FORWARD LOOKING STATEMENTS

All statements contained in the Red Herring Prospectus that are not statements of historical facts constitute forward-looking statements". All statements regarding our expected financial condition and results of operations, business, objectives, strategies, plans, goals and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, our revenue and profitability, planned projects and other matters discussed in the Red Herring Prospectus regarding matters that are not historical facts. These forward-looking statements and any other projections contained in the Red Herring Prospectus (whether made by us or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward-looking statements can generally be identified by words or phrases such as "will", "aim", "will likely result", "believe", "expect", "will continue", "anticipate", "estimate", "intend", "plan", "contemplate", "seek to", "future", "objective", "goal", "project", "should", "will pursue" and similar expressions or variations of such expressions.

Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- termination of lease agreements with respect to the properties used by our company;
- Our dependency substantially on working capital;
- Our ability to fulfill the specified pre-qualification prerequisites and subsequent engagement in a competitive tendering procedure.
- Our ability to utilize several credit facilities provided by the bank, and in accordance with the sanctioned terms, certain restrictive covenants
- Our dependency on our suppliers of raw materials
- Inability to comply with any changes in safety, health, environmental and labour laws and other applicable regulations;
- Our ability to successfully identify customer requirements and preferences and gain customer acceptance for our products;
- Our ability to maintain quality standards;
- our ability to respond to new innovations in our industry
- our ability to adapt with the technological advancements;
- conflict of interest with affiliated companies, the promoter group and other related parties;
- general social and political conditions in India which have an impact on our business activities or investments;
- inability to protect our Intellectual property or any third-party claims in relation to infringement of our existing intellectual property rights or in future;
- Risk of time and cost overruns in our projects;
- Any conflict between our joint ventures in the future;
- impact of Covid 19 pandemic or any future pandemic;
- Our ability to successfully implement strategy, growth and expansion plans;
- Our ability to attract and retain qualified personnel;
- Our ability to finance our business growth and obtain financing on favorable term.

For a further discussion of factors that could cause our current plans and expectations and actual results to differ, please refer to the chapters titled "Risk Factors", "Our Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" beginning on page 22, 207 and 312, respectively of this Red Herring Prospectus.

Forward looking statements reflect views as of the date of the Red Herring Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our Directors nor the BRLM, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the BRLM will ensure that investors in India are informed of material developments until such time as the listing and trading permission is granted by the Stock Exchange(s).

SECTION II- RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties summarized below, before making an investment in our Equity Shares. The risks described below are relevant to the industries, our Company is engaged in, our Company and our Equity Shares. To obtain a complete understanding of our Company, you should read this section in conjunction with the chapters titled “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page numbers 207 and 312, respectively, of this Red Herring Prospectus as well as the other financial and statistical information contained in this Red Herring Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in the section titled “Financial Information, as Restated” beginning on page number 310 of this Red Herring Prospectus.

If any one or more of the following risks as well as other risks and uncertainties discussed in the Red Herring Prospectus were to occur, our business, financial condition and results of our operation could suffer material adverse effects and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of investment. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.

This Red Herring Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of many factors, including the considerations described below and elsewhere in the Red Herring Prospectus. These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.

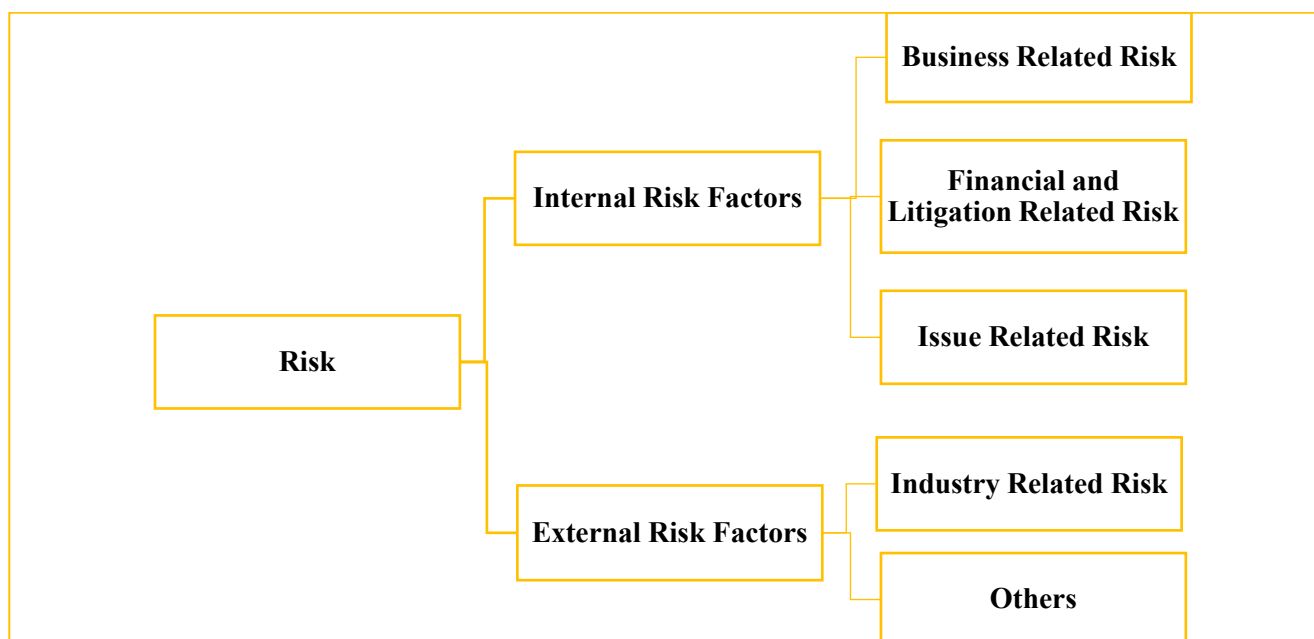

Materiality

The Risk factors have been determined based on their materiality, which has been decided based on following factors:

1. Some events may not be material individually but may be material when considered collectively.
2. Some events may have an impact which is qualitative though not quantitative.
3. Some events may not be material at present but may have a material impact in the future.

Classification of Risk Factors

INTERNAL RISK FACTORS

- Our business is heavily dependent on contracts awarded by the Ministry of Railways and its affiliated entities, and any reduction in railway sector spending, adverse policy changes or inability to maintain historical business levels with Indian Railways may materially and adversely affect our business, financial condition and results of operations.*

Our business is substantially dependent on contracts awarded by the Ministry of Railways and its affiliated entities, including Indian Railways, its zonal railways, public sector undertakings and other government organisations associated with the Ministry (collectively, the “GoI Entities”). We are engaged in the manufacturing of Power Electronics, Instrumentation and Distribution Systems, Microprocessor-Based Control Systems for Railway applications, Rotating Machines and Railway Electrification, and our primary customers include Indian Railways and other railway contractors. We also hold approved supplier registrations with various professional directorates under the Ministry of Railways, including the Research Designs & Standards Organisation (RDSO).

As a result, a significant portion of our revenue is derived from government and railway-related projects. The revenue bifurcation between government and non-government customers over the last three financial years is set forth below:

On the basis of consolidated restated financial statements:

(Amount in ₹ Lakhs except %)

S. No	Particulars	As on March 31, 2026		As on March 31, 2025		As on March 31, 2024	
		Revenue	% of Revenue from operations	Revenue	% of Revenue from operations	Revenue	% of Revenue from operations
1	Government	11730.61	82.01%	9,933.16	81.50%	6,722.83	67.74%
2	Non – Government	2573.54	17.99%	2,255.43	18.50%	3,202.09	32.26%

	Total	14,304.15	100.00%	12,188.59	100.00%	9,924.92	100.00
--	--------------	------------------	----------------	------------------	----------------	-----------------	---------------

On the basis of standalone restated financial statements:

(Amount in ₹ Lakhs except %)

S. No	Particulars	As on March 31, 2026		As on March 31, 2025		As on March 31, 2024	
		Revenue	% of Revenue from operations	Revenue	% of Revenue from operations	Revenue	% of Revenue from operations
1	Government	11730.60	81.50%	9933.16	81.77%	6,750.36	68.04%
2	Non – Government	2662.18	18.50%	2215.00	18.23%	3,171.42	31.96%
	Total	14,392.78	100.00%	12,148.16	100.00%	9,921.78	100.00%

Note: The percentages listed above are calculated as a percentage of Revenue From Operations based on restated financial statements.

Contracts awarded by government entities, including Indian Railways, are subject to extensive internal approval processes, policy changes, budgetary allocations, funding constraints and administrative considerations. These factors may result in a reduced number of tenders being issued, delays in bid invitations and contract awards, renegotiation of contractual terms, deferment or cancellation of projects, or shifts in sectoral priorities.

Further, even where our bids are successful, there may be delays in issuance of letters of award, notification of appointed dates or commencement of projects, which could result in unutilised resources, increased costs and adverse impact on our financial performance. While such delays have not occurred in the last three financial years, there can be no assurance that similar situations will not arise in the future.

Any reduction in spending by the Ministry of Railways, adverse changes in procurement policies, decrease in order volumes, termination or delay of existing or future contracts or programs, or inability to maintain our historical level of business with Indian Railways or other GoI Entities may have a material adverse effect on our business, prospects, results of operations, cash flows and financial condition.

For further details regarding revenue generated from government and railway projects, see the chapter titled “Our Business” on page 207 of this Red Herring Prospectus.

2. *Our Company operates in a competitive industry, and increasing competition may exert pressure on our profit margins, potentially leading to a reduction in our market share and overall profitability.*

We operate in a highly competitive environment, facing competition from both domestic and multinational companies. Indian Railways and other government agencies typically award supply contracts through a competitive bidding process. Under prevailing procurement policies, a portion of these contracts is awarded to the lowest bidder. Some competitors, particularly smaller firms with lower overheads or new market entrants, may offer lower margins to gain market share and secure contracts. Additionally, competitors may be quicker to adopt emerging technologies in our industry. These factors could adversely impact our business operations, financial performance, and market position.

3. *Risk of the Company Being Blacklisted by Government Authorities*

A significant portion of our business is derived from contracts awarded by the Ministry of Railways and its associated entities, including various Zonal Railways, Railway PSUs, and other Government-controlled agencies.

As a contractor and supplier to the railway sector, our operations are subject to stringent performance standards, technical requirements, safety norms, statutory compliances, and contractual obligations prescribed by these authorities. Any delay, deficiency in performance, quality issues, or alleged non-compliance may expose the Company to the risk of being cautioned, suspended, debarred, or blacklisted by the Ministry of Railways or its affiliated entities.

Blacklisting or debarment, even if temporary, may result in our ineligibility to participate in future tenders floated by the Ministry of Railways and its associated organisations, and may also impact our ability to complete ongoing projects. Such an event could adversely affect our order book, business operations, revenue streams, and market reputation, including within the private sector.

We have established internal systems to ensure compliance with technical specifications, safety protocols, and contractual conditions required by the Ministry of Railways and related entities. We further confirm that during the past three financial years, the Company has not been blacklisted, debarred, suspended, or subjected to any similar adverse action by the Ministry of Railways, its associated entities, any PSU, or any Government department. However, despite these controls and a clean compliance history, no assurance can be provided that operational challenges, disputes, or administrative actions will not occur in the future.

4. *Our Company requires significant amount of working capital for a continuing growth. Our inability to meet our working capital requirements may adversely affect our results of operations.*

Our Company's business operations require a significant amount of working capital. In our business, working capital is often required for our day-to-day business operations. In the event we are unable to source the required amount of working capital, we might not be able to efficiently satisfy the demand and preferences of our customers in a timely manner or at all. Even if we are able to source the required amount of funds, we cannot assure you that such funds would be sufficient to meet our cost estimates and that any increase in the expenses will not affect our business.

The details of our working capital for the projected, estimated and audited period are as follows:

*Our Company is required to issue a Performance and Security Deposit Bank Guarantee equal to a fixed percentage of the Work Order, which is around 5%-10% of each of the Work Order value as a Guarantee to the Railways Authority towards performance obligations for the said Work Order. The Performance Bank Guarantee is retained by the customer till Defect Liability Period which generally varies from 2-3 years. The non-fund-based limit is secured by our Company against property and to use the Bank Guarantee the company must give fixed Deposits of 15-25% of non-fund-based limit. This amount of Fixed Deposit is classified under "FD held with bank- Under Other current assets" for the period not more than 12 months, and 'non-current assets' for period above 12 months, as per the maturity of the Fixed Deposit in the Restated Financial Statements. Management is of the opinion that these Fixed Deposit should be classified as part of working capital.

**The Fund-Based is utilized when the NFB limit approved by the bank is fully exhausted. In such cases, the bank will require a 100% Fixed Deposit (FD) to cover the tender value, usually ranging from 5% to 10% of the total tender amount.

#The EMD (Earnest Money Deposit) deposited or retention money is the major amount resulting to be part of the current assets. Sometimes the bidding of order requires submission of EMD instead of Bank Guarantees which are in form of Fixed Deposits. The Railways Department holds almost 10% of the total contract value as the retention deposit which is released after the time period of 2-3 years, which creates major requirement of working capital limits

The company requires the Working Capital for the execution of the Project, in the form of Fund based & non-fund-based Limit (Bank Guarantee) and EMD. With the increasing number of projects increased working capital is required for smooth functioning. Majorly, the company requires the non-fund base limit:

- The company needs to provide Bank Guarantee (Performance BG, Security BG and Mobilisation BG), after winning the respective bidded Project.

In our business, working capital is often required to finance payment of wages and salaries, and site operations. In the event we are unable to source the required amount of working capital, we might not be able to efficiently satisfy the demands of our clients in a timely manner or at all, which may affect our business relation with our client, which could have adverse impact on our business and financial performance.

Further, in the event of a liquidity crunch, we may be forced to increase our working capital borrowings, which would lead to higher finance costs and could adversely impact our profitability. If we are unable to maintain adequate cash flow, access necessary credit facilities, or secure other funding sources in a timely manner, our financial condition and operational performance may be negatively affected.

5. ***As an integral aspect of our business operations, it is necessary for us to provide bank guarantees and additional guarantee. Failing to secure these guarantees or the activation of such guarantees has the potential to negatively impact our cash flows and financial standing.***

In alignment with industry norms, our operational framework necessitates the provision of performance bank guarantees in fulfilment of contractual obligations for our projects. Typically, these guarantees are issued to the relevant authorities with whom contractual arrangements for our projects have been established. However, a potential challenge lies in consistently securing new performance bank guarantees to commensurate with our operational requirements. Difficulties in providing sufficient collateral to underpin these guarantees or letters of credit may impede our capacity to enter into new contracts and procure essential supplies. Such limitations could lead to a material adverse impact on our business, operational outcomes, and financial standing. Moreover, the procedural complexities associated with acquiring letters of credit, as well as financial and performance bank guarantees, have a tendency to augment our working capital needs. The occurrence of unforeseen circumstances may render us incapable of meeting any or all our contractual obligations pertaining to ongoing projects, potentially leading to defaults under our contracts and subsequent invocation of the bank guarantees issued by us. In the event of such an invocation, there exists the potential for a substantial adverse impact on our business and financial performance.

6. ***There are outstanding legal proceedings involving our Company as well as our promoter. Any adverse outcome on such proceedings may affect our business, financial condition and reputation.***

There are outstanding legal proceedings involving our company. Additionally, our promoters are also involved in certain legal proceedings before relevant authorities. If the outcome of these litigations is unfavourable to our company or promoters, it could have an adverse impact on our business, financial performance, and overall condition. We cannot guarantee that the current legal matters will be resolved in our favour, nor can we assure that no further liabilities will arise from these claims in the future. The amounts claimed in these proceedings have been disclosed to the extent they are ascertainable. For more details, please refer to “Outstanding Litigation and Material Developments” on page 350.

7. *We depend on a limited number of clients for a significant portion of our revenues. The loss of a major customer or significant reduction in demand from any of our major clients may adversely affect our business, financial condition, results of operations and prospects.*

We derive a significant portion of our revenues from a limited number of clients. Significant revenue from a limited number of clients increases the potential volatility of our results and exposure to individual contract risks. We may be required to accept onerous contractual terms in our contracts for projects awarded to us by such clients.

As our business is currently concentrated among relatively few significant customers, we may experience reduction in cash flow and liquidity and our business would be negatively affected if we lose one or more of our major customers or if the amount of business from one or more of them is significantly reduced for any reason, including as a result of a dispute with or disqualification by a major customer. However, there were no past instances where we have experienced any losses or decrease in revenue due to loss of any major client. For further information, please refer to the chapter titled “Our Business” on page 207 of this Red Herring Prospectus.

8. Our Top 10 Suppliers contribute a significant portion of our raw material Any dispute with one or more of them may adversely affect our business operations.

Our company depends upon a limited number of suppliers for procuring raw materials used in the manufacturing process. However, As of March 31, 2026, our company has experienced a reduction in reliance on the top 10 suppliers, despite previously depending on a limited number of suppliers for these needs.

Though we have not faced any difficulties or loss of any material supplier in the last three preceding financial years. However, we cannot assure you that we will not face any such situations in the future, or the procurement of services and ad space will be on commercially viable terms. Furthermore, any dispute with any of the suppliers may damage our relationship with existing and potential suppliers, and in any such event our operations will be adversely affected. Further it will also affect our profitability and reputation in the market. However, there were no past

instances where we have experienced any losses due to the loss of any supplier.

9. Our Company is dependent on third parties for the supply of raw materials required for our products and is exposed to risks relating to fluctuations in prices and shortage of raw material. Further, we do not have any long-term supply agreements with the raw material providers.

The raw material costs are subject to fluctuations. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delay in their supply of raw materials. If we experience a significant or prolonged shortage of raw materials from any of our suppliers and we cannot procure the raw materials from other sources, we will not be able to fulfill product delivery schedules on time, which would adversely affect our sales, margins and customer relations. Further, in the absence of any long term supply agreements, we cannot assure that a particular supplier will continue to supply raw materials to us in the future. In the event the prices of such raw materials were to rise substantially, we may find it difficult to make alternative arrangements for suppliers of our raw materials, on the terms acceptable to us, which could materially affect our business, results of operations and financial condition. However, there were no past instances during the preceding three financial years where we have experienced any fluctuation in prices or shortage of raw material.

10. We had negative cash flows from operating, investing and financing activities as per the restated financial statements in the past and may continue to have negative cash flows in the future.

Our company has experienced negative cash flow from "Operating Activities" during the Financial Year, primarily due to an increase in Trade Receivables and Short-Term Loans & Advances. Additionally, we recorded negative cash flow from "Investing Activities" in the financial year, mainly as a result of investments and the acquisition of tangible assets. Furthermore, negative cash flow from "Financing Activities" in financial years was attributed to the repayment of loans and associated interest costs. A continuation of negative cash flow in the future may have an adverse impact on our business, financial condition, and operational results. For further details, please refer to the section titled "Financial Information as Restated" on page 310 of this Red Herring Prospectus.

The table given below set forth our cash flows for the year ended March 31, 2026, March 31, 2025 and March 31, 2024 on the basis of its restated financial statements.

11. Contracts in our order book are subject to modification, cancellation, or suspension at the discretion of our clients. As a result, the order book may not be a reliable indicator of our future revenues or profitability.

As of May 31, 2026, our order book for our business was approximately Rs. 18,105.44 Lakhs from all the divisions. However, there can be no assurance that the contracts included in our order book will be realized as revenue or, if realized, will result in profit. During periods of economic slowdown or market instability, the likelihood of contract adjustments, cancellations, or suspensions may increase. Any such delays or cancellations could adversely impact our cash flows, revenues, and profitability.

While we have not experienced cancellations, terminations, or suspensions of contracts in the past three years, we cannot assure you that the same will not be occurred in future.

12. Some of our company's property used as its Registered offices, factory and branch office for the purpose of its operations is not owned by us. Any termination of the relevant lease agreements could adversely affect our operations.

The registered offices and manufacturing facility used by the company are not owned by the company, the same has been taken on lease. Any termination of the relevant lease agreements in connection with such properties or our failure to pay annual lease rental, could adversely affect our operations. Periodic renewals of such lease may increase our costs, since it is subject to rent escalation.

In the event we are required to vacate the current premises, we would be required to make alternative arrangements for new premises and other infrastructure and facilities. We cannot assure that the new arrangements will be on terms that are commercially favourable to us. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition.

The Property are on lease/sub-lease are as follows:

Reason for Delays: The delays were primarily attributable to certain weaknesses and lags in our internal controls, which further contributed to inefficiencies and delays in execution and filings of returns. Our company acknowledge these shortcomings and are actively addressing them to ensure that such delays do not occur in the future.

We regret the delay and assure you of our continued efforts to maintain full compliance in the future by mitigating and taking steps to address and reduce these delays such as:

1. Training and development sessions for the finance team led by Chief Financial Officer.
2. Collaboration with tax consultants and legal advisors, wherever required
3. Purchase of relevant software
4. Preparation of compliance calendar

15. *Clerical Error in Statutory Filing of PAS-3 with RoC and Related Compliance Proceedings*

During the filing of Form PAS-3 with the Registrar of Companies (RoC), certain clerical errors were made. The filing inadvertently stated that the allotment was made at par, i.e., at the face value of ₹10 per share, whereas the actual allotment was made at an issue price of ₹264 per share, comprising a face value of ₹10 and a premium of ₹254 per share. Further, the filing incorrectly mentioned that the allotment was made for cash consideration, while in reality, it was made for consideration other than cash. This resulted in inaccurate disclosure of certain information.

Although these errors were inadvertent and non-material in nature, they constituted a technical non-compliance under the provisions of the Companies Act, 2013. Upon identification, the Company promptly undertook corrective measures and filed a revised PAS-3 along with an adjudication application with the RoC to rectify the lapse.

Details of the adjudication proceedings are as under:

Form	Date of Filing	Description of the Compliance	Status of the Form
GNL-1	September 30, 2025	Filing of adjudication application	Pending with the Authority

While the Company believes that this error does not impact its financial position or operations, and the adjudication process is a recognized legal remedy for such lapses, there can be no assurance that the authorities will not impose penalties or other conditions. Any such outcome may subject the Company to regulatory scrutiny or reputational risk and could marginally affect its compliance track record.

16. *Our Company may incur penalties or liabilities for non-compliances with certain provisions of the Companies Act and other applicable laws in the last three (3) Years.*

Our Company have made delays in compliance with certain statutory provisions of the Companies Act, 2013. Such delayed filings may attract penalties and prosecution against the Company and its directors, which could impact the financial position of the Company to that extent.

* As certified by M/s. Abhishek Singh Rawat & Associates, Practicing Company Secretaries, dated June 12, 2026.

There may be recurrences of similar discrepancies in the future that could subject our company to penal consequences under applicable laws. Any such action may adversely impact our business, reputation, and results of operation.

Reason for delays: The delays were primarily attributable to the absence of a dedicated compliance officer in the company. To address these issues, our company has taken proactive steps by appointing a dedicated compliance officer. Mr. Subodh Kumar was appointed as the company secretary and compliance officer on November 25, 2024.

Further, the small size of the company and the limited availability of resources at the time resulted in certain compliances being inadvertently overlooked. Additionally, there were certain lags and weakness in our internal controls, which further contributed to inefficiencies and delays in execution. Our company acknowledge these shortcomings and are actively addressing them to ensure that such delays do not occur in the future.

We regret the delay and assure you of our continued efforts to maintain full compliance in the future by mitigating and taking steps to address and reduce these delays such as:

1. Training and development sessions for the staff.
2. Collaboration with tax consultants and legal advisors, wherever required
3. Preparation of compliance calendar

17. *Our operations are subject to physical hazards and similar risks that could expose us to material liabilities, loss in revenues and increased expenses.*

Our operations are subject to hazards inherent in providing manufacturing facilities and fabrication, such as risk of equipment failure, work accidents, fire or explosion, including hazards that may cause injury or loss of life, severe damage to and destruction of property and equipment, and environmental damage. Our policy of covering these risks through contractual limitations of liability, indemnities and insurance may not always be effective and this may have a material adverse effect on our reputation, business, financial condition and results of operation.

Even though our company has not encountered any instances of physical hazards and any similar risks in past, we cannot guarantee that we will not face this situation in the future, in case of any physical hazards, our business operation could be affected.

18. *Failure to Safeguard Confidential Project Data Could Adversely Affect Our Business and Financial Performance.*

Our business involves handling confidential technical data and project-specific information related to Indian Railways and other government clients. This includes engineering specifications, control system configurations, software code, and project documentation. Ensuring the confidentiality and security of such information is critical to maintaining client trust and contractual compliance. While we have implemented strict access controls and have not experienced any data breaches in the last three financial years, any future breach or unauthorized access could adversely affect our operations, reputation, and financial performance.

While we have not experienced any data breaches or incidents of unauthorized access in the past, we cannot guarantee that such breaches will not occur in the future.

19. *Our funding requirements and proposed deployment of the Net Proceeds have not been appraised by a bank or a financial institution and if there are any delays or cost overruns, we may have to incur additional cost to fund*

the objects of the Issue because of which our business, financial condition and results of operations may be adversely affected.

We intend to utilise the Net Proceeds for the purposes set out in the chapter titled “Objects of the Issue” on page 127 of this Red Herring Prospectus. The funding requirements, which primarily pertain to working capital needs, have not been appraised by any bank or financial institution. Further, no monitoring agency will be appointed to oversee the utilisation of the Net Proceeds. The proposed deployment is based on current internal management estimates and prevailing market conditions and may be subject to revision due to changes in external circumstances, cost structures, financial condition, or business strategy.

Given the competitive and dynamic nature of our industry, we may revise our business plans or internal projections from time to time, which could also alter our working capital requirements. These internal estimates may not reflect fair market values or third-party assessments, potentially requiring rescheduling or reallocation of the Net Proceeds. This could adversely affect our business operations, financial condition, results of operations, and cash flows.

Until the Net Proceeds are fully deployed for the intended purposes, our Company retains the flexibility to temporarily invest the funds in deposits with one or more scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934. Accordingly, prospective investors will need to rely on our management’s discretion regarding the use of Net Proceeds. If we are unable to utilise the Net Proceeds as intended or in a timely manner, we may not realise the anticipated benefits, which could negatively impact our business and financial performance.

- 20. *As an integral aspect of our business operations, it is necessary for us to provide bank guarantees and additional guarantee. Failing to secure these guarantees or the activation of such guarantees has the potential to negatively impact our cash flows and financial standing.***

In alignment with industry norms, our operational framework necessitates the provision of performance bank guarantees in fulfilment of contractual obligations for our projects. Typically, these guarantees are issued to the relevant authorities with whom contractual arrangements for our projects have been established. However, a potential challenge lies in consistently securing new performance bank guarantees to commensurate with our operational requirements. Difficulties in providing sufficient collateral to underpin these guarantees or letters of credit may impede our capacity to enter into new contracts and procure essential supplies. Such limitations could lead to a material adverse impact on our business, operational outcomes, and financial standing. Moreover, the procedural complexities associated with acquiring letters of credit, as well as financial and performance bank guarantees, have a tendency to augment our working capital needs. The occurrence of unforeseen circumstances may render us incapable of meeting any or all our contractual obligations pertaining to ongoing projects, potentially leading to defaults under our contracts and subsequent invocation of the bank guarantees issued by us. In the event of such an invocation, there exists the potential for a substantial adverse impact on our business and financial performance.

- 21. *Majority of our revenues from operations are derived from the State of Uttarakhand. Any loss of business from this state may adversely affect our revenues and profitability.***

Our company operates its business operations from its registered office and manufacturing facility. Although, our business operations span various regions across India, State of Uttarakhand contributes to a substantial portion of our revenues for the year ended on March 31, 2026, 2025 & 2024. Any factors relating to political and geographical changes, growing competition, economic downturn, natural disasters and any change in demand may adversely

affect our business. We cannot assure that we shall generate the same quantum of business, or any business at all, from this state, and loss of business from this state could adversely affect our revenues and profitability. However, we confirm that no such adverse event has occurred during the past three financial years.

The contribution of the State of Uttarakhand to our total revenue is as follows:

(Amount in Lakhs)

Particulars	For the financial year ended					
	March 31, 2026		March 31, 2025		March 31, 2024	
State	Amount	(%)	Amount	(%)	Amount	(%)
Uttarakhand	8,492.91	59.01%	6,546.23	53.89%	5,870.81	59.17%

Note: The percentages listed above are calculated as a percentage of Revenue from Operations based on restated standalone financial statement.

22. ***Our projects are generally assigned to our organization upon fulfillment of specified pre-qualification prerequisites and subsequent engagement in a competitive tendering procedure. Any failure to secure new projects or premature termination of contracts awarded to us could potentially have adverse repercussions on both our business operations and financial standing.***

Our organization typically secures projects through a competitive bidding process, subject to meeting established technical and financial pre-qualification criteria. Although factors such as a proven track record, project execution expertise, service quality, safety records, qualified personnel, reputation, and financial adequacy play pivotal roles in contract allocation, there exists no guarantee that we will successfully meet these technical and financial qualification criteria for all contracts either individually or through with joint ventures. Although, as on date we have not participated in tender process through collaboration with any other entity.

Furthermore, after fulfilling the pre-qualification requirements, projects are commonly awarded based on the price competitiveness of the submitted bid. The preparation and submission of bids entail incurring costs, time, efforts and resources of the company. Despite being pre-qualified, we cannot ensure our participation in the bidding process, nor can we guarantee that our bids, will secure the awarding of projects to our organization.

In case we encounter challenges in independently meeting the pre-qualification criteria necessary for participating in substantial marine chillers projects, collaboration with third parties may become imperative for joint bidding endeavours. However, it may expose us to competition from other entities in a similar position seeking partners for pre-qualification requirements.

Additionally, when participating in collaboration-based bids, we face the risk of bid insecurity arising from the negligence or disqualification of our joint venture partners, factors beyond our control. In the event that a joint venture partner fails to fulfill its obligations satisfactorily. While these events have not occurred in the past, these restrictions could limit our operational flexibility, thereby adversely impacting our business, prospects, results of operations, cash flows, and financial condition.

23. ***Any loss of or breakdown of operations at our manufacturing facility may have a material adverse effect on our business, financial condition and results of operations.***

Our manufacturing facilities are subject to operating risks, such as the breakdown or failure of machines, or processes, performance below expected levels of output or efficiency, obsolescence, natural disasters, industrial accidents and the need to comply with the directives of relevant government authorities. The occurrence of any of these risks could significantly affect our operating results. We can be required to carry out planned shutdowns of our plants for maintenance, statutory inspections and testing. Although precautions are taken to minimize the risk of any significant operational issues at our manufacturing facilities, to date, no such incident has occurred. Our business, financial condition and results of operations may be adversely affected by any disruption of operations at our facilities, including due to any of the factors mentioned above.

24. *Our Company could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected. However, there were no past instances during the preceding three financial years where we have experienced any adverse impact on our results of operation, financial performance and reputation due to employee misconduct or errors.

25. *Our procurement of raw materials is majority derived from the State of Delhi, and any disruption in this region may adversely affect our business operations.*

A significant portion of our raw material procurement is concentrated in the State of Delhi. Based on our procurement data for the last three financial years, a majority of our raw materials have been sourced from suppliers located in Delhi. This geographical concentration exposes us to risks relating to regional disruptions, including but not limited to regulatory changes, supply chain interruptions, natural calamities, political disturbances, transportation challenges, or any other unforeseen events affecting the Delhi region.

The contribution of the State of Delhi to our raw material procurement is as follows:

(Amount in Lakhs)

Particulars	For the financial year ended					
	March 31, 2026		March 31, 2025		March 31, 2024	
State	Amount	(%)	Amount	(%)	Amount	(%)
Delhi	4,651.64	49.28%	4,818.98	53.66%	4,565.09	63.12%

Note: The percentages listed above are calculated as a percentage of Revenue from Operations based on restated standalone financial statement.

Any adverse development impacting the availability, pricing, or timely delivery of raw materials from Delhi may materially and adversely affect our procurement process, production schedules, and overall business operations. Although no such disruption or adverse event has occurred in the last three years, there can be no assurance that similar circumstances will not arise in the future.

26. *Our Inability to protect our intellectual property or any claim that we infringe on the intellectual property rights*

of others could erode our competitive advantage and could have a material adverse effect on us.

Our company has recently applied for the registration of our logo and wordmark “IC Electricals”, which is currently pending approval and registration. If we are unable to secure the trademark registration or renew the registration in the future, or if we lose the trademark, it could negatively impact our business operations and harm our brand image and recognition within the industry. For further details, please refer to the “Our Business” section on page 207 of the Red Herring Prospectus.

However, Infringement of third-party intellectual property rights or failure to protect our own intellectual property can have negative consequences. In addition, infringement claims can damage our reputation and discourage potential investors, partners, or customers. Additionally, if we fail to protect our own intellectual property, our competitors or other third parties may copy, steal, or misuse our ideas, products, or services. This can lead to lost revenues, decreased market share, or erosion of our competitive advantage. Moreover, any unauthorized use, reproduction, or distribution of our copyrighted material without our permission will result in legal action and may lead to financial penalties or damage to our brand reputation. It is essential for us to protect our copyrighted material and ensure that it is used only with our permission, to avoid any negative impact on our business operations. Defending our intellectual property rights can be expensive and time-consuming, and we may not be able to prevent others from infringing or challenging our rights.

27. *Our Company has entered into certain related party transactions at arm length price in the past and may continue to do so in the future.*

Our Company has entered into several related party transactions with our Promoters, Directors, Promoter Group and entities forming a part of our promoter group. We undertake that the related party transactions entered into by the company are on arm’s length basis and in compliance with the provisions of Companies Act, 2013 as amended and applicable laws and rules made thereunder.

While we have entered into related party transactions in the past, we cannot assure you that we may not enter into such transactions in the future. However, we confirm that we will comply with the provisions of the companies Act, 2013 SEBI Regulations and other applicable laws or rules made thereunder in respect of the related party transaction to be entered into by the company in future. Further, there can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future. For Further details of Related Party Transaction, please refer to the chapter titled financial statement as restated on page 310 of this Red Herring Prospectus.

28. ***Our Promoters and senior management are integral to our day-to-day operations, and we rely heavily on their industry knowledge, experience, and leadership. They have played a pivotal role in our growth and success. Any inability to retain our Promoters, key managerial personnel (KMPs), or senior management personnel (SMPs) could adversely affect our business operations and future performance.***

We benefit greatly from the experience and leadership of our Promoters, Mr. Sunil Kumar Verma and Mrs. Renu Verma, who collectively possess over 30 years of experience in the electrical industry. Their in-depth industry knowledge, strategic guidance, and strong relationships with customers and stakeholders have been instrumental in shaping our growth and operations. Consequently, our business performance is heavily dependent on their

continued association.

If either of our Promoters were to discontinue their role or become unable or unwilling to continue, it could disrupt our strategic direction, impact key relationships, and adversely affect our business, financial condition, and future prospects. Finding suitable replacements may be difficult given the critical role they play.

Additionally, our ability to retain other key managerial personnel (KMPs), senior management personnel (SMPs), and skilled employees is essential for our ongoing operations and expansion. As we grow and diversify, we may face difficulties in attracting and retaining qualified talent, particularly when competing with larger companies offering more attractive compensation packages. High attrition or inability to hire and retain talent may negatively impact our operational efficiency, growth trajectory, and financial performance.

29. *Our promoter and member of promoter group jointly will continue to have majority control over our Company will may allow them to determine the outcome of matters submitted to shareholders for approval.*

Upon completion of this Issue, our Promoters and member of promoter group will collectively hold 1,11,29,100 Equity Shares 60.94% of the post-issue equity share capital of our Company and also continue to enjoy remuneration or benefits, reimbursements of expenses. As a result, Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval subject to applicable laws and regulations applicable on our Company. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, undertaking sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interests of our Company.

30. *Some of our company's Board of Directors do not have experience of listed companies.*

Our company's Board of Directors consists of both executive and non-executive directors. Some of our directors do not have any experience of listed companies. This inexperience gives rise to risks including but not limited to compliance risk making us more prone to fines and penalties or notices from regulatory authorities which in turn give rise to reputational risk and governance risk. Furthermore, directors may not able to provide effective guidance or give erroneous disclosures or intimation as required due to lack of experience.

31. *Fluctuation of Interest rate may adversely affect the Company's business.*

For meeting the working capital requirement in ordinary course of our business, we have or may enter into certain borrowing agreements to meet those requirements. In the event interest rates increase, the cost of borrowing will also be increased, and any fluctuation in the interest rate may have the adverse effect on cash flow and profitability.

As of period ended March 31, 2026, our Company's total outstanding secured borrowings amounted to ₹4512.06 lakhs on a consolidated basis and ₹4383.78 lakhs on a standalone basis. Unsecured borrowings stood at ₹3030.43 lakhs on both a consolidated and standalone basis.

32. *Complex and time-consuming tendering processes, particularly with respect to tenders issued by the Ministry of Railways and its associated entities, may adversely affect our ability to secure contracts and impact our revenues and profitability.*

A substantial portion of our business is derived from contracts awarded by the Ministry of Railways and its associated entities, including Zonal Railways, production units and railway public sector undertakings. The tendering processes followed by such entities are typically complex, highly structured and time-consuming, involving stringent technical eligibility criteria, extensive documentation requirements, multiple stages of evaluation and approvals, and prolonged timelines for finalisation of bids.

Delays in tender finalisation, deferment, modification, cancellation or re-invitation of tenders, or rejection of our bids despite technical qualification by the Ministry of Railways and its associated entities may adversely affect our order inflows, project commencement schedules and revenue recognition. Further, prolonged tendering cycles may result in increased bid preparation costs, inefficient deployment of resources and uncertainty in business planning.

Additionally, tendering processes of the Ministry of Railways and its associated entities are subject to policy changes, procedural requirements, administrative approvals and budgetary considerations, which are beyond our control. Any inability to successfully navigate such complex and time-consuming tendering processes may have a material adverse effect on our business, financial condition, results of operations and cash flows.

33. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.*

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any fraud or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. There can be no assurance that additional deficiencies or lacks in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies or lacks in our internal controls. If internal control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition. However, during the preceding three financial years, there have been no instances where we were unable to manage or accurately report our financial risks due to ineffective internal control systems.

34. *We require certain approvals and licenses in the ordinary course of business and the failure to successfully obtain/renew such registrations would adversely affect our operations, results of operations and financial condition.*

We are governed by various laws and regulations for our business operations. We are required, and will continue to be required, to obtain and hold relevant licenses, approvals and permits at state and central government levels for doing our business. Additionally, we will need to apply for renewal of certain approvals, licenses, registrations and permits, when expire.

While we have obtained a significant number of approvals, licenses, registrations and permits from the relevant authorities. There can be no assurance that the relevant authority will issue an approval or renew expired approvals within the applicable time period or at all. Any delay in receipt or non-receipt of such approvals, licenses, registrations and permits could result in cost and time overrun or which could affect our related operations. Furthermore, under such circumstances, the relevant authorities may initiate penal action against us, restrain our operations, impose fines/penalties or initiate legal proceedings for our inability to renew/obtain approvals in a timely manner or at all.

These laws and regulations governing us are increasingly becoming stringent and may in the future create substantial compliance or liabilities and costs. While we endeavour to comply with applicable regulatory requirements, it is possible that such compliance measures may restrict our business and operations, result in increased cost and onerous compliance measures, and an inability to comply with such regulatory requirements may attract penalty. For further details regarding the material approvals, licenses, registrations and permits, which have not been obtained by our Company or are, pending renewal, see “Government and Other Approvals” on page 371 of this Red Herring Prospectus.

35. *Our limited brand visibility outside the government sector may restrict our ability to expand our customer base and adversely affect our growth prospects.*

A significant portion of our business is derived from contracts awarded by government and public sector entities, including the Ministry of Railways and its associated entities. As a result, our brand recognition and market presence are primarily concentrated within the government sector. We have relatively limited brand visibility and recognition in the private sector and other non-government markets.

Our dependence on government contracts may constrain our ability to diversify our customer base and expand into new geographies or industry segments. Limited brand visibility outside the government sector may affect our ability to compete with established private-sector players, secure private contracts, negotiate favourable commercial terms, or achieve sustainable growth outside government-led projects.

Any inability to enhance our brand visibility and establish a strong presence beyond the government sector could have a material adverse effect on our business, financial condition, results of operations and cash flows.

36. *Our Company has unsecured loans from promoters and directors that are repayable on demand, and any demand for repayment could adversely affect our liquidity, cash flows, and financial condition.*

Our Company has received unsecured loans from its promoters which are repayable on demand. Such loans provide short-term funding support; however, since they are callable at the discretion of the promoters and directors, any demand for repayment, whether in whole or in part, may exert immediate pressure on our liquidity and working capital position.

The outstanding unsecured loans from promoters during the last three financial years are set out below:

On the Basis of Restated Consolidated Financial Statement:

(Amount in Lakhs)

Nature of Transactions	For the Financial Year 2026	For the Financial Year 2025	For the Financial Year 2024
------------------------	-----------------------------	-----------------------------	-----------------------------

	Amount	% of Revenue	Amount	% of Revenue	Amount	% of Revenue
Unsecured Loan						
Sunil Kumar Verma	327.27	2.29%	328.07	2.69%	458.62	4.62%
Safe System India Private Limited	700.00	4.89%	700.00	5.74%	-	-
Akansha Verma	22.46	0.16%	22.71	0.19%	18.36	0.18%
Davisha Verma	29.35	0.21%	49.35	0.40%	14.35	0.14%
Renu Verma	225.33	1.58%	8.73	0.07%	9.73	0.10%
SHBD LLP	208.4	1.46%	179.89	1.48%	265.64	2.68%
Savita Sachdeva	11.14	0.08%	5.29	0.04%	5.29	0.05%

In the event that repayment of these unsecured loans is demanded, we may be required to utilize internal accruals, divert funds allocated for business operations or capital expenditure, or obtain alternative financing. There can be no assurance that such alternative funding would be available on acceptable terms or at all.

Further, repayment of promoter loans may increase our dependence on external borrowings, resulting in higher finance costs and possible restrictions under financing arrangements. Any inability to manage or refinance such obligations in a timely manner could adversely affect our business, liquidity, cash flows, financial condition, and results of operations. However, we confirm that no demand for repayment of such promoter loans has been made during the last three financial years.

37. *There is no monitoring agency appointed by our Company and the deployments of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

We intend to use the Net Proceeds for the purposes described in chapter titled “Objects of the Issue” on page 127. The funding requirements mentioned as a part of the objects of the Issue have not been appraised by any bank or financial institution. The deployment of the funds as stated under chapter “Objects of the Issue” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency.

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above Rs. 5,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the Audit Committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

38. *Our insurance coverage in connection with our business may not be adequate and may adversely affect our operations and profitability.*

Our Company has obtained insurance coverage in respect of certain risks. For details in relation to our insurance policies, please refer to the chapter titled “Our Business” beginning on page 207 of this Red Herring Prospectus. The insurance policies are renewed periodically to ensure that the coverage is adequate, however, our insurance policies do not cover all risks. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds our insurance coverage, our business, financial condition and results of operations may be affected adversely. While we have not encountered such issues till date, there remains a possibility that we may face such challenges in the future, which could adversely affect our business.

Further, in case of instances which are beyond the scope of coverage under the insurance policies taken by the company, our business, financial condition and results of operations may be affected adversely.

39. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the Issue Price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company could be lower than the Issue Price decided by the Company in consultation with the Lead Manager. The details of the number of shares held by each Promoter and their respective average acquisition cost are as follows:

Name of the Promoter	No. of Shares held	Average cost of Acquisition (in Rs.)
Mr. Sunil Kumar Verma	13,53,840	6.85
Mrs. Renu Verma	7,77,300	3.57
Ms. Aakansha Verma	4,05,000	3.33
Ms. Davisha Verma	-	-
Mrs. Savita Sachdeva	5,58,840	11.86
M/s SHBD LLP	15,00,000	3.33
M/s Safe System India Private Limited	52,69,620	3.33

**As certified by auditor M/s K G A R & CO., Chartered Accountants, dated June 15, 2026.*

40. *Our Company's operation and growth is dependent upon successful implementation of our business strategies.*

The success of our business inter alia depends on our ability to effectively implement our business and growth strategies as mentioned in the chapter "Our Business" on page 207 of the Red Herring Prospectus. In the past, we have generally been successful in the execution of our business strategies but there can be no assurance that we will be able to execute our strategy effectively and within the estimated budget in the future.

Following are factors that can affect our ability to effectively implement our business strategies:

1. Our inability to maintain our working capital requirements.
2. Our inability to qualify for or win bids from governments and to fulfill the specified pre-qualification prerequisites and subsequent engagement in a competitive tendering procedure.
3. Our inability to attract and retain qualified personnel.
4. Our inability to provide quality services.
5. Our inability to update and adapt to new technology.

If we are unable to address these factors, there could be a material adverse effect on our business and results of operations.

41. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.*

Effective internal controls are necessary for us to prepare reliable financial reports and effectively prevent and detect any fraud or misuse of funds. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may decline over time. There can be no assurance that additional deficiencies or lacks in our internal controls will not arise in the future, or that we will be able to implement and continue to maintain adequate measures to rectify or mitigate any such deficiencies or lacks in our internal controls. If internal

control weaknesses are identified in a delayed manner, our actions may not be sufficient to correct such internal control weakness. Such instances may also adversely affect our reputation, thereby adversely impacting our business, results of operations and financial condition.

42. ***Certain Agreements, deeds or licenses and certificates may be in the previous name of the company, we have to update the name of our company in all the statutory approvals and certificates due to the conversion of our Company.***

Some of our agreements, licenses, deeds, and certificates continue to reflect our former name, “IC Electricals Company Private Limited.” We are currently in the process of updating these documents to reflect our new name, “IC Electricals Company Limited.” However, there is no assurance that all such updates will be completed in a timely manner. Any failure or delay in updating these records could disrupt our business operations and may lead to legal challenges, increased compliance costs, or regulatory hurdles, which could adversely impact our financial condition and overall performance.

43. ***Certain key performance indicators for certain listed industry peers included in this Red Herring Prospectus have been sourced from public sources and there is no assurance that such financial and other industry information is complete.***

Pursuant to the requirements of the SEBI ICDR Regulations, we have included certain key performance indicators, comprising financial and operational information, for certain listed industry peers, in the “Basis for Issue Price” beginning on page 137 of the Red Herring Prospectus. Although this information is sourced from and relied upon on the audited financial statements of the relevant listed industry peers as available on the websites of the Stock Exchanges, including the annual reports of the respective companies submitted to Stock Exchanges, there is no assurance that this information with respect to industry peers is either complete. There may be different methodologies and formulas used to compute various ratios.

44. ***This Red Herring Prospectus contains information from third parties, including an industry report prepared by an independent third-party research agency, Dun & Bradstreet Information Services India Private Limited, which we have commissioned and paid for purposes of confirming our understanding of the industry exclusively in connection with the Offer.***

The industry and market information contained in this Red Herring Prospectus includes information derived from an industry report prepared by ***Dun & Bradstreet Information Services India Private Limited*** (the “Dun & Bradstreet Report”) titled “Industry Report on Electrical & Electronic Components (Railways)” and dated January 29, 2026. The Dun & Bradstreet Report has been commissioned and paid for by us for the purpose of confirming our understanding of the industry exclusively in connection with the Offer. We officially engaged Dun & Bradstreet in connection with the preparation of the Dun & Bradstreet Report pursuant to an engagement letter. The Dun & Bradstreet Report uses certain methodologies for market sizing and forecasting and may include numbers relating to our Company that differ from those we record internally. Given the scope and extent of the Dun & Bradstreet Report, disclosures herein are limited to certain excerpts and the Dun & Bradstreet Report has not been reproduced in its entirety in this Red Herring Prospectus. Accordingly, investors should read the industry-related disclosure in this Red Herring Prospectus in this context. Neither our Company, the BRLMs are related to Dun & Bradstreet. For details, see “Our industry” on page 151 of this Red Herring Prospectus.

Industry sources and publications are also prepared based on information as of specific dates. Industry sources and publications may also base their information on estimates, projections, forecasts, and assumptions that may prove to be incorrect. Due to possibly flawed or ineffective collection methods or discrepancies between published

information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus. Accordingly, investors should not place undue reliance on, or base their investment decision solely on this information.

45. *Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.*

We propose to utilise the Net Proceeds towards the objects of the Company as mentioned in chapter titled Objects of the Issue” beginning on page 127. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be liable to provide an exit opportunity to shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement of our Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

46. *We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the issue proceeds may delay the implementation schedule.*

The proceeds from this Issue will be utilised to fund our working capital requirements and for general corporate purposes, as detailed in the section titled “Objects of the Issue” on page 127 of this Red Herring Prospectus. We have not identified any alternative source of funding for these purposes. Accordingly, any delay or shortfall in raising the required funds through this Issue could impact the timely implementation of our business plans. Furthermore, there can be no assurance that we will be able to execute our proposed plans or strategies within the expected timelines.

47. *The L1 tender system adopted by government authorities may lead to price-based competition, which could adversely affect our margins and profitability.*

A significant portion of our business is derived from contracts awarded by government authorities, including the Ministry of Railways and its associated entities, where contracts are typically awarded based on the lowest price (L1) tender system, subject to meeting technical eligibility criteria. This system places significant emphasis on price competitiveness and often results in intense price-based competition among bidders.

In order to secure contracts under the L1 tender system, we may be required to submit bids at lower margins, which could adversely affect our profitability. Aggressive pricing by competitors, including larger or better-capitalised players, may further intensify price competition and lead to price wars, making it difficult to maintain sustainable margins.

Further, winning bids at lower prices may increase the risk of cost overruns, particularly in the event of delays, changes in project scope, escalation in input costs or unforeseen execution challenges. Any inability to accurately estimate project costs or manage execution efficiently under competitively priced contracts may adversely affect our financial performance.

Although we are a technology-based company and our specialized technical capabilities, experience and compliance with stringent eligibility criteria enable us to compete effectively and mitigate certain competitive risks, there can be no assurance that such factors will fully offset pricing pressures inherent in the L1 tender framework.

Continued reliance on the L1 tender system and sustained price-based competition may have a material adverse effect on our business, financial condition, results of operations and cash flows.

48. *Delays in execution of railway projects may adversely affect our revenues, profitability and cash flows.*

A substantial portion of our business comprises execution of projects awarded by the Ministry of Railways and its associated entities, including Zonal Railways and railway public sector undertakings. Railway projects are typically large-scale, complex and executed over extended timelines, and are subject to multiple dependencies and approvals.

Execution of such projects may be delayed due to factors beyond our control, including delays in site handover, changes in project scope, design modifications, availability of drawings and approvals, coordination with multiple contractors, logistical challenges, disruptions in supply of materials, labour shortages, safety requirements, weather conditions, and delays in approvals from railway authorities.

Delays in project execution may result in deferment of revenue recognition, cost overruns, under-utilisation of resources, imposition of liquidated damages and working capital pressures.

Any inability to complete railway projects within the stipulated timelines, or frequent delays in execution, may adversely affect our reputation with railway authorities and have a material adverse effect on our business, financial condition, results of operations and cash flows.

49. *The Company's business is dependent on continuous research and development ("R&D") activities, and any inability to successfully develop new products in a timely and cost-effective manner could adversely affect our business, results of operations and financial condition.*

Our future growth and competitiveness depend significantly on our ability to develop, improve and commercialise new products, technologies and solutions for the Ministry of Railways in a timely and cost-effective manner. Our R&D activities require substantial investment, long development and testing cycles, and involve inherent uncertainties relating to technical feasibility, regulatory and safety compliance, field performance, and acceptance by the Ministry of Railways and other associated government authorities. Any delays, technical challenges, requirement of additional trials, changes in specifications, or unsuccessful outcomes in our R&D efforts may adversely affect our ability to introduce products that meet the evolving standards, tender requirements or operational expectations of the railways sector.

Further, changes in technological requirements, safety norms, or procurement specifications issued by the Ministry of Railways, as well as advancements by competitors, may render our existing products or ongoing development work inadequate or obsolete. Failure to anticipate such changes, allocate adequate resources, or retain and attract experienced R&D personnel with domain expertise in railway technologies may limit our ability to innovate

effectively.

Although we have not experienced any material adverse impact arising from delays or failures in our R&D activities relating to railway products in the last three financial years, there can be no assurance that we will continue to successfully achieve the expected outcomes of our R&D initiatives in the future. Any such inability may adversely affect our business, financial condition and results of operations.

50. *Compliance with environmental, health and safety laws and labour-related regulations may increase our operational costs, and any changes or non-compliance could adversely affect our results of operations and financial condition.*

Our business operations are subject to an environmental, health and safety laws, labour laws, workplace regulations, and other statutory requirements applicable to companies operating in India. Compliance with these regulations may require us to incur ongoing costs relating to safety measures, employee welfare, environmental protection, statutory payments, and periodic regulatory filings.

Any amendments, introduction of new regulations, or stricter enforcement practices may increase our compliance obligations and associated costs. Failure to comply with applicable environmental, health and safety laws or labour-related laws may result in penalties, fines, operational interruptions, legal proceedings, or adverse reputational impact.

While we have not experienced any material non-compliance, penalties, or regulatory actions under environmental, health and safety laws or labour laws in the past three financial years, there is no assurance that we will not face increased compliance requirements, additional costs, or regulatory scrutiny in the future. Any such developments may adversely affect our business, results of operations, and financial condition.

51. *Our ability to raise capital at competitive costs depends on our credit ratings, and any downgrade or adverse rating action may increase our borrowing costs and limit our access to funding.*

Our borrowing capacity and the interest rates at which we are able to obtain loans are significantly influenced by our credit ratings. Any downgrade in our credit ratings, change in rating outlook, or assignment of a lower-than-expected rating may adversely impact our ability to secure debt financing on favorable terms. A weaker credit rating may lead to higher interest rates, stricter borrowing conditions, reduced credit limits, or reluctance on the part of lenders to extend further credit.

Such adverse rating actions may also affect the confidence of financial institutions and impact the availability and cost of working capital or long-term loans. Although we have not faced any rating downgrade or adverse rating action in the last three financial years, there can be no assurance that we will not face such developments in the future.

Any unfavorable credit rating action may adversely affect our liquidity position, operational requirements, and future business growth.

52. *Our directors previously served on the Board of a company that was struck off due to non-filing of financial statements, and this may adversely impact the perception of our Company.*

Our directors previously served as a director of Safe Vacations Private Limited, a company that was struck off by

the Registrar of Companies due to non-filing of its financial statements. We understand that the said company was struck off after our Director had tendered his resignation and ceased to be associated with the company.

While the non-filing and consequential strike-off occurred after his resignation, the past association of our Director with a company that has been struck off may nevertheless result in an adverse perception among investors, regulators, customers, or other stakeholders. Any such perception could potentially impact the reputation of our Company. There can be no assurance that this will not affect stakeholder confidence in the future.

53. *Current promoters are not the original promoters of the Company*

The current promoters of the Company, namely Mr. Sunil Kumar Verma, Mrs. Renu Verma, Ms. Aakansha Verma, Ms. Davisha Verma, Mrs. Savita Sachdeva, M/s SHBD LLP and M/s Safe System India private limited, are not the original promoters of the Company. At the time of incorporation, the initial subscribers and original promoters were Mr. Ajay Agarwal, Mr. Vinod Kumar Agarwal and Mr. Giraj Kishore Agarwal. The change in promoter occurred pursuant to subsequent acquisition of shares and change in control in accordance with applicable laws.

Although the Company has been under the management and control of the current promoters for a considerable period, investors may perceive the transition from the original promoters to the present promoters as a potential risk. Any historical information, legacy decisions or commitments undertaken prior to the change in promoter group may not be fully attributable to the current promoters. Further, the business strategies, management practices and long-term vision of the current promoters may differ from those of the original promoters, leading to uncertainties regarding continuity of past policies. Accordingly, there can be no assurance that such transition will not have any adverse effect on the Company's operations, perception in the market, or business performance.

54. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive, and declaration of dividend will depend upon the financial performance of our Company at the time of declaration. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements (if any) in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past and there can be no assurance that our Company will declare dividends in the future. For further details, please refer to the chapter titled "Dividend Policy" on pages 309 of this Red Herring Prospectus.

55. *Our Company's future funding requirements, in the form of further issue of capital or other securities and/or loans that might be availed by us, may turn out to be prejudicial to the interest of the shareholders depending upon the terms and conditions on which they are raised.*

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing shareholders, and such issuance may be done on terms and conditions, which may not be favourable to the existing shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

RISKS RELATED TO THE ISSUE:

- 56. *Equity Shares of our Company have never been publicly traded, and after the Issue, the Equity Shares may be subject to price and volume fluctuations, and an active trading market for the Equity Shares may or may not develop. Further, the Issue Price may not be indicative of the market price of the Equity Shares after the Issue.***

Prior to this Issue of our Company, no public market existed for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation of Equity Shares does not guarantee that a market for the same will develop, or if developed, the liquidity of such market for the Equity Shares cannot be guaranteed. The Issue Price of the equity Shares is proposed to be determined through a book building process in compliance with Schedule XIII of the SEBI ICDR and the same may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The Issue Price will be based on numerous factors, as described in the section “Basis for Issue Price” beginning on page 137. This price may not necessarily be indicative of the market price of our Equity Shares after the Issue is completed. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in.

Our Equity Shares are expected to trade on NSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops, that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

- 57. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Individual Investors are not permitted to withdraw their Bids after closure of the Bid/ Issue Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until the Bid/ Issue Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within six Working Days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors’ decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors’ ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

- 58. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.***

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors’ book entry, or ‘demat’ accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in the Issue and the credit of such Equity Shares to the applicant’s demat account with depository participant could take approximately five Working Days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid/ Issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity

Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

59. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position*

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

60. *A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.*

As a listed Indian company, there are provisions in Indian legal regime that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

EXTERNAL RISK FACTORS:

61. *Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

62. *A slowdown in economic growth in India may adversely affect our business, financial condition, cash flows, results of operations and prospects.*

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by Centre or state political instability or regional conflicts, a general rise in interest rates, inflation, and economic slowdown elsewhere in the world or otherwise. Further, there have been periods of slowdown in the economic growth of India. India's economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our services and demand for our products and, as a result, on our business and financial results. The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

63. *Government regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. Under foreign exchange regulations currently in affect in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the rupees proceeds from the sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the Income Tax authorities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained.

64. *Investors outside India subscribing to this Issue may not be able to enforce any judgment of a foreign court against us, except by way of a suit in India.*

Our Company is a limited liability company incorporated under the laws of India. Our Company's assets are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons in India or to enforce judgments obtained against our Company or such parties outside India. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal

recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore, UAE, and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908, as amended (“Civil Procedure Code”). The United States has not been notified as a reciprocating territory.

In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner.

65. *Any adverse change or downgrading in ratings of India may adversely affect our business, results of operations and cash flows.*

Any adverse revisions to India’s credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

66. *Our performance is linked to the stability of policies and the political situation in India.*

The Government of India has traditionally exercised, and continues to exercise, a significant influence over many aspects of the economy. Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Any political instability in India may adversely affect the Indian securities markets in general, which could also adversely affect the trading price of our Equity Shares. Any political instability could delay the reform of the Indian economy and could have a material adverse effect on the market for our Equity Shares. There can be no assurance to the investors that these liberalization policies will continue under the newly elected government. Protests against privatization could slow down the pace of liberalization and deregulation. The rate of economic liberalization could change, and specific laws and policies affecting companies in the construction sector foreign investment, currency exchange rates and other matters affecting investment in our securities could change as well. A significant change in India’s economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

67. *Natural disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, man-made disasters, including acts of war, terrorist attacks, environmental issues and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations.

Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel

and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

68. *If certain labour laws become applicable, our profitability may be adversely affected.*

India has stringent labour legislations that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Any change or modification in the existing labour laws may affect our flexibility in formulating labour-related policies.

69. *Financial instability in other countries may cause increased volatility in Indian and other financial markets.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

70. *Under Indian legal regime, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares. Accordingly, our ability to raise foreign capital may be constrained.*

As a company incorporated in India, we are subject to exchange controls that govern the borrowings in foreign currencies. Further, under applicable foreign exchange regulations in India, transfer of shares between non-residents

and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified under applicable laws. If share transfer is not in compliance with such requirements and does not fall under any of the permissible exceptions, then prior approval of the relevant regulatory authority is required. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness.

**Subject to Finalization of Basis of Allotment*

*** As per the Regulation 253 of the SEBI (ICDR) Regulations, 2018, and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) (Amendment) Regulations, 2025, as present issue is a Book Building issue the allocation is the net offer to the public category shall be made as follows:*

- a) Not less than Thirty five percent to individual investor who applies for minimum application size.*
- b) Not less than Fifteen percent to non-institutional investor*
- c) Not more than fifty percent to qualified institutional buyers, five percent of which shall be allocated to mutual funds.*

Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in the other category.

Provided further that in addition to five percent allocation available in terms of clause (C), mutual funds shall be eligible for allocation under the balance available for qualified institutional buyers.

Furthermore, as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) (Amendment) Regulations, 2025, the allocation in the non-institutional investors' category shall be as follows:

(a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs.

(b) two thirds of the portion available to non-institutional investors shall be reserved for applicants with application size of more than ₹10 lakhs:

Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors.

Our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will accordingly be reduced for the Equity Shares allocated to Anchor Investors. 33.33% of the Anchor Investor Portion shall be reserved for domestic Mutual Funds and 6.67% for Life Insurance Companies and Pensions funds, as applicable subject to valid Bids being received from them at or above the Anchor Investor Allocation Price.

In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portions shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see “Issue Procedure” on page 400.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, subject to applicable law.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the BRLM, reserves the right not to proceed with the Issue at any time after the Issue Opening Date but before the Board meeting for Allotment. In such an event, our Company would issue a public notice in the newspapers, in which the pre-Issue advertisements were published, within two (2) days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The BRLM, through the Registrar to the Issue, shall notify the SCSBs to unblock the bank accounts of the ASBA Applicants within one (1) day of receipt of such notification. Our Company shall also promptly inform NSE Emerge on which the Equity Shares were proposed to be listed. Notwithstanding the foregoing, the Issue is also subject to obtaining the final listing and trading approvals from NSE Emerge, which our Company shall apply for after Allotment. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an IPO, our Company shall be required to file a fresh Red Herring Prospectus.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company and the BRLM have entered into a tripartite agreement dated June 13, 2026, with Mansi Share and Stock Broking Private Limited, the Market Maker for this Issue, duly registered with NSE Emerge to fulfill the obligations of Market Making:

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time. Following is a summary of the key details pertaining to the Market Making arrangement: The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time. Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of NSE Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs.1,00,000. However, the investors with holdings of value less than Rs.1,00,000 shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
5. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
6. On the first day of the listing, there will be pre-opening session (call auction) and thereafter the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
7. The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

The Market Maker(s) shall have the right to terminate said arrangement by giving a one month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s). In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further, our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our registered office from 11.00 a.m. to 5.00 p.m. on working days.

9. **Risk containment measures and monitoring for Market Makers:** Emerge Platform of NSE will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value- At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
10. **Punitive Action in case of default by Market Maker:** Emerge Platform of NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non- compliances. Penalties

/ fines may be imposed by the Exchange on the Market Makers, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Makers from time to time.

Price Band and Spreads: Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27,2012, limits on the upper side for Markets Makers during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buyquote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs.20 Crore to Rs.50 Crore	20%	19%
Rs.50 Crore to Rs.80 Crore	15%	14%
Above Rs.80 Crore	12%	11%

The Marketing Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/NSE from time to time.

The trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds which are being raised towards funding the following objects and achieve the benefits of listing on the Emerge Platform of NSE.

The objects of the Issue are: -

1. Funding the working capital requirements of our Company.
2. General Corporate Purposes

(Collectively referred to as “Objects”)

Our Company believes that listing will enhance our Company’s corporate image, brand name and create a public market for its Equity Shares in India. The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the Objects clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution.

REQUIREMENT OF FUNDS

The proceeds of the Issue, after deducting Issue related expenses, are estimated to be Rs. [●] lakhs (the “Net Issue Proceeds”).

The following table summarizes the requirement of funds:

S. No.	Particulars	Rupees in Lakhs
1.	Gross Issue Proceeds	[●]*
2.	Less: Issue Related Expenses**	[●]*
	Net proceeds	[●]*

**Subject to finalization of basis of allotment.*

***As per the certificate given by M/s K G A R & CO., Chartered Accountant, dated June 15, 2026, the Company has incurred Rs. 126.19 Lakhs towards issue expenses till March 31, 2026.*

UTILISATION OF FUNDS:

Fund Requirements

Our funding requirements are dependent on a number of factors which may not be in the control of our management, changes in our financial condition and current commercial conditions. Such factors may entail rescheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

We intend to utilize the proceeds of the Fresh Issue, in the manner set forth below:

S. N.	Particulars	Amount (In Rs. Lakh)
1.	Funding the Working Capital requirement	3,360.00
2.	General Corporate Purposes*	[●]
	Total	[●]

**To be finalised upon determination of the Issue Price and updated in the Prospectus prior to filing with the RoC,*

Delhi and the amount to be utilized for general corporate purposes shall not exceed 15% of the amount raised by our Company or Rs. 10 Crores, whichever is lower. in accordance with Regulation 230(2) of the SEBI ICDR Regulation, 2018 read along with SEBI ICDR Regulation (Amendment) Regulations, 2025

Note: Any Additional cost will be borne by the company through internal accruals.

The requirements of the objects detailed above are intended to be funded from the proceeds of the Issue. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy, as discussed further below.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from its fund requirements mentioned below, at the discretion of our management. In case of any shortfall or cost overruns, we intend to meet our estimated expenditure from internal accruals and/or debt. In case of any such re-scheduling, it shall be made by compliance of the relevant provisions of the Companies Act, 2013.

Details of Utilization of Issue Proceeds

1. Working Capital Requirements

We propose to utilize Rs. 3,360.00 lakhs from the Net Proceeds of the Fresh Issue towards funding our Company's working capital requirements. We have significant working capital requirements, and we fund our working capital requirements in the ordinary course of business from our internal accruals and financing facilities from various banks and financial institutions. Our Company requires additional working capital for funding future growth requirements of our Company and for other corporate purposes. We are continuously expanding our business and to fulfil existing and upcoming orders, would require working capital. The company is having 3 divisions manufacturing of electronic components for railways, rotating motor division and EPC work for railways electrification. The major working capital requirement falls under the EPC division of our company due to more stock holding period. The EPC contracts are longer duration project due to providing site availability by the railways. We are always trying to bid for new orders and increase our order book, better our pre-qualification criteria (technical and financial), expand our geographical footprint and take new initiatives towards our business as a part of our projects. In light of the above, our Company will require incremental working capital to fund trade receivables, trade payables and arrange margin money for issuance of Performance and Security Deposit Bank Guarantee.

Basis of Estimation and Key Assumptions for working capital projections made by Company:

The estimates of the working capital requirements for FY 2027 have been prepared based on the management estimates of future financial performance. The projection has been prepared using set of assumptions that include assumptions about future events and management's action that are not necessarily expected to occur. On the basis of existing and estimated working capital requirement of our Company on standalone basis, and assumptions for such working capital requirements, the Board has pursuant to its resolution dated June 15, 2026, has approved the estimated working capital requirements for FY 2027 and the proposed funding of such working capital requirements as set forth below:

*As certified by auditor M/s K G A R & CO., Chartered Accountants, dated June 15, 2026.

i. Working Capital Gap have been determined without borrowings and cash and cash equivalents

*Our Company is required to issue a Performance and Security Deposit Bank Guarantee equal to a fixed percentage of the Work Order, which is around 5%-10% of each of the Work Order value as a Guarantee to the Railways Authority towards performance obligations for the said Work Order. The Performance Bank Guarantee is retained by the customer till Defect Liability Period which generally varies from 2-3 years. The non-fund-based limit is secured by our Company against property and to use the Bank Guarantee the company must give fixed Deposits of 15-25% of non-fund-based limit. This amount of Fixed Deposit is classified under "FD held with bank- Under Other current assets" for the period not more than 12 months, and 'non-current assets' for period above 12 months, as per the maturity of the Fixed Deposit in the Restated Financial Statements. Management is of the opinion that these Fixed Deposit should be classified as part of working capital.

**The Fund-Based is utilized when the NFB limit approved by the bank is fully exhausted. In such cases, the bank will require a 100% Fixed Deposit (FD) to cover the tender value, usually ranging from 5% to 10% of the total

tender amount.

#The EMD (Earnest Money Deposit) deposited or retention money is the major amount resulting to be part of the current assets. Sometimes the bidding of order requires submission of EMD instead of Bank Guarantees which are in form of Fixed Deposits. The Railways Department holds almost 10% of the total contract value as the retention deposit which is released after the time period of 2-3 years, which creates major requirement of working capital limits

The company requires the Working Capital for the execution of the Project, in the form of Fund based & non-fund-based Limit (Bank Guarantee) and EMD. With the increasing number of projects increased working capital is required for smooth functioning. Majorly, the company requires the non-fund base limit:

- The company needs to provide Bank Guarantee (Performance BG, Security BG and Mobilisation BG), after winning the respective bidden Project.

Justification of Working Capital

S. No.	Particulars	Remarks
A	Current Assets	
1	Trade Receivables	<p>The company's trade receivables have historically ranged between 3-4 months (calculated as closing receivables divided by annual revenue × 365 days) over the last three financial years. This variation is mainly due to the specific terms of our work orders and tenders. Since most of our revenue comes directly from the Government and Government-backed projects including railways, our normal debtor cycle ranges between 90-120 days.</p> <p>As a large portion of our revenue is booked in the last quarter of each financial year, the receivable balance at year-end generally appears higher. In FY 2024, due to general elections</p>

		<p>of the country in place the debtor of the company stood at generally higher ratio as compared to the previous year. However, in FY 2025, the company received more payments from debtors during the year and better execution capabilities which led to a reduction in debtor days to 101 days, amounting to Rs.3,369.04 lakhs and 107 days amounting to Rs. 4,216.07 lakhs in FY 2026. Based on the company’s business model and trends, the holding period for receivables is expected to be around 105 days of revenue during FY 2027.</p> <p>Our customer base consists mainly of government authorities mainly railways. Once a contractor reviews the project or goods supplied, a bill is raised, which usually takes 30 days. These bills are then submitted to the Government for approval, which involves inspection and verification, typically adding another 60-90 days. In some cases, bills may be delayed due to contract extensions (EOTs), while a portion of payments is also withheld by the Government, all of which increase receivable days.</p> <p>Trade receivables have increased in line with the company’s business growth—from Rs. 4,207.84 lakhs in FY 2024 and reduced to Rs. 3,369.04 lakhs in FY 2025 and Rs. 4,216.07 lakhs in FY 2026. For FY 2027, we expect receivables to be maintained at around 105 days, amounting to Rs. 5,242.01 lakhs, respectively. Trade receivables remain a key part of our working capital, and their increase reflects the overall growth of our operations.</p>																												
2	Inventory	<p>The inventory is one of the important components of the current assets of the company. The company is having 3 divisions manufacturing of electronic components for railways, rotating motor division and contract division. The major working capital requirement falls under the EPC division of our company due to more stock holding period. The REC (Railway Electrification) contracts are longer duration project due to providing site availability by the railways. The company at present is having major order book towards REC. Out of the total turnover REC contributes approximately 40% of the total revenue. The stock holding levels in other 2 divisions apart from Rec ranges from 3-4 months, while REC leads to stock holding level of 6-9 months. The average holding of level of the company ranges from 6-8 months. Due to major turnover happens in the last quarter of the financial year, the stock holding position is normally high at the year end.</p> <p>The company from the date of inception never had any obsolete stock. The company is majorly working with railways and have never faced any issue in liquidating stock to them. The company at present is have started to bid in the contracts with shorter execution period. Also, with the increased in government spending on railways, the old projects have started at major pace which will further lead to reduction in stock holding period drastically down.</p> <p style="text-align: right;"><i>(Amount in Lakhs)</i></p> <table><tr><th rowspan="2">S. While the absolute value increased, the inventory holding period improved from 264 days to 245 days, indicating better inventory management. The rise is mainly driven by the Manufacturing (Electronic and Rotating Division), where revenue increased significantly from INR 5,246.30 lakhs in FY 2023-24 to INR 6,588.14 lakhs in FY 2024-25, requiring higher procurement to support increased production levels and material stocking for ongoing and upcoming orders. For the projected period, other current assets, stand at Rs. 998.48 Lakhs for FY 2027 as the unbilled revenue and other current assets was increased as overall growth of our operations.</p> <p>Unbilled revenue amounting to Rs. 836.48 lakhs and Rs. 2,111.36 Lakhs was recognised since the related work had been completed but could not be certified and invoiced by the concerned authorities before the end of FY 2024–25 and FY 2025-26 respectively.</p>																														
4	Short Term loans and Advances	<p>The short-term loans and advances contribute advances made to suppliers, balance with Government authorities and advances to staff and others.</p> <p>The company is into manufacturing of products with higher technical and specifications required by railways. The company needs to procure certain specialised products from its vendors against the advance payments only. The balance with Government authorities includes amount related to GST and TDS. The company has employees with average retention period of more than 10 years and have to provide them advances in regular intervals for their continued services.</p> <p>During the last three financial years, amount ranges from Rs.826.32 Lakhs in FY Year 2024 to Rs. 1,193.58 Lakhs in FY 2025 and further increased to Rs. 1,283.62 lakhs due to increase in the advances to suppliers. For the estimated and projected period, other current assets, stand at Rs. 1,897.11 Lakhs for FY 2027.</p> <p>The company expects that upon increasing the advances made to supplier we will get the benefit of better pricing, better services on account of such products being bought. This would ultimately help the company to enhance its bottom-line.</p>																														
3	Trade Payables	<p>Our trade payables have generally ranged between 3–4 months, depending on product requirements and supplier credit terms. The trade payable days were 239,135 and 127 for FY 2024, FY 2025, & FY 2026 respectively.</p> <p>In FY 2024, the company is short of working capital limits and therefore have higher creditor holding period. In FY 2024-25, the company avails sufficient working capital limits from banks and better liquidity position, the creditor holding period drastically reduced to the levels of 135 days which also reflects the increased in bottom line of the company.</p>																														

		<p>The higher payable period reflects the company’s normal trend, as major purchases are usually made in the last quarter of the financial year. In FY 2025, however, the payable period reduced to around 135 days, as we made early payments to suppliers to avail better pricing and in FY 2026 amounting to Rs. 3,663.73 Lakhs.</p> <p>With funds from the issue proceeds, we plan to continue benefiting from early payments, negotiate better pricing, and source from larger suppliers. This strategy is expected to lower costs and improve our EBITDA margin.</p> <p>For FY 2027, the trade payable days are projected at around 75 days, amounting to Rs. 2,804.57 lakhs, respectively.</p> <p>The company has started given more advances to the trade payables; it increases from Rs. 550.61 Lakhs in FY 23-24 to Rs. 727.09 Lakhs in FY 24-25 and getting trade discount or timely delivery or proper supply of good quality raw materials. Similarly, trade payables to other creditors declined from Rs. 2,889.67 lakhs in FY 2023–24 to Rs. 1,808.11 lakhs in FY 2024–25</p>																				
4	Other Current Liabilities	<p>Other current liabilities include Statutory liability payable, Salary Payable, Professional Charges Payables, advances from customers, Security received for bidding and other expenses payable etc.</p> <p>During the last three financial years, amount ranges from Rs. 935.69 Lakhs in FY 2024 to Rs. 1,411.75 Lakhs in FY 2025 and Rs 833.64 lakhs in FY 2026. SECTION IV – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The market information in the report titled “Industry Report on Electrical & Electronic Components (Railways)” dated January 29, 2026 (the “D&B Report”), prepared and released by Dun & Bradstreet (“D&B”), which has been exclusively commissioned and paid for pursuant to an engagement letter, is arrived at by employing an integrated research methodology which includes secondary and primary research. In addition to the primary research, quantitative market information is also derived based on data from trusted portals and industry publications. Therefore, the information is subject to limitations of, among others, secondary statistics and primary research, and accordingly the findings do not purport to be exhaustive. D&B estimates and assumptions are based on varying levels of quantitative and qualitative analyses from various sources, including industry journals, company reports and information in the public domain. D&B research has been conducted with a broad perspective on the industry and will not necessarily reflect the performance of individual companies in the industry.

Forecasts, estimates and other forward-looking statements contained in the D&B Report are inherently uncertain and could fluctuate due to changes in factors underlying their assumptions, or events or combinations of events that cannot be reasonably foreseen. The forecasts, estimates and other forward-looking statements in the D&B Report depend on factors like the recovery of the economy, the competitive environment, amongst others, leading to significant uncertainty, all of which cannot be reasonably and accurately accounted for. Actual results and future events could differ materially from such forecasts, estimates, or such statements.

Further, global economic and Indian Economic outlook on Electrical & Electronic Equipment in Railway based on Indian Industry or global as stipulated in this section has been extracted from various websites and publicly available documents from various industry sources. The data may have been re-classified by us for the purpose of presentation. None of the Company and any other person connected with the Issue have independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured. Industry sources and publications may also base their information on estimates, projection forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on information.

Global Macroeconomic Scenario

Global Economic Overview

Global growth is projected to remain resilient at 3.3 percent in 2026 and at 3.2 percent in 2027, rates similar to the estimated 3.3 percent outturn in 2025. The forecast marks a small upward revision for 2026 and no change for 2027 compared with that in the October 2025 World Economic Outlook (WEO). This steady performance on the surface results from the balancing of divergent forces. Headwinds from shifting trade policies are offset by tailwinds from surging investment related to technology, including artificial intelligence (AI), more so in North America and Asia than in other regions, as well as fiscal and monetary support, broadly accommodative financial conditions, and adaptability of the private sector.

Source – IMF Global GDP Forecast Release January 2026

Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

Historical and Projected GDP Growth

GDP growth across major regions exhibited a mixed trend during 2024–25. While growth in several regions—including Emerging and Developing Asia as well as Latin America and the Caribbean—is expected to slow further in 2026, performance remains uneven across geographies. In Emerging and Developing Asia (comprising economies such as India, China, Indonesia, and Malaysia), GDP growth is projected to moderate to 5.4% in 2026, compared with 5.3% in the previous year. Similarly, in Latin America and the Caribbean, growth is expected to ease to 2.2% in 2026, before rebounding to 2.7% in 2027 as countries in the region approach potential output from differing cyclical positions.

Source-IMF World Economic Outlook January 2026 update.

By contrast, growth in the Middle East and Central Asia is projected to accelerate, rising from 3.7% in 2025 to 3.9% in 2026 and further to 4.0% in 2027. This acceleration is supported by higher oil output, resilient domestic demand, and ongoing structural reforms. Likewise, growth in sub-Saharan Africa is expected to strengthen,

increasing from 4.4% in 2025 to 4.6% in both 2026 and 2027, driven by macroeconomic stabilization and reform efforts in key economies. Meanwhile, in emerging and developing Europe, a sharp slowdown to 2.0% in 2025 is expected to reverse, with the region's economies expanding at an average rate of 2.3% in 2026 and 2.4% in 2027. Across most regions, this recovery also reflects the diminishing effects of recent shifts in global trade policies.

Global Economic Outlook

Since the October 2025 World Economic Outlook (WEO), trade tensions have continued to abate, although they remain subject to occasional flare-ups. A dispute between China and the United States involving controls on exports of semiconductors and rare earth minerals was followed by a truce that reduced bilateral tariffs until November 2026 and introduced a pause on export controls.

In addition, US authorities removed tariffs on some agricultural products for all countries, offsetting the higher tariffs on certain sectors that were previously announced and are now in effect. As a result, the overall US effective tariff rate remains broadly unchanged from the level assumed in the October 2025 WEO although changes for specific countries are significant. The US Supreme Court is widely expected to deliver a decision in early 2026 regarding the president's use of the International Emergency Economic Powers Act. At the same time, newly signed bilateral trade and other agreements, often including substantial investment and purchase commitments with limited public disclosure, have added further complexity. Although policy uncertainty has declined since October, it remains considerably higher than in January 2025.

Global growth in the third quarter of 2025 decelerated to 2.4 percent on an annualized basis, exceeding expectations; however, upside surprises in some countries were offset by downside surprises in others. In France, a boost from aerospace exports lifted growth to 2.2 percent, whereas in Germany, falling exports continued to weigh on activity, thereby leaving real GDP unchanged between the second and third quarters. Meanwhile, Japan's economy contracted by 2.3 percent, as private and government consumption partially offset the contraction driven by declines in private residential investment and exports. At the same time, China's growth decelerated to 2.4 percent (according to staff estimates), with weak domestic demand—particularly in the housing sector—only partly offset by resilient exports.

In contrast, growth in the United States accelerated to 4.3 percent, supported by a pickup in technology investment and expenditure, which is estimated to have added approximately 0.3 percentage point to average annualized GDP growth during the first three quarters of 2025, thereby offsetting the drag from the federal government shutdown in the final quarter of the year. In addition, there are indications that technology-related investment also contributed to economic activity in Spain and the United Kingdom, although the scale of this contribution was smaller than that observed in the United States.

Global Growth Projection

At broader level, the global growth is expected to remain steady, as momentum in high-tech sectors is projected to slow but continue to partly offset the drag elsewhere. While tariffs and elevated uncertainty are expected to weigh on the level of activity, their impact on growth is projected to fade during 2026 and 2027. At 3.3 percent in 2026 and 3.2 percent in 2027, global growth is therefore expected to decelerate slightly from the estimated 3.3 percent recorded in 2025. Compared with the October 2025 World Economic Outlook (WEO), the forecast for 2026 has been revised upward by 0.2 percentage point, whereas the forecast for 2027 remains unchanged. Nevertheless, there are significant revisions for some countries, with changes occurring in different directions.

Growth in advanced economies is projected at 1.8 percent in 2026 and 1.7 percent in 2027. In the United States, economic activity is expected to expand by 2.4 percent in 2026, supported by fiscal policy and a lower policy rate, while the impact of higher trade barriers gradually wanes. This 0.3 percentage point upward revision relative to October reflects a stronger than expected GDP outturn in the third quarter of 2025, a rebound in activity in the first quarter of 2026 compared with the fourth quarter of 2025 following the end of the federal government shutdown, and the associated carryover effects. Looking ahead, growth in the United States is projected to remain solid at 2.0 percent in 2027, supported by a near term fiscal boost from tax incentives for corporate investment under the One Big Beautiful Bill Act of 2025. Although technology driven momentum is expected to moderate, it is still projected to provide a partial offset to lower immigration and moderating consumption.

In the euro area, growth is expected to remain steady at 1.3 percent in 2026 and to increase modestly to 1.4 percent in 2027. The slightly faster growth in 2027 reflects projected increases in public spending, particularly in Germany, alongside continued strong performance in Ireland and Spain. Overall, the forecast remains broadly unchanged from October, with the subdued growth outlook reflecting unresolved structural headwinds. The impact of the planned increase in defense spending is expected to materialize only in subsequent years, as commitments to reach target levels are phased in gradually through 2035. Compared with other regions, the euro area benefits less from the recent technology-driven investment boost. In addition, the lingering effects of persistently higher energy prices following Russia's invasion of Ukraine are expected to continue weighing on manufacturing, with additional pressure stemming from the real appreciation of the euro relative to the currencies of countries exporting similar products. In Japan, growth is projected to moderate from 1.1 percent in 2025 to 0.7 percent in 2026 and to 0.6 percent in 2027. This marks a small upward revision relative to the October figure, reflecting in part the fiscal stimulus package announced by the new government.

In emerging market and developing economies, growth is projected to remain just above 4.0 percent in both 2026 and 2027. Relative to the October forecast, China's growth in 2025 has been revised upward by 0.2 percentage point to 5.0 percent, reflecting the implementation of stimulus measures and additional policy bank lending for investment. Growth in China for 2026 has also been revised upward by 0.3 percentage point to 4.5 percent, as a result of lower effective US tariff rates on Chinese goods following the yearlong trade truce agreed in November, alongside stimulus measures assumed to be implemented over a two-year period. However, the economy's growth rate is expected to decelerate to 4.0 percent in 2027, as structural headwinds increasingly weigh on activity.

India Macroeconomic Analysis

The International Monetary Fund (IMF) has revised upward India's economic growth for CY 2025 by 0.7 percentage point to 7.3%. In its World Economic Outlook update, the IMF stated that the upward revision reflects strong growth momentum in the fourth quarter of the current fiscal year. At the same time, the IMF projects India's growth at 6.4 percent in the CY 2026, noting that despite the expected moderation, India is expected to remain a key driver of growth among emerging market and developing economies. In addition, the IMF expects inflation in India to return to near-target levels following a marked decline in 2025, driven by subdued food prices, which is expected to provide further support to domestic demand. However, the IMF cautioned that AI-driven productivity gains could lead to a pullback in investment and tighter global financial conditions, with spillover effects for emerging economies.

Sectoral analysis of GVA reveals that the industrial sector experienced steady growth momentum in FY 2026, recording a 6.15% y-o-y growth against 5.90% year-on-year growth in FY 2025. Within the industrial sector, growth moderated across sub sector with mining, and construction activities growing by -0.69%, and 7.03% respectively in FY 2026, compared to 2.69%, and 9.35% in FY 2025. Growth in the utilities sector too moderated to 2.07% in FY 2026 from 5.88% in the previous year. The industrial sector's contribution to GVA moderated marginally from 30.66% in FY 2025 to 30.32% in FY 2026.

The services sector continued to be the main driver of economic growth. It expanded by 9.12% in FY 2026 from 7.19% in FY 2025. The services sector retained its position as the largest contributor to GVA, rising from 54.53% in FY 2024 to 54.93% in FY 2025, with a further increase to 55.83% in FY 2026.

The agriculture sector saw an acceleration, with growth increasing from 2.66% in FY 2024 to 4.63% in FY 2025. However, its contribution to GVA declined marginally from 14.41% in FY 2025 to 13.84% in FY 2026. Overall, Gross Value Added (GVA) growth rise to 7.34% in FY 2026 from 6.41% in FY 2025

Annual & Monthly IIP Growth

Industrial sector performance as measured by IIP index exhibited moderation in FY 2025, recording a 4.02% y-o-y growth against 5.92% increase in the previous year. The manufacturing index showed moderation and grew by 4.08% in FY 2025 against 5.54% in FY 2024. Mining sector index too moderated and exhibited a growth of 3.03% in FY 2025 against 7.51% in the previous years while the Electricity sector Index, also witnessed moderation of 5.19% in FY 2025 against 7.07% in the previous year.

The IIP growth rate for the month of November 2025 is 6.7% which was 0.5% in the month of October 2025. The growth rates of the three sectors, Mining, Manufacturing and Electricity for the month of November 2025 were 5.4%, 8.0% and -1.5% respectively.

Annual and Quarterly: Investment & Consumption Scenario

Other major indicators such as Gross fixed capital formation (GFCF), a measure of investments, has shown fluctuation during FY 2025 as it registered 7.06% year-on-year growth against 8.78% yearly growth in FY 2024, taking the GFCF to GDP ratio measured to 33.69%.

Source: Ministry of Statistics & Programme Implementation (MOSPI)

On a quarterly basis, GFCF showed a fluctuating trend in year-on-year growth. After a sharp spike of 66.52% in Q1 FY 2021-22, growth moderated significantly and remained volatile across subsequent quarters. In FY 2024, the growth rate eased to 6.05% in Q3 (Dec quarter) compared to 9.34% in Q2, as government capital spending slowed ahead of the 2024 general election. It improved slightly to 6.65% in Q1 FY 2024-25 but moderated again to 6.70% in Q2 and 5.23% in Q3, before rebounding to 9.41% in Q4. In Q2 FY 2025-26, growth stood at 7.33%, lower than the previous quarter. The GFCF to GDP ratio measured 34.37% in Q2 FY 2025-2026.

Private Consumption Scenario

Sources: MOSPI

Private Final Expenditure (PFCE) a realistic proxy to gauge household spending, observed growth in FY 2025 as compared to FY 2024. Quarterly Private Final Consumption Expenditure (PFCE) has reported 7.95% growth rate during Q2 of FY 2025-26 as compared to the 6.41% growth rate in the corresponding period of previous financial year.

Inflation Scenarioz

The annual rate of inflation based on All India Wholesale Price Index (WPI) number is (-) 0.32% (provisional) for the month of November 2025 (over November 2024). Negative rate of inflation in November 2025 is primarily due to decrease in prices of food articles, mineral oils, crude petroleum & natural gas, manufacture of basic metals and electricity etc.

Primary Articles (Weight 22.62%): The index for this major group increased by 2.07% from 188.2 (provisional) for the month of October 2025 to 192.1 (provisional) in November 2025. Moreover, the price of minerals (4.50%), food articles (2.50%) and non-food articles (1.28%) increased in November 2025 as compared to October 2025. However, the price of Crude Petroleum & Natural Gas (-1.62%) decreased in November 2025 as compared to October 2025.

Fuel & Power (Weight 13.15%): The index for this major group increased by 1.03% from 145.0 (provisional) for the month of October 2025 to 146.5 (provisional) in November 2025. Furthermore, the price of electricity (6.70%) increased in November 2025 as compared to October 2025. In contrast, the price of mineral oils (0.67%) decreased in November 2025 as compared to October 2025. The price of coal remained same as in the previous month.

Manufactured Products (Weight 64.23%): The index for this major group decreased by (-) 0.07% from 145.1 (provisional) for the month of October 2025 to 145.0 (provisional) in November 2025. In addition, out of the 22 NIC two-digit groups for manufactured products, 14 groups witnessed a decrease in prices, 7 groups witnessed an increase in prices and 1 group witnessed no change in prices. Some of the important groups that showed month-over-month decrease in prices were manufacturers of fabricated metal products, except machinery and equipment; food products; other non-metallic mineral products; computer, electronic and optical products and chemical products and chemical products etc. Conversely, some of the groups that witnessed an increase in prices were other manufacturing; machinery and equipment; textiles; electrical equipment and wearing apparel etc. in November 2025 as compared to October 2025.

Retail inflation rate (as measured by the Consumer Price Index) in India showed notable fluctuations between November 2024 and November 2025. Year-on-year inflation rate based on All India Consumer Price Index (CPI) for the month of November 2025 over November 2024 is 0.71% (Provisional). Moreover, there is an increase of 46 basis points in headline inflation of November 2025 in comparison to October 2025.

Rural Inflation: An increase in headline and food inflation in the rural sector is observed in November 2025. The headline inflation is 0.10% (Provisional) in November 2025 while it was -0.25% in October 2025. Furthermore, in urban inflation, an increase from 0.88% in October 2025 to 1.40% (Provisional) in November 2025 is observed in headline inflation of the urban sector. In addition, an increase is also observed in food inflation from -5.18% in October 2025 to -3.60% (Provisional) in November 2025. As part of its anti-inflationary stance, the Reserve Bank of India (RBI) hiked the repo rate by 250 basis points between May 2022 and 8 February 2023, holding it steady at 6.50% until January 2025. On 5 December 2025, the RBI reduced the repo rate by 25 basis points, bringing it to 5.25%.

Growth Outlook

The Union Budget 2025-26 has laid the foundation for sustained growth by balancing demand stimulation, investment promotion and inclusive development. Inflation level is reaching within the central bank's target; the RBI may pursue further monetary easing that will support growth. The medium-term outlook is bright, fueled by the emphasis on physical and digital infrastructure spending. With a focus on stimulating demand, driving investment and ensuring inclusive development, the budget introduces measures such as tax relief, increased infrastructure spending and incentives for manufacturing and clean energy. These initiatives aim to accelerate growth while maintaining fiscal discipline, reinforcing India's long-term economic resilience. The expansion of tax relief i.e zero tax liability for individuals earning up to INR 12 lacs annually under the new tax regime is expected to strengthen household finances and, consequently, boost consumption.

The external sector remains resilient, and key external vulnerability indicators continue to improve. However, tariff-related uncertainty is likely to weigh on exports and investment, prompting us to cut our CY26 GDP growth forecast to 6.4%.

Overview of Electrical & Electronic Equipment in Railway Locomotives

India's railway sector, being one of the largest and busiest in the world, has seen significant advancements in the adoption of electrical and electronic equipment to enhance locomotive performance, safety, and operational efficiency. With the increasing electrification of the railway network, the focus has shifted toward advanced electrical and electronic systems in railway locomotives.

Railway locomotives are vehicles that provide the motive power for trains. Indian locomotives are designed to handle diverse terrain, weather conditions, and varying operational requirements, such as passenger transport, freight movement, and high-speed rail operations.

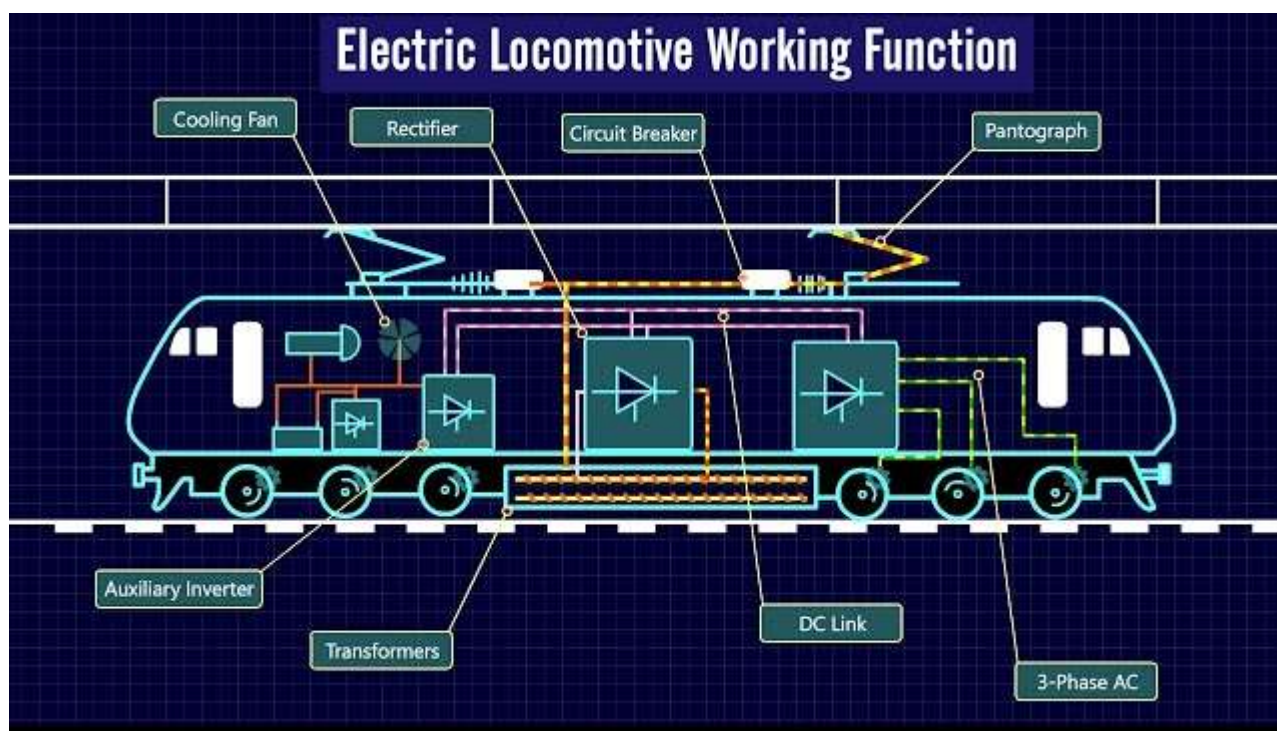

Brief Overview on Locomotive Electrical Systems: Qualitative Insights on Key Components and their Role

First Train on electric traction started on 1500 V DC System from Bombay Victoria Terminus to Kurla Harbour on 3rd Feb 1925. This was the turning point in development of Railways and growth of sub-urban transport system for Mumbai City as also for other metropolitan cities. Madras was second metro city to get electric traction in Southern Railway on 11th May 1931. Up to Independence, India had only 388 km of electrified tracks.

A driving force that causes propulsion of a vehicle is referred to as a traction system. The traction system is of two different types: Nonelectric Traction System and Electric Traction System.

Non-Electric Traction System

The traction system that doesn't use electricity at any stage of a vehicle movement is referred to as a non-electric traction system. Such a traction system is used in steam locomotives, IC engines, and in the maglev trains (high-speed trains).

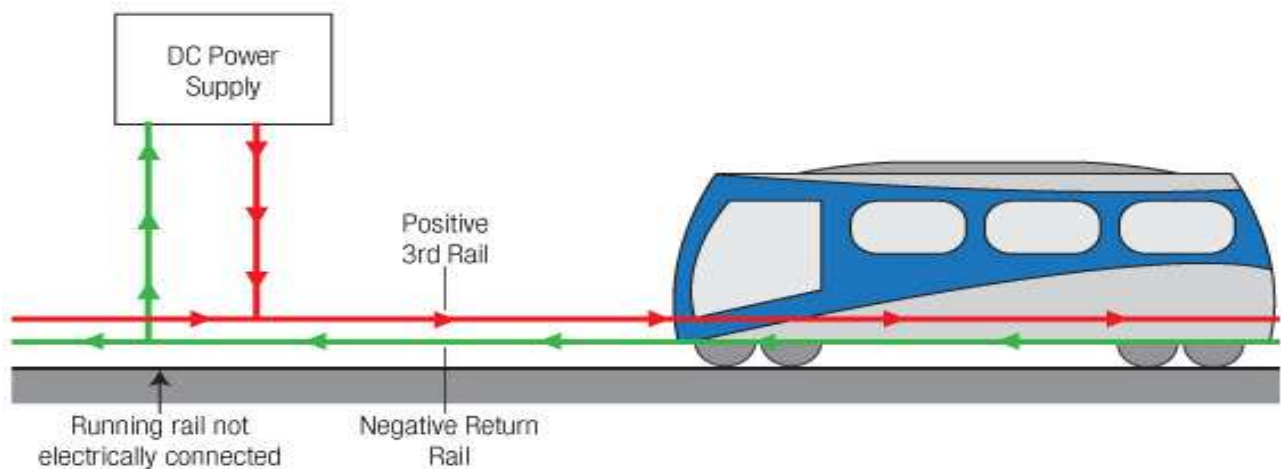

Electric Traction System

The traction system that uses electricity in all stages or some stages of a vehicle movement is referred to as an electric traction system.

The three main types of electric traction systems that exist are as follows:

1. Direct Current (DC) Electrification System
2. Alternating Current (AC) Electrification System
3. Composite System

1. Direct Current (DC) Electrification System

Source: The Railway Technical Website

The choice of selecting DC electrification system encompasses many advantages, such as space and weight considerations, rapid acceleration and braking of DC electric motors, less cost compared to AC systems, less energy consumption and others.

The DC Electrification System plays a crucial role in supplying direct current to locomotives, typically through overhead wires or third rails, enabling efficient power conversion into mechanical energy. DC systems require simpler, lower-voltage infrastructure, making them ideal for urban or suburban networks. They support regenerative braking, improving energy efficiency, and provide smoother control and acceleration for both passenger and freight trains. Key components like rectifiers and traction motors are designed for reliable performance with minimal maintenance, as DC systems have fewer wear-prone parts compared to AC systems, making them cost-effective for certain routes.

2. Alternating Current (AC) Electrification System

The AC traction system has gained widespread popularity due to several advantages, including the easy generation and transformation of AC power, efficient control of AC motors, and reduced need for substations. Additionally, it uses lightweight overhead catenaries to transfer high-voltage, low-current electricity, making the system more efficient and cost-effective for modern railway operations.

This diagram shows an AC electric locomotive, collecting power from an overhead line. The red lines on the diagram indicate the single-phase AC circuit, the green lines the DC circuits and the purple lines the 3-phase AC circuits. A locomotive using DC traction current is similar, except that there is no single phase AC circuit or transformer. The current passes directly from the pantograph (or shoe) to the main and auxiliary inverters.

3. Composite System

Source: The Railway Technical Website

The Composite System in railway electrification combines the benefits of both DC and AC systems. There are two main types: the Single-Phase to Three-Phase (Kando) system and the Single-Phase to DC system. In the Kando system, a single overhead line carries a 16kV, 50Hz single-phase supply, which is then stepped down and converted into a three-phase supply of the same frequency within the locomotive using transformers and converters. This approach leverages the advantages of both high-voltage transmission and efficient in-locomotive power conversion for enhanced performance and operational flexibility.

Key Components in Locomotive Electrical Systems and their Role

An electric locomotive is powered by electricity, which is drawn from overhead lines, a third rail, or on-board energy storage systems such as batteries or supercapacitors. Unlike traditional diesel or steam engines, electric locomotives rely on electricity to drive trains, enhancing efficiency and sustainability.

The process begins when the pantograph, a metal device mounted on the locomotive, makes contact with the overhead wire, allowing electricity to flow into the locomotive. This electricity is then transmitted to a transformer, which steps down the voltage to a level suitable for use within the locomotive. The lower-voltage electricity is supplied to electric traction motors, which drive the wheels and propel the locomotive forward. Additionally, energy can be stored in batteries, allowing for improved energy management and operational flexibility.

This system offers numerous benefits, including reduced carbon emissions, lower operational costs, and the ability to integrate renewable energy sources, positioning electric locomotives as a key component of modern, sustainable railway transportation.

Key Components in Locomotive:

The locomotive electrical system is a complex network of electrical parts that power and control the various systems of a locomotive. These components enable the locomotive to draw power from the main power source or from an auxiliary power source. It also helps the locomotive to move along the track and adjust the speed according to the conditions.

Electric locos derive tractive effort from Traction Motors which are usually placed in the bogie of the locomotive. Usually, one motor is provided per axle but in some older generation of locos two axles were driven by a single Traction Motor also.

However apart from Traction Motors, many other motors and equipment's are provided in electric locos. These motors are collectively known as the Auxiliaries.

Electric Locomotive comprising of the following parts:

- Transformer (including Tap-Changer)
- Rectifier
- Smoothing Reactor
- Traction Motors

- e) Main Starting Resistances (in DC Traction on Dual Power Locos only)
- f) Dynamic Braking Resistance Cooling Blower

The motors are the primary source of power for the locomotive. They provide the force that moves the wheels and other parts of the locomotive. Generators are responsible for converting mechanical energy from the motors into electrical energy. Rectifiers are used to convert alternating current (AC) from the generator into direct current (DC) that is used to power the motors and other systems. Controllers are responsible for regulating the power output of the motors and other components. Transformers are used to step down electrical voltages to the correct levels for use in the locomotive. Finally, wiring is used to connect the various components of the locomotive together and provide a safe and reliable connection.

Components of a Typical Locomotive Electrical System:

Electric Motors are the primary source of power for a locomotive. These motors are connected to the axle through a series of gears, allowing the engine to generate torque to move the vehicle. Electric motors require a certain amount of electrical current to operate, so the system must include devices to regulate the flow of electricity.

Generators produce the electricity that powers the motors. Generators are typically connected to the axle and spin as the locomotive moves, thus producing the necessary electricity. Generators must be connected to the engine to provide a steady flow of electricity, and the engine must be regulated to ensure that the generators produce the right amount of electricity.

Transformer is a crucial component in electric locomotives. It receives high-voltage AC power from the overhead lines and steps it down to a lower voltage, suitable for powering the locomotive's traction motors, auxiliary systems, and other electrical components.

Pantograph, a critical component of electric locomotives, is a V-shaped metal arm mounted on the roof. It maintains contact with the overhead catenary wire, collecting electrical power and delivering it to the locomotive. The pantograph's ability to move up and down ensures continuous power supply during operation.

The components of the locomotive electrical system work together to provide the engine with the necessary power to move the vehicle. By regulating the flow of electricity and the speed of the locomotive, these components help ensure that the engine runs smoothly and efficiently.

Traction Motors are the heart of electric locomotives, converting electrical energy into mechanical energy. These motors, typically DC or AC types, generate the torque needed to drive the locomotive wheels through gears or drive shafts, enabling acceleration and deceleration.

Inverter is used in locomotives with AC traction motors to convert DC power into AC power for motor operation. The inverter ensures that the electric motor receives the correct type of power needed for efficient operation and allows for precise speed control by adjusting the frequency and amplitude of the AC current supplied to the motors.

The **Control Systems**, often based on microprocessors, manage the overall operation of the locomotive, including speed control, braking, and system diagnostics. These systems monitor sensors throughout the locomotive to ensure optimal performance, automatically adjusting power to the traction motors, regulating braking, and maintaining safety systems. The control system ensures that all components work in harmony for smooth and safe operations.

Circuit Breakers and protection devices are critical for ensuring the safety of the electrical system by preventing damage caused by overloads, short circuits, or other electrical faults. These protection devices automatically disconnect electrical circuits when they detect faults, minimizing the risk of damage to the locomotive's electrical components and preventing dangerous situations.

Battery Storage in a locomotive provide an on-board energy storage solution for backup power and supply electricity for non-traction needs when the main power supply is unavailable. Batteries are essential for powering systems such as lighting, air conditioning, control panels, and emergency braking. They also allow for smoother operation during regenerative braking, where energy is stored and reused.

Types of Electronics Used in Locomotives:

The integration of advanced electronics in locomotives is becoming increasingly critical, as railroads modernize. These systems empower train engineers to efficiently monitor and control locomotive performance, leading to enhanced operational efficiency, safety, and reliability. The key electronic systems in modern locomotives optimize performance by leveraging real-time data and sophisticated controls, ensuring peak functionality and minimizing operational disruptions.

Microprocessors or Electronic Control Units (ECUs) are at the core of these systems, which oversee and regulate various locomotive functions. These units collect data from multiple sensors to monitor and manage vital components such as the engine and braking systems, facilitating optimal operation and performance.

Communication Systems in locomotives enable seamless interaction between engineers, other locomotives, and dispatchers. These systems support real-time messaging and coordination, helping to streamline train operations and address any technical issues swiftly. They also monitor the health of the locomotive, providing alerts when maintenance or repairs are required.

Navigation Systems further enhance safety and efficiency by guiding engineers in route selection and alignment. Utilizing GPS and other sensors, these systems provide real-time information on terrain, obstacles, and potential hazards. They also track the locomotive's speed, direction, and location, enabling engineers to make data-driven decisions to ensure safe and efficient train operations.

By incorporating these electronic systems, locomotives are better equipped to meet the demands of modern rail operations, ensuring safer, more efficient, and reliable performance.

Locomotive production scenario in Indian railways

The growing need for locomotive production in India is driven by rising freight demands, government initiatives aimed at enhancing logistics infrastructure, and a commitment to modernization within Indian Railways. The locomotive production scenario in Indian Railways for FY25 reflects a robust strategy aimed at increasing capacity and enhancing service efficiency. With ambitious targets for both locomotives and coaches, coupled with plans for exports, Indian Railways is poised to strengthen its operational capabilities significantly while contributing to economic growth and modernization within the transportation sector. Indian Railways has increased its locomotive production target for FY25 by 27%, aiming to produce 1,500 locomotives. This marks a substantial rise from the previous fiscal year, where the target was 1,180 locomotives. Additionally, according to the media reports, 1,300 WAG 9H locomotives will be made annually in FY26 and FY27, while 200 units of the WAP 7 variant will be manufactured every year in this period. Besides locomotives, the production plan for 50

Amrit Bharat trains has also been approved for FY25. This will mean production of 1,230 coaches at the production units of the railways.

India is set to begin exporting locomotives in 2025, marking a significant step towards establishing itself as a global locomotive manufacturing hub. This initiative aligns with the Indian government's "Make in India" and "Make for the World" initiatives, which are part of the broader Atmanirbhar Bharat vision aimed at boosting domestic manufacturing and enhancing global competitiveness. For instance, Wabtec Locomotive, a joint venture between Indian Railways and Wabtec Corporation, will commence exports of its Evolution Series ES43ACmi locomotives to an African customer in 2025. These locomotives will be manufactured at the company's Marhowra plant in Bihar. The ES43ACmi boasts a 4,500 HP Evolution Series engine, renowned for its fuel efficiency and proven performance in challenging high-temperature environments. The Marhowra plant's foray into global exports of standard-gauge locomotives will not only expand the local supplier network but also foster long-term job creation, thereby contributing significantly to the Indian economy. By aligning with national initiatives aimed at boosting local production and enhancing global competitiveness, India is poised to become a significant player in the international locomotive market, fostering economic growth in the process.

Overview of current locomotive & rolling stock infrastructure in Indian railways

India's locomotive production is a significant component of its railway infrastructure, with several key manufacturing units contributing to the nation's rolling stock. Here's an overview of the major locomotive production facilities and their recent outputs:

- a) Banaras Locomotive Works (BLW), Varanasi:
Production Achievement: In the fiscal year 2023-24, BLW manufactured a record 475 locomotives, surpassing its target of 460. This includes 470 electric locomotives for Indian Railways and five diesel locomotives for domestic customers.
- b) Chittaranjan Locomotive Works (CLW), West Bengal:
Production Capacity: CLW is recognized as one of the world's largest locomotive manufacturers. In the fiscal year 2019-20, it produced 431 locomotives.
- c) Electric Locomotive Factory (ELF), Madhepura, Bihar:
Joint Venture: A collaboration between Alstom SA (74% equity) and the Ministry of Railways (26% equity).
- d) Production Milestones: By March 2023, the factory delivered its 300th high-power WAG-12B locomotive. The project aims to produce a total of 800 such locomotives over 11 years.
- e) Production Targets:
Future Plans: For the fiscal year 2024-25, Indian Railways has set an ambitious target to produce 1,500 locomotives, marking a 27% increase from the previous year. This includes 1,240 WAG-9H freight locomotives and 260 WAP-7 passenger locomotives.

These production facilities play a crucial role in supporting and expanding India's railway network, ensuring the availability of modern and efficient locomotives for both freight and passenger services.

As of January 19, 2025, Indian Railways has made significant strides in increasing its locomotive production capacity. Here's a detailed overview based on the latest data and trusted sources:

Current Locomotive Production Targets

- a) Increased Production Goals:

Indian Railways has raised its locomotive production target for the fiscal year 2025 (FY25) by 27%, setting a goal to produce 1,500 locomotives. This includes:

- 1,240 WAG 9H freight locomotives.
- 260 WAP 7 passenger locomotives.

b) Stability in Production Plans:

The production target is expected to remain stable at 1,500 units annually until FY27. This includes plans for:

- 1,300 WAG 9H locomotives each year in FY26 and FY27.
- 200 units of the WAP 7 variant annually during the same period.

c) Coaches Production:

In addition to locomotives, Indian Railways plans to produce 8,145 coaches in FY25, which marks an increase from the previous fiscal year's target of 6,560 coaches. This includes:

- Production of 50 Amrit Bharat trains, translating to 1,230 coaches.
- Manufacturing of 5,688 Linke Hofmann Busch (LHB) coaches, with most produced at the Modern Coach Factory in Raebareli.

Strategic Initiatives and Investments

a) Government Budget Allocations:

- The budget for rolling stock has been set at approximately ₹54,113 crore for FY24-25, which is an increase from previous allocations. This budget is expected to focus on modernizing and expanding the railway network.
- The upcoming Railway Budget for FY26 is anticipated to allocate a substantial portion towards new trains, upgraded stations, and modern infrastructure.

b) Export Initiatives:

- Indian Railways plans to start exporting locomotives in 2025 through its joint venture with Wabtec at the Marhowra plant in Bihar. The plant is expected to supply Evolution Series ES43ACmi locomotives to global customers, marking India's entry into the international locomotive market.

c) Focus on Freight Services:

- The increase in locomotive production is part of a broader strategy to enhance freight train services in response to rising demand. This aligns with the government's goals for economic growth and infrastructure development.

Technological Advancements:

a) Modern Locomotive Development:

- There is a strong emphasis on investing in modern locomotives such as the WAG-12 series for improved power generation and operational efficiency.
- The introduction of advanced technologies like electric traction systems and automated controls is expected to enhance performance across the fleet.

b) Infrastructure Enhancements:

- Indian Railways has committed to upgrading existing infrastructure and expanding its network by adding new lines, gauge conversions, and electrification projects.

Innovations In Rolling Stock

The introduction of the Vande Bharat Express, in 2019, was a major feat achieved by IR in terms of indigenisation. However, with continuous upgrades over the years, IR has launched multiple variants of this train, including the Vande Bharat Express 2.0, 20-coach Vande Bharat Express and Vande Metro (Namo Bharat Rapid Rail). Further, the first prototype of the Vande Bharat Sleeper train has been rolled out for field trials by the Research Designs and Standards Organisation (RDSO) in December 2024, while the first look of the Vande Cargo was unveiled in September 2024. In addition to the Vande Bharat Express, the Amrit Bharat Express was launched in January 2024.

In line with the railways' goal of achieving net zero carbon emissions by 2030, the final trial for India's first hydrogen train will take place during January-March 2025. The design for this train has been completed and it will consist of eight passenger coaches, with the capacity to carry more than 2,600 passengers on a single journey, and three coaches for storing hydrogen cylinders. Recently, a toy model of this train was launched at the RDSO stadium in Lucknow in November 2024. Currently, Germany is the only country with operational hydrogen trains, running a two-coach model. The operationalisation of these indigenously developed hydrogen trains can create significant opportunities for India, in terms of first-mover advantage, further facilitating the country's exports.

Domestic Manufacturing of Components

Amid disruptions in global supply chains due to recent geopolitical shocks, IR has adopted a proactive approach towards strengthening domestic capacity. Local sourcing of railway components plays a key role in building resilient domestic supply chains, ensuring smoother operations within the sector. Around 80-85% of the components for Vande Bharat trains have been sourced from domestic suppliers. Telangana became home to India's largest private rail manufacturing in June. With an expenditure of Rs 1,000 crore, the private rail coach manufacturing can produce 500 coaches and 50 locomotives per year. It will produce all sorts of railway rolling stock, including as coaches, train sets, locomotives, metro trains, and monorails. Further, with the aim of reducing import dependency on forged wheels (from Ukraine and China) while simultaneously boosting exports, IR acquired a forged wheel plant from Rashtriya Ispat Nigam Limited in Raebareli, Uttar Pradesh, for around Rs 23 billion. This initiative not only reduces India's reliance on foreign technology but also enhances its manufacturing capabilities.

Domestic private players in the railways component manufacturing industry have stepped up to utilise this opportunity. For example, in September 2024, Jindal Stainless Limited provided IR with high-strength 301LN (low carbon, nitrogen alloyed) grade austenitic stainless steel to produce Vande Bharat Sleeper train coaches. Further, in July 2024, Vishvas Power Engineering Services Limited despatched a total of two 2×25 kV AC traction system transformers to IR. These are the first indigenously manufactured two-phase transformers that have been transported to the states of Bihar and Jharkhand.

With India being an ideal investment destination, offering lower interest rates and higher returns on investment, global players have also announced their plans to set up component manufacturing facilities. Alstom Holdings is planning to manufacture large batteries that can power Vande Bharat and Vande Metro train services for railway traction parts in India by 2025. Initially, the batteries will be imported from France, but the company aims to manufacture indigenous cells in India gradually. Meanwhile, CJSC Transmashholding is planning to develop several facilities for train and component manufacturing in India to meet their domestic requirements.

Integrated Rail Technologies

The advancements in IR's fleet and components have given a boost to technology adoption in the sector. With newer and faster trains getting launched, their safety has become paramount. IR is currently in the process of upgrading the indigenously developed automatic train protection system Kavach, from Kavach 3.2 to Kavach 4.0, in their existing fleet. The newer variants, such as Vande Sleeper and Vande Metro, will be launched with the upgraded Kavach version. In December 2024, IR announced plans to implement an integrated track monitoring system (ITMS) across all its railway zones, at an investment of approximately Rs 1.8 billion, to enhance track safety. The ITMS features contactless track monitoring through laser sensors, high-speed cameras, light detecting and ranging technology, and other advanced tools.

IR has also implemented a live monitoring system in the northern part of West Bengal to increase train safety and prevent accidents. Further, in line with this system, it has also launched helmet cameras. These cameras will help in recording and monitoring the train's parts, such as wheels and bearings, that are in motion.

IR is working on developing AI-based robots for monitoring its railway tracks, to ensure the safety and better operation of trains. These robots will be able to detect track issues such as rail cracks, water on tracks, petrol clips and fishplates, etc., and can further report real-time data of the same to the railway staff. Further, in June 2024, IR awarded a contract to Sensonic IN India Private Limited for the deployment of an advanced elephant detection system, also known as the Gajraj system, on East Coast Railway (ECoR) routes.

Increase In Collaborations

In recent years, the railway sector has seen an increase in partnerships between private players and IR. This is expected to foster innovation and positively impact the sector's net exports. A key example is Taural India Private Limited partnering with IR to provide aluminium casting solutions for the Amrit Bharat Express train. The aluminium gear cases manufactured by the company led to the replacement of imported aluminium casting elements from Germany. Further, Uniproducts India Limited has collaborated with the Integral Coach Factory (ICF), Chennai, to provide sound and thermal insulation materials for the Vande Bharat Express project.

In addition, the consortium of Ramkrishna Forgings Limited and Titagarh Rail Systems Limited is likely to start the manufacturing of forged wheels for Vande Bharat trains by July 2025. The facility will have a total annual production capacity of 250,000 units, which includes 80,000 to be used in India and the rest for export.

Private players in India partnering with foreign companies for railway component manufacturing has gained significant momentum in recent years. This collaboration is driven by the need to modernize and expand India's railway infrastructure, enhance domestic manufacturing capabilities, and leverage advanced technologies. For instance, AT Railway, a subsidiary of Amber Enterprises India Ltd., has partnered with South Korea's Yujin Machinery Ltd. to form a joint venture focused on designing and manufacturing key railway components such as driving gears, couplers, and pantographs. With AT Railway holding the majority stake, the collaboration strengthens domestic manufacturing capabilities and aligns with India's 'Make in India' and 'Atmanirbhar Bharat' initiatives, while gaining access to advanced technology and expertise from Yujin Machinery Ltd.

Strategic Vision

The indigenisation of IR is crucial for achieving cost effectiveness, since locally manufactured components reduce procurement and maintenance costs. Moreover, the push for local manufacturing will lead to innovation and skill development through research, development and training within the railway sector. In line with this, the sector is placing significant emphasis on high-speed rail initiatives. IR has commenced manufacturing its indigenous bullet

train, which is being developed on the Vande Bharat platform. The ICF at Chennai is responsible for developing the train's design.

With the development of a more futuristic approach and advanced technology, private players in India are experimenting with hyperloop technology. For instance, TuTr Hyperloop Private Limited, in partnership with the Chennai Unified Metropolitan Transport Authority, has completed the construction of India's first Hyperloop test track, stretching 410 metres. In December 2024, TuTr Hyperloop successfully conducted initial trials of the technology at a speed of 100-150 km per hour. The project is located at the discovery campus of IIT Madras in Thaiyur, Chennai.

The shift towards self-reliance in the railways aligns with the broader goal of "Atmanirbhar Bharat", which was highlighted by the Indian government to bolster the domestic economy, generate employment and enhance technological capabilities.

Locomotive addition pattern by Indian railways: Analysis of past trend

The locomotive production and addition pattern in Indian Railways has shown a consistent trend of increasing capacity to meet growing transportation demands. With record production levels achieved in recent years and ambitious targets set for the future, Indian Railways is well-positioned to enhance its operational efficiency while contributing to environmental goals.

The landscape of electric locomotive production in India is characterized by a combination of domestic manufacturing capabilities through Indian Railways (Chittaranjan Locomotive Works (CLW), Banaras Locomotive Works (BLW), Madhepura Electric Loco Factory, Patiala Locomotive Works (PLW)) and partnerships with global leaders like Alstom and Siemens.

Previous Achievements:

According to Railway Ministry data, India's annual electric locomotive production has increased more than threefold between 2009-10 and 2022-23, rising from 246 to more than 1,200 units.

Banaras Locomotive Works (BLW) achieved a remarkable milestone by producing 475 locomotives, exceeding the target set by the Railway Board for the 2023-24 financial year. Of these, BLW manufactured 470 electric locomotives for Indian Railways and 5 diesel locomotives for domestic customers. It has set a notable achievement in locomotive manufacturing by achieving the highest-ever monthly electric locomotive production in January 2024. With an impressive display of dedication, hard work, and efficiency, BLW's team produced 55 electric locomotives within just 26 working days, averaging more than 2 locomotives per day.

Here are past Three years data for Locomotives produced by major players working under IR:

Company	2021-22	2022-23	2023-24
Chittaranjan Locomotive Works (CLW)	486	436	580
Banaras Locomotive Works (BLW)	367	346	420
Patiala Locomotive Works (PLW)	116	198	180
Total	969	980	1180

Accelerate Skills to meet the Demand:

BLW employees and executives rose to the challenge by acquiring new skills and reorganising the shop floor, machines, jigs and fixtures and planning processes for the production of electric locomotives. The result of this

process is that a record of production of 55 electric locomotives was set in just one month, while diesel locomotives are also manufactured from the same assembly line for export and non-railway customers.

Aspect	2021-2022	2022-2023	2023-2024
Total Locomotives Produced	~900+	980	~1,200 (target of 1,500 for FY 2024-25)
Diesel Locomotives	~10% of total output	Minimal, mainly for exports	Few units produced for niche uses
Chittaranjan Locomotive Works (CLW) Contribution	486 electric locomotives	436 electric locomotives	Estimated ~500 units
Banaras Locomotive Works (BLW) Contribution	Transition to electric locomotives	300+ electric locomotives	400+ electric locomotives production plan
Patiala Locomotive Works (PLW) Contribution	Smaller contribution (~116 units)	198 electric locomotives	180+ production plan
Electric Freight Locomotives	Large production share (WAG series)	Dominated by WAG series locomotives	Expansion with WAG-9 and WAG-12 models
Electric Passenger Locomotives	WAP series models introduced gradually	Substantial production of WAP-7 models	Continued emphasis on WAP-7 models
Diesel Locomotives for Export	Small output, specific for exports	Limited export production (to Sri Lanka, Bangladesh)	Continued limited export focus
Sustainability Focus	Initial steps toward sustainability	Increased emphasis on electrification	Push for 100% electrification by 2030
Electrification Milestones	Steady progress in electrification	85% of total broad-gauge routes electrified	Over 90% broad-gauge electrification
Technological Advancements	Upgraded electric locomotive designs	Enhanced safety and performance features	Focus on high-power (12,000 HP) locomotives
Production Capacity Utilization	Moderate, transitioning too electric	High-capacity utilization at major units	Peak utilization with record output

Source: Indian Railways

Key Observations Across Years:

- 2021-22:
 - Focus on transitioning production units toward electric locomotives.
 - Diesel locomotives still had a presence, primarily for exports.
 - CLW led production, with ~431 electric locomotives delivered.
- 2022-23:
 - Record-breaking production of 785 electric locomotives by January 2023.
 - Significant contributions from BLW (286 units) and PLW (155 units).

- Reflects enhanced production capabilities and the increasing focus on electrification.

3. 2023-24:

- Targeted production of 1,200 locomotives (1,250 estimated achieved).
- BLW reported its highest-ever production, manufacturing 475 locomotives.
- Continued dominance of WAG-9 and WAP-7 electric locomotives for freight and passenger operations.
- Steady movement toward 100% electrification, nearing 90% coverage of broad-gauge routes.

Future Projections (2024-25 and further):

- Indian Railways targets 1,500 locomotives for FY 2024-25.
- Focus on high-capacity freight locomotives (WAG-12) and modern passenger engines.

Continued phasing out of diesel locomotives, except for niche and export markets.

Key Demand Drivers

Insight on railway locomotive capacity expansion plans & its impact.

Indian Railways is undergoing significant capacity expansion in its locomotive production and overall railway infrastructure.

Current Capacity Expansion Plans:

- **Increased Production Targets:** Indian Railways has set a target to produce 1,500 locomotives for the fiscal year 2025 (FY25), an increase of 27% from previous years. The production plan is expected to remain stable at 1,500 units annually until FY27, with plans to manufacture 1,300 WAG 9H locomotives and 200 WAP 7 units each year during this period.
- **Coaches Production:** Alongside locomotives, Indian Railways aims to produce 8,145 coaches in FY25, which marks an increase from the previous production target of 6,560 coaches in FY24. This includes:
 - 50 Amrit Bharat trains, translating to approximately 1,230 coaches.
 - Production of 5,688 Linke Hofmann Busch (LHB) coaches, with a focus on safety and comfort improvements.
- **Infrastructure Investments:** The budget for rolling stock has been set at approximately ₹54,113 crore for FY25, which is an increase from previous allocations. The upcoming budget for FY26 is expected to allocate further resources towards expanding locomotive capacity and modernizing infrastructure.

Impact of Capacity Expansion Plans:

- **Economic Growth and Job Creation:** The expansion of locomotive production is expected to create jobs in manufacturing and associated sectors. Increased production will require skilled labour and may lead to the establishment of new manufacturing facilities.

- **Enhanced Freight Capacity:** With a focus on producing more freight locomotives (WAG 9H), Indian Railways aims to improve its freight capacity significantly. This is crucial as freight traffic is projected to grow due to increased demand from various sectors.
- **Improved Passenger Services:** The introduction of more passenger locomotives (WAP 7) will enhance service frequency and reduce travel times for passengers. The addition of modern trains like Vande Bharat will further improve the overall travel experience.
- **Sustainability Initiatives:** Indian Railways is focusing on sustainability through electrification and the introduction of hydrogen trains. The operationalization of hydrogen trains is expected in early 2025, aligning with India's goal of achieving net-zero carbon emissions by 2030.
- **Technological Advancements:** Investments in advanced technologies such as AI for operational efficiency and the Kavach safety system will enhance safety and reliability across the network. The modernization efforts are expected to streamline operations and reduce delays.
- **Export Opportunities:** Indian Railways plans to begin exporting locomotives in 2025, marking a significant step towards establishing India as a global player in locomotive manufacturing. This could open up new revenue streams and enhance India's position in international markets.
- **High-speed rail and infrastructure developments:** A notable project includes the high-speed rail corridor between Mumbai and Ahmedabad, currently under construction at a cost of ₹1.08 lakh crore. Once completed, it will reduce travel time to just two hours, with trains running at speeds of up to 320 km/h. The Dedicated Freight Corridor, spanning over 3,300 km, is also being developed to enhance freight efficiency and decongest passenger lines.
- **Indian Railways has completed 15,861 km of track doubling since fiscal 2016, further boosting network capacity. Additionally, 82 Vande Bharat and eight Tejas Express trains are operational, while 144 locomotives have been equipped with Kavach, an indigenous automatic train protection system.**
- **Station Modernisation and Digital Advancements:** The Amrit Bharat Station Scheme aims to redevelop 553 railway stations across the country, with ₹1 lakh crore allocated for the project. Improvements include enhanced waiting areas, digital ticketing systems, and green buildings. Indian Railways has also installed free Wi-Fi at over 6,000 stations and introduced a next-generation e-ticketing system capable of processing 26,000 tickets per minute.

Initiatives by Indian Railways to Modernize its Locomotive & Rolling Stock, and Its Impact

Indian Railways is actively implementing several initiatives aimed at modernizing its locomotive and rolling stock. These initiatives are designed to enhance passenger services, improve operational efficiency, and ensure safety across the railway network. Below is a detailed description of these initiatives along with their anticipated impacts.

a) Locomotive Expansion Plans

- Indian Railways has implemented a long-term plan to acquire new technology, including 12,000 HP electric locomotives and 9,000 HP electric locomotives for freight operations.

b) Replacement of Older Coaches with LHB Coaches

- **Description:** Indian Railways has been systematically replacing older Integral Coach Factory (ICF) coaches with Linke-Hofmann-Busch (LHB) coaches since April 2018. LHB coaches are designed for enhanced safety and passenger comfort, featuring better crashworthiness and modern amenities.
- **Impact:** The transition to LHB coaches is expected to significantly improve passenger safety and comfort, potentially increasing ridership and customer satisfaction. The LHB design allows for higher speeds and better stability, which contributes to a more reliable service.

c) Introduction of Advanced Rolling Stock

- **Description:** The deployment of Vande Bharat trains represents a major leap in technology and comfort for Indian Railways. These trains come equipped with modern amenities such as GPS-based passenger information systems, Wi-Fi, bio-toilets, and upgraded interiors. The Vande Bharat sleeper trains are also in the final stages of testing and certification.
- **Impact:** Vande Bharat trains are expected to reduce travel times significantly while providing a more comfortable travel experience. This modernization aims to attract more passengers and enhance the overall perception of rail travel in India.

d) Electrification Initiatives

- **Description:** Indian Railways has made significant progress in electrifying its network, with approximately **97% of broad-gauge tracks** now electrified. This initiative reduces dependence on fossil fuels and enhances operational efficiency. Moreover, between 2014 and 2023, Indian Railways has invested approximately ₹43,346 crore in electrification efforts, with an additional ₹8,070 crore allocated for the fiscal year 2023-24.
- **Impact:** Electrification leads to lower operational costs and reduced carbon emissions, contributing to India's sustainability goals. It also allows for faster train speeds and improved reliability in service delivery.

e) Safety Enhancements through the Kavach System

- **Description:** The Kavach system is an automatic train protection system being implemented across the railway network to prevent accidents due to signal failures or human errors. However, progress has been slow; as of FY24, only **1,445 km** of the railway network is equipped with the system.
- **Impact:** Enhanced safety measures through the Kavach system are expected to reduce the number of accidents significantly, thereby improving public confidence in rail travel as a safe mode of transportation.

f) Investment in Infrastructure

- **Description:** The budget for rolling stock has been set at approximately ₹54,113 crore for FY25, which includes investments in new locomotives, upgrading existing infrastructure, and enhancing safety features.
- **Impact:** Increased funding will facilitate comprehensive upgrades across the railway network, improving service reliability and capacity. This investment is critical for meeting growing passenger demands.

g) Indigenization Efforts

- **Description:** To reduce dependence on foreign suppliers, Indian Railways is focusing on manufacturing equipment domestically. Collaborations with private manufacturers aim to enhance technological capabilities within India.
- **Impact:** Indigenization supports local industries while ensuring that technology transfer occurs within the country. This fosters innovation and helps build a self-reliant railway ecosystem.

h) Deployment of Smart Technologies

- **Description:** The integration of AI-driven operations and Internet of Things (IoT) applications is transforming how Indian Railways operates. This includes real-time monitoring systems for trains and track conditions.
- **Impact:** Smart technologies can lead to improved maintenance schedules, better resource allocation, enhanced operational efficiency, and reduced delays.

Anticipated Impacts of Indian Railways' Modernization Initiatives

- As Indian Railways embarks on extensive modernization initiatives, the anticipated impacts can be categorized into several key areas, including passenger experience, safety, operational efficiency, economic growth, and environmental sustainability. Below is a detailed description of these impacts based on the latest developments and trends.

a) Enhanced Passenger Experience

- **Modern Amenities:** The introduction of advanced trains like Vande Bharat has revolutionized passenger travel with features such as automatic sliding doors, GPS-based passenger information systems, and bio-toilets. These enhancements are designed to make journeys more comfortable and efficient.
- **Digital Innovations:** The implementation of digital ticketing systems, QR codes, and real-time tracking apps has streamlined the booking process and improved accessibility. Passengers can now book tickets online, check train statuses in real time, and enjoy Wi-Fi services at major stations.
- **Customer-Centric Services:** Initiatives such as the redesign of passenger coaches to meet international standards enhance safety and comfort. Features like emergency talk-back systems and infotainment options further improve the overall travel experience.

b) Increased Safety

- **Technological Upgrades:** The adoption of the Kavach automatic train protection system aims to minimize human errors and enhance operational safety. This system helps prevent accidents due to signal failures or over-speeding.
- **Infrastructure Improvements:** The elimination of manned level crossings on critical routes enhances safety by reducing the risk of collisions. Additionally, CCTV installations and improved lighting at stations bolster security for passengers.
- **Modern Signaling Systems:** Upgrading signaling systems to include European Train Control System (ETCS) improves safety by ensuring that trains adhere to speed limits compatible with signaling permits.

c) Operational Efficiency

- **Electrification Benefits:** With approximately 97% of broad gauge tracks electrified, Indian Railways is expected to see lower operational costs and increased train speeds. Electrification also reduces reliance on diesel fuel, contributing to cost savings.
- **Predictive Maintenance:** The use of AI and IoT technologies for predictive maintenance allows for real-time monitoring of train conditions, leading to optimized maintenance schedules and reduced downtime.
- **Improved Freight Operations:** With the introduction of dedicated freight corridors (DFCs), the efficiency of freight transport is expected to increase significantly. This will facilitate faster movement of goods across the country.

d) Economic Growth

- **Job Creation:** The expansion of manufacturing capabilities and infrastructure development is likely to create jobs within the railway sector as well as in associated industries. Increased production targets for locomotives and coaches will require skilled labor.
- **Boosting Local Economies:** Enhanced rail connectivity can stimulate regional economies by improving access to markets, thereby facilitating trade and commerce. This is particularly important for remote areas that rely on rail transport for goods movement.
- **Increased Tourism:** The introduction of premium trains on tourism routes is expected to boost tourism revenues by providing better connectivity to popular destinations.

e) Environmental Sustainability

- **Reduction in Carbon Footprint:** Electrification and the shift towards cleaner technologies align with India's commitment to reducing carbon emissions. By promoting electric trains over diesel-powered ones, Indian Railways contributes significantly to sustainability goals.
- **Solar Power Initiatives:** Indian Railways is exploring solar power generation along its tracks, which will not only reduce energy costs but also promote renewable energy usage within its operations.
- **Water Conservation Measures:** New train designs include water-saving toilets that minimize water usage without compromising hygiene standards.

Regulatory Landscape

Regulatory / Policy Framework Governing the Industry.

- The Ministry of Electronics & Information Technology (MeitY) notified the "Electronics and Information Technology Goods (Requirement for Compulsory Registration) Order, 2012" on October 3, 2012. This order will be superseded by the "Electronics and Information Technology Goods (Requirement of Compulsory Registration) Order, 2021."
- As per the Order, no person shall manufacture or store for sale, import, sell or distribute goods which do not conform to the Indian Standard specified in the Order. Manufacturers of these products are required to apply for registration from the Bureau of Indian Standards (BIS) after getting their product tested from BIS-recognized labs.

- Bureau of Indian Standards (BIS) then registers the manufacturers under its registration scheme who are permitted to declare that their articles conform to the Indian Standard (s). The registered manufacturers are then allowed to use the Standard Mark notified by the Bureau.
- The development of the supply chain is essential for the manufacturing of electronic products with higher domestic value addition. The vision of National Policy on Electronics 2019 (NPE 2019) is to position India as a global hub for Electronics System Design and Manufacturing (ESDM) by encouraging and driving capabilities in the country for developing core components, including chipsets, and creating an enabling environment for the industry to compete globally.
- Electronic components are the basic building blocks for the electronics industry and entail maximum value addition. Therefore, a vibrant electronic components manufacturing ecosystem is vital for the overall long-term and sustainable growth of electronics manufacturing in India and essential to achieving net positive Balance of Payments (BoP).
- The Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS) notified vide Gazette Notification No.CG-DL-E-01042020-218992 dated 1st April 2020, will help offset the disability for domestic manufacturing of electronic components and semiconductors to strengthen the electronics manufacturing ecosystem in the country.
- The scheme will provide a financial incentive of 25% on capital expenditure for the identified list of electronic goods that comprise the downstream value chain of electronic products, i.e., electronic components, semiconductor/ display fabrication units, ATMP units, specialized sub-assemblies, and capital goods for manufacture of aforesaid goods, all of which involve high value-added manufacturing.
- The Scheme will apply to investments in new units and expansion of capacity/ modernization and diversification of existing units. Application under the Scheme can be made by any entity registered in India.
- The capital expenditure will be the total expenditure in plant, machinery, equipment, associated utilities, and technology, including for Research & Development (R&D).
- The Scheme is open for applications initially for 3 years from the date of its notification. Incentives under the Scheme will be applicable from the date of acknowledgment of the application. The incentives will be available for investments made within 5 years from the date of acknowledgment of application.
- The Scheme will be implemented through a nodal agency which will act as Project Management Agency (PMA) and be responsible for providing secretarial, managerial, and implementation support and carrying out other responsibilities as assigned by MeitY from time to time.
- Indian Railways Policy Circular No. 7 (Opening of Sections and Sanction of Sectional Speed on Indian Railways)
 - Tracks on Indian Railways are certified for varying speeds by competent levels, including CRS. Rolling stocks are designed for different speeds, and RDSO and Zonal Railways seek approval from the Railway Board for any design infringements against the IRSOD (Indian Railways Schedule of Dimensions).
 - To open a new line for traffic, use electric motive power on an existing line, or commission a line after gauge conversion, follow the rules and procedures outlined in the "Railways (Opening For Public Carriage Of Passengers) (Amendment), Rules, 2005".
 - New railway lines can be created in several ways: by extending current tracks, adding new tracks alongside existing ones (like double or triple tracks), or converting existing tracks to a different gauge. Additionally, existing lines can be upgraded to use electric traction instead of traditional fuel-based engines.

Policy initiatives /Government incentives designed to promote the industry activity

Currently, India is undergoing a digital revolution leading to a surge in the consumption of electronic devices in India. This growth is mainly attributed to the increasing middle-class population, rising disposable incomes, and declining electronics prices in the country.

- Major Government initiatives such as ‘Digital India’, ‘Make in India’, and supportive policies including a favourable FDI Policy for electronics manufacturing have simplified the process of setting up manufacturing units in India.
- The Union Budget 2023-24 allocated INR 16,549 crore (USD 2 Bn) for the Ministry of Electronics and Information Technology, which is nearly 40% higher on year.
- The government-allocated investment of INR 8,803 crore (USD 1.06 Bn) has been made under the scheme for the promotion of manufacturing of electronic components and semiconductors.
- The PLI scheme for large-scale electronics manufacturing has attracted an incremental investment of INR 8,390 crore (USD 1.01 Bn) in June 2024.
- India committed to reach USD 300 Bn worth of electronics manufacturing and exports by 2025-26. Artificial Intelligence is expected to add USD 967 Bn to the Indian economy by 2035 and USD 450–500 Bn to India’s GDP by 2025, accounting for 10% of the country’s USD 5 Tn GDP target.
- The Government is promoting the development of Electronics Manufacturing Clusters (EMCs) throughout the Country to provide world-class infrastructure and facilities. India is home to considerable talent for electronic chip design and embedded software.
- Exports of electronic goods stood at USD 2,009 Mn in September 2022. The Government of India aims to make Electronics Goods amongst India’s 2-3 top-ranking exports by 2026. Electronic goods exports are expected to increase from the projected USD 15 Bn in 2021-22 to USD 120 billion by 2026. Moreover, post-COVID, The Government of India aims to increase India’s contribution by around USD 400 billion Bn worth of electronics goods including exports worth USD 120 Bn, which would account for 9-10% of the overall global value chains, from the current supply potential of 1-2%.
- Production-linked scheme (PLI) for large-scale electronics manufacturing (including mobiles) has seen investments worth INR 6,887 crore (USD 833 Mn) (till June 2023), already surpassing the target for FY24 which was INR 5,488 crore (USD 664.4 Mn).
- India's electronics sector is set to harness USD 7 Bn untapped revenue by 2035 via circular business model and policy pathways, industry stakeholders said. Current commitments and targets set the projected market size for these circular models at USD 13 Bn in 2035.
- The Ministry of Electronics and IT (MeitY) announced the exchange of signing of a Memorandum of Understanding (MoU) between the Centre for Nano Science and Engineering (CeNSE) at the Indian Institute of Science (IISc), Bengaluru, and Lam Research India at the SemiconIndia in Gandhinagar.
- India Semiconductor Mission organized a three-day SemiconIndia 2023 Conference in July 2023 with the theme ‘Catalysing India’s Semiconductor Ecosystem’ in Gandhinagar, Gujarat. In March 2023, the Government approved the setting up of the Electronics Manufacturing Cluster (EMC) at Hubli-Dharwad in Karnataka, worth INR 180 crore (USD 22 Mn) and is expected to create about 18,000 jobs.
- The Indian startup ecosystem has experienced a surge over the years, due to rapid technological advancements, increasing internet penetration, growing digital infrastructure, rising startup culture, government initiatives like Digital India, Make in India, and Startup India, as well as a large pool of skilled workforce.
- India has witnessed an exceptional surge in the creation and funding of startups as the country has solidified its position as a major global center for innovation and businesses. However, securing adequate funding remains a significant task for startups, often leading to survival challenges.
- Indian Railways has made a significant stride in fostering innovation through collaboration with startups and businesses. On June 13, 2022, the Ministry of Railways launched the "Startups for Railways" initiative. This project aims to leverage cutting-edge technologies developed by Indian startups, MSMEs, innovators, and entrepreneurs to enhance operational efficiency and safety within the Indian Railways network. The initiative focuses on addressing issues related to quality, reliability, and maintainability. Under this policy, startups, MSMEs, innovators, and entrepreneurs will retain sole ownership of the intellectual property rights (IPR) generated during the course of the project.

- The inaugural Future Skills Summit was organized by the Ministry of Electronics and Information Technology (MeitY) in collaboration with the National Institute of Electronics and IT (NIELIT) in Guwahati on February 15, 2024.
- Voltas announced plans of INR 400 crore (USD 50.10 Mn) capex under the PLI scheme to manufacture components for white goods in May 2022.
- Ministry of Electronics & Information Technology (MeitY) has announced the “Scheme for Promotion of Semiconductor Ecosystem” in India with a massive outlay of INR 76,000 crore (USD 9.48 Bn) in 2022.
- As per the Union Budget 2022-23, the Ministry of Electronics and Information Technology (MeitY) has been allocated Rs. 14,300 crore (USD 1.73 Bn).
- In the allocated budget, revenue expenditure allocation is INR 13,911.99 crore (USD 1.8 Bn) and capital expenditure allocation is INR 388.01 crore (USD 50.4 Mn).
- About 80% of the Production-Linked Incentive scheme (PLI) encourages manufacturing in the country, which covers 14 industries and has a total investment of INR. 3 lakh crore (USD 38.99 Bn) is concentrated in only three sectors: electronics, automobiles, and solar panel production.
- The government allows 100% FDI in the ESDM sector through an automatic route to attract investments, including original equipment manufacturers (OEMs) and integrated device manufacturers (IDMs). The government has set a target to get ~ INR 18,000 crore (USD 2.4 Bn) investments in the electronics manufacturing segment by 2021-22.
- In May 2021, the cabinet, chaired by Prime Minister Mr. Narendra Modi, approved a proposal by the Department of Heavy Industries and Public Enterprises to implement the production-linked incentive (PLI) scheme 'National Programme on Advanced Chemistry Cell (ACC) Battery Storage' to achieve manufacturing capacity of 50 GWh (Giga Watt Hour) of ACC and 5 GWh of 'Niche' ACC, with an outlay of INR 18,100 crore (USD 2.47 Bn).
- On November 11, 2020, the Union Cabinet approved the production-linked incentive (PLI) scheme in 10 key sectors (including electronics and white goods) to boost India's manufacturing capabilities, and exports and promote the 'Atmanirbhar Bharat' initiative.
- The Electronics Sector Skills Council of India (ESSCI) aims to facilitate a world-class ecosystem for developing a future-ready workforce in the Electronics System Design & Manufacturing Sector. Its mission is to become a global leader in skill development in Electronics by aligning to the product lifecycle – Design, Manufacturing & Service through blended Skilling, R&D, Innovation & adoption of state-of-the-art technologies to reach the masses and lead to the growth of the ESDM sector.
- India Electronics and Semiconductor Association (IESA) acts as a trusted knowledge partner to the Central & State Governments helping device policies & incentives for the ESDM industry to help attract investments into India. To promote technology solutions to positively impact the lives of 1.3 Bn Indian citizens is a key aim of IESA, which it achieves by bridging the gap between academia & industry to bring innovations faster to market.

Energy Efficiency Policy for Indian Railway: With increasing electric locomotives, the demand for electricity by the railways will also be seen growing rapidly. As the railways pursue higher electrification targets, its power requirements are expected to grow from 4000 MW in 2012 to around 15000 MW in 203210.

- Energy efficiency measures in Workshops, Production units, Locomotives including use of VFD drives, energy efficient motors, etc.:
 - Installation of energy efficient motors and pumps, VFDs for cranes, pulleys and other variable loads need to be done.
 - VFDs are to be installed to achieve energy savings wherever part load conditions occur.
 - Total cost of ownership of the equipment will be considered for procurement.

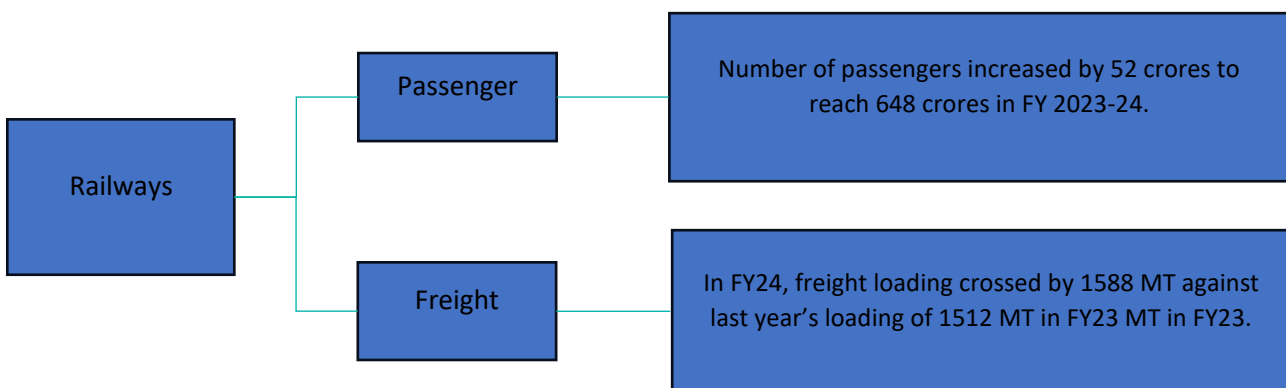

- Guidelines have been issued for provision of energy saving mode on three phase locomotives wherein power supply to Oil Cooling Blower (OCB), Traction Motor Blower (TMB) and Scavenge Traction Motor Blower (ScTMB) will be switched off through software logic.
- Use of energy efficient Brushless Direct Current (BLDC) motor fans in coaches and buildings.
- Production Units have completely switched over to production of energy efficient three-phase electric locomotives with regenerative braking features.
- Railways has introduced Insulated-Gate Bipolar Transistor (IGBT) based 3-phase propulsion system with regenerative braking in Electrical Multiple Unit (EMU) trains, Mainline Electrical Multiple Unit (MEMU), Kolkata Metro rakes and Vande Bharat Trains to conserve energy during the operations.

Railway Infrastructure in India

India boasts the fourth-largest railway system globally, behind only the US, Russia, and China. Indian Railways are a mode of land transport for bulky goods and passengers over long distances. The railway gauges vary in different countries and are roughly classified as broad (more than 1.5 m), standard (1.44 m), meter gauge (1 m), and smaller gauge. With a vast network spanning over 126,366 km of tracks and over 7,335 stations, Indian Railways is a crucial mode of transportation for millions.

Railways in India: Achievements and Goals

- **Origin:** Railway was first introduced in 1853, from Bombay to Thane during the Governor Generalship of Lord Dalhousie.
- **Global Status:** India ranks 4th globally in railway infrastructure, trailing only the US, Russia, and China.
- **Railways Infrastructure:** Indian Railways encompasses 126,366 km of track and 7,335 stations.
 1. Track Development: During 2022-23, 5,243 km of track was laid, with a record daily average of 14.4 km.
 2. Daily Operations: include 13,523 passenger trains and 9,146 freight trains daily.
 3. Freight loading: reached a record high of 1,512 MT in 2022-23, with a target of 2,024 MT by 2024.

• Growth in Passenger Volumes and Revenue Generated Through Passenger Trains:

The Indian Railways derives the majority of its passenger revenue, approximately 96% in 2023-24, from non-suburban traffic, primarily through long-distance trains. Passenger traffic is projected to grow at an annualized rate of 2% between 2013-14 and 2023-24. For the financial year 2022-23, the Railways is estimated to generate 69% of its internal revenue from freight operations and 24% from passenger traffic, with the remaining 7% coming from miscellaneous sources such as parcel services, coaching receipts, and platform ticket sales. Passenger services are estimated to contribute 26% of the total traffic revenue, amounting to INR 69,720 crores (USD 8.4 billion). Additionally, passenger traffic is expected to grow by 11% compared to the revised estimates for 2022-23. The total number of passengers who traveled during 2023-24 was 648 crores, reflecting an increase of 52 crores compared to the figures for the same period of the previous year. Passenger volumes are anticipated to

increase gradually as the post-pandemic recovery continues. To enhance passenger convenience, Indian Railways announced plans in April 2021 to introduce new trains, including four Shatabdi Express trains and a special Duronto Express train.

Trends in passenger volumes (in Crores INR)

- During the fiscal year 2023-24, Indian Railways reported a total passenger revenue of INR 75,807 crores (USD 8.75 billion), marking a 14% increase from INR 66,040 crores (USD 7.62 billion) recorded during the same period in the previous year.
- For the period April 1 to January 31, 2023, revenue generated from the reserved passenger segment amounted to INR 41,930 crores (USD 5.1 billion), while revenue from the unreserved passenger segment stood at INR 11,510 crores (USD 1.4 billion).

Passenger Earnings (in Crores INR)

- Growth in Freight and Revenue Generated Through Freight Trains:**

In FY24, Indian Railways achieved a record freight loading of 1,588 million tonnes (MT), surpassing the previous best of 1,509 MT in FY23 by 82 MT. The Railways has set an ambitious target of achieving 3,000 MT by 2030. From April to February of FY24, freight loading reached 1,434.03 MT, reflecting an increase of 66.51 MT compared to the same period last year. During this period, freight revenue increased by INR 6,468 crores (USD 778 million) compared to the previous year. As of January 31, 2023, a total route length of 1,724 km—comprising 861 km of the Eastern Dedicated Freight Corridor (EDFC) and 863 km of the Western Dedicated Freight Corridor (WDFC)—has been commissioned, out of the planned total of 2,843 km. Freight traffic is projected to grow significantly in the medium to long term, driven by favorable policy measures and increased participation from both domestic and international private players. In FY23, the North Western Railway recorded the highest growth in freight earnings at INR 6,839.93 crores (USD 832.39 million), representing a 30.82% increase over the previous year's earnings of INR 5,228.13 crores (USD 636.3 million). Freight loading also rose to 32.69 million tonnes, a 10.07% increase compared to the 29.70 million tonnes loaded in the prior year.

- In June 2024, Indian Railways recorded a freight loading of 135.46 million tonnes. On a cumulative basis, from April 2023 to January 2024, railway freight earnings amounted to INR 1,65,490 crores (USD 19.1 billion), compared to INR 1,69,390 crores (USD 19.5 billion) in the previous year, reflecting a 2.5% improvement year-over-year.

Freight Earnings (in Thousand Crores INR)

- “Hungry For Cargo”, IR has made sustained efforts to improve the ease of doing business and improve the service delivery at competitive prices, resulting in new traffic coming to railways from both conventional and non-conventional commodity streams. The customer-centric approach and work of Business Development Units backed up by agile policymaking helped Railways towards this landmark achievement.
 - **High-speed Rail Project:** The Mumbai-Ahmedabad high-speed rail project, with an estimated cost of INR 1,18,437 crores (USD 14.27 billion), is currently underway.
 - **Railway Electrification:** Indian Railways aims to achieve complete electrification by 2023, which is expected to result in annual savings of INR 12,873 crores (USD 1.55 billion).
 1. Over 61,813 km of Broad-Gauge network has been electrified, advancing towards 100% electrification.
 2. Significant progress has been made in railway electrification, with 38,650 km achieved by Oct 2023.
 - **Wi-Fi:** It has been installed at 6,089 railway stations nationwide.
 - **Green Initiatives:** More than 1,000 stations have been solarized to support green initiatives.
 - **Safety System:** Automatic Block Signaling (ABS) has been implemented along 3,946 route km.
 1. Kavach, a safety system, covers 1,465 route km and 139 locomotives across several states.
 - **Vande Bharat Trains and Gati Shakti Cargo terminals:** Plans include manufacturing 400 Vande Bharat Trains and developing 100 PM Gati Shakti Cargo terminals in the next three years.
 - **Gauge Conversions:** From 2014 to 2022, 1,544 km of new lines, gauge conversions, and doubling projects have been commissioned, showing a significant increase compared to the previous period.
1. **18 Zones:** The Indian Railways has been divided into 18 zones: Northern Railway (Largest), North Eastern Railway, Northeast Frontier Railway (Smallest), Eastern Railway, South Eastern Railway, etc.

Railway zone	Code	Zone quarters	Route Length (Kms)	Number of stations	Railway Divisions
Central Railway	CR	Mumbai CSMT	4,102	612	Mumbai, Bhusawal, Pune, Solapur,

In the entire Indian Railway system, Kolkata has the highest number of zonal headquarters, comprising the eastern zone, southeastern zone, and Kolkata Metro Railway.

Following are the major railway zones in India:

a) Central Railway Zone

The central railway zone was one of the largest railway zones. The Central Railway zone comprises some areas of the southern part of Uttar Pradesh and a significant portion of Madhya Pradesh. The zone was established on 5th November 1951 by merging the Scindia State Railway, Nizam state railway, Dholpur railways, Great Indian Peninsula Railway, and Wardha Coal state railway.

Although it was the largest railway zone, it was renamed, and a few of its divisions were given to the others in April 2003. Currently, the Central Railway zone has five different divisions under its authority, with its headquarters at the Chhatrapati Shivaji Terminus, Mumbai. At present, the state of Maharashtra, the North-Eastern Part of Karnataka, and the southern part of Madhya Pradesh fall under its authority.

b) Northern Railway

The Northern Railway was established back in 1859 and was later added to the official list of the railway zones in India on 14th April 1952. Currently, it is one of India's oldest and largest railway zones, which provides services in the state of Himachal Pradesh, Uttarakhand, Haryana, Punjab, and a few parts of Uttar Pradesh. It also operates in the union territories of the Indian government, mainly Delhi, Jammu and Kashmir, and Chandigarh. The Northern Railway zone is headquartered in New Delhi at Baroda House. Moreover, it has a railway network of 6,807 kilometres.

c) Konkan Railway

The Konkan railway began its operation on 20th March 1993. The train was operated between Mangalore and Udupi. Due to a few accidents in its initial working days, the Konkan railway highly promoted advanced technologies in its operations, such as sky bus, roll-on/roll-off service (commonly known as the RORO service) and anti-collision devices.

The headquarters of the Konkan Railway is at CBD Belapur, which is located in Navi Mumbai. One of the interesting facts about the Konkan railway is that with just one track of 756.24 km, it covers 69 railway stations.

d) 18th Railway zone: South Coast Railway zone

The South Coast Railway zone is the 18th railway zone of the Indian railway which was introduced in the year 2019 by Piyush Goyal, the railway minister during the period. The zone has Guntur, Guntakal, Vijayawada, and Waltair divisions under it and is headquartered in Visakhapatnam.

2. **100% FDI:** is allowed in railway infrastructure under the automatic route.
3. **Classification based on the width of track:** Broad gauge (1.676 metres), Metre gauge (1m) and Narrow gauge (0.762m or 0.610m; generally confined to hilly areas)
4. **Indian Railways has two UNESCO World Heritage Sites:**
 - a) The Chhatrapati Shivaji Maharaj Terminus, Mumbai (2004)
 - b) The Mountain Railways of India (1999, 2005, 2008): Darjeeling Himalayan Railway, Nilgiri Mountain Railway, Kalka-Shimla Railway.
- **Railway Infrastructure Projects in India:**
 1. Dedicated Freight Corridors (DFCs):
 - a) Eastern DFC (EDFC): 1,856 km long from Ludhiana (Punjab) to Dankuni (West Bengal); Covers Punjab, Haryana, Uttar Pradesh, Bihar, Jharkhand and West Bengal.

- b) Western DFC (WDFC): 1,504 km long from Dadri (UP) to Jawaharlal Nehru Port (Maharashtra); Covers Haryana, Rajasthan, Gujarat, Maharashtra and Uttar Pradesh.

India Railway Map

Diamond Quadrilateral Project: The Diamond Quadrilateral is an Indian Railways project to establish a high-speed rail network that will connect the four mega cities of India, viz. Delhi, Mumbai, Kolkata and Chennai.

- a) Delhi-Mumbai
b) Mumbai-Chennai

- c) Chennai-Kolkata
- d) Kolkata-Delhi

Key Features of the Diamond Quadrilateral

- **High-Speed Rail Network:** Trains capable of speeds up to 300-350 km/h, significantly reducing travel time between these cities.
- **Connectivity:** Links four of India's largest cities, which are also major economic and cultural hubs. Improves accessibility to tier-2 and tier-3 cities along the corridor.
- **Modern Infrastructure:** Advanced railway technology, signaling systems, and electrification to ensure safety and efficiency. Integration with existing rail networks to maximize coverage.

Benefits of the Diamond Quadrilateral

- **Economic Growth:** Enhances trade and business by improving connectivity between industrial and commercial centres. Supports regional development and boosts employment during construction and operation.
- **Reduced Travel Time:** High-speed trains significantly cut travel times compared to conventional rail and road transport.
- **Example:** Travel between Mumbai and Delhi could be reduced to 4-5 hours compared to 16+ hours by conventional rail.
- **Environmentally Friendly:** Promotes a shift from road and air travel to rail, reducing carbon emissions and fuel consumption.
- **Boost to Tourism:** Easier access to cultural and historical landmarks across India, promoting domestic and international tourism.
- **Technological Advancement:** Adoption of cutting-edge rail technology brings innovation and skill development to India.

Current Status

- The Diamond Quadrilateral project is in its planning and development stages. The government has initiated feasibility studies for several routes, and the Mumbai-Ahmedabad High-Speed Rail Corridor, India's first bullet train project, is considered a precursor and part of this broader initiative.

Challenges

- **Cost:** High-speed rail projects require significant investment in infrastructure, technology, and land acquisition.
- **Land Acquisition:** Acquiring land for dedicated corridors often faces delays due to administrative and legal hurdles.

Coordination: Collaboration between multiple states and agencies is essential but challenging.

Signaling & Electrification Infrastructure

a) Signaling Infrastructure:

Indian Railways has undertaken significant advancements in signalling and telecommunications to modernize train control, enhance operational safety, and improve overall efficiency. These efforts reflect the organization's commitment to creating a robust and technologically advanced railway network.

- **Modern Signalling Systems**

Indian Railways is making significant progress in upgrading its signalling systems. As of October 31, 2023, Automatic Block Signalling (ABS), which enhances platform utilization and reduces train delays, has been

installed across 4,111 route kilometers. Additionally, ABS has been approved for six sections in Bengaluru, covering 639 km at a cost of INR874 crores. To further modernize the network, Indian Railways is replacing outdated electro-mechanical systems with advanced electronic route relay devices, investing INR1,00,000 crores to implement these changes.

- **Accident Reduction Initiatives**

The introduction of advanced safety measures has significantly reduced train accidents, from an average of 171 per annum (2004-14) to 71 per annum (2014-23). Key initiatives include:

- 1) Electrical/Electronic Interlocking Systems: Installed at 6,589 stations by June 30, 2024, to centralize the operation of points and signals, minimizing human error.
- 2) Interlocking of Level Crossing Gates: Enhanced safety at 11,048 level crossing gates as of June 30, 2024.
- 3) Complete Track Circuiting: Implemented at 6,609 stations, allowing electrical verification of track occupancy.
- 4) Axle Counters: Introduced on 6,079 block sections to automate train clearance and minimize manual intervention.

- **Indigenous Automatic Train Protection System**

The Kavach Automatic Train Protection (ATP) system, developed by the Research Designs and Standards Organisation, is a significant milestone in ensuring train safety. Kavach assists loco pilots by automatically applying brakes in case of emergencies and maintaining safe operation during adverse weather conditions. Key highlights include:

- 1) Adopted as India's national ATP system in July 2020.
- 2) Deployment across 1,465 route kilometers and 144 locomotives by July 24, 2024.
- 3) Projects such as the Mumbai-Ratlam route (735 km) and Delhi-Mumbai corridor are targeted for completion by 2025.
- 4) The annual installation capacity of Kavach has increased to 2,500 km, aiming to cover 5,000 km by 2026.

- **Communication Modernization**

To modernize communication networks, the Indian government approved a INR25,000 crore (USD3.43 billion) plan in June 2021 to adopt 4G technology for railway stations. Additionally, a project for a Long-Term Evolution (LTE) Mobile Train Radio Communication system covering 34,803 route kilometers has been initiated to improve safety and operational efficiency.

- **Real-Time Train Tracking**

The Real-Time Train Information System (RTIS), an indigenous IoT-based solution, has been installed on 8,700 locomotives, covering 60% of the operational fleet. This system enables real-time tracking of train location and speed, facilitating efficient train operations.

- **Safety Fund and Investments**

The Rashtriya Rail Sanraksha Kosh (RRSK), established in 2017-18 with an initial allocation of INR 1,00,000 crores, aims to replace, renew, and upgrade critical safety assets. By 2021-22, INR 1,08,000 crores had been utilized under this fund. Recognizing its significance, the government extended the RRSK for another five years in 2022-23, with an additional allocation of INR 45,000 crores. This fund supports essential projects such as:

- 1) Track renewals and upgrades.

- 2) Bridge maintenance and modernization.
- 3) Signalling system improvements.

- **Additional Safety Enhancements**

- 1) Emergency Systems: Emergency talk-back and alarm systems are now integrated into Vande Bharat train sets.
- 2) CCTV Installation: Over 9,572 coaches, including all Vande Bharat Express coaches, are equipped with CCTV cameras to enhance security.
- 3) Fog Safety Devices: GPS-based fog safety devices assist loco pilots in low visibility areas.
- 4) Ultrasonic Flaw Detection: Regular rail testing identifies and replaces defective tracks.
- 5) Track Monitoring Systems: A web-based system for track asset monitoring and maintenance has been implemented.

b) Electrification Infrastructure:

Indian Railway has plan to convert its infrastructure from 1x25 to 2x25 KV to facilitate the capacity augmentation to meet the growing demand of additional trains on existing track and specialty for running the Vande Bharat Trains. The total investment in upgradation of their existing system is INR 1 trillion which would be spent by the Indian Railway in the next 5-7 years.

- **Renewable Energy Initiatives**

- 1) Indian Railways set a target to install 1,000 MW of solar power plants and 200 MW of wind power plants by 2022-23.
- 2) As of now, 204.82 MW of renewable energy has been installed, comprising 101.42 MW of solar power and 103.4 MW of wind power.

- **Progress in Electrification**

- 1) In CY 2023, Indian Railways electrified 6,577 Route Kilometers (RKMs), raising the total electrification of the broad-gauge network to 93.83%, or 65,556 RKMs.
- 2) The target is to achieve 100% electrification of all broad-gauge routes by 2024, with 45,881 km electrified and the remaining 18,808 km under progress.
- 3) Approximately INR 21,000 crore (USD 2.8 billion) is estimated to complete the electrification of the remaining routes.
- 4) The electrification drive has seen rapid progress, achieving a 5x increase in electrification between 2014 and 2021 compared to 2007–2014.

- **93% of the Indian rail network is electrified by 2023**

Electrified network by state (broad gauge only) as of 31 October 2023 (%)

- **International Collaboration**

- 1) In November 2019, Indian Railways partnered with Madhepura Electric Locomotive Pvt. Ltd. (MELPL), a joint venture with France-based Alstom, to manufacture 800 electric locomotives for freight services.

- **New Services and Programs**

- 1) The government launched **Mission Raftaar** in **August 2022**, aiming to:
 - a) Double the average speed of freight trains.
 - b) Increase the average speed of superfast/mail/express trains by **25 kmph**.
- 2) In **September 2021**, Indian Railways initiated **rail-based tourism**, leasing and selling railway coaches to private players.
- 3) Under the National Rail Plan, Vision 2024, Indian Railways plans to:
 - a) Implement multitrack congested routes.
 - b) Achieve 100% electrification.
 - c) Upgrade speeds to 160 kmph on the Delhi-Howrah and Delhi-Mumbai routes.
 - d) Upgrade speeds to 130 kmph on other golden quadrilateral/golden diagonal (GQ/GD) routes.
 - e) Eliminate all level crossings on the GQ/GD routes by 2024.

- **Modernization of Services**

- 1) By January 31, 2024, 41 Vande Bharat trains were operational, connecting various states via broad-gauge electrified routes.
- 2) In February 2021, Indian Railways upgraded the rake of the Agartala-Anand Vihar Terminal Special Rajdhani Express with Tejas Sleeper coaches to enhance passenger experience.

- **Decarbonization Efforts**

- 1) On June 14, 2023, the Government of India signed an MoU with USAID/India to assist Indian Railways in achieving Net Zero Carbon Emission by 2030.
- 2) Indian Railways has been collaborating with public sector enterprises to expedite electrification as part of its decarbonization strategy.
- 3) A record 6,015 RKMs were electrified in 2020-21, marking the highest-ever electrification of sections in a single year.

Railway track modernization initiatives

In the quest to Vikasit Bharat 2047, Indian Railways continued its transformative journey in the year 2024, paving the way for a new era of modernization and progress. With a strong focus on meeting world class travel experience, boosting freight efficiency, and adopting advanced technologies, the Railways has solidified its role as a catalyst for national growth. Modern stations, state-of-the-art trains, and innovative safety systems are reshaping the landscape of rail travel. Committed to sustainability, the Railways is steadily moving towards greener operations while driving economic development through extensive infrastructure upgrades and capacity building. This year has reaffirmed its vision of becoming a world-class transportation network, blending tradition with innovation to meet the needs of a dynamic and evolving nation.

Insight on railway capex spending on track infrastructure (expansion & upgradation)

Indian Railways has made significant capital investments to modernize its track infrastructure, focusing on expansion, upgradation, and sustainability:

- 1) Infrastructure Expansion: As of April 2024, Indian Railways is managing 488 projects, including 187 new lines, 40 gauge conversions, and 261 doubling projects spanning a total of 44,488 km, with a projected cost of INR 7.44 lakh crore (USD 89.4 billion). Approximately 12,045 km of these projects have been commissioned, with an expenditure of INR 2.92 lakh crore (USD 35.1 billion).
- 2) Electrification: Efforts to electrify all broad-gauge routes by March 2024 have seen over 96.99% electrification (64,421 km), significantly reducing carbon emissions.
- 3) High-Speed Rail Projects: Indian Railways is constructing 508 km of high-speed tracks, including the Mumbai-Ahmedabad corridor, and has planned seven additional corridors costing INR 1.47 lakh crore (USD 17 billion).
- 4) Track Upgradation: Heavier section, high-tensile strength rails (52 kg/60 kg, 90 UTS) are replacing older rails to handle increased traffic loads and speeds. In FY24, Indian Railways laid 5,100 km of new tracks and commissioned 1,752 km.
- 5) Specialized Freight Lines: Dedicated Freight Corridors (DFC) on the Eastern and Western routes improve freight efficiency while decongesting passenger lines.

Key policy initiatives / measures

Indian Railways has implemented strategic policies to ensure efficient and safe track modernization:

- Track Renewals and Maintenance: Modern materials, ultrasonic flaw detection (USFD) technology, and advanced welding techniques are used to replace and maintain tracks, improving safety and durability.
- Electrification in Mission Mode: Aimed at decarbonization, electrification initiatives achieved the highest-ever section coverage of 6,015 route kilometers in 2020-21.
- Elimination of Unmanned Level Crossings: All UMLCs on broad-gauge routes were removed by January 2019, significantly reducing accidents.
- Elimination of level crossings: IR has been working towards elimination of manned level crossings, which are prone to accidents. Efforts are made to incorporate underpasses and overpasses instead. This often leads to an

increase in project cost and development timelines. But since it reduces accidents and casualties, this mechanism has been adopted.

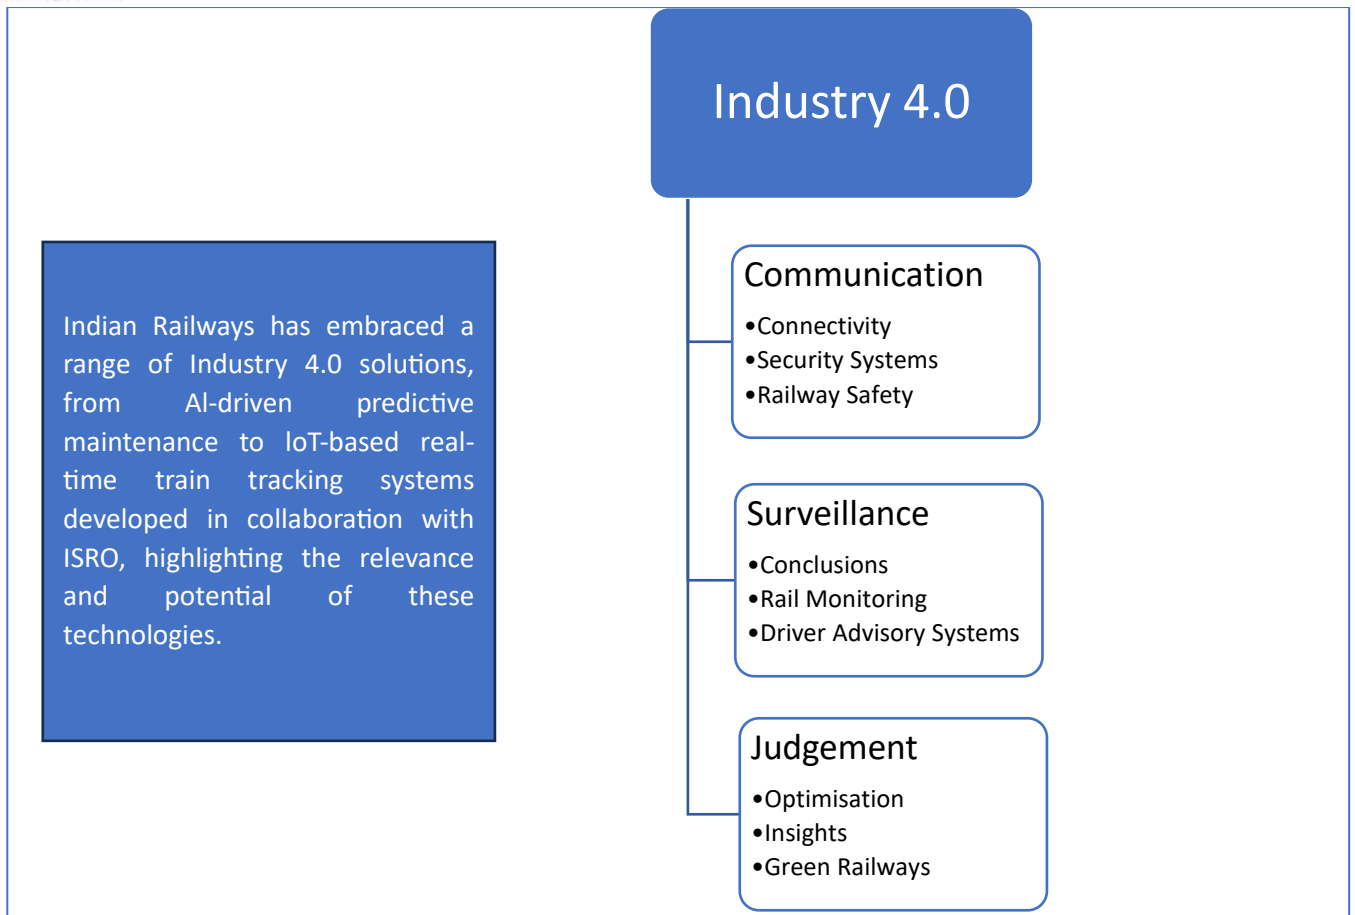

- **Bridge Modernization:** Comprehensive inspections, rehabilitation, and strengthening projects ensure structural safety for increasing traffic loads and speeds.
- **Web-Based Asset Monitoring:** Digital systems for real-time track monitoring support preventive maintenance and efficient resource allocation.
- **Fire and Safety Measures:** Modern trainsets like Vande Bharat are equipped with fire detection, suppression systems, and emergency talk-back mechanisms.
- **Dedicated Freight Corridors (DFC):** These projects improve freight capacity and reduce congestion, with 90% of the 3,260 km DFC network operational as of 2024.
- **High-Speed Corridors:** Upgraded tracks on key routes enable speeds of 130-160 kmph, with future plans for semi-high-speed and high-speed rail corridors.
- **National Rail Plan (Vision 2024):** The plan focuses on multitracking congested routes, 100% electrification, and eliminating level crossings on key routes by 2024.
- **Rashtriya Rail Sanraksha Kosh (RRSK):** Established in 2017-18 with an initial corpus of INR 1,00,000 crores, this fund supports critical safety asset upgrades, including tracks and bridges. In 2022-23, it was extended with an additional allocation of INR 4,500 crores.
- **Public-Private Partnerships (PPP):** To attract private investment, a PPP model allows for commercial use of space above platforms and tracks with up to 40% viability gap funding.
- **Achievements and Impact**
- Electrification increased fivefold between 2014 and 2021 compared to 2007-2014.
- The completion of high-capacity projects during the COVID-19 lockdown included upgrades to 514 km of railways and new port connectivity lines.
- Biodegradable infrastructure, such as bio-toilets in 79,269 passenger coaches, prevents daily excreta fall on tracks, enhancing hygiene and sustainability.

Indian Railways continues to modernize its tracks and associated infrastructure to meet growing passenger and freight demands, with a strong focus on safety, sustainability, and operational efficiency.

Technology Development in Track & Signaling Infrastructure

Indian Railways is accelerating its digital transformation to become smarter, enhance its operational efficiencies, and deliver an unparalleled experience to passengers. Smart Railways harness the integration of advanced technologies to create a more intelligent, connected, and data-driven rail network with the goal to provide a more convenient and sustainable travel experience for passengers. Smart railways are transforming the transportation landscape by integrating advanced technologies to improve safety, efficiency, and passenger experience. Digital signaling and train control systems enhance traffic management and operational safety, while IoT-enabled sensors continuously monitor tracks, equipment, and passenger activities, enabling real-time data collection and analysis. Predictive maintenance, powered by data analytics, reduces downtime and prevents equipment failures by addressing issues proactively. Smart ticketing systems, including RFID technology, mobile applications, and contactless payment options, streamline travel, and automated trains ensure efficient and error-free operations.

Passenger convenience and safety are prioritized with features like real-time updates via mobile apps and robust surveillance systems, including CCTV and facial recognition technology. Data-driven optimization enhances resource utilization and scheduling efficiency, while green technologies such as regenerative braking, energy-efficient systems, and renewable energy integration support environmental sustainability. Furthermore, seamless intermodal connectivity ensures efficient integration with other transportation modes like buses, trams, and metros, creating a unified and sustainable transportation ecosystem.

Industry 4.0 and IoT: The Building Blocks of the Future

Industry 4.0, powered by technologies like IoT, cloud computing, and AI, is poised to revolutionize Indian Railways by addressing growing operational demands. IoT enables real-time data processing and seamless communication across assets like trains, signals, and locomotives, optimizing existing systems. The integration of cyber-physical systems (CPS) enhances performance through improved coordination and failure prediction, while big data analytics generates actionable insights for maintenance, asset management, and schedule optimization. IoT fosters interoperability for smooth communication across the railway ecosystem, decentralizes decision-making to reduce human error, and enables smart systems like signaling to operate autonomously in real-time. Predictive and prescriptive analytics ensure proactive maintenance and performance optimization, while edge computing reduces latency by processing data near its source, enhancing responsiveness in critical areas such as safety and signaling. These advancements are essential building blocks for the future of Indian Railways.

Emerging Smart Technology /Other Features Making Their Way into Railway Track & Management Infrastructure

Indian Railways is embracing a range of smart technologies to enhance its track and signaling infrastructure, focusing on operational efficiency, safety, and sustainability. Key developments include:

- 1) **Smart Yards:** Indian Railways is developing “Smart Yards” equipped with automated systems for predictive maintenance of freight wagons. These yards will use technologies such as Hot Box Detectors and Wheel Profile Recorders to identify potential issues like hot axles or defective wheels before they result in operational failures.
- Implementation of Smart Yard:
In the first phase, Indian Railways will convert 40 identified yards into Smart Yards.
COFMOW, a unit of Indian Railways, has been assigned the responsibility for overseeing the Smart Yards

project.

- 2) **Bidirectional Signaling:** The introduction of bidirectional signaling systems enhances safety and optimizes traffic flow. This technology allows trains to operate in both directions on the same track, increasing capacity and reducing delays. The unidirectional track is transformed into a bidirectional system, with special block reversal procedures and dynamic adjustments in the Direction of Traffic (DOT) based on scheduling needs to ensure safety.

For example, when a train needs to change direction, the control centre reverses the direction of traffic within the relevant blocks. This ensures that trains can safely travel in the opposite direction without conflicting with other trains on the track.

- 3) **On-board Condition Monitoring Systems (OBCMS):** These systems are installed on rolling stock to detect onboard faults or vibrations, providing real-time data that helps in preventive maintenance and enhances safety. The predictive nature of the OBCMS enhances safety and reliability by providing early warnings for potential issues like wheel flats, bearing failures, and track deterioration, thereby reducing the likelihood of accidents. This proactive approach also drives cost efficiency by extending overhaul intervals, enabling timely and cost-effective maintenance, and minimizing operational downtime and in-service breakdown costs. Additionally, the system optimizes asset utilization by offering advanced condition insights, which streamline maintenance planning, reduce disruptions, and maximize time-in-service for rolling stock.

Hitachi Rail India is transforming railway operations with its state-of-the-art On-board Condition Monitoring System (OBCMS) for rolling stock. Deployed in 100 LHB Smart Coaches of Indian Railways, the system utilizes Hitachi Rail - Perpetuum's advanced sensors to monitor critical components such as wheels, bearings, ride quality, and track conditions, covering an extensive network of 8,600 kilometers. By combining artificial intelligence with advanced analytical tools, the OBCMS detects onboard faults and vibrations, delivering high reliability, reduced maintenance requirements, and increased rolling stock availability.

- 4) **Integrated Communication-Based Train Control (ICBTC):** Integrated Communication-Based Train Control (ICBTC) is an advanced signaling system that builds upon the principles of Communications-Based Train Control (CBTC). This system is designed to improve the safety, efficiency, and capacity of railway operations. ICBTC combines various subsystems and technologies into a cohesive framework, integrating train control, supervision, and management functions. This integration allows for more efficient operations, improved safety, and enhanced communication across the entire railway network.

Key features of ICBTC: The Integrated Communication-Based Train Control (ICBTC) system revolutionizes railway operations with uninterrupted, high-capacity bidirectional communication between trains and trackside equipment. This real-time data exchange eliminates reliance on traditional fixed block signaling, enhancing operational precision. ICBTC integrates multiple functionalities such as Automatic Train Protection (ATP), Automatic Train Operation (ATO), and Automatic Train Supervision (ATS), ensuring seamless coordination across the railway system. Safety is prioritized through ATP, which monitors train movements and conditions to prevent collisions and maintain safe operations by automatically adjusting train speeds and spacing. Additionally, the system employs Moving Block Technology for dynamic headway management, enabling trains to operate closer together. This reduces intervals between trains, significantly increasing rail line capacity without requiring additional infrastructure.

- 5) **Kavach System:** Kavach is an Automatic Train Protection (ATP) system developed by the Research Designs and Standards Organization (RDSO) for Indian Railways. Certified to Safety Integrity Level 4 (SIL-4), Kavach is a pivotal component of the Train Collision Avoidance System (TCAS) project, initiated in 2012 to eliminate train collisions across India's rail network. Currently operating on version 3.2, Kavach is slated for an upgrade to version 4.0 to expand its capabilities. Version 3.2 received certification in 2021, with deployment commencing in late 2022 on high-traffic routes such as Delhi-Mumbai and Delhi-Howrah.

Kavach is a cutting-edge safety and operational efficiency system designed to revolutionize railway operations. It incorporates features such as automatic braking to prevent collisions, automated whistling at level crossings,

and real-time movement authority updates for seamless train operations. The system's SOS emergency stop feature and inter-locomotive communication enhance coordination and mitigate risks. Kavach also offers robust safety functionalities, including Signal Passed at Danger (SPAD) detection, collision avoidance through automatic braking, and adverse weather adaptation by providing hazard warnings in challenging conditions like fog. Together, these functionalities ensure safer, more efficient, and reliable railway operations.

Insight on Digital Transformation Initiatives in Railways

Indian Railways is undergoing a significant digital transformation aimed at enhancing passenger experience and operational efficiency:

- 1) **Smart Railways Initiative:** The Smart Railways initiative focuses on creating a connected and data-driven rail network. This includes the integration of advanced technologies like electronic interlocking, autonomous operations, and on-board monitoring systems to improve service delivery.
- 2) **Future Rail India:** Federation of Indian Chambers of Commerce and Industry (FICCI) had organized “Future Rail India 2024: accelerating towards Viksit Bharat, 5th edition of Smart Railways Conclave” on Friday, 26th July 2024. The 5th edition of Smart Railways Conclave aimed to propel Indian railways into a new era of technological sophistication, innovation and self-reliability. It encompassed a comprehensive agenda that shall address modernization of track infrastructure, railway electrification, the application of advanced technologies, and the enhancement of freight and passenger services. The conclave was to bring together esteemed government representatives, sector experts, and industry stakeholders to discuss strategies for enhancing efficiency, safety, and environmental sustainability in the railway sector. The program was held to serve as a crucial platform for stakeholders within the railway ecosystem to share insights, establish collaborations, and delve into the latest advancements in the industry. Participants had benefit significantly from discussions centered on optimizing travel and cargo transport, as well as examining the impact of cutting-edge trains and station developments on passenger experiences.
- 3) **Leveraging AI for security, passenger safety and avoiding train mishaps:** The Namo Bharat trains by the National Capital Region Transport Corporation (NCRTC), launched in October 2023, leverage AI for numerous purposes. These trains, which are a part of the country’s first regional rapid transit system (RRTS), use an AI-enabled security system to detect any unlawful activities. Further, the baggage scanners installed use AI-enabled tools such as a dual view generator x-ray baggage inspection system. Using this, images of both the upper and lower parts of the bag passing through the scanner appear on the screen and the AI system automatically identifies the restricted/prohibited items and alerts the operator leading to heightened security. Moreover, the train systems analyze real-time data and use AI algorithms to adjust train schedules and accommodate unforeseen disruptions or changes in passenger demand. This leads to a reduction in waiting times and improves punctuality. AI is also being used to forecast occupancy levels, guiding passengers out of high peaks, giving operators higher visibility on passenger distribution in trains and stations, and helping anticipate and control passenger density in real time. Another interesting application of the technology has been development of an AI-based software called ‘Gajraj’ by Indian Railways that aims to prevent rising incidents of elephant and train collisions. The software uses optical fibre cable (OFC) and triggers alerts upon detecting any questionable movement within 200 metres of the railway tracks. It identifies signal disruptions as signs of movement alongside the railway tracks and creates variations in the optical signals carried by the OFC, signalling a potential threat. The software has been successfully tested in Assam and is set to be deployed across 700 km of elephant corridors in multiple states including West Bengal, Odisha, Jharkhand, Assam, Kerala and certain parts of Chhattisgarh and Tamil Nadu.
- 4) **Supporting digital transformation through RailCloud:** The Indian Railways has its own cloud computing platform called RailCloud that provides scalable and flexible IT infrastructure to support digital transformation initiatives within the organization. It can accommodate extensive data and applications on the same server space

and allows scaling up and down of storage space as and when required. The cloud platform helps streamline passenger services, including ticketing, inquiries, onboard services, and meal orders etc and leverages advanced software for real-time train monitoring and performance analysis.

Investment to Modernise Railways: The Indian Railways has committed nearly ₹180 crore to deploy Integrated Track Management System (ITMS) vehicles across all 17 railway zones. Presently, seven ITMS vehicles are operational, with plans to introduce 10 more. Each unit, costing approximately ₹18 crore, represents a significant financial investment in infrastructure modernisation. Ashwini Vaishnaw, the railway minister, highlighted that the deployment of ITMS aligns with Indian Railways' broader modernisation objectives. These efforts mark a critical step toward revolutionising track maintenance and enhancing passenger safety. The initiative also showcased the Road-Cum-Rail Inspection Vehicle (RCRIV), a pioneering tool designed for continuous track recording. Together, ITMS and RCRIV aim to set new benchmarks in railway safety and operational efficiency. With ITMS deployment planned across all railway zones, Indian Railways is advancing towards a future shaped by technological excellence. This initiative not only prioritises passenger safety but also underscores India's commitment to innovation and modernisation. By incorporating advanced technologies like ITMS, Indian Railways reaffirms its dedication to building a safer, more efficient, and reliable railway network.

Competitive Landscape

Analysis of key factors shaping competition in the sector

1) Technological Advancements

Staying on top of technological advancements in the electrical components and electronics sector is crucial. The latest developments in smart devices, the Internet of Things (IoT), and automation technologies can revolutionize the industry. For manufacturers catering to Indian Railways, incorporating these advancements can lead to more efficient and reliable systems. For instance:

- a) IoT-enabled sensors can provide real-time monitoring of railway equipment, enhancing safety and maintenance efficiency.
- b) Automation technologies can streamline operations, reduce manual labor, and minimize human errors.
- c) Artificial Intelligence (AI) can be used for predictive maintenance, analyzing data from various sensors to predict potential failures before they occur.

2) Government Policies and Initiatives

Government policies and initiatives play a significant role in shaping the competitive landscape. The Indian government's "Make in India" initiative encourages domestic manufacturing by providing incentives and support to local businesses. Additionally, the National Electronics Policy aims to make India a global hub for electronics system design and manufacturing (ESDM). These policies create a competitive environment where manufacturers must:

- a) **Comply with regulatory standards** set by the government and Indian Railways.
- b) **Leverage government support** to enhance their capabilities, such as financial incentives, subsidies, and tax benefits.
- c) **Collaborate with government agencies** to stay updated on the latest regulations and policies, ensuring compliance and securing contracts.

3) Supply Chain Dynamics

Efficient supply chain management is essential to remain competitive in this sector. Manufacturers must ensure the timely availability of raw materials and components, manage logistics effectively, and control costs. Key strategies include:

- a) Diversifying suppliers to reduce dependency on a single source and mitigate risks of supply chain disruptions.
- b) Implementing just-in-time (JIT) inventory management to minimize inventory costs while ensuring materials are available when needed.
- c) Investing in supply chain technologies such as blockchain for transparency and traceability, and AI for demand forecasting and optimization.

4) Quality and Reliability

Quality and reliability are paramount for components used in railway systems. Manufacturers must adhere to stringent safety and performance standards set by Indian Railways. This involves:

- a) Rigorous testing and certification processes to ensure products can withstand the harsh conditions and demands of railway operations.
- b) Continuous improvement practices such as Six Sigma and Total Quality Management (TQM) to maintain high standards.
- c) Regular audits and inspections to ensure ongoing compliance with quality standards.

5) Certifications and Standards

Indian Railways mandates high-quality standards for all components used in its operations. Manufacturers must obtain relevant certifications such as ISO 9001:2015 and approvals from the Railway Design Standards Organization (RDSO). Additionally, adhering to global standards like EN 50155, which focuses on electronic equipment used on rolling stock, can provide a competitive edge. Key aspects include:

- a) Understanding and meeting certification requirements to ensure products are accepted by Indian Railways.
- b) Maintaining documentation and records to demonstrate compliance during audits.
- c) Investing in certification and compliance training for employees to stay updated on the latest standards.

6) Cost Competitiveness

Competitive pricing is vital to winning contracts from Indian Railways. Manufacturers need to strike a balance between cost efficiency and quality. Strategies to achieve this include:

- a) Adopting lean manufacturing techniques to minimize waste and optimize resource use.
- b) Leveraging economies of scale by increasing production volume to reduce per-unit costs.
- c) Utilizing cost-effective materials and processes while ensuring they meet quality standards.

7) Customization and Flexibility

The ability to customize products to meet specific requirements of Indian Railways can provide a significant competitive edge. This involves:

- a) Flexible design and production processes that allow for quick adjustments to meet unique project needs.
- b) Collaboration with Indian Railways to understand their specifications and requirements thoroughly.
- c) Offering modular solutions that can be easily adapted or expanded based on changing needs.

8) After-Sales Service and Support

Robust after-sales service and support are critical for maintaining customer satisfaction and loyalty. Manufacturers who provide comprehensive service solutions can differentiate themselves from competitors. Key aspects include:

- Offering maintenance and repair services** to ensure the longevity and optimal performance of components.
- Providing technical support and training** to help Indian Railways staff operate and maintain the equipment effectively.
- Establishing a responsive customer service system** to address any issues or concerns promptly.

Growth Forecast

The expected growth in the Indian Railway locomotive fleet is influenced by various government initiatives aimed at modernization, increased production targets, and strategic investments.

Expected growth in Indian Railway locomotive fleet in past and upcoming years:

Current Fleet and Production Capacity

- Existing Fleet: As of January 2025, Indian Railways operates approximately 10,238 electric locomotives and 4,543 diesel locomotives. This fleet supports both passenger and freight services across a vast network of over 67,000 km of electrified tracks.

Production Units:

Indian Railways has several production units dedicated to manufacturing locomotives, including:

- Chittaranjan Locomotive Works (CLW)
- Banaras Locomotive Works (BLW)
- Patiala Locomotive Works (PLW)

These units have ramped up production capabilities to meet increasing demands.

Growth Projections

Increased Production Targets: For the fiscal year 2025, Indian Railways has increased its locomotive production target by 27%, aiming to produce 1,500 locomotives. This includes:

- 1,240 WAG 9H freight locomotives.
- 260 WAP 7 passenger locomotives.

The production plan is set to remain stable until FY27, with plans to produce 1,300 WAG 9H locomotives annually from FY26 onwards.

- Future Production Plans:** The overall coach production target for FY25 has been revised upward to 8,145 coaches, which includes the production of Vande Bharat and Amrit Bharat variants. This reflects a commitment to enhancing passenger services alongside freight capabilities.

Government Initiatives

- **Budget Allocations:** The budget for capital expenditure has significantly increased from ₹500 billion in 2013-14 to ₹2.4 trillion in 2023-24. A substantial portion is allocated for new rolling stock and fleet modernization. The Railway Budget for 2025 is expected to focus on modernizing the fleet with new technologies and expanding the railway network through initiatives like the Kavach safety system and additional Vande Bharat trains.
- **Public-Private Partnerships (PPP):** Collaborations with private entities like GE Transportation aim to modernize the fleet with the introduction of fuel-efficient Evolution Series locomotives. GE plans to supply 1,000 locomotives by 2025 under this initiative.
- **Dedicated Freight Corridors (DFC):** The development of dedicated freight corridors is expected to enhance freight capacity significantly, necessitating an increase in freight-specific locomotives.

Technological Advancements

- **Electrification Efforts:** Indian Railways aims for complete electrification of its network by early 2025, which will further enhance operational efficiency and reduce reliance on diesel locomotives.

Introduction of Advanced Technologies: There are plans for introducing hydrogen-powered trains and expanding the Vande Bharat fleet, which will contribute to sustainable rail transport solutions.

Key Factors Impacting Future Growth in the Industry

1. Demand for Urban Transport:

- There is a rapid increase in demand for urban mass transportation systems in the country. Several metro rail projects are in progress to improve connectivity within cities.
- In May 2021, the Government of India and European Investment Bank (EIB) signed a finance contract for the second tranche of US\$ 182.30 million for the Pune Metro Rail project.

2. M-Ticketing and E-Ticketing:

- The Centre is working to upgrade the online passenger ticket booking system of the Indian Railway Catering and Tourism Corporation (IRCTC) to ensure that it can handle more demand.

3. International Investment:

- In November 2019, Indian Railways entered into procurement cum maintenance agreement with Madhepura Electric Locomotive Pvt Ltd. (MELPL), a joint venture of Indian Railways and France-based Alstom to manufacture 800 electric locomotives for freight service.

4. Travel Insurance Scheme:

- Railways rolled out its insurance scheme for passengers, under which they can buy a premium of 1.52 cents while booking a ticket to get an insurance cover of up to US\$ 1.5 thousand.

5. Semi High-Speed Train Projects:

- IR intends to look for cost effective options to increase speed to 160-200 km per hour on existing routes such as Delhi-Chandigarh and Delhi-Agra.
- In June 2021, the Central Government approved to implement a 235-km semi high-speed rail corridor between Pune and Nashik in Maharashtra. The project will be built at a cost of Rs. 16,039 crore (US\$ 2.20 billion).

6. Bullet Trains:

- The accomplishment of building 100 kilometres of viaducts was made possible by the installation of 40-meter long 'full span box girders' and 'segmental girders'.
- For the upcoming Mumbai-Ahmedabad bullet train project, 24 bullet train sets are planned to be acquired from Japanese companies through tendering process.
- The estimated value of the project is US\$ 14.52 billion, which will reduce the duration of the journey by 2 hours. Construction of the corridor is expected to be completed by 2023.

7. High-Speed Trains Projects:

- In July 2023, India is constructing 508 km of high-speed tracks and 174 km supporting semi-high speeds near Tughlakabad-Agra Cantonment.
- Indian Railway has planned to build 7 high-speed rail corridors to provide faster rail connectivity across the country at a cost of US\$ 17 million.

8. New Services/Programmes Launched:

- In August 2022, the government launched Mission Raftaar for speed enhancement and to achieve a target of doubling average speed of freight trains and increasing the average speed of superfast /mail/express trains by 25 kmph.
- In September 2021, Indian Railways started rail-based tourism by leasing or selling railway coaches to private players.
- The Indian Railway launched the National Rail Plan, Vision 2024, to accelerate implementation of critical projects, such as multitrack congested routes, achieve 100% electrification, upgrade the speed to 160 kmph on Delhi-Howrah and Delhi-Mumbai routes, upgrade the speed to 130 kmph on all other golden quadrilateral-golden diagonal (GQ/GD) routes and eliminate all level crossings on the GQ/GD route, by 2024.

9. Security Protocols and Procedures:

- The Indian Railways reviewed its security, crowd management and enforcement to meet the COVID-19 protocols as the footfalls are likely to increase ahead of the festive season. The new mandate includes the field officers to conduct intensive awareness campaigns among passengers on guidelines issued by the Railway administration to prevent outbreaks in trains and at stations.
- A new campaign 'Meri Saheli' was launched to provide safety to female passengers and effectively respond to any security-related issues faced or seen by female passengers. This initiative is two-pronged and will also aim to curb human trafficking of women and children.

10. Enhanced Safety Features:

- To suit the new requirements of passengers amidst the COVID-19, the temperature and air-circulation settings in AC train coaches have been modified by the Indian Railways.
- In November 2020, Indian Railways developed anti-COVID-19 coach to prevent the spread of coronavirus. This anti-COVID-19 coach has handsfree water tanks and flushes; copper-coated handles and locks.

11. Scheduling Amendments:

- Furthering the revenue maximisation agenda, special trains will have 10-30% higher ticket prices including a special surcharge.

12. Budget Allocation:

- Under the Interim Budget 2024-25, capital outlay of Rs. 2.52 lakh crore (US\$ 30.3 billion) has been allocated to the Ministry of Railways, which is the highest ever outlay and about ten times the outlay made in 2013-14.

13. Hospital Management Information System:

- HMIS has been synchronized with various other digital initiatives of Indian Railway like Unique Medical ID, IPASS and ARPAN etc. and is capable of further such integrations as per need. Digitization of health data which is accessible through unique medical ID (UMID) of Railway healthcare beneficiaries is going to make the healthcare services hassle free and transparent. Patient can take OPD appointment by scanning the QR code through HMIS app. This will bring improvement in patient care and patient services to approximately 10 million Railway health beneficiaries.

14. New Railway Projects:

- With a view to improve rail connectivity and ease travel for commuters, the Union Cabinet approved seven projects for Ministry of Railways in August 2023 at a cost of around Rs. 32,500 crore (US\$ 3.93 billion). Spanning 35 districts in nine States -Uttar Pradesh, Bihar, Telangana, Andhra Pradesh, Maharashtra, Gujarat, Odisha, Jharkhand, and West Bengal, the projects will add 2,339 km to the existing network.
- As of April 2022, a total of 452 railway projects of total length 49,323 km costing approx. Rs. 7.33 lakh crore (US\$ 87.92 billion) are in different stages of planning/ sanction/ execution across Indian Railways.
- Over 342 railway projects have been mapped on the Gati Shakti GIS platform developed by BISAG-N.

Threat & Challenges

The ongoing electrification and modernization of railways present both challenges and opportunities for electrical component manufacturers. From developing energy-efficient and maintenance-free components to addressing new demands like electrification, smart grids, and green technologies, the industry requires manufacturers to innovate continuously. Success lies in balancing the cost of innovation with market demands and proactively adapting to global trends in electrification and sustainability.

Analysis of Major Threats & Challenges Impacting the industry

a) Electrification of Railways

- Details: With global efforts to reduce carbon emissions, railways are transitioning to electrified systems, increasing demand for specialized electrical components such as traction systems, inverters, and transformers.
- Challenges: Adapting products for higher energy efficiency and sustainability. Retrofitting existing diesel-based systems with electrical alternatives.
- Impact: The shift to electrification creates a significant opportunity for manufacturers but also demands considerable R&D investment.

b) Stringent Government Regulations and Standards

- Details: Governments enforce strict regulations to ensure safety, reliability, and environmental sustainability in railway systems. Standards like EN 50155, IEC 62236, and IEC 61373 govern electronic components for rolling stock.
- Challenges: Compliance with diverse regulations across different countries and regions. Costly and time-intensive certification and testing processes.
- Impact: Failing to meet these standards can result in market exclusion, fines, or reputational damage, requiring manufacturers to allocate resources to regulatory compliance teams.

c) Policy-Driven Procurement Requirements

- Details: Government-backed rail projects often require manufacturers to meet specific procurement guidelines, such as:
 - Localization mandates: Manufacturing a percentage of components domestically.

➤ Sustainability goals: Using eco-friendly materials and processes.

- Challenges: Establishing local manufacturing facilities or partnerships. Navigating bureaucratic hurdles to participate in government tenders.
- Impact: Complying with such requirements can increase costs and operational complexity, particularly for international manufacturers entering new markets.

d) Electromagnetic Interference (EMI) and Noise Compliance

- Details: With the proliferation of electronic devices and systems in railways, managing EMI and ensuring noise compliance is critical to prevent signal disruptions or failures.
- Challenges: Designing components that meet stringent EMI standards. Preventing interference between various onboard and trackside systems.
- Impact: Manufacturers must invest in advanced shielding and filtering technologies, which can increase production complexity.

e) Urban Rail Expansion and Electrification

- Details: With the expansion of metro systems, light rail, and suburban networks, the demand for compact, lightweight, and high-efficiency electrical components is on the rise. Urban rail systems often require components to fit within tight spatial constraints while meeting high reliability standards.
- Challenges: Designing miniaturized components without compromising performance. Addressing the challenges of high-frequency use in densely populated areas.
- Impact: Manufacturers must tailor solutions for urban rail projects while balancing cost and durability.

f) Uncertain Project Timelines and Funding Delays

- Details: Government-funded railway projects are often delayed due to budget constraints, political changes, or economic instability. These uncertainties can disrupt supply chains and revenue forecasts.
- Challenges: Managing production schedules and inventories in the face of delays. Maintaining liquidity and cash flow during long project gestation periods.
- Impact: Delays in government projects can lead to idle resources, reduced profitability, and strained supplier relationships.

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You shall read the chapter titled “Forward Looking Statements” beginning on Page No. 20 of this Red Herring Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section “Risk Factors” for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of year; so all references to a particular fiscal are to the twelve-month period ending March 31 of that year.

The financial information used in this section, unless otherwise stated, is derived from our Financial Information, as restated prepared in accordance with Indian GAAP, Companies Act and SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Red Herring Prospectus, including the information contained in the sections titled “Risk Factors” and “Financial Information” beginning on Page No. 22 and 310 respectively.

BUSINESS OVERVIEW

Our Company was originally incorporated as a private limited company under the Companies Act, 1956 pursuant to a certificate of incorporation issued by the Registrar of Companies, Delhi and Haryana dated August 05, 2005, with the name ‘IC Electricals Company Private Limited’ bearing Corporate Identification Number U31909DL2005PTC139412. Subsequently our Company was converted into a public limited company vide special resolution passed by the shareholders at the Extra Ordinary General Meeting held on August 06, 2024, and the name of our Company was changed from “IC Electricals Company Private Limited” to “IC Electricals Company Limited”. A fresh Certificate of Incorporation was granted to our Company consequent upon conversion into public limited company dated September 23, 2024, bearing Corporate Identification Number U31909DL2005PLC139412 by the Registrar of Companies, Central Processing Centre, at present, the registered office of the company is situated at 156 DSIDC Okhla INDL Area Phase I, New Delhi 110020, India.

Our Company is involved in the business of manufacturing of electronic equipment for Railways Application. Our company provide advanced engineering solutions to Indian Railways. It offers a wide range of electronic products such as regulators, battery chargers, emergency lights, inverters, microprocessor-based control systems, and vigilance control devices, compliant with the latest technical standards. The Company also manufactures key railway components including alternators, traction motors, and permanent magnet alternators with controllers. These products are engineered to meet stringent industry standards, and our team works closely with clients to develop tailored solutions that ensure high performance, reliability, and compliance across various rail applications.

The Company’s revenues are generated exclusively from manufacturing activities, value-added operations, and its Contract Division. The Company procures raw materials and components, undertakes in-house manufacturing and value-addition processes, and supplies finished or value-added products to its customers. Further, the Contract Division undertakes execution of contracts and forms part of the Company’s service operations.

Accordingly, for the past three financial years, the Company’s entire revenue has been derived from manufacturing activities, value-added operations, and service income from the Contract Division, with no revenue attributable to trading activities.

Additionally, our company provide services for turnkey railway electrification projects, encompassing the design, supply, erection, testing, and commissioning of 25 kV AC overhead equipment and traction substation systems. Our

Company also have approved supplier registrations from various professional directorates of Ministry of Railway (Research, Design & Standards Organisation).

In the railway industry, our products contribute to enhancing operational efficiency, safety, and reliability across various systems. Our electronic solutions support critical on-board functions by ensuring reliable power regulation, lighting, control, and monitoring, thereby improving performance and safety in railway coaches. Our electrical components help maintain continuous traction and auxiliary functions essential for smooth rail operations. Additionally, our turnkey electrification capabilities ensure seamless implementation of high-voltage railway infrastructure, playing a key role in the modernization and expansion of India's rail network.

With our in-house design capabilities, our company leverages its expertise in railway engineering and electrical systems to deliver.

Our company primarily operates on a Business-to-Government (B2G) model, with the majority of our revenue derived from delivering our services to government department and ministries such as Ministry of Railways. We have been accredited as an ISO 9001:2015 certified company. We prioritize the implementation and maintenance of a robust Quality Management System, ensuring our products adhere to the quality and reliability standards.

SOURCES OF REVENUE

S. No.	Source of Revenue	Description of services
1.	Sale of Products	<p>The Company generates revenue from the sale of electronic products such as regulators, battery chargers, emergency lights, inverters, microprocessor-based control systems, and vigilance control devices, all designed in compliance with the latest technical standards. Additionally, the Company manufactures critical railway components, including alternators, traction motors, and permanent magnet alternators equipped with controllers.</p> <p>The Company also provides after-sales replacement of damaged parts which are replaced with new parts are invoiced as sale of products. The company also undertakes AMCs for the manufacturing divisions which includes supply of items are invoiced as sale of products.</p>
2.	Sale of Services	Revenue is generated from the sale of services involving end-to-end execution of 25 kV AC single-phase Overhead Equipment (OHE) systems. This includes detailed design, supply of quality materials, precise erection, comprehensive testing, and final commissioning. The services support both the development of new railway lines and the modernization of existing infrastructure, in full compliance with applicable technical standards and operational guidelines.

VISION OF OUR COMPANY

Strive to be best in its class by offering state of art products with regards to the standard of workmanship and knowledge, secure working procedures, practices and policies.

MISSION OF OUR COMPANY

Provide the highest quality services exceeding our customer's expectations through our broad spectrum of designing, manufacturing, and developing.

END USERS

Our end users primarily comprise various divisions and units of Indian Railways, along with Original Equipment Manufacturers (OEMs) serving the railway sector. Our products are also used by rail coach factories, locomotive manufacturing units, and trainset integrators for both passenger and freight applications.

Non-Government Clients include all companies, entities, or institutions that are not Central Government bodies, State Government departments, Public Sector Undertakings (PSUs), Government-controlled agencies, or any organisation in which the Government has a controlling stake. These clients operate independently of Government ownership or control and belong exclusively to the private sector.

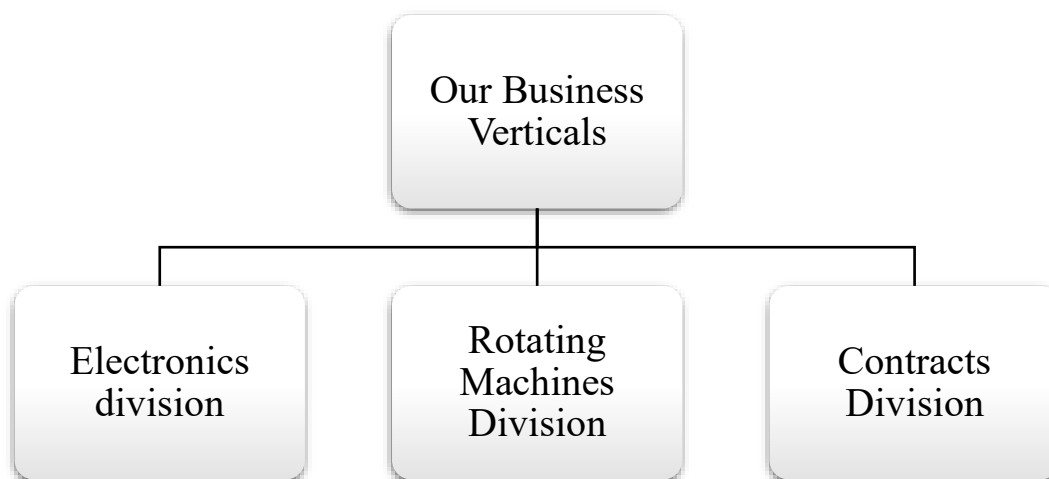

Such Non-Government Clients typically include civil contractors, rolling stock manufacturers, regular suppliers to Indian Railways, manufacturers of electrical and electronic equipment used in Indian Railway coaches, and suppliers of critical components for Indian Railways and locomotive systems.

OUR BUSINESS VERTICALS:

ELECTRONICS DIVISION

This segment focuses on advanced electronic systems and control units designed to enhance the safety, reliability, and passenger experience in railway operations. Our products in this segment include Electronic Rectifier-cum-Regulating Units (ERRU) in 4.5 kW and 25 kW capacities for efficient power management, Regulated Battery Chargers in various configurations to ensure stable and reliable power supply to onboard electrical systems, Safety-critical equipment such as the Vigilance Control Device (VCD) helps monitor driver alertness, while passenger-centric solutions like the GPS-Based Passenger Announcement & Passenger Information System (PAPIS) improve travel communication and comfort. Additionally, the Emergency Light Unit (ELU) provides illumination in case of power failures, ensuring passenger safety.

Some of our products offered under this segment are as follows:

1. Electronic Rectifier-cum-Regulating Unit (ERRU) – 4.5 kW & 25 kW

The Electronic Rectifier-cum-Regulating Unit (ERRU) is an IGBT-based, microprocessor-controlled system designed to work with 4.5 kW and 25 kW brushless alternators on AC and non-AC coaches. It converts alternator AC output to regulated DC for powering lighting, fans, air-conditioning equipment, and charging VRLA or conventional lead-acid batteries.

Replacing older magnetic amplifier-based designs, the ERRU offers precise voltage/current regulation, improved efficiency, and advanced battery charging with current limits, ensuring extended battery life and reliability in the harsh operating environment of Indian Railways.

2. Vigilance Control Device (VCD)

The Vigilance Control Device (VCD) is an advanced safety system designed specifically for Indian Railways to enhance operational security and prevent accidents caused by driver inattentiveness. Complying with RDSO specifications, this unit continuously monitors driver activity and initiates protective measures if no purposeful control inputs are detected within a predefined time.

3. Regulated Battery Charger – 6.5 kW

The 6.5 kW Regulated Battery Charger (RBC) Rev.1 is a high-efficiency, microprocessor-controlled power conversion system designed to charge and maintain locomotive batteries under varying operational and environmental conditions. Engineered for Indian Railways, the RBC ensures optimal charging profiles, extended battery life, and reliable performance in harsh railway environments.

4. Regulated Battery Charger – 4.5 kW, Rev.1

The 4.5 kW Regulated Battery Charger (RBC) Rev.1 is an advanced, microprocessor-based charging system engineered to meet the stringent safety, reliability, and performance requirements of Indian Railways. Designed to deliver consistent, efficient charging for locomotive and coach batteries, the unit ensures optimal battery performance and longevity, even under fluctuating load conditions and harsh operating environments.

Built with high-grade components and robust mechanical construction, the RBC maintains precise output voltage and current regulation regardless of variations in input supply, battery state, or ambient temperature. This allows operators to keep batteries in peak condition, reducing failures, avoiding costly delays, and extending service intervals.

5. GPS-Based Passenger Announcement & Passenger Information System (PAPIS)

The GPS-Based Passenger Announcement & Passenger Information System (PAPIS) is a modern, microprocessor-controlled solution designed to provide accurate, automated, and multilingual passenger communication in Indian Railways coaches. Leveraging satellite-based GPS positioning, the system continuously tracks train location, speed, and route progression to automatically trigger audio announcements and visual displays for upcoming stations, current station, and special messages — eliminating manual intervention by the train crew.

Engineered to withstand the demanding vibration, temperature, humidity, and electrical noise of railway environments, PAPIS ensures reliable performance in both day-to-day operations and during special event or emergency situations.

6. Emergency Light Unit (ELU) for Passenger Coaches

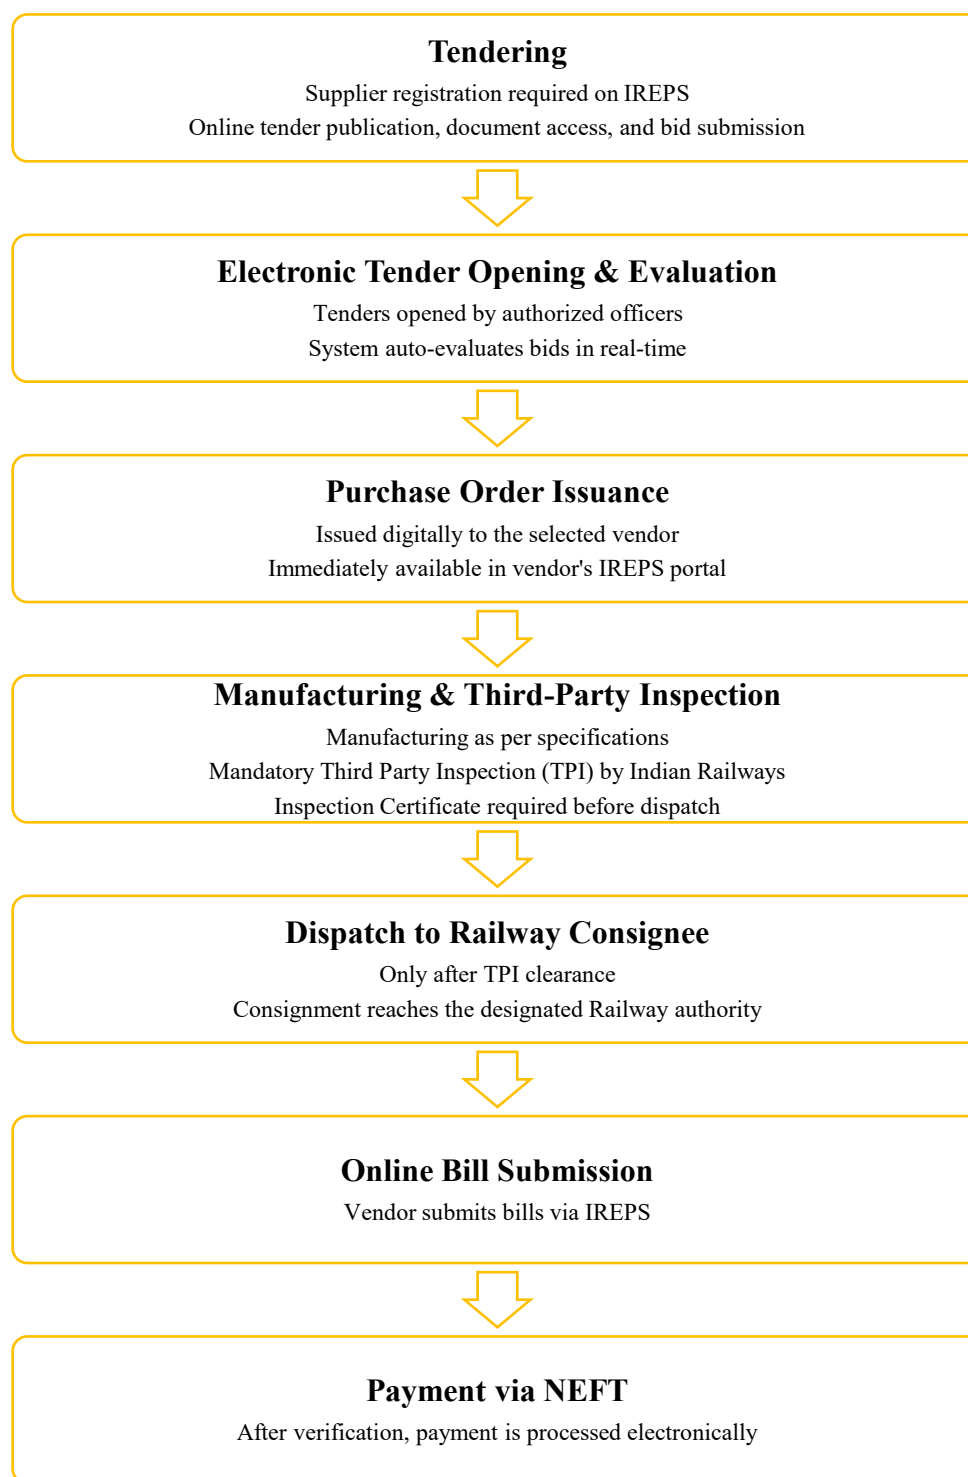

The Emergency Light Unit is a self-contained standby lighting system engineered to ensure uninterrupted passenger illumination in the event of a power failure. It plays a crucial safety role in Indian Railways coaches by enabling safe passenger movement, maintaining security, and supporting orderly evacuation during unforeseen electrical disruptions.

Installed in strategically selected locations within the coach — such as gangways, vestibules, and lavatories — the ELU operates automatically, requiring no crew intervention. Its design integrates long-life rechargeable batteries, energy-efficient LED light fittings, and a microcontroller-based control and charging system in a rugged enclosure suitable for the demanding railway environment.

BUSINESS PROCESS UNDER ELECTRONICS DIVISION:

The brief process for Electronic Division are as Follows:

1. Tendering:

Indian Railway make tenders through IREPS, and registration on the IREPS website is necessary for any suppliers. The entire process, including tender publication, document download, and offer submission, is conducted online.

2. Electronic Tender Opening & Offer Evaluation:

Tenders are electronically opened on the IREPS website by authorized officials. The system automatically evaluates all offers after the tenders are opened.

3. Purchase Order Issuance:

Purchase orders are issued online through the system, which makes them immediately visible in the successful tenderer's inbox.

4. Manufacturing & Third Party Inspection:

The manufacturing processes of each division are strictly followed. For supplies to Indian Railways, third-party inspection is mandatory, and the material can be dispatched to the Railway Consignee only after the issuance of the Inspection Certificate.

5. Dispatch to Railway Consignee

Dispatch to Railway Consignee occurs only after TPI clearance. Once cleared, the consignment is handed over to the designated railway authority for transport to the consignee.

6. Online Bill Submission

We submit their bills online through the IREPS (Indian Railway Electronic Procurement System) platform, allowing for a streamlined and digital submission process.

7. Payment:

Bills are submitted online, and payments are processed via NEFT following the execution and verification of the purchase order.

MANUFACTURING PROCESS UNDER ELECTRONICS DIVISION:

The Brief process for manufacturing under Electronic Division are as follows:

A. Bill of Materials (BOM) Presentation

The Manufacturing process begins with the presentation of the BOM (Bill of Materials). This document serves as a blueprint, detailing every material, component, and sub-assembly essential for production. Once the BOM is finalized, it becomes the foundation for subsequent procurement and planning activities.

B. Purchase Order & Indent Generation

Indents and Procurement orders are issued based on the approved Bill of Materials (BOM), initiating the procurement cycle. This action activates requirement planning for various materials and components.

C. Vendor Selection & Procurement

Vendors are selected and confirmed based on criteria such as quality, reliability, and cost efficiency. Subsequently, the procurement process is conducted to ensure the timely delivery of materials.

D. Incoming Quality Check (IQC)

Upon receipt, all materials undergo an Incoming Quality Check. If the material meets quality standards, it proceeds to the next step. If it does not meet the standards, it is either returned or reworked depending on the nature of the defect.

E. Issue of Material

Approved materials are sent to the shop floor as per the Bill of Materials (BOM), indent, or requisition, for use in the manufacturing process.

F. Assembly Process

The assembly process involves multiple sub-assemblies, primarily comprising Mechanical Assembly and Printed Circuit Board (PCB) Assembly. Each sub-assembly is subjected to a structured system of in-house stage-wise inspections followed by functional testing, ensuring quality, accuracy, and reliability at every stage before integration into the final product.

Any issues identified during these stages necessitates rework. Severe defects that are found during manufacturing are scrapped to ensure quality of the product.

G. Stage Inspection & Testing

Stage inspections verify that each module complies with required standards before advancing to subsequent stages. These inspections encompass:

- Electrical and Mechanical Testing
- PCB Functionality Tests
- Visual and Functional Quality Assessments

Any module that does not meet the required functionality or the quality standards are sent for rework or else is scrapped if the module is irreparable due to any reason.

H. Final Assembly

All verified components are assembled into the final product configuration. This includes both reworked and newly passed parts.

I. Finished Product Testing

The final product undergoes a complete performance check as per RDSO Specifications for our products. This is a critical step to ensure regulatory compliance and quality benchmarks.

J. Packing & Inspection by Stores

Finished and tested products are packed according to customer-specific requirements. The stores team conducts a final inspection before dispatch.

K. Dispatch

Once the product clears all inspections and packing standards, it is dispatched to the railway, completing the production cycle.

ROTATING MACHINES DIVISION

This division is primarily engaged in the design, development, and manufacturing of critical electrical and electromechanical components for the Indian Railways. Our portfolio addresses the requirements of power generation, traction, and auxiliary systems in railway operations, ensuring reliability, safety, and efficiency.

These products are integral to the smooth functioning of locomotives, coaches, and traction systems, and are designed to meet stringent quality standards of the Indian Railways. Through a combination of in-house expertise, precision engineering, and adherence to regulatory norms, this division plays a pivotal role in supporting the modernization and efficiency of the rail transport ecosystem.

The products offered under this segment are as follows:

1. 4.5 kW Brushless Alternator with Rectifier-cum-Regulating Unit (RRU)

The 4.5 kW Brushless Alternator with Rectifier-cum-Regulating Unit (RRU) is a self-excited, maintenance-friendly, and highly reliable power generation system designed for use in Indian Railways coaches. It provides regulated DC power for lighting, fans, and battery charging while ensuring optimal performance under the vibration, dust, temperature extremes, and humidity typical of railway environments.

2. 25 kW Brushless Alternator for AC Coaches

The 25 kW Brushless Alternator is a **core power-generation asset** in Indian Railways' air-conditioned passenger coaches. Installed on the bogie or transom and driven by the axle via a V-belt system, it converts mechanical energy from the moving train into regulated DC electrical power, enabling uninterrupted operation of coach air-conditioning, lighting, fans, and on-board battery charging.

The alternator delivers a regulated output of 110–130 V DC (via an Electronic Rectifier-cum-Regulating Unit or ERRU) at currents up to ~193 A. Its brushless design eliminates carbon-brush wear, significantly reducing maintenance requirements and improving lifecycle cost efficiency. Standard coach fitments are:

- **Two units** for AC-2 Tier, AC-3 Tier, and Chair Car coaches
- **One unit** for First AC coaches

3. Traction Motor for Indian Railways

The traction motor is a critical propulsion component that directly converts electrical energy into mechanical torque to move trains. It is designed in a way to meet the demanding duty cycles of Indian Railways, this motor operates under high loads, frequent acceleration/deceleration, and harsh environmental conditions including extreme temperatures, dust, humidity, and vibration. It is mounted on the locomotive bogie and connected to the axle through a precision gear transmission, ensuring efficient power transfer to the wheels. In operation, the motor draws controlled electrical input from the locomotive's power electronics (transformer, converter, or inverter), generating rotational motion through electromagnetic interaction between its stator and rotor. This torque propels the train at varying speeds and gradients, while the motor's inherent capability for dynamic and regenerative braking allows it to act as a generator during deceleration, feeding energy back into the system or dissipating it through resistors, thereby improving overall energy efficiency. Built with high-grade laminated steel cores, copper windings, and Class-H insulation, the motor offers high thermal endurance and electrical reliability. Force-ventilated cooling and sealed roller bearings extend its service life, while its enclosure meets IP protection standards to safeguard against ingress

Built with high-grade laminated steel cores, copper windings, and Class-H insulation, the motor offers high thermal endurance and electrical reliability. Force-ventilated cooling and sealed roller bearings extend its service life, while its enclosure meets IP protection standards to safeguard against ingress

of dust and water. The design incorporates overload protection, temperature sensors for real-time monitoring, and compliance with IEC 61373 vibration standards and EN 45545 fire safety norms. This robust construction ensures a long operational lifespan with minimal maintenance, high efficiency (>90%), and consistent performance, making it suitable for both passenger and freight applications across India's extensive railway network.

4. Oil Cooling Unit (OCU) for Traction Systems

The Oil Cooling Unit is a specialized thermal management system designed to maintain the operating temperature of critical traction equipment, such as transformers, traction motors, and power electronics, within safe limits. In Indian Railways applications, these units are engineered to withstand severe environmental conditions including high ambient temperatures, dust-laden air, high humidity, and continuous vibration while ensuring consistent cooling performance.

5. Armature Coils for Traction Motors

The armature coil is the core winding inside a traction motor's rotating part (the armature or rotor) that interacts with the stationary field to produce torque. In simple terms, it's the "muscle" of the motor — where electricity is transformed into the magnetic force that spins the motor and drives the train. In DC traction motors like the GE 761 A19, the armature coil is wound around a laminated steel core and connected to the commutator, which supplies current through carbon brushes.

6. Main Field Coils for Traction Motors

Main field coils are the primary magnetic field generators in a DC traction motor. Mounted on the stator's main poles, these coils create the steady magnetic field that interacts with the rotating armature coil to produce torque. In simple terms — if the armature coil is the "muscle" of the motor, the main field coils are the "magnet" that makes the muscle work.

7. 1460 CP Coil (Commutating Pole Coil)

The 1460 CP Coil is a type of commutating pole (interpole) coil used in DC traction motors, particularly in heavy-duty railway applications. Its role is to improve commutation — the smooth reversal of current in armature windings — thereby reducing sparking at the commutator and extending the life of brushes and motor components. In simple words, this coil works like a "traffic controller" for electricity inside the motor, ensuring the power flow switches cleanly without creating damaging sparks.

8. GE 761 Armature Coil

The **armature coil** in the GE 761 traction motor is the **rotating electrical winding** responsible for converting electrical energy into mechanical torque. Positioned in the armature (rotor) core slots, these coils are the active conductors that directly interact with the motor's magnetic field to produce motion. In simple terms — they're the "power muscles" of the GE 761 motor, working hand-in-hand with the main field coils to move the locomotive.

9. GE 761 Commutating Field Coil

The commutating field coil, also known as an **interpole coil**, is a specialized auxiliary winding in the GE 761 traction motor. Positioned between the main poles inside the motor's stator, it is designed to improve **commutation** — the process of reversing current in the armature windings — and to prevent sparking at the commutator. In simple terms, it works like a **timing adjuster** for the motor's electrical switching, ensuring smooth power transfer and extending the life of brushes and commutator surfaces.

10. GE 761 Armature Equalizer Coil

The armature equalizer coil in the GE 761 traction motor is a special copper winding that connects multiple points of the armature winding in parallel to balance electrical load between them. In simple terms — it works like a “voltage equalizer” inside the armature, ensuring that each parallel path carries an equal share of current. This prevents local overheating, improves efficiency, and ensures smooth motor performance, especially in heavy-duty railway operations.

11. GE 761 A23 Exciting Field Coil

The exciting field coil in the GE 761 A23 traction motor is the main winding that produces the primary magnetic field required for torque generation. Mounted on the motor's main poles, it creates a steady magnetic flux that interacts with the rotating armature to convert electrical energy into mechanical motion. In simple terms — if the armature is the “rotating worker,” the exciting field coil is the “magnetic powerhouse” that drives it.

12. GE 752 Armature Coil

The armature coil of the GE 752 traction motor is the central rotating winding responsible for converting electrical energy from the locomotive's power supply into mechanical torque. These coils are seated in the armature core slots and are the active conductors that cut through the magnetic field generated by the motor's field coils. In simple terms — they are the “driving muscles” of the GE 752 motor, working in unison with the field windings to propel the locomotive.

13. GE 1264 Main Field Coil

The main field coil of the GE 1264 traction motor is the primary stationary winding responsible for creating the strong magnetic field that interacts with the rotating armature to produce locomotive traction power. Mounted on laminated steel main poles inside the motor housing, it acts as the magnetic backbone of the motor, enabling efficient conversion of electrical energy into mechanical torque.

14. D77 Armature Coil

The armature coil of the D77 traction motor is the rotating electrical winding that converts electrical power from the locomotive into mechanical torque to drive the wheels. It sits in precision-machined slots in the armature core and rotates within the magnetic field created by the motor's field coils. In simple terms — the D77 armature coil is the “power converter”, transforming electrical input into the rotational force that moves the train.

15. GE 1259 Main Field Coil

The main field coil in the GE 1259 traction motor is the stationary winding that produces the essential magnetic field for the motor's operation. It is mounted on the laminated steel main poles inside the motor housing and works in direct interaction with the rotating armature to generate torque. In simple terms, it is the “magnetic heart” of the GE 1259 motor, converting electrical energy into the magnetic force that drives the locomotive.

16. GE 1259 Commutating Field Coil

The commutating field coil — also known as an interpole coil — in the GE 1259 traction motor is a small auxiliary winding placed between the main poles. Its primary purpose is to improve commutation by neutralizing the reactance voltage in the armature coil at the moment of current reversal. In simple terms, it is the “timing corrector” of the motor, ensuring smooth operation without sparking at the commutator.

BUSINESS PROCESS UNDER ROTATING MACHINES DIVISION (GOVERNMENT):

The brief process for Rotating Machines are as Follows:

1. Tendering:

Indian Railway make tenders through IREPS, and registration on the IREPS website is necessary for any suppliers. The entire process, including tender publication, document download, and offer submission, is conducted online.

2. **Electronic Tender Opening & Offer Evaluation:**

Tenders are electronically opened on the IREPS website by authorized officials. The system automatically evaluates all offers after the tenders are opened.

3. **Purchase Order Issuance:**

Purchase orders are issued online through the system, which makes them immediately visible in the successful tenderer's inbox.

4. **Manufacturing & Third Party Inspection:**

The manufacturing processes for each division are adhered to. An external Third-Party inspection is mandatory by Indian Railway, and only upon issuance of the Inspection Certificate can the material be dispatched to the Railway Consignee.

5. **Dispatch to Railway Consignee**

Dispatch to Railway Consignee occurs only after TPI clearance. Once cleared, the consignment is handed over to the designated railway authority for transport to the consignee.

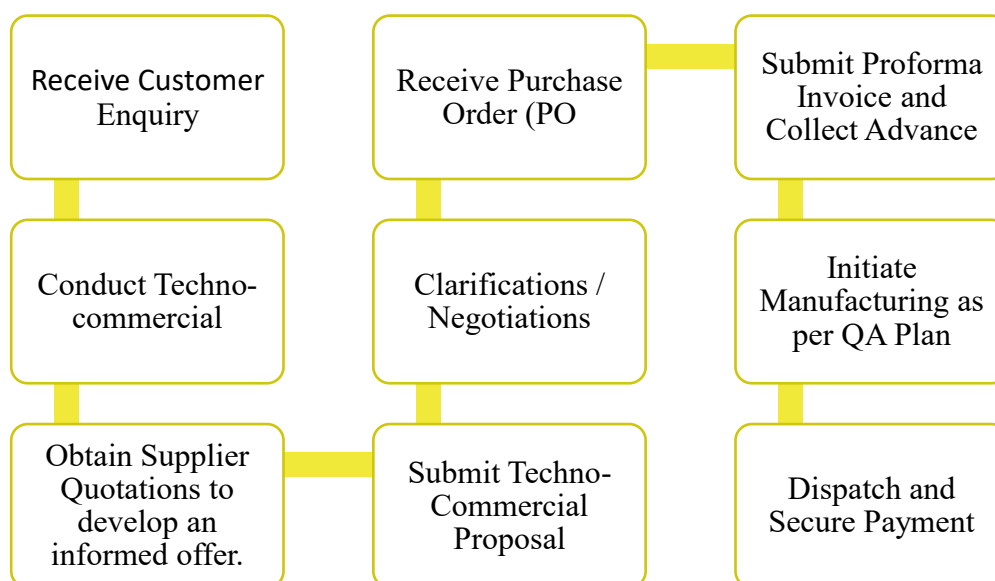

6. **Online Bill Submission**

We submit their bills online through the IREPS (Indian Railway Electronic Procurement System) platform, allowing for a streamlined and digital submission process.

7. **Payment:**

Bills are submitted online, and payments are processed via NEFT following the execution and verification of the purchase order.

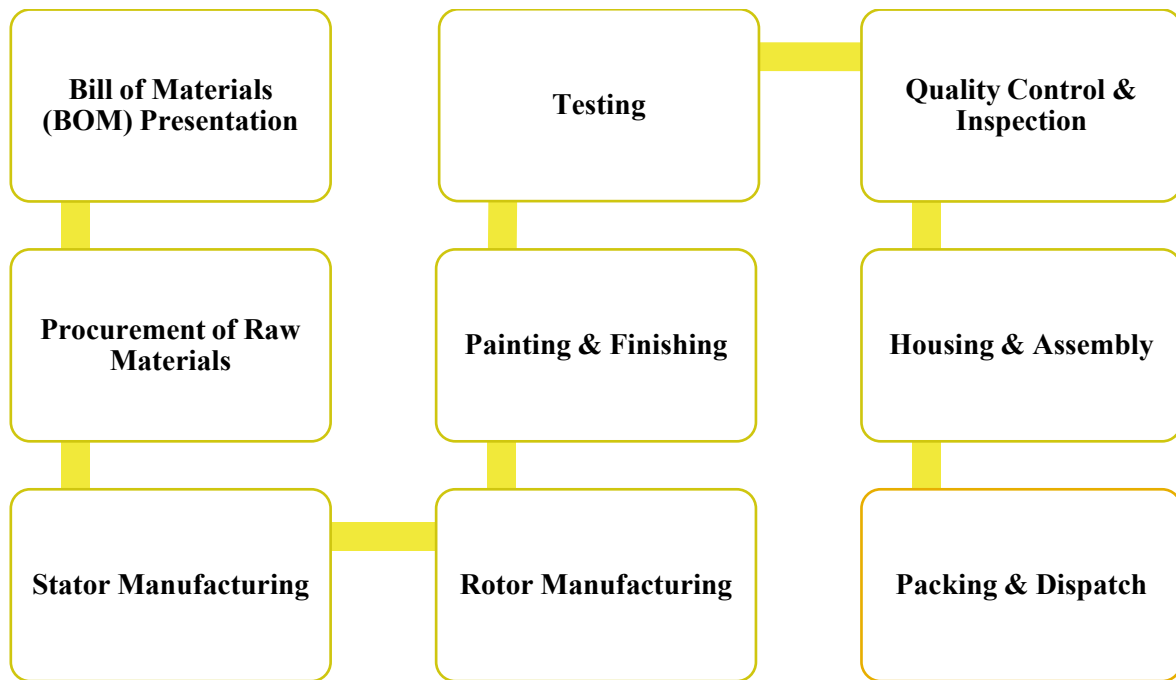

BUSINESS PROCESS UNDER ROTATING MACHINES DIVISION (NON-GOVERNMENT):

1. **Receive Customer Enquiry**
The process begins with receipt of an enquiry from a prospective customer regarding the Company's products.
2. **Conduct Techno-Commercial Discussion**
Detailed discussion is undertaken to assess and understand customer requirements.
3. **Obtain Supplier Quotations**
Quotations or cost estimates are obtained from suppliers to facilitate preparation of an informed offer.
4. **Prepare and Finalize Technical Offer**
Based on customer inputs and supplier data, a comprehensive technical offer is prepared and finalized.
5. **Submit Techno-Commercial Proposal**
The combined technical and commercial proposal is submitted for customer review and evaluation.
6. **Clarifications / Negotiations**
Follow-up interactions are undertaken to address queries and negotiate terms, if required.
7. **Receive Purchase Order (PO)**
On agreement of commercial terms, a formal purchase order is received from the customer.
8. **Submit Proforma Invoice and Collect Advance**
A proforma invoice is issued, and advance payment is collected in accordance with PO terms.
9. **Initiate Manufacturing as per QA Plan**
Manufacturing is initiated in line with the mutually approved Quality Assurance (QA) plan.
10. **Dispatch and Secure Payment**
Finished products are dispatched, and payments are realized as per PO terms and conditions.

MANUFACTURING PROCESS UNDER ROTATING MACHINES DIVISION:

1. Bill of Materials (BOM) Presentation

The Manufacturing process begins with the presentation of the BOM (Bill of Materials). This document serves as a blueprint, detailing every material, component, and sub-assembly essential for production. Once the BOM is finalized, it becomes the foundation for subsequent procurement and planning activities.

2. Procurement of Raw Materials

The process involves sourcing and procuring essential raw materials required for manufacturing, which include RGO steel laminations for the stator and rotor, enamelled copper wire for windings, bearings, bolts and shafts, sheet metal for casing, as well as insulation materials and varnish.

3. Stator Manufacturing

The stator manufacturing process begins with lamination punching, where CRGO sheets are punched into the required stator core shape. These laminations are then stacked and compressed to form the stator core. Each slot is insulated using slot liners, after which copper windings are inserted and connected as per the winding diagram. The windings are then mechanically secured through lashing and tying. Finally, the insulation is reinforced by subjecting the windings to Vacuum Pressure Impregnation (VPI), where varnish is impregnated under vacuum and pressure to enhance durability and performance.

4. Rotor Manufacturing

The rotor manufacturing process begins with lamination punching and stacking, similar to the stator. The rotor shaft is then inserted and shrink-fitted into place. Depending on the design, rotor winding is carried out for salient pole types, while bar fitting is done for cylindrical rotors. Finally, dynamic balancing is performed to ensure smooth and efficient operation.

5. Housing & Assembly

The housing and assembly process begins with the fabrication of the alternator housing from sheet metal. Bearing housings are machined and fitted, after which the rotor is inserted into the stator and aligned properly with the bearings and housing. Finally, end covers and the terminal box are installed to complete the assembly.

6. Quality Control & Inspection

The quality control and inspection process includes dimensional checks, testing the electrical winding and insulation resistance, measuring the rotor-stator air gap, and verifying the balancing certificate to ensure all components meet the required standards.

7. Testing

The testing process includes performing a no-load test, a load test at 25 kW, checking voltage regulation, measuring temperature rise, and conducting noise and vibration tests to ensure the alternator meets performance and safety standards.

8. Painting & Finishing

The painting and finishing process involves cleaning the surface and applying a rust-proof coating, followed by the final paint application as per customer specifications. The process is completed with the attachment of labels and nameplates.

9. Packing & Dispatch

The packing and dispatch process involves securely packing the finished alternators with vibration-resistant materials, using wooden crates or metal-caged frames for safe transport, and dispatching them to the customer or installation site.

CONTRACTS DIVISION

The Contracts Division is presently managing a dynamic and diverse portfolio of infrastructure projects. The division boasts a proven track record of timely and efficient project delivery, including the successful electrification of more than 700 track kilometers across multiple sections of Indian Railways. Backed by a skilled and experienced project management team, the division is fully equipped to handle turnkey railway infrastructure assignments. This includes end-to-end execution of 25 kV AC single-phase Overhead Equipment (OHE) systems—encompassing detailed engineering and design, timely procurement and supply of quality materials, precision erection, rigorous testing, and final commissioning. These services support both the development of new railway lines and the modernization of existing corridors, all in strict adherence to industry standards and safety protocols.

Our Contracts Division is supported by a highly skilled and experienced project management team comprising engineers, planners, and execution specialists who bring deep expertise in railway electrification and allied infrastructure. The division is well-positioned to undertake comprehensive turnkey railway infrastructure projects, providing end-to-end solutions that include:

- **Detailed Engineering & Design** – Preparation of precise layouts, technical drawings, and specifications in compliance with Indian Railway standards.
- **Procurement & Supply Chain Management** – Ensuring timely procurement and delivery of high-quality materials and equipment through established vendor networks.
- **Execution & Erection** – Precision erection of 25 kV AC single-phase Overhead Equipment (OHE) systems, with strict adherence to safety and quality protocols.

- **Testing & Commissioning** – Conducting rigorous quality and performance checks to ensure seamless integration and readiness for operations.

BUSINESS PROCESS UNDER CONTRACTS DIVISION

Tendering & Contract Award

Online tender publication, document access, and bid submission
Tenders opened by authorized officers
System auto-evaluates bids in real-time, PO Issued digitally to the selected vendor

Material Procurement & Supply

Procurement of key components:
Masts, portals, cantilevers, Conductors (AAC/ACSR), insulators, Traction transformers, switchgear
Vendor inspection and QA/Q

Civil Works Execution

Foundation casting for masts
Mast/portal erection, Cable trenching, equipment foundations
Construction of SP/SSP/TSS buildings

OHE & Power Installation

Stringing of overhead lines, Installation of section insulators, overlaps, Feeder lines and auxiliary transformers, Installation of TSS, SP, and SSP equipment

Testing & Commissioning

OHE inspection and continuity testing, Section-wise energization
CRS (Commissioner of Railway Safety) inspection
Final approval from electrical inspector

Handover & Commercial Operation

Documentation and project closure
Handover to railway operations
Start of electric train operations on the route

1. Tendering & Contract Award

With approved design and budget, the tenders are uploaded on IREPS portal. Detailed documents are prepared as per the tender requirement and uploaded on the IREPS platform by the contractors. Contractors bid for execution of work and, after technical and financial evaluation, contracts are awarded to suitable agencies.

2. Material Procurement & Supply

Once contracts are awarded, procurement begins for major components such as masts, portals, cantilevers, conductors, insulators etc. based on design drawings and assessment. Materials are sourced from RDSO approved vendors and are subject to rigorous Third-Party quality checks and inspections before dispatch to site.

3. Civil Works Execution

Civil works involve building the foundations for masts, setting up portals, digging trenches for cables, and constructing substation buildings (TSS, SP, SSP). It is important to make sure the foundations are properly aligned and the concrete work is of good quality to keep the overhead equipment (OHE) stable and long-lasting.

4. OHE & Power Installation

This phase includes installation of overhead conductors, section insulators, and overlaps, followed by erection of auxiliary transformers and feeder lines. Equipment is installed at TSS, SPs, and SSPs to ensure reliable power distribution across the section. Stringing and tensioning of OHE is carried out as per specifications.

5. Testing & Commissioning

Before energizing the line, continuity checks and section-wise testing are performed. After that, statutory inspections are conducted by the Commissioner of Railway Safety (CRS) and electrical inspectors. Only after successful clearance is the section energized and declared fit for electric traction.

6. Handover & Commercial Operation

Once commissioned, the section is handed over to Indian Railways for regular operations. Documentation, drawings, and testing reports are submitted, and the route is officially opened for electric train services. This marks the completion of the electrification project cycle.

OUR COMPETITIVE STRENGTHS

We believe that the following are our primary competitive strengths:

Strong focus on Research & Development

Our dedicated R&D team focuses on two strategic areas: developing new product lines and continuously enhancing the quality and performance of existing offerings. Their efforts have been instrumental in reducing costs through initiatives such as designing products that are adaptable for both domestic and international markets, improving the quality and reliability of our current products, and implementing innovative manufacturing and operational processes.

These initiatives have significantly minimized resource wastage across our operations and improved overall cost efficiency, generating substantial benefits for the Company as a whole.

Well-equipped manufacturing facilities

Our manufacturing infrastructure is based in Haridwar, Uttarakhand, and is well-equipped with the latest technological advancements. We have implemented highly efficient operational processes, which significantly reduce overall manufacturing time and help ensure the timely delivery of our products.

Experienced management team with a proven track record

Our senior management team comprises highly qualified professionals with extensive experience across commercial, engineering, and technical domains, providing strategic direction and ensuring continued growth and innovation.

Mr. S.K. Verma, Managing Director, holds an MBA from IMT Ghaziabad and has over 30 years of industry experience. Mr. Rahul Varma, Director – Technical, holds a degree in Electronics Engineering and a Master's in Power Electronics from IIT Madras. Mr. Nitin Choudhary, Executive Director, holds a Master's in Plastics Engineering with over 25 years of experience, while Mr. Bhasker Reddy, Executive Director, holds a PGDM from IMT Ghaziabad and brings 40 years of diverse industry experience.

Extensive Sales & Service Network

We maintain a comprehensive sales and service network across India, coordinated through our central sales office in Delhi. A dedicated service center or service representative is present in every state capital, ensuring that customer queries and service requirements are attended to within 24 hours. This enables minimal downtime and helps us maintain high levels of customer satisfaction with our products and after-sales support.

Our Marketing and Sales Department comprises six employees, who are supported by a wide network of engineers across various regions to provide effective sales assistance and prompt service support.

OUR BUSINESS STRATEGIES

Focusing on the rail contracts division

The Indian Government is committed to modernizing its railway infrastructure through several key initiatives aimed at upgrading the existing system and enhancing service quality. These initiatives include a drive toward 100% railway electrification, improvements to existing lines to support higher speeds and better passenger facilities, and significant expansion of the railway network with new lines.

Additionally, there is a focus on introducing and expanding a high-speed train network connecting major cities across India, along with the development of dedicated freight corridors to reduce cargo transportation costs. Our contracts division is actively managing a strong portfolio of projects in line with these developments.

Focus on strengthening exports and targeting new markets

Our business strategy focuses on capitalizing on markets where DC traction motors remain prevalent, such as the USA, Canada, Brazil, Mexico, and several African countries. In these regions, a significant portion of DC traction motor work is still performed manually, presenting a competitive advantage that we aim to leverage.

With Indian Railways increasingly focusing on AC traction, the demand for AC traction motors within Indian Railways is estimated to grow at 10–15% per annum.

Product Innovation

Our Company has in-house Research & Development facilities for the development of microprocessor-based electronic equipment and electrical rotating machines for railway applications. We have a team of highly skilled technical professionals dedicated to the development and manufacturing of high-tech electrical equipment, microprocessor-based systems, and control systems as per customer specifications. IC Electrical consistently meets customer expectations by introducing new products and technologies to address the evolving requirements of the railways. We have successfully developed several innovative and reliable projects for the railways for the first time in the industry.

The details of the products introduced by the Company over the last three financial years are as follows:

S.No.	Products	Year
1.	Public Address and Passenger Information System developed as per specification RDSO/CG-18001 for Indian Railways.	April, 2025
2.	Public Address and Passenger Information System designed specifically for 3-Phase AC MEMU.	February 2023
3.	Regulated Battery Charger – Revision 2	December 2025

Enhancing Our working capital levels

The manufacturing and electrification sector, in which our Company operates, requires significant working capital to efficiently manage various operational needs. Accordingly, we intend to utilize a portion of the net proceeds from this issue to strengthen our working capital position, ensuring smooth execution of our business operations. Additionally, we plan to seek an enhancement 3

RAW MATERIALS PROCUREMENTS

Our company sources raw materials for product manufacturing from local as well as regional suppliers. Vendors are chosen based on thorough evaluation of quotations for each raw material and by-product. Furthermore, the quality of raw materials is meticulously assessed before placing orders, ensuring only superior materials are utilized in our manufacturing processes. Key raw materials of rotating division include RGO steel laminations for stator and rotor, copper wire for windings (enamelled), bearings, bolts, and shaft, sheet metal for casing, insulation materials, varnish. We operate a comprehensive manufacturing facility where raw materials are transformed into finished products.

MARKETING

The Company is primarily engaged in the design, manufacture, and supply of electrical and electronic equipment to the Indian Railways. Sales are predominantly generated through direct participation in Indian Railways' tender processes as well as through B2B contracts with public sector undertakings and select private sector clients.

The Company's marketing approach focuses on fostering strong working relationships with zonal railways, production units, and other key institutional stakeholders, while ensuring full compliance with applicable procurement procedures and regulatory requirements. The Company maintains long-standing relationships with major customers and emphasizes product quality, reliability, and after-sales service as its key differentiators. All products are marketed under the Company's own brand.

INFRASTRUCTURE FACILITIES

Information Technology systems and Data Security & Protection measures implemented for running the business of the Company are as follows:

- IC Electricals recognizes the importance of protecting all forms of information, including proprietary designs, project documentation, vendor data, and employee records. The Company is committed to maintaining the confidentiality, integrity, and availability of its information assets through a combination of strong governance practices, technical safeguards, and internal process controls.
- The Company has implemented an internal Information Security and Data Protection Policy that is aligned with the provisions of the Information Technology Act, 2000, the Digital Personal Data Protection Act, 2023, and internationally accepted standards such as ISO/IEC 27001.
- To ensure secure operations, the Company has deployed firewalls and endpoint protection systems for preventing unauthorized access, maintaining network security, and monitoring potential cyber threats. Access to sensitive and confidential information is strictly controlled and granted only to authorized personnel based on role and requirement, supported by authentication mechanisms. All employees, contractors, and vendors are bound by confidentiality obligations and non-disclosure agreements. The Company also ensures that third-party partners adhere to comparable data protection and cybersecurity standards when handling Company or client-related information.
- Periodic reviews and audits are carried out to ensure continued compliance and to enhance cyber-resilience across the organization.

KEY REGULATIONS AND POLICIES

The business of our Company requires, at various stages, the sanction of the concerned authorities under the relevant Central, State legislation and local laws. The following description is an overview of certain laws and regulations in India, which are relevant to our Company. Certain information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive and are only intended to provide general information to Applicants and is neither designed nor intended to be a substitute for professional legal advice.

The statements below are based on current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

INDUSTRIAL LAWS

The Micro, Small and Medium Enterprises Development Act 2006 (MSME Act)

The MSME Act is a central law which primarily provides for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises in India. The enterprises under the MSME Act are categorised as micro, small and medium enterprises depending upon the following criteria (*applicable from 1 April 2025*):

- (a) a micro enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 2,50,00,000 and turnover does not exceed INR 10,00,00,000;
- (b) a small enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 25,00,00,000 and turnover does not exceed INR 100,00,00,000;
- (c) a medium enterprise, where the investment in Plant and Machinery or Equipment does not exceed INR 125,00,00,000 and turnover does not exceed INR 500,00,00,000.

In terms of the MSME Act, any buyer who fails to make payment to MSMEs, as per agreed terms or a maximum of 45 days, would be liable to pay monthly compounded interest at three times of the bank rate notified by the Reserve Bank of India (RBI).

Industrial Disputes Act 1947 (ID Act)

The ID Act and the Industrial Dispute (Central) Rules 1957 (**ID Rules**) lay down the provisions for the investigation and settlement of industrial disputes. Workmen under the ID Act have been provided with several benefits and are protected under its provisions, however the employees classified as managerial employees and earning salary beyond prescribed amount are not covered under the protection of the ID Act.

The ID Act also sets out certain requirements in relation to the termination of the services of the workman. The ID Act includes detailed procedure prescribed for resolution of disputes with labour, removal and certain financial obligations upon retrenchment. The ID Rules specify procedural guidelines for lockouts, closures, lay-offs and retrenchment.

The Industries (Development and Regulation) Act 1951 (Industries Regulation Act)

The Industries Regulation Act is an Act to govern the development and regulation of industries in India. The main objectives of the Industries Regulation Act are to empower the Government: (i) to take necessary steps for the development of industries; (ii) to regulate the pattern and direction of industrial development; (iii) to control the activities, performance and results of industrial undertakings in the public interest. The Industries Regulation Act applies to the Scheduled Industries listed in the First Schedule of the Act. However, small scale industrial undertakings and ancillary units are exempted from the provisions of the Industries Regulation Act.

The Industries Regulation Act is administered by the Department for Promotion of Industry and Internal Trade (DPIIT). The DPIIT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector. It monitors the industrial growth and production, in general, and selected industrial sectors. Certain specified categories of industries require industrial licensing under the Industries Regulation Act.

The Industrial Employment (Standing Orders) Act 1946 (Standing Orders Act)

The Standing Orders Act lays down a framework for standardizing the terms of employment in industrial establishments. It mandates employers to formally communicate conditions of service, such as working hours, holidays, pay schedules, wage rates, procedures for termination of employment, suspension or dismissal for misconduct, and other relevant matters, to their workforce.

Factories Act 1948 (Factories Act)

Factories Act primarily lays down the provisions to regulate the working conditions in factories, regulate health, annual leave, safety, welfare, and to establish special provisions related to young people, women, and children working in factories. It is applicable to factories manufacturing goods, including weaving cloth, knitting of hosiery and other knitwear, clothing, and footwear production, dyeing and finishing textiles, manufacturing footwear, etc.

Shops and Commercial Establishments laws

State specific Shops and Establishments law lay down the conditions of work and employment in all kinds of shops and commercial establishments situated in such state. Commercial establishments need to adhere to the norms and regulations set by the Act for the treatment of their employees. Under the provisions of local shops and establishments legislations applicable in the states in India where Company's establishments are set up and business operations exist, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments act, and the relevant rules framed thereunder, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions.

The Electricity Act 2003 (Electricity Act)

The Electricity Act is the central legislation which inter alia covers the generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution and trade of electricity are regulated activities that require licenses from the Central Electricity Regulatory Commission (**CERC**), the State Electricity Regulatory Commissions (**SERCs**) or a joint commission (constituted by an agreement entered into by two or more state governments or the central government in relation to one or more state governments, as the case may be).

CORPORATE AND COMMERCIAL LAWS

The Information Technology Act 2000 (IT Act)

The IT Act aims to provide for the legal framework so that legal sanctity is accorded to all electronic records and other activities carried out by electronic means. The IT Act states that unless otherwise agreed, an acceptance of contract may be expressed by electronic means of communication and the same shall have legal validity and enforceability.

The Digital Personal Data Protection Act 2023 (DPDP Act)

The Parliament passed the DPDP Act on 9 August 2023. The DPDP Act, once notified, will replace the existing data protection provision, as contained in Section 43A of the IT Act. The DPDP Act provides for the processing of digital

personal data in a manner that recognises both the rights of individuals to protect their personal data and the need to process personal data for lawful purposes and matters incidental thereto. The DPDP Act provides that personal data may be processed only for a lawful purpose after obtaining the consent of the data principal to whom the personal data relates, or for certain legitimate uses. A notice must be given before seeking consent.

The Companies Act 2013 (Companies Act)

The Companies Act deals with incorporation and post incorporation. The conversion of private company into public company and vice versa is also laid down under the Companies Act. The provisions of the Companies Act shall also apply to banking companies, companies engaged in generation or supply of electricity and any other company governed by any special act for the time being in force. A company can be formed by seven or more persons in case of public company and by two or more persons in case of private company. A company can even be formed by one person i.e. One Person Company. The provisions relating to formation and allied procedures are mentioned in the act. The Companies Act repealed the erstwhile Companies Act 1956.

The Competition Act 2002 (Competition Act)

The Competition Act prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates combinations in India. The Competition Act also established the Competition Commission of India (CCI) as the authority mandated to implement the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on 4 March 2011, and came into effect on 1 June 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds.

There are also different thresholds for those categorized as Individuals and Group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective 1 June 2011, all combinations have to be notified to the CCI within 30 days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and (b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise), or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

The Legal Metrology Act, 2009 (“Legal Metrology Act”)

The Legal Metrology Act, 2009 (“Legal Metrology Act”) establishes and enforces standards of weights and measures and regulates trade and commerce in goods sold or distributed by weight, measure, or number, along with matters connected or incidental thereto. As the Company is not engaged in any such activities involving trade or commerce based on weight, measure, or number, the provisions of the Legal Metrology Act are not applicable to the Company.

The Indian Stamp Act 1899 (Stamp Act)

Stamp duty is payable on all instruments/ documents evidencing a transfer or creation or extinguishment of any right, title or interest in movable and immovable property. The Stamp Act provides for the imposition of stamp duty at the specified rates on instruments listed in Schedule I of the Stamp Act. However, under the Constitution of India, the states are also empowered to prescribe or alter the stamp duty payable on such documents executed within the state. Instruments chargeable to duty under the Stamp Act but which have not been duly stamped, are incapable of being admitted in as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments by certain specified authorities and bodies and imposition of penalties, for instruments which are not

sufficiently stamped or not stamped at all. Instruments which have not been properly stamped can be validated by paying a penalty of up to 10 times of the total duty payable on such instruments.

The Indian Contract Act 1872 (Contract Act)

The Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

Insolvency And Bankruptcy Code 2016

An Act to consolidate and amend the laws relating to reorganisation and insolvency resolution of corporate persons, partnership firms and individuals in a time bound manner for maximisation of value of assets of such persons, to promote entrepreneurship, availability of credit and balance the interests of all the persons.

Negotiable Instruments Act 1881 (NI Act)

In India, the laws governing monetary instruments such as cheques are contained in the NI Act. The NI Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the NI Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

Securities and Exchange Board of India Act 1992 (SEBI Act)

The SEBI Act was enacted to regulate and develop the securities market in India and to protect investors' interests. The SEBI Act established the Securities and Exchange Board of India (**SEBI**) as the primary regulatory authority for overseeing the securities market, stock exchanges, intermediaries, and listed companies. Broadly, functions of SEBI include: (i) protecting the interest of investors investing in the securities market; and (ii) regulating and promoting the development of the securities market, by such measures as it deems appropriate. With respect to depositories, SEBI Act entrusts upon SEBI the power to: (i) register depositories with SEBI; (ii) regulate their business activities; and (iii) bar depositories from buying or selling or dealing in securities except in accordance with the conditions of a certificate of registration obtained from SEBI according to the SEBI (Depositories and Participants) Regulations 2018.

LABOUR AND EMPLOYMENT LAWS

India has extensive labour related legislations. Certain other laws and regulations that may be applicable to the Company in India include the following which is an indicative list of labour laws applicable to the business and operations of Indian companies engaged in manufacturing activities:

- Child Labour (Prohibition and Regulation) Act 1986
- Apprentices Act 1961;
- Public Liability Insurance Act 1991;
- Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013;
- State specific shops & establishments laws;
- State specific labour welfare fund laws; and

State specific Industrial Establishments (National and Festival Holidays and Casual and Sick Leave) laws; In order to rationalize and reform labour laws in India, the Government of India has framed four labour codes, namely:

- (a) The Occupational Safety, Health and Working Conditions Code 2020 was notified by the Government of India on 21 November 2025, and has consolidated thirteen existing legislations, including the Factories Act 1948, the Contract Labour (Regulation and Abolition) Act 1970, and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act 1979. This code proposes to provide for, among other things, standards for health, safety and working conditions for employees of establishments. The code aims to safeguard worker rights and working conditions as well as to create a business-friendly regulatory environment to spur economic growth and employment.
- (b) The Industrial Relations Code 2020 was notified by the Government of India on 21 November 2025. With the aim of safeguarding the interests of trade unions as well as the workers, the code has consolidated three existing legislations namely, the Industrial Disputes Act 1947, the Trade Unions Act 1926 and the Industrial Employment (Standing Orders) Act 1946. It simplifies laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes.
- (c) The Code on Wages 2019 was notified by the Government of India on 21 November 2025. It consolidates four separate legislations, namely, the Payment of Wages Act 1936, the Minimum Wages Act 1948, the Payment of Bonus Act 1965 and the Equal Remuneration Act 1976. The objective of this code is to provide governing framework for minimum wages. It provides all the workers of both organized and unorganized sectors with the right to minimum wages. Furthermore, a new provision of national floor wage has been introduced to remove regional disparities in minimum wages.
- (d) The Code on Social Security 2020 was notified by the Government of India on 21 November 2025. It proposes to provide for occupational safety, health, and working conditions of the persons in an establishment by consolidating nine separate legislations including the Employees' Compensation Act 1923, the Employees' State Insurance Act 1948, the Employees' Provident Funds and Miscellaneous Provisions Act 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act 1959, the Maternity Benefit Act 1961, and the Payment of Gratuity Act 1972. The code aims at simplifying compliance for employers and enhancing welfare benefits for the employees. All workers, including workers of the unorganized sector, plantation workers, and platform and gig workers, will get social security measures such as the benefit of free treatment under hospitals and dispensaries of Employees' State Insurance Corporation.

Some of the other important labour legislations are explained below.

3.1 Child Labour (Prohibition and Regulation) Act 1986

Under the child labour law in India, adolescents between the age of 14 and 18 are prohibited from working in any hazardous or dangerous occupations and processes. They can only work in certain government declared non-hazardous occupations or in a family business or as an artist.

3.2 Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013 (SHWPPR Act)

The SHWPPR Act aims to provide women protection against sexual harassment at the workplace, prevention of sexual harassment at the workplace and redressal of complaints of sexual harassment. The Act defines sexual harassment to include any unwell come sexually determined behavior (whether directly or by implication). Workplace under the SHWPPR Act has been defined widely to include government

bodies, private and public sector organisations, non-governmental organisations, organizations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The SHWPPR Act requires an employer to set up an internal complaints committee' at each office or branch, of an organization employing at least 10 employees. The government in turn is required to set up a local complaint committed the district level to investigate complaints regarding sexual harassment from establishments where the internal complaints committee has not been constituted.

3.3 Bonded Labour System (Abolition) Act 1976 (BLA)

BLA provides for the abolition of bonded labour system with a view to preventing the economic and physical exploitation of the weaker sections of the people and for matters connected therewith or incidental thereto.

INTELLECTUAL PROPERTY LAWS

Trademarks Act 1999 (TM Act)

A trademark is used in relation to goods so as to indicate a connection in course of trade between the goods and a person having the right as proprietor or user to use the mark. The TM Act governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. Registration is valid for a period of 10 years but can be renewed in accordance with the specified procedure. As per the Trademarks (Amendment) Bill 2009, Registrar of Trade Marks is empowered to deal with international applications originating from India as well as those received from the International Bureau and maintain a record of international registrations. It also removes the discretion of the Registrar to extend the time.

Copyrights Act 1957 (Copyright Act)

The Copyrights Act governs copyright protection in India. Under the Copyright Act, copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. Following the issuance of the International Copyright Order 1999, subject to certain exceptions, the provisions of the Copyright Act apply to nationals of all member states of the World Trade Organization.

While copyright registration is not a prerequisite for acquiring or enforcing a copyright, registration creates a presumption favoring ownership of the copyright by the registered owner. Copyright registration may expedite infringement proceedings and reduce delay caused due to evidentiary considerations. Once registered, the copyright protection of a work lasts for the entire lifetime of the author and 60 years thereafter.

The remedies available in the event of infringement of a copyright under the Copyright Act include civil proceedings for damages, account of profits, injunction and the delivery of the infringing copies to the copyright owner. The Copyright Act also provides for criminal remedies, including imprisonment of the accused, imposition of fines and seizure of infringing copies.

Patents Act 1970 (Patent Act)

The purpose of the Patent Act in India is to protect inventions. Patents provide the exclusive rights for the owner of a patent to make, use, exercise, distribute and sell a patented invention. The patent registration confers on the patentee the exclusive right to use, manufacture and sell his invention for the term of the patent. An application for a patent can be made by (a) person claiming to be the true and first inventor of the invention; (b) person being the assignee of the person claiming to be the true and first invention in respect of the right to make such an application; and (c) legal representative of any deceased person who immediately before his death was entitled to make such an application. Penalty for the contravention of the provisions of the Patents Act include imposition of fines or imprisonment or both.

Design Act 2000

It is an act to consolidate and amend the law relating to the protection of designs. The important purpose of design registration is to see that the creator, originator or artisan of any design is not deprived of his reward for creating that design by others copying it to their goods or products.

PROPERTY RELATED LAWS

Transfer of Property Act 1882 (TPA)

The transfer of property, including immovable property, between living persons, as opposed to the transfer of property by operation of law, is governed by the TPA. The TPA establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. The TPA recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: the transfer of ownership in property for a price paid or promised to be paid.
- Mortgage: the transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The TPA recognizes several forms of mortgages over a property.
- Charges: transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g., decree of the attaching to specified immovable property, or by an act of the parties.
- Leases: the transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.

The Registration Act 1908 (Registration Act)

The Registration Act has been enacted with the objective of providing public notice of the execution of documents affecting, inter alia, the transfer of interest in immovable property. The purpose of the Registration Act is the conservation of evidence, assurances, title and publication of documents and prevention of fraud. It details the formalities for registering an instrument. Section 17 of the Registration Act identifies documents for which registration is compulsory and includes, among other things, any non-testamentary instrument which purports or operates to create, declare, assign, limit or extinguish, whether in present or in future, any right, title or interest, whether vested or contingent, in any immovable property of the value of one hundred rupees or more, and a lease of immovable property for any term exceeding one year or reserving a yearly rent. A document will not affect the property comprised in it, nor be treated as evidence of any transaction affecting such property (except as evidence of a contract in a suit for specific performance or as evidence of part performance under the TPA or as collateral), unless it has been registered. Evidence of registration is normally available through an inspection of the relevant land records, which usually contains details of the registered property. Further, registration of a document does not guarantee title of land.

Limitation Act 1963

The Limitation Act 1963 was enacted for the purpose of consolidating and amending the legal principles relating to limitation of suits and other legal proceedings. The basic concept of limitation is relating to fixing or prescribing of the time period for barring legal actions. According to Section 2 (j) of the Limitation Act 1963, period of limitation 'means the period of limitation prescribed for any suit, appeal or application by the Schedule', and prescribed period 'means the period of limitation computed in accordance with the provisions of the Limitation Act'.

Indian Easements Act 1882 (Easement Act)

An easement is a right which the owner or occupier of land possesses for the beneficial enjoyment of that land and which permits him to do or to prevent something from being done, in or upon, other land not his own. Under the Easements Act, a license is defined as a right to use property without any interest in favour of the licensee. The period and incident may be revoked and grounds for the same may be provided in the license agreement entered in between the licensee and the licensor.

ENVIRONMENT LAWS

The Environment Protection Act 1986 (Environment Protection Act)

The purpose of the Environment Protection Act is to serve as an "umbrella" legislation, designed to provide a framework for Central government to co-ordinate the activities of various central and state authorities established under previous laws. The Environment Protection Act authorizes the central government to protect and improve environmental quality, control and reduce pollution from all sources, and prohibit or restrict the setting and /or operation of any industrial facility on environmental grounds. The Act prohibits persons carrying on business, operation or process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed. Where the discharge of any environmental pollutant in excess of the prescribed standards occurs or is apprehended to occur due to any accident or other unforeseen act, the person responsible for such discharge and the person in charge of the place at which such discharge occurs or is apprehended to occur is bound to prevent or mitigate the environmental pollution caused as a result of such discharge and should intimate the fact of such occurrence or apprehension of such occurrence; and (b) be bound, if called upon, to render all assistance, to such authorities or agencies as may be prescribed.

Air (Prevention of Pollution Control Act) 1981 (Air Act)

Air Act was enacted with an objective to protect the environment from smoke and other toxic effluents released in the atmosphere by industries. With a view to curb air pollution, the Air Act has declared several areas as air pollution control area and also prohibits the use of certain types of fuels and appliances. Prior written consent is required of the board constituted under the Air Act, if a person intends to commence an industrial plant in a pollution control area.

The Water (Prevention and Control of Pollution) Act 1974 (Water Act)

The Water Act was enacted with an objective to protect the rivers and streams from being polluted by domestic and industrial effluents. The Water Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Water Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Water Act.

National Environmental Policy 2006 (Policy)

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This Policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to the national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resource is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resource obtain better livelihoods from the fact of conservation, than from degradation of the resource. Following are the objectives of Policy:

- Conservation of Critical Environmental Resources
- Intra-generational Equity: Livelihood Security for the Poor

- Inter-generational Equity
- Integration of Environmental Concerns in Economic and Social Development
- Efficiency in Environmental Resource Use
- Environmental Governance
- Enhancement of resource for Environmental Conservation

The Noise Pollution (Regulation & Control) Rules 2000 (Noise Regulation Rules)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act 1986.

The National Green Tribunal Act 2010

An Act to provide for the establishment of a National Green Tribunal for the effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (Hazardous Waste Rules)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, "hazardous waste" inter alia means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, causes danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

TAXATION LAWS

Income Tax Act 1961 (Income Tax Act)

The Government of India imposes an income tax on taxable income of all persons including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Income Tax Act. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, Govt. of India. Income tax is a key source of funds that the government uses to fund its activities and serve the public. The quantum of tax determined as per the statutory provisions is payable as: (a) Advance Tax; (b) Self-Assessment Tax; (c) Tax Deducted at Source (TDS); (d) Tax Collected at Source (TCS); and (e) Tax on Regular Assessment.

Goods And Services Tax Act 2017

The Constitution (One Hundred and First Amendment) Act 2016 which received presidential assent on 8 September 2016 paved the way for introduction of goods and services tax (GST) by making provisions with respect to goods and services tax. GST is a single tax on the supply of goods and services, right from the manufacturer to the consumer. Credits of input taxes paid at each stage will be available in the subsequent stage of value addition, which makes GST essentially a tax only on value addition at each stage. The final consumer will thus bear only the GST charged by the last dealer in the supply chain, with set-off benefits at all the previous stages.

Professional Tax Legislations

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

The Customs Act 1962

The Customs Act 1962 governs the import and export of goods in India, setting out procedures for clearance, levying customs duties, and regulating cross-border trade. It aims to facilitate lawful trade, collect customs revenue, and prevent smuggling, thereby safeguarding the nation's economy. Any company intending to import or export goods is first required to get registered under the Customs Act and obtain an Importer Exporter Code under Foreign Trade (Development and Regulation) Act 1992. Customs duties are administrated by Central Board of Indirect Tax and Customs under the Ministry of Finance, Government of India.

MISCELLANEOUS LEGISLATIONS

Consumer Protection Act 2019 (COPRA)

The COPRA aims at providing better protection to the interests of consumers and for that purpose makes provisions for the establishment of authorities for the settlement of consumer disputes. The COPRA provides a mechanism for the consumer to file a complaint against a trader or service provider in cases of unfair trade practices, restrictive trade practices, defects in goods, deficiency in services, price charged being unlawful and goods being hazardous to life and safety when used. The COPRA provides for a three-tier consumer grievance redressal mechanism at the national, state and district levels. Non-compliance of the orders of these authorities attracts criminal penalties.

Foreign Exchange Management Act 1999 (FEMA)

The Foreign investment in India is governed primarily by the provisions of the FEMA which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations no prior consents and approvals are required from the Reserve Bank of India, for Foreign Direct Investment (**FDI**) under the automatic route within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The Government of India, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-Debt Instruments) Rules 2019 (**NDI Rules**) to regulate the foreign investment (i.e., the investment made by persons resident outside India) and provide for the terms and conditions applicable to such foreign investment, including the procedure of investment, general conditions around the investment, the method to be adopted for valuation of the investment instruments, time frame for completion of the investment procedure, reporting requirement etc. The NDI Rules imposes a general condition on the persons resident outside India to comply with the provisions of the NDI Rules in case it intends to make an investment into Indian entities. Similarly, the entities in India are not

allowed to receive investment from a person resident outside India unless such investment complies with the provisions of the NDI Rules.

The Arbitration and Conciliation Act 1996

An Act to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto.

Compliance with RDSO Standards

RDSO functions under the Ministry of Railways, Government of India and serves as a technical and standardization authority for Indian Railways. RDSO enforces the standardization and co-ordination amongst various railway systems. It is responsible for formulating, updating, and enforcing technical standards, specifications, and design approvals across various railway domains, including locomotives, infrastructure, signaling, telecommunication, bridges, track machines, rolling stock etc. Additionally, RDSO establishes safety, reliability, and quality assurance protocols, undertakes vendor approval processes, and conducts periodic audits to ensure compliance with established standards. Its role ensures uniformity, safety, and technological advancement across the railway ecosystem, aligning infrastructure and operational standards with national and global best practices.

National Building Code of India 2016

The NBC 2016 is a comprehensive code prescribing minimum standards for building design and construction with respect to safety, including fire and life safety. Part 4 of the NBC 2016 lays down detailed guidelines for the classification of buildings based on occupancy, fire prevention measures, means of escape, fire detection and alarm systems, and fire-fighting installations. It mandates that all building plans and safety systems confirm to these standards and that periodic inspections and certifications be conducted to ensure compliance. These provisions are applicable to all new and existing buildings to ensure the safety of occupants and property in the event of a fire.

- (iii) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Standalone Financial Statements;
- (iv) The requirements of Section 26 of the Act and the SEBI ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the SEBI ICDR Regulations and the Guidance Note in connection with the IPO.

4. The Restated Standalone Financial Statements of the Company have been compiled by the management from:

- (i) We have audited the financial statements of the Company for the stub period/ financial year ended on 31st March 2026, 31st March 2025 and 31st March 2024. There are no audit qualifications in the audit reports issued by us for the said periods which would require adjustments in the Restated Standalone Financial Statements of the Company. The financial information for these years is based solely on the reports issued by us.
- (ii) The audits have been carried out by us as Statutory Auditors of the Company, and accordingly, reliance has been placed on the financial statements examined and reported upon by us.
- (iii) We have re-audited the financial statements of the company in accordance with applicable standard as required under the SEBI ICDR regulations for the stub period/ financial year ended on 31st March 2026, 31st March 2025 and 31st March 2024, prepared in accordance with the Accounting Standards (Indian GAAP) which have been approved by the Board of Directors.
- (iv) Based on our examination and according to information and explanations given to us, we are of the opinion that the Restated Standalone Financial Statements:
 - a. have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/ reclassifications retrospectively in the stub period / financial year ended on

31st March 2026, 31st March 2025 and 31st March 2024.

- b. do not require any adjustment for modification as there is no modification in the underlying audit reports;
- c. there are no extra-ordinary items that need to be disclosed separately in the accounts and requiring adjustments.
- d. have been prepared in accordance with the Act, SEBI ICDR Regulations and Guidance Note.
- e. Adequate disclosure has been made in the financial statements as required to be made by the issuer as per schedule III of the Companies Act, 2013.
- f. The accounting standards prescribed under the Companies act, 2013 have been followed.
- g. The financial statements present a true and fair view of the company's accounts.

(v) In accordance with the requirements of the Act including the rules made there under, ICDR Regulations, Guidance Note and engagement letter, we report that:

- a. The "Restated Summary Statement of Assets and Liabilities", of the Company as at 31st March 2026, 31st March 2025, and 31st March 2024 are prepared by the Company and approved by the Board of Directors. These Restated Summary Statement of Assets and Liabilities have been arrived at after making such adjustments and regroupings to the individual financial statements of the Company, as in our opinion were appropriate and more fully described in Significant Accounting Policies and Notes to Accounts as set out in Note 1 to this Report.

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

Note - 1

I) Company Information

IC Electricals Company Limited ("the Company") was incorporated on 5th August, 2005, with an objective of carrying out manufacturing of Electrical Component and Railway Electrification and maintenance works having its registered office at New Delhi.

II) Significant Accounting Policies

A. Basis for preparation of accounts

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known or materialise.

C. Property Plant and Equipment

Tangible Assets

Tangible Assets are stated at cost net of recoverable taxes, trade discounts and rebates, less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequently expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation/ depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use and net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible asset.

D. Depreciation, Amortisation and Depletion

Depreciation on tangible assets is provided on the written down value method over the useful lives of assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation for assets purchased/ sold during a period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives written down value basis, commencing from the date the asset is available to the Company for its use.

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

E. Impairment

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

There is no impairment on assets during the reporting period.

F. Foreign Currency Transactions and Translations

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction of that approximates the actual rate at the date of the transaction.

Monetary items denominated in foreign currencies at the year end are restated at the year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of contract is recognised as exchange difference and the premium paid on forward contracts is recognised over the life of the contract.

Non-monetary foreign currency items are carried at cost.

Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss, except in case of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

G. Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Tangible Fixed Assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Assets.

H. Inventories

Raw Materials

Valued at cost or net realizable value (NRV), whichever is lower. Cost is determined on a Weighted Average basis. Cost includes purchase price, duties, taxes (other than those recoverable), freight, and other expenses directly attributable to procurement, net of trade discounts and rebates.

Work-in-Progress (WIP)

Valued at cost or NRV, whichever is lower. Cost includes cost of materials, direct labor, and a proportion of manufacturing overheads incurred in bringing the inventory to its present location and condition, based on normal operating capacity.

Finished Goods

Valued at cost or NRV, whichever is lower. Cost includes cost of materials, direct labor, related production overheads, incurred in bringing the goods to their present condition and location.

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

Goods-in-Transit

Valued at cost (including purchase price, duties, taxes (other than those recoverable), freight, and other directly attributable expenses) till the goods are received and available for use/sale.

Method of Costing

Cost of inventories is determined using the Weighted Average Method consistently. The method adopted is reviewed periodically to ensure appropriateness.

Net Realizable Value (NRV)

NRV is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.

I. Revenue Recognition

Sale of goods

Revenue from sale of goods is recognized when significant risks and rewards of ownership have been transferred to the buyer, the company retains neither continuing managerial involvement nor effective control, the amount can be measured reliably, and collection is reasonably certain. Revenue is measured net of trade discounts, rebates, returns, and applicable taxes.

Rendering of Service

Revenue from services is recognized either: (a) on completion of service contract, or (b) on a percentage of completion basis where applicable and the outcome can be reliably estimated. For services provided over time, revenue is recognized on a straight-line basis; for one-time services, revenue is recognized when performed.

Unbilled Revenue

Represents revenue recognized in respect of services rendered/work completed but not yet billed to customers. Recognized when there is reasonable certainty of ultimate collection in accordance with AS 9. Disclosed under Other Current Assets (if realizable within 12 months) or Other Non-Current Assets (if realizable after 12 months) in the Balance Sheet.

Interest Income

Recognized on a time-proportion basis taking into account the amount outstanding and the applicable interest rate.

Dividend Income

Recognized when the right to receive the dividend is established.

Other Income

Includes claims, rebates, refunds, export incentives, duty drawback and similar items, recognized on accrual basis when no significant uncertainty exists regarding ultimate collection.

Advance from Customers / Deferred Revenue

Includes claims, rebates, refunds, export incentives, duty drawback and similar items, recognized on accrual basis when no significant uncertainty exists regarding ultimate collection.

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

J. Employee Benefits

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentives which is expected to occur within twelve months after the end of the period in which the employee renders the related service.

K. Borrowing Costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

L. Provision for Current and Deferred Tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternative Tax (MAT) paid in a year is charged to the statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period i.e. the period for which the MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on "Accounting for credit available in respect of Minimum Alternative Tax under The Income Tax Act, 1961", the said asset is created by way of credit to the Statement of Profit and Loss account and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal income tax during the specified period.

Deferred tax resulting from "timing differences" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as on the balance sheet date. Deferred tax liabilities are recognised for all timing differences. Deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their reliability.

M. Government Grants

The government grants are of the nature of promoters' contribution, i.e., they are given with reference to the contribution towards capital investment and no repayment is expected in respect thereof, the grants are treated as capital reserve which can be neither distributed as dividend nor considered as deferred income.

N. Prior Period Items

Prior period items arisen in the current year as a result of errors or omission in the preparation of the financial statements of prior period(s) are separately disclosed in the statement of profit & loss.

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

O. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

P. Insurance Claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

Q. Provisions and Contingencies

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements.

R. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

S. Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the Lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss.

T. Cash & Cash Equivalents / Other Bank Balances

Cash and Cash Equivalents

For the purpose of presentation in the Balance Sheet and Cash Flow Statement, Cash and Cash Equivalents comprise cash in hand, balances with banks in current accounts, and short-term deposits with original maturity of three months or less, which are readily available for use and free from any encumbrances.

Other Bank Balances

Deposits and balances with banks that are under lien, earmarked, or otherwise restricted for use are classified as Other Bank Balances. These include Fixed Deposit Receipts (FDRs) kept as margin for issuance of Bank Guarantees, pledged as collateral security for working capital facilities, or earmarked against specific liabilities (e.g., unpaid dividend accounts, escrow accounts).

NOTES FORMING PART OF THE RESTATED STANDALONE FINANCIAL STATEMENTS

Treatment in Cash Flow Statement

For the purpose of AS 3 - Cash Flow Statements, only those bank balances and deposits which are readily available for use by the Company are considered as Cash & Cash Equivalents. FDRs and other balances under lien/pledge are excluded from Cash & Cash Equivalents and disclosed separately.

Disclosure Requirement

The nature and amount of balances under lien, pledged, or otherwise restricted are disclosed separately in the Notes to Accounts under "Other Bank Balances" to ensure transparency regarding restrictions on liquidity.

Independent Auditor's Examination report on Restated Consolidated Financial Information of IC Electricals Company Limited

To,

The Board of Directors

IC Electricals Company Limited

(Formerly known as IC Electricals Company Private Limited)

Dear Sir / Respected Mam,

We, have examined the attached Restated Consolidated Statements of Assets & Liabilities of IC Electricals Company Limited (hereinafter referred to as "the Company") and its subsidiary (the company and its subsidiary and its joint venture together referred to as "Group"), as at 31st March 2026, 31st March 2025 and 31st March 2024, Restated Consolidated Statement of Profit and Loss and Restated Consolidated Statement of Cash Flows for the stud period/ financial year ended on 31st March 2026, 31st March 2025 and 31st March 2024 (collectively referred to as the "Consolidated Restated Summary Statements" or "Consolidated Restated Financial Statements") annexed to this report and initialed by us for identification purposes. These Consolidated Restated Financial Statements have been prepared by the management of the Company and approved by the board of directors at their meeting held on June 15th, 2026 for the proposed Initial Public Offering ("SME IPO") of Equity Shares on Emerge Platform of National Stock Exchange of India Limited ("NSE SME") of the Company.

1. The restated summary statements have been prepared in accordance with the requirements of:

- i. Section 26 of Part - I of Chapter III of Companies Act, 2013 (the "Act") read with Companies (Prospectus and Allotment of Securities) Rules 2014;
- ii. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 ("ICDR Regulations") and related amendments/clarifications from time to time issued by the Securities and Exchange Board of India ("SEBI");
- iii. The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("Guidance Note").

Management's Responsibility for the Restated Consolidated Financial Statements

2. The Company's Board of Directors is responsible for the preparation of the Restated Consolidated Financial Statements for inclusion in the Draft Prospectus/Prospectus to be filed with Securities and Exchange Board of India ("SEBI"), SME platform of National Stock Exchange of India Limited ("NSE SME") and Registrar of Companies (NCT Delhi and Haryana) in connection with the proposed IPO. The

Restated Consolidated Financial Statements have been prepared by the management of the Company on the basis of preparation stated in Annexure IV to the Restated Consolidated Financial Statements. The responsibility of the board of directors of the Company includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Consolidated Financial Statements. The boards of directors are also responsible for identifying and ensuring that the Company complies with the Act, SEBI ICDR Regulations and the Guidance Note.

Auditor's Responsibilities

3. We have examined such Restated Consolidated Financial Statements taking into consideration:

- (i) The terms of reference and terms of our engagement letter dated April, 24th 2025 requesting us to carry out the assignment, in connection with the proposed SME IPO;
- (ii) The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
- (iii) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Consolidated Financial Statements;
- (iv) The requirements of Section 26 of the Act and the SEBI ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the SEBI ICDR Regulations and the Guidance Note in connection with the IPO.

Restated Standalone Financial Statements

4. The Restated Consolidated Financial Statements of the Company have been compiled by the management from:

- (i) Audited Consolidated financial statements of the Group for the stub period/ financial year ended on 31st March 2026, 31st March 2025 and 31st March 2024 prepared in accordance with the Accounting Standards (referred to as "AS") as prescribed under Section 133 of the Act read with Companies (Accounting Standards) Rules, as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meeting.
- (ii) The Company's Financial Statements for the stud period / financial years ended 31st March 2026, 31st March 2025 and 31st March 2024,, as approved by the Board of Directors at their respective meetings, along with the books of account underlying those financial statements and other records of the Company, to the extent considered necessary for the preparation of the Restated Consolidated Financial Statements, have been audited by us in our capacity as Statutory Auditors of the Company. We have issued unqualified audit reports for each of the aforesaid years.
- (iii) We did not audit the financial statements of the joint venture for the years ended 31st March 2026,

31st March 2025 and 31st March 2024 whose financial information has been included in the Restated Consolidated Financial Statements for the respective years. Our opinion on the Restated Consolidated Financial Statements, insofar as it relates to the amounts and disclosures pertaining to the said subsidiary, is based solely on the financials statement prepared by management. We further note that the Joint Venture entity of the Company is not required to have its accounts audited under the applicable laws, and accordingly, the financial information of the said Joint Venture included in the Restated Consolidated Financial Statements is based on the management-certified accounts.

(iv) Based on our examination and according to information and explanations given to us, we are of the opinion that the Restated Consolidated Financial Statements:

- a. have been prepared after incorporating adjustments, if any, material errors and regrouping/reclassifications to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed for the Stub period/ financial years ended 31st March 2026, 31st March 2025 and 31st March 2024;
- b. have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note;
- c. there are no extra-ordinary items that need to be disclosed separately in the accounts and requiring adjustments.
- d. There are no qualifications in the Audit Report's which required any adjustments.
- e. do not require any adjustment for modification as there is no modification in the underlying audit reports.
- f. Adequate disclosure has been made in the financial statements as required to be made by the issuer as per schedule III of the Companies Act, 2013.
- g. The accounting standards prescribed under the Companies act, 2013 have been followed
- h. The restated consolidated financial statements present a true and fair view of the company's accounts

(v) In accordance with the requirements of the Act including the rules made there under, ICDR Regulations, Guidance Note and engagement letter, we report that:

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

Note - 1

I) Company Information

IC Electricals Company Limited ("the Company") was incorporated on 5th August, 2005, with an objective of carrying out manufacturing of Electrical Component and Railway Electrification and maintenance works having its registered office at New Delhi.

II) Significant Accounting Policies

A. Basis for preparation of accounts

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified). Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known or materialise.

C. Property Plant and Equipment

Tangible Assets

Tangible Assets are stated at cost net of recoverable taxes, trade discounts and rebates, less accumulated depreciation and impairment loss, if any. The cost of Tangible Assets comprises its purchase price, borrowing cost and any cost directly attributable to bringing the asset to its working condition for its intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the assets.

Subsequently expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Intangible Assets

Intangible Assets are stated at cost of acquisition net of recoverable taxes less accumulated amortisation/ depletion and impairment loss, if any. The cost comprises purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use and net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible asset.

D. Depreciation, Amortisation and Depletion

Depreciation on tangible assets is provided on the written down value method over the useful lives of assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation for assets purchased/ sold during a period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives written down value basis, commencing from the date the asset is available to the Company for its use.

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

E. Impairment

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

There is no impairment on assets during the reporting period.

F. Foreign Currency Transactions and Translations

Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction of that approximates the actual rate at the date of the transaction.

Monetary items denominated in foreign currencies at the year end are restated at the year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of contract is recognised as exchange difference and the premium paid on forward contracts is recognised over the life of the contract.

Non-monetary foreign currency items are carried at cost.

Any income or expense on account of exchange difference either on settlement or on translation is recognised in the Statement of Profit and Loss, except in case of long term liabilities, where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

G. Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Tangible Fixed Assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Assets.

H. Inventories

Raw Materials

Valued at cost or net realizable value (NRV), whichever is lower. Cost is determined on a Weighted Average basis. Cost includes purchase price, duties, taxes (other than those recoverable), freight, and other expenses directly attributable to procurement, net of trade discounts and rebates.

Work-in-Progress (WIP)

Valued at cost or NRV, whichever is lower. Cost includes cost of materials, direct labor, and a proportion of manufacturing overheads incurred in bringing the inventory to its present location and condition, based on normal operating capacity.

Finished Goods

Valued at cost or NRV, whichever is lower. Cost includes cost of materials, direct labor, related production overheads, incurred in bringing the goods to their present condition and location.

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

Goods-in-Transit

Valued at cost (including purchase price, duties, taxes (other than those recoverable), freight, and other directly attributable expenses) till the goods are received and available for use/sale.

Method of Costing

Cost of inventories is determined using the Weighted Average Method consistently. The method adopted is reviewed periodically to ensure appropriateness.

Net Realizable Value (NRV)

NRV is the estimated selling price in the ordinary course of business less estimated costs of completion and estimated costs necessary to make the sale.

I. Revenue Recognition

Sale of goods

Revenue from sale of goods is recognized when significant risks and rewards of ownership have been transferred to the buyer, the company retains neither continuing managerial involvement nor effective control, the amount can be measured reliably, and collection is reasonably certain. Revenue is measured net of trade discounts, rebates, returns, and applicable taxes.

Rendering of Service

Revenue from services is recognized either: (a) on completion of service contract, or (b) on a percentage of completion basis where applicable and the outcome can be reliably estimated. For services provided over time, revenue is recognized on a straight-line basis; for one-time services, revenue is recognized when performed.

Unbilled Revenue

Represents revenue recognized in respect of services rendered/work completed but not yet billed to customers. Recognized when there is reasonable certainty of ultimate collection in accordance with AS 9. Disclosed under Other Current Assets (if realizable within 12 months) or Other Non-Current Assets (if realizable after 12 months) in the Balance Sheet.

Interest Income

Recognized on a time-proportion basis taking into account the amount outstanding and the applicable interest rate.

Dividend Income

Recognized when the right to receive the dividend is established.

Other Income

Includes claims, rebates, refunds, export incentives, duty drawback and similar items, recognized on accrual basis when no significant uncertainty exists regarding ultimate collection.

Advance from Customers / Deferred Revenue

Includes claims, rebates, refunds, export incentives, duty drawback and similar items, recognized on accrual basis when no significant uncertainty exists regarding ultimate collection.

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

J. Employee Benefits

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentives which is expected to occur within twelve months after the end of the period in which the employee renders the related service.

K. Borrowing Costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. All other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

L. Provision for Current and Deferred Tax

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternative Tax (MAT) paid in a year is charged to the statement of Profit and Loss as current tax. The Company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the Company will pay normal income tax during the specified period i.e. the period for which the MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on "Accounting for credit available in respect of Minimum Alternative Tax under The Income Tax Act, 1961", the said asset is created by way of credit to the Statement of Profit and Loss account and shown as "MAT Credit Entitlement". The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will pay normal income tax during the specified period.

Deferred tax resulting from "timing differences" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as on the balance sheet date. Deferred tax liabilities are recognised for all timing differences. Deferred tax asset is recognized and carried forward only to the extent that there is a virtual certainty that the asset will be realized in future.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their reliability.

M. Government Grants

The government grants are of the nature of promoters' contribution, i.e., they are given with reference to the contribution towards capital investment and no repayment is expected in respect thereof, the grants are treated as capital reserve which can be neither distributed as dividend nor considered as deferred income.

N. Prior Period Items

Prior period items arisen in the current year as a result of errors or omission in the preparation of the financial statements of prior period(s) are separately disclosed in the statement of profit & loss.

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

CIN: U31909DL2005PLC139412

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

O. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

P. Insurance Claims

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that there is no uncertainty in receiving the claims.

Q. Provisions and Contingencies

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements.

R. Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

S. Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the Lessor are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss.

T. Cash & Cash Equivalents / Other Bank Balances

Cash and Cash Equivalents

For the purpose of presentation in the Balance Sheet and Cash Flow Statement, Cash and Cash Equivalents comprise cash in hand, balances with banks in current accounts, and short-term deposits with original maturity of three months or less, which are readily available for use and free from any encumbrances.

Other Bank Balances

Deposits and balances with banks that are under lien, earmarked, or otherwise restricted for use are classified as Other Bank Balances. These include Fixed Deposit Receipts (FDRs) kept as margin for issuance of Bank Guarantees, pledged as collateral security for working capital facilities, or earmarked against specific liabilities (e.g., unpaid dividend accounts, escrow accounts).

IC ELECTRICALS COMPANY LIMITED

(formerly known as IC Electricals Company Private Limited)

NOTES FORMING PART OF THE RESTATED CONSOLIDATED FINANCIAL STATEMENTS

Treatment in Cash Flow Statement

For the purpose of AS 3 - Cash Flow Statements, only those bank balances and deposits which are readily available for use by the Company are considered as Cash & Cash Equivalents. FDRs and other balances under lien/pledge are excluded from Cash & Cash Equivalents and disclosed separately.

Disclosure Requirement

The nature and amount of balances under lien, pledged, or otherwise restricted are disclosed separately in the Notes to Accounts under "Other Bank Balances" to ensure transparency regarding restrictions on liquidity.

T. Principles of Consolidation

- (a) The CFS have been prepared in accordance with AS 21, AS 23 and AS 27 under the Companies (Accounting Standards) Rules, 2021.
- (b) Financial statements of the parent and subsidiaries are combined on a line-by-line basis.
- (c) Intra-group balances, transactions and unrealised profits/losses are eliminated in full.
- (d) Minority interest in net assets of subsidiaries is presented separately.
- (e) Associates are accounted using the equity method.
- (f) Joint Ventures are accounted using proportionate consolidation.
- (g) Uniform accounting policies are used as far as practicable.

Net asset value per share - (A/C) (Face value of Rs. 10 each)	47.40	36.91	80.41

Note:

1) The ratios have been computed as below:

- (a) Basic earnings per share (₹): Net profit after tax as restated for calculating basic EPS/ Weighted average number of equity shares outstanding at the end of the period/ year
(b) Diluted earnings per share (₹): Net profit after tax as restated for calculating diluted EPS/ Weighted average number of equity shares outstanding at the end of the period/ year for diluted EPS
(c) Return on net worth (%) : Net profit after tax (as restated)/Average Net worth at the end of the period/ year
(d) Net assets value per share: Net Worth at the end of the period or year/ Total number of equity shares outstanding at the end of the period/ year

2) Weighted average number of equity shares is the number of equity shares outstanding at the beginning of the year adjusted by the number of equity shares issued during the year multiplied by the time weighting factor. The time weighting factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.

3) Net worth for ratios mentioned in note 1(c) and 1(d) is = Equity share capital + Reserves and surplus (including, Securities Premium, General Reserve and surplus in statement of profit and loss).

4) The figures disclosed above are based on the restated summary statements of the Company.

5) EBITDA has been calculated as Profit before tax + Depreciation + Interest Expenses - Other Income

Other Direct Expenses for the Financial Year 2025-26, stood at Rs. 1308.98 Lakhs Whereas in Financial Year 2024-25, stood at Rs. 574.89 Lakhs representing an increase of 127.69%.

Reason: The increase in other direct expenses of the company is mainly due to an increase in job work charges, freight & cartage inward & packing materials which is in proportionate to increase in turnover of the company.

(Amounts in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Job Work Charges	1,019.59	328.13

- Employment Benefit Expenses**

Employee benefit expenses for the financial year 2025-26 stood at Rs. 1191.36 Lakhs whereas for the financial year 2024-25 stood at Rs. 957.41 Lakhs representing an increase of 24.44%%.

Reason: The increase in employee benefit expenses during the year was primarily attributable to the annual revision in employee compensation in line with normal business practices. In recognition of improved employee productivity and operational efficiencies, the Company provided enhanced remuneration, which contributed to improved business performance and margins. Additionally, the Company expanded its workforce by approximately 10% compared to FY 2024-25 to support the growth in its business operations, resulting in a corresponding increase in employee costs..

(Amounts in Lakhs)

- Finance Cost**

Finance costs for the financial year 2025-26 stood at Rs. 792.53 Lakhs whereas for the financial year 2024-25 stood at Rs. 686.18 Lakhs representing an increase of 15.50%.

Reason: The increase in the Company's finance costs during the year was primarily attributable to the enhancement of its working capital facilities to support the growth in business operations and the higher utilisation of fund-based and non-fund-based credit limits. In addition, the Company availed additional business loans from financial institutions to meet its operational and expansion requirements, resulting in an increase in finance costs as compared to the previous financial year..

- Depreciation and Amortization Expenses**

The depreciation and amortization expenses for the financial year 2025-26 stood at Rs. 74.99 Lakhs whereas for the financial year 2024-25 stood at Rs. 42.53 Lakhs representing a decrease of 76.34%.

Reason: The change in depreciation expense is primarily attributable to the movement in the Written Down Value (WDV) of the Company's fixed assets. Further, certain capital additions were made towards the end of the previous financial year and during FY 2025-26, resulting in a proportionate depreciation charge in the year of acquisition and a full-year depreciation impact in FY 2025-26

- Restated Profit before Tax**

The restated profit before tax for the financial year 2025-26 stood at Rs. 1,882.69 Lakhs whereas for the financial year 2024-25 stood at Rs. 1,246.50 Lakhs representing an increase of 51.04%.

- Tax Expenses**

The Tax Expenses for the financial year 2025-26 stood at Rs. 480.25 Lakhs out of which the Current Tax was Rs. 489.66 Lakhs, Excess Provision made / (reversed) for previous years 0.12 Lakhs and the Deferred Tax being Rs. (9.54) Lakhs whereas in the Financial Year 024-25 stood at Rs. 318.25 Lakhs out of which the Current Tax was Rs. 319.30 Lakhs and the Deferred Tax being Rs. (1.05) Lakhs representing an increase of 50.90%.

Reason: The tax expenses increased over the financial year due to an increase in profit before tax which was Rs. 1,246.50 Lakhs in the financial year 2024-25 but in financial year 2025-26 it came to Rs. 1,882.91 Lakhs.

- Restated Profit after Tax**

The restated profit after tax for the financial year 2025-2026 stood at Rs. 1,402.45 Lakhs whereas for the financial year 2024-2025 stood at Rs. 928.26 Lakhs representing an increase of 51.08%.

Reason for change in the Revenue from operation and Profit after tax

<i>(Amount in Lakhs)</i>		
Particulars	FY 2025-26	FY 2024-25
Revenue from Operation	14,392.78	12,148.16

Change in %	14.85%	
Profit after tax	1,402.45	928.26
Pat Margin in %	9.75%	7.64%

Increase in PAT Justification:

IC Electricals Limited witnessed a significant increase in Profit after Tax by 51.11%, reaching Rs. 1,402.45 Lakhs from Rs. 928.26 Lakhs in the previous year. This increase is attributed to the following:

- The improvement in the Company's gross profit margin was primarily driven by the growth in revenue from operations, resulting in enhanced economies of scale. During the year, the electronic division recorded a significant growth of approximately 70% in sales, increasing from Rs. 2,568.00 lakhs in the previous financial year to Rs. 4,371.67 lakhs in FY 2025-26. Being the largest contributor to the Company's gross profit and generating an average gross profit margin of approximately 45%, which is higher than that of the other business divisions, the increased contribution of the electronic division to the overall revenue mix had a favourable impact on the Company's gross profitability.

The order book of the company has registered a sharp growth of almost 54% which has helped the company to increase its turnover in FY 2025.

- the increase in the Company's Profit After Tax (PAT) for FY 2025-26 was also supported by improved working capital management. Efficient cash flow planning enabled the Company to make timely and early payments to its suppliers, thereby availing cash discounts from creditors, which contributed positively to the overall profitability during the year.
- The Company's profitability improved due to the execution of higher-margin contracts. Further, the Electronic Division, which comprises a mix of product supply and services, generates relatively higher margins, and its increased contribution positively impacted the overall profitability of the Company.

Cash flow from Operating Activity

Reasons for negative cash flow from operating activity

The cash flow from operation for the FY 26 (1,146.02) & for the FY25 (827.99) representing an increase of 38.41%.

Reason:

The increase in negative cash flows from operating activities was primarily attributable to a higher level of trade receivables during the year. As a significant portion of the Company's sales is generated in the last quarter of the financial year, outstanding receivables tend to be higher at the balance sheet date, resulting in a temporary increase in working capital requirements and a corresponding impact on operating cash flows.

Other Receivables

The other receivable is 3,390.65 lakhs for the financial year 25-26 and is Rs. 2,359.04 Lakhs for the FY24-25

Reason for increase in other receivables:

(Amount in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Current Maturity of Railways (Earnest money deposit)	516.46	848.21
Unbilled Revenue	2,111.36	836.48
FDR with Bank (Held as a Margin Money and as a Collateral Security with Banks)	762.82	674.35

The increase in other receivables was primarily attributable to the growth in unbilled revenue. As a significant portion of the Company's operations relates to contractual projects, particularly in the railway sector, a substantial part of the work executed during the year could not be billed before the financial year-end despite the completion of the relevant contractual milestones. Consequently, such amounts have been recognised as unbilled revenue and are expected to be billed in the subsequent financial year.

Trade Payable

The trade payable is Rs. 3,663.73 Lakhs for the FY25-26 and Rs. 3,409.56 Lakhs for the FY24-25.

Reason for increase in trade payable:

The increase in trade payable has increased due to major purchases happens in the last month of the FY 2025-26.

The details of Trade payables are as follows:

(Amount in lakhs)

Particulars	FY 2025-26	FY 2024-25

- Employment Benefit Expenses**

Employee benefit expenses for the financial year 2024-25 stood at Rs. 957.41 Lakhs whereas for the financial year 2023-24, it stood at Rs. 986.52 Lakhs representing a decrease of 1.84%%.

Reason: The decrease in 'Employee Benefit Expenses' is attributed to efficient resource management and economies of scale. The company optimized its workforce in alignment with production requirements, offering exit options to redundant employees, which led to a reduction in overall salaries, wages, and incentives. Conversely, enhanced performance incentives were provided to high-performing employees, contributing to improved productivity

(Amounts in Lakhs)

Particulars	FY 2024-25	FY 2023-24

Increase in PAT Justification:

IC Electricals Limited witnessed a significant increase in Profit after Tax by 100.95%, reaching Rs. 928.26 Lakhs from Rs. 461.92 Lakhs in the previous year. This increase is attributed to the following:

- The substantial increase of 22% in the sales of the company has led to improvement in economies of scale. The company has registered growth in all its divisions including:
 - Electronic Division
 - Rotating Machines Division
 - Railways Electrifications Divisions

The order book of the company has registered a sharp growth of almost 54% which has helped the company to increase its turnover in FY 2025.

- Improved working capital management enabled the company to avail cash discounts by making early payments to creditors, which is a key factor contributing to the increase in Profit After Tax (PAT) for FY 2025. As a result, the company's creditor holding period significantly decreased from 269 days to 140 days during the year.
- The company's employee cost declined from Rs. 986 Lakhs in FY 2024 to Rs. 957 Lakhs in FY 2025. As a percentage of total sales, employee cost reduced from 9.94% to 7.88% during the year. This improvement is attributable to effective resource management and the efficient deployment of employees to achieve optimal production levels.
- The company has also achieved a reduction in other expenses, which declined by approximately 1.5% as a proportion of total sales compared to FY 2024. Other expenses accounted for 6.48% of total sales in FY 2024, which decreased to 5.07% in FY 2025, reflecting improved cost efficiency.

The company has secured certain contracts with improved profit margins compared to previous engagements. The REC division, which integrates both product supply and service components, contributes positively to overall

margins due to its higher value-added nature

Less: Closing Stock of WIP	912.51	549.74
Total	(466.63)	(237.53)

The change in the Company's inventory levels was primarily attributable to an increase in the closing stock of finished goods and work-in-progress. As a significant portion of the Company's operations is executed during the last quarter of the financial year, certain products and contract-related inventories could not be billed or dispatched to the Railways before the year-end. Consequently, these inventories remained on hand at the balance sheet date, resulting in higher closing inventory levels. Such inventory is expected to be billed and realised in the subsequent financial year in the normal course of business.

- Direct Expenses**

Direct Expenses for the Financial Year 2025-26, stood at Rs. 1,312.99 Lakhs Whereas in Financial Year 2024-25, stood at Rs. 576.40 Lakhs representing an increase of 127.79%.

Reason: The increase in other direct expenses of the company is mainly due to an increase in job work charges, freight & cartage inward, packing materials and consumption of stores and spares.

(Amounts in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Job Work Charges	1,016.87	328.13
Freight & Cartage Inward	166.50	127.54
Packing Materials	25.87	29.69
Consumption of stores & Spares	63.19	53.56

The direct expenses of the company have actually Increased on percentage to sales

(Amounts in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Percentage of Direct expenses to sales	9.18%	4.73%

The increase in direct expenses during the year was primarily attributable to higher job work costs incurred in the contractual division. As several major projects progressed towards completion during FY 2025-26, the requirement for outsourced construction and execution activities increased. Since a significant portion of such work is carried out through external contractors, the corresponding job work expenses increased during the year.

- Employment Benefit Expenses**

Employee benefit expenses for the financial year 2025-26 stood at Rs. 1,227.68 Lakhs whereas for the financial year 2024-25 stood at Rs. 991.31 Lakhs representing a increase of 23.84%.

Reason: The increase in employee benefit expenses during the year was primarily attributable to the annual revision in wages and salaries in line with normal business practices. The Company also rewarded employees for improved productivity and operational efficiencies, which contributed to enhanced business performance and margins. Additionally, the expansion of the workforce by approximately 10% compared to FY 2024-25 to support growing business operations further contributed to the increase in employee benefit expenses.

(Amounts in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Salaries, wages and incentives	1,069.04	826.55
Total	1,069.04	826.55

- Finance Cost**

Finance costs for the financial year 2025-26 stood at Rs. 808.06 Lakhs whereas for the financial year 2024-25 stood at Rs. 696.12 Lakhs representing decrease of 16.08%.

Reason: The increase in the Company's finance costs during the year was primarily attributable to the enhancement and higher utilisation of working capital facilities to support the growth in business operations. In addition, the Company availed additional borrowings from financial institutions to meet its operational

and business expansion requirements. These factors collectively contributed to the increase in finance costs as compared to the previous financial year.

- **Depreciation and Amortization Expenses**

The depreciation and amortization expenses for the financial year 2025-26 stood at Rs. 77.97 Lakhs whereas for the financial year 2024-25 stood at Rs. 46.78 Lakhs representing an increase of 66.67%.

Reason: The change in depreciation expense is primarily attributable to the movement in the Written Down Value (WDV) of the Company's fixed assets. Further, certain capital additions were made towards the end of the previous financial year and during FY 2025-26, resulting in a proportionate depreciation charge in the year of acquisition and a full-year depreciation impact in FY 2025-26.

(Amount in Lakhs)

- **Restated Profit before Tax**

The restated profit before tax for the financial year 2025-26 stood at Rs. 1,892.68 Lakhs whereas for the financial year 2024-25 stood at Rs. 1,246.20 Lakhs representing an increase of 49.71%.

- **Tax Expenses**

The Tax Expenses for the financial year 2025-26 stood at Rs. 482.77 Lakhs out of which the Current Tax was Rs. 492.44 Lakhs and the Deferred Tax being Rs. (9.79) Lakhs and excess provision made/(reversed) for previous year 0.12 lakh whereas in the Financial Year 2024-25 stood at Rs. 322.71 Lakhs out of which the Current Tax was Rs. 324.24 Lakhs and the Deferred Tax being Rs. (1.53) Lakhs representing an increase of 49.60%.

Reason: The tax expenses increased over the financial year due to an increase in profit before tax which was Rs. 1,246.20 Lakhs in the financial year 2024-25 but in financial year 2025-26 it came to Rs. 1,892.98 Lakhs.

- **Restated Profit after Tax**

The restated profit after tax for the financial year 2025-2026 stood at Rs. 1,409.90 Lakhs whereas for the financial year 2024-2025 stood at Rs. 941.49 Lakhs representing an increase of 49.75%.

Reason for change in the Revenue from operation and Profit after tax

(Amount in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Revenue from Operation	14,304.15	12,188.59
Change in %	17.36%	
Expenses	12,488.19	10,974.68
Change in %	13.79%	
Profit after tax	1,409.90	941.49
Pat Margin in %	9.86%	7.72%

Increase in PAT Justification:

IC Electricals Limited witnessed a significant increase in Profit after Tax by 49.78%, reaching Rs. 1409.90 Lakhs from Rs. 941.49 Lakhs in the previous year. This increase is attributed to the following:

- The improvement in the Company's gross profit margin was primarily driven by the growth in revenue from operations, resulting in enhanced economies of scale. During the year, the electronic division recorded a significant growth of approximately 70% in sales, increasing from Rs. 2,568.00 lakhs in the previous financial year to Rs. 4,371.67 lakhs in FY 2025-26. Being the largest contributor to the Company's gross profit and generating an average gross profit margin of approximately 45%, which is higher than that of the other business divisions, the increased contribution of the electronic division to the overall revenue mix had a favourable impact on the Company's gross profitability

Due to better working capital management, the company is able to get cash discounts from creditors by paying them early which is the other major reasons for increase in PAT of the company for FY2026.

The improvement in the Company's profitability was primarily driven by the execution of contracts with higher margins compared to those undertaken in previous years. In addition, the Electronic Division, which comprises a combination of product supply and related services, generates relatively higher margins, and its increased contribution to the overall business had a favourable impact on the Company's profitability.

Cash flow from Operating Activity

Reasons for negative cash flow from operating activity

The cash flow from operation for the FY26 (1,109.55) & for the FY25 (965.40) representing an increase of 14.93%.

Reason: The increase in negative cash flows from operating activities during the year was primarily attributable to a higher level of trade receivables. As a significant portion of the Company's sales is generated during the last quarter of the financial year, collections from such sales are typically realised in the subsequent period. Consequently, trade receivables remained elevated at the balance sheet date, leading to a temporary increase in working capital requirements and an adverse impact on operating cash flows.

Other Receivables

The other receivable is 3,668.27 lakhs for the financial year 25-26 and is Rs. 2,636.30 Lakhs for the FY24-25

Reason for increase in other receivables:

The major reason for increase in the Other Receivables is due to increase in unbilled revenue. The company major sales happen in the last quarter of every financial year. The unbilled revenue majorly contributes towards the contracting side of the business. The company in the contractual division has performed the work but not able to bill the same in current Financial Year. The same will get billed in the FY 2025-26.

(Amount in Lakhs)

Particulars	FY 2025-26	FY 2024-25
Current Maturity of Railways (Earnest money deposit)	793.91	1,125.47
Unbilled Revenue	2,111.36	836.48
FDR with Bank (Held as a Margin Money and as a Collateral Security with Banks)	762.82	674.35

Trade Payable

The trade payable is Rs. 3,867.47 Lakhs for the FY25-26 and Rs. 3,612.94 Lakhs for the FY24-25.

Reason for increase in trade payable:

The increase in trade payable has increased due to major purchases happens in the last month of the FY 2025-26. The holding period of trade payables has declined from 155 days in FY 2024-25 to 150 days in FY 2025-26

The details of Trade payables are as follows:

(Amount in lakhs)

Particulars	FY 2025-26	FY 2024-25

Reason for Increase in Revenue from Operation

Revenue from operations for the financial year 2024-2025 stood at Rs. 12,188.59 Lakhs whereas for the financial year 2023-24, it stood at 9,924.92 Lakhs representing an increase of 22.81%.

The increase in the total income of the company is due to a significant increase in the revenue of the company general growth in the business operations of the Company. The company is having 3 divisions manufacturing of electronic components for railways, rotating motor division and EPC work for railways electrification. The major turnover of the company happens in last quarter of the financial year.

The company procures orders on the basis of bidding done to railways. The company awards the orders on the basis of lowest bid. The award has been done on the basis of technical and financial qualifications. The company enjoys the priority in awarding contracts due to their legacy and specialisation in manufacturing of products. The order book of the company for the last 2 years has increased substantially as the company as getting more and more orders. The details of same are provided below.

Reason: The increase in 'Other Income' is primarily attributable to higher interest income. However, this was partially offset by a decline in export realization forex gains and other operating revenues consisting sales of duty drawback. As a result, the overall increase in other income was limited to 0.71%.

(Amounts in Lakhs)

Particulars	FY 2024-25	FY 2023-24

Expenditure

- **Total Expenses**

Total expenses for the financial year 2024-2025 stood at Rs. 10,974.68 Lakhs whereas for the financial year 2023-24, it stood at Rs. 9,372.05 Lakhs representing an increase of 16.99%

Reason: The increase in total expenses on account of the increase in the cost of consumption, direct expenses, and employee benefit expenses.

- **Cost of Consumption**

The Cost of Consumption for the Financial Year 2024-2025, stood at Rs. 8,269.88 Lakhs whereas in Financial Year 2023-24 it stood at Rs. 6,162.80 Lakhs representing an increase of 34.19%.

Reason: The company operates through three divisions: manufacturing electronic components for railways, the rotating motor division, and the REC division handling railway electrification contracts. The REC division contributes approximately 40% to the company's total turnover. Due to the longer duration of EPC contracts and dependency on site availability provided by the Railways, the REC division experiences an extended stock holding period.

The increase in raw material consumption is primarily attributable to a rise in the company's closing inventory. Meanwhile, purchases have remained relatively stable, constituting approximately 74% of sales over the past two years, shown as follows.

(Amounts in Lakhs)

Particulars	FY 2024-25	FY 2023-24

Freight & Cartage Inward	127.54	125.89
Packing Materials	29.69	15.51
Consumption of stores & Spares	53.56	65.58

The direct expenses of the company have actually reduced on percentage to sales due to better resource management and increase in economies of scale.

(Amounts in Lakhs)

Particulars	FY 2024-25	FY 2023-24
Percentage of Direct expenses to sales	4.71%	5.55%

- Employment Benefit Expenses**

Employee benefit expenses for the financial year 2024-25 stood at Rs. 991.31 Lakhs whereas for the financial year 2023-24, it stood at Rs. 1001.94 Lakhs representing a decrease of 1.06%.

Reason: Employee benefit expenses decreased as a result of efficient resource management and the realization of economies of scale. The company optimized its workforce in alignment with production requirements, which included the strategic exit of redundant position leading to a reduction in overall salaries, wages, and incentives. At the same time, the company rewarded high-performing employees with enhanced incentives, aligning compensation with productivity improvements, shown as follows.

(Amounts in Lakhs)

Particulars	FY 2024-25	FY 2023-24
Salaries, wages and incentives	826.55	905.58
Total	826.55	905.58

- Finance Cost**

Finance costs for the financial year 2024-25 stood at Rs. 696.12 Lakhs whereas for the financial year 2023-24, it stood at Rs. 697.26 Lakhs representing decrease of 0.16%.

- **Depreciation and Amortization Expenses**

Reason: There was a marginal decrease in certain components of 'Other Expenses', including rent, rates and taxes, repair and maintenance, travel and conveyance, business promotion, tender charges, vehicle hire, rebates and discounts, and miscellaneous expenses. However, this reduction was offset by an increase in outward freight and cartage, as well as insurance expenses, driven by the expansion of business operations. As a result, overall 'Other Expenses' registered a modest increase of 1.58%.

The other expenses have declined due to better economies of scale and efficient management of resources.

(16.48) Lakhs representing an increase of 129.60%.

Reason: The tax expenses increased over the financial year due to an increase in profit before tax which was Rs. 602.81 Lakhs in the financial year 2023-24 but in financial year 2024-25 it came to Rs. 1,246.20 Lakhs.

• Restated Profit after Tax

The Company recorded a significant improvement in Profit After Tax, increasing by 103.67%, from Rs. 462.26 lakhs to Rs. 941.49 lakhs.

Increase in PAT Justification

a. Improved Economies of Scale

The 22.81% increase in sales allowed better absorption of fixed overheads, contributing to improved profitability across divisions.

b. Effective Cost Reduction and Efficiency Measures

Although revenue increased substantially, total expenses grew at a lower rate, improving cost ratios:

(Amount in Lakhs)

Particulars	FY 2024	FY 2023
Sales	12,188.59	9,924.92
Total Expenses	10,974.68	9,372.05
Expenses as % of Sales	90%	94%

This 4% reduction in expenses as a percentage of revenue was driven by:

1. Improved Working Capital and Cash Discount Benefits

- Better receivable turnover and cash flow management enabled early payments to vendors.
- The Company availed cash discounts, directly contributing to improved profitability.

2. Reduction in Employee Benefit Expenses

Employee cost decreased from Rs. 1,001.94 lakhs to Rs. 991.31 lakhs (down 1.06%) due to:

- Optimised manpower based on production demands.
- Phase-out of redundant positions with minimal impact on overall workforce (less than 1%).
- Enhanced incentives to high-performing employees, leading to higher productivity.
- Improved resource allocation and deployment efficiencies.

3. Reduction in Other Operating Expenses

Other expenses decreased from Rs. 641.87 lakhs to Rs. 631.72 lakhs (down 1.58%), mainly due to:

- Lower rental, rate & taxes, travel, repairs, tender charges, and business promotion costs.
- Reduced vehicle hire and discount expenses.
- Partially offset by higher outward freight & cartage and insurance costs, attributable to expanded operational activities.

c. Improvement in Contract Mix and Higher-Margin Business

- The Company executed higher-margin contracts in FY 2025, particularly in the REC/EPC division.
- Many REC projects include both product supply and onsite services, providing better blended margins.
- Execution of higher-value electrification packages contributed to overall profitability growth.

Cash flow from Operating Activity

Reasons for negative cash flow from operating activity

The cash flow from operation for the FY24 (147.48) & for the FY25 (965.40) representing a decrease of 554.60%.

The decline in operating cash flow is mainly due to increase in other receivables and decrease in Trade payable which is shown as below:

(Amount in Lakhs.)		
Particulars	FY 2024-25	FY 2023-24
(Increase) / Decrease in Other Receivables	(1,382.74)	(11.91)
Increase / (Decrease) Trade Payables	(1,583.12)	571.71

Other Receivables

The other receivable is 2,636.30 lakhs for the financial year 24-25 and is Rs. 1,270.22 Lakhs for the FY 23-24

Reason for increase in other receivables:

Other current assets for FY 2024–25 include the current maturity of railway earnest money deposits, unbilled revenue, and fixed deposits (FDRs) held with banks as margin money and general security

The current maturity of earnest money deposits increased from Rs. 699.79 lakhs in FY 2023–24 to Rs. 1,125.47 lakhs in FY 2024–25, primarily due to their reclassification from non-current to current assets.

Unbilled revenue amounting to Rs. 836.48 lakhs was recognised since the related work had been completed but could not be certified and invoiced by the concerned authorities before the end of FY 2024–25.

FDRs with banks, maintained as margin money and general security, also rose from Rs. 570.43 lakhs in FY 2023–24 to Rs. 674.35 lakhs in FY 2024-25.

(Amount in Lakhs)		
Particulars	FY 2024-25	FY 2023-24
Current Maturity of Railways (Earnest money deposit)	1,125.47	699.79
Unbilled Revenue	836.48	-
FDR with Bank (Held as a Margin Money and as a Collateral Security with Banks)	674.35	570.43

Trade Payable

The trade payable is Rs. 3,612.94 Lakhs for the FY24-25 and Rs. 5,196.06 Lakhs for the FY 23-24.

Reason for decrease in trade payable:

The company has started given more advances to the trade payables; it increases from Rs. 546.80 Lakhs in FY 23-24 to Rs. 724.72 Lakhs in FY 24-25 and getting trade discount or timely delivery or proper supply of good quality raw materials. Similarly, trade payables to other creditors declined from Rs. 3,095.12 lakhs in FY 2023–24 to Rs. 2,011.49 lakhs in FY 2024–25.

The total outstanding trade payables to Micro and Small Enterprises (MSEs) of IC Electricals Company decreased from Rs. 2,100.94 lakh in FY 2024 to Rs. 1,601.45 lakh in FY 2025. This reduction is primarily due to timely clearance of dues during the year.

The Company continues to comply with the provisions of the Micro, Small and Medium Enterprises Development Act, 2006, and there have been no delays in payments to MSE vendors beyond the prescribed timelines.

The details of Trade payables are as follows:

(Amount in lakhs)

Particulars	FY 2024-25	FY 2023-24
Total outstanding dues from micro enterprises & small enterprises	1,601.45	2,100.94
Total outstanding dues of creditors other than micro enterprises & small enterprises	2,011.49	3,095.12

SECTION VI - LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATIONS AND MATERIAL DEVELOPMENTS

Except, as stated in this section and mentioned elsewhere in this Red Herring Prospectus there are no litigations including, but not limited to suits, criminal proceedings, civil proceedings, actions taken by regulatory or statutory authorities or legal proceedings, including those for economic offences, tax liabilities, show cause notice or legal notices pending against our Company, Directors, Promoters, Group Companies or against any other company or person/s whose outcomes could have a material adverse effect on the business, operations or financial position of the Company and there are no proceedings initiated for economic, civil or any other offences (including past cases where penalties may or may not have been awarded and irrespective of whether they are specified under paragraph (a) of Part I of Schedule V of the Companies Act, 2013) other than unclaimed liabilities of our Company, and no disciplinary action has been taken by SEBI or any stock exchange against the Company, Directors, Promoters or Group Companies.

Pursuant to the SEBI ICDR Regulations, 2018 and the Materiality Policy adopted by the Board of Directors of the Company on September 04, 2025, the Company has laid down a policy for identification of material outstanding litigation involving the Relevant Parties.

Pursuant to the Materiality Policy for the purposes of above, any outstanding litigation/ arbitration proceedings involving the Relevant Parties (including claims related to direct and indirect taxes) have been considered 'material' and accordingly disclosed in this Draft Red Herring Prospectus where:

the value or expected impact in terms of value, to the extent quantifiable exceeds, (i) two percent of turnover, for the most recent financial year based on the Restated Consolidated Financial Information; or (ii) two percent of Net Worth, as at the end of the most recent financial period based on the Restated Consolidated Financial Information except in case the arithmetic value of the Net Worth is negative; or (iii) five percent of the average of absolute value of profit or loss after tax, for the last three financial years based on the Restated Consolidated Financial Information, whichever is lower.

Accordingly, a materiality threshold of Rs. 46.63 lakh, being equivalent to five percent of the average of the absolute value of profit or loss after tax based on the Restated Consolidated Financial Information as of March 31, 2026, has been considered for the purposes of disclosure.

*Except as stated in this section, there are no outstanding material dues to creditors of the Company. In terms of the Materiality Policy, outstanding dues to any creditor of the Company having monetary value which exceeds 10% of the total consolidated trade payables of the Company as per the latest restated financial statements of the Company shall be considered as 'material'. Further, for outstanding dues to any party which is a micro, small or a medium enterprise ("**MSME**"), the disclosure will be based on information available with the Company regarding status of the creditor as defined under Section 2 of the Micro, Small and Medium Enterprises Development Act 2006, as amended, as has been relied upon by the Statutory Auditor.*

It is clarified that pre-litigation notices (other than those issued by governmental, statutory or regulatory authorities) received by our Company, our Directors shall not be considered as litigation until such time that any of our Company, our Directors, as the case may be, is made a party to proceedings initiated before any court, tribunal or governmental authority or any judicial authority, or is notified by any governmental, statutory or regulatory authority of any such proceeding that may be commenced.

All terms defined in a particular litigation disclosure pertain to that litigation only.

1. LITIGATION INVOLVING OUR COMPANY

(a) *Litigation proceedings against our Company*

1 *Criminal Proceedings:*

Following are the criminal proceedings pending against the Company.

Case Number and Forum	Parties	Case Type	Summary	Status
CS/71/2024 Metropolitan Magistrate Court, Calcutta	Awagaman Road Carriers Limited Versus 1. IC Electricals Company Private Limited; 2. Sunil Kumar Verma (Director); 3. Samavedam Rajagopal Acharyulu (Former Director); 4. Sanjai Viswakarma (Director); 5. Savita Sachdeva (Director); and 6. Rahul Verma (Director).	Criminal Complaint	Awagaman Road Carriers Limited (Complainant) filed a criminal complaint under Section 406, 420, 506 read with 120B of the erstwhile Indian Penal Code 1860 (IPC). The subject-matter of the aforesaid complaint is that the Complainant provided certain transportation services to the Company in the year 2022, against which the Complainant issued invoices aggregating to Indian Rupees Twenty Three Lakhs Twenty Six Thousand Nine Hundred and Fifty (INR 23,26,950). However, the Company made a payment of only Indian Rupees Six Lakhs (INR 6,00,000), withholding the balance amount on the grounds that the goods intended to be transported through the Complainant's services were not transported properly, resulting in incomplete delivery of the order. Accordingly, the balance amount allegedly payable by the Company stands at INR 17,26,950. The criminal complaint is filed alleging that the Company and its directors have committed offense under the aforesaid sections of the IPC. However, the Company denies these allegations, asserting that the transportation services in question were not properly rendered.	The court has fixed the next date of hearing on 23 June 2026.

CS/148755/2025 Metropolitan Magistrate Court, Calcutta (CNR No. WBCS021584632025)	M/s. Chandra Engineering Works (Complainant) Versus 1. M/s IC Electricals Company Private Limited; 2. Sunil Kumar Verma; 3. Renu Verma; 4. Sanjai Vishwakarma; 5. Savita Sachdeva; and 6. Rahul Verma	Complaint Case	The Complainant has filed a complaint under Section 316(2) (Criminal Breach of Trust), Section 318 (Cheating), and Section 61 (Criminal Conspiracy) of the Bharatiya Nyaya Sanhita 2023 against the Company and its Directors. A notice was issued by the Hon'ble Court on 13 August 2025. Summons have been received by Accused No. 5 – Ms. Savita Sachdeva, directing her to appear before the Court on 31 January 2026. However, neither the Company nor any of its Directors have received a copy of the complaint along with the summons.	The court has fixed the next date of hearing on 10 August 2026.

AM/S&T/Railway Board Co- Arbitrator 4. Sh. Narendra Kumar Gupta Retd. Director/ Finance Co- Arbitrator	Objection Petition under Section 34 of the Arbitration and Conciliation Act 1996	The Union of India Diesel Loco Modernization Works (Petitioner) has filed an objection petition under Section 34 of the Arbitration and Conciliation Act 1996, challenging the arbitral award dated 16 August 2021 passed by a three-member arbitral tribunal partially in favour of IC Electricals Company Pvt. Ltd. (Company). The dispute originated from Purchase Order dated 2 August 2013, under which the Company was contracted to supply ten (10) Fuel Cell Assisted APU Systems for Diesel Electric Locomotives to RDSO, at a total value of Indian Rupees Three Crore Eighty Lakhs (INR 3,80,00,000) with the delivery date fixed as 7 November 2013. Despite several extensions of the delivery date granted between 2013 and 2017, only two units were supplied by the Company both of which failed to meet the required specifications and remained	The court has fixed the next date of hearing on 28 July 2026.

			<p>uncomissioned. As a result, the remaining eight units were not supplied, and the performance of the two delivered units was found unsatisfactory. Due to persistent non-compliance and technical deficiencies, the Petitioner cancelled the purchase order on 7 February 2019 and encashed the performance bank guarantee of Indian Rupees Thirty Eight Lakhs (INR 38,00,000) on 6 May 2019.</p> <p>The Company invoked the arbitration clause on 24 April 2019, leading to the constitution of the arbitral tribunal on 30 December 2019. The Company filed a statement of claim amounting to Indian Rupees Five Crores Fifty-Eight Lakhs Forty-Seven Thousand Four Hundred Fifty-Five Rupees and Fifty-Nine paisa (<u>INR 5,58,47,455.59</u>). The arbitral tribunal ultimately issued an award partially in favour of the Company amounting to Indian Rupees Two Crores Fifty-Two Lakhs Eighty-Two Thousand Eight Hundred and Sixty-One (INR 2,52,82,861), prompting the present challenge by the Petitioner. The Petitioner now seeks to set aside the award on grounds including alleged misappreciation of facts and erroneous findings on key issues such as unilateral amendments to the purchase order and the Company's failure to meet delivery and performance standards.</p> <p>In the meantime, the Company had filed for the execution of the award passed by the arbitral tribunal on 16 August 2021, before the District Court, Patiala in which the court through its order dated 19 September 2025, directed the Petitioner to pay an amount of INR 3,54,29,005 to the Company.</p>

OMP (COMM.) NO. 318 OF 2025, High Court of Delhi	IC Electricals Company Private Limited; Versus 1. Union of India, Through Northern Railway, Through Dy Chief Project Manager, Gati Shakti Unit, DRM Office, State Entry Road (Collectively Respondent)	Application under section 34 of the Arbitration and Conciliation Act 1996	IC Electricals Company Limited (Company) has filed this application to challenge the arbitral award dated 10 February 2025, passed by a three-member tribunal in a dispute with the Union of India, through Northern Railway. The dispute arose from a contract awarded for electrical overhead equipment (OHE) work by the Northern Railway (Respondent). The contract was initially awarded for Indian Rupees Seven Crores Fifty-Five Lakhs Thirty-Two Thousand Eight Hundred and Eight Nine Rupees Ninety-Three Paise (INR 7,55,32,889.93) and had a stipulated completion date of 29 July 2020. However, the project was delayed and the contract was terminated on 25 May 2023. Although the company completed forty five (45%) of the project and submitted several claims worth Indian Rupees Three Crores Sixty seven Lakhs Fifty Seven Thousand and Twenty Two (INR 3,67,57,022), the tribunal: (a) awarded Indian Rupees Sixty Six Lakhs Eighty Eight Thousand Six Hundred and Fourteen (INR 66,88,614) in favour of the Company, and (b) accepted a counterclaim of Indian Rupees Eight Lakhs Forty Three Thousand Five Hundred and Thirteen (INR 8,43,513), making the net award just Indian Rupees Fifty Eight Lakhs Forty Five Thousand One Hundred and One (INR 58,45,101). Hence this application is filed by the Company to set aside the award passed by the learned Arbitral tribunal.	The next date of hearing is fixed on September 01, 2026.

<p>In the matter of Arbitration on dispute arising out of Contract Agreement No. NFR/LMG/Elect/2022/0036 Dt. 12/01/2023 Before the Hon'ble Arbitral Tribunal consisting of:</p> <p>1. Shri. Ajay Kumar Rawal, Former Addl. Member/Planning/Railway Board; Presiding Arbitrator</p> <p>2. Shri Rajinder Kumar Sondh, Former Ex.CPTM/N. F. Railway; Co-Arbitrator</p> <p>3. Dr. Tanuja Pande; Former Principal FA/NE Railway; Co-Arbitrator</p>	<p>M/S IC Electricals Company Private Limited Versus Union of India Represented by Senior Divisional Electrical Engineer / TRD And Gati Shakti/Lumding</p>	<p>Civil Arbitration</p>	<p>The present arbitration arises out of a service contract between the IC Electricals Company Pvt. Ltd. (Company) engaged in a tender for outsourcing skilled and unskilled manpower for maintenance of traction distribution (TRD) assets in the Lumding Division for a period of two years with the Railway Department (Respondent) on 10 October 2022 with a total contract value of INR 4,11,83,660.94. The Company provided a performance bank guarantee and began mobilization at the designated depots, including Kamakhya (KYQ) and Champarmukh (CPK) as per directions received from the Respondent. However, several issues soon emerged around manpower deployment, wage expectations, and inconsistent instructions regarding deployment locations, resulting in deterioration of relationship between the parties. The Company alleged that despite compliance with all work requirements, the Respondent abruptly and illegally terminated the contract on 2 April 2024 without issuing the mandatory 30-day notice as per the LOA terms. The Company initiated the arbitration proceedings and filed statement of claims amounting to INR 1,65,27,660. The Counter Claim is filed by the Respondent amounting to INR 96,38,955 in reply to various claims filed by the Company.</p>	<p>The Company has already filed the reply with the arbitration tribunal. The Presiding member of the arbitral tribunal was changed and therefore the company has refiled the reply with the new arbitration tribunal. The arbitral tribunal is yet to communicate the next date of hearing.</p>

Nomination Facility to the Investor

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Applicant, or the first Applicant along with other joint Applicants, may nominate any one

person in whom, in the event of the death of sole Applicant or in case of joint Applicants, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A buyer will be titled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon production of such evidence, as may be required by the Board, elect either:

1. to register himself or herself as the holder of the equity shares; or
2. to make such transfer of the equity shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the equity shares, and if the notice is not complied with within a period of ninety (90) days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the equity shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the Applicants require changing of their nomination, they are requested to inform their respective depository participant.

The SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 01, 2019, the UPI Mechanism for Individual Bidders applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase-I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Individual Investors (“UPI Phase III”), as may be prescribed by SEBI. Accordingly, the Offer has been undertaken under UPI Phase II, till any further notice issued by SEBI.

SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 effective to public issues opening on or after from May 01, 2021. However, said circular has been modified pursuant to SEBI Circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 in which certain applicable procedure w.r.t. SMS Alerts, Web portal to CUG etc. shall be applicable to Public Issue opening on or after January 1, 2022 and October 1, 2021 respectively and the provisions of this circular, as amended, are deemed to form part of this Red Herring Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the time period for refund of application monies from 15 days to four days. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 01, 2022) whose application sizes are up to Rs. 5,00,000/- shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public issue from existing 6 working days to 3 working days from the date of the closure of the issue. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. Accordingly, the Issue will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

REDUCTION OF TIMELINE FOR LISTING OF SHARES IN PUBLIC ISSUE FROM EXISTING T+6 DAYS TO T+3 DAYS

The SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, has introduced reduction of timeline for listing of shares in public issue from existing t+6 days to t+3 days. This circular shall be applicable on voluntary basis for public issues opening on or after September 1, 2023 and Mandatory for public issues opening on or after December 1, 2023.

Consequent to extensive consultation with the market participants and considering the public comments received pursuant to consultation paper on the aforesaid subject matter, it has been decided to reduce the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the requirement of 6 working days (T+6 days); 'T' being issue closing date.

The T+3 timeline for listing shall be appropriately disclosed in the Offer Documents of public issues.

Notwithstanding anything contained in Schedule VI of the ICDR Regulations, the provisions of this circular shall be applicable:

- On voluntary basis for public issues opening on or after September 1, 2023, and
- Mandatory for public issues opening on or after December 1, 2023.

The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, June 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, June 2, 2021, and April 20, 2022, shall stand modified to the extent stated in this Circular.

SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 effective to public issues opening on or after from May

01, 2021. However, said circular has been modified pursuant to SEBI Circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, in which certain applicable procedure w.r.t. SMS Alerts, 322 of 385

Web portal to CUG etc. shall be applicable to Public Issue opening on or after January 1, 2022 and October 1, 2021 respectively and the provisions of this circular, as amended, are deemed to form part of this Red Herring Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, has reduced the time period for refund of application monies from 15 days to four days. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 01, 2022) whose application sizes are up to Rs. 5,00,000/- shall use the UPI Mechanism.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a. **Phase I:** This phase was applicable from January 01, 2019, and lasted till June 30, 2019. Under this phase, a

Individual applicant, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

- b. **Phase II:** This phase commenced on completion of Phase I i.e. with effect from July 1, 2019, and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Individual Applicant through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.
- c. **Phase III:** This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed Axis Bank Limited as the Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Investors into the UPI mechanism.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to Rs. 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than Rs. 200,000 and up to Rs. 5,00,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The processing fees for applications made by Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular

No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

APPLICATIONS BY ELIGIBLE FIIs/FPIs

In terms of the SEBI FPI Regulations, an FII who holds a valid certificate of registration from SEBI shall be deemed to be a registered FPI until the expiry of the block of three years for which fees have been paid as per the SEBI FII Regulations.

An FII or sub-account may, subject to payment of conversion fees under the SEBI FPI Regulations participate in the Issue until the expiry of its registration with SEBI as an FII or sub-account, or if it has obtained a certificate of registration as an FPI, whichever is earlier. Accordingly, such FIIs can, subject to the payment of conversion fees under the SEBI FPI Regulations, participate in this Offer in accordance with Schedule 2 of the FEMA Regulations. An FII shall not be eligible to invest as an FII after registering as an FPI under the SEBI FPI Regulations.

In terms of the SEBI FPI Regulations, the purchase of Equity Shares and total holding by a single FPI or an investor group (which means the same set of ultimate beneficial owner(s) investing through multiple entities) must be below 10% of our post-issue Equity Share capital. Further, in terms of the FEMA Regulations, the total holding by each FPI shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together shall not exceed 24% of the paid-up Equity Share capital of our Company. The aggregate limit of 24% may be increased up to the sectoral cap by way of a resolution passed by the Board of Directors followed by a special resolution passed by the Shareholders of our Company and subject to prior intimation to RBI. In terms of the FEMA Regulations, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs as well as holding of FIIs (being deemed FPIs) shall be included.

Further, pursuant to the Master Directions on Foreign Investment in India issued by the RBI dated January 4, 2018 (updated as on March 8, 2019) the investments made by a SEBI registered FPI in a listed Indian company will be reclassified as FDI if the total shareholding of such FPI increases to more than 10% of the total paid-up equity share capital on a fully diluted basis or 10% or more of the paid up value of each series of debentures or preference shares or warrants.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 22 of the SEBI FPI Regulations, an FPI, other than Category III foreign portfolio investor and unregulated broad based funds, which are classified as Category II foreign portfolio investor by virtue of their investment manager being appropriately regulated, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it that are listed or proposed to be listed on any recognised stock exchange in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with know your client norms. Further, pursuant to a Circular dated November 24, 2014 issued by the SEBI, FPIs are permitted to issue offshore derivative instruments only to subscribers that (i) meet the eligibility criteria set forth in Regulation 4 of the SEBI FPI Regulations; and (ii) do not have opaque structures, as defined under the SEBI FPI Regulations. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority. Further, where an investor has investments as FPI and also holds positions as an overseas direct investment subscriber, investment restrictions under the SEBI FPI Regulations shall apply on the aggregate of FPI investments and overseas direct investment positions held in the underlying Indian company.

FPIs who wish to participate in the Offer are advised to use the Application Form for Non-Residents (blue in color). FPIs are required to apply through the ASBA process to participate in the Offer.

BIDDER'S DEPOSITORY ACCOUNT AND BANK DETAILS

Please note that, providing bank account details in the space provided in the Bid cum application form is mandatory and Bids that do not contain such details are liable to be rejected.

Bidders should note that on the basis of name of the Applicants, Depository Participant's name, Depository Participant Identification number and Beneficiary Account Number provided by them in the Bid cum Application Form, the Registrar to the Issue will obtain from the Depository the demographic details including address, Bidders' bank account details, MICR code and occupation (hereinafter referred to as Demographic Details). Bidders should carefully fill in their Depository Account details in the Bid cum Application Form.

These Demographic Details would be used for all correspondence with the Bidders including mailing of the CANs / Allocation Advice. The Demographic Details given by Bidders in the Bid cum Application Form would not be used for any other purpose by the Registrar to the Issue.

By signing the Bid Cum Application Form, the Bidders would be deemed to have authorized the depositories to provide, upon request, to the Registrar to the Issue, the required Demographic Details as available on its records.

SUBMISSION OF BIDS

- I. During the Bid/ Offer Period, Bidders may approach any of the Designated Intermediaries to register their Bids.
- II. In case of Bidders (excluding NIIs) Bidding at Cut-off Price, the Bidders may instruct the SCSBs to block Bid Amount based on the Cap Price less Discount (if applicable).
- III. For Details of the timing on acceptance and upload of Bids in the Stock Exchange Platform Bidders are requested to refer to the Red Herring Prospectus.

ALLOTMENT PROCEDURE

The Allotment of Equity Shares to Bidders other than Individual Investors and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Individual Investor will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

1. On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
2. RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
3. Third party confirmation of applications to be completed by SCSBs on T+1 day.
4. RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
5. Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
6. The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.
7. The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- a) Instructions are given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- b) In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- c) In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- d) On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

Allotment will be made in consultation with the NSE. In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category X number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
 - a) For applications where the proportionate allotment works out to less than 1,200 equity shares the allotment will be made as follows:
 1. Each successful applicant shall be allotted 1,200 equity shares; and
 2. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
 - b) If the proportionate allotment to an applicant works out to a number that is not a multiple of 1,200 equity shares, the applicant would be allotted Shares by rounding off to the nearest multiple of 1,200 equity shares subject to a minimum allotment of 1,200 equity shares.
 - c) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1,200 equity shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Red Herring Prospectus.
 - d) The above proportionate allotment of shares in an Issue that is oversubscribed shall be subject to the reservation for small individual applicants as described below:
 1. As the individual investor category is entitled to more than fifty percent on proportionate basis, the individual investors shall be allocated that higher percentage.
 2. The balance net offer of shares to the public shall be made available for allotment to
 - a) Individual applicants other than individual investors and
 - b) Other investors, including Corporate Bodies/ Institutions irrespective of number of shares applied for.

3. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

Individual Investor' means an investor who applies for 2 lots with minimum application size of above Rs 2 lakhs. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with NSE.

The Executive Director / Managing Director of NSE – the Designated Stock Exchange in addition to BRLM and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

INFORMATION FOR BIDDERS

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such Acknowledgement Slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid. In relation to electronic registration of Bids, the permission given by the Stock Exchange to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company, the BRLM are cleared or approved by the Stock Exchange; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Draft Red Herring Prospectus or the Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

OTHER INSTRUCTIONS

Joint Applications in the case of Individuals

Applications may be made in single or joint names (not more than three). In the case of joint Applications, all payments will be made out in favour of the Applicant whose name appears first in the Application Form or Revision Form. All communications will be addressed to the First Applicant and will be dispatched to his or her address as per the Demographic Details received from the Depository.

Multiple Applications

An Applicant should submit only one Application (and not more than one) for the total number of Equity Shares required. Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

- (i) All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications.
- (ii) Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually checked to eliminate possibility of data entry error to determine if they are multiple applications.
- (iii) Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of know your client's norms by the depositories. The Company reserves the right to reject, in our absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected. More than one ASBA Applicant may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the BRLM reserves the right to reject, in its absolute discretion, all or any multiple applications

in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII subaccounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

EQUITY SHARES IN DEMATERIALISED FORM WITH NSDL/CDSL

To enable all shareholders of the Company to have their shareholding in electronic form, the Company is in process of entering following tripartite agreements with the Depositories and the Registrar and Share Transfer Agent:

1. The Company has entered into an agreement dated April 04, 2025 with the Central Depository Services (India) Limited (CDSL), and the Registrar and Transfer Agent, who, in this case, is Skyline Financial Services Private Limited for the dematerialization of its shares.
2. The Company has entered into an agreement dated April 04, 2024 with the National Securities Depository Limited (NSDL) and the Registrar and Transfer Agent, who, in this case, is Skyline Financial Services Private Limited for the dematerialization of its shares.

The Company's Equity shares bear an ISIN INE0XE501015.

An Applicant applying for Equity Shares must have at least one beneficiary account with either of the Depository Participants of either NSDL or CDSL prior to making the Application.

- The Applicant must necessarily fill in the details (including the Beneficiary Account Number and Depository

Participant's identification number) appearing in the Application Form or Revision Form.

- Allotment to a successful Applicant will be credited in electronic form directly to the beneficiary account (with the Depository Participant) of the Applicant.
- Names in the Application Form or Revision Form should be identical to those appearing in the account details in the Depository. In case of joint holders, the names should necessarily be in the same sequence as they appear in the account details in the Depository.
- If incomplete or incorrect details are given under the heading 'Applicants Depository Account Details' in the Application Form or Revision Form, it is liable to be rejected.
- The Applicant is responsible for the correctness of his or her Demographic Details given in the Application Form vis à vis those with his or her Depository Participant.
- Equity Shares in electronic form can be traded only on the stock exchanges having electronic connectivity with NSDL and CDSL. The Stock Exchange where our Equity Shares are proposed to be listed has electronic connectivity with CDSL and NSDL.
- The allotment and trading of the Equity Shares of the Company would be in dematerialized form only for all investors.

TERMS OF PAYMENT

The entire Issue price of Rs. [●]/- per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs or Sponsor Bank to unblock the excess amount paid on Application to the Bidders.

SCSBs or Sponsor Bank will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs or Sponsor Bank.

The applicants should note that the arrangement with Banker to the Issue or the Registrar or Sponsor Bank is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Issue and the Registrar to the Issue to facilitate collections from the Applicants.

PAYMENT MECHANISM FOR APPLICANTS

The Bidders shall specify the bank account number in their Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Application Form sent by the Sponsor Bank. The SCSB or Sponsor Bank shall keep the Application Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However Non-Individual Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid or for unsuccessful Bids, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application by the ASBA Applicant, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Offer shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual

Investors applying in public offer may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to Rs. 5,00,000, may use UPI.

PAYMENT BY STOCK INVEST

In terms of the Reserve Bank of India Circular No. DBOD No. FSC BC 42/ 24.47.00/ 2003-04 dated November 05, 2003; the option to use the stock invest instrument in lieu of cheques or banks for payment of Application money has been withdrawn. Hence, payment through stock invest would not be accepted in this Issue.

PAYMENT INTO ESCROW ACCOUNT(S) FOR ANCHOR INVESTORS

Our Company, in consultation with the BRLM, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favor of:

- (a) In case of resident Anchor Investors: **“IC Electricals Company Limited – Anchor R Account”**; and

The Company will issue and dispatch letters of allotment/ or letters of regret along with refund order or credit the allotted securities to the respective beneficiary accounts, if any within a period of 4 working days of the Issue Closing Date. The Company will intimate the details of allotment of securities to Depository immediately on allotment of securities under relevant provisions of the Companies Act, 2013 or other applicable provisions, if any.

NAMES OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Stock Exchange, along with the BRLM and the Registrar, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any allotment in excess of the Equity Shares offered through the offer document except in case of oversubscription for the purpose of rounding off to make allotment, in consultation with the Designated Stock Exchange. The allotment of Equity Shares to applicants other than to the Individual Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size.

DISPOSAL OF APPLICATION AND APPLICATION MONIES AND INTEREST IN CASE OF DELAY

The company shall ensure the dispatch of allotment advice, instruction to SCSBs and give benefit to the beneficiary account with Depository Participants and submit the documents pertaining to the allotment to the stock exchange within one (1) working day of the date of allotment of equity shares.

The company shall use best efforts that all steps for completion of the necessary formalities for listing and commencement of trading at Emerge platform of NSE, where the equity shares are proposed to be listed are taken within Three (3) working days of the closure of the issue.

MODE OF REFUNDS

- a) In case of ASBA Applicants: Within 3 (Three) Working Days of the Issue Closing Date, the Registrar to the Issue may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Application, for any excess amount blocked on Application, for any ASBA application withdrawn, rejected or unsuccessful or in the event of withdrawal or failure of the Offer

- b) In the case of Applications from Eligible NRIs and FPIs, refunds, if any, may generally be payable in Indian Rupees only and net of bank charges and/ or commission. If so desired, such payments in Indian Rupees may be converted into U.S. Dollars or any other freely convertible currency as may be permitted by the RBI at the rate of exchange prevailing at the time of remittance and may be dispatched by registered post. The Company may not be responsible for loss, if any, incurred by the applicant on account of conversion of foreign currency.
- c) In case of Other Investors: Within Three Working Days of the Issue Closing Date, the Registrar to the Issue may dispatch the refund orders for all amounts payable to unsuccessful Investors. In case of Investors, the Registrar to the Offer may obtain from the depositories, the Applicants' bank account details, including the MICR code, on the basis of the DP ID, Client ID and PAN provided by the Investors in their Investor Application Forms for refunds. Accordingly, Investors are advised to immediately update their details as appearing on the records of their depositories. Failure to do so may result in delays in dispatch of refund orders or refunds through electronic transfer of funds, as applicable, and any such delay may be at the Investors' sole risk and neither the Issuer, the Registrar to the Issue, the Escrow Collection Banks, may be liable to compensate the Investors for any losses caused to them due to any such delay, or liable to pay any interest for such delay.

MODE OF MAKING REFUNDS FOR APPLICANTS OTHER THAN ASBA APPLICANTS

The payment of refund, if any, may be done through various modes as mentioned below:

- (i) NECS - Payment of refund may be done through NECS for Applicants having an account at any of the centers specified by the RBI. This mode of payment of refunds may be subject to availability of complete bank account details including the nine-digit MICR code of the applicant as obtained from the Depository
- (ii) NEFT - Payment of refund may be undertaken through NEFT wherever the branch of the Applicants' bank is NEFT enabled and has been assigned the Indian Financial System Code ("IFSC"), which can be linked to the MICR of that particular branch. The IFSC Code may be obtained from the website of RBI as at a date prior to the date of payment of refund, duly mapped with MICR numbers. Wherever the Applicants have registered their nine-digit MICR number and their bank account number while opening and operating the demat account, the same may be duly mapped with the IFSC Code of that particular bank branch and the payment of refund may be made to the Applicants through this method. In the event NEFT is not operationally feasible, the payment of refunds may be made through any one of the other modes as discussed in this section;
- (iii) Direct Credit – Applicants having their bank account with the Refund Banker may be eligible to receive refunds, if any, through direct credit to such bank account;
- (iv) RTGS – Applicants having a bank account at any of the centres notified by SEBI where clearing houses are managed by the RBI, may have the option to receive refunds, if any, through RTGS. The IFSC code shall be obtained from the demographic details. Investors should note that on the basis of PAN of the applicant, DP ID and beneficiary account number provided by them in the Application Form, the Registrar to the Issue will obtain from the Depository the demographic details including address, Investors' account details, IFSC code, MICR code and occupation (hereinafter referred to as "Demographic Details"). The bank account details for would be used giving refunds. Hence, Applicants are advised to immediately update their bank account details as appearing on the records of the Depository Participant. Please note that failure to do so could result in delays in dispatch/ credit of refunds to Applicants at their sole risk and neither the BRLM or the Registrar to the Issue or the Escrow Collection Bank nor the Company shall have any responsibility and undertake any liability for the same;

(v) Please note that refunds, on account of our Company not receiving the minimum subscription, shall be credited only to the bank account from which the Bid Amount was remitted to the Escrow Bank. For details of levy of charges, if any, for any of the above methods, Bank charges, if any, for cashing such cheques, pay orders or demand drafts at other centers etc. Investors may refer to Red Herring Prospectus.

INTEREST IN CASE OF DELAY IN ALLOTMENT OR REFUND

ISSUE PROCEDURE FOR ASBA (APPLICATION SUPPORTED BY BLOCKED ACCOUNT) APPLICANTS

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Applicants have to compulsorily apply through the ASBA Process. Our Company and the BRLM are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Applicants are advised to make their independent investigations and to ensure that the ASBA Application Form is correctly filled up, as described in this section.

This section is for the information of investors proposing to subscribe to the Issue through the ASBA process. Our Company and the BRLM are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Applicants are advised to make their independent investigations and to ensure that the ASBA Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on http://www.sebi.gov.in/cms/sebi_data/attachdocs/1480483399603.html. For details on designated branches of SCSB collecting the Application Form, please refer the above-mentioned SEBI link.

ASBA PROCESS

A Resident Individual Investor shall submit his Application through an Application Form, either in physical or electronic mode, to the SCSB with whom the bank account of the ASBA Applicant or bank account utilized by the ASBA Applicant (ASBA Account) is maintained. The SCSB shall block an amount equal to the Application Amount in the bank account specified in the ASBA Application Form, physical or electronic, on the basis of an authorization to this effect given by the account holder at the time of submitting the Application. The Application Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount against the allocated shares to the ASBA Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the ASBA Application, as the case may be.

The ASBA data shall thereafter be uploaded by the SCSB in the electronic IPO system of the Stock Exchange. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the Controlling Branch of the SCSB for unblocking the relevant bank accounts and for transferring the amount allocable to the successful ASBA Applicants to the ASBA Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the LM.

ASBA Applicants are required to submit their Applications, either in physical or electronic mode. In case of application in physical mode, the ASBA Applicant shall submit the ASBA Application Form at the Designated Branch of the SCSB. In case of application in electronic form, the ASBA Applicant shall submit the Application Form either through the internet banking facility available with the SCSB, or such other electronically enabled mechanism for applying and blocking funds in the ASBA account held with SCSB, and accordingly registering such Applications.

Who can apply?

Please note that, in accordance with the SEBI circular no. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors (Except Anchor investors) applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) facility for making payment. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, Individual Investors applying in public Issue may use either Application Supported by Blocked Amount (ASBA) process or UPI payment mechanism by providing UPI ID in the Application Form which is linked from Bank Account of the investor.

Mode of Payment

Upon submission of an Application Form with the SCSB, whether in physical or electronic mode, each ASBA Applicant shall be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount, in the bank account maintained with the SCSB. Application Amount paid in cash, by money order or by postal order or by stock invest, or ASBA Application Form accompanied by cash, money order, postal order or any mode of payment other than blocked amounts in the SCSB bank accounts, shall not be accepted. After verifying that sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Application Amount mentioned in the ASBA Application Form till the Designated Date. On the Designated Date, the SCSBs shall transfer the amounts allocable to the ASBA Applicants from the respective ASBA Account, in terms of the SEBI Regulations, into the Public Issue Account. The balance amount, if any against the said Application in the ASBA Accounts shall then be unblocked by the SCSBs on the basis of the instructions issued in this regard by the Registrar to the Issue. The entire Application Amount, as per the Application Form submitted by the respective ASBA Applicants, would be required to be blocked in the respective ASBA Accounts until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount against allocated shares to the Public Issue Account, or until withdrawal/failure of the Issue or until rejection of the ASBA Application, as the case may be.

Unblocking of ASBA Account

On the basis of instructions from the Registrar to the Issue, the SCSBs shall transfer the requisite amount against each successful ASBA Applicant to the Public Issue Account as per the provisions of section 40(3) of the Companies Act, 2013 and shall unblock excess amount, if any in the ASBA Account. However, the Application Amount may be unblocked in the ASBA Account prior to receipt of intimation from the Registrar to the Issue by the Controlling Branch of the SCSB regarding finalization of the Basis of Allotment in the Issue, in the event of withdrawal/failure of the Issue or rejection of the ASBA Application, as the case may be.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under automatic route in our Company.

The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (DIPP), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws.

Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulations under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

CALLS		
35.	(1) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board. (2) A call may be revoked or postponed at the discretion of the Board. (3) A call may be made payable by installments.	Directors may make calls
36.	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.	Notice of Calls
37.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.	Calls to date from resolution.
38.	Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.	Calls on uniform basis.
39.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, butno member shall be entitled to such extension save as a matter of grace and favour.	Directors may extend time.

40.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding 21% per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.	Calls to carry interest.
41.	If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by installments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.	Sums deemed to be calls.
42.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, if shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, appears entered on the Register of Members as the holder, at or subsequent to the date at which the money is sought to be recovered is alleged to have become due on the share in respect of which such money is sought to be recovered in the Minute Books: and that notice of such call was duly given to the Member or his representatives used in pursuance of these Articles: and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.
