Risk to Investors
For details, refer to section titled *"Risk Factors"* on page 20 of the RHP.

1. Product Concentration Risk:

Significant portion of our revenue is derived from the sale of raw non-coking coal, which accounted for 97.38%, 97.13%, 97.41%, 97.10% and 99.94% of our sale of products for the six months periods ended September 30, 2026 and September 30, 2025 and Fiscals 2026, 2025 and 2024, respectively.

The tables below set forth details of our product-wise sales for the periods indicated:

Any economic downturns or reduced industrial activity can lead to lower consumption of power, thereby reducing the need for raw non-coking coal which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Note:

* *Other industries include cement, sponge iron, aluminium, traders, and other small industries.*

The thermal power sector is subject to fluctuations in energy demand, fuel prices, regulatory policies, and technological changes, including the shift towards renewable energy sources. Economic downturns or changes in government policies can lead to reduced investment in thermal power infrastructure, affecting demand for our coal. Any adverse changes in the conditions affecting the thermal power sector could adversely affect our business, financial condition, results of operations and cash flows.

3. **Revenue Concentration Risk:**

Our revenue from government-owned and controlled power generation companies and utilities contributed 41.68%, 47.64%, 44.81%, 47.53% and 41.89% of our revenue from operations in the six months periods ended September 30, 2026 and September 30, 2025 and Fiscals 2026, 2025 and 2024, respectively. We may be subject to additional regulatory or other scrutiny associated with commercial transactions with government owned or controlled entities and delayed collection of receivables.

4. **Contingent Liabilities Risk:**

Our total contingent liabilities represented 55.86%, 38.09%, 39.80%, 55.18% and 61.56% of our Net Worth as at September 30, 2026, September 30, 2025, March 31, 2026, 2025 and 2024, respectively. These contingent liabilities have not been provided for in our financial statements, and if they materialise, they may have a material adverse effect on our financial condition, results of operations and cash flows.

5. **Dependence on Coal India Limited, our Corporate Promoter, Risk :**

We benefit significantly from the strategic support and vast resources of our Corporate Promoter - Coal India Limited. Our mining operations heavily rely on the technical, and human resources allocated by Coal India Limited. Any changes in Coal India Limited's resource allocation policies or priorities could impact our access to necessary resources, potentially hindering our operational efficiency and growth. Further, our executive employees are seconded from Coal India Limited. We pay the salaries of such executive employees on secondment and the same is not reimbursed by Coal India Limited, and the terms of their secondment may be altered at any time. This arrangement exposes us to several risks that could adversely affect our business and results of operations. In addition to our reliance on Coal India Limited, our operations are also significantly dependent on the Central Mine Planning & Design Institute Limited, another subsidiary of Coal India Limited. CMPDIL provides essential technical expertise, planning, and design services that are critical to our mining operations. Any disruption in CMPDIL's services, whether due to resource constraints, technological failures, or other operational issues, could adversely affect our ability to maintain efficient and safe mining operations.

6. **Third Party Risk:**

A significant portion of our coal production and associated mining activities is undertaken through mining services contracts. We are dependent on the performance of contractors for critical mining activities, including overburden removal, coal extraction, loading, transportation and other allied operations. We depend on a limited number of third-party contractors and any disruptions in the supply of services from our top contractors could adversely affect our business, financial condition, results of operations and cash flows.

The table below sets forth our expenses in relation to our top 10 contractors in the periods/years indicated:

Expenses in relation to top 10 contractors as a percentage of total expenses (%)	17.02%	19.18%	20.96%	18.11%	13.88%

7. **Operational Risk:**

Mining activities are inherently dangerous and hazardous and certain activities, including fire and gas explosions, gas emissions, inundations, movement of Heavy Earth-Moving Machinery ("**HEMM**"), drilling and blasting can cause accidents during mining process resulting in serious injuries or death of employees or other persons, and cause damage to our properties or equipment and the properties of others

During the period April 1, 2023 to September 30, 2026, we recorded 13 fatal accident cases in our operations. A violation of health and safety requirements or the occurrence of accidents could disrupt our operations, increase our operating costs and may result in a suspension of operations and/or the imposition of civil or criminal liabilities, which could adversely affect our business, financial condition, results of operations, and cash flows.

8. **Insurance Coverage Risk:**

We do not maintain insurance coverage in accordance with applicable industry standards and our insurance coverage may not be adequate or we may incur uninsured losses or losses in excess of our insurance coverage which could have an adverse effect on our business, results of operations, financial condition and cash flows.
