## RISKS TO INVESTORS

1. Risk to Investors: Summary description of key risk factors based on materiality.

- During the period ended December 31, 2025 and Fiscals 2025, 2024 and 2023, we derived 87.85%, 77.27%, 81.30% and 70.24%, respectively, of our revenue contribution from our subsidiaries on consolidated basis. Any loss of sales due to reduction in demand for the products of our subsidiaries would have a material adverse effect on our business, financial condition, results of operations and cash flows.
- Our Singapore subsidiary, Geo Min Commodities Pte. Ltd., operation is highly dependent on Copper Cathode and a few key suppliers who help us procure the same. Geo Min Commodities Pte. Ltd. has not entered into long-term agreements with its suppliers for supply of raw materials. In the event we are unable to procure adequate amounts of Copper Cathode at competitive prices, results of operations and financial condition may be adversely affected.
- Our Group is significantly dependent on revenue generated from certain products and any adverse change affecting such products could materially and adversely affect our business, financial condition, results of operations and cash flows.
- We are majorly dependent upon third party mining operations for procurement of barite for our international operations. Any disruption or restriction on the mining operations either domestically or internationally, may have an adverse impact on our business operations.
- We are exposed to risks relating to volatility in the mining industry and fluctuation in the prices of our traded products, which may lead to

decline of our revenue from trading operations.

- We do not have firm commitment agreements with most of our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.
- During the period ended December 31, 2025, and for the year fiscal 2025, 2024 and 2023, we derived 82.48%,61.10%, 97.08% and 100.00% of our revenue contribution is from sale of rice bran oil and its by-products on standalone basis. Any loss of sales due to reduction in demand for such products would have a material adverse effect on our business, financial condition, results of operations and cash flows.
- Form 2 for allotments made on April 01, 1991, March 30, 1994 and May 26, 2006, were not available in the records.
- Majority of our revenue during the period ended December 31, 2025 and in the past three financial years is derived from Copper Cathode trading operations. Any impact on the Copper Cathode trading operations of our Subsidiaries may affect our consolidated financial condition and results of operations.
- We highly depend on our key raw material for our rice bran oil segment and a few key suppliers who help us procure the same. Our Company has not entered into long-term agreements with its suppliers for supply of raw materials.
