RISKS TO INVESTORS

Summary Description of Key Risk Factors Based on Materiality

- Our revenues are highly dependent on a limited number of broadcasters, Film studios and streaming platforms. The loss of, or a significant reduction in orders from, any of our major customers could have a material adverse effect on our business, financial condition, results of operations and prospects.
- The success of our business is dependent on the commercial viability of our television shows, web-series and films, which is inherently unpredictable and subject to audience preferences.
- The production of television, film and OTT/Digital content is a complex process, and we are subject to risks such as production delays and cost overruns.
- Our strategy to shift from a commission model to owning and monetising intellectual property (IP) increases capital intensity and earnings volatility; success depends on the performance of the underlying content and monetisation windows.
- We derive a majority of our revenues from a limited number of customers, including broadcasters, film studios, OTT platforms and distributors.
- Our rapid growth and planned expansion into new content formats may strain our financial and operational resources and adversely affect our performance.
- We do not own our registered office premises and rely on leased/leave and license arrangements for certain facilities.
- We do not own the intellectual property rights for our television and Over-the-Top (OTT) content as we operate on a 'cost-plus' model. This limits our ability to generate long-term revenue streams from our content library and makes us dependent on the continuous commissioning of new projects from broadcasters and platforms.
- Our Company has negative cash flows from its operating, investing and financing activities in the past years, details of which are given below. Sustained negative cash flow could impact on our growth and business.
- We are dependent on our Promoter, senior management, and availability of key creative talent.
