RISK TO INVESTORS

For details refer to section titled "Risk Factors" on page 28 of the RHP

1. Risk relating to dependence on audience acceptance: We are engaged in producing and distributing films, web series and TV serials and our revenues depend primarily on public acceptance of our content. The commercial success of our projects primarily is inherently unpredictable and influenced by several factors beyond our control, including changing audience preferences, quality of content, effectiveness of marketing, competing releases, availability of alternative entertainment options, timing of release and general economic conditions. Any adverse impact from these factors may affect our revenues and profitability.

2. Risk relating to dependence on Indian box office success and monetisation of associated rights: A significant portion of our revenue is derived from domestic box office performance and monetisation of associated rights, including OTT and other distribution channels and is therefore dependent on the commercial success of our films, particularly during the initial weeks of release. Poor theatrical
- performance of our standalone productions, where we bear the entire production, marketing and completion risk, may adversely affect our revenues and profitability in the year of release and thereafter. Our ability to monetise content is limited to the rights we own or retain under contractual arrangements, including in co-production models. Any failure to accurately assess commercial potential, secure wide releases, protect our revenue share, or successfully exploit retained rights may materially and adversely affect our business, financial condition and results of operations.
3. Customer Concentration Risk: A substantial portion of our revenue from operations is derived from a limited number of key customers. Our top 1 customer contributed 26.87%, 47.90% and 28.58% of revenue for Fiscal 2026, 2025 and 2024, respectively, while our top 3 customers contributed 52.98%, 98.31% and 59.41% during the same periods. Further, our top 10 customers contributed 87.76%, 99.98% and 97.80% of our revenue for the respective periods. Such concentration exposes us to risks including loss of key customers, reduced negotiating

...continued from previous page.

leverage, delays in payments and revenue volatility. Any reduction in business from these customers or failure to maintain such relationships may materially and adversely affect our business, financial condition and results of operations.

4. Risk of content-related objections: Our film, web series and TV serial content may attract objections from viewers, civil society groups, political parties, religious or other organisations in India or abroad on religious, political, ideological or other grounds. Such objections may result in protests, legal proceedings, claims for defamation or hurting religious sentiments, demands for edits, or attempts to restrict or ban exhibition of our content, which may adversely affect our reputation and revenues. For instance, following the release of The Kerala Story, exhibition of the film was temporarily banned in West Bengal, which we challenged before the Hon'ble supreme court of India and the stay was subsequently granted. The Kerala Story 2 - Goes Beyond: Certain petitions have been filed before the Hon'ble High Court of Kerala challenging the certification and exhibition of The Kerala Story 2 – Goes Beyond, alleging, *inter alia*, that the film contains objectionable content, promotes communal disharmony and misrepresents facts. The petitioners have, among other reliefs, sought modification/withdrawal of the film's certification and directions restraining its exhibition; the matters are presently pending before the Hon'ble High Court of Kerala. Any such claims, litigation, regulatory action or exhibition restrictions in the future could materially and adversely affect our business, financial condition and results of operations.

5. Dependence on maintaining relationships with creative talent and industry participants: Our ability to produce and acquire quality film content depends on maintaining strong relationships with key creative and technical talent, including actors, directors, and service providers. Given the limited pool of top creative talent in India and intense competition, costs may rise and scheduling complexities may lead to delays or budget overruns. Any inability to retain or secure such relationships in the future could materially impact our business, financial condition, and results of operations.

6. Negative cash flows from operating activities: We have experienced negative cash flows from operating activities for the Fiscal 2026, primarily attributable to an increase in inventory levels and such negative cash flows in the future may impact our ability to fund operations or growth initiatives. There can be no assurance that we will generate positive cash flows in future periods, and any sustained negative cash flows may adversely affect our ability to meet working capital requirements, service indebtedness and fund our operations without additional financing, which could materially and adversely affect our business, financial condition and results of operations.

7. Working capital intensive business: Our business is working capital intensive and our requirements have increased in recent years due to growth in operations and multiple projects being undertaken simultaneously. Delays in project initiation, deferred payment schedules, client defaults, force majeure events or inability to secure timely financing may further increase our working capital needs. We may incur additional indebtedness in the future, which could increase interest costs, impose restrictive covenants or dilute shareholders in case of equity financing. Any failure to secure adequate funding, renew existing facilities, comply with financing covenants or provide sufficient collateral may materially and adversely affect our business, financial condition and results of operations.

8. Risk relating to delays, cost overruns or failure to complete and release our projects: Our business is subject to risks of delays, cost overruns, cancellation or abandonment of films, web series and television serials, which may adversely affect our financial performance. Production schedules and budgets may be impacted by factors such as labour disputes, unavailability of key talent, equipment shortages, disputes with production teams, adverse weather conditions or unforeseen events, including pandemics. In standalone productions, we bear full execution and cost overrun risk, and in co-productions we may, in certain circumstances, incur additional costs despite contractual protections. Except pandemic-related delays and rescheduling of certain releases, we have not experienced any such event, we cannot assure that future delays, budget overruns, inability to secure additional financing, or changes in production strategy will not materially and adversely affect our business, financial condition and results of operations.

9. Risk relating to majority control of Promoter and Promoter Group: Post Offer, our Promoters and Promoter Group will continue to hold a majority shareholding in and exercise significant control over the Company, including with respect to the composition of the Board, appointment of key managerial personnel and matters requiring shareholder approval. Such concentration of control may limit the ability of minority shareholders to influence certain matters and may raise corporate governance concerns, which could adversely affect investor perception and the trading price of our Equity Shares. However, the rights and interests of our minority shareholders will be duly protected and taken into consideration in accordance with applicable laws, regulations and corporate governance requirements.

10. Risk relating to Geographical Concentration: Our operations are primarily concentrated in India and we have limited international presence and global market penetration. Our distribution networks and brand recognition outside India remain underdeveloped and any expansion into international markets would require significant marketing efforts and investment. We cannot assure that we will be able to successfully expand our overseas footprint or achieve meaningful acceptance in international markets, which may limit our growth prospects and diversification of revenues.

11. Contingent Liability Risk: We have certain contingent liabilities which may crystallize and adversely affect our financial condition and profitability. As on March 31, 2026, our contingent liabilities primarily comprise amounts aggregating to ₹ 3,172.92 lakhs, including an income tax demand of ₹ 1,882.19 lakhs pertaining to Assessment Year 2020-21, against which we have filed an appeal and a service tax demand of ₹ 1,290.27 lakhs relating to the period April 2011 to March 2015, which is pending before the appellate tribunal. While there has been no impact on our operations to date, any adverse outcome in these matters may result in additional financial liabilities and could materially and adversely affect our business, financial condition and results of operations.

12. Offer Related Risk: The Offer comprises an Offer for Sale by the Selling Shareholders. The Selling Shareholders will receive the entire proceeds from the Offer for Sale (after deducting applicable Offer related expenses) and our company will not receive any part of the proceeds of the Offer.

13. Other Risks:

- The Price/Earnings ratio based on diluted EPS for the latest Fiscal i.e., Fiscal 2026 of our Company at the upper end of the Price Band is 23.70 times and at the lower end of the price band is 22.51 times as compare to the average industry peer group P/E ratio of 44.84 times.
