructure DRC S.R.L.U. and Indus Tower. We primarily provide our EV chargers to established automotive OEMs in India, including Mahindra & Mahindra Limited, MG Motors Limited and JBM Limited; national CPOs providing public charging infrastructure such as Reliance BP Mobility Limited (JioBP) and Fortum Charge & Drive India Private Limited, and fleet aggregators such as Blu Smart Mobility and Lithium Urban Mobility.
