RISK TO INVESTORS

For details, refer to section titled "Risk Factors" on page 28 of the RHP.

1) Revenue dependence on sale of Active Pharmaceutical Ingredients ("APIs"):

We derive almost all of our revenue from the sale of API products, including corticosteroid and steroidal-hormones. In addition to manufacturing API products that we sell, we offer our services as a contract development and manufacturing organisation ("CDMO") for specialty pharmaceutical and nutraceutical companies. Any reduction in demand for API products, and our top products in particular, or a temporary or permanent discontinuation in our manufacturing operations for such products, could have an adverse effect on our business, results of operations, financial condition and cash flows.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ million)	Percentage of revenue from operations (%)	Amount (₹ million)	Percentage of revenue from operations (%)	Amount (₹ million)	Percentage of revenue from operations (%)
Sale of APIs (A)	8,350.05	96.07%	7,447.54	99.10%	7,162.47	100.00%
Sale of complex injectables (B)	330.50	3.80%	-	-	-	-
CDMO services (C)	10.94	0.13%	68.00	0.90%	-	-
Total (A+B+C)	8,691.49	100.00%	7,515.54	100.00%	7,162.47	100.00%

2) Audit and inspections risk:

We operate in a highly competitive industry where regulatory standards are not only extensive but also continuously evolving. We are required to comply with regulations and quality standards stipulated by regulatory authorities and certain of our customers. Our manufacturing facilities and products are subject to periodic inspections and audits by these regulatory authorities and customers. If we are not in compliance with the requirements prescribed by such authorities or terms stipulated in contracts with our customers, we may be subject to regulatory actions, including issuance of warning letters, imposition of sanctions, amendment or withdrawal of our existing approvals, product seizure, interruption of our operations, or claims resulting from non-compliance with contractual obligations.

3) Dependence on export markets:

As of March 31, 2026, revenue from external customers outside India contributed 67.04%, 55.19% and 59.97% of our revenue from operations in Fiscals 2026, 2025 and 2024, respectively. Our inability to handle risks associated with our export sales could adversely affect our sales to customers in foreign countries, our results of operations, financial condition and cash flows.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ million)	Percentage of revenue from operations (%)	Amount (₹ million)	Percentage of revenue from operations (%)	Amount (₹ million)	Percentage of revenue from operations (%)

*Rest of the world includes Asia (other than India and China) and Africa.

4) Tariff and anti-sourcing risk:

Revenue from the United States represented 13.12%, 4.02% and 8.97% of our revenue from operations for Fiscals 2026, 2025 and 2024. The imposition of tariffs or other anti-sourcing measures by the United States could increase our costs, affect the competitiveness of our products and adversely affect our business, results of operations, financial condition and cash flows.

5) Customer concentration risk:

We derive a substantial portion of our revenue from certain key customers, with our top ten customers accounting for 57.59%, 55.90% and 61.65% of our revenue from sale of products in Fiscals 2026, 2025 and 2024, respectively. Any loss of, or reduction in orders from, these customers could adversely affect our business, results of operations, financial condition and cash flows.

- 6) **Geographic concentration risk:** As of March 31, 2026, we operated the Rau Facility and the Pithampur Facility in the state of Madhya Pradesh in India. In addition, our Ujain Facility and our Mhow Facility, which we have commissioned and where we have started R&D and pilot-scale operations as of March 31, 2026, are also located in Madhya Pradesh. Any adverse developments affecting Madhya Pradesh or its surrounding regions could adversely affect our business, results of operations, financial condition and cash flows. A slowdown, interruption or shutdown in our manufacturing operations could have an adverse effect on our business, results of operations, financial condition and cash flows.

- 7) **Supplier concentration risk:** We depend on certain suppliers for raw materials for our operations. Purchases from our top ten suppliers accounted for 25.50%, 18.41% and 50.33% of our total expenses in Fiscals 2026, 2025 and 2024, respectively. Any loss of such suppliers or non-performance of their obligations could adversely affect our business, results of operations, financial condition and cash flows.

Particulars	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ million)	Percentage of total expenses (%)	Amount (₹ million)	Percentage of total expenses (%)	Amount (₹ million)	Percentage of total expenses (%)

Top ten suppliers	1,810.15	25.50%	1,120.78	18.41%	2,974.31	50.33%

- 8) **Competition risk:** We operate in a highly competitive market. We face competition both within our API manufacturing business and in our role as a CDMO, which we have recently commenced. An inability to compete effectively may adversely affect our business, results of operations, financial condition and cash flows.

- 9) **Dependence on imported raw materials:** We procure a portion of our raw material requirements from different countries, including China and the United States. Any adverse developments in these countries, or the laws governing our imports from these countries, could disrupt our raw material supply and adversely affect our results of operations, financial condition and cash flows

*Other countries include countries such as Singapore, Malaysia and Germany.

- 10) **Product development risk:** Our success depends on our ability to develop and commercialise new products in a timely manner. Our research and development ("R&D") efforts are central to our ability to build, scale, and sustain complex manufacturing technologies across platforms. If our research and development efforts do not succeed, or the products we commercialise do not perform as expected, the introduction of new products may be hindered, which could adversely affect our business, results of operations, financial condition and cash flows. In order to remain competitive, we must develop, test and manufacture new products, which must meet regulatory standards and receive requisite regulatory approvals.
