Any adverse action by any regulatory authority against us would negatively impact our ability to offer our products to our clients and adversely impact our business and prospects

2. Manufacturing facilities risk: We currently operate three manufacturing facilities, located in Surat Special Economic Zone ("SEZ") in Gujarat (India), Hyderabad, Telangana (India) and Nonthaburi (Thailand). Our manufacturing facilities are subject to certain risks, including quality control issues, disruptions in infrastructure facilities, and obsolete plant and machinery, which could increase our manufacturing costs or interrupt our operations and adversely impact our reputation, sales and strategies.

3. Dependence on key raw material suppliers and supply chain risk: We are dependent on the continued supply of raw materials and components, the supply and cost of which can be subject to significant variation due to factors outside our control. Additionally, we are dependent on our suppliers (our top 10 suppliers contributed to 63.61%, 59.15%, 64.37% and 58.88% of total purchases in the three months ended June 30, 2026 and in Fiscal 2026, Fiscal 2025 and Fiscal 2024, respectively) for certain raw materials and components and a single supplier for certain components and an inability to procure the required quality and quantity, at competitive prices, our business, financial condition, cash flows and results of operations may be adversely affected.

4. Dependence on Vascular Intervention Products, Including Supraflex Cruz: A majority of our revenues are from the sale of Vascular Intervention devices (contributed to 60.40%, 61.14%, 65.86% and 68.57% of our revenue from operations in the three months ended June 30, 2026 and in Fiscals 2026, 2025 and 2024, respectively). Any adverse impact on sales of products within this vertical, or of the Supraflex Cruz would adversely affect our business, results of operations and profitability.

5. Pricing Regulation Risk: Regulatory uncertainty associated with pricing of medical devices could adversely affect the marketing, pricing and demand for our products, which may affect our financial condition and results of operations

Some of the quantitative factors which may form the basis for computing the Offer Price are as follows:

A. Basic and Diluted Earnings Per Equity Share ("EPS"):
