RISKS TO INVESTORS

Summary Description of Key Risk Factors Based on Materiality

- Our revenue depends heavily on government-tendered projects and a few key clients. Any unfavourable changes in government policies or the loss of any major client could significantly impact our business and financial performance.
- Our company has primarily focused on government contracts, resulting in limited experience with private sector projects. This lack of experience could create challenges in adjusting to the changing and competitive nature of the private sector, potentially impacting our ability to meet client expectations and win future contracts.
- Our majority of revenue dependent on the services provided by us under Supervision and quality control (SQC) segment, any decline in the demand for these services can affect our revenue and result of operations.
- The Contracts in our order book may be adjusted, cancelled, or suspended by our clients at their discretion, and therefore our order book is not necessarily indicative of future revenues or earnings.
- Failure to provide accurate and timely certification and verification of construction progress, quality, and safety, it could result in delays, penalties from regulatory bodies, and impact our operations.
- Our Restated Financial Statements are prepared and signed by the Peer Review Auditor who is not Statutory Auditor of our Company. This would lack of consistency or continuity in the financial review process, resulting oversight of material issues or misstatement in the financial statements.
- Our reliance on software, automated systems, and machinery is critical to our operations, and any failure or disruption in their performance could adversely affect our business and financial condition.
- Our operations require substantial working capital, and any shortfall in cash flow, credit, or funding availability could adversely impact our operations.
- Our responsibility for the timely completion of projects and adherence to performance standards is crucial, and failure to meet these obligations may result in client loss, additional costs, or reduced revenue.
- Majority of our state-wise revenues from operations are derived from Haryana, Uttar Pradesh, Bihar and Maharashtra. Any adverse developments affecting our operations in these states could have an adverse impact on our revenue and results of operations.
