SUMMARY OF OUR INDUSTRY

The AYUSH sector in India has grown significantly in recent years, becoming an important part of the country's economy and job market. AYUSH includes traditional forms of medicine such as Ayurveda, Yoga, Unani, Siddha, and Homeopathy. This sector encompasses hospitals, clinics, wellness centers, research, herbal products, education, and holistic health practices. This growth is driven by greater awareness, the rising demand for natural therapies, and government support for traditional medicine. In India, the AYUSH healthcare system is divided into public and private sectors. The public sector focuses on making AYUSH treatments accessible through government-run centers across the country. Meanwhile, the private sector offers a wide range of services, including specialized treatments, wellness programs, and herbal products. India's strong tradition of ancient healing practices and the large number of trained practitioners make AYUSH treatments popular. The AYUSH market in India has seen remarkable growth, skyrocketing from US\$ 2.85 billion in 2014 to US\$ 24 billion in 2024. This represents nearly a tenfold increase over the past eleven years, showcasing an impressive expansion. This rapid growth is driven by a rising demand, as more people become

health-conscious and show a greater preference for holistic treatments. for 9 seconds. Over the past eleven years, India's AYUSH market has soared from US\$2.85 billion in 2014 to an impressive US\$24 billion in 2024 a nearly tenfold jump. This dramatic growth is driven by a rising public focus on health and a growing preference for natural, holistic treatments. Additionally, the cost-effectiveness of these treatments attracts people from both within India and abroad, making it a go-to destination for holistic healthcare. The affordability and effectiveness of AYUSH therapies have led to increased interest, both domestically and internationally, making India a key player in traditional medicine research and practice.

SECTION III- RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties summarized below, before making an investment in our Equity Shares. The risks described below are relevant to the industry our Company is engaged in. To obtain a complete understanding of our Company, you should read this section in conjunction with the chapters titled “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page numbers 191 and 315, respectively, of this Red Herring Prospectus as well as the other financial and statistical information contained in this Red Herring Prospectus. Prior to making an investment decision, prospective investors should carefully consider all of the information contained in the section titled “Financial Information, as Restated” beginning on page number 313 of this Red Herring Prospectus.

If any one or more of the following risks as well as other risks and uncertainties discussed in the Red Herring Prospectus were to occur, our business, financial condition and results of our operation could suffer material adverse effects, and could cause the trading price of our Equity Shares and the value of investment in the Equity Shares to materially decline which could result in the loss of all or part of investment. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is therefore subject to a legal and regulatory environment that may differ in certain respects from that of other countries.

This Red Herring Prospectus also contains forward looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of

many factors, including the considerations described below and elsewhere in the Red Herring Prospectus. These risks are not the only ones that our Company face. Our business operations could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify financial or other implication of any risks mentioned herein.

Materiality

The Risk factors have been determined based on their materiality, which has been decided based on following factors:

1. Some events may not be material individually but may be material when considered collectively.
2. Some events may have an impact which is qualitative though not quantitative.
3. Some events may not be material at present but may have a material impact in the future.

Classification of Risk Factors

** The lessor of the immovable properties as mentioned in the table fall under Promoters or Promoter Group hence are related party. All the transactions with these related parties are on arm's length price and in compliance with Companies Act and other applicable laws.*

We cannot assure you that we will be able to continue our current lease or facility arrangements on commercially acceptable or favorable terms in the future. These arrangements are subject to factors beyond our control, including changes in market rent, decisions by landlords.

In the event that we are required to vacate or are unable to renew our lease under acceptable terms, we would need to identify, acquire, and transition to alternative premises. This would involve securing suitable office or operational

space, establishing necessary infrastructure (including IT systems, communication networks, utilities, and security), and ensuring minimal disruption to our workforce and ongoing business processes. There can be no assurance that suitable alternative premises will be available in the same geographic area or within our expected budget.

Moreover, transitioning to new premises could be time-consuming and logistically challenging, potentially leading to delays in operations and loss of productivity. Additionally, the increased financial burden from higher lease charges, setup costs, and relocation expenses could negatively affect our overall profitability and strain our cash flows. However, our company has not faced any of such instances in the past while we cannot ensure it may not happen in the future.

2. Our Company has experienced, and may continue to experience, a higher rate of employee attrition in recent periods, including among frontline and technical staff.

We have experienced a higher rate of employee attrition in recent periods among our employees and may continue to face the same in future.

It may result in increased recruitment and training costs, as well as a loss of institutional knowledge and continuity in service delivery. If our Company is unable to attract, train, and retain skilled professionals, particularly in mission-critical roles, our business operations, execution of long-term strategy, and growth prospects may be adversely affected. Furthermore, sustained high employee turnover could negatively impact employee morale, customer service quality, and the achievement of our business objectives.

3. Majority of our state wise revenues from operations for the last 3 years is majorly derived from our Top 2 States. Any adverse developments affecting our operations in this state could have an adverse impact on our revenue and results of operations.

A significant portion of our revenue is derived from operations in North India, particularly from our two flagship hospitals located in Gurugram and Delhi, which have been operational for over two years. These two hospitals contribute a substantial share to our overall business performance and are critical to our current revenue structure. As a result, our financial results are highly dependent on the continued success, growth, and uninterrupted operations of these facilities.

Despite having a presence across eight states in India, our revenue remains geographically concentrated. Specifically, the states of Delhi and Haryana alone contributed 68.44%, 56.39%, 50.93% and 60.86% of our total revenue from operations for the financial period ending September 30, 2025 and financial year ended March 31, 2025, March 31, 2024, and March 31, 2023, respectively. This concentration indicates a significant reliance on a limited number of locations and increases our exposure to regional risks.

Furthermore, if these hospitals fail to achieve the projected levels of patient traffic and revenue contribution, we may continue to bear high fixed operational costs such as staff salaries, maintenance expenses, and lease payments without corresponding income.

Any operational disruption—whether due to technical failures, staffing shortages, disease outbreaks, civil unrest, or regulatory action—could result in reduced patient footfall, service interruptions, or reputational damage, all of which could adversely impact our revenues, profitability, and growth trajectory. However, our company has not faced any of such instances in the past while we can not ensure it may not happen in the future.

4. Our business is working capital intensive, and fluctuations or inadequate financing of our working capital requirements may adversely affect our business, financial condition, and results of operations.

We propose to utilize Rs. 2,290.00 lakhs from the Net Proceeds of the Fresh Issue towards funding our Company's working capital requirements. We have significant working capital requirements, and we fund our working capital requirements in the ordinary course of business from our internal accruals and financing facilities from various banks and financial institutions. Our Company requires additional working capital for funding future growth requirements of our Company and for other corporate purposes.

Basis of estimation of incremental working capital requirement:

The estimates of the working capital requirements for the FY 2026 & FY 2027 have been prepared based on the management estimates of future financial performance. The projection has been prepared using set of assumptions that include assumptions about future events and management's action that are not necessarily expected to occur. On the basis of existing and estimated working capital requirement of our Company on standalone basis, and assumptions for such working capital requirements, the estimated working capital requirements for FY 2026 and FY 2027 and the proposed funding of such working capital requirements as set forth below:

| Sale of service | 2,330.74 | 2,731.97 | 651.95 | 588.18 |
| %age of revenue from operations | 48.20% | 35.69% | 9.71% | 6.59% |

Till FY 2021–22, the Company was primarily engaged in telemedicine services. In FY 2022–23, it started setting up hospitals and clinics and pursued NABH accreditation. During FY 2023–24, the Company also obtained CGHS, ECHS, and insurance empanelment (secured in the second half of FY 2024).

Hospital services revenue grew nearly four times in FY 2024–25, with around 80% of this revenue coming from

ECHS and CGHS empanelment. These payers typically have payment cycles of about 150–180 days, resulting in higher receivable days compared to telemedicine or cash-based sales.

In FY 2022–23, the Company made a strategic decision to expand into healthcare services by establishing hospitals and clinics offering various treatments and therapies, in addition to continuing its telemedicine operations.

This transition phase affected the performance in FY 2023–24, as revenues from product sales declined during the restructuring period. However, the strategy started delivering positive results in FY 2024–25, with total revenue from operations reaching Rs. 7,655.27 lakh, of which healthcare services contributed Rs. 2,731.97 lakh—reflecting over 300% year-on-year growth. Also, during the financial period ended September 30, 2025, the Company recorded total revenue from operations of Rs. 4,835.71 Lakhs out of which healthcare services contributed Rs. 2,330.74 Lakhs, which is approximately 85% of the previous year’s revenue from healthcare services achieved in six months. Going forward, the Company expects a continued strong growth trajectory and, accordingly, requires additional funding to meet its increasing working capital and operational needs.

| S.NO. | Particulars | Remarks |
|----------|-----------------------|---|
| A | Current Assets | |
| 1 | Inventory | <p>The Company is engaged in operating hospitals and clinics, and in the sale of medicines through both its hospital pharmacies and telemedicine platforms. Until FY 2024–25, the majority of service revenue was generated from two well-established hospitals. From December 2024 onwards, the Company has expanded its footprint by setting up four additional hospitals across various locations in India.</p> <p>Originally established as a kidney care hospital, KRM Ayurveda has since evolved into a group of multi-specialty hospitals offering effective and natural treatments for a wide range of health conditions. The Company has also established a global presence through its virtual consultation services (telemedicine).</p> <p>In FY 2023, inventory stood at Rs. 67.41 lakh (3 days). This increased to Rs. 144.76 lakh (8 days) in FY 2024, mainly due to the expansion of services, which required maintaining higher stock levels. From December 2024 onwards, the opening of four new hospitals led to a onetime buildup of initial pharmacy stock at each location. In addition, the existing hospitals increased their patient throughput, necessitating higher working inventory to ensure uninterrupted supply of medicines.</p> <p>Consequently, in FY 2025, inventory rose to Rs. 769.63 lakh (37 days) as the Company’s focus shifted toward healthcare services, requiring adequate stock levels across hospital pharmacies and clinic centers for daily operations and medicine sales. For the period ended September 30, 2025, inventory was Rs. 766.22 lakhs (29 days).</p> <p>Looking ahead, inventory is expected to increase further to Rs. 1,321.32 lakh (45 days) in FY 2026, in line with growing patient volumes and the addition of new specialties. As hospital operations expand, pharmacy inventory will scale with treatment mix and medicine consumption. In FY 2027, inventory is projected to reach around 50 days, reflecting the continued growth in the number of hospitals and higher sales of medicines, while the Company continues to optimize inventory management over time.</p> |

| 2 | Trade Receivables | <p>In FY 2023, the Company's trade receivables stood at Rs. 776.06 lakh (32 days). This reduced to Rs. 553.47 lakh (30 days) in FY 2024, mainly due to lower sales during the business transition period. In FY 2025, trade receivables increased to Rs. 1,212.83 lakh (58 days), corresponding with a significant rise in revenue. For the period ended September 30, 2025, trade receivable almost doubled as compared to the previous financial year to Rs. 2,401.54 Lakhs (90 Days).</p> <p>As described above, the strategic changes in the business with a shift towards the services sector have also contributed to this increase, since the major debtors in the service segment are CGHS & ECHS and private insurance companies under cashless arrangements. While invoices are raised on the same day of treatment, collections are realized over extended periods of 150-180 days in the case of government agencies and 25-45 days in the case of private insurance players.</p> <p>Trade receivables summary:</p> <p>As at 31-Mar-2025: Rs. 12.13 crore As at 31-Mar-2024: Rs. 5.53 crore</p> <p>Break-up of receivables:</p> <p>31-Mar-2025: ECHS Rs. 6.06 crore (49.96%), CGHS Rs. 2.80 crore (23.08%), Insurance Rs. 0.13 crore (1.05%), Others Rs. 3.14 crore (25.92%) — CGHS and ECHS together form 73.0% of total receivables.</p> <p>31-Mar-2024: ECHS Rs. 1.84 crore (33.16%), CGHS Rs. 0.03 crore (0.63%), Others Rs. 3.66 crore (66.21%) — CGHS and ECHS together formed 33.8% of total receivables.</p> <p>Going forward, the Company expects trade receivable days to average around 90 days in FY 2026 (Rs. 2,642.64 lakhs) and further increase to 110 days in FY 2027 (Rs. 4,360.36 lakh).</p> <p>The increase in trade receivable days is largely due to the duration gap between invoice raised and payment received from respective parties, i.e., 150-180 days in case of government agency and 25-45 days in case of private insurance players, therefore, on an average the company expects the trade receivable days to be around 90 – 110 days.</p> |
| 3 | Other Current Assets (includes Short Term Advances) | <p>Other Current Assets mainly comprise advances to suppliers, balances with government authorities, deposits with banks, and other receivables.</p> <p>The balance under this head has increased from Rs. 701.43 lakh in FY 2023 to Rs. 1,305.84 lakh in FY 2024, and further to Rs. 1,727.27 lakh in FY 2025 and Rs. 1,757.22 Lakhs for the period ended September 30, 2025. For the projected years, it is expected to reach Rs. 2,080.00 lakh in FY 2026 and further to Rs. 2,270.00 lakh in FY 2027.</p> <p>The increase in Other Current Assets is primarily due to higher advances made to suppliers in line with growing operations and revenues. These advances help the Company secure better pricing and timely delivery of raw materials. The increase also includes advances</p> |

| | | to employees and other operational receivables. |
| B | Current Liabilities | |
| 1 | Trade Payables | <p>The trade payable increased in FY 2024 as compared to FY 2023 from Rs. 512.11 lakhs to Rs. 387.04 lakhs due to fall in operation for that period.</p> <p>Further, there is an increase in Trade Payables days to 46 days in FY 2025, amounting to Rs. 533.06 Lakhs in comparison to FY 2024, the increase was due to the fact that there was an increase in the operations the raw material procured also saw a significant rise pertaining to which the trade payable saw a similar rise. For the period ended September 30, 2025, trade payable stayed at similar level of Rs. 528.94 Lakhs.</p> <p>For FY 2026 and FY27 standing at Rs.491.41 lakhs and Rs. 643.95 lakhs respectively as the company is planning for expansion through establishment of hospitals and increase in number of SKUs for which even higher procurement of raw material would be needed.</p> |
| 2 | Other Current Liabilities | <p>Other Current Liabilities, which mainly comprise advances from customers, salary and incentive payables, statutory dues, and expenses payables, were Rs. 348.50 lakhs in FY 2023, Rs. 443.00 lakhs in FY 2024, Rs. 392.64 lakhs in FY 2025 and Rs. 852.91 Lakhs for the period ended September 30, 2025.</p> <p>These are expected to stabilize at Rs. 585.79 lakhs in FY 2026 in accordance with previous trends and then increase to Rs. 884.58 lakh in FY2027 in coherence with growth of operations.</p> |
| 3 | Short Term Provision | <p>Short Term Provision includes provision for gratuity, Provision for Current Tax, Statutory Dues and provision for expenses.</p> <p>During the last three financial years and stub period the amount is in the range of Rs. 25.65 lakhs to Rs. 239.81 Lakhs from FY 2023 to September 30, 2025. For the projected period, short term provision stands at Rs. 164.02 Lakhs & Rs. 262.10 Lakhs for FY 2026 & FY 2027 respectively.</p> |
| C | Short Term Borrowing | <p>The company anticipates meeting its working capital requirements primarily through short-term borrowing. It aims to maintain short-term borrowings at levels similar to those recorded during the audited period. The amount for short term borrowings stands at Rs. 69.91 Lakhs & Rs. 87.33 Lakhs in FY 2023 & FY 2024. The same increases to Rs. 1,065.72 Lakhs in FY 2025 and during the period ended September 30, 2025 it was Rs. 845.63 lakhs. For the estimated period FY 2026 the amount should be Rs. 1,275.00 Lakhs & for the Projected Period FY 2027 it would be the same as FY26 at Rs. 1,275.00 lakhs</p> |

5. We are dependent on third-party transportation service providers for delivery of our raw materials and finished products. Any disruption in such transportation arrangements or increase in transportation costs may materially and adversely affect our business, financial condition, results of operations, and cash flows

Our Company does not entirely rely on its own transportation facilities and is substantially dependent on third-party transportation and logistics service providers for the delivery of both raw materials and finished products. Consequently, our business operations are subject to various risks associated with such dependence. Any disruption, delay, or inefficiency in transportation arrangements could have a material adverse effect on our operations. In the event of transportation restrictions or interruptions, such as strikes, lockouts, road blockages, natural disasters, adverse weather conditions, fuel shortages, or regulatory restrictions, the timely delivery of

products to our customers or the receipt of raw materials from suppliers may be adversely affected. Further, goods in transit may be lost or damaged due to accidents, theft, mishandling, or other unforeseen events, which may result in financial loss, production delays, and potential damage to our customer and supplier relationships. Failure to ensure timely delivery of our products may result in our inability to meet customer requirements in a timely manner or at all, which may lead to loss of sales, erosion of customer confidence, and an opportunity for our competitors to capture our market share.

In addition, any significant increase in fuel prices may result in higher freight and transportation charges levied by our logistics partners. Any significant disruption in the transportation and logistics network may materially and adversely affect our business, financial condition, results of operations, and cash flows. However, our company has not faced any disruption in the transportation in the past while we can not ensure it may not happen in the future.

6. Conflicts of interest may arise out of common business undertaken by our Company and our promoter

One of our promoters runs a proprietorship firm 'Karma Ayurveda' to carry out business similar to that of our Company. As a result, conflicts of interests may arise in allocating business opportunities amongst our Company and to the firm in circumstances where our respective interests diverge. In cases of conflict, our Promoters may favour that firm in which our Promoter has interest.

There can be no assurance that our Promoter or our Group Entities or members of the Promoter Group will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition. Further, our company have entered into a non-compete agreement dated August 25, 2025, to mitigate such risks

7. The provision of healthcare services involves high costs such as employee benefit expenses, rent and facility fees, retainers and consultants fee and purchase of equipment and consumables, which we may fail to pass on to patients, which could adversely affect our business, results of operations and financial condition.

We operate in an industry which involves high costs including costs for employee benefit expenses, rent and facility fees, and retainers and consultants fee and purchase of equipment and consumables. The purchase of specialized equipment that we require for our business may involve incurring substantial costs.

If we are unable to pass on increases in our costs to patients, our profitability may be adversely affected. Such costs may not depend on the revenue we generate, and we cannot assure you that our costs will decrease in the future. Further, if our costs increase in the future, or if we are unable to grow our revenue in line with our costs, our business, results of operations and financial condition may be adversely affected.

8. A significant portion of our revenue is derived from patients who avail our hospital services through insurance providers. Any adverse change in the relationship with such insurers, delay in settlement of claims, or reduction in reimbursement rates may materially and adversely affect our business, financial condition, results of operations, and cash flows.

A significant number of patients availing our hospital services do so through third-party insurance providers, either under cashless arrangements or through reimbursement mechanisms. Consequently, our Company is substantially dependent on such third-party payers, including private insurance companies, government health schemes, and other corporate healthcare programs, for the realization of a material portion of our revenue.

Insurance companies and other payers often seek to revise tariff structures, impose stricter claim validation procedures, and delay settlements as part of their cost-containment measures. In addition, there can be no assurance that the terms and conditions governing our empanelment with insurance providers will remain favorable or unchanged in the future. If our Company is unable to successfully renegotiate or renew such empanelment arrangements on commercially viable terms, it may lead to a reduction in the number of insured patients availing our services. Moreover, any adverse regulatory changes affecting the health insurance sector, new reimbursement guidelines, or modifications in cashless claim processes, may further impact the realization of revenue from insured patients. Such developments could materially and adversely affect our business,

financial condition, results of operations, and cash flows. However, our company has not faced any delay in settlement of claims, or reduction in reimbursement rates in the past while we can not ensure it may not happen in the future.

9. We intend to use a portion of the Net Proceeds to prepay / repay in full or in part, of certain borrowings availed by our Company

One of the objects of the Offer is the pre-payment / repayment of certain borrowings, in full or in part, availed by our Company. Our Company intends to utilise an amount of up to Rs. 1250 Lakhs from the Net Proceeds. For details of the outstanding loans proposed for repayment or prepayment, in full or in part from the Net Proceeds, without any obligation to any particular bank or financial institution, see “Objects of the Issue – Details of the Objects – Repayment/pre-payment, in full or in part, of certain borrowings availed by our Company” beginning on page no. 110 of this Red Herring Prospectus. The amount utilized to prepay / repay these loans will, therefore, not be available for investment in our business and will not result in any immediate increase in the value of your investment in our Equity Shares.

10. Declining Reimbursement Rates from insurance providers may affect our financial position.

A significant number of patients availing our hospital services do so through insurance providers, either via cashless arrangements or reimbursement modes. This reliance on third-party payers exposes our Company to ongoing negotiations and pressures from such payers to reduce healthcare costs. These dynamics have resulted, and may continue to result, in lower reimbursement rates for our services, which could adversely impact our overall revenue and profitability. If our Company is unable to mitigate these risks or successfully adapt to these changes, our financial condition and results of operations could be materially and adversely affected.

11. We have had negative cash flows from operation and investing activities in the past and may continue to have negative cash flows in the future. Our company have generated negative cashflow from operation and investing activities in current and previous years. The table given below set forth our cash flows for the last three (3) Financial Years:

(Amount in Lakhs)

| Particulars | September 30, 2025 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
|-----------------------------------|--------------------|----------------|----------------|----------------|
| Cash flow from Operating activity | 304.16 | (2.86) | (89.46) | 350.92 |
| Cash flow from investing activity | (27.30) | (433.51) | (12.61) | (2,293.84) |
| Cashflow from financing activity | (371.80) | 590.08 | 129.38 | 1,947.45 |

The Company has reported negative cash flows from operating activities primarily due to higher cash being tied up in inventories and an increase in trade receivables during FY 2025. In FY 2024, negative operating cash flows were mainly on account of an increase in other current assets and a decrease in trade payables. Further, negative cash flows from investing activities in both FY 2024 and FY 2025 were primarily attributable to the purchase of property, plant and equipment. In the financial period ended September 30, 2025 cashflow from financing activities was negative due to repayment of long-term and short-term borrowings. Any such negative cash flows in the future could adversely affect our business, financial condition and results of operations. For more details, kindly refer to the page no. 313 in the chapter title “Financial Information as restated” of this Red Herring Prospectus.

12. The risks associated with delays in obtaining, or failure to obtain, approvals and permits for the capital expenditure for construction and development of telemedicine operational facilities.

We are proposing for construction and development of telemedicine operational facilities at Plot No. 36, Block-

A, G.T. Karnal Road, Industrial Area, Delhi, for our planned expansion of telemedicine operational facilities. The construction and operation of this facility are subject to the receipt of various approvals, licenses, and permits from governmental and regulatory authorities.

There can be no assurance that approvals will be granted in a timely manner, or at all. Any delay in obtaining, or a failure to obtain, these requisite approvals could significantly postpone the commencement of construction. Furthermore, the authorities may grant such approvals with onerous conditions or require modifications to our plans, which could lead to increased costs and further delays in our project timeline.

13. The manufacture, sale, and use of Ayurvedic medicine products are subject to various risks, including contamination, adulteration, regulatory compliance, and potential adverse events. These risks may impact the Company's reputation, financial performance, and ability to serve clients effectively

Our business relies significantly on Ayurvedic medicines, which face evolving and complex regulatory requirements domestically and internationally. Ayurvedic products may contain heavy metals, pesticide residues, microbial contamination, or undeclared substances, posing risks of adverse health effects, regulatory actions, recalls, and litigation. Regulatory authorities in India and export markets such as the US, Canada, and Australia have issued safety alerts and import restrictions related to these concerns.

Changes in laws or stricter regulations may increase compliance costs, delay product approvals, restrict product lines, or impact exports. Limited scientific evidence supporting efficacy and safety claims could also lead to regulatory scrutiny or require withdrawal of claims or products. Public and media focus on safety issues and adverse events related to Ayurvedic products could reduce consumer confidence and demand, regardless of our compliance efforts. These factors may materially impact our business, reputation, financial condition, and growth prospects.

14. We have experienced a dip in our revenue from operations in the past and may experience further growth downfall or unable to manage an efficient growth rate.

We have experienced a decrease in our revenue from operations in the past. The tabular representation of the same is follows:

| (Amount in lakhs) | | | | | | | |
|-------------------------|--------------------|-----------------------|----------------|-----------------------|----------------|-----------------------|----------------|
| Particulars | September 30, 2025 | % Increase / Decrease | March 31, 2025 | % Increase / Decrease | March 31, 2024 | % Increase / Decrease | March 31, 2023 |
| Revenue from Operations | 4,835.71 | - | 7,655.27 | 13.99% | 6,715.57 | (24.79%) | 8,928.71 |

The success of our business will largely depend on our ability to effectively implement our business and growth strategy, which will in turn increase our revenue from operations. In FY 2023–24, the company made a strategic shift to strengthen its hospital services portfolio. This involved a conscious re- allocation of human and financial resources towards the segment, resulting in a temporary dip in both revenue and profitability for the year.

However, this strategic investment has already started yielding results — creating a stronger, more balanced revenue mix that is less dependent on cyclical streams. Further, there can be no assurance that we will not experience similar decline in revenue trend in the future. If we are unable to implement our business and growth strategy and gain more business, this may have an adverse effect on our business, financial condition and results of operations.

15. There is outstanding litigation pending against our Promoters which, if determined adversely, could affect our business, results of operations and financial condition.

There are outstanding legal proceedings against our directors and promoters, which are pending at various levels of adjudication before various courts, tribunals and other authorities. The summary of outstanding matters set out

below includes details of criminal proceedings, tax proceedings, statutory and regulatory action and other material pending litigation involving our Promoters, and Directors. For further details please refer to the Outstanding Litigation and Material Developments section on page no. 332 of this Red Herring Prospectus.

Cases against our Company, our promoter, directors/KMP, subsidiary and group companies is as follows:

* to the extent quantifiable.

Our financial conditions will not be substantially affected, in case the litigations are not decided in favor of our promoter, directors and our group entities. Furthermore, as of March 31, 2025, there are outstanding dues to MSME creditors.

There is no guarantee that these payments will be settled within the stipulated timelines, and the possibility of litigation cannot be ruled out. For further details of legal proceedings involving our Company, please see section the titled “*Outstanding Litigations and Material Developments*” beginning on page 332 of this Red Herring Prospectus.

16. Our Company depend on brand recognition and reputation and our inability to maintain or enhance brand image that we operate could have a material adverse effect on our business, financial condition and results of operations.

Our company has developed its own brand called "KRM Ayurveda". We believe that the brand's recognition and reputation is important particularly in D2C segment where consumers significantly contribute to business's growth and success. Therefore, it is crucial for us to maintain and improve the brand's recognition and reputation to remain competitive.

There are several factors, some beyond our control, that are important for maintaining and enhancing our brand. These factors include our ability to keep our products and services popular, attractive, and of high-quality aiming

customer satisfaction. Increasing brand awareness through investments in branding initiatives such as social media and marketing activities will help us in maintaining the same.

Our customers expect a high level of quality from our products and services, and failing to meet these expectations could negatively impact on our brand and reputation. As we expand into new geographic markets within India and face increasing competition, maintaining and enhancing our brand image may become more important, challenging and costly.

If we are unable to uphold our reputation, enhance brand recognition, or increase positive awareness of our products and services, it could significantly harm our business, financial position, and results of operations.

17. Our Company relies on a limited number of suppliers. The loss of any of these suppliers may disrupt our business operations and adversely affect our financial stability.

In the ordinary course of our operations, our Company has historically relied on a limited number of suppliers. The top ten suppliers contributed substantially to our total purchases during the financial years ended September 30, 2025, March 31, 2025, March 31, 2024, and March 31, 2023. This concentration exposes us to operational risks in the event that any of these suppliers terminate or reduce their supply volumes.

(Amount in Lakhs)

| Particulars | For the period ended September 30, 2025 | For the Year ended on March 31, 2025 | For the Year ended on March 31, 2024 | For the Year ended on March 31, 2023 |
|---------------------------------------|---|--------------------------------------|--------------------------------------|--------------------------------------|
| Top 1 Supplier | 221.35 | 383.23 | 251.62 | 380.02 |
| % of Purchase | 26.28% | 24.33% | 23.27% | 19.81% |
| Top 5 Suppliers | 638.17 | 1050.11 | 643.71 | 1084.41 |
| % of Purchase | 75.76% | 66.67% | 59.53% | 56.54% |
| Top 10 Suppliers | 754.14 | 1,344.12 | 796.22 | 1,467.20 |
| % of Purchase | 89.53% | 85.34% | 73.64% | 76.50% |
| Purchases made during the year | 842.36 | 1574.97 | 1081.32 | 1,917.99 |

This supplier concentration exposes our Company to risks related to the continuity, quality, and pricing of supply. Any disruption, delay, or deterioration in the quality of products or services provided by these suppliers, or any adverse changes in the commercial terms offered by them, could materially affect our operational efficiency and profitability. Dependence on a concentrated supplier base further limits our negotiating power and increases vulnerability to supply chain interruptions arising from factors such as financial distress of the supplier, regulatory actions, natural disasters, or geopolitical events. Consequently, any significant disruption in our supply chain could have a material adverse effect on our business, financial condition and results of operations. However, our company has not faced any disruption in supply in the past while we can not ensure it may not happen in the future.

18. Company's operations and decisions are subject to lender's strict covenants and conditions.

Our Company's operations and strategic decisions are subject to certain restrictive covenants and conditions imposed by our lenders under financing agreements. These covenants may include, restrictions on incurring additional indebtedness, creating encumbrances, undertaking new business activities, making certain investments, effecting corporate restructurings, declaring dividends, or carrying out significant expansion plans without prior lender approval. Further, these covenants may restrict us from taking certain steps like raising more loans, creating security on our assets, entering into mergers, making large investments, or paying dividends, unless we first take the lender's approval. If we fail to meet these conditions, the lenders may take action under the loan agreements, which could affect our business and financial results. Any breach of these covenants or non-compliance with such conditions may result in an event of default, which could adversely impact our financial condition, business operations, and growth prospects. However, the Company has obtained the necessary consent from the lenders

for the IPO.

- 19. Our business operations are subject to various risks including operational complexities, dependence on quality raw materials, limited brand awareness in certain regions, increasing competition, evolving regulatory requirements, economic fluctuations, and potential misinformation regarding Ayurveda, any of which may materially and adversely affect our business, financial condition, results of operations, and cash flows.**

Our business also depends significantly on the continued availability and consistent quality of herbs and other raw materials used in the preparation of Ayurvedic medicines and wellness products. Any shortage, deterioration in quality, of such raw materials could disrupt our production processes, increase operational costs, and adversely affect our profitability. Further, establishing brand recognition and consumer trust in such regions requires significant time and investment. Failure to effectively promote our brand or to differentiate our services from competitors may result in slower growth or reduced market penetration in these areas.

We also face competition from both modern healthcare providers and other Ayurvedic or traditional medicine chains. If we are unable to compete effectively or maintain our service differentiation, our revenues and operating margins could be adversely affected. In addition, any changes in applicable laws or delays in obtaining or renewing necessary approvals, licenses, or registrations could adversely impact our business operations.

Furthermore, the Ayurveda sector as a whole faces challenges arising from misinformation or misconceptions regarding its efficacy and scientific basis. The spread of inaccurate information through media or online platforms could negatively influence consumer perception, reduce trust in Ayurvedic treatments, and impact the demand for our products and services. Any of the foregoing factors, individually or collectively, may materially and adversely affect our business operations, financial condition, results of operations, cash flows, and reputation.

- 20. The Merchant Banker of the Company lacks prior experience in managing IPOs, which may pose risks related to disclosures, execution efficiency, and regulatory compliance. Any shortcomings in these areas could affect the timing and success of the Issue**

Merchant Banker of the Issuer Company does not have a prior track record of managing initial public offerings ("IPOs"). There can be no assurance that the Merchant Banker appointed for this Issue possesses any prior experience in handling initial public offerings. Accordingly, the absence of any demonstrable track record may increase the risks relating to the accuracy and adequacy of disclosures, efficient execution of the IPO process, and regulatory compliance. Any shortcomings in these areas could adversely affect the timing, marketing, and overall success of this Issue. Investors should rely on their own examination of our Company, the Offer, and the credentials of the intermediaries associated with this Issue prior to making an investment decision.

- 21. Our marketing and advertising activities may not be successful in increasing the popularity of our Company among domestic and international clients. If our marketing or advertising initiatives are not effective, this may affect the popularity of our Company.**

Since our company operates in D2C model and in order to reach out to maximum consumers marketing and advertising vital part of our strategy. Marketing is a cornerstone for our company to create awareness, attract and retain end users, differentiate themselves in a competitive landscape, and ensure that we aware of the changing needs of the consumers. Effective marketing and advertising not only lead to business growth but also contributes to the development of brand.

Marketing and advertising occupy approx. 25% of our total expenditure. The details of our marketing and advertising expenses with respect to total expenditure on yearly basis are mentioned herein below:

Our Company undertakes various marketing and advertising initiatives whereby both management and marketing team collaborate to develop initiatives with the purpose of increasing the visibility of our company and its offerings, details of which are mentioned under the heading Strategies on page 191 in chapter “Our Business” of this Red Herring Prospectus.

In FY 2023–24, the company made a strategic shift to strengthen its hospital services portfolio. This involved a conscious re- allocation of human and financial resources towards the segment, resulting in a temporary decrease in advertising. However, company is committed to undertake various marketing and advertisements initiatives to increase brand visibility. In case of any unsuccessful marketing and advertising initiative, we may fail to attract and engage new consumers which could adversely affect our business, revenue, financial condition and loss of opportunity cost of expenses incurred.

22. We are exposed to consumer complaints and potential litigation due to the nature of our products

Since we are operating in the D2C (Direct to consumer) segment we are always vulnerable to consumer complaints. Claims and complaints in the normal course of business can arise out of dissatisfaction from the product or damaged products received or any aftereffects they might encounter after its use or having results different from what was advertised, or they were anticipating. These complaints, if not resolved to the satisfaction of the consumer, can result in potential litigations which if proven against the company can result in fine and penalties impacting our cash flows. Further, this could tarnish the image of the company as well as of the products which might result in a decrease in sale of specific and other products also in our portfolio. The details of the complaints received for the last three financial years are mentioned herein below:

23. Our limited operating history makes it difficult to evaluate our business and prospects and may increase the risks associated with your investment.

We were incorporated in the year 2019 and consequently have a limited operating history (upto 6 years only) upon which our business and future prospects may be evaluated. Thus, we have very limited operating history from which one can evaluate our business, future prospects and viability. For further details relating to our history of our Company, please refer to the chapters titled “Our history and certain other Corporate matters”, “Our Business” and “Financial Information” beginning on pages 273, 191 and 313 respectively of the Red Herring Prospectus.

24. Since we are catering to end customers, there might be chances that customers may feel unsatisfactory on the receipt or on usage of products. Further, in case of any delay in delivery of the product can result into losing out existing or potential consumers in the market.

As we are in the D2C segment, there are possibilities of consumers not getting satisfied with the product or our product might not meet the level of expectations the consumers had. This unsatisfactory experience with the respective product might cost us existing as well as potential consumers. Although there can be external factors due to which the consumer might not be getting the desired result, this will cost us our revenue from operations and profitability, cashflow, brand image and reputation of our company. The details of the percentage of the products returned by the customers for the last three years and stub period:

(Amount in Lakhs)

| S. No. | Particulars | September 30, 2025 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
|--------|-------------|--------------------|----------------|----------------|----------------|
| 1 | Sales | 4,835.71 | 7,655.27 | 6,715.57 | 8,928.71 |

| | | | | | |
|---|----------------|--------------|--------------|--------------|--------------|
| 2 | Return | 50.30 | 101.67 | 271.30 | 326.68 |
| | Return% | 1.04% | 1.33% | 4.04% | 3.66% |

Further, if we are unable to deliver the products through our delivery channel or other external modes on timely basis, the credibility of our company will be affected. This can also lead to consumers switching to our competitor's product, thereby affecting sales and profitability.

25. The illegal distribution and sale by third parties of counterfeit versions of our products could have a negative impact on our reputation and business.

Third parties may illegally distribute and sell counterfeit versions of our products, which may be inferior or pose safety risks. While we devote resources to the registration and protection of our intellectual property, by entering manufacturing agreements with suppliers and developing relationships with local customs authorities, we may be unable to prevent the imitation and counterfeiting of our products or the infringement of our trademarks.

Consumers could confuse our products with these counterfeit products, which could cause them to refrain from purchasing our brands in the future and in turn could have a material adverse effect on our business, financial condition and results of operations. The presence of counterfeit versions of our products in the market could also dilute the value of our brand or otherwise have a negative impact on our reputation. However, our company has not faced any of such instances in the past while we can not ensure it may not happen in the future.

26. Operating a network of clinics and hospitals across diverse regions poses challenges in maintaining consistent service and care standards. Variations in expertise, infrastructure, and regulations may lead to inconsistencies affecting patient trust and reputation.

Our Company operates a network of clinics and hospitals located in diverse geographic regions. The maintenance of uniform standards of service delivery, product handling, treatment protocols, and patient care across these locations entails significant operational challenges. Factors such as variations in practitioner expertise, infrastructure adequacy, staff training, local regulatory requirements, and operating conditions. Any deviation from established protocols or lapses in adherence to relevant regulatory guidelines at any location may lead to inconsistency in patient outcomes and product or service quality, which could adversely impact patient trust, our reputation, and our financial performance. These risks, if materialized, could adversely affect our business, financial condition, and prospects. Our company has not faced any of such instances in the past while we can not ensure it may not happen in the future.

27. Our Ayurveda product processing relies on the timely and consistent supply of quality herbs and natural raw materials from third-party suppliers. Factors like seasonal changes or supply disruptions could affect product quality and availability, impacting our operations and financial performance.

Our Company's processing of Ayurveda products depends significantly on the timely and adequate procurement of various herbs and natural raw materials, which are sourced from third-party suppliers. The availability and consistent quality of these ingredients are influenced by factors such as seasonal changes, environmental regulations and agricultural practices. Any disruption in supply, inconsistency in potency, adulteration, contamination, or failure by suppliers to meet prescribed quality standards may adversely impact the safety, efficacy, and uniformity of our products. Any material impact in the availability or quality of herbs and raw materials may adversely affect our business operations, financial performance, and future prospects. Our company has not faced any of such constraint in the past while we can not ensure it may not happen in the future.

28. Our Company is expanding its network into new regions with limited brand recognition which may require higher marketing efforts and could result in slower initial growth.

Our Company is in the process of expanding its network of clinics and hospitals into new geographic regions where our brand currently has limited recognition. The success of our operations in these markets is dependent on our ability to effectively establish and promote brand visibility, build consumer trust, and compete with established

players. Due to low initial brand awareness, patient acquisition and product acceptance may be slower than anticipated, which may require significant marketing and promotional expenditures

29. The healthcare and Ayurveda sectors are highly competitive, with many established players possessing strong brands, broad networks, and greater resources. This competition may impact our ability to attract and retain patients, pressure pricing, and require continuous investment

The healthcare industry, including the Ayurveda segment, is characterized by intense competition from a wide range of participants, including modern healthcare providers and numerous Ayurveda chains. Many competitors benefit from strong brand recognition, extensive distribution networks, diversified product portfolios, and significant financial and technological resources. This competitive environment may limit our ability to attract and retain patients and customers, place pressure on pricing, and necessitate continuous investments in marketing, innovation, and service quality. Failure to effectively compete and differentiate our offerings may adversely affect our market share, profitability, and overall business prospects. Moreover, rapid changes in consumer preferences and regulatory landscapes further intensify the competitive challenges we face. Any adverse impact from these factors could materially and adversely affect our business, financial condition, and future growth.

30. Our operations are governed by diverse and evolving central and state regulations in India, making uniform compliance across locations challenging. Any failure to meet regulatory requirements could lead to penalties, legal liabilities, or reputational harm, potentially affecting our business and growth prospects.

Our operations, including production and healthcare services, are subject to evolving regulatory frameworks under various central and state laws in India. Compliance requirements—including licensing, quality standards, safety protocols, labeling, advertising etc. may vary significantly between states, creating complexities in maintaining uniform regulatory adherence across our clinics, hospitals, and manufacturing facility. Failure to comply with applicable regulatory requirements in any jurisdiction may expose us to penalties, legal liabilities, injunctions, or reputational harm. The multiplicity and variability of regulatory environments across states thus pose operational challenges and risks that could materially and adversely affect our business, financial condition, and growth prospects.

31. Any misconduct, negligence, or errors by our employees or agents could expose us to operational, legal, and reputational risks, which may materially and adversely affect our business, financial condition, results of operations, and goodwill.

The success of our Company largely depends on the integrity, diligence, and ethical conduct of our employees, officers, and agents. Despite the implementation of internal controls, compliance frameworks, and monitoring mechanisms, there can be no assurance that all instances of misconduct or errors by our employees or agents will be prevented or detected in a timely manner, or at all.

Furthermore, our employees may commit inadvertent errors, omissions, or acts of negligence in the course of their duties, which could expose us to legal proceedings, third-party claims, and potential liabilities. Any such misconduct, negligence, or violation of internal policies could subject our Company to significant business, operational, financial, and reputational risks. However, we have not faced such instance in the past years of operations, however, we can not ensure that such instance may not happen in future

32. Our Company may be subject to acquisition or actions relating to infringement or misappropriating intellectual property rights or confidential know-how of third parties.

As on the date of this Red Herring Prospectus, we own a number of intellectual property rights, the status of some of which is “Registered”. Our company has recently applied for the registration of our logo, which is currently objected. If we are unable to secure the trademark registration in the future, or if we lose the trademark, it could negatively impact our business operations and harm our brand image and recognition within the industry. details of which are given on page no. 191 in the chapter “Our Business” of this Red Herring Prospectus.

Any claims by third parties that our Company is infringing or otherwise violating their proprietary technology or other intellectual property rights could harm our business. A considerable number of businesses in our industry have applied for a number of patents and have also taken measures to protect their copyrights, trade secrets and other intellectual property rights.

As we face increasing competition, the possibility of receiving a larger number of intellectual properties claims against us grows. Additionally, the intellectual property portfolios of our competitors may be wider than ours, and this difference may increase the risk that our competitors may initiate action against us for intellectual property infringement and may limit our ability to counterclaim for such infringement. In such a situation, we may also have to additionally incur litigations expenses. In addition, in the event we recruit personnel from our competitors; we may be subject to allegations that such personnel have divulged proprietary or other confidential information to us.

Any sort of such action initiated against us, irrespective of such action having merit could require significant time and attention from our senior management or compel us to execute unfavourable royalty or license agreements which may not be on commercially reasonable terms, if at all or require us to indemnify our clients or third-party service providers. Any of the foregoing could adversely affect our business, financial condition and results of operations. However, our company has not faced any of such instance in the past, while we cannot ensure it may not happen in future.

33. We have in past entered into related party transactions and we may continue to do so in the future.

Our Company has entered into several related party transactions with our Promoters, individuals and entities forming a part of our promoter group relating to our operations. We have in the past also entered into transactions with other related parties. However, we confirm that the related party transactions entered into with Promoters/ Directors/ Promoter Group is in compliance with Section 188 of Companies Act, 2013 and other applicable laws and we confirm that the future transactions shall be in compliance with Companies Act, SEBI Regulation etc.

For further details, please refer to the chapter titled “Financial Information – Restated Financial Information – “Note 28” Restated Statement of Related Party Transactions”. While we believe that all our related party transactions have been conducted on an arm’s length basis as per the Companies Act, 2013, we cannot assure you that we may not have achieved more favourable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

Moreover, any false rumors or allegations by any person regarding our product or its intended use can result into negative publicity and loss of confidence of consumers which in turn will result into loss of market share, brand value, negative financial impact. Further in addressing the claims and litigations resources such as time, effort and money will be utilized, which will affect the financial resources as well as the reputation of the company. No such complaints are pending as on the date of this Draft Red Herring Prospectus. We do not guarantee that we won’t be facing any such complaints or litigations in future but if liabilities arise this could have material adverse impact on the financials, business and operations.

34. Any manufacturing or quality control problems may damage our reputation for high quality products and expose us to litigation or other liabilities, which could adversely affect our financial results.

As we provide ayurvedic telemedicine we are subject to strict regulatory oversight and must comply with Good Manufacturing Practices We are accountable for product quality throughout its shelf life. Any post-market issues—such as contamination, regulatory re-review, side effects, or product recalls—can reduce demand and damage our reputation. If our products fail to meet required standards, we may incur costs for replacement and testing. Manufacturing or quality issues can lead to negative publicity, legal claims, and loss of customer trust, impacting our business and financial health. Further, we do not carry product liability insurance. Although, we have not faced such instance in the past years of operations, however, we cannot ensure that such instance may not happen in future.

35. Our company’s Board of Directors does have any experience of listed companies.

Our company’s Board of Directors consists of both executive and non-executive Directors. Our directors, except Independent Directors, do not have any experience of listed companies. This inexperience gives rise to the risks including but not limited to compliance risk making us more prone to fines and penalties or notices from regulatory authorities which in turn give rise to reputational risk and governance risk. Furthermore, directors may not provide

effective guidance or give erroneous disclosures or intimation as required.

To lessen the effects of above said risk and considering the importance of board diversity and background of directors to make quality contributions, one of our Independent Directors are currently holding a position in a listing company, thus bringing on board his experience of working of listed entities, which will assist the executive directors in facing the challenges arising from their inexperience.

36. Majority of the employees of the company have not been registered in the EPFO Portal and ESI Portal.

As on December 31, 2025, the Company had 443 employees on its payroll, out of which only 85 employees are registered with Employees' Provident Funds and Miscellaneous Provisions Act, 1952 ("Act") and 90 employees are registered with Employees State Insurance Act, 1948. However, any future amendments to the Act, the Scheme, or related regulations that expand the eligibility criteria or alter the requirements may result in a higher number of employees becoming mandatorily registrable with the EPFO and ESI. Such changes could increase the Company's compliance requirements and contribution obligations, which may adversely affect its financial position.

37. Certain offices, clinics and hospitals of our Company operate from premises taken on lease basis, and any non-renewal, termination or adverse modification of such arrangements may materially and adversely affect our operations, financial condition and results of operations

Certain offices, clinics and hospitals of our Company operate from premises taken on lease basis, and any non-renewal, termination or adverse modification of such arrangements may materially and adversely affect our operations, financial condition and results of operations. A significant portion of our clinical infrastructure is located on rented properties, which are typically subject to fixed terms including other conditions that may increase our occupancy costs or restrict our ability to use, renovate or expand such premises as per business requirements. There can be no assurance that such agreements will be renewed on similar terms, or at all, or that we will be able to secure alternative suitable premises in a timely and cost-effective manner in the same micro-markets, which may lead to disruption of services, loss of patients and reputational impact. Further, any disputes with landlords, non-compliance with lease covenants or changes in applicable local laws could also have an adverse effect on our business and prospects. However, Company has not faced any such instances previously.

38. Our Company may incur penalties or liabilities for non-compliances with certain provisions of the GST Act, Income Tax and other applicable laws in the previous years.

Our Company have incurred penalties or liabilities for non-compliance with certain provisions including lapsed/ made delay in certain filings and/or erroneous filing/ non-filing of e-forms under applicable acts to it in the past years. However, we have paid the due amount along with interest to comply with the provisions of the law. Such non-compliances/delay Compliances/ erroneous filing/ Non-Filing/ Non-Registration may incur the penalties or liabilities which may affect the results of operations and financial conditions of the company in near future. The details of late filings in past years are given below:

To ensure that company does not faces any similar situations of delay, the company has taken following steps to address such delays:

- Training and development sessions for the staff.
- Increase the number of people to ensure timely compliance
- Prior planning and preparing compliance calendar.
- Engagement with tax consultants and legal advisors, wherever required

Although the company has implemented such measures, we cannot not assure you that we will not face any such similar situations in near future. Further, there can be situations where such delays are beyond the control of the company. In that case, even the mitigation steps mentioned above will not be effective and company might have to face any notice or legal action and leading to fine and penalties.

39. We are highly dependent on doctors, nurses and other healthcare professionals and if we are unable to attract, retain or train such professionals, our business, results of operations and financial condition may be adversely affected.

Our performance and growth strategy depends substantially on our ability to attract and retain experienced ayurvedic doctors, nurses and other healthcare professionals. The demand for skilled doctors is high and the availability of specialist doctors in India is limited due to factors including the significant training period involved, making it difficult to hire and retain senior doctors.

We compete with other healthcare providers, including other super-specialty and single-specialty hospital chains, to attract and retain doctors from a limited pool of candidates. While we have not faced instances in the last three Fiscals where we were not able to hire senior doctors, we cannot assure you that such instances will not occur in the future as we grow our hospital network.

40. Inadequate insurance coverage, delay in settlement of insurance claims, or non-renewal of insurance policies may materially and adversely affect our business, financial condition, results of operations, and cash flows

We have obtained a number of insurance policies in connection with our operations, for further information, please refer to chapter titled “Our Business – Insurance” on page 191.

Our Company has the insurance coverage currently maintained by us is reasonably adequate to cover the general risks associated with our operations, there can be no assurance that such insurance coverage will be sufficient to protect us against all potential losses or liabilities that may arise in the course of our business. Our insurance

policies are subject to limitations, deductibles, exclusions, and conditions, and may not cover all potential risks or losses that we may face.

Further, certain losses, particularly those arising from unforeseen events, negligence, acts of third parties, or specific types of business interruptions, may not be covered under the policies currently held by us. In the event of a major incident, our insurance coverage may prove inadequate to compensate for the actual losses incurred.

Additionally, there can be no assurance that any claim made by our Company under existing insurance policies will be honoured, either in full, in part, or in a timely manner. Insurance providers may reject or contest claims on various grounds, including alleged non-compliance with policy terms or exclusions applicable to the event. Any delay or denial in the settlement of valid claims could have a material adverse impact on our liquidity, cash flows, and financial condition. Our company has not faced any of such instance in the past, while we cannot ensure it may not happen in future.

41. We are dependent on our Individual Promoters and our management team and the loss of, or our inability to hire, retain, train, and motivate qualified personnel could adversely affect our business, results of operations and financial condition.

Our ability to compete and sustain in this highly competitive industry depends upon our ability to attract, motivate, and retain qualified personnel. We are significantly dependent on the continued contributions and client relationships of our management and the guidance and leadership of our Promoter, management team and key managerial personnel. The loss of the services of our key personnel and any of our other executive officers, and our inability to find suitable replacements, could result in a decline in sales, delays in content development, and harm to our business and operations.

We cannot guarantee that we will be able to recruit and retain qualified and capable employees. We may incur significant costs to attract and recruit skilled personnel, and we may lose new personnel to our competitors or other technology companies before we realise the benefit of our investment in recruiting and training them. If we fail to attract new personnel or fail to retain and motivate our current personnel who are capable of meeting our growing technical, operational, and managerial requirements on a timely basis or at all, our business may be harmed.

42. We operate in a significantly fragmented and competitive market and any failure on our part to effectively compete may adversely affect our profitability and market share.

Competition in our business is fragmented. We face significant competition from local and regional players in the business segment and geographical markets in which we operate. Our success to a significant extent depends on our ability to ensure the continued quality, relevance and innovation of our technology and services. Our in-house team and mode of advertising plays an important role to attract and retain our existing and potential customers. Also, low-cost products can create price sensitivity among our target audience. As a result, potential clients may be less willing to pay for our goods, even if we offer products of improved quality.

43. If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risk.

Internal controls are checks and measures providing reasonable assurance about the achievement of objectives set by the board of the company, ensuring integrity of financial and other reporting and helping in detection and prevention of frauds. There are chances of circumventing such controls due to collusion or human error.

Even though our company has not encountered any instances of failure of the internal control system during the preceding 3 financial years or during the stub period, we cannot provide assurance that such instances will not occur in the near future. We also cannot be assured that efficiency and effectiveness of internal control will be always maintained or we will be able to implement adequate measures to rectify or mitigate any such deficiencies in internal control. If internal control weaknesses are not identified or necessary changes are not carried out, it may adversely affect our business, results of operations and financial condition

44. We may not be able to prevent unauthorised use of trademarks obtained/ applied for by third parties, which may lead to the dilution of our goodwill and some of the trademarks filed are objected.

We have applied for the trademarks, device or word mark, for their registration under Trade Marks Act, 1999. Some of them have been approved and registered by the Registrar of Trademark while some have cleared formality check pass and are ready for further processing. However, our one application has been objected by the Registrar of Trademark. The reply for some has been filed. In case they get rejected, not only we will lose the mark, but we will also lose out on its intended benefits that could have accrued to us in terms of sales, revenue, brand recognition and statutory remedies that are provided under the act.

Further, any unauthorized use or infringement of our trademark by third parties may have negative consequences. It may damage our reputation, discourage potential investors, partners, or customers. Additionally, if we fail to protect our own intellectual property, or fail to get the trademark registered, our competitors or other third parties may copy, steal, or misuse our ideas or services. This can lead to lost revenues, decreased market share, or erosion of our competitive advantage. Moreover, any unauthorized use, reproduction, or distribution of our copyrighted material without our permission will result in legal action and may lead to financial penalties, damage to our brand reputation.

For further information regarding the Intellectual Property rights of our Company, please refer to the Chapter titled “Our business” on page no. 191 of this Red Herring Prospectus.

45. Our funding requirements and proposed deployment of the Net Proceeds have not been appraised by a bank or a financial institution and if there are any delays or cost overruns, we may have to incur additional cost to fund the objects of the Issue because of which our business, financial condition and results of operations may be adversely affected.

We intend to use the Net Proceeds for the purposes described in chapter titled “Objects of the Issue” on page 110. The funding requirements mentioned as a part of the objects of the Issue have not been appraised by any bank or financial institution. The deployment of the funds as stated under chapter “Objects of the Issue” is at the discretion of our Board of Directors and is not subject to monitoring by any external independent agency.

As per regulation 262(1) of SEBI ICDR Regulations, the requirement of monitoring agency is mandatory if the Issue size is up to Rs. 5,000 Lakh. Since the Issue size of the Company is above Rs. 5,000 Lakh, our Company will appoint Care Ratings Limited, as monitoring agency for this Issue vide consent and appointment letter dated January 07, 2026

46. Our profitability will suffer if we are not able to maintain our pricing, control costs or continue to expand our business through more client engagements.

Our Company’s profit margins are majorly dependent on our products and services and the price we charge for providing the same. If we fail to maintain the pricing for our products and services without consistent cost reductions, our profitability and business will be affected. The pricing of products and services that we are able to achieve are influenced by number of factors like the period of time the ads will be played, our clients feedback regarding our capability to add value through our products and services, competition we face in the industry, and needs and our ability to accurately forecast or estimate, avail and sustain revenue from clients and general economic conditions prevailing at that time.

In the event of a slowdown due to any external factors, or if the number of our consumers reduces, we may be over-staffed and are required to carry excess employee-related expenses which could affect our financial condition. Employee shortages could prevent us from carrying out various business process in a timely and effective manner, which could adversely affect our profit margin and profitability.

47. Business operation and stability depends on many factors, we may not be able to effectively implement our business and growth strategy.

The success of our business inter alia depends on our ability to effectively implement our business and growth strategy. In the past, we have generally been successful in the execution of our business plan but there can be no assurance that we will be able to execute our strategy effectively and within the estimated budget in the future.

Following are factors that can affect our ability to effectively implement our business strategy:

1. Intense competition from other unlisted peer companies in the industry, domestic or foreign.
2. Changes in Ayurvedic Industry demand.
3. Our ability to attract and retain qualified doctors and nursing staffs.
4. Our ability to maintain the quality of our services.
5. Our ability to maintain tie-ups and collaborations with national and international partners.
6. Our ability to successfully implement Marketing strategies.
7. Our ability to maintain brand image.
8. Our ability to update and adapt to new technology.
9. Repetitive orders from consumers
10. Brand awareness

If we are unable to address these factors, there could be a material adverse effect on our business and the results of operations.

48. The average cost of acquisition of Equity Shares by our Promoters is lower than the issue price.

Our Promoter's average cost of acquisition of Equity Shares in our Company is lower than the Issue Price of the shares proposed to be offered through this Red Herring Prospectus. For further details regarding the average cost of acquisition of Equity Shares by our Promoters in our Company, please refer to Capital Structure on page no. 86 of this Red Herring Prospectus.

49. We are required to maintain certain approvals and licenses required in the ordinary course of business and the failure to obtain or renew them in a timely manner or at all may adversely affect our operations.

Our Company's business is subject to government regulations, and we require certain approvals, licenses, registrations and permissions for operating our business, some of which might have expired and for which we may have either made or are in the process of making an application for obtaining the approval or its renewal. In addition, we may not be in compliance with certain conditions prescribed by such approvals or licences. Our failure to obtain such licences and approvals and comply with the applicable laws and regulations could lead to imposition of sanctions by the relevant authorities, including penalties. For further details, please refer to chapter titled "*Government and Other Approvals*" on page 342.

Further, renewal applications for approvals, licenses, registrations and permissions, for operating our business, need to be made within certain timeframes. Additionally, if our manufactures are not able to comply with the requirement and condition, there license may be revoked. There have been no fresh applications made for approvals or license as on the date of the Red Herring Prospectus. However, there may be instances in the future where fresh applications for new approvals and licenses will be made by the company and we cannot assure you that the company will receive these approvals in a timely manner or at all. If we are unable to make applications and renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner or at all, we may be required to face consequences due to which our business operations may be adversely affected.

50. In addition to normal remuneration, other benefits and reimbursement of expenses, some of our directors and Key Management Personnel who are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.

Some of our Directors and Key Management Personnel are interested in our Company to the extent of their

shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our directors or our Key Management Personnel will always exercise their rights as shareholders to the benefit and best interest of our Company, thereby adversely affecting our business and results of operations and prospects.

51. Any variation in the utilization of Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.

We propose to utilise the Net Proceeds towards the objects of the Company as mentioned in chapter titled "Objects of the Issue" beginning on page 110. At this stage, we cannot determine with any certainty if we would require the net proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with Sections 13(8) and 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters would be liable to provide an exit opportunity to shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement of our Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

52. Our Company has issued Equity Shares during the last twelve months at a price which may be lower than the Issue Price.

We have, in the 12 months preceding the filing of this Red Herring Prospectus, issued Equity Shares at prices that may be lower than the offer price to Promoters and other shareholders.

The details of the allotment made during the preceding 12 months are as follows:

| S. No. | Date of Allotment | Number of Equity Shares | Face value | Issue Price (Rs.) | Consideration | Type of Allotment |
|--------|--------------------|-------------------------|------------|-------------------|-----------------|-------------------|
| 1. | July 17, 2025 | 1,48,50,000 | 10 | Nil | Other than Cash | Bonus issue |
| 2. | September 03, 2025 | 5,20,800 | 10 | 77 | Cash | Private Placement |

For details, please refer to the chapter titled "Capital Structure" on page 86 of this Red Herring Prospectus.

53. Significant differences exist between Indian GAAP and other accounting principles, such as Ind AS, IFRS and U.S. GAAP, which may be material to investors' assessments of our financial condition, result of operations and cash flows.

Our restated summary statements of assets and liabilities, restated summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity for the financial period ended Sep and Fiscals 2024, 2023 and 2022 have been prepared in accordance with Indian GAAP.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles

on the financial data included in this Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

54. Certain Agreements, deeds or licenses may be in the previous name of the company.

Our certain agreements, deeds or licenses may be in the name of the erstwhile name of the company KRM Ayurveda Private Limited. In case we fail to change the name in the agreements, deeds or licenses it may cause adverse effect on Our Company's business & operations. Although, our Company have submitted requests to the relevant regulatory bodies/ authorities to update the company's name in licenses and other approvals such as trademarks.

55. Our Company has not paid any dividend in past 3 financial years and our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. Our business is working capital intensive and declaration of dividend will depend upon financial performance of our Company at the time of declaration. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements (if any) in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past and there can be no assurance that our Company will declare dividends in the future. For further details, please refer to the chapter titled "Dividend Policy" on pages 312 of this Red Herring Prospectus.

56. Industry information included in this Red Herring Prospectus has been derived from an industry report provided by an independent agency. The reliability on the forecasts of the reports could be incorrect and would significantly impact our operations.

We have relied on the report of an independent third party for purposes of inclusion of such information in this Red Herring Prospectus. This report is subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from this industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed, and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statement from third party that involve estimates are subject to change, and actual amounts may differ materially from those included in this Red Herring Prospectus.

57. Our Company's future funding requirements, in the form of further issue of capital or other securities and/or loans that might be availed by us, may turn out to be prejudicial to the interest of the shareholders depending upon the terms and conditions on which they are raised.

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are

raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

58. There are certain restrictions on daily movements in the price of Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Issue, we will be subject to a daily circuit breaker imposed by NSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

59. After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

1. Volatility in the Indian and global capital market;
2. Company's results of operations and financial performance;
3. Performance of Company's competitors,
4. Adverse media reports on Company or pertaining to our Industry;
5. Changes in our estimates of performance or recommendations by financial analysts; and
6. Significant developments in India's economic and fiscal policies;

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

60. Equity Shares of our Company have never been publicly traded, and after the Issue, the Equity Shares may be subject to price and volume fluctuations, and an active trading market for the Equity Shares may or may not develop. Further, the Issue Price may not be indicative of the market price of the Equity Shares after the Issue.

Prior to this Issue of our Company, no public market existed for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation of Equity Shares does not guarantee that a market for the same will develop, or if developed, the liquidity of such market for the Equity Shares cannot be guaranteed. The Issue Price of the Equity Shares is proposed to be determined through a book building process in compliance with Schedule XIII of the SEBI ICDR and the same may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The Issue Price will be based on numerous factors, as described in the section "Basis for Issue Price" beginning on page 132. This price may not necessarily be indicative of the market price of our Equity Shares after the Issue is completed. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in. Our Equity Shares are expected to trade on NSE and BSE after the Issue, but there can be no assurance that active trading in our Equity Shares will develop after the Issue, or if such trading develops, that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading

in our Equity Shares.

61. You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.

Capital gains arising from the sale of equity shares within 12 months in an Indian company are generally taxable in India. Any gain realised on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gain being long term capital gain amounting to up to one lakhs rupees provided Securities Transaction Tax ("STT") is paid on the transaction. STT is levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, is subject to long term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of equity shares is exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares.

62. QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Individual Investors who applies for minimum application size are not permitted to withdraw their Bids after closure of the Bid/ Issue Closing Date.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Individual Investors who applies for minimum application size can revise their Bids during the Bid/ Issue Period and withdraw their Bids until the Bid/ Issue Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within three working days from the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors' decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

63. Sale of Equity Shares by our Promoters or other significant shareholder(s) or any future issue of Equity Shares may dilute your shareholding and adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, or any instance of disinvestments of equity shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

64. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue. Prices may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have

been waived by adoption of a special resolution. However, if the laws of the jurisdiction the investors are located in does not permit them to exercise their pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor's benefit. The value the custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emption rights granted in respect of the Equity Shares held by them, their proportional interest in us would be reduced.

65. A third-party could be prevented from acquiring control of us post this Issue, because of anti-takeover provisions under Indian law.

As a listed Indian company, there are provisions in Indian legal regime that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Issue. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

EXTERNAL RISK FACTORS

66. The Terrorist attacks, communal disturbances and regional conflicts in South Asia may have a material adverse effect on our business and on the market for securities in India.

Terrorist attacks, whether in India or another country may adversely affect Indian and worldwide financial markets. These acts may also result in a loss of business confidence and have other consequences that could adversely affect our business, results of operations and financial condition. Some parts of India have experienced communal disturbances and riots during recent years. If such events recur, our business and financial condition may be adversely affected.

South Asia has, from time to time, experienced instances of civil unrest. Military activity or terrorist attacks in the future could adversely affect the Indian economy, and the financial condition and results of operations of Indian companies, including us, which would have an adverse effect on the trading price of our Equity Shares.

67. Natural disasters, epidemics, pandemics, acts of war, terrorist attacks and other events could materially and adversely affect our business and profitability.

Natural disasters (such as earthquakes, fire, typhoons, cyclones, hurricanes and floods), pandemics such as COVID-19, epidemics, strikes, civil unrest, terrorist attacks and other events, which are beyond our control, may lead to global or regional economic instability, which may in turn materially and adversely affect our business, financial condition, cash flows and results of operations. Any of these occurrences could cause severe disruptions to our daily operations and may warrant a temporary closure of our facilities. Such closures may disrupt our business operations and adversely affect our results of operations. Our operation could also be disrupted if our clients are affected by such natural disasters or epidemics. An outbreak or epidemic, such as SARS, the H1N1 and H5N1 viruses or COVID-19 could cause general consumption or the demand for various products to decline, which could result in reduced demand for our services. Such an outbreak or epidemic may significantly interrupt our business operations as health or governmental authorities may impose quarantine and inspection measures on us or our clients.

Moreover, certain regions in India have witnessed terrorist attacks and civil disturbances and it is possible that

future terrorist attacks or civil unrest, as well as other adverse social, economic and political events in India could have a negative effect on us. Transportation facilities, including vehicles, can be targets of terrorist attacks, which could lead to, among other things, increased insurance and security costs. Regional and global political or military tensions or conflicts, strained or altered foreign relations, protectionism and acts of war or the potential for war could also cause damage and disruption to our business, which could materially and adversely affect our business, financial condition, cash flows and results of operations. Such incidents could create the perception that investments in Indian companies involve a higher degree of risk and such perception could adversely affect our business and the price of the Equity Shares.

68. Financial instability in other countries may cause increased volatility in Indian and other financial markets.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

69. Changing laws, rules and regulations and legal uncertainties in India and other countries may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

70. Under Indian legal regime, foreign investors are subject to investment restrictions that limit our Company's ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares. Accordingly, our ability to raise foreign capital may be constrained.

As a company incorporated in India, we are subject to exchange controls that govern the borrowings in foreign currencies. Further, under applicable foreign exchange regulations in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified under applicable laws. If share transfer is not in compliance with such requirements and does not fall under any of the permissible exceptions, then prior approval of the relevant regulatory authority is required. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness.

71. Investors outside India subscribing to this Issue may not be able to enforce any judgment of a foreign court against us, except by way of a suit in India.

Our Company is a limited liability company incorporated under the laws of India. Our Company's assets are located in India. As a result, it may be difficult for investors to effect service of process upon us or such persons in India or to enforce judgments obtained against our Company or such parties outside India. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore, UAE, and Hong Kong. A judgment from certain specified courts located in a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908, as amended ("Civil Procedure Code"). The United States has not been notified as a reciprocating territory.

In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approvals would be acceptable. Such amount may also be subject to income tax in accordance with applicable law. Consequently, it may not be possible to enforce in an Indian court any judgment obtained in a foreign court, or effect service of process outside of India, against Indian companies, entities, their directors and executive officers and any other parties resident in India. Additionally, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner.

72. Any adverse change or downgrading in ratings of India may adversely affect our business, results of operations and cash flows.

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

73. Regulatory, economic, political scenarios or other factors that are beyond our control may have an adverse effect on our business and financial performance.

Our economy and its securities markets are influenced by economic developments, any adverse economic developments or rising of fiscal or trade deficit may also affect investor confidence and cause increased volatility in securities markets and indirectly affect our economy in general. Any of these factors could depress economic activity and restrict our access to capital, which could have an adverse effect on our business, financial condition, and results of operations. Further financial disruption could also have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares

Also, a change in the government or change in deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business and high rates of inflation could increase our costs without proportionately increasing our revenues.

74. The requirements of being a listed company may strain our resources.

We are not a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated by the virtue of being a listed company. As a listed company, we will incur considerable legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing compliances and reporting requirements to the Stock Exchanges on which equity shares of our Company will be listed, which require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

#Subject to finalization of basis of allotment

***As per the Regulation 253 of the SEBI (ICDR) Regulations, 2018, and Securities and Exchange Board Of India (Issue Of Capital And Disclosure Requirements) (Amendment) Regulations, 2025, as present issue is a Book Building issue the allocation is the net offer to the public category shall be made as follows:*

- a) Not less than Thirty five percent to individual investor who applies for minimum application size;*
 - b) Not less than Fifteen percent to non-institutional investor*
 - c) Not more than fifty percent to qualified institutional buyers, five percent of which shall be allocated to mutual funds.*
- Provided that the unsubscribed portion in either of the categories specified in clauses (a) or (b) may be allocated to applicants in the other category.*

Provided further that in addition to five percent allocation available in terms of clause (C), mutual funds shall be eligible for allocation under the balance available for qualified institutional buyers.

Furthermore, as per the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) (Amendment) Regulations, 2025, the allocation in the non-institutional investors' category shall be as follows:

- (a) one third of the portion available to non-institutional investors shall be reserved for applicants with application size of more than two lots and up to such lots equivalent to not more than Rs.10 lakhs;*
- (b) two thirds of the portion available to non-institutional investors shall be reserved for applicants with application size of more than Rs.10 lakhs:*

Provided that the unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of non-institutional investors.

Our Company, in consultation with the BRLM, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations. The QIB Portion will accordingly be reduced for the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portions shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. For details, see “Issue Procedure” on page 371.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill-over from any other category or combination of categories, as applicable, at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange, subject to applicable law.

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS OFFER

Our Company and the BRLM have entered into a tripartite agreement dated January 05, 2026 with Mansi Share and Stock Broking Private Limited the Market Maker for this Issue, duly registered with NSE Emerge to fulfill the obligations of Market Making:

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the NSE and SEBI regarding this matter from time to time. Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the stock exchange. Further, the Market Maker(s) shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.

2. The prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of NSE Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs.1,00,000. However, the investors with holdings of value less than Rs.1,00,000 shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
4. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
5. There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
6. On the first day of the listing, there will be pre-opening session (call auction) and thereafter the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction.
7. The Market maker may also be present in the opening call auction, but there is no obligation on him to do so.
8. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.

The Market Maker(s) shall have the right to terminate said arrangement by giving a one month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker(s). In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the BRLM to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations, 2018. Further, our Company and the BRLM reserve the right to appoint other Market Makers either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our registered office from 11.00 a.m. to 5.00 p.m. on working days.

9. **Risk containment measures and monitoring for Market Makers:** Emerge Platform of NSE will have all margins which are applicable on the NSE Main Board viz., Mark-to-Market, Value- At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
10. **Punitive Action in case of default by Market Maker:** Emerge Platform of NSE will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Makers, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Makers from time to time.

Price Band and Spreads: Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012,

15. The members of the Promoters Group, our directors and the relatives of our directors have not financed the purchase by any other person of securities of our Company, other than in the normal course of the business of the financing entity, during the six months immediately preceding the date of filing this Red Herring Prospectus.

16. Details of Promoter's Contribution locked in for 3 years:

As per Sub-Regulation (1) of Regulation 236 of the SEBI (ICDR) Regulations, 2018, an aggregate of 20% of the post-Issue Capital shall be considered as Promoter's Contribution.

Our Promoters have granted consent to include such number of Equity Shares held by them as may constitute

20.00% of the post-issue Equity Share Capital of our Company as Promoters Contribution and have agreed not to sell or transfer or pledge or otherwise dispose of in any manner, the Promoters Contribution from the date of filing of this Red Herring Prospectus until the completion of the lock-in period specified above.

In terms of clause (a) of Regulation 238 of the SEBI (ICDR) Regulations, 2018, *Minimum Promoters Contribution as mentioned above shall be locked-in for a period of 3 years from the date of commencement of commercial production or date of allotment in the Initial Public Offer; whichever is later.*

Explanation: The expression “date of commencement of commercial production” means the last date of the month in which commercial production of the project in respect of which the funds raised are proposed to be utilized as stated in the offer document, is expected to commence.

We further confirm that Minimum Promoters Contribution of 20.00% of the post issue paid-up Equity Shares Capital does not include any contribution from Alternative Investment Fund.

The Minimum Promoters Contribution has been brought into to the extent of not less than the specified minimum lot and has been contributed by the persons defined as Promoters under the SEBI (ICDR) Regulations, 2018.

The lock-in of the Minimum Promoters Contribution will be created as per applicable regulations and procedure and details of the same shall also be provided to the Stock Exchange before listing of the Equity Shares.

The details of the Equity Shares held by our Promoters, which are locked in for a period of 3 years from the date of Allotment in the Offer are given below:

| Name of Promoter | Date of Transaction and when made fully paid-up | Nature of Transaction | No. of Equity Shares | Face Value (Rs.) | Issue/ Acquisition Price per Equity Share (Rs.) | Percentage of post- Offer paid-up capital (%) | Lock in Period |

OBJECTS OF THE ISSUE

Our Company proposes to utilize the funds which are being raised towards funding the following objects and achieve the benefits of listing on the Emerge Platform of NSE.

The objects of the Issue are: -

1. Capital Expenditure for Construction and Development of Telemedicine Operational Facilities;
2. Purchase of CRM Software and Hardware Infrastructure;
3. Human Resources;
4. Repayment/Prepayment of loan;
5. To meet out the Working Capital requirements of the Company and
6. To meet out the General Corporate Purposes;

Our Company believes that listing will enhance our Company's corporate image, brand name and create a public market for its Equity Shares in India. The main objects clause of our Memorandum enables our Company to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum. The fund requirement and deployment are based on internal management estimates and has not been appraised by any bank or financial institution.

REQUIREMENT OF FUNDS

The proceeds of the Issue, after deducting Issue related expenses, are estimated to be Rs. [●] lakhs (the "Net Issue Proceeds").

The following table summarizes the requirement of funds:

| S. No. | Particulars | Rupees in Lakhs |
|--------|--------------------------------|-----------------|
| 1. | Gross Issue Proceeds | [●]* |
| 2. | Less: Issue Related Expenses** | [●]* |
| | Net proceeds | [●]* |

**Subject to finalization of basis of allotment.*

***As per the certificate given by M/s Shiv & Associates, Chartered Accountants, dated January 02, 2026, the Company has incurred as sum of Rs. 17.72 Lakh towards issue expenses as on December 31, 2025*

UTILISATION OF FUNDS:

Fund Requirements

Our funding requirements are dependent on a number of factors which may not be in the control of our management, changes in our financial condition and current commercial conditions. Such factors may entail rescheduling and / or revising the planned expenditure and funding requirement and increasing or decreasing the expenditure for a particular purpose from the planned expenditure.

We intend to utilize the proceeds of the Fresh Issue, in the manner set forth below:

| S. N. | Particulars | Amount (in Lakh) | % of Gross Proceeds | % of Net Proceeds |
|-------|---|---------------------|------------------------|----------------------|
| 1. | Capital Expenditure for Construction and Development of Telemedicine Operational Facilities | 1,366.68 | [●] | [●] |
| 2. | Purchase of CRM Software and Hardware Infrastructure | 141.55 | [●] | [●] |
| 3. | Human Resources | 543.82 | [●] | [●] |
| 4. | Repayment/Prepayment of loan | 1,250.00 | [●] | [●] |
| 5. | Working Capital Requirement | 2,290.00 | [●] | [●] |
| 6. | General Corporate Purposes** | [●] | [●] | [●] |
| | Total | [●] | [●] | [●] |

****The amount utilized for general corporate purposes shall not exceed 15% of the gross proceeds of the Issue or Rs.10 crores, whichever is less.**

The objects detailed above are intended to be funded from the proceeds of the Issue while any remaining funding needs will be met through the company's internal accruals. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy, as discussed further below.

The main object clause of Memorandum of Association of our Company enables us to undertake the activities for which the funds are being raised by us through the Issue. Further, we confirm that the activities which we have been carrying out till date are in accordance with the object clause of our Memorandum of Association.

For the main objects clause of our Memorandum of Association, see “Our History and Certain Corporate Matters” on page 273.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from its fund requirements mentioned below, at the discretion of our management. In case of any shortfall or cost overruns, we intend to meet our estimated expenditure from internal accruals and/or debt. In case of any such re-scheduling, it shall be made by compliance of the relevant provisions of the Companies Act, 2013.

Details of Utilization of Issue Proceeds

1. Capital Expenditure for Construction and Development of Telemedicine Operational Facilities

Our company intends to deploy Net Proceeds from the issue aggregating to Rs. 1,366.68 Lakhs to meet out the Construction and Development of Office Building for Operational facilities of our company for expanding our business operations. The project involves the development of a new multi-storey building on freehold land owned by the Company. The old structure at the site will be dismantled, and the new building will be developed with modern facilities. Address of the land where the proposed telecommunication center shall be setup is A-36, G. T. Karnal Road, Industrial Area, Adarsh Nagar, North West Delhi, Delhi – 110033, India. This premises shall be used solely for the Company's commercial operations.

The funds will cover all associated costs, including site development, building construction, and interior finishing. We believe that this strategic investment in infrastructure is essential for our long-term growth and will strengthen our competitive position in the market.

Presently registered office of the Company is situated at A-16 G T Karnal Road Industrial Area, Delhi, North West- 110033, Delhi which is on rented premises. Further teleconsultation services are also being operated from this office. This project of construction of new premises of the Company will save rent.

Further this will create a unified, modern, and efficient corporate office environment, bringing together employees under one roof. The infrastructure will support KRM Ayurveda's growth in telemedicine, Ayurveda-based healthcare services, and marketing expansion. It is also expected to improve operational efficiency, and long-term scalability. This will also help our Company to build valuable assets for the future.

The proposed capex is commercially and operationally justified on the following specific grounds:

- (i) **Elimination of recurring rent (direct annual saving):** The Company currently operates its telemedicine facility from rented premises, incurring a rental outflow of ~₹78 lakh per annum. On commissioning the proposed company-owned telemedicine facility, this recurring outflow will be eliminated, resulting in a direct annual saving of ~₹78 lakh (exclusive of any future rent escalations and deposits/lock-in related costs).
- (ii) **Capacity creation to support scale-up:** The current seating capacity is ~200–220. The proposed facility is designed for ~500 seats, creating incremental capacity of ~280–300 seats (a 2.3x–2.5x increase) to comfortably accommodate the expanded Telemedicine and Marketing teams and ensure adequate bench for training/quality.
- (iii) **Strategic fit with the operating model and growth:** Telemedicine is a core, omni-channel front-end for patient triage, helplines, follow-ups and digital documentation, feeding OPD/IPD volumes at the hospitals/clinics and supporting CGHS/ECHS and insurance workflows. The enlarged facility underpins service levels and operational readiness as we scale the hospital network and empanelment-driven patient base

5. This quotation is valid for six months.

2. Purchase of CRM Software and Hardware Infrastructure

Our company intends to deploy Net Proceeds from the issue aggregating to **Rs 141.55 Lakhs** to meet out the capital expenditure requirement of our company for set up of CRM Software and purchase of Hardware and Software. This will include CRM software and 130 quantities of Desktop and 25 quantities of printers with scanners.

CRM SOFTWARE:

CRM software centralizes patient data and maintains appointment histories. It will enable us for personalized interactions, faster response times. This will result into improved patient retention. It also securely stores medical records and track patient inquiries. Availability of segment data will enable us for focusing on more targeted care, reducing errors and administrative burdens. Automating tasks like appointment scheduling, follow-ups, and internal workflows will minimizes operational burden and improves team productivity.

CRM software functionalities:

1. Enquiry & Order Management – Centralized tracking of customer enquiries and complete visibility of all customer orders with status updates.
2. Reports & Analytics – Lead source and reporting for deeper insights.
3. User & Access Control – User account creation, search/filter features, attendance/activity logs.
4. Notification Center – Real-time alerts to users, notification history and received notifications view.
5. Medical & Health Data Modules – Disease-wise enquiry records, medicine database management, and hospital/facility records.
6. Performance Monitoring – Defining KRAs, tracking follow-up dispositions, and evaluating employee performance.
7. Knowledge & Communication Tools –HR notifications, internal communication, reminders, and task management.
8. Support & Dashboard – Integrated tech support for issue resolution and a centralized dashboard displaying CRM metrics, performance stats, and summaries.

At present, the Company carries out its operations using third-party platforms such as Kansoft, Vaidya Manager, and Google Spreadsheets for managing patient data and internal processes.

With the development of a self-built CRM system, the Company aims to streamline its operations and eliminate the need to use multiple platforms simultaneously. This will not only improve efficiency and user experience for employees but also result in significant annual cost savings currently incurred by the Company.

Additionally, the in-house CRM will enhance data security by ensuring that all information is stored and managed within the Company's own systems, thereby minimizing external data sharing and safeguarding proprietary and patient-related data.

Our Company has made the following investments in information technology during the past 3 financial years is given below:

| Total | | | 3,08,581 |

Rationale for investment in CRM Software:

This strategic investment is undertaken to enhance the efficiency and effectiveness of our customer engagement, marketing, sales, and service processes. While the Company currently utilizes other technologies, the CRM software will enable integrated management of customer data and interactions, providing advanced analytics, automation, and personalized communication capabilities that are critical for scaling operations.

This technological enhancement is expected to improve lead tracking, customer retention, complaint resolution, and cross-functional collaboration, thereby strengthening the Company's ability to foster sustainable customer relationships and drive revenue growth. Furthermore, the CRM system will support the Company's long-term growth plans by facilitating data-driven decision-making and providing a scalable platform adaptable to increasing customer volumes and business complexity.

Rationale for investment in Hardwares:

The disclosed hardware expenditure is driven by operational needs tied to the Company's telemedicine division, a key growth vertical for patient outreach and product sales.

1. Expansion of Telemedicine Team

The telemedicine team currently has a marketing and sales headcount of 178 persons as of March 31, 2025. Following the construction of a new corporate and telemedicine facility, the team's capacity is planned to increase substantially and potentially accommodating 450-500 personnel at the proposed telecommunication center shall be setup is A-36, G. T. Karnal Road, Industrial Area, Adarsh Nagar, North West Delhi, Delhi – 110033, India. To support this scale-up, the Company intends investment in hardware.

2. Requirement for Additional Hardware

With the anticipated growth in headcount, additional hardware assets including laptops, desktops, and printers are essential. The procurement plans for approximately 130 desktop computers and 25 printers. The hardware specifications—featuring modern processors, sufficient RAM, and network capabilities—are aimed at supporting onboarding, training, teleconsultations, and reporting functions effectively.

3. Linkage to Business Growth

Telemedicine vertical is not just a clinical channel but also drives sales of Ayurvedic products. Productivity enhancements from hardware upgrades facilitate faster patient interactions, increase appointments handled per executive, and improve user experience and conversion rates. This expenditure is a strategic investment aligned with the company's goal to scale operations and boost efficiency across patient care and product sales channels.

3. Human Resources

Our Company is presently running 6 Ayurvedic Hospitals and 5 Clinics and in process of expanding its operations. Our Company wants to strengthen operations and enhance the human resource capabilities of our Ayurvedic hospitals and clinics. The Company requires Doctor, Nurse, Therapist, Housekeeping, Billing Executive and Admin / Manager to strengthen the operation. Accordingly, the Company proposes to utilise **Rs. 543.82 Lakh** of the issue proceeds for manpower hiring.

Further, we have recently commenced four new hospitals located at:

- A. Udaipur
- B. Lucknow
- C. Jaipur (two units)

These new facilities will require proportionate staffing across key designations in line with the current hospital-wise ratios and operational standards. The count of proposed hires has been benchmarked against the actual staffing patterns of the existing hospitals, adjusted for scale and service offerings.

Basis for Cost Estimation

The projected cost for hiring manpower has been determined based on:

1. Current salary levels paid to doctors, therapists, nursing and support staff at the operational hospitals; and
2. Quotations obtained from HR recruitment agencies for similar profiles, grades, and locations.

The Quotations for manpower hiring received from **Hospital Placement** (unit of Elite Corporate Solutions Private Limited) dated January 02, 2026 are as follows:

| (Rs. in Lakhs) | | | |
|-------------------------|------------------------|---|-------------------------------------|
| Requirement | Number of Requirements | Salary (Approx) per annum per candidate | Gross Salary for 1.5 years (Approx) |
| Doctor | 20 | 7.20 | 216.00 |
| Nurse | 15 | 3.00 | 67.50 |
| Therapist | 15 | 3.60 | 81.00 |
| Housekeeping | 10 | 2.16 | 32.40 |
| Billing Executive | 10 | 3.60 | 54.00 |
| Admin / Manager | 10 | 4.80 | 72.00 |
| Total | 80 | Total | 522.90 |
| Consultancy fees | | | 20.92 |
| Grand Total | | | 543.82 |

Note 1: The calculation of this quotation is based on the monthly basis salary to be paid.

Note 2: We have considered the above quotations for the budgetary estimate purpose and have not hired actual employees. The actual cost of hiring people may vary.

Note 3: In case of any revision, the same will be funded by the company through internal accruals.

Note 4: Further, our Promoters, Directors, Key Managerial Personnel and the Group Companies do not have any interest in the received quotation.

Note 5: This quotation is valid for 6 months.

Rationale for Utilisation of Issue Proceeds towards Manpower Hiring

- 1. Enhanced Service Delivery** – Recruiting qualified Ayurvedic doctors, therapists, and allied health professionals will strengthen clinical capacity, improve patient outcomes and uphold the Company's commitment to offering high-quality authentic Ayurvedic treatment.
- 2. Expansion of Operational Scale** – With increased staff, the Company will be able to cater to a higher patient load, expand hospital operations and add new therapy lines.
- 3. Patient Trust** – High service quality delivered through competent and caring professionals enhances patient trust thereby strengthening the overall brand of the Company.

4. Repayment/Prepayment of loan:

Our Company has entered into various financing arrangements with bank. The loan facilities entered into by our Company include borrowings in the form of term loans and overdraft facilities. Our Company proposes to utilise an estimated amount of **Rs. 1,250.00** Lakhs from the Net Proceeds as confirmed by the Statutory and Peer Review Auditor M/s Shiv & Associates, Chartered Accountants, vide Certificate dated January 02, 2026, towards full or partial repayment or prepayment of certain borrowing availed by our Company from bank.

Given the nature of these borrowings and the terms of repayment or prepayment, the aggregate outstanding amounts under these borrowings may vary after payment of due instalments. In light of the above, at the time of filing the Red Herring Prospectus, the table below shall be suitably updated to reflect the revised amounts or loan as the case may be which have been availed by us.

We believe that this repayment and/or prepayment will reduce our outstanding indebtedness, lower our interest costs, improve our debt-to-equity ratio, and allow us to use more of our internal resources for future business growth and expansion. A stronger debt-equity position will also help us raise funds at more competitive rates in the future to support potential business opportunities and expansion plans. The table below outlines the details of the outstanding borrowings that are proposed to be fully or partly repaid/prepaid from Net Proceeds.

The details of the outstanding loans of our Company, as on 30th September 2025, which are proposed for repayment or prepayment, in full or in part from the Net Proceeds are set forth below. The loan facilities are listed below in no particular order of priority.

| Working Capital Days | 3 | 4 | 49 | 80 | 103 | 130 |

The total working capital requirement of the Company was Rs. 444.48 lakhs in FY 2023 and Rs. 1,148.38 lakhs in FY 2024. During FY 2025, the requirement increased to Rs. 2,607.41 lakhs and in the financial period ended September 30, 2025 it further increased to Rs. 3,308.98 Lakhs. The working capital requirement is further estimated at Rs. 4,802.74 lakhs in FY 2026 and Rs. 6,821.72 lakhs in FY 2027. Out of this, the Company proposes to utilize Rs. 800.00 lakhs from the IPO proceeds in FY 2026 and Rs. 1,490.00 lakhs in FY 2027, with the balance requirement being met through internal accruals and borrowings.

JUSTIFICATION FOR WORKING CAPITAL REQUIREMENTS

Growth Summary

(Amount in lakhs)

| Particulars | For the period ended 30 September 2025 | For the year ended 31 March 2025 | For the year ended 31 March 2024 | For the year ended 31 March 2023 |

| Sale of service | 2,330.74 | 2,731.97 | 651.95 | 588.18 |
| %age of revenue from operations | 48.20% | 35.69% | 9.71% | 6.59% |

Till FY 2021–22, the Company was primarily engaged in telemedicine services. In FY 2022–23, it started setting up hospitals and clinics and pursued NABH accreditation. During FY 2023–24, the Company also obtained CGHS, ECHS, and insurance empanelment (secured in the second half of FY 2024).

Hospital services revenue grew nearly four times in FY 2024–25, with around 80% of this revenue coming from ECHS and CGHS empanelment. These payers typically have payment cycles of about 150–180 days, resulting in higher receivable days compared to telemedicine or cash-based sales.

In FY 2022–23, the Company made a strategic decision to expand into healthcare services by establishing hospitals and clinics offering various treatments and therapies, in addition to continuing its telemedicine operations.

This transition phase affected the performance in FY 2023–24, as revenues from product sales declined during the restructuring period. However, the strategy started delivering positive results in FY 2024–25, with total revenue from operations reaching Rs. 7,655.27 lakh, of which healthcare services contributed Rs. 2,731.97 lakh—reflecting over 300% year-on-year growth. Also, during the financial period ended September 30, 2025, the Company recorded total revenue from operations of Rs. 4,835.71 Lakhs out of which healthcare services contributed Rs. 2,330.74 Lakhs, which is approximately 85% of the previous year's revenue from healthcare services achieved in six months. Going forward, the Company expects a continued strong growth trajectory and, accordingly, requires additional funding to meet its increasing working capital and operational needs.

| S.NO. | Particulars | Remarks |
|----------|--------------------------|---|
| A | Current Assets | |
| 1 | Inventory | <p>The Company is engaged in operating hospitals and clinics, and in the sale of medicines through both its hospital pharmacies and telemedicine platforms. Until FY 2024–25, the majority of service revenue was generated from two well-established hospitals. From December 2024 onwards, the Company has expanded its footprint by setting up four additional hospitals across various locations in India.</p> <p>Originally established as a kidney care hospital, KRM Ayurveda has since evolved into a group of multi-specialty hospitals offering effective and natural treatments for a wide range of health conditions. The Company has also established a global presence through its virtual consultation services (telemedicine).</p> <p>In FY 2023, inventory stood at Rs. 67.41 lakh (3 days). This increased to Rs. 144.76 lakh (8 days) in FY 2024, mainly due to the expansion of services, which required maintaining higher stock levels. From December 2024 onwards, the opening of four new hospitals led to a onetime buildup of initial pharmacy stock at each location. In addition, the existing hospitals increased their patient throughput, necessitating higher working inventory to ensure uninterrupted supply of medicines.</p> <p>Consequently, in FY 2025, inventory rose to Rs. 769.63 lakh (37 days) as the Company's focus shifted toward healthcare services, requiring adequate stock levels across hospital pharmacies and clinic centers for daily operations and medicine sales. For the period ended September 30, 2025, inventory was Rs. 766.22 lakhs (29 days).</p> <p>Looking ahead, inventory is expected to increase further to Rs. 1,321.32 lakh (45 days) in FY 2026, in line with growing patient volumes and the addition of new specialties. As hospital operations expand, pharmacy inventory will scale with treatment mix and medicine consumption. In FY 2027, inventory is projected to reach around 50 days, reflecting the continued growth in the number of hospitals and higher sales of medicines, while the Company continues to optimize inventory management over time.</p> |
| 2 | Trade Receivables | <p>In FY 2023, the Company's trade receivables stood at Rs. 776.06 lakh (32 days). This reduced to Rs. 553.47 lakh (30 days) in FY 2024, mainly due to lower sales during the business transition period. In FY 2025, trade receivables increased to Rs. 1,212.83 lakh (58 days), corresponding with a significant rise in revenue. For the period ended September 30, 2025, trade receivable almost doubled as compared to the previous financial year to Rs. 2,401.54 Lakhs (90 Days).</p> <p>As described above, the strategic changes in the business with a shift towards the services sector have also contributed to this increase, since the major debtors in the service segment are CGHS & ECHS and private insurance companies under cashless</p> |

While invoices are raised on the same day of treatment, collections are realized over extended periods of 150-180 days in the case of government agencies and 25-45 days in the case of private insurance players.</p> <p>Trade receivables summary:</p> <p>As at 31-Mar-2025: Rs. 12.13 crore As at 31-Mar-2024: Rs. 5.53 crore</p> <p>Break-up of receivables:</p> <p>31-Mar-2025: ECHS Rs. 6.06 crore (49.96%), CGHS Rs. 2.80 crore (23.08%), Insurance Rs. 0.13 crore (1.05%), Others Rs. 3.14 crore (25.92%) — CGHS and ECHS together form 73.0% of total receivables.</p> <p>31-Mar-2024: ECHS Rs. 1.84 crore (33.16%), CGHS Rs. 0.03 crore (0.63%), Others Rs. 3.66 crore (66.21%) — CGHS and ECHS together formed 33.8% of total receivables.</p> <p>Going forward, the Company expects trade receivable days to average around 90 days in FY 2026 (Rs. 2,642.64 lakhs) and further increase to 110 days in FY 2027 (Rs. 4,360.36 lakh).</p> <p>The increase in trade receivable days is largely due to the duration gap between invoice raised and payment received from respective parties, i.e., 150-180 days in case of government agency and 25-45 days in case of private insurance players, therefore, on an average the company expects the trade receivable days to be around 90 – 110 days.</p> |
| 3 | Other Current Assets (includes Short Term Advances) | <p>Other Current Assets mainly comprise advances to suppliers, balances with government authorities, deposits with banks, and other receivables.</p> <p>The balance under this head has increased from Rs. 701.43 lakh in FY 2023 to Rs. 1,305.84 lakh in FY 2024, and further to Rs. 1,727.27 lakh in FY 2025 and Rs. 1,757.22 Lakhs for the period ended September 30, 2025. For the projected years, it is expected to reach Rs. 2,080.00 lakh in FY 2026 and further to Rs. 2,270.00 lakh in FY 2027.</p> <p>The increase in Other Current Assets is primarily due to higher advances made to suppliers in line with growing operations and revenues. These advances help the Company secure better pricing and timely delivery of raw materials. The increase also includes advances to employees and other operational receivables.</p> |
| B | Current Liabilities | |
| 1 | Trade Payables | <p>The trade payable increased in FY 2024 as compared to FY 2023 from Rs. 512.11 lakhs to Rs. 387.04 lakhs due to fall in operation for that period.</p> <p>Further, there is an increase in Trade Payables days to 46 days in FY 2025, amounting to Rs. 533.06 Lakhs in comparison to</p> |

| | | |
|---|----------------------------------|--|
| | | <p>FY 2024, the increase was due to the fact that there was an increase in the operations the raw material procured also saw a significant rise pertaining to which the trade payable saw a similar rise. For the period ended September 30, 2025, trade payable stayed at similar level of Rs. 528.94 Lakhs.</p> <p>For FY 2026 and FY27 standing at Rs.491.41 lakhs and Rs. 643.95 lakhs respectively as the company is planning for expansion through establishment of hospitals and increase in number of SKUs for which even higher procurement of raw material would be needed.</p> |
| 2 | Other Current Liabilities | <p>Other Current Liabilities, which mainly comprise advances from customers, salary and incentive payables, statutory dues, and expenses payables, were Rs. 348.50 lakhs in FY 2023, Rs. 443.00 lakhs in FY 2024, Rs. 392.64 lakhs in FY 2025 and Rs. 852.91 Lakhs for the period ended September 30, 2025.</p> <p>These are expected to stabilize at Rs. 585.79 lakhs in FY 2026 in accordance with previous trends and then increase to Rs. 884.58 lakh in FY2027 in coherence with growth of operations.</p> |
| 3 | Short Term Provision | <p>Short Term Provision includes provision for gratuity, Provision for Current Tax, Statutory Dues and provision for expenses.</p> <p>During the last three financial years and stub period the amount is in the range of Rs. 25.65 lakhs to Rs. 239.81 Lakhs from FY 2023 to September 30, 2025. For the projected period, short term provision stands at Rs. 164.02 Lakhs & Rs. 262.10 Lakhs for FY 2026 & FY 2027 respectively.</p> |
| C | Short Term Borrowing | <p>The company anticipates meeting its working capital requirements primarily through short-term borrowing. It aims to maintain short-term borrowings at levels similar to those recorded during the audited period. The amount for short term borrowings stands at Rs. 69.91 Lakhs & Rs. 87.33 Lakhs in FY 2023 & FY 2024. The same increases to Rs. 1,065.72 Lakhs in FY 2025 and during the period ended September 30, 2025 it was Rs. 845.63 lakhs. For the estimated period FY 2026 the amount should be Rs. 1,275.00 Lakhs & for the Projected Period FY 2027 it would be the same as FY26 at Rs. 1,275.00 lakhs</p> |

Global Macroeconomic Scenario

Gobal GDP Growth Pattern

The global economy, which recorded GDP growth at 3.3% in CY 2024, is expected to show moderation by growing at 3.0% in CY 2025. This marks the slowest expansion since 2020 and reflects a -0.3% point downgrade from January 2025 forecast. Moreover, the projection for CY 2026 has also reduced to 3.1%.

This slowdown is majorly attributed due to numerous factors such as high inflation in many economies despite central bank effort to curb inflation, continuing energy market volatility driven by geopolitical tensions particularly in Ukraine and Middle East, and the re-election of Donald Trump as US President extended uncertainty around the trade policies as well as overall global economic growth.

High inflation and rising borrowing costs affected the private consumption on one hand while fiscal consolidation impacted the government consumption on the other hand. As a result, global GDP growth is projected to slow down from 3.3% in CY 2024 to 3.0% in CY 2025.

Note: Note: Advanced Economies and Emerging & Developing Economies are as per the classification of the World Economic Outlook (WEO). This classification is not based on strict criteria, economic or otherwise, and it has evolved over time. It comprises of 40 countries under the Advanced Economies including the G7 (the United States, Japan, Germany, France, Italy, the United Kingdom, and Canada) and selected countries from the Euro Zone (Germany, Italy, France etc.). The group of emerging market

and developing economies (156) includes all those that are not classified as Advanced Economies (India, China, Brazil, Malaysia etc.)

Economic Growth Trends Across Key Economies

GDP growth across major regions exhibited a mixed trend between 2022-23, with GDP growth in many regions including North America, Emerging and Developing Asia, and Emerging and Developing Europe slowing further in 2024. In 2025, GDP growth rate in Emerging and Developing Asia (India, China, Indonesia, Malaysia, etc.) is expected to moderate further to 5.1% from 5.3% in the previous year, while in the North America, it is expected to moderate to 1.9% in CY 2025 from 2.8% in CY 2024. Similarly in Emerging and Developing Europe is expected to moderate further to 1.8% from 3.5% in the previous year.

Source-IMF World Economic Outlook October 2024 update.

Except Middle East & Central Asia, all other regions like Emerging and Developing Asia, Emerging and Developing Europe, Latin America & The Caribbean, Sub Saharan Africa and North America, are expected to record a moderation in GDP growth rate in CY 2025 as compared to CY 2024. Further, growth in the United States is expected to come down at 1.9% in CY 2025 from 2.8% in CY 2024 due to lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labour markets slowing aggregate demand.

Global Economic Outlook

The global macroeconomic environment remains shaped by divergent regional trends and continued geopolitical and policymaking uncertainties. A wave of new U.S. tariffs, mostly effective from August 7, has shaken markets and raised costs for global trade. On August 1, the U.S. announced higher tariff rates for countries from which it imports goods, with most of the rates effective from August 7. A 15% rate will act as a baseline floor for countries with which the U.S. has a trade deficit; a 10% rate applies for those with which the U.S. has a trade surplus. However, there are some countries that are subject to higher U.S. tariffs.

In North America, the United States continues to engage in trade negotiations with multiple countries and has announced plans to introduce sector-specific tariffs, targeting industries such as copper and pharmaceuticals. However, talks with Canada have stalled, despite Canada's decision to withdraw its Digital Services Tax in an effort to ease tensions. As a result, the U.S. imposed a 35% tariff on Canadian goods that do not meet USMCA compliance standards, effective August 1. This move has further strained bilateral relations and added complexity to the regional trade landscape.

By August 7, the U.S. had announced increased tariffs of 15-50% on Asian economies, with most rates around 20%. Although these tariffs are lower than the levels announced in April, they remain higher than those applied to most Western counterparts, impacting exporters such as Taiwan Region (20%) and India (25%, with the U.S. saying this could rise to 50% at the end of August). Moreover, on July 28, the US imposed a 15% tariff on most EU imports under a new trade agreement, impacting Nordic countries such as Denmark, Finland, and Sweden. Key exemptions include aircraft parts and semiconductor equipment, while steel and aluminum continue to face 50% tariffs.

Tariffs and their unpredictable application have weighed on consumer and business sentiment, sunk global stock markets, raised recession risks, and made a global slowdown more likely. Our latest Global Business Optimism Insights report for indicates a further decline in business optimism as firms continue to grapple with trade-related policy uncertainty and its broader economic implications. Export-driven sectors reported sharp declines in optimism. Financial risk perceptions remain elevated as businesses contend with high borrowing costs and persistent inflation expectations. More broadly, the uncertainty is reflected in delayed capital expenditure and a pullback in hiring.

Tariffs have begun to exert pressure on central banks by contributing to inflationary pressures and increasing financial market volatility. Central banks are adjusting forward guidance and policy frameworks and may begin to consider the likelihood of softer growth being a bigger priority than high inflation by starting to cut interest rates to support economies. For businesses, this uncertainty translates into unpredictable cost structures, fluctuating credit availability, and the management of operational costs through diversified supply networks. Our latest Global Business Optimism Insights report reveals a further decline in business optimism, though at a more moderate pace than in the prior quarter, as businesses continued to grapple with trade-related policy uncertainty

and its broader economic implications. Export-driven sectors such as automotives, electricals, and metals saw sharp declines in optimism, particularly in the U.S., Mexico, South Korea, and Japan, where rising tariffs and shifting trade policies have fueled cost pressures and demand volatility. Financial risk perceptions remain elevated.

Global Growth Projection

At broader level, the global economy is expected to experience a slowdown in 2025, with GDP growth projected to decline to 3.0%, down from 3.3% in 2024. This deceleration reflects persistent inflationary pressure, geopolitical uncertainties and tightened monetary policies. However, a slightly recovery is anticipated in 2026, with growth projected to improve to 3.1%. Global inflation is expected to decline steadily, to 4.2% in 2025 and to 3.6% in 2026. Inflation is projected to converge back to the target earlier in advanced economies, reaching 2.2% in 2026, whereas in emerging market and developing economies, it is anticipated to decrease to 4.6% during the same period. Trade tariffs function as a supply shock for the countries imposing them, leading to a decrease in productivity and an increase in unit costs. Countries subject to tariffs experience a negative demand shock as export demand declines, placing downward pressure on prices. In each scenario, trade uncertainty introduces an additional layer of demand shock since businesses and households react by delaying investment and spending, and this impact could be intensified by stricter financial conditions and heightened exchange rate volatility. Moreover, Global trade growth is expected to slow down in 2025 to 1.7%. This forecast reflects increased tariff restrictions affecting trade flows and, to a lesser extent, the waning effects of cyclical factors that have underpinned the recent rise in goods trade. Geopolitical tensions as seen in the past such as the wars in Ukraine and the Middle East could exacerbate inflation volatility, particularly in energy and agricultural commodities.

Indian Macroeconomic Scenario India emerged as one of the fastest growth economies amongst the leading advanced economies and emerging economies. In CY 2024, even amidst geopolitical uncertainties, particularly those affecting global energy and commodity markets, India continues to remain one of the fastest growing economies in the world and is expected to grow by 6.4% in CY 2025.

Retail inflation rate (as measured by the Consumer Price Index) in India showed notable fluctuations between January 2024 and July 2025. Overall, the national CPI inflation rate moderated to 1.55% by July 2025, indicating a gradual easing of inflationary pressures across both rural and urban areas. Rural CPI inflation peaked at 6.68% in October 2024, declining to 1.18% in July 2025. Urban CPI inflation followed a similar trend, rising to 5.62% in October 2024 and then dropping to 2.05% in July 2025. CPI measured above 6.00% tolerance limit of the central bank since July 2023. As a part of an anti-inflationary measure, the RBI has hiked the repo rate by 250 bps since May 2022 and 8 Feb 2023 while it held the rate steady at 6.50 % till January 2025. On 6th June 2025, RBI reduced the repo rate by 50 basis points which currently stands at 5.50%.

Growth Outlook

The Union Budget 2025-26 has laid the foundation for sustained growth by balancing demand stimulation, investment promotion and inclusive development. Inflation level is reaching within the central bank's target; the RBI may pursue further monetary easing that will support growth. The medium-term outlook is bright, fueled by the emphasis on physical and digital infrastructure spending.

With a focus on stimulating demand, driving investment and ensuring inclusive development, the budget introduces measures such as tax relief, increased infrastructure spending and incentives for manufacturing and clean energy. These initiatives aim to accelerate growth while maintaining fiscal discipline, reinforcing India's long-term economic resilience. The expansion of tax relief i.e zero tax liability for individuals earning up to INR 12 lacs annually under the new tax regime is expected to strengthen household finances and, consequently, boost consumption.

The external sector remains resilient, and key external vulnerability indicators continue to improve. However, tariff-related uncertainty is likely to weigh on exports and investment, prompting us to cut our CY26 GDP growth forecast to 6.4%.

Factors Supporting Growth :

Government focus on infrastructure development

Infrastructure development has remained recurring theme in India's economic development. As India aims to grow to a USD 5 trillion economy by 2027, Construction sector that include Infrastructure construction will be critical for boosting economic growth as it is the key growth enabler for several other sector. Infrastructure development provides impetus to other sectors like cement, bitumen, iron and steel, chemicals, bricks, paints, tiles, financial services among others. A unit increase in expenditure in construction sector has a multiplier effect on other sectors with a capacity to generate income as high as five times in other sectors. The sector enjoys intense focus from the Government which is well reflection in higher budgetary allocations. To push the infrastructure development, government has also announced higher budgetary allocation, various arrangement for raising funds through road asset monetization plan and converting of NHAI's existing InvIT into a public one is also planned. With economic targeting to reach USD 5 trillion economy by 2027, demand for various infrastructure facilities such as power, cargo movement, passenger movement is likely to grow which necessitate steady capacity addition in infrastructure facilities.

The launch of flagship policies like National Infrastructure Pipeline (NIP), and PM Gati Shakti plan have provided the coordination & collaboration that was lacking earlier. Both NIP and PM Gati Shakti are ambitious billion-dollar plans that aim to transform India's infrastructure, elevating it to the next level. These projects are expected to improve freight movement, debottleneck the logistics sector, and improve the industrial production landscape, which would provide the incremental growth in GDP.

Development of Domestic Manufacturing Capability

The Government launched Production Linked Incentive (PLI) scheme in early 2020, initially aimed at improving domestic manufacturing capability in large scale electronic manufacturing and gradually extended to other sectors. At present it covers 14 sectors, ranging from medical devices to solar PV modules. The PLI scheme provides incentives to companies on incremental sales of products manufactured in India. This incentive structure is aimed to attracting private investment into setting up manufacturing units and thereby beef up the domestic production capabilities. The overall incentives earmarked for PLI scheme is estimated to be INR 2 trillion. If fully realizing the PLI scheme would have the ability to add nearly 4% to annual GDP growth, by way of incremental revenue generated from the newly formed manufacturing units.

Strong Domestic Demand

Domestic demand has traditionally been one of the strong drivers of Indian economy. After a brief lull caused by Covid-19 pandemic, the domestic demand is recovering. Consumer confidence surveys by Reserve Bank / other institutions are points to an improvement in consumer confidence index, which is a precursor of improving demand. India has a strong middle-class segment

which has been the major driver of domestic demand. Factors like fast paced urbanization and improving income scenario in rural markets are expected to accelerate domestic demand further.

This revival is perfectly captured by the private final consumption expenditure (PFCE) metric. The PFCE at current prices is on steady rise from FY 2022 onwards. Between FY 2015-25, PFCE in India has improved by nearly 2.5 times its share in GDP has increased from 58.1% to about 61.8% in FY 2025 (as per the first advance estimates).

Source: Ministry of Statistics & Programme Implementation (MOSPI)

There are two factors that are driving this domestic demand: One the large pool of consumers and second the improvement in purchasing power.

The share of middle class increased from nearly 14% in 2005 to nearly 30% in 2021 and is expected to cross 60% by 20470F. This expanding middle class household segment is fuelling India's growth story and would continue to play a key role in propelling India's economic growth.

Consumer-driven domestic demand is majorly fuelled by this growth in per capita income. As per National Statistics Office (NSO) As per National Statistics Office (NSO), India's per capita net national income (at constant prices) stood at INR 106,744 in FY 2024 against INR 99,404 in FY 2023 and INR 87,586 in FY 2018. This increase in per capita income has impacted on the purchasing pattern as well as disposable income. The disposable income during FY 2018-25 has increased from INR 131,753 to INR 233,420, increasing at CAGR 8.5% while in FY 2025 it is estimated to grow at 8.59% on year-on-year basis in FY 2025 against 8.49% in FY 2024.

India's Per capita GDP trends

India is poised to become the world's third-largest economy with a projected GDP of USD 5 trillion within the next three years, driven by ongoing reforms. As one of the fastest-growing major economies, India currently holds the position of the fifth-largest economy globally, following the US, China, Japan, and Germany. By 2027-28, it is anticipated that India will surpass both Germany and Japan, reaching the third-largest spot.

This growth is bolstered by a surge in foreign investments and a wave of new trade agreements with India's burgeoning market of 1.4 billion people. The aviation industry is witnessing unprecedented orders, global electronics manufacturers are expanding their production capabilities, and suppliers traditionally concentrated in southern China's manufacturing hubs are now shifting towards India.

To achieve its vision of becoming the world's third-largest economy by 2027-28, India will need to implement transformative industrial and governmental policies. These policies will be crucial for sustaining the consistent growth of the nation's per capita GDP over the long term.

Source: IMF ; F- Forecasted

From CY 2024-29, India's per capita GDP is projected to grow at a compound annual growth rate of 9.4%. This growth will be driven by the service sector, which now accounts for over 50% of India's GDP, marking a significant shift from agriculture to services.

Increasing Urbanization

As per the handbook of urban statistics 2022, India's urban population has been on a steady rise, with urban dwellers accounting for over 469 million in 2021, is projected to soar to over 558 million by 2031 and further exceed to 600 million by 2036.

Source: World Bank¹ D&B Research and Estimates, F – Forecasted

The share of urban population in total population has been quickly escalating. In 2019, 34.5% of the total population was urban. By 2023, this is estimated to have reached to 36.4%, showing an increment of 2.1% in a span of four years. The share of urban population is further forecasted to cross 40% by 2030. This increase in urban population is set to demand drastic changes in infrastructure development. Cities are a major driver for the construction industry. With cities expanding rapidly, there will be an increased need for improved housing, water supply, sewage systems, and electricity. Urban planning will need to account for higher population densities, necessitating the development of smart cities with integrated technology for efficient management of resources and services.

The Smart Cities Mission targeted at 100 cities is aimed at improving the quality of life through modernized/ technology driven urban planning. This transformation will also require significant investment in public health, education, and recreational facilities to enhance the quality of urban living. The surge in urban population will also propel demand for improvement in multimodal transport infrastructure for freight and passenger travel requirement.

Rural Vs Urban Working Population Age Gap

As India continues to experience economic growth and development, the working population in both rural and urban areas is increasing. In case of urban population, this growth is marked from a share of 45.8% in FY20 to 47.7% in FY23, whereas in rural areas, it grew from 53.3% in FY20 to 59.4% in FY23.

This growth is driven by a combination of factors, including demographic changes, economic policies, and the expansion of various industries. The rise in employment opportunities across sectors such as agriculture, manufacturing, services, and information technology has contributed to the overall increase in the working population, thereby fostering economic stability and enhancing the standard of living for many Indians.

Source: Periodic Labour Force Survey (PLFS) Annual Report 2022-2023, D&B Research and Estimates

In urban areas, the working population is growing rapidly due to the proliferation of jobs in sectors like IT, finance, retail, and healthcare. Additionally, the development of infrastructure, such as improved transportation networks and housing, has made urban centers more accessible and desirable for the working population. In rural areas, the working population remains substantial, primarily due to the dominance of the agricultural sector.

Government initiatives aimed at rural development, such as improved access to education and skill development programs, have also played a crucial role in enhancing employment prospects in these regions. The dominance of the rural working population over their urban counterparts can be attributed to the agricultural sector's labor-intensive nature ensures a consistent demand for human labor despite advancements in mechanization, sustaining employment rates in rural areas.

Foreign Direct Investment Trend in India

FDI inflow in India has observed a steady increase between FY 2013 till FY 2022 while it witnessed a decline of 15% in FY 2023 and of -0.1% in FY 2024 due to several factors, including the ongoing conflict between Russia and Ukraine, changes in US monetary policy, and other global uncertainties.

However, the country has received substantial FDI inflow between from April 2011-March 2025. This increasing FDI can be attributed to the new investment facilitation measures like the National Single-Window System (NSWS), which streamlines the approval and clearance process for investors, entrepreneurs, and businesses sectoral along with PLI schemes, emerging growth prospects in tier-2 and tier-3 cities.

Further, tax compliance for startups and foreign investors have been simplified where the Income Tax Act, 1961 has been amended in 2024 to abolish angel tax and to reduce income tax rate chargeable on income of a foreign company.

As per World Investment report 2025, India ranking improved by one position to rank 15th place for global FDI destinations, attracting USD 27.6 billion as an FDI destination in 2024, up from 16th in 2023.

India ranked as the 4th largest recipient of greenfield projects with 1,080 greenfield projects in 2024 announcements, as per the World Investment Report 2025.

Overview of Healthcare Sector in India

India's healthcare sector is one of the country's largest and most diverse industries, encompassing a range of services such as hospitals, medical devices, clinical trials, telemedicine, medical tourism, health insurance, and medical equipment. This sector has experienced rapid growth, driven by improved coverage, enhanced services, and increased investments from both public and private sectors. The healthcare system in India is divided into public and private components. Amid this expansion, the popularity of Ayurvedic treatments has soared, driven by growing demand for holistic and natural healing methods. With increasing awareness of its benefits and government support through initiatives like the Ministry of AYUSH, Ayurveda is gaining significant traction. As healthcare increasingly focuses on prevention and wellness, Ayurveda is emerging as a long-term solution, spurring innovation, research, and broadening its influence both domestically and internationally.

Healthcare Industry Growth Trend in India.

The Indian healthcare industry has experienced remarkable growth between 2016 and 2023, with its market size escalating from US\$ 110 billion in 2016 to US\$ 372 billion in 2023. In just a year, the industry grew by US\$ 50 billion, from US\$ 160 billion in 2017 to US\$ 280 billion in 2020, reflecting a rapid expansion. This growth has been fuelled by both the private sector's innovative initiatives and the Indian government's supportive healthcare programs, which have significantly improved access and quality of services across the country. The healthcare sector has not only seen financial growth but has also emerged as a major employment generator. By 2024, it is expected to be one of India's largest employers, with approximately 7.5 million people working across various roles within the industry. This upward trajectory in market value and employment highlights the sector's crucial role in India's economy, positioning it as a central pillar for future development, especially in terms of improving public health outcomes and providing ample job opportunities.

Expenditure on Ayush Beneficiaries in Government Hospitals and Dispensaries.

Source: Budget Documents of Union and State Governments.

In recent years, the number of beneficiaries seeking Ayush-based healthcare services in government hospitals and dispensaries has risen markedly, from approximately 2.5 crore in FY 2017–18 to around 5.4 crore in FY 2021–22. This

consistent growth reflects increasing public confidence in Ayush treatments and the effectiveness of various initiatives that integrate these therapies into the broader healthcare system. The data not only highlights the sector's expanding footprint but also signals substantial potential for further development and investment in Ayush infrastructure and service delivery.

Social Services Expenditure on Health.

(RE: Revised Estimates, BE: Budget Estimates)

Source: *Budget Documents of Union and State Governments.*

To enhance healthcare accessibility, quality, and affordability, the policy proposed increasing government health expenditure from 1.2% to 2.5% of GDP by 2025. The Fifteenth Finance Commission also recommended a phased increase in public health spending by both the central and state governments to reach this target. Aligned with this objective, budgeted health sector expenditure rose to 2.1% of GDP in FY23 (Budget Estimate) and 2.2% in FY22 (Revised Estimate), up from 1.6% in FY21. The National Health Account (NHA) estimates for FY19 show that the Government Health Expenditure (GHE) as a percentage of the total GDP has increased from 1.2% in FY14 to 1.3% in FY19. Additionally, the share of GHE in Total Health Expenditure (THE) has increased to 40.6% in FY19, up from 28.6% in FY14. For FY19, India's Total Health Expenditure (THE) is estimated to be Rs. 5,96,440 crore (3.2% of GDP and Rs. 4,470 per person). Current Health Expenditure (CHE) is Rs. 5,40,246 crore (90.6% of THE), and capital expenditures are Rs. 56,194 crore (9.4% of THE). Of the Government Health Expenditure (GHE), 34.3% is funded by the Union Government and 65.7% by the State Governments. Following the National Health Policy 2017, the government has increased spending on primary healthcare from 51.1% in FY14 to 55.2% in FY19. This helps ensure quality services at the grassroots level and reduces the need for more advanced medical care. Between FY14 and FY19, the share of primary and secondary care in the GHE grew from 74.4% to 85.7%, while in private health expenditure it decreased from 82.0% to 70.2%.

Employment Generation Potential of Health Industry

Source: NITI Aayog

The healthcare industry is experiencing significant growth, as evidenced by the increase in various healthcare professions between 2017 and 2022. Allied and other healthcare professionals saw a notable rise, from 4,738 to 7,397, reflecting the growing demand for skilled support staff in healthcare settings. Pharmacists also saw a steady increase, growing from 2,332 in 2017 to 3,645 in 2022, which indicates the expanding role of pharmacists in medication management and patient care. While nurses and midwives faced a decline from 1,855 to 377, this could be due to various factors such as changes in workforce distribution or shifting healthcare needs. In contrast, dentists saw a strong increase, from 300 to 621, suggesting a growing focus on dental health. Specialists grew from 1,753 to 3,011, signaling the increased need for specialized medical expertise. Doctors (Allopathic) also showed a positive trend, with a rise from 248 to 494, reflecting a growing number of physicians in response to population health needs. This overall increase in healthcare professionals demonstrates a positive outlook for the industry, highlighting its expansion and the increasing demand for a diverse range of healthcare services. The growth of these professions is expected to further bolster the industry's development, improve access to care, and enhance the overall quality of healthcare services.

Growing Demand & Employment Opportunities in AYUSH Industry: ²

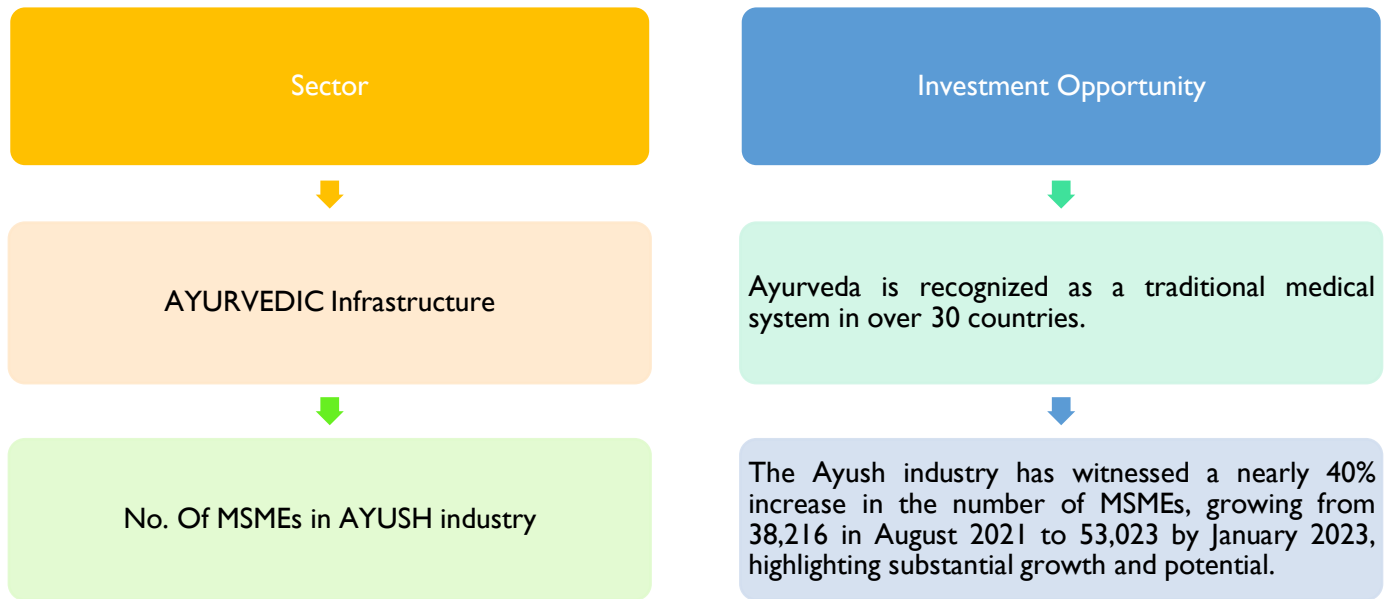

This growth has led to substantial employment generation within the sector. From manufacturers to retailers and service providers, a wide range of job opportunities has been created. The industry now employs thousands of people, including skilled professionals such as Ayurvedic doctors, therapists, researchers, and production staff. As the sector continues to expand, further job opportunities are expected, contributing to India's employment landscape in both rural and urban areas.

Additionally, government efforts to promote AYUSH education and training are focused on developing a skilled workforce to meet industry needs. As a result, the AYUSH sector is expected to generate approximately 3 million job opportunities in the near future.

At the Global AYUSH Investment and Innovation Summit 2022, the Ministry of AYUSH received Letters of Intent (LoIs) indicating a potential investment of INR 9,013 crore from Indian investors across various sectors such as FMCG, pharmaceuticals, and services. These LoIs also suggest that the initiatives and investments could lead to the creation of approximately 5,35,900 new jobs and positively impact the lives of around 75,70,100 people.

Investment Opportunities in AYURVEDIC Industry:

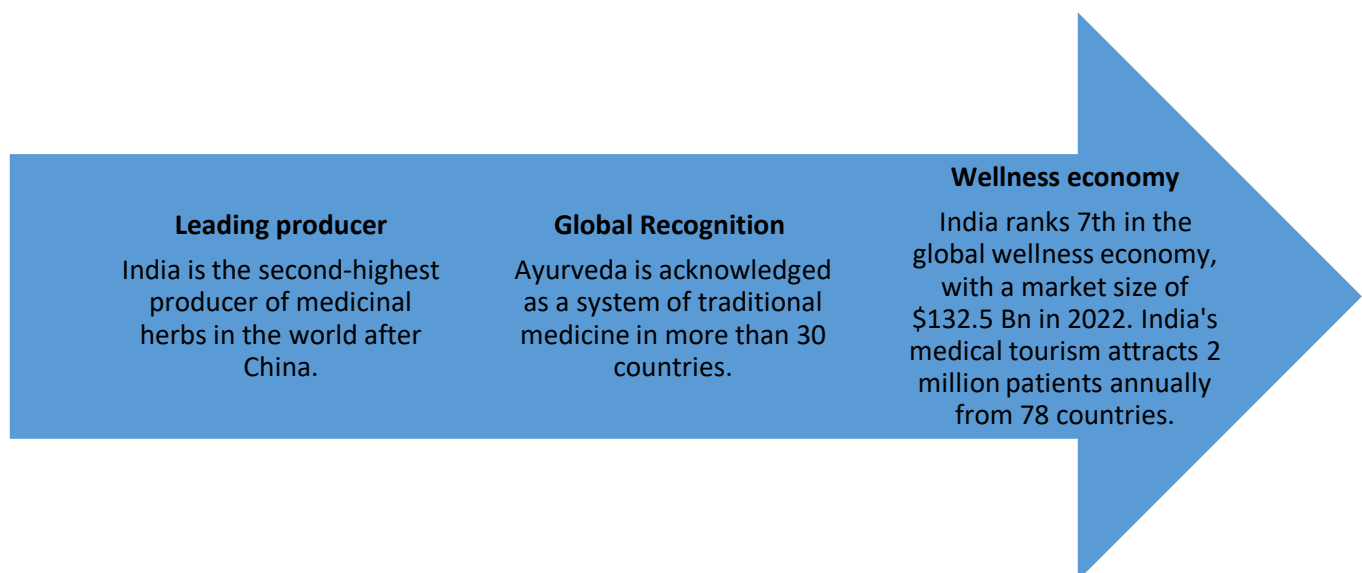

² https://ayush.gov.in/resources/annualReport/Annual_Report_2022-2023_English.pdf

The Ayurvedic infrastructure sector presents a compelling landscape for investment, driven by Ayurveda's growing global recognition as a traditional medical system in over 30 countries. This expanding acceptance fuels the demand for Ayurvedic products and services, creating numerous opportunities for businesses within the industry. The significant surge in Micro, Small, and Medium Enterprises (MSMEs) within the AYUSH sector, evidenced by a near 40% increase from August 2021 to January 2023, underscores the industry's dynamism and potential for further growth. This rapid expansion of MSMEs translates to increased innovation, greater accessibility of Ayurvedic solutions, and a broader market reach, ultimately amplifying the investment opportunities available in this promising sector.

Additionally, the government is focusing on promoting innovation and entrepreneurship in the health sector to fully leverage the opportunities available. Its goal is to foster the creation of 100 unicorns (start-ups valued at over \$1 billion) within the next three years till 2027. The strategy will focus on three key areas: Ayurveda-based food products, biomedical engineering, and the integration of technology into healthcare. This presents a significant opportunity to invest in ayurveda sector in India.

Why Invest in Ayush: ³

Key developments in the sector

Universal Healthcare:

Universal healthcare seeks to provide all citizens with access to essential health services, irrespective of their financial capacity. Achieving this goal can be accomplished through different models, ranging from fully public systems to entirely private ones. At its core, Universal Health Coverage (UHC) is the concept that everyone should be able to access quality healthcare without facing financial hardship.

Universal Health Coverage (UHC) ensures that every individual has access to the complete range of necessary, high-quality health services, when and where they need them, without experiencing financial hardship. UHC covers the entire spectrum of essential health services, including health promotion, prevention, treatment, rehabilitation, and palliative care.

Universal Health Coverage means ensuring:

AYUSH Industry:

The AYUSH sector in India has grown significantly in recent years, becoming an important part of the country's economy and job market. AYUSH includes traditional forms of medicine such as Ayurveda, Yoga, Unani, Siddha, and Homeopathy. This sector encompasses hospitals, clinics, wellness centers, research, herbal products, education, and holistic health practices. This growth is driven by greater awareness, the rising demand for natural therapies, and government support for traditional medicine. In India, the AYUSH healthcare system is divided into public and private sectors. The public sector focuses on making AYUSH treatments accessible through government-run centers across the country. Meanwhile, the private sector offers a wide range of services, including specialized treatments, wellness programs, and herbal products. India's strong tradition of ancient healing practices and the large number of trained practitioners make AYUSH treatments popular. The AYUSH market in India has seen remarkable growth, skyrocketing from US\$ 2.85 billion in 2014 to US\$ 24 billion in 2024. This represents nearly a tenfold increase over the past eleven years, showcasing an impressive expansion. This rapid growth is driven by a rising demand, as more people become health-conscious and show a greater preference for holistic treatments. Over the past eleven years, India's AYUSH market has soared from US\$2.85 billion in 2014 to an impressive US\$24 billion in 2024 a nearly tenfold jump. This dramatic growth is driven by a rising public focus on health and a growing preference for natural, holistic treatments. Additionally, the cost-effectiveness of these treatments attracts people from both within India and abroad, making it a go-to destination for holistic healthcare. The affordability and effectiveness of AYUSH therapies have led to increased interest, both domestically and internationally, making India a key player in traditional medicine research and practice.

Source: Ministry of AYUSH, India Brand Equity Foundation

The graph reveals a substantial increase in budgetary allocation for AYUSH in India, boasting a remarkable CAGR of 10.18% from 2014-15 to 2024-25. This steady growth in funding underscores the government's strong commitment to nurturing the AYUSH sector. This augmented financial support will likely translate into several advancements for Ayurvedic treatment. It is expected to foster greater research and development in Ayurvedic formulations and therapies. Moreover, it can bolster the availability of quality Ayurvedic healthcare infrastructure, including hospitals, dispensaries, and skilled practitioners, making Ayurvedic treatment more accessible and affordable to a wider segment of the population. Additionally, the increased funding could pave the way for better integration of Ayurveda into mainstream healthcare systems, further solidifying its role in India's holistic healthcare landscape.

New Initiatives under NAM (National Ayush Mission)

To enhance AYUSH services by improving accessibility and availability across the States, the Centrally Sponsored Scheme, focusing on the preventive and promotive aspects of healthcare, called the National AYUSH Mission (NAM), was launched in September 2014.

Key Elements of the Scheme:

Global Expansion:

With rising global recognition of traditional health practices, AYUSH is poised to secure a more significant presence in international markets. Strengthened regulatory oversight and robust quality assurance measures will further cement its global acceptance.

Government Initiatives and Policy Support:

The Indian government is vigorously advancing the AYUSH sector through comprehensive policy reforms, augmented budgetary support, and initiatives such as the Ayush Visa. These efforts aim to enhance research, standardize practices, and foster international collaborations, thereby bolstering consumer confidence both within India and globally.

Changing Consumer Preferences:

Modern consumers are showing a growing preference for holistic wellness, natural treatments, and preventive healthcare, particularly in the post-pandemic world. This changing consumer mindset is driving increased demand for AYUSH products and services that support overall well-being.

Rise of MSMEs and Startups:

The industry's expansion is primarily fueled by a dynamic network of MSMEs and startups, with many originating from tier-2 and tier-3 cities. This wave of entrepreneurship is further distinguished by the notable involvement of women leaders in the sector.

Innovation in Product Development:

AYUSH sector entrepreneurs are anticipated to drive continuous innovation by creating new product categories such as nutraceuticals, herbal cosmetics, and functional foods. These advancements will address diverse consumer demands while contributing to the industry's market expansion.

Technological Integration

Upcoming developments will likely be fueled by deeper integration of AI, digital health platforms, and data analytics. These technologies will enable personalized treatment plans and enhance the effectiveness and accessibility of AYUSH services.

Key Recent Development:

In recent months, several significant developments have taken place in India's AYUSH sector, highlighting the government's commitment to promoting traditional medicine and wellness tourism.

Ayush Medical Value Travel Summit 2024

On September 30, 2024, The Ayush Medical Value Travel Summit 2024, focused on 'Global Synergy in Ayush: Transforming Health and Wellness through Medical Value Travel,' was inaugurated in Mumbai by Shri Prataprao Jadhav, Union Minister of State for the Ministry of Ayush. This summit aimed to establish India as a leading destination for health tourism by promoting AYUSH systems (Ayurveda, Yoga, Unani, Siddha, and Homeopathy) and improving access to these traditional medicines through initiatives such as "Desh ka Prakrutik Parikshan - Ghar Ghar tak Ayurved."

Kerala's Investment in AYUSH Infrastructure

On August 30, 2024, Kerala Chief Minister Mr. Pinarayi Vijayan announced that the state has invested ₹1,000 crore (approximately US\$119 million) over the past three years to strengthen AYUSH infrastructure. This investment includes setting up an International Institute of Ayurveda Research and a new Ayurveda medical college in Idukki district.

Inclusion of AYUSH Treatments in Health Insurance

On September 27, 2024, The Indian government announced plans to add 170 AYUSH treatment packages to the Ayushman Bharat health insurance scheme (AB-PMJAY) and set up special medical stores at the tehsil level to improve access to traditional medicines.

Goa's Ayurveda Wellness Packages

On September 30, 2024, Goa's Tourism Minister, Mr. Rohan A. Khaunte, introduced two exclusive Ayurveda Wellness Packages for international visitors at the All India Institute of Ayurveda (AIIA) in Dhargal. This initiative aims to position Goa as a leading destination for wellness tourism while reinforcing the existing Memorandum of Understanding (MoU) between the Department of Tourism and AIIA to promote Ayurveda and Yoga to a global audience.

In January 2024, Union Ayush Minister Sarbananda Sonowal inaugurated the foundation stone for the 'Ayush Diksha' Centre in Bhubaneswar. This one-of-a-kind facility, with a budget of ₹30 crores (approximately US\$3.58 million), is designed to train and develop AYUSH professionals. Located within the Central Ayurveda Research Institute, the centre will offer specialized training programs, enhance skill development, and support Ayurveda research, promoting a holistic approach to healthcare alongside modern medicine.

On February 25, 2024, Prime Minister Narendra Modi virtually inaugurated two major AYUSH initiatives:

In Jhajjarm, Haryana, the Central Research Institute of Yoga & Naturopathy.

In Maharashtra, Pune, the National Institute of Naturopathy 'NISARG GRAM'.

These institutes aim to advance research and education in yoga and naturopathy, promoting holistic health practices.

The role of Ayurvedic Medicine in Indian Healthcare Sector.

Ayurvedic medicine plays a crucial role in India's healthcare sector, offering a holistic and natural approach to healing that has been practiced for over 5,000 years. Rooted in the principles of balance between the mind, body, and spirit, Ayurveda emphasizes herbal treatments, dietary regulations, yoga, and lifestyle modifications to promote overall well-being. In recent years, Ayurveda has gained recognition alongside modern medicine, with government initiatives such as the Ministry of AYUSH promoting research, education, and integration of traditional medicine into mainstream healthcare. Ayurvedic treatments are widely used for chronic illnesses, preventive healthcare, and wellness therapies, making it an essential part of India's medical system. The growing popularity of Ayurvedic products globally has also contributed to the sector's expansion, boosting India's position as a leader in alternative medicine. However, challenges such as standardization, scientific validation, and regulatory frameworks remain critical for ensuring the credibility and efficacy of Ayurvedic practices in modern healthcare.

Ayurveda Industry in India

Overview of Ayurveda Treatment in Indian Healthcare Industry

Ayurveda, one of the oldest holistic healthcare systems in India, is increasingly recognized as a strategic business asset within the rapidly evolving healthcare industry. Renowned for its personalized treatment protocols that incorporate herbal formulations, dietary management, yoga, meditation, and detoxification therapies, Ayurveda offers a unique value proposition compared to conventional medical practices. The Indian government has actively supported the advancement of Ayurvedic treatments through initiatives under the Ministry of AYUSH, reinforcing its credibility both domestically and on the international stage. This state-backed promotion, combined with rising global consumer interest in natural and preventive healthcare solutions, has spurred significant investment and innovation in the sector. Leading healthcare organizations and emerging startups are leveraging modern research methodologies to enhance traditional Ayurvedic practices, driving product development and market expansion. In India, many patients seek alternative therapies such as Ayurveda, Siddha, Homoeopathy, and Yoga for managing lifestyle-related disorders alongside conventional treatments. Recognizing the growing demand for holistic healthcare, the Ministry of AYUSH, Government of India, established the Centre for Integrative Medicine and Research (CIMR) at AIIMS, Delhi. This initiative aims to promote a combined approach that blends traditional and modern medical systems for better patient outcomes. While integrative medicine is still at an early stage in India, many patients already use Ayurvedic remedies along with allopathic treatments. For instance, the stem bark of Arjuna (*Terminalia arjuna*) is widely consumed as a natural cardioprotective by patients visiting the cardiology outpatient department at AIIMS, Delhi. Such practices highlight the increasing acceptance of Ayurveda and other traditional healing systems in mainstream healthcare. As research and awareness grow, integrative medicine is expected to play a larger role in enhancing treatment effectiveness and improving overall health and wellness in India. Furthermore, the integration of Ayurveda into mainstream healthcare presents a substantial opportunity for revenue growth, market diversification, and international trade. The convergence of ancient wisdom with modern technology positions Ayurveda as a key contributor to India's economic progress and competitive edge in the global wellness market.

Growing Demand for Ayurvedic Products and Overall, AYUSH Industry

In India, Ayurveda has been an essential part of traditional medicine, with around 80% of the population following its practices. In recent years, the demand for Ayurvedic products has grown significantly, both in India and across the world. Ayurvedic skincare, beauty, and personal care products have become more popular because they use natural ingredients and focus on overall well-being. Many consumers are now aware of the harmful effects of synthetic chemicals in regular beauty products and are looking for safer, eco-friendly alternatives. Ayurvedic products provide a natural and effective option,

as they are made using time-tested herbal formulations. According to a report by the Forum on Indian Traditional Medicine (FITM) under the Research and Information System for Developing Countries (RIS), the AYUSH industry has expanded rapidly. Its market size increased from \$2.85 billion (Rs. 23,532 crore) in 2014-15 to \$18.1 billion (Rs. 1.5 lakh crore) in 2020, showing an impressive annual growth rate of around 31.47%. This growth highlights the rising acceptance and future potential of Ayurveda in the wellness and personal care sectors.

(*include Yoga & Naturopathy, Unani, Siddha, Sowa-Rigpa and Homoeopathy)

The data highlights the prevalence of different systems of medicine in rural and urban areas. Ayurveda remains a widely used traditional healthcare system, with **40.5%** of the rural population and **45.5%** of the urban population relying on it. Other traditional medicine systems account for **9.4%** in rural areas and **12.8%** in urban regions. Overall, the usage of any traditional medicine system is higher in urban areas (**52.9%**) compared to rural areas (**46.3%**), indicating a growing preference for alternative medicine across different demographics.

Estimated Market Size of Ayurveda Industry in India

The Ayurveda industry in India is expected to experience significant growth in the coming years. The sector is projected to expand at a rapid pace, driven by increasing consumer interest in natural and holistic health solutions, the growing awareness of Ayurveda's benefits, and the rising preference for organic and chemical-free products.

Factors contributing to this growth include:

Increasing Health Consciousness: Consumers are becoming more aware of the adverse effects of synthetic pharmaceuticals, leading to a greater reliance on natural remedies offered by Ayurveda.

Government Support: The Indian government's focus on promoting Ayurveda through initiatives like the promotion of the AYUSH Ministry has encouraged the expansion of Ayurveda-related products and services.

Global Popularity: Ayurveda's growing popularity worldwide, particularly in wellness tourism and among global consumers seeking natural health solutions, boosts export potential.

Product Innovation: The introduction of new Ayurvedic products and modern formulations has broadened the appeal of Ayurveda to younger, health-conscious generations.

High Growth Potential (CY 2021-CY 2025E): The impressive CAGR of 21.3% between CY 2021 and CY 2025E suggests a surge in the Ayurveda market, potentially due to factors like product innovation, better accessibility, and a growing global preference for natural and holistic wellness solutions.

Manufacturing and Service Sector growth in AYUSH industry in India:

The manufacturing and service sectors within the AYUSH industry in India are both experiencing remarkable growth, driven by increasing consumer demand for traditional, natural, and holistic health solutions. The growth in these sectors reflects the growing popularity of AYUSH systems like Ayurveda, Yoga, Unani, Siddha, and Homeopathy, fuelled by rising health consciousness and an expanding global market for natural wellness products and services.

The AYUSH industry has experienced significant growth, with its manufacturing sector valued at US\$ 18 billion in 2020 and projected to reach US\$ 24 billion by 2024. When combined with the AYUSH service sector, which is expected to be valued at US\$ 26 billion by 2024, the total worth of the industry is set to surpass US\$ 50 billion.

Regulatory Landscape

Analysis of Key Policies / Framework That Is Regulating the Ayurvedic Treatment Segment in India

Drugs and Cosmetics Act, 1940

- This Act governs the production, sale, and distribution of Ayurvedic medicines, mandating licensing, quality assurance, and adherence to official pharmacopoeias.

National Commission for Indian System of Medicine (NCISM) Act, 2020

- This Act replaced the Indian Medicine Central Council (IMCC) Act, 1970. NCISM is responsible for regulating Ayurvedic education and practice, aiming to streamline regulations and improve the quality of Ayurvedic education.

Ayurveda Aahara Regulations, 2022

- The Food Safety and Standards Authority of India (FSSAI) has introduced the Ayurveda Aahara Regulations, 2022, which mandate strict guidelines for the manufacturing and labeling of Ayurvedic food products and supplements.

National Commission for Indian System of Medicine (NCISM)

- Replacing the former Central Council of Indian Medicine, NCISM standardizes education, practice, and registration for Ayurvedic professionals, ensuring that practitioners meet defined benchmarks.

PCIM&H

- The Pharmacopoeia Commission for Indian Medicine & Homoeopathy (PCIM&H) develops and publishes pharmacopoeial standards for Ayurvedic drugs, ensuring their quality and efficacy.

NAM

- The government is rolling out the Centrally Sponsored Scheme of the National AYUSH Mission (NAM) nationwide through state and UT administrations to promote and develop AYUSH systems. Under the AYUSH Gram initiative, AYUSH-based lifestyles are being encouraged through behavior change communication, training village health workers to identify and utilize local medicinal herbs, and providing AYUSH health services.

Ayurswasthya Yojana

- The Ministry of Ayush has been implementing the Central Sector Scheme, Ayurswasthya Yojana, since FY 2021-22. The scheme consists of two components: AYUSH and Public Health, and the Centre of Excellence (CoE). The AYUSH and Public Health component includes provisions for distributing AYUSH medicines and organizing free medical camps.

Information, Education and Communication (IEC) in AYUSH:

- The Ministry carries out promotional activities under the scheme, such as organizing AROGYA fairs at the state and national levels, conducting multimedia campaigns, and preparing and distributing publicity materials, including audiovisual content.

Promotion of International Cooperation

- The Ministry sends AYUSH experts to foreign countries to attend international meetings, conferences, and training programs to promote and spread AYUSH systems. It also provides incentives to AYUSH drug manufacturers, entrepreneurs, and institutions for participating in international exhibitions to raise public awareness about AYUSH systems of medicine and for registering AYUSH products with foreign regulatory authorities.

Demand Drivers

Analysis of Key Factors Driving the Demand for Ayurvedic Treatment in India

Key drivers from Ayurvedic Industry

Threats & Challenges Facing the Industry

The Ayurvedic treatment industry in India faces several significant challenges that hinder its integration into mainstream healthcare. A primary concern is the lack of standardization in Ayurvedic medicines, leading to inconsistencies in quality and efficacy. This issue is exacerbated by the shortage of raw materials and the escalation in raw material prices, which not only affect production costs but also contribute to the lowering of standards and adulteration in products. Another critical challenge is the insufficient scientific research supporting Ayurvedic practices. The absence of rigorous, evidence-based studies makes it difficult to validate traditional treatments, limiting their acceptance in modern medical communities. Additionally, the industry struggles with fragmented care and misperceptions about its efficacy. These issues are compounded by the proliferation of unqualified practitioners, leading to a lack of trust among potential patients. Addressing these challenges requires a multifaceted approach, including the implementation of standardized manufacturing processes, investment in scientific research, and the establishment of stringent regulatory frameworks to ensure the credibility and safety of Ayurvedic treatments. People are seeking natural remedies that can help them maintain their health and prevent diseases, rather than just treating them when they get sick.

Below are few more challenges:

Insufficient Scientific Validation:

Ayurvedic treatments often lack large-scale, peer-reviewed clinical trials to validate their efficacy. Without sufficient scientific validation, Ayurvedic medicines struggle for global acceptance, especially in regulated markets such as the US and Europe.

Regulatory Challenges:

Multiple regulatory bodies (like AYUSH Ministry & state-level authorities) create confusion and compliance issues. New regulation such as the Drugs and Cosmetics Act, 1940 (amended) impose stricter controls, affecting smaller Ayurvedic manufacturers.

Competition from Modern Medicine & Alternative Therapies:

Homeopathy, Naturopathy, and Unani compete within the alternative medicine market. The lack of trained Ayurvedic practitioners compared to MBBS doctors reduces accessibility and trust.

Public Perception & Awareness Issues:

Many still see Ayurveda as "slow-acting" or "home remedies" rather than a serious medical system. The presence of unqualified or fake practitioners damages credibility. There is limited awareness about Ayurvedic clinical trials and evidence-based research.

Adulteration & Fake Products:

The rise of counterfeit Ayurvedic medicines has eroded trust in authentic treatments. Lack of stringent intellectual property rights (IPR) protections makes Ayurvedic formulations vulnerable to duplication. Some mass-produced Ayurvedic brands compromise on traditional formulations to cut costs.

Environmental & Sustainability Concerns:

Overharvesting of medicinal plants leads to deforestation and depletion of key herbal resources. Climate change is affecting the availability and potency of medicinal herbs. The Ayurvedic industry needs sustainable sourcing & conservation efforts for long-term survival.

Growth Forecast

Expected Growth in Ayurveda Treatment Industry in India

The demand for Ayurvedic treatment and services in India has seen significant growth in recent years, driven by a rising consumer preference for natural, holistic, and preventive healthcare. As people become more conscious of the side effects of conventional pharmaceuticals, Ayurveda's emphasis on balancing the body, mind, and spirit has gained strong appeal. Ayurvedic treatments, such as Panchakarma (detoxification therapies), herbal remedies, massage therapies, and dietary consultations, are increasingly sought after for their ability to address chronic ailments, improve overall well-being, and enhance immunity. This demand is fuelled by greater awareness through digital media, traditional knowledge revival, and the global wellness movement, with Ayurveda being recognized as a viable alternative for managing stress, anxiety, and lifestyle diseases. Additionally, the growing focus on organic and chemical-free products contributes to the increasing demand for Ayurvedic services. Furthermore, wellness tourism has expanded the reach of Ayurvedic therapies, with people traveling to India specifically to undergo these treatments, further enhancing the sector's appeal. Government initiatives, such as promoting AYUSH (Ayurveda, Yoga, Unani, Siddha, and Homeopathy) and the establishment of dedicated wellness centres, have also played a pivotal role in supporting and boosting the growth of Ayurvedic services in India.

The AYUSH sector in India is experiencing significant growth, driven by increasing consumer demand for traditional medicine, strong government backing, and a growing export market, positioning it as a key player in the country's healthcare and wellness industry. The Indian AYUSH market is expected to expand from US\$ 43.3 billion to US\$ 200 billion by 2030, marking an impressive eightfold increase over the next decade.

Competitive Landscape

The AYUSH and Ayurvedic industry in India have witnessed significant growth and transformation over the past few years, owing to a surge in demand for natural, organic, and holistic healthcare solutions. The competitive landscape of this industry is dynamic and shaped by several key factors, such as increasing consumer interest in alternative medicine, government support, innovation, and the global expansion of Ayurvedic products.

Key Players and Market Segmentation: The competitive landscape of the AYUSH industry is characterized by a wide range of players that include large corporations, small and medium-sized enterprises (SMEs), and niche wellness brands. The market is segmented into Ayurvedic medicines, wellness products, personal care items, and treatments (such as Panchakarma). Key players include:

Apollo Hospitals: Reporting a 51.8% year-on-year increase in net profit for the third quarter, Apollo Hospitals achieved an occupancy rate of 68%. The company plans to expand its capacity by adding 3,512 beds over the next three to four years.

Adani Group and Mayo Clinic Collaboration: The Adani Group has partnered with the U.S.-based Mayo Clinic to invest over 60 billion rupees (\$686.18 million) in establishing affordable health campuses in Mumbai and Ahmedabad. These campuses will feature hospitals, medical colleges, and research facilities, with technical expertise provided by Mayo Clinic Global Consulting.

Asia Healthcare Holdings: Supported by U.S. private equity group TPG, Asia Healthcare Holdings received an additional \$150 million investment from Singapore's sovereign wealth fund GIC. The firm has invested around \$300 million in hospital chains specializing in oncology, mother & childcare, and urology, among other areas.

Hospital Services:

The competitive landscape in hospital services within the AYUSH and Ayurvedic industry in India is evolving rapidly as the sector gains popularity due to growing consumer interest in natural and alternative healthcare. Several factors, including increasing awareness of the benefits of AYUSH treatments, government support, and a surge in demand for holistic wellness solutions, are shaping the competition among service providers in this space.

Key Factors Defining the Competitive Landscape:

Government Initiatives and Support: The government of India has been actively promoting AYUSH systems through initiatives such as the National AYUSH Mission (NAM), which aims to strengthen AYUSH healthcare systems and establish wellness centers. This has resulted in increased funding and infrastructure development in the sector. Government policies, including AYUSH hospitals and wellness centers across India, have encouraged both private players and public institutions to offer AYUSH-based healthcare services.

Increase in AYUSH Hospitals and Wellness Centers: The number of hospitals offering AYUSH services, including Ayurveda, Yoga, Naturopathy, Unani, Siddha, and Homeopathy, has increased significantly, contributing to healthy competition in the market.

Example: Kottakkal Arya Vaidya Sala in Kerala is one of the most established Ayurvedic hospitals in India, providing traditional treatments along with modern healthcare services. Their expertise and historical reputation make them highly competitive in the industry. Jiva Ayurveda is another example, with a large network of clinics and wellness centers across India. The brand has expanded both online and offline services, providing Ayurveda consultations, treatments, and products.

Emerging Private Players: Numerous private players, including NirogStreet, Patanjali Ayurved, and Kerala Ayurveda Ltd., have introduced integrated AYUSH hospital services combined with their product lines. These companies offer a range of treatments that target wellness, chronic diseases, and lifestyle disorders, drawing a large customer base.

Example: Patanjali Ayurveda, led by Baba Ramdev, has integrated its Ayurvedic products with health services by opening wellness centers and hospitals that promote Ayurvedic treatments alongside yoga and naturopathy.

Integration of AYUSH with Modern Healthcare: Some hospitals are increasingly integrating traditional AYUSH therapies with conventional medical practices to provide holistic treatment, especially for chronic conditions like arthritis, diabetes, and stress management.

Example: The Art of Living International Center in Bengaluru incorporates Ayurveda, yoga, and meditation into their wellness programs, offering a unique blend of conventional medical and AYUSH treatments. This integration allows them to reach a wider audience seeking holistic healthcare.

Rise in Wellness Tourism: The wellness tourism segment, which includes Ayurvedic and holistic treatment packages, is growing in India. Many hospitals are now focusing on attracting international tourists seeking authentic Ayurvedic treatments.

Example: Somatheeram Ayurveda Resort in Kerala is one of the leading wellness resorts offering authentic Ayurvedic treatments and therapies. It combines Ayurvedic care with tourism, positioning itself as a major competitor in the wellness tourism sector.

Competitive Strategies and Trends:

Product Innovation and Diversification: Companies are focusing on innovation to meet modern consumer demands for organic, vegan, and eco-friendly products. Customized Ayurvedic formulations and diversification into herbal supplements, cosmeceuticals, and wellness therapies like Panchakarma are becoming popular.

E-commerce and Digitalization: E-commerce platforms have enabled Ayurvedic brands like Patanjali, Himalaya, and Jiva Ayurveda to reach global audiences. Digital marketing, including social media and influencers, is helping educate consumers on Ayurveda's benefits.

Global Expansion: Indian Ayurvedic companies are expanding internationally, with brands like Himalaya and Patanjali targeting markets in North America, Europe, and Southeast Asia, capitalizing on demand for natural wellness products.

Wellness Tourism: The growing popularity of wellness tourism has led to the expansion of Ayurvedic resorts in regions like Kerala, Uttarakhand, and Goa, attracting tourists with Panchakarma therapies, rejuvenation treatments, yoga, and wellness education.

ABOUT AYURVEDA

The ayurvedic solutions we present through our products and services are derived from the **Charak Samhita**, an old Ayurvedic treatise recognized for delivering comprehensive insights and cures for numerous health and lifestyle difficulties, as well as wisdom that echoes in the Indian government's recent initiatives like the National Ayush Mission (NAM), which promotes research and education in Ayurveda. Furthermore, the Rashtriya Ayurveda Vidyapeeth preserves and transmits this ancient knowledge to future generations. These efforts, when aligned with the timeless principles of Charak Samhita, pave the way for a future where Ayurveda plays an even greater role in promoting health and harmony in India and abroad. Ayurveda goes beyond treating symptoms. It seeks to address the root cause of imbalances, restoring harmony on a physical, mental and emotional level.

Charak Samhita

- Charak Samhita is an ancient and foundational text in the field of Ayurveda, the traditional system of medicine that originated in India over 3,000 years ago. Attributed to the sage Charaka, the text is one of the earliest and most comprehensive compilations of Ayurvedic knowledge, composed between the 2nd century BCE and the 2nd century CE

National Ayush Mission

- Ministry of Ayush launched the Centrally Sponsored Scheme of National Ayush Mission (NAM) on 15.09.2014 for implementing through States/UTs with the objective of strengthen preventive and promotive aspects in primary health care with holistic wellness model based on Ayush principles and practices.

Rashtriya Ayurveda Vidyapeeth

- Rashtriya Ayurveda Vidyapeeth located at New Delhi is an autonomous organisation under Ministry of Ayush, Govt. of India. This is one among many other premier national Institutes of Ayush working under the Supervision of Ministry of Ayush.

KEY AYURVEDIC TREATMENTS OFFERED AT OUR HOSPITALS & CLINICS:

1. Panchakarma:

Description: Panchakarma is a detoxification and rejuvenation process that involves five main treatments to cleanse the body of toxins (known as “ama”). It helps in purifying the body, restoring the balance of doshas (vata, pitta, and kapha), and improving overall health.

Treatments include:

- **Vamana:** Vamana therapy, also known as therapeutic emesis or medical vomiting, is a detoxification procedure in Ayurveda that aims to eliminate excess Kapha dosha (one of the three fundamental energies in Ayurveda) from the body, specifically from the respiratory and digestive systems. It is often used to address conditions related to Kapha imbalance, such as respiratory disorders, allergies, and certain skin conditions. Vamana therapy is used in the treatment of respiratory conditions like allergies, sinusitis, and metabolic conditions such as obesity. The process is supervised by trained Ayurveda doctors to ensure safety and efficacy. Vamana Ayurvedic treatment helps patients experience improved digestion, respiratory function, and overall well-being along with symptom alleviation.
- **Virechana:** Virechana treatment is one of the Panchakarma treatments where a patient is made to undergo controlled therapeutic purgation for a specified amount of time. “According to Ayurveda, Virechana treatment is targeted to expel the increased or vitiated pitta dosha from the body. Those who are suffering from the following problems can take this treatment:

- Obesity or overweight issue
- Digestive tract issues, acidity, GERD
- Non-healing wounds, Ulcers
- Abscess, blisters
- Diseases of the Liver and Spleen
- PCOS and infertility
- Metabolic diseases

- **Basti:** Medicated enema for cleansing the colon. Basti works to treat Vata at its source. It accomplishes this with the administration of an herbal concoction into the target area of the colon. Liquids, typically of either a water or oil base, are introduced into the rectum. They are then retained for a predetermined amount of time and then allowed to pass in the same mechanism that a bowel movement would typically act in.

- **Nasya:** Nasal administration of oils and herbal powders. Nasya therapy is an Ayurvedic process that can help clean the upper respiratory passage by draining out the excessive mucus. The term “Nasya” refers to the nose and the treatment involves the use of medicated oils, ghee, powders, juices of raw herbs (brahmi), honey, milk, salts, water etc

- **Raktamokshana:** Blood-letting therapy to remove toxins from the bloodstream. Raktamokshana, a therapeutic para-surgical practice in Ayurveda, focuses on eliminating vitiated blood from the body to address various health concerns. It is a crucial part of the Panchakarma therapy. This specialized technique comprises methods such as incision, venesection, leech therapy, and cupping, each targeting specific conditions and areas of the body. Raktamokshana is useful to detoxify the blood, improve circulation, and alleviate conditions like skin disorders, arthritis, and certain chronic ailments by removing toxins and promoting better blood flow.

2. Abhyanga (Oil Massage):

Abhyanga is a therapeutic full body oil massage, using warm herbal oils tailored to an individual's dosha type. The massage helps in improving blood circulation, reducing stress, and promoting relaxation. It is also used to alleviate pain, increase energy, and promote skin health. This treatment effectively detoxifies, nourishes and revitalizes your whole body to improve general wellness. It stimulates blood circulation, diminishes cellulite, enhances sleep quality, promotes vitality and reduces vata imbalances. It is recommended for the alleviation of stress, stiffness and arthritic back ache.

3. Shirodhara:

Shirodhara involves a gentle stream of warm oil being poured onto the forehead, specifically on the third eye area. This treatment helps in calming the nervous system, reducing stress, improving sleep quality, and promoting mental clarity. Shirodhara relaxes the mind and helps to **eliminate mental toxins** (ama) by giving a purifying effect and balancing your doshas. It stimulates the vital points on your head, which help boost blood circulation. Shirodhara massage on the head allows the oil to infuse deep into the scalp, imparting a comforting sensation, which further permeates into the internal peripheral nerves of the forehead.

4. Herbal Steam Bath:

A steam bath using herbal infusions helps in opening the pores, promoting sweating, and detoxifying the skin. It is often used as a precursor to other treatments like Abhyanga to help loosen toxins in the body. Toxins can accumulate in the body due to various reasons. These toxins need to be removed to prevent any health problems. An Ayurvedic steam bath is a simple and effective therapy to cleanse the body of toxins. A herbal steam bath (known as Bashpa Swedana) involves sweating caused by steam. Such a steam bath can help remove toxins from the body. It is a part of the cleansing therapy done after a massage. A steam bath in Ayurveda involves the use of a steam chamber. Herbs are used in the form of an oil to help remove toxins. The herbs for the steam bath have characteristics that help in correcting any imbalance in the Doshas (primary functional energies) of the body. The removal of toxins and correcting of Dosha imbalance helps to ensure a state of balance and good health.

5. Udvardana (Herbal Powder Massage):

This treatment involves the use of herbal powder to massage the body. It is particularly effective for improving circulation, exfoliating the skin, and aiding in weight management by enhancing metabolism. The procedure of massaging the whole body below the neck in the opposite direction to hair growth with gentle pressure is called Udvardana. It is a special type of Abhyanga (massage) in which Ayurvedic herbal powders are used for massaging.

6. Chakra Healing:

This treatment focuses on balancing the body's energy centers, or chakras, using techniques like meditation, breathing exercise, and oil treatments. It helps in emotional healing, mental clarity, and physical rejuvenation.

7. Ayurvedic Diet and Lifestyle Counseling:

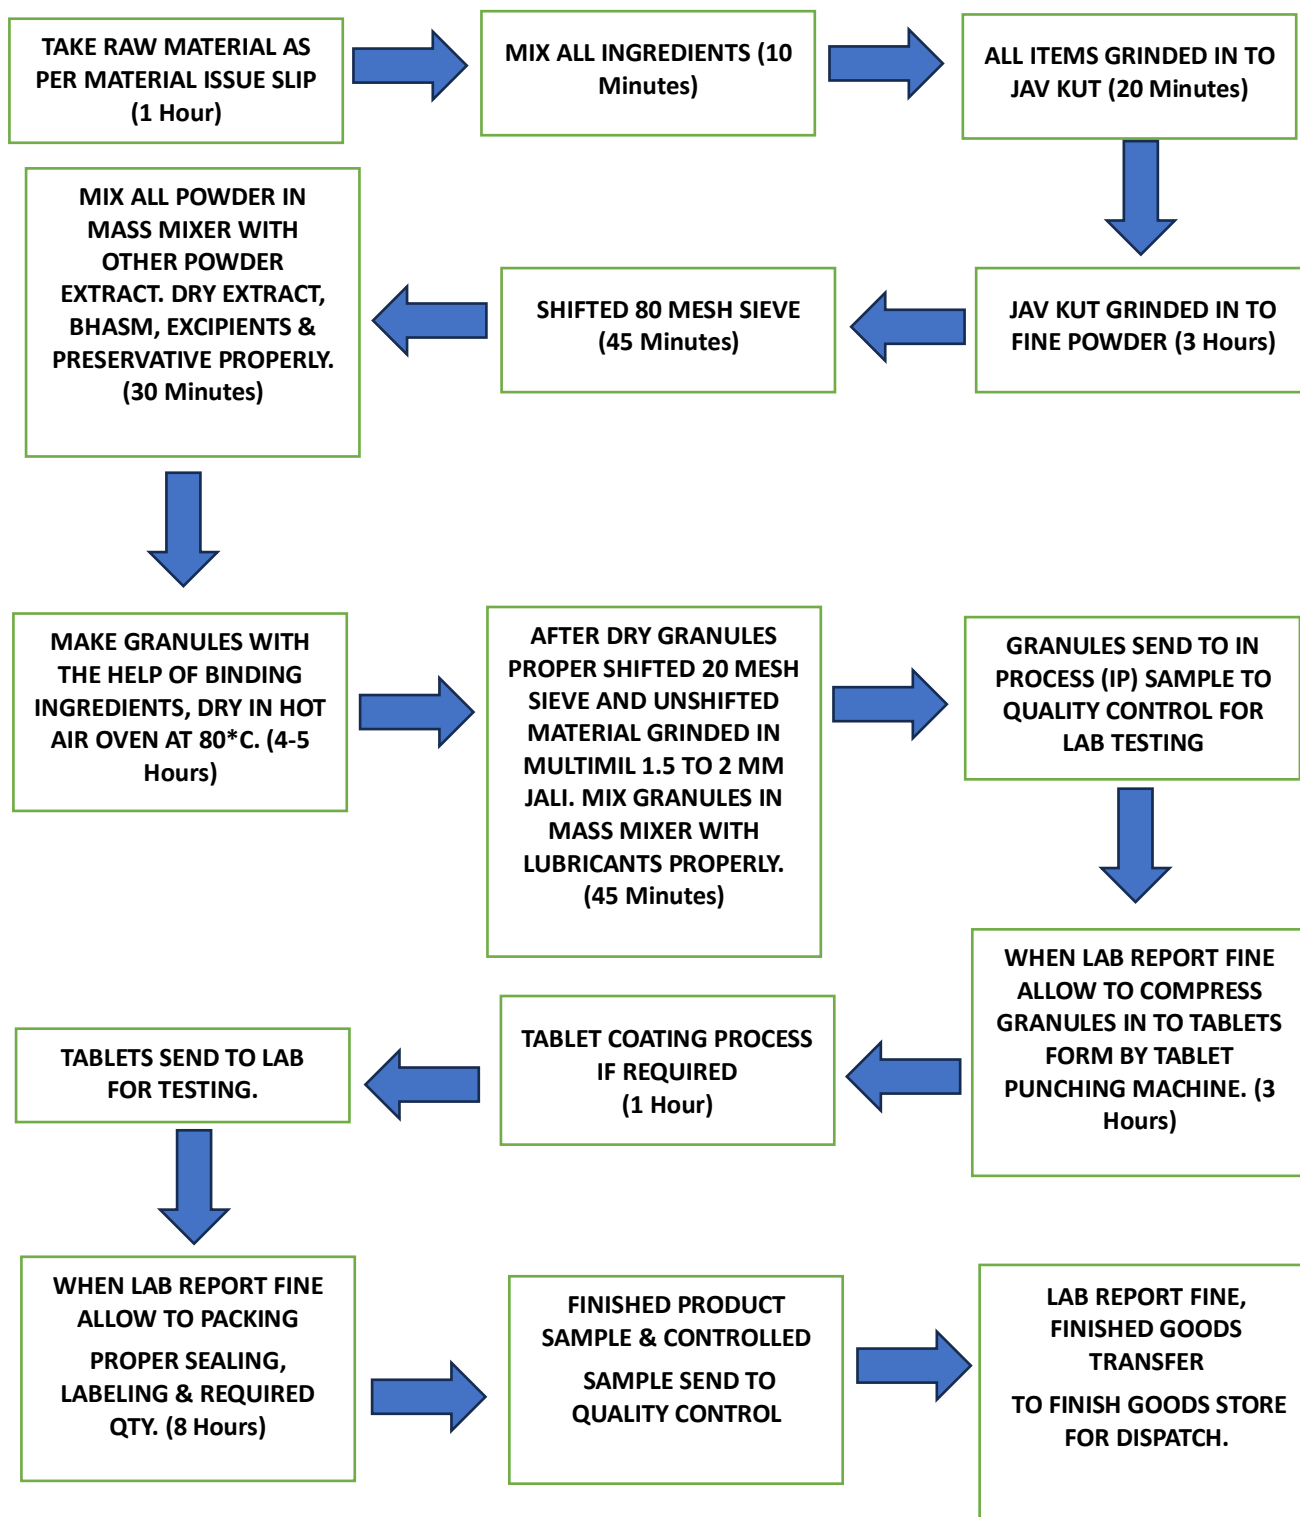

Ayurveda places great importance on a balanced diet and lifestyle to maintain health. Practitioners provide guidance on food choices, eating habits, and daily routine to align with an individual's constitution (dosha) and address specific health concerns.

8. Herbal Medicines:

Ayurvedic herbal medicine uses a variety of plant-based ingredients, such as herbs, roots, and minerals, to restore balance to the body. These medicines are customized to individual needs and may be used to treat a range of conditions from digestive issues to chronic diseases.

PROCESS FLOW CHART OF MANUFACTURING OF PRODUCTS ALONG WITH TENTATIVE TIMELINES:

Tablet Manufacturing Process:

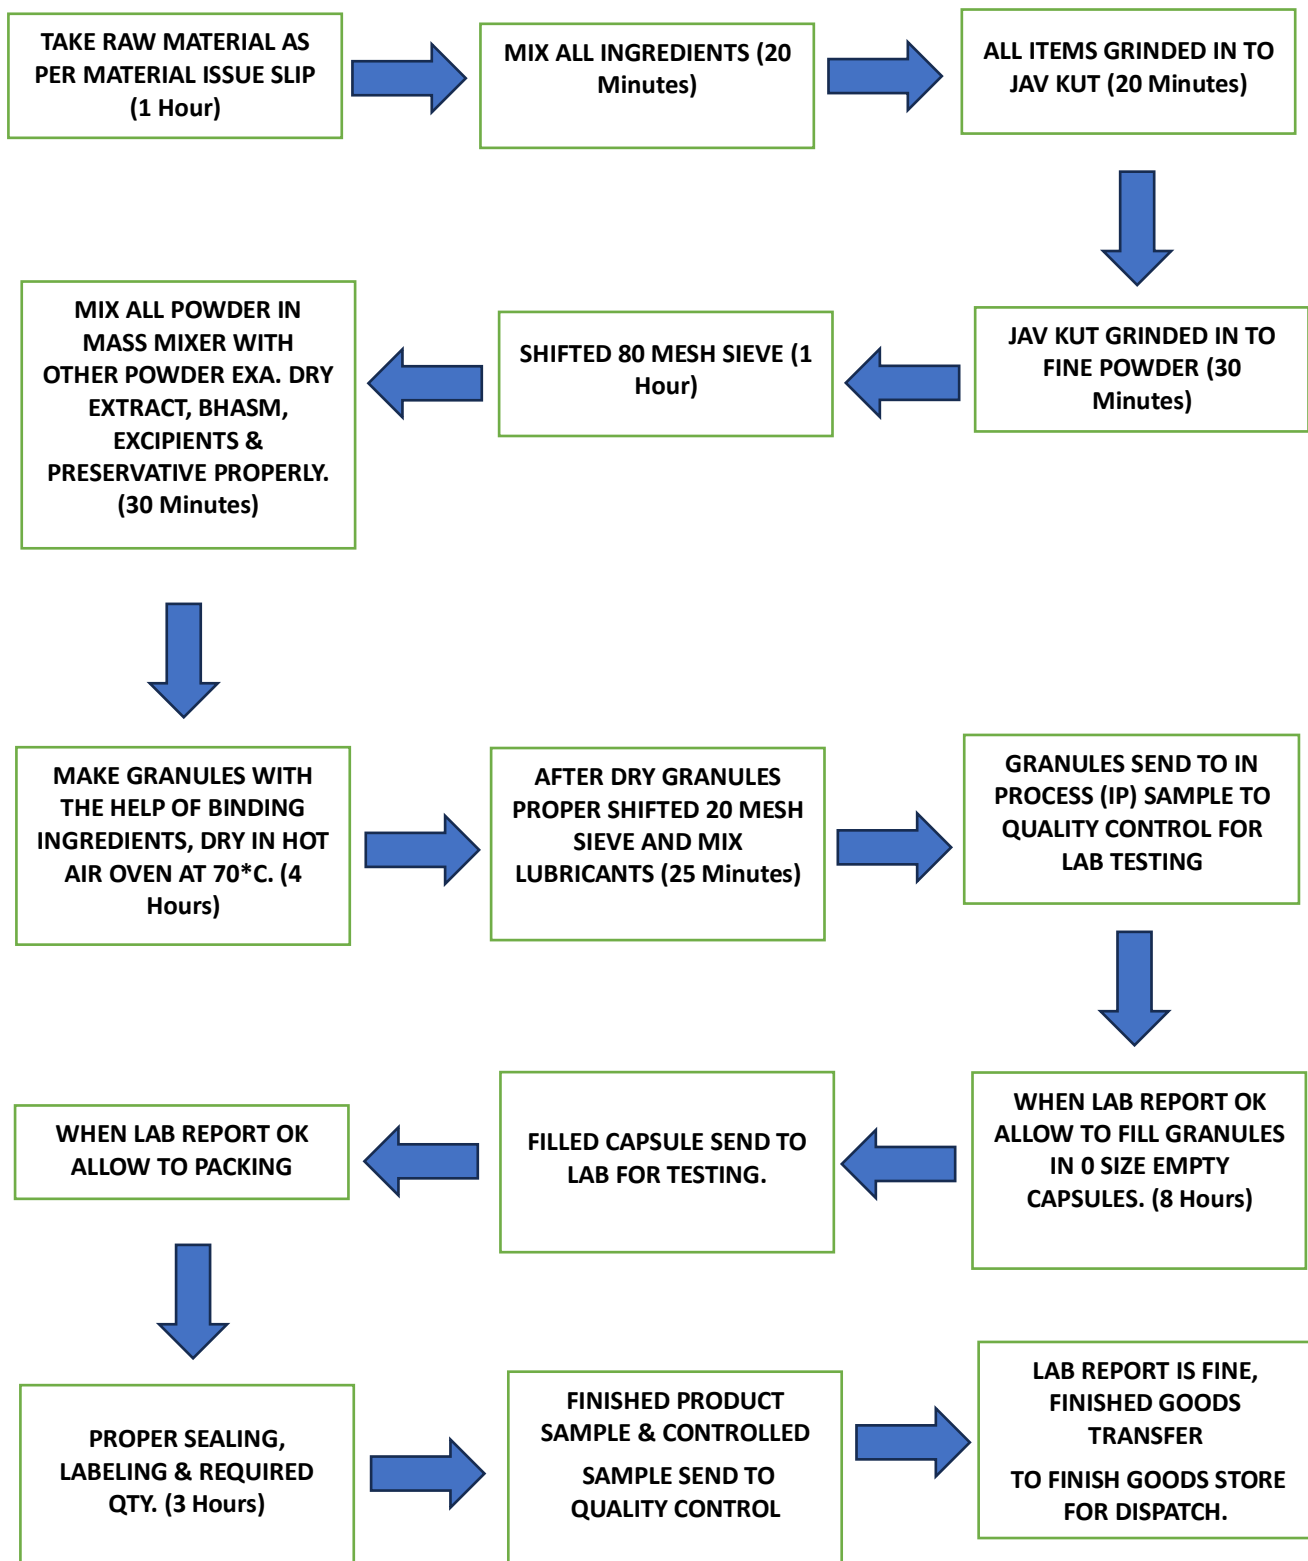

(FLOW CHART FOR TABLETS MANUFACTURING)

Note: Total Hour Consumed Approx. 24 Hours Batch Size 100000 Tablet, Time variates according to Product & Batch Size.

1. **Procurement of Raw Material:** Tablet manufacturing begins with the precise receipt and inspection of all raw materials such as medicinal herbs, powders, Ayurvedic bhasma and excipients procured from suppliers. Upon receipt, materials are visually inspected for quality parameters such as color, texture, and absence of contaminants. Samples are taken and sent to the Quality Control laboratory for identity and purity testing before acceptance.
 2. **Cleaning and Drying:** The raw herbs are cleaned thoroughly and dried appropriately to reduce moisture content, preventing microbial contamination.
 3. **Grinding:** The dried herbs undergo coarse grinding using the traditional Javkut grinding machine, which effectively breaks down the material. Following this, fine grinding is performed using a pulverizer or multi-mill, to achieve a uniform, fine powder consistency.
 4. **Filtration:** The powder is then passed through specified mesh sifters (commonly 80 mesh) to remove oversized particles, which are recycled back into the grinding process.
 5. **Blending:** All measured raw materials are weighed accurately as per batch formula norms and mixed thoroughly in a mass mixer to prepare a homogeneous blend. This ensures uniform distribution of all active and inactive components in the batch.
 6. **Granulation:** For granulation, the blended powder is combined gradually with an approved binder solution, often prepared kwath, under constant mixing conditions. The wet mass is granulated to form damp agglomerates subjected to sieving to achieve uniform granule size.
Granules are dried in a hot air oven, which provides controlled temperature and airflow for efficient moisture removal without overheating, ensuring preservation of active ingredients. Dried granules are screened through mesh sifters (20 mesh) and oversized granules are milled again using the multimill.
- After drying, lubricants such as talc and magnesium stearate are added, and the mixture is blended again using the mass mixer to provide optimal flow properties for compression.
7. **Quality Control check-I:** In-process samples are taken for Quality Control checks on moisture content, microbial limits, and flow characteristics before compression.
 8. **Tablet & Coating:** Tablet compression is carried out using rotary tablet punching machines with calibrated tooling to produce tablets of standard shape, hardness, and weight. Tablets are dried and cooled before final quality inspection.
 9. **Quality Control check-II:** The finished tablets are subjected to comprehensive quality control testing, including dissolution, friability, hardness, and microbial analysis, before packing.
 10. **Packing and labelling:** Upon clearing the final quality check, tablets are packed in blister packs or bottles on automatic packaging lines. All packs are labelled correctly and stored under appropriate conditions.

Capsule Manufacturing Process:

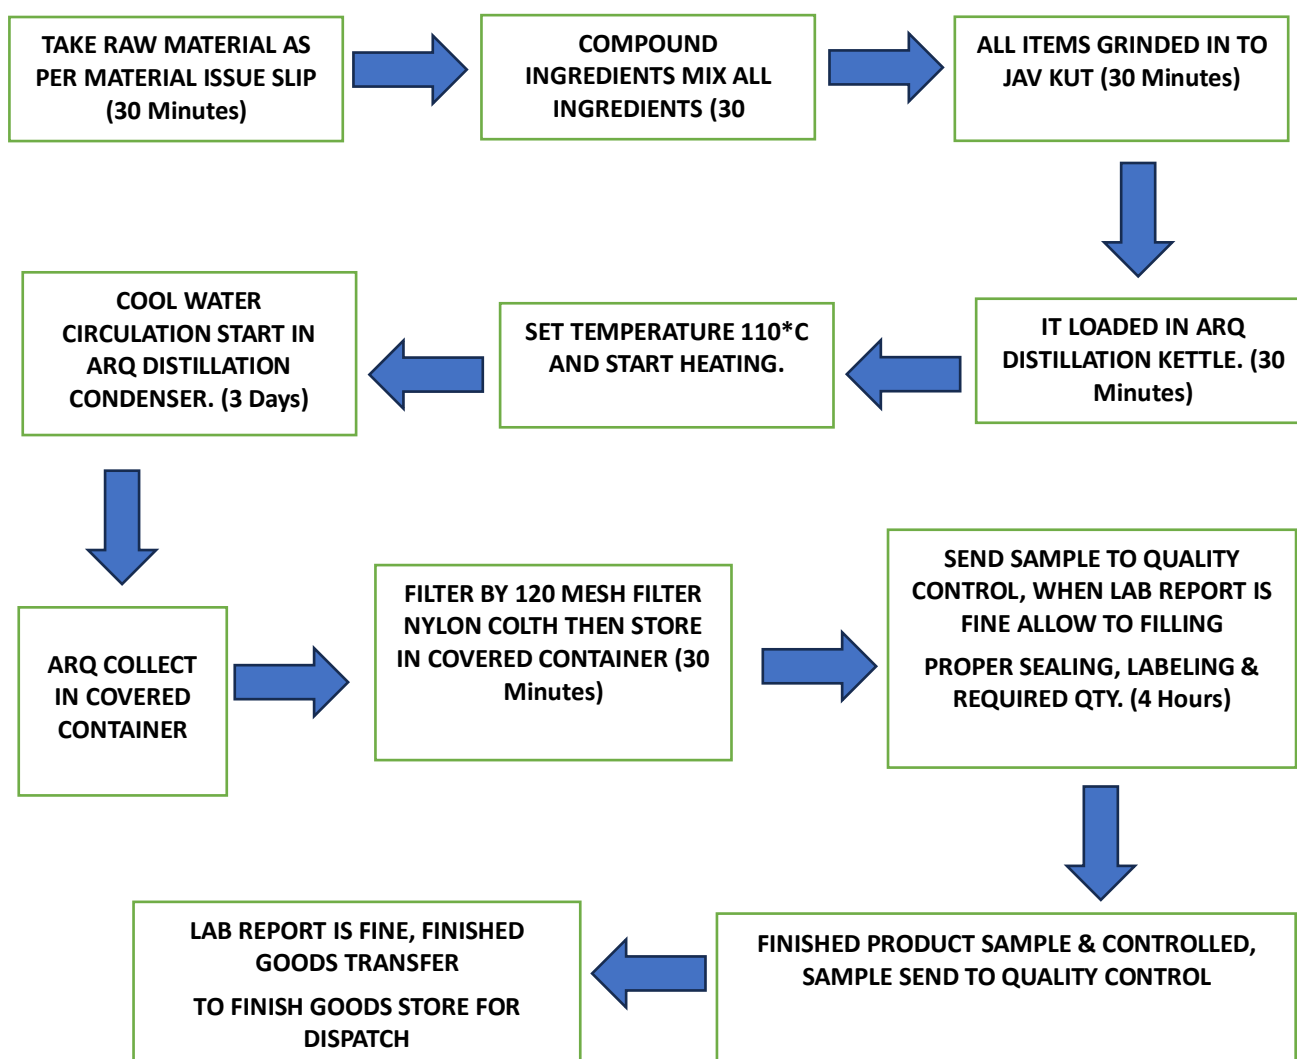

(FLOW CHART FOR CAPSULE MANUFACTURING)

Note: Total Hour Consumed Approx. 24 Hours Batch Size 100000 Capsule, Time variates according to Product & Batch Size.

- 1. Procurement of Raw Material:** Capsule manufacturing starts with the receipt and quality inspection of raw materials including herbal powders, extracts, pharmaceutical excipients, and empty hard gelatin or vegetarian capsules, sourced from approved suppliers. Samples are tested and materials accepted after quality control release.
- 2. Cleaning and Grinding:** Herbal raw materials are cleaned and subjected to both coarse and fine grinding using Javkut and multimill machines for uniform particle size
- 3. Blending:** The herbal powders, dry extracts, and excipients are precisely weighed and mixed in validated mass mixers for homogenization. If required, wet or dry granulation is performed with binders to improve flow properties, followed by drying in hot air ovens at controlled temperatures.
- 4. Capsule filling:** Empty capsules undergo visual inspection and are loaded into automatic or semi-automatic capsule filling machines. These machines separate the capsule cap and body, fill measured amounts of herbal powder or granules into the capsule body, and securely close the capsules. Visual inspection systems spot defects such as damaged or partially filled capsules and remove.
- 5. Quality Control check:** Samples from finished capsules are tested for weight uniformity, dissolution, microbial limits, and capsule shell integrity by Quality Control.
- 6. Packing and labelling:** Approved capsules are packed using automated blister packing or bottle filling machines, labelled with necessary batch details, and stored under controlled environments.

ARQ (Herbal Distillate) Manufacturing Process:

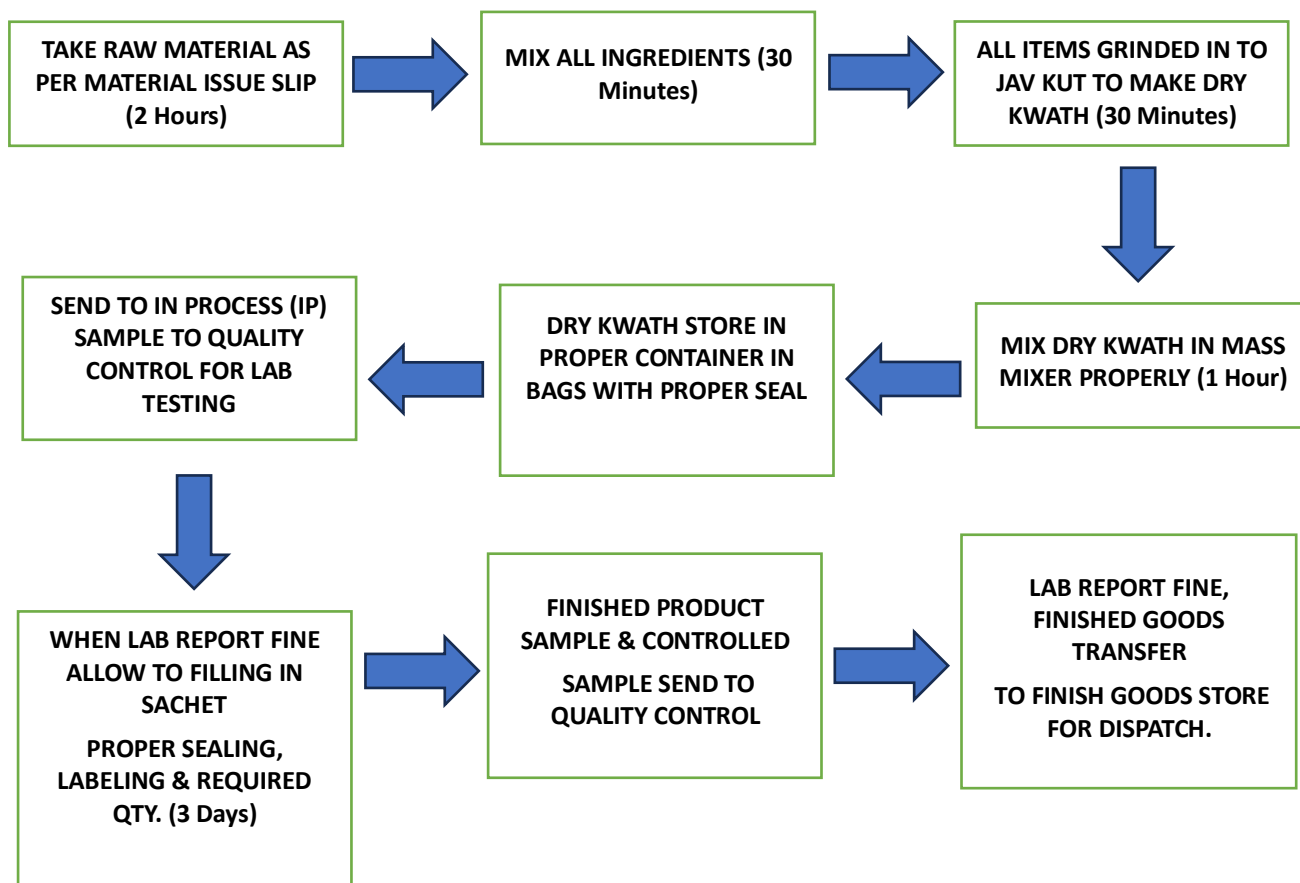

(FLOW CHART FOR ARQ MANUFACTURING)

Note: Total Time Consumed Approx. 4-5 Days Batch Size 200 Ltr. Time variates according to Product & Batch Size.

1. **Procurement of Raw Material:** Arq manufacturing starts with the receipt and quality inspection of raw materials including high-quality aromatic herbs, flowers, or seeds sourced from approved suppliers. Samples are tested and materials accepted after Quality Control release.
2. **Cleaning and Grinding:** Aromatic herbs, flowers, seeds etc. are cleaned and coarse grinding is performed using Javkut or suitable grinders. The material is loaded into stainless steel distillation vessels along with purified water.
3. **Vaporization:** The vessel is heated gradually to generate steam that vaporizes the volatile oils and aromatic compounds. Steam condenses in connected condensers and the distillate is collected in sterile tanks.
4. **Filtration:** The initial distillate fraction is discarded if required to ensure purity. The collected liquid arq is filtered through fine mesh filters to eliminate particulates and ensure clarity.
5. **Quality Check:** Sample testing is conducted in Quality Control for parameters such as organoleptic properties, purity, and microbial counts. Once approved, arq is filled into clean bottles using automated filling machines and sealed securely.
6. **Storage and Dispatch:** Labelled bottles are stored in favorable conditions, protecting the delicate aromatic constituents from heat and light degradation until distribution.

Kwath (Dry Herb Powder) Preparation Process:

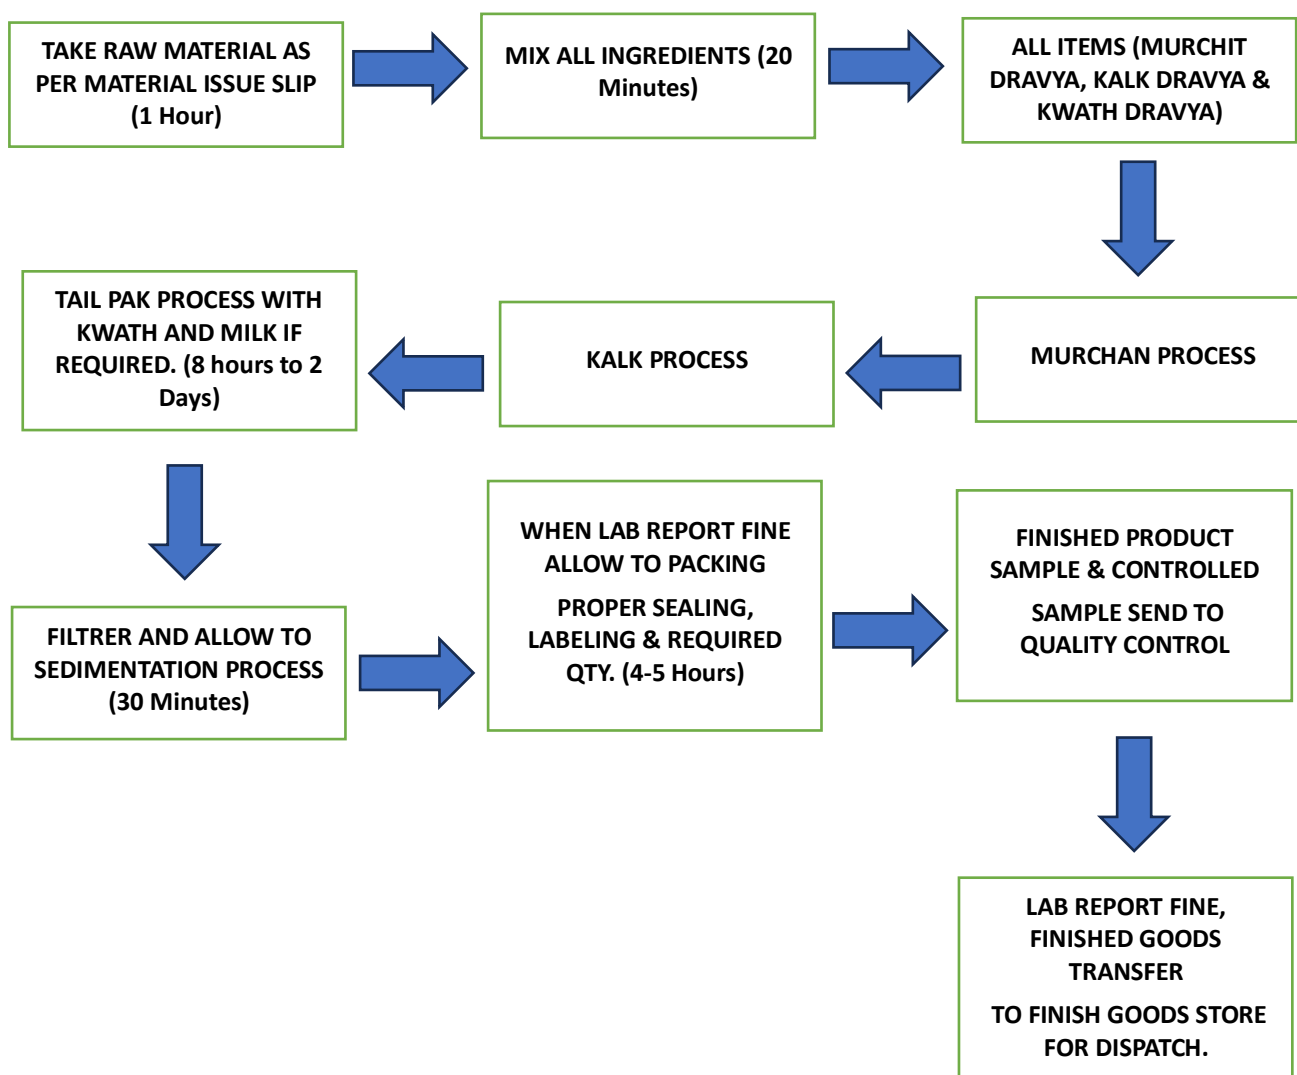

(FLOW CHART FOR DRY KWATH MANUFACTURING)

Note: Total Time Consumed Approx. 3-4 Days Batch Size 200 Kg, Time variates according to Product & Batch Size.

1. **Procurement of Raw Material:** The Kwath preparation process begins with the receipt and quality inspection of raw materials i.e. medicinal herbs sourced from suppliers according to the approved formulation. Samples are tested and materials accepted after quality control release.
2. **Cleaning and Drying:** These herbs are cleaned and dried to appropriate moisture levels to enhance shelf life.
3. **Grinding:** Grinding starts with the Javkut grinding machine for coarse size reduction, followed by fine grinding using pulverizers or multimills. Powders are passed through mesh sifters to isolate finely ground kwath powder from larger particles that are reprocessed. The dry powder is packed into sanitized poly bags and deposited into stainless steel containers under hygienic conditions for storage and handling.
4. **Quality Check:** Samples are sent to the Quality Control laboratory for identity confirmation, purity testing, and microbial load determination. The powder is released for sachet filling only after passing Quality Control inspection.
5. **Sachet filling:** Filling is performed with sachet filling machines under controlled conditions, dispensing measured quantities into sachets, which are sealed to protect against moisture.
6. **Labelling & Packaging:** Sachets are then packed into cartons or relevant packaging materials, labelled, and stored under specified environmental parameters to maintain quality until use in manufacturing.

Oil (Ayurvedic Taila) Manufacturing Process:

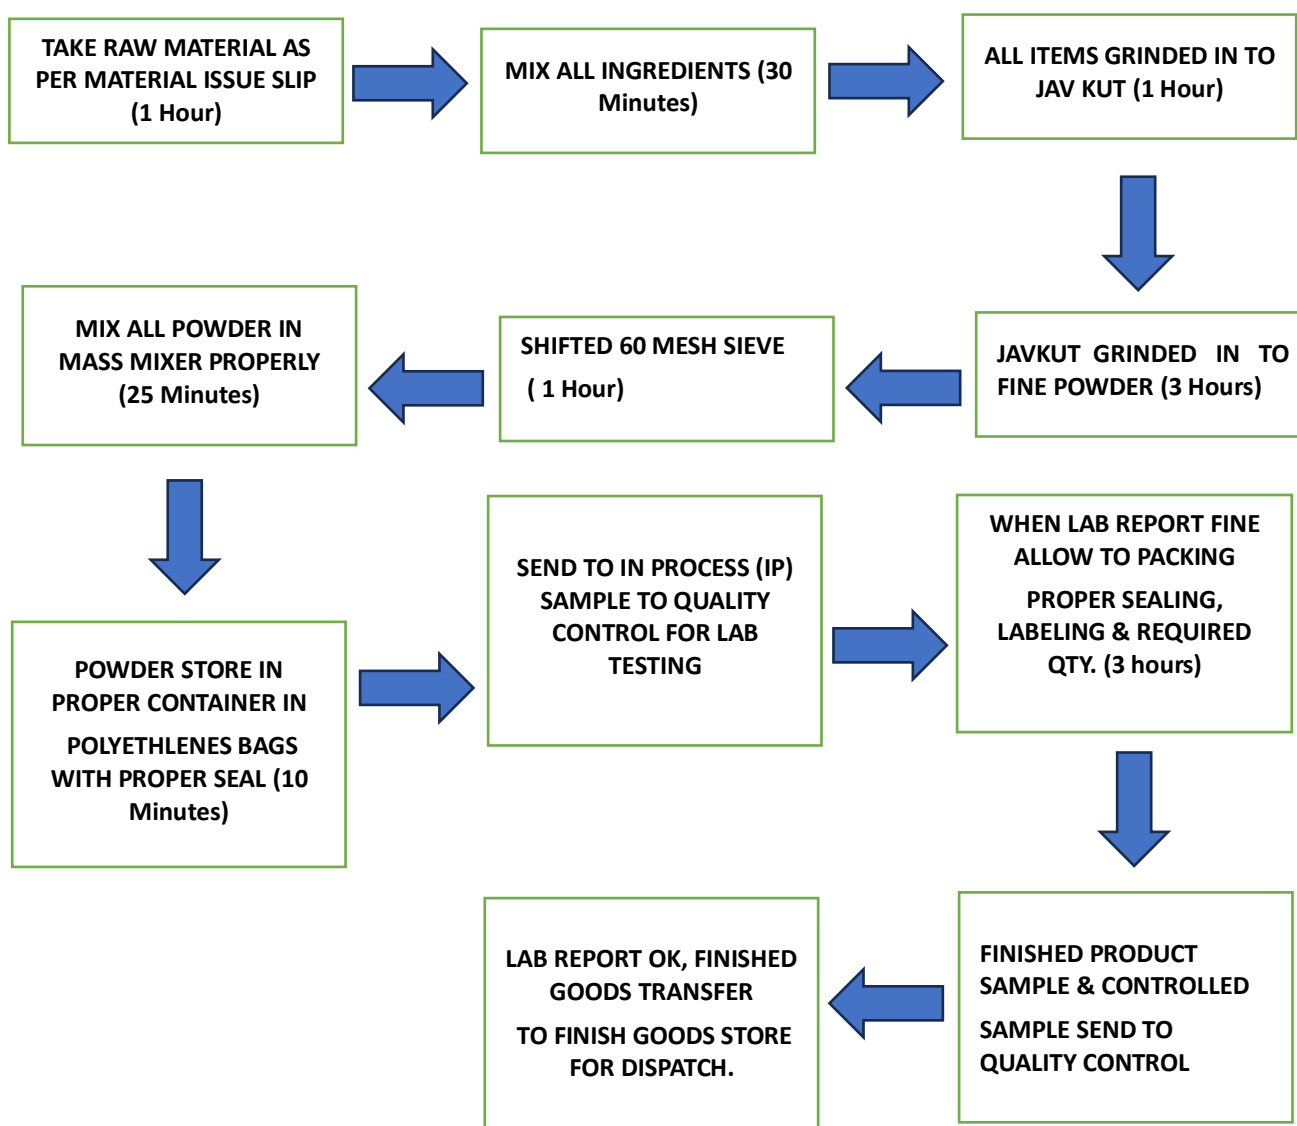

(FLOW CHART FOR OIL MANUFACTURING)

Note: Total Time Consumed Approx. 3-4 Days Batch Size 120 Ltr, Time variates according to Product & Batch Size.

- 1. Procurement of Raw Material:** Oil manufacturing process begins with the receipt and quality inspection of raw materials like kalka (herbal paste) and kwath (herbal decoction).
- 2. Grinding:** Herbs are ground using Javkut and pulverizers to make kalka. Measured quantities of base oil, kalka, and kwath are combined in stainless steel boiling vessels.
- 3. Heating:** The mixture is heated gently with controlled temperature regulation, and constant stirring is performed until proper cooking ('taila paka') is achieved, based on classical organoleptic parameters.
- 4. Cooling & Filtration:** The hot oil is cooled and filtered through mesh strainers to remove solid particles. Settling of suspended matter is allowed under controlled conditions.
- 5. Bottling:** The clarified oil is bottled using filling machines, labelled, and stored in dark, cool environments to maintain efficacy.

Churan (Herbal Powder) Manufacturing Process:

(FLOW CHART FOR CHURAN MANUFACTURING)

Note: Total Hour Consumed Approx. 13 Hours Batch Size 80 Kg, Time variates according to Product & Batch Size.

1. **Procurement of Raw Material:** Churan manufacturing process begins with the receipt and quality inspection of herbs. After selection herbs are cleaned and dried.
2. **Grinding:** Dried herbs are followed by coarse grinding using Javkut grinders. The herbs are then milled finely using pulverizers or multimills. The fine powders are sieved through 60-mesh sifters, with coarse material recycled for further milling.
3. **Blending:** Weighed ingredients are blended in mass mixers to ensure consistency.
4. **Packing & Labelling:** The mixed churan powder is packed into moisture-proof containers or pouches using automatic filling and sealing machines, labelled, and stored in appropriate humidity and temperature conditions pending dispatch.

OUR BUSINESS PROCESS

A. Establishment of New Hospitals and Clinics

For opening of new Ayurveda Hospital and clinics, Company focuses on understanding local market needs, competition, and potential customer preferences. A preliminary look over is conducted to gather information on demographics, health concerns, awareness of Ayurveda, and preferred treatment types. This helps determining the viability of opening of Ayurvedic Hospitals and clinics and tailor services to the local community.

1. Demographics and Health Awareness:

- Age and Gender: Understanding the age groups and the target audience and price points.
- Health Concerns: Identify the most common health issues in the area (e.g., stress, digestive problems, joint pain) to tailor made treatment options.
- Awareness of Ayurveda: Knowing the level of understanding and familiarity with Ayurvedic principles and practices.

2. Clinic Preference and Usage:

- Preferred Treatment Types: Inquire about interest in specific therapies like Panchakarma, Abhyanga, Shirodhara, or Yoga.
- Treatment Location: Assessing the preference for in-clinic treatments or online consultations.
- Willingness to Pay: Understanding how much people are willing to spend on Ayurvedic treatments.

3. Competition and Location:

- Existing Clinics: Identify nearby Ayurveda clinics and their services.
- Location Preferences: Determine optimal locations for the clinic based on accessibility and visibility.
- Marketing Channels: Identify preferred methods for learning about new clinics.

B. Delivery of Service/product

As per doctor's prescription, treatment/therapy is provided at our Hospital/clinic and/or provided medicines. Medicines prescribed on online consultation are sent once the order is successfully placed. We deliver the same through our delivery partners. We also deliver the order through Indian Post having nationwide delivery. We ensure the product is delivered without any hassle.

INFORMATION TECHNOLOGY AND DATA SECURITY SYSTEM:

At present, the Company utilize licensed third-party Customer Relationship Management (CRM) and Hospital Management System (HMS) software solutions for data processing, storage, and operational management. Please refer heading "CRM Software" under the chapter "Object of the issue".

OUR STRENGTHS-

• Skilled Ayurvedic physicians and certified therapists ensuring treatment quality:

Our Company employs a dedicated team of 31 qualified Ayurvedic physicians who have obtained formal qualifications such as Bachelor of Ayurvedic Medicine and Surgery (BAMS) from accredited institutions recognized by statutory bodies like the Central Council of Indian Medicine (CCIM). These physicians bring knowledge of Ayurvedic principles and clinical expertise, ensuring authenticity and efficacy in all treatments provided.

In addition, the Company has a team of 59 certified Ayurvedic therapists who have undergone training and certification programs covering traditional therapies such as Panchakarma, Abhyanga, and other specialized Ayurvedic treatments. These certifications ensure that therapists are skilled in both theoretical knowledge and practical application, adhering to quality standards and patient safety protocols.

Treatment quality is further ensured through adherence to guidelines and quality assurance frameworks recommended by national authorities like the Ministry of AYUSH and accreditation bodies such as NABH.

- **Centralized GMP-certified Production**

The Company's Ayurvedic medicines are produced in a centralized processing unit that is certified under Good Manufacturing Practices (GMP) as prescribed by the Drugs and Cosmetics Act, 1940 and Rules, 1945, specifically under Schedule T which governs Ayurvedic medicine production. This GMP certification ensures that the manufacturing processes maintain stringent hygiene, sanitation, and quality standards to guarantee the purity, safety, and efficacy of the products.

Our facility complies with quality control protocols including raw material verification and batch traceability, all overseen by technical staff. This centralized GMP-certified production not only aligns with national regulatory standards set by the Ministry of AYUSH and the Central Drugs Standard Control Organization (CDSCO) but also enhances the Company's capacity to meet domestic and international quality expectations in our customer base.

OUR BUSINESS STRATEGIES:

To capitalize on our strengths and opportunities while mitigating weaknesses and threats, our Company will pursue the following multi-pronged strategy:

Business Strategies for Our Hospitals and Clinics

1. Expansion of Domestic and International Market:

Our Company intends to expand its geographical footprint by deepening its presence in existing markets and entering new domestic and international territories.

- Presently, we operate a network of 6 hospitals and 5 clinics, primarily concentrated in North India.
- To achieve our expansion goals, we have initiated feasibility studies for setting up new hospitals in Tier-II cities such as Jaipur and Lucknow, where demand for quality healthcare is increasing.
- Internationally, we have commenced telemedicine consulting services catering to patients in the United State of America, which has helped establish our brand presence overseas.

2. Conducting Training Courses for Therapists:

The Company has been accredited by **Rashtriya Ayurveda Vidyapeeth (RAV)** to conduct certified Ayurveda training programs, including Panchkarma Technician Course, Prakriti Course, Leech Therapy Course, and Basti Therapy Course.

- We have already commenced these training programs with the first batch successfully completed in FY 2024–25.

3. Regulatory Compliance and Certifications:

The Company places strong emphasis on maintaining the highest standards of regulatory compliance and patient safety.

- We are in the process of obtaining **NABH accreditation** for two of our hospitals and intend to extend the certification to all operational facilities in a phased manner.

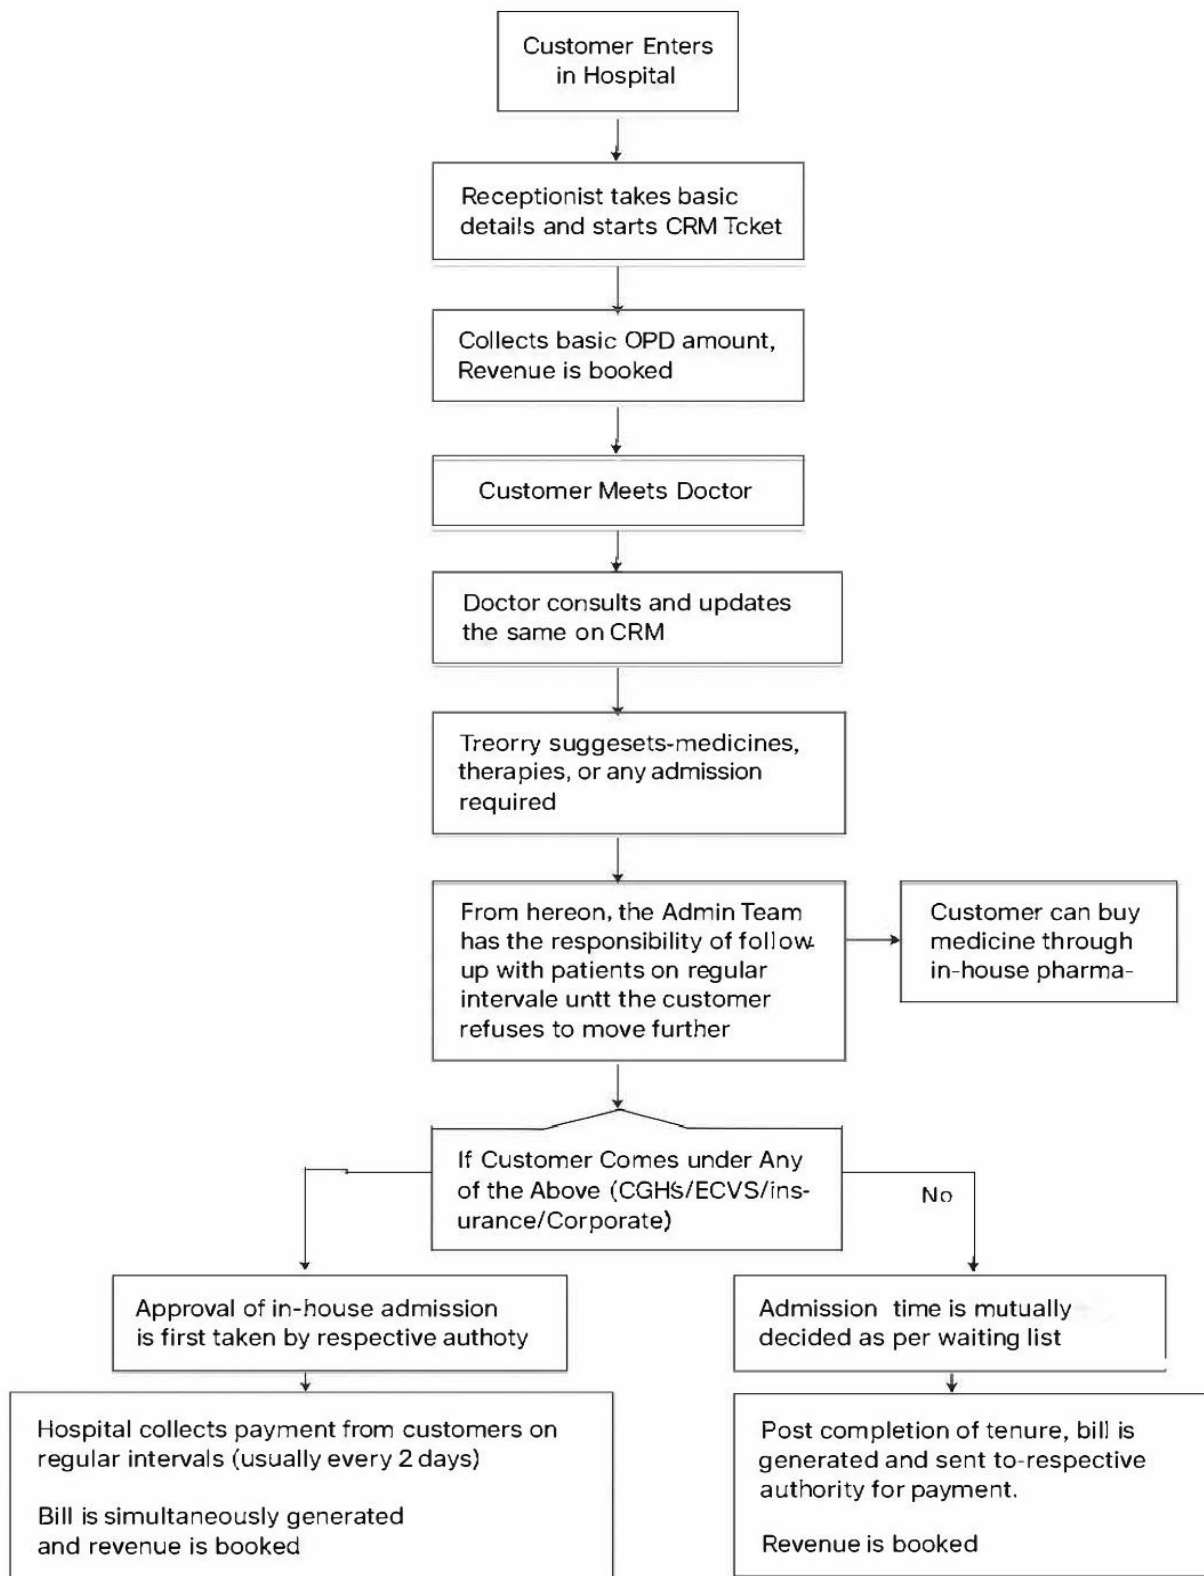

Business Strategies for Our Ayurveda Product Division

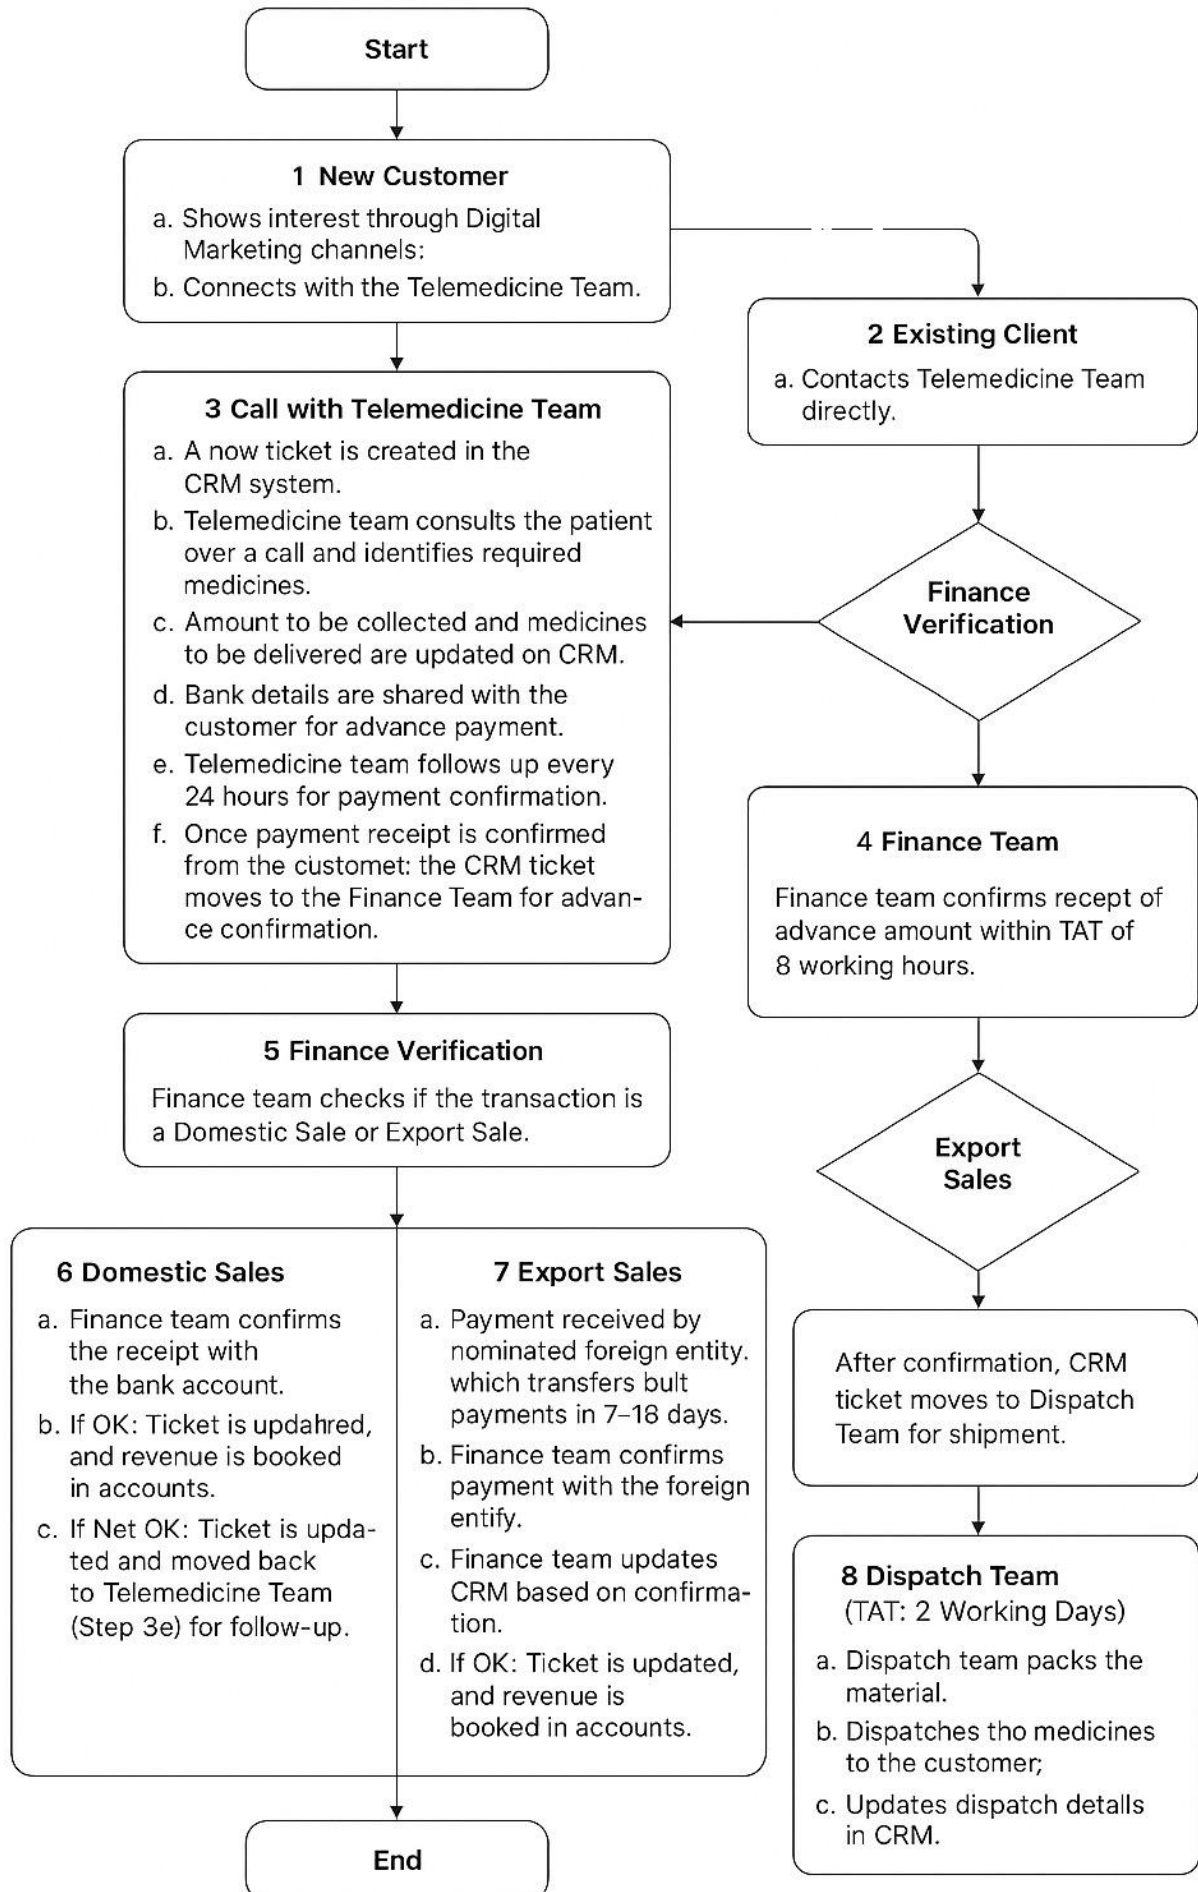

1. Distribution and Expansion:

Our Ayurveda product division aims to strengthen its market reach through a wider distribution network and strategic brand partnerships.

- Our products are currently distributed through our in-house pharmacies at hospitals and clinics, as well as through our teleconsultation platform.
- Additionally, we also provide the our products via our telecommunication channel dedicated to Ayurveda and wellness products.

Hospital / Clinic Sales - Process Flow

A. Cashless Facility Process

1. Admission and Insurance Intimation

On admission, the accounts team collects the insurance card and policy details from the patient. Verification is carried out to confirm if the insurer is empanelled with the hospital. If empanelled, the insurer is immediately intimated about the admission.

2. Pre-Authorization Request

A formal pre-authorization is submitted to the insurer containing the diagnosis, estimated cost of hospitalization, and expected duration of stay.

3. Approval and Cashless Treatment

Once approval is received, the hospital extends cashless treatment to the patient. The insurer settles the eligible and approved expenses directly with the hospital. If only partial approval is given, the patient/family is advised of the balance payable.

4. Hospitalization Updates and Documentation

The hospital maintains direct communication with the insurer regarding treatment extensions or modifications during hospitalization and provides medical records, reports, and other documents as required.

5. Discharge and Claim Settlement

At discharge, the operations team compiles the final bill, discharge summary, and relevant supporting papers, and forwards them to the insurer for final settlement. The insurer then releases payment to the hospital against the approved claim.

B. Reimbursement Process (Where Cashless Not Available)

1. Admission and Direct Payment by Patient

Where cashless facility is not available (either because the insurer is not empanelled or cashless approval could not be obtained), the patient is required to make direct payments to the hospital for admission, hospitalization, and discharge expenses.

2. Issuance of Medical Documents

The hospital furnishes the patient with a complete set of medical records, including admission papers, diagnostic reports, treatment charts, operative notes (if any), discharge summary, and final bill duly signed and stamped by the hospital authority.

3. Submission to Insurance Company by Patient

The patient submits the claim form and supporting documents to the insurer within the prescribed time limits as per their policy.

4. Clarifications and Support

If the insurer seeks clarification, additional certificates, or authenticated documentation, the hospital also assists the patient by verifying medical records and issuing necessary documents.

5. Approval and Reimbursement Settlement

After scrutiny, the insurer reimburses the approved claim amount directly to the patient/policyholder (and not to the hospital).

COLLABORATIONS

Our Company has entered into collaborations agreements with different Corporates for providing treatments to its employees on specialized discounted rates. Further we have also tie up with insurance companies for providing treatment on cashless basis as well as reimbursement post treatments. Following is the details of our collaborations/ tie up:

| S. No. | Party Name* | Date of Agreement/MoU | Validity of the Agreement | Facilities provided |

OUR SOURCE OF REVENUE:

1. Hospitals & Clinics:

- Direct Patient Services: This includes OPD, IPD, and therapy charges. Our Ayurvedic Hospitals and Clinics generate revenue through personalized consultations, Ayurvedic therapies like Panchakarma, massage treatments, and wellness programs.
- Wellness & Preventive Packages: Customizable wellness packages combining consultations, therapies, and lifestyle courses help sustain recurring revenues and client retention.

2. Sale of Medicines: This is our another revenue stream involving the sale of Ayurvedic medicines, herbal supplements, oils, skincare products, and other wellness-related items. Virtual consultations leveraging telemedicine also opens global markets.

The Company's revenue contribution from Delhi decreased during FY 2024–25 primarily due to a strategic shift in business focus. Historically, the Delhi unit contributed a major portion of revenue through telemedicine and medicine-sales activities. During FY 2023–24 and FY 2024–25, the Company undertook a conscious strategic decision to reduce dependency on this segment and instead concentrate on expanding hospital-based services, which offer better scalability and long-term sustainability.

As a result of this shift in operational focus, activity levels in the Delhi unit declined, leading to a reduction in product-based revenue and, consequently, a lower overall contribution from the region. Accordingly, Delhi's share of total revenue reduced from 57.40% in FY 2022–23 to 28.90% in FY 2024–25.

The detailed year-wise revenue contribution is presented below:

(Amount in Lakhs)

| Particulars | 2024-25 | | 2023-24 | | 2022-23 | |
|--------------|-----------------|----------------|-----------------|----------------|-----------------|----------------|
| | Amount | % | Amount | % | Amount | % |
| Products | 1,430.65 | 64.57% | 2,718.83 | 90.01% | 4,771.66 | 93.10% |
| Services | 785.04 | 35.43% | 301.77 | 9.99% | 353.64 | 6.90% |
| Total | 2,215.69 | 100.00% | 3,020.60 | 100.00% | 5,125.30 | 100.00% |

This decline is therefore attributable to the Company's strategic reallocation of resources from telemedicine and medicine distribution in Delhi to hospital-centric services, resulting in a reduction in revenue from the Delhi region.

On the other hand, revenue from Haryana increased significantly, with its contribution rising from 3.5% in FY 2022-23 to 27.5% in FY 2024-25. This growth was mainly driven by the launch and rapid expansion of the Gurugram Hospital, which became operational in FY 2023-24 and achieved full-scale operations in FY 2024-25.

RAW MATERIALS USED BY COMPANY FOR ITS PRODUCTS ALONG WITH SOURCES OF RAW MATERIALS.

The Company procures raw materials from various suppliers based in India, with no formal supply agreements or contracts currently in place. The selection of suppliers is determined by factors such as product availability, pricing,

logistics, and quality requirements, allowing the Company to maintain flexibility in its procurement process. This approach enables the Company to adapt swiftly to changing market conditions and ensures timely delivery of high-quality goods to its clients. The supplier base is dynamic and subject to change, as the Company prioritizes operational agility and the ability to respond to evolving procurement needs without being bound to any single vendor.

CONSUMER COMPLAINTS REDRESSAL MECHANISM

Our Company has established a Consumer Complaint Redressal Mechanism to provide a transparent and effective procedure for the registration and resolution of consumer complaints regarding the company's services and products and ensuring timely redressal. This mechanism applies to all delivery and logistic; bill and payment; return and refund; service issues.

Registration: Complaints can be lodged through multiple channels:

- o In-person at all clinics/hospitals
- o Dedicated customer service helpline
- o Company's official website/contact form
- o Through Email
- o Postal mail to the registered office

Once the Complaint is registered, an acknowledged reference number is provided within 24 hours of receipt (excluding weekends/holidays). Further an initial response on the nature of the complaint and expected resolution timeline will be provided within 48 hours.

Once the complaint is registered it is logged into Complaint Register and based on the criteria of severity categorized into High Priority (resolve within 24 hours), Medium priority (resolve within 3-5 days), Low priority (resolve within 7- 15 days). Further complaints are classified as service-related or product-related.

Resolution and Communication: Upon investigation, findings with explanations are communicated with final decision in writing to the complainant. Further actions taken such as rectification of service/product, refund, or replacement etc. are also communicated. Thereafter complaint is considered as closed.

Record-keeping and Reporting: All complaints, investigations, and actions taken are recorded and securely maintained for at least 3 years. Further, periodic review of complaints by management for trend analysis, corrective actions, and policy improvement is also done.

**Chief Level which includes all the departmental head.*

Out of the above 443 employees only 85 employees are covered under Employees' Provident Funds and Miscellaneous Provisions Act, 1952 ("Act"), as on December 31, 2025.

Reason: The basic salary of the remaining 358 employees does not fall as all have filled the consent form for not deducting the PF amount. Therefore, the provision of the Act does not apply to them.

Out of the above 443 employees only 90 employees are covered under Employees' State Insurance Act, 1948 ("Act"), as on December 31, 2025.

Reason: The gross salary of remaining 358 employees does not fall with the stipulated threshold limits. Therefore, the provision of the Act is not applicable to them.

ATTRITION RATE

Over the past three years, our company has experienced fluctuation in attrition rates: 37% in 2023, 78% in 2024 and 32% in 2025. Also, the same has been mentioned in the table below:

| Particulars | As on | | | |
|-----------------------------------|----------------|----------------|----------------|----------------|
| | September 2025 | March 31, 2025 | March 31, 2024 | March 31, 2023 |
| No. of Employees at start of year | 377 | 341 | 523 | 287 |
| No. of Employees Joined | 152 | 168 | 228 | 674 |
| No. of Employees Left | 60 | 114 | 339 | 150 |
| No. of Employees at the End | 453 | 377 | 341 | 523 |
| Average No. of Employees | 415 | 359 | 432 | 405 |
| Attrition Rate % | 14.46% | 31.75% | 78.47% | 37.04% |

*Total employees also include Key Managerial Personnel (KMP).

In FY22-23 attrition rate was high 37% because we hired employees in order to increase the revenue mix (674 joined per risk factor) and then some employees left during performance reviews (114 left, which is 37% of average workforce).

Further, In FY23-24 attrition increased to 78% due to the strategic focus shift adopted by company from product revenue towards revenue from services resulting in many resignations..

Also, we did not hired employees under tele consulting and sales which used to comprise largest concentration of human resources and started hiring for the clinics and hospitals only.

We also introduced leadership team for better employee engagement and training programs in late FY24-25 which helped attrition drop to 32%.

COMPETITION

According to the Dun & Bradstreet Industry Report India continues to be one of the fastest-growing major economies, supported by strong domestic demand, large-scale infrastructure development, and sustained policy reforms. This resilience, even in the face of global uncertainties, positions the country as an attractive long-term growth destination with opportunities across both capital-intensive and consumption-driven sectors.

Healthcare has emerged as a key investment avenue, expanding rapidly with increasing coverage, rising private participation, and greater policy support. The sector spans hospitals, medical devices, insurance, telemedicine, and medical tourism, creating a broad base for investor participation. At the same time, the AYUSH industry, led by Ayurveda and holistic wellness practices, has seen remarkable expansion driven by consumer preference for natural treatments, wellness tourism, and growing global recognition.

Both healthcare and AYUSH are attracting strong institutional interest, entrepreneurial activity, and government support through focused missions and incentives. While challenges remain around standardization and scientific validation, the

sectors continue to generate employment, drive innovation, and expand international reach. For investors, they present scalable opportunities with high growth potential and sustainable value creation.

The business of our Company requires, at various stages, the sanction of the concerned authorities under the relevant Central, State legislation and local laws. The following description is an overview of certain laws and regulations in India, which are relevant to our Company. Certain information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below are not exhaustive and are only intended to provide general information to Applicants and is neither designed nor intended to be a substitute for professional legal advice.

The statements below are based on current provisions of Indian law, and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions.

RELATED TO OUR BUSINESS

- **Drugs And Cosmetics Act, 1940 (“DCA”) And Rules Made Thereunder**

The Drugs and Cosmetics Act (DCA) is the statute governing the import, manufacture, distribution and sale of drugs and cosmetics and prohibits the import, manufacture and sale of certain drugs and cosmetics which are, inter alia, misbranded, adulterated, *spurious* or harmful. The DCA supervises the importation of medications into India to prevent the entry of substandard or counterfeit drugs. It prohibits the domestic production of inferior or counterfeit pharmaceuticals. The DCA mandates that only qualified and competent personnel are permitted to sell and distribute medicines. The DCA requires regular inspections of licensed premises by drug inspectors. Additionally, the DCA ensures the monitoring of pharmaceutical and cosmetic standards by collecting samples and analyzing them in accredited laboratories. It establishes specific regulations for the manufacture, standardization, and storage of biological and special products, and prescribes labeling and packaging requirements for various types of drugs and cosmetics. Chapter IV-A of the DCA governs the manufacture and sale of Ayurvedic, Siddha and Unani drugs. It also lays out constitution of a Ayurvedic, Siddha and Unani Drugs Technical Advisory Board and a Ayurvedic, Siddha and Unani Drugs Consultative Committee. The DCA defines, prohibits and lays down the penalty for misbranded, *spurious* and adulterated drugs under this Chapter.

- **The Drugs and Cosmetics Rules 1945**

The Drugs and Cosmetics Rules 1945 governs the manufacturing, testing, labelling, packaging and limit of alcohol in Ayurvedic, Siddha or Unani Drugs. The Rules regulate that the Company follows the quality standard norms to manufacture Ayurveda, Siddha and Unani Drugs and also grants the certificate of Good Manufacturing Practices (GMP) to the manufacturers.

- **Drug & Magic Remedies (Objectionable Advertisements) Act, 1954**

The Drugs and Magical Remedies (Objectionable Advertisements) Act, 1954, is an Indian law designed to control the advertisement of drugs in a manner that can mislead the public. The Act prohibits advertisements of drugs and magical remedies for the treatment of certain diseases and disorders listed in its schedule, such as cancer, diabetes, and epilepsy. It also forbids advertisements that make false claims about the efficacy of drugs or magical remedies. Advertisements related to drugs must comply with the Act's provisions to prevent the exploitation of the public through exaggerated or deceitful claims. The Act prescribes penalties for violations, including imprisonment and fines, and applies to all forms of advertisements, including print, broadcast, and digital media. By regulating drug advertisements and prohibiting false claims, the Act aims to safeguard public health and ensure that individuals make informed decisions regarding medical treatments.

- **The Clinical Establishments (Registration and Regulation) Act 2010 (CERR Act)**

The CERR Act is a central legislation which provides for the registration and regulation of clinical establishments. The objective of the CERR Act is to regulate and standardize clinical establishments to ensure quality healthcare services. It mandates the registration of hospitals, clinics, nursing homes, and diagnostic centres, requiring them to obtain provisional and permanent registration, valid for five years, from the district registering authority. The Act also establishes national and state councils to maintain registers, set and review minimum standards, and handle appeals. Additionally, several Indian states have enacted their own clinical establishment laws.

The Ministry of Health and Family Welfare, through a notification on May 23, 2012, enforced the CECG Rules in states where the CERR Act applies. These rules set conditions for the registration and operation of clinical establishments, requiring them to display service rates in vernacular and English, adhere to government-determined pricing, follow standard treatment guidelines, maintain electronic patient records, and keep statistical information as prescribed.

- **The Narcotic Drugs and Psychotropic Substances Act 1985 (NDPS Act)**

The NDPS Act is a legal framework which seeks to control and regulate operations relating to narcotic drugs and psychotropic substances. It prohibits, inter alia, the cultivation, production, manufacture, possession, sale, purchase, transportation, warehousing, consumption, inter-state movement, import into India and transshipment of narcotic drugs and psychotropic substances, except for medical or scientific purposes. It also controls and regulates controlled substances which can be used in the manufacturing of narcotic drugs and psychotropic substances. Offences under the NDPS Act are essentially related to violations of the various prohibitions imposed under the NDPS Act, punishable by either imprisonment or monetary fines or both.

- **The New Drugs and Clinical Trials Rules 2019 (Clinical Trials Rules)**

Under the Clinical Trials Rules, the ethics committee constituted thereunder is required to register itself with the central licensing authority in order to conduct any clinical trial, bioavailability study or bioequivalence study. The Clinical Trials Rules further provide for the composition and functions of the ethics committee and its period of validity. The Clinical Trials Rules further mandate the maintenance of records for a period of five years after completion of the clinical trial, bioavailability study or bioequivalence study, as the case may be.

- **Food Safety and Standards Act, 2006 (FSSA)**

The FSSA was enacted with a view to consolidate the laws relating to food including health supplements and nutraceuticals. Under this Act, Food Safety and Standards Authority of India (FSSAI) for laying down scientific standards for articles of food and to regulate their manufacture, storage, distribution, sale and import to ensure availability of safe and wholesome food. The FSSAI is required to provide scientific advice and technical support to the GoI and the state governments in framing the policy and rules relating to food safety and nutrition. The FSSA also lays down penalties and/or imprisonment for various offences (including recall procedures).

- **Legal Metrology Act, 2009 (“LM Act”) And The Legal Metrology (Packaged Commodities) Rules, 2011 (“Packaged Commodity Rules”)**

The LM Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number. The LM Act and rules framed thereunder regulate, inter alia, the labelling and packaging of commodities, appointment of government-approved test centers for verification of weights and measures used, and lists penalties for offences and compounding of offences under it. Any non-compliance or violation under the LM Act may result in, inter alia, a monetary penalty on the manufacturer or seizure of goods or imprisonment in certain cases. The Packaged Commodity Rules define “pre-packaged commodity” as a commodity which without the purchaser being present is placed in a package of a pre-determined quantity. The Packaged Commodity Rules prescribes the regulations for imports, pre-packing and the sale of commodities in a packaged form intended for retail sale, whole sale and for export and import, certain rules to be adhered to by importers, wholesale and retail dealers, the declarations to be made on every package, the size of label and/or importers and the manner in which the declarations shall be made, etc. These declarations that are required to be made include, inter alia, the name and address of the manufacturer, the dimensions of the commodity, the maximum retail price, generic name of the product, the country of origin and the weight and measure of the commodity in the manner as set forth in the Packaged Commodity Rules. The Packaged Commodity Rules were amended in the year 2017 to increase protection granted to consumers especially relating to e-commerce entities. Pursuant to the amendments, the inventory e-commerce entity itself will be made liable and punishable for failure to make relevant declarations on its platform as required under the Act and the Rules.

- **Sale of Goods Act, 1930 (The “Sale of Goods Act”)**

Sale of Goods Act governs contracts relating to sale of goods. The contracts for sale of goods are subject to the general principles of the law relating to contracts i.e. the Indian Contract Act, 1872. A contract for sale of goods has, however, certain peculiar features such as, transfer of ownership of the goods, delivery of goods, rights and duties of the buyer and seller, remedies for breach of contract, conditions and warranties implied under a contract for sale of goods, etc. which are the subject matter of the provision of the Sale of Goods Act.

- **The Industries (Development and Regulation) Act 1951 (Industries Regulation Act)**

The Industries Regulation Act is an Act to govern the development and regulation of industries in India. The main objectives of the Industries Regulation Act are to empower the Government: (i) to take necessary steps for the development of industries; (ii) to regulate the pattern and direction of industrial development; (iii) to control the activities, performance and results of industrial undertakings in the public interest. The Industries Regulation Act applies to the Scheduled Industries listed in the First Schedule of the Act. However, small scale industrial undertakings and ancillary units are exempted from the provisions of the Industries Regulation Act.

The Industries Regulation Act is administered by the Department for Promotion of Industry and Internal Trade (DPIIT). The DPIIT is responsible for formulation and implementation of promotional and developmental measures for growth of the industrial sector. It monitors the industrial growth and production, in general, and selected industrial sectors. Certain specified categories of industries require industrial licensing under the Industries Regulation Act.

- **The Electricity Act 2003 (Electricity Act)**

The Electricity Act is the central legislation which inter alia covers the generation, transmission, distribution, trading and usage of electricity. Under the Electricity Act, the transmission, distribution and trade of electricity are regulated activities that require licenses from the Central Electricity Regulatory Commission (CERC), the State Electricity Regulatory Commissions (SERCs) or a joint commission (constituted by an agreement entered into by two or more state governments or the central government in relation to one or more state governments, as the case may be).

- **The Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations 2002**

The Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations 2002 enforce numerous requirements on medical practitioners, including in relation to good practices, maintenance of medical records, duties of physicians to the patients and the profession. They also provide for advertising and publicity and a framework for punishment and disciplinary action for misconduct by the physicians and violation of these regulations. If, upon enquiry, a medical practitioner is found guilty of violating norms prescribed in the regulations, the appropriate medical council may award such punishment as deemed necessary, including a direction towards removal of such medical practitioner's name from the medical registers (state and/or national level), either permanently or for a limited period. Oversight and enforcement of these regulations have been conferred upon the Medical Council of India and state medical councils, as applicable.

- **Information Technology Act, 2000 And Information Technology (Reasonable Security Practices And Procedures And Sensitive Personal Data Or Information) Rules, 2011**

Since our Company provides online consultation, we interchange sensitive information, data, records, functions, security procedures and like and hence our working is governed by Information Technology Act, 2000. This act governs and provides legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as electronic commerce. It also gives legal recognition to Digital Signatures and facilitates storage of data. The Act is applicable to any offence or contravention committed outside India as well. If the conduct of person constituting the offence involves a computer or a computerized system or network located in India, then irrespective of his/her nationality, the person is punishable under the Act.

- **Digital Personal Data Protection Act, 2023**

This act was first introduced as a bill in 2019 as The Personal Data Protection Bill, 2019. The bill was introduced in Lok Sabha by the Minister of Electronics and Information Technology, Mr. Ravi Shankar Prasad, on December 11, 2019. The act received the assent of the President on the 11th of August 2023 and came into force.

The act aims to provide for protection of the privacy of individuals relating to their personal data, specify the flow and usage of personal data, create a relationship of trust between persons and entities processing the personal data, protect the fundamental rights of individuals whose personal data are processed, to create a framework for organizational and technical measures in processing of data, laying down norms for social media intermediary, cross-border transfer, accountability of entities processing personal data, remedies for unauthorized and harmful processing, and to establish a Data Protection Authority of India for the said purposes and for matters connected there with or incidental thereto

- **Consumer Protection Act, 2019**

The Consumer Protection Act, 2019 was enacted by the Indian legislature to deal with matters relating to violation of consumer's rights, unfair trade practices, misleading advertisements, and all those circumstances which are prejudicial to the consumer's rights. The original Consumer Protection Act was passed in 1986 and came into effect in 1987. The Consumer Protection Act, 2019 replaced the 1986 Act to strengthen consumer protection in the digital age. The Act establishes consumer councils and other authorities to settle consumer disputes. Consumers can file complaints with the Consumer Forum by email, fax, or hard copy. They should include relevant bills or receipts, and describe their concerns clearly in their preferred language. There exist six rights of a consumer under the Consumer Protection Act, 2019. The rights of the consumers are mentioned under Section 2(9) of the Act, which are as follows:

1. The right of a consumer to be protected from the marketing of goods and services that are hazardous and detrimental to life and property.
2. The right of a consumer to be protected against unfair trade practices by being aware of the quality, quantity, potency, purity, standard and price of goods, products or services.

3. The right of a consumer to have access to a variety of goods, services and products at competitive prices.
4. The right to seek redressal at respective forums against unfair and restrictive trade practices.
5. The right to receive adequate compensation or consideration from respective consumer forums in case they have been wronged by the seller.
6. The right to receive consumer education.

- **Consumer Protection (E-Commerce) Rules, 2020 (“E-Commerce Rules”) And the Proposed Amendments to the E-Commerce Rules**

The Ministry of Consumer Affairs issued the E-Commerce Rules under the Consumer Protection Act, 2019 on July 23, 2020. The E-Commerce Rules provide a framework to regulate the marketing, sale and purchase of goods and services online. These rules apply to (a) good/services purchases or sold vide digital or electronic network, including digital products; (b) marketplace and inventory e-commerce entities; (c) all e-commerce retailing; and (d) forms of unfair trade practices across all ecommerce models. It specifies the Duties of E-commerce Entities, specific duties and liabilities of marketplace e-commerce entities and those of inventory e-commerce entities, and duties of sellers on marketplace. The E-Commerce Rules further requires the e-commerce entity to appoint grievance officer and provide for a grievance redressal mechanism. Any violation of these rules attracts penal action under the Consumer Protection Act, 2019. The Ministry of Consumer Affairs, Food and Public Distribution has on June 21, 2021 released proposed amendments to the E-Commerce Rules, 2020, for comments, which, amongst others, imposes new registration requirements for online retailers, mandatory partnering with the National Consumer helpline, a ban on “specific” flash sales and mandating sharing of information with Government agencies. Specific flash sales or back- to-back sales, which limit customer choices, increase prices and prevent a level playing field, will not be allowed. Further, the proposed changes would require that e-commerce businesses should mention the name and details of any importer from whom it has purchased such goods or services alongside providing alternative suggestions to customers before they make a purchase to ensure fair opportunity for domestic goods. Additionally, the e-commerce entity shall not allow display or promotion of any misleading advertisement or engage in mis-selling of goods on the platform. The rules have also introduced the concept of “fallback liability”, which says that e-commerce businesses will be held liable in case a seller on their platform fails to deliver goods or services due to negligent conduct, which causes loss to the customer. Additionally, they would be required to share information within 72 hours with government agency which is lawfully authorised for investigative or protective or cyber security activities, for the purposes of verification of identity, or for the prevention, detection, investigation, or prosecution, of offences under any law for the time being in force, or for cyber security incidents.

- **The Micro, Small And Medium Enterprises Development Act, 2006**

An Act to provide for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises and for matters connected therewith or incidental thereto. The act defines enterprise. It states that enterprise means an industrial undertaking or a business concern or any other establishment, by whatever name called, engaged in the manufacture or production of goods, in any manner, pertaining to any industry specified in the First Schedule to the Industries (Development and Regulation) Act, 1951 (55 of 1951) or engaged in providing or rendering of any service or services. It classifies the micro, small and medium enterprise based on investment in Plant and Machinery and enterprises which are engaged in providing services are classified base on the investment in equipment. The Act provides for promotion, development and enhancement of competitiveness of micro, small and medium enterprises, credit facilities available, grant by the central government, rate of interest and liability of buyer in case of delayed payment to Micro, Small and medium Enterprises.

LABOUR LAWS

LABOUR AND EMPLOYMENT LAWS

India has extensive labour related legislations. Certain other laws and regulations that may be applicable to our Company in India include the following which is an indicative list of labour laws applicable to the business and

operations of Indian companies engaged in manufacturing activities:

Child Labour (Prohibition and Regulation) Act 1986

Apprentices Act 1961;

Public Liability Insurance Act 1991;

Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act 2013;

State specific shops & establishments laws and

State specific labour welfare fund laws;

State specific Industrial Establishments (National and Festival Holidays and Casual and Sick Leave) laws; and

In order to rationalize and reform labour laws in India, the Government of India has framed four labour codes, namely:

- (a) The Occupational Safety, Health and Working Conditions Code 2020 was notified by the Government of India on 21 November 2020, and has consolidated thirteen existing legislations, received the assent of the President of India on 28 September 2020, and proposes to subsume certain existing legislations, including the Factories Act 1948, the Contract Labour (Regulation and Abolition) Act 1970, and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act 1979. This code proposes to provide for, among other things, standards for health, safety and working conditions for employees of establishments, and will come into effect on a date to be notified by the Central Government. The code aims to safeguard worker rights and working conditions as well as to create a business-friendly regulatory environment to spur economic growth and employment.
- (b) The Industrial Relations Code 2020 was notified by the Government of India on 21 November 2020. With the aim of safeguarding the interests of trade unions as well as the workers, the code has consolidated three existing legislations, namely, the Industrial Disputes Act 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act 1946. It simplifies laws relating to trade unions, the conditions of employment in industrial establishments and undertakings, and the investigation and settlement of industrial disputes..
- (c) The Code on Wages 2019 was notified by the Government of India on 21 November 2020. It consolidates four separate legislations, namely, the Payment of Wages Act 1936, the Minimum Wages Act 1948, the Payment of Bonus Act 1965 and the Equal Remuneration Act 1976. The objective of this code is to provide governing framework for minimum wages. It provides all the workers of both organized and unorganized sectors with the right to minimum wages. Furthermore, a new provision of national floor wage has been introduced to remove regional disparities in minimum wages..
- (d) The Code on Social Security 2020 was notified by the Government of India on 21 November 2020. It proposes to provide for occupational safety, health, and working conditions of the persons in an establishment by consolidating nine legislations including the Employees' Compensation Act 1923, the Employees' State Insurance Act 1948, the Employees' Provident Funds and Miscellaneous Provisions Act 1952, the Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959, the Maternity Benefit Act, 1961, and the Payment of Gratuity Act, 1972. The code aims at simplifying compliance for employers and enhancing welfare benefits for the employees. All workers, including workers of the unorganized sector, plantation workers, and platform and gig workers, will get social security measures such as the benefit of free treatment under hospitals and dispensaries of Employees' State Insurance Corporation.

Some of the important labour legislations are explained below:

The sexual harassment of women at workplace (prevention, prohibition and redressal) act, 2013:

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("SHWW Act") provides for the protection of women at workplace and prevention of sexual harassment at workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Every employer has a duty to provide a safe working environment at workplace which shall include safety from the persons coming into contact at the workplace, organizing awareness programs and workshops, display of rules relating to the sexual harassment at any conspicuous part of the workplace, provide necessary facilities to the internal or local committee for dealing with the complaint, such other procedural requirements to assess the complaints. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee, which shall always be presided upon by a woman.

The child labour (prohibition and regulation) act, 1986:

The Under the child labour law in India, adolescents between the age of 14 and 18 are prohibited from working in any hazardous or dangerous occupations and processes. They can only work in certain government declared non-hazardous occupations or in a family business or as an artist.

The Code on Wages, 2019

The Code on Wages 2019 was notified by the Government of India on 21 November 2025. It consolidates four separate legislations, namely, the Payment of Wages Act 1936, the Minimum Wages Act 1948, the Payment of Bonus Act 1965 and the Equal Remuneration Act 1976. The objective of this code is to provide governing framework for minimum wages. It provides all the workers of both organized and unorganized sectors with the right to minimum wages. Furthermore, a new provision of national floor wage has been introduced to remove regional disparities in minimum wages.

The Code on Social Security Act, 2020

The Foreign Trade (Development and Regulation) Act, 1992 ("FTA"):

In India, the main legislation concerning foreign trade is FTA. The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

TAXATION LAWS

Apart from afore mentioned legislation, company is also subject to taxation laws. Details of the taxation laws that are applicable to the company are as follows:

Income Tax Act, 1961, the Income Tax Rules, 1962, as amended by Finance Act in respective years.

There are two types of taxes, one is direct tax and other is indirect tax. Now the Direct Tax is the tax where the burden to pay the tax shall be borne by the person who earns the income. Here the burden of the tax cannot be shifted to other person and is progressive in nature. The income tax is the one that comes under the category of direct tax. Here the tax is paid by the person who earns the income and the rate and quantum of tax rises as its income rises. The Central Government levy and collects such tax. There are 298 sections and 23 chapters in the Income Tax Act.

The Goods and Service tax (GST) is an indirect tax levied on supply of goods or services or both. It is a destination-based tax where the revenue shall go to the state where the consumption takes place. The taxable event in the GST Laws is "Supply". The government has formed GST council that makes recommendation on the rates of tax, which goods or services are to be exempted or bring under the purview of tax, when tax are to be applied on 5 petroleum products etc. The GST is enforced through various acts viz. Central Goods and Services Act, 2017 ("CGST"), relevant state's Goods and Services Act, 2017 ("SGST"), Union Territory Goods and Services Act, 2017 ("UTGST"), Integrated Goods and Services Act, 2017 ("IGST"), Goods and Services (Compensation to States) Act, 2017 and various rules made thereunder.

The Customs Act 1962

The provisions of the Customs Act, 1962 and Rules made there under are applicable at the time of import of goods into India from a place outside India or at the time of export of goods out of India to a place outside India. Any company requiring to import or export any goods is required to get itself registered under this Act and obtain an Importer Exporter Code (IEC) number.

Professional Tax Legislations

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

Property Related Laws

The Company is required to comply with central and state laws in respect of property. Central Laws that may be applicable to our Company's operations include the Land Acquisition Act, 1894, the Transfer of Property Act, 1882, Registration Act, 1908, Indian Stamp Act, 1899, and Indian Easements Act, 1882. In addition, regulations relating to classification of land may be applicable. Usually, land is broadly classified under one or more categories such as residential, commercial or agricultural. Land classified under a specified category is permitted to be used only for such

specified purpose. Where the land is originally classified as agricultural land, in order to use the land for any other purpose the classification of the land is required to be converted into commercial or industrial purpose, by making an application to the relevant municipal or town and country planning authorities. In addition, some State Governments have imposed various restrictions, which vary from state to state, on the transfer of property within such states. Land use planning and its regulation including the formulation of regulations for building construction, form a vital part of the urban planning process. Various enactments, rules and regulations have been made by the Central Government, concerned State Governments and other authorized agencies and bodies such as the Ministry of Urban Development, State land development and/or planning boards, local municipal or village authorities, which deal with the acquisition, ownership, possession, development, zoning, planning of land and real estate. Each state and city has its own set of laws, which govern planned development and rules for construction (such as floor area ratio or floor space index limits). The various authorities that govern building activities in states are the town and country planning department, municipal corporations and the urban arts commission.

Limitation Act, 1963

The Act prohibits the discharge of toxic and poisonous matter in the river and streams without treating the pollutants as per the standard laid down by the Pollution control boards constituted under the Act. A person intending to commence any new industry, operation or process likely to discharge pollutants must obtain prior consent of the board constituted under the Act.

National Environmental Policy, 2006

The Policy seeks to extend the coverage, and fill in gaps that still exist, in light of present knowledge and accumulated experience. This policy was prepared through an intensive process of consultation within the Government and inputs from experts. It does not displace, but builds on the earlier policies. It is a statement of India's commitment to making a positive contribution to international efforts. This is a response to our national commitment to a clean environment, mandated in the Constitution in Articles 48 A and 51 A (g), strengthened by judicial interpretation of Article 21. The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

The Noise Pollution (Regulation & Control) Rules 2000 (Noise Regulation Rules)

The Noise Regulation Rules regulate noise levels in industrial, commercial and residential zones. The Noise Regulation

Rules also establish zones of silence of not less than 100 meters near schools, courts, hospitals, etc. The rules also assign regulatory authority for these standards to the local district courts. Penalty for non-compliance with the Noise Regulation Rules shall be under the provisions of the Environment (Protection) Act 1986.

The National Green Tribunal Act 2010

An Act to provide for the establishment of a National Green Tribunal for the effective and expeditious disposal of cases relating to environmental protection and conservation of forests and other natural resources including enforcement of any legal right relating to environment and giving relief and compensation for damages to persons and property and for matters connected therewith or incidental thereto.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (Hazardous Waste Rules)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste. Under the Hazardous Waste Rules, "hazardous waste" inter alia means any waste which by reason of characteristics such as physical, chemical, biological, reactive, toxic, flammable, explosive or corrosive, causes danger or is likely to cause danger to health or environment, whether alone or in contact with other wastes or substances. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment or third party resulting from the improper handling and management and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

Bio Medical Waste (Management and Handling) Rules 1998

The Bio Medical Waste (Management and Handling) Rules 1998 were implemented to improve the collection, segregation, processing, treatment, and disposal of the bio medical waste in an environmentally sound management, reduction of bio medical waste generation and its impact on the environment.

BRIEF PROFILE OF THE DIRECTORS OF OUR COMPANY

Mr. Puneet Dhawan, aged 37, is one of promoters. He was appointed as Managing Director on March 15, 2025 of our company for the term of 5 years. He commenced his professional journey in the field of Ayurveda in the year 2013, upon obtaining his Bachelor of Ayurvedic Medicine and Surgery (BAMS) degree from the University of Delhi. Following the completion of his degree, he established his clinical practice under the name "Karma Ayurveda" in Delhi in 2013. With the vision to expand and formalize his business operations, he subsequently promoted and incorporated KRM Ayurveda Private Limited in the year 2019. He has been consistently engaged in the practice of Ayurveda since 2013, contributing to the growth and advancement of the organization under his leadership.

Mr. Puneet Dhawan, with his strong educational background and extensive industry knowledge, serves as a valuable leader within the Company. Recognized at the Indian Healthcare Federation (IFA) with the award for Best Ayurveda Doctor in India, Dr. Puneet Dhawan has significantly contributed to the growth and reputation of the hospitals by emphasizing excellence in patient care and quality healthcare delivery.

Mrs. Tanya Dhawan, aged 34 years, is one of our promoters and serves as Non-Executive Director of the company. She has been associated with the Company since its incorporation in 2019 as a Promoter and Director. During her initial tenure of two years on the Board, she was actively involved in shaping the Company's strategic direction and ensuring effective governance. After obtaining a professional diploma in Dietetics, she pursued a career in health consultancy, further enhancing her expertise in nutrition and wellness. She rejoined the Board of the Company in September 2025 as a Non-Executive Director. She continues to contribute to the Company through her professional services in the areas of marketing and dietetic consultancy. She also holds the degree

of master's in mass communication in 2014 from Guru Gobind Singh Indraprastha University. Mrs. Dhawan's ability to combine her knowledge of communication and health has allowed her to craft effective wellness campaigns for individuals, helping them lead healthier, more balanced lives.

Mr. Sanchit Hans, aged 28 years, being designated as the Whole-time director of the company w.e.f. March 15, 2025 for the term of 5 years. He completed his Bachelor degree in Commerce in 2014. Mr. Sanchit Hans possesses an overall professional experience of approximately four years. He has been associated with the Company since July 2021, when he joined as a Director on the Board. During his tenure, he has gained valuable experience in operations management and business administration. 1. We have examined the attached restated financial information of “**KRM Ayurveda Limited**” (hereinafter referred to as “the Company” or “the Issuer”) comprising the restated statement of assets and liabilities as at 30th September 2025, 31st March 2025, 31st March 2024 and 31st March 2023, restated statement of profit and loss and restated statement of cash flow for the period ending 30th September 2025, financial year ended 31st March 2025, 31st March 2024 and 31st March 2023, and the summary statement of significant accounting policies and other explanatory information (collectively referred to as the “restated financial information” or “restated financial statements”) annexed to this report and initialed by us for identification purposes. These Restated Financial Statements have been prepared by the management of the Company and approved by the board of directors at their meeting in connection with the proposed Initial Public Offer in SME Platform (“IPO” or “SMEIPO”) of NSE Limited (“NSE”) of the company.
2. The restated summary statements have been prepared in accordance with the requirements of:
 - i. Section 26 of Part – I of Chapter III of Companies Act, 2013 (the “Act”) read with Companies (Prospectus and Allotment of Securities) Rules 2014;
 - ii. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 (“ICDR Regulations”) and related amendments/clarifications from time to time issued by the Securities and Exchange Board of India (“SEBI”);
 - iii. The Guidance Note on Reports in Company Prospectuses (Revised 2019) (as amended) issued by the Institute of Chartered Accountants of India (“Guidance Note”).

Management's Responsibility for the Restated Financial Statements

3. The Company's Board of Directors is responsible for the preparation of the Restated Financial Statements for inclusion in the Draft Prospectus/ Prospectus to be filed with Securities and Exchange Board of India (“SEBI”), SME platform of NSE Limited (“NSE”) and Registrar of Companies (“ROC”) in connection with the proposed IPO. The Restated Financial Statements have been prepared by the management of the Company on the basis of preparation stated in Annexure IV to the Restated Financial Statements. The responsibility of the board of directors of the Company includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Financial Statements.

The boards of directors are also responsible for identifying and ensuring that the Company complies with the Act, ICDR Regulations and the Guidance Note.

Auditor's responsibilities

4. We have examined such Restated Financial Statements taking into consideration:
- (i) The terms of reference and terms of our engagement letter requesting us to carry out the assignment, in connection with the proposed SME IPO;
 - (ii) The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
 - (iii) Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Financial Statements;
 - (iv) The requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.

Restated Financial Statements

5. The Restated Financial Statements of the Company have been compiled by the management from:
- (i) Audited Financial Statements as at and for the half year ended on 30th September 2025, financial year ended on 31st March 2025, 31st March 2024 and 31st March 2023, prepared in accordance with the Accounting Standards prescribed under Section 133 of the Act, read with rule 7 of the Companies (Accounts) Rules, 2014, as amended, and other accounting principles generally accepted in India.

Note 21a. Employee benefit plans**(i) Defined contribution plan**

The Company makes contributions, determined as a specified percentage of employee salaries in respect of qualifying employees towards provident fund and employee state insurance fund which is a defined contribution plan. The Company has no obligations other than to make the specified contributions. The Company's contribution is recognised as an expense in the Restated Statement of Profit and Loss during the year in which the employee renders the related services. During the year, the Company has recognised Rs. 47.96 Lakhs (31 March 2024: Rs. 63.05 Lakhs, 31 March 2023: Rs. 35.26 Lakhs) in the Restated Statement of Profit and Loss towards provident fund contribution and employee state insurance fund.

(ii) Defined benefit plans - Gratuity

The Company has a defined unfunded benefit gratuity plan in India, governed by the Payment of Gratuity Act, 1972. It entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned. The Company does not have any plan assets.

E) Sensitivity Analysis of the defined benefit obligation

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate, and future salary growth. The sensitivity analysis below has been determined based on reasonably possible changes of the assumptions occurring at the end of the year, while holding all other assumptions constant. The results of sensitivity analysis is given below:

| | | | | |
|--|--------|--------|--------|--------|
| a) Impact of the change in discount rate | | | | |
| Present Value of Obligation at the end of the period | 72.58 | 71.67 | 38.50 | 23.12 |
| a) Impact due to increase of 0.50% | (1.61) | (1.80) | (0.88) | (0.53) |
| b) Impact due to decrease of 0.50 % | 1.68 | 1.90 | 0.92 | 0.56 |
| b) Impact of the change in salary increase | | | | |
| Present Value of Obligation at the end of the period | 72.58 | 71.67 | 38.50 | 23.12 |
| a) Impact due to increase of 0.50% | 1.71 | 1.86 | 0.94 | 0.57 |
| b) Impact due to decrease of 0.50 % | (1.65) | (1.78) | (0.90) | (0.55) |

Sensitivities due to mortality & withdrawals are not material & hence impact of change due to these not calculated. Sensitivities as rate of increase of pensions in payment, rate of increase of pensions

F) Assumptions

ii. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in future periods.

iii. Revenue Recognition

Revenue is recognized when control of goods and services is transferred to the customer upon the satisfaction of performance obligation under the contract at a transaction price that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Sales are recognized when significant risks and rewards of ownership of goods has passed to the buyer, which coincides with delivery. Sales are net of trade discount, rebates and value added tax but inclusive of GST

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Interest income and other income (if any) have been recognized on accrual basis.

iv. Property, Plant and Equipments

Property, Plant & Equipment are stated at their original cost of acquisition including taxes, freight and other incidental expenses related to acquisition and installation of the concerned assets less depreciation till date. The Company has adopted cost model for all class of items of Property Plant and Equipment.

The cost of an item of property, plant and equipment shall be recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

v. Depreciation

Depreciation on Property, plant and equipment is provided to the extent of depreciable amount on the Written down Value (WDV) Method. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013.

Depreciation on assets acquired/sold during the year is recognized on a pro-rata basis to the statement of profit and loss till the date of acquisition/sale.

vi. Foreign currency Transactions

Transactions arising in foreign currencies during the year are converted at the rates closely approximating the rates ruling on the transaction dates. Liabilities and receivables in foreign currency are restated at the year-end exchange rates. All exchange rate differences arising from conversion in terms of the above are included in the statement of profit and loss.

vii. Investments

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

viii. Inventories

Inventories are valued as under:-

- Finished goods : Lower of cost(FIFO) or net realizable value
- Raw Material : At Cost
- Store : At net realizable value.

- Other Bank Balances which includes balances and deposits with Banks that are restricted for withdrawal and usage.

xiv. Earnings Per Share

Basic and diluted earnings per share are computed in accordance with Accounting Standard-20. Basic earnings per share is calculated by dividing the net profit or loss after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share are computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year, except where the results are anti-dilutive.

FISCAL YEAR ENDED MARCH 31, 2025, COMPARED WITH THE FISCAL YEAR ENDED MARCH 31, 2024 (BASED ON RESTATED FINANCIAL STATEMENTS)

Revenues

◆ **Total Income**

Total Income for FY25 stood at Rs.7,694.97 lakhs whereas in FY24 it was Rs.6,757.17 lakhs representing an increase of 13.88%.

Reason: The increase is mainly due to an increase in revenue from sale of hospital services.

◆ **Revenue from operations**

Revenue from operation for FY25 stood at Rs. 7,655.27 lakhs whereas in FY24 it was Rs. 6,715.57 lakhs representing an increase of 13.99%.

Reason: The reason for increase in revenue from operation is due to an increase in the revenue from sale of services. From FY24 to FY25 revenue from services increased by more than 300% contributing majorly to the increase in revenue from operations.

(Amount in Lakhs)

| Particulars | For the year ended 31 March 2025 | For the year ended 31 March 2024 |
|--|-------------------------------------|-------------------------------------|
| Revenue from Operations | 7,655.27 | 6,715.57 |
| Revenue from services | 2,731.97 | 651.95 |
| Percentage of revenue from sale of service | 35.69% | 9.71% |

◆ **Other Income**

Other Income for FY25 stood at Rs. 39.70 lakhs whereas in FY24 it was Rs. 41.60 lakhs representing a decrease of 4.58%.

Reason: The decrease in other income is due to a fall in interest received in fixed deposits

(Amount in Lakhs)

| Particulars | For the year ended 31 st March 2025 | For the year ended 31 st March 2024 |
|-----------------------------|--|--|

Expenditure

♦ Total Expenses

Total Expenses for FY25 were standing at Rs. 6,061.16 lakhs and in FY24 it was at Rs. 6,284.53 lakhs representing a decrease of 3.55%.

Reason: The reason for decrease in total expenses is due to a decrease in the other expenses and employee benefit expense as compared to the previous year.

♦ Cost of material consumed

The cost of material consumed includes cost of material consumed plus change in inventories of Finished goods, WIP and Stock in Trade for FY25 stood at Rs. 950.10 lakhs whereas in FY24 it was standing at Rs.1,003.97 lakhs representing a decrease of 5.37%.

Reason: The decrease in cost of materials consumed is directly linked to the decline in sale of products. The company has also optimized costs and utilized resources more efficiently, contributing to the reduction in material consumption.

♦ Employment Benefit Expenses

Employment Benefit Expenses for the financial year ended 31st March 2025, stood at Rs.1,869.98 lakhs and for the financial year ended 31st March 2024 it was at Rs. 1,947.99 lakhs representing a 4.00% decrease from the previous year.

Reason: In FY25, the employee benefit expense fell due to fall in average number of employees from FY24.

♦ Finance Cost

Finance cost for the financial year ended 31st March 2025 stood at Rs. 212.43 lakhs whereas for the financial period ended 31st March 2024 it was 200.70 lakhs representing an increase of 5.84%.

Reason: In FY25, there is a major increase in the total borrowings which increased the interest cost ultimately increasing the finance cost for the year.

(Amount in Lakhs)

| Particulars | For the period ended 31 st March 2025 | For the period ended 31 st March 2024 |
|------------------|--|--|

Reason: The increase in profit before tax was primarily driven by an increase in revenue from operations.

◆ Tax Expense

Tax Expense for the period ended 31st March 2025, stood at Rs. 421.28 lakhs and for the period ended 31st March 2024 it was Rs. 131.28 lakhs representing an increase of 220.90%.

Reason: The Tax expense increase in FY25 due to an increase in the profit before tax for the financial period ended 2025. Increase in tax expense is in line with the increase in the total income of the company.

◆ **Profit after tax**

Profit after tax for the period ended 31st March 2025, stood at Rs. 1,212.52 lakhs and for the year ended 31st March 2024 it was Rs. 341.36 lakhs representing an increase of 255.20%.

Reason: Revenue from operations increased from Rs. 6,715.57 Lakhs in FY 2023–24 to Rs. 7,655.27 Lakhs in FY 2024–25, reflecting a 13.99% growth year-on-year.

- **Post-NABH Accreditations:** After completing NABH accreditation, the Company became empanelled with CGHS and ECHS in H2 FY 2023–24. which causes increase in revenue from government.
- **Hospital Revenue Expansion:** Revenue from hospitals and clinics increased nearly by 319.04% from the previous year, driven by empanelment-based patient inflow and enhanced occupancy levels.

(Amount in Lakhs)

| Particulars | FY 2024-25 | FY 2023-24 |

| % increase | 319.04% | |
| Revenue from Operations | 7,655.27 | 6,715.57 |
| % increase | 13.99% | |

Reason for increase in PAT

Profit after tax for the period ended 31st March 2025, stood at Rs. 1,212.52 lakhs and for the year ended 31st March 2024 it was Rs. 341.36 lakhs representing an increase of 255.20%.

(Amount in Lakhs)

| Particulars | FY 2024-25 | FY 2023-24 |
|-------------------------|------------|------------|
| Revenue from Operations | 7,655.27 | 6,715.57 |
| % increase | 13.99% | |
| Total Expense | 6,061.16 | 6,284.53 |
| % increase | (3.55)% | |
| PAT | 1,209.72 | 341.22 |
| PAT Margin | 15.76% | 5.05% |

- **Increase in Revenue from Operations:**
The Company's revenue from operations increased by 13.99% during FY 2023-24, mainly driven by

higher income from services. This growth was primarily due to the implementation of CGHS and ECHS services, which became effective in the second half of the previous year.

- **Change in Revenue Mix:**

There was a notable shift in the revenue composition, with the share of service income increasing from 9.71% in FY 2023-24 to 35.69% in FY 2024-25. This reflects the Company's strategic move to focus more on service-based revenue and reduce dependence on product sales.

- **Decrease in Total Expenses:**

Total expenses decreased by 3.55% compared to the previous year. The reduction was mainly due to a decline in advertisement expenses, resulting from lower product sales and the changing revenue mix.

- **Stable Employee and Operating Costs:**

The employee costs and other operating expenses remained largely consistent with the previous year, indicating effective cost control despite the shift in business operations.

- **Transition Phase Impact:**

FY 2023-24 represented a transition phase for the Company, where focus was on increasing service-related revenue through CGHS and ECHS while gradually reducing product-based revenue. Although overall expenses remained stable, this change in the business mix led to a decline in Profit After Tax (PAT) compared to FY 2022-23.

| % increase | (20.74)% | |
| PAT | 341.22 | 747.45 |
| PAT Margin | 5.05% | 8.36% |

Reasons for Decrease in Profit After Tax (PAT):

- Decline in Revenue from Operations:**
The primary reason for the decrease in Profit After Tax (PAT) was a **24.79% decline in revenue from operations** compared to the previous year. The reduction in revenue was mainly due to the shift in focus from telemedicine and product sales to hospital-based services.
- Dual Cost Structure During Transition:**
During the transition phase, the Company incurred a **dual cost structure**. While telemedicine revenues declined, the Company continued to maintain its telemedicine workforce until the hospital operations reached full capacity. Towards the end of the year, these telemedicine staff members were gradually released. At the same time, the Company **recruited new clinical and administrative staff** to support the expansion of hospitals and clinics, leading to overlapping employee costs for a certain period.
- Limited Financial and Human Resources:**
The Company faced **resource constraints** during this transition period. With limited financial and manpower availability, marketing and business development efforts were divided between telemedicine and hospital operations. This temporarily impacted sales growth and overall business momentum.
- Transition Phase Impact:**
FY 2023-24 marked a **strategic transition phase** for the Company, with an increased focus on service-related revenue through **CGHS and ECHS** and a gradual reduction in product-based income. Although total expenses remained relatively stable, the combined effect of lower revenues and temporary dual costs led to a **decline in overall profitability (PAT)** compared to FY 2022-23.

| S. No. | Case No./Forum | Parties | Case Type | Status | Case Summary |
|--------|---|---|---|---------|---|
| 1. | SC/9/A/2046/2023 Before the State Consumer Dispute Redressal Commission, Lucknow-I, Uttar Pradesh. | Smt. Sandhya Awasthi Vs Dr. Puneet B.A.M.S. | Appeal (under section 41 of Consumer Protection Act, 2019) | Pending | <p>Smt. Sandhya Awasthi (Appellant) filed a complaint before Consumer Forum dated 9 November 2022, because she lost her 17 years old child Ayush due to medical negligence of Dr. Puneet Dhawan (Respondent). She requested before the Consumer Forum claiming a loss amounting to INR 50,00,000 in lieu of financial damages and mental agony, but the District commission dismissed the complaint vide order dated 10 October 2023.</p> <p>Subsequently, the Appellant filed a writ petition on 17 November 2023 before the Hon'ble High Court of Allahabad which was dismissed on the grounds that Appellant has an option to file appeal before State Consumer Dispute Redressal Commission and hence the writ was dismissed on 23 November 2023. Therefore, the Appellant filed an appeal against the aforementioned order requested to set aside the aforementioned order passed.</p> <p>The appeal is still pending as on date.</p> <p>The Next date of hearing is April 15, 2026.</p> |
| 2. | CC/82/2022 Before the District Consumer Disputes Redressal Commission, Ballia, UP. | Gopal Singh Vs. Dr. Puneet Dhawan | Consumer Complaint under section 35 of the Act. | Pending | <p>A consumer complaint was filed by Mr. Gopal Singh (Complainant) stating that her wife Mrs. Suman Singh was suffering from Kidney related disease and due to wrong medicine prescribed by Dr. Puneet Dhawan (Respondent), the Complainant has lost his wife.</p> <p>The Complainant contends that the Respondent told them to stop taking allopathic medicine, calling it fake and advised them to switch to the medicines prescribed by him, claiming that they had helped treat thousands of patients.</p> <p>Subsequently, after taking the medicines prescribed by the respondent, the health condition of the complainant's wife worsened, and she was admitted to the hospital, after which she passed away on 6 August 2021.</p> |

| | | | | | |
|----|--|--|--|----------------|--|
| | | | | | <p>The Complainant claims that the act of the Respondent contravenes several provisions of the Consumer Protection Act, including deficiency in service, false representation, unfair trade practice and breach of express guarantee.</p> <p>Therefore, the Complainant prays for compensation of INR 2,00,00,000 for the loss and suffering caused due to the act of the Respondent.</p> <p>The decision is still pending as on date.</p> <p>The Next date of hearing is January 19, 2026.</p> |
| 3. | <p>SC/6/RP/34/2025</p> <p>Before the State Consumer Disputes Redressal Commission Panchkula, Haryana</p> | <p>Karma Ayurveda V/s Darshan Singh & Anr.</p> | <p>Appeal (under section 41 of Consumer Protection Act 2019) (Act)</p> | <p>Pending</p> | <p>The present appeal dated 13 May 2025, arose out of the ex-parte decree passed on 27 October 2023, by DCDRC, Kurukshetra in the matter of the consumer complaint filed under Section 35 of the Act.</p> <p>As per the fact of the case, Mr. Darshan Singh (Complainant) was suffering from Kidney problem since 2014, later on he saw the public advertisement of the Karma Ayurveda (Appellant) claiming full recovery for the patients suffering from Kidney problem. The Complainant visited the hospital and the doctors recommended them a Ayurvedic kit (worth INR 75,500) for the course of 5 Months.</p> <p>The Complainants filed a complaint on 30 September 2022, contending that after taking these medicines the health condition of the complainant deteriorated which led to two minor heart attacks along with paralysis of both the legs. The complainant further prayed for cost of medicine along with payment for mental agony amounting to INR 13,35,056.</p> <p>The appellant appointed an advocate namely Vishal Saini, who took the date for filing written statement. Subsequent opportunities were given to the advocate to file the written statement but he did not file the same due to which ex-parte decree was passed dated 27 September 2023 which is challenged in this appeal.</p> |

| | | | | | |
|--|--|--|--|--|--|
| | | | | | <p>The appellant through this appeal states that Mr Vishal Saini, Advocate acted in a very malafide manner as he did not inform the appellant regarding current status and progress of the case and with regards to the deficiency of his service, the appellant has also approached Bar Council of Punjab & Haryana.</p> <p>The appellant appointed another counsel to look after the matter and approached the SCDRC and craves leave of the court to raise additional grounds.</p> <p>The appellant prayed before the SCDRC to set aside the ex-parte order and to give another opportunity to file written statement.</p> <p>The appeal is still pending as on date.</p> <p>The Next date of hearing is February 10, 2026.</p> |

Notes:

- (i) Our Company had an arrangement with Amazon where under Amazon acted as a market place for the Company's products and for ease of delivery of these products, Amazon provided limited space (in the form of slabs/racks) to our Company to temporarily store its products at Amazon's warehouses at the following addresses: (a) Lower Ground floor, A-28, Mohan Co-operative Industrial Estate, Mathura Road, New Delhi, Southeast Delhi, Delhi, 110044; (b) A-33, Mohan Co-operative Industrial Estate, Mathura Road, New Delhi, Southeast Delhi, Delhi, 110044, (c) BLOCK-B-1, J-4, Mohan Co-operative Industrial estate, Mathura Road, New Delhi, Southeast Delhi, Delhi, 110044, (d) Delhi: A-29, Mohan Co-operative Industrial Estate, Mathura Road, New Delhi, Southeast Delhi, Delhi, 110044, (e) 35//1,7,8,9/1,9/2,10/1,10/2,11 min,12,13,14, KH NO 8//21,19//25,34//5,6,7/1 min,14/2/2min,15/1min,27, Jamapure Dist. Gurgaon, Jamalpur Village, Pataudi, Gurugram, Haryana, 122503, (f) 37//15/1, 15/2, Adjacent to Starex School, Rect/Killa Nos. 38//8/2 min, 192//22/1,196//2/1/1, National Highway -8 tehsil manesar, Village - Binola Pioneer Industrial Park, Gurugram, Haryana, 122413, and (g) Hadbast No. 23, Village Sanpka Tehsil Farukhnaga, Sunsat warehousing Pvt Ltd, Farukhnagar Haryana, Village Sanpka,Tehsil Farukhnaga, Pataudi, Gurugram, Haryana,122503. Our Company, though, had obtained GST registrations for these locations to fulfill Amazon's requirement, no other license/registration is obtained for these locations because our Company had neither deployed any employee at these locations nor carried out any business activity from these locations.
- (ii) Our Company has obtained the registration of its clinical establishment in Sanganer, Jaipur, Rajasthan. However, the certificate issued reflects the issue date as 7 August 2026, which appears to be a technical error. Our Company has already informed the Health Department regarding this discrepancy and requested that a corrected certificate be issued with the accurate date. The Health Department has confirmed that the validity period mentioned on the certificate which is 7 August 2025 to 6 August 2026 is correct, but they have declined to issue a revised certificate.
- (iii) Our Company is operating an Ayurvedic hospital in Udaipur, Rajasthan. Due to a technical issue on the Department's hands, our Company has not been able to obtain the registration certificate as clinical establishment. The concerned department has orally assured that aforesaid issue is expected to be resolved within ten (10) days after which our Company would obtain the required registration.
- (iv) Our Company is operating an ayurvedic hospital in Delhi. However, basis a response of the Directorate General of Health Service, Government of NCT of Delhi available at <https://dgehs.delhi.gov.in/faqs>, our Company has taken a view that the aforesaid hospital is not required to be registered under the Delhi Nursing Homes Registration Act 1953. The aforesaid response provides that only such hospitals are required to obtain the registration which are practicing modern medicines.
- (v) Our Company is in the process of obtaining the No Objection Certificate (NOC) from the Karnataka Pollution Control Board for its clinical establishment situated in Bangalore, Karnataka. Upon receipt of the aforesaid certificate, our Company will proceed to obtain the Clinical Establishments registration.
- (vi) The premises intended for the operations of the clinical establishment situated at Gomti Nagar, Lucknow, Uttar Pradesh is currently under construction, and our Company has not yet commenced the operations therein. Upon completion of the premises and commencement of operations, and subject to obtaining the requisite No Objection Certificate (NOC) from the Uttar Pradesh Pollution

Control Board, our Company will proceed to obtain the Clinical Establishments registration.

- (vii) Our Company is in the process of obtaining the No Objection Certificate (NOC) from the Uttar Pradesh Pollution Control Board for its clinical establishment situated at Vikas Nagar, Lucknow, Uttar Pradesh. Upon receipt of the aforesaid certificate, our Company will proceed to obtain the Clinical Establishments registration.
- (viii) Our Company is in the process of shifting its clinical establishment located at Office No. 602 (Block - A), 6th Floor, Kumar's Ranjan Enclave (Palika Vinayakh Hospital Building), Kankarbagh Main Rd, Near Bahadurpur Flyover Patna, Bihar - 800020 to a new premises located at House No. 131, Ground Floor and First Floor, Road No. 1, Friends Colony, Ashiyana Nagar, Patna, Bihar, 800025, for which our Company has already executed a lease deed dated 14 August 2025. Therefore, our Company has decided not to obtain the Clinical Establishments registration for the old establishment in Patna, and will obtain all required registrations including Clinical Establishments Registration, shops and establishment license and GST registration with respect to the new establishment, once the shifting process is completed and the new establishment becomes operational.
- (ix) Some of the approvals/registrations/licenses/permissions are in the name of "KRM Ayurveda Private Limited". Our Company has submitted requests to the relevant regulatory bodies/ authorities to update the Company's name to "KRM Ayurveda Limited" and we believe that it will change in due course of time.
- (x) The Company has applied for renewal of Certificate of Accreditation (NABH) (Delhi) with the authorities as it is expiring on 4 January 2026. The audit has already been done but the renewal certificate is yet to be received.

In case the minimum number of prospective allottees is less than 200, no allotment will be made pursuant to this Issue and all the monies blocked by SCSBs shall be unblocked within four (4) working days of closure of Issue.

Joint Holders

Where 2 (two) or more persons are registered as the holders of any Equity Shares, they will be deemed to hold such Equity Shares as joint holders with benefits of survivorship.

Jurisdiction

Exclusive Jurisdiction for the purpose of this Issue is with the competent courts/authorities in India.

The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Nomination Facility to the Investor

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Applicant, or the first Applicant along with other joint Applicants, may nominate any one person in whom, in the event of the death of sole Applicant or in case of joint Applicants, death of all the Applicants, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale/transfer/alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or Corporate Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act shall upon production of such evidence, as may be required by the Board, elect either:

1. to register himself or herself as the holder of the equity shares; or
2. to make such transfer of the equity shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or

herself or to transfer the equity shares, and if the notice is not complied with within a period of ninety (90) days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the equity shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the Applicants require changing of their nomination, they are requested to inform their respective depository participant.

The SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 01, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase-I was effective till June 30, 2019.

Subsequently, for applications by Individual Investors who apply for minimum application size through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of six months or launch of five main board public issues, whichever is later (“UPI Phase II”), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Individual Investors who apply for minimum application size (“UPI Phase III”), as may be prescribed by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular is effective for initial public offers

opening on or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, and the provisions of this circular are deemed to form part of this Prospectus. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual Investors in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to Rs. 500,000 shall use the UPI Mechanism.

Furthermore, SEBI vide press release bearing number 12/2023 has approved the proposal for reducing the time period for listing of shares in public issue from existing 6 working days to 3 working days from the date of the closure of the issue. The revised timeline of T+3 days shall be made applicable in two phases i.e. voluntary for all public issues opening on or after September 1, 2023, and mandatory on or after December 1, 2023. Further, SEBI has vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 reduced the time taken for listing of specified securities after the closure of a public issue to three Working Days. Accordingly, the Issue will be made under UPI Phase III on a mandatory basis, subject to any circulars, clarification or notification issued by the SEBI from time to time.

REDUCTION OF TIMELINE FOR LISTING OF SHARES IN PUBLIC ISSUE FROM EXISTING T+6 DAYS TO T+3 DAYS

The SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 09, 2023, has introduced reduction of timeline for listing of shares in public issue from existing t+6 days to t+3 days. This circular shall be applicable on voluntary basis for public issues opening on or after September 1, 2023 and Mandatory for public issues opening on or after December 1, 2023.

Consequent to extensive consultation with the market participants and considering the public comments received pursuant to consultation paper on the aforesaid subject matter, it has been decided to reduce the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the requirement of 6 working days (T+6 days); 'T' being issue closing date.

The T+3 timeline for listing shall be appropriately disclosed in the Offer Documents of public issues.

Notwithstanding anything contained in Schedule VI of the ICDR Regulations, the provisions of this circular shall be applicable:

- On voluntary basis for public issues opening on or after September 1, 2023, and
- Mandatory for public issues opening on or after December 1, 2023

The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, June 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, June 2, 2021, and April 20, 2022, shall stand modified to the extent stated in this Circular.

SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 effective to public issues opening on or after from May 01, 2021. However, said circular has been modified pursuant to SEBI Circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 in which certain applicable procedure w.r.t. SMS Alerts, Web portal to CUG etc. shall be applicable to Public Issue opening on or after January 1, 2022 and October 1, 2021 respectively and the provisions of this circular

, as amended, are deemed to form part of this Red Herring Prospectus. Additionally, SEBI vide its circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021 has reduced the time period for refund of application monies from 15 days to four days. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 01, 2022) whose application sizes are up to Rs. 5,00,000/- shall use the UPI Mechanism.

PHASED IMPLEMENTATION OF UNIFIED PAYMENTS INTERFACE

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- ◆ Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Individual applicant who apply for minimum application size, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six

- ◆ Phase II: This phase commenced on completion of Phase I i.e. with effect from July 1, 2019 and was to be continued for a period of three months or launch of five main board public issues, whichever is later. Further, as per the SEBI circular SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, the UPI Phase II has been extended until March 31, 2020. Further still, as per SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, the current Phase II of Unified Payments Interface with Application Supported by Blocked Amount be continued till further notice. Under this phase, submission of the Application Form by a Individual Applicant who apply for minimum application size through intermediaries to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public issue closure to listing would continue to be six Working Days during this phase.
- ◆ Phase III: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023, and on a mandatory basis for all issues opening on or after December 1, 2023, vide SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 ("T+3 Notification"). In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Notification as applicable, subject to any circulars, clarification or notification issued by the SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

All SCSBs offering the facility of making applications in public issues are required to provide a facility to make applications using the UPI Mechanism. Further, in accordance with the UPI Circulars, our Company has appointed January 07, 2026 as the Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Individual Investors who apply for minimum application size into the UPI mechanism.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Offer BRLM will be required to compensate the concerned investor.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2022/45) dated April 5, 2022, has prescribed that all individual investors applying in initial public offerings opening on or after May 1, 2022, where the application amount is up to Rs. 5,00,000, shall use UPI. Individual investors bidding under the Non-Institutional Portion bidding for more than Rs. 200,000 and up to Rs. 5,00,000, using the UPI Mechanism, shall provide their UPI ID in the Bid-cum-Application Form for Bidding through Syndicate, sub-syndicate members, Registered Brokers, RTAs or CDPs, or online using the facility of linked online trading, demat and bank account (3 in 1 type accounts), provided by certain brokers.

The processing fees for applications made by Individual Bidders who apply for minimum application size using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

For further details, refer to the “General Information Document” available on the websites of the Stock Exchange and the BRLM.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the abridged prospectus will be available with the Designated Intermediaries at the Bidding Centres, and our Registered and Corporate Office. An electronic copy of the Bid cum Application Form will also be available for download on the websites of NSE (<https://www.NSEindia.com/>) at least one day prior to the Bid/Offer Opening Date.

Copies of the Anchor Investor Application Form will be available at the office of the BRLM.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process. Anchor Investors are not permitted to participate in the Offer through the ASBA process. The RIS Bidding in the Individual Portion can additionally Bid through the UPI Mechanism.

An Individual Investor making applications using the UPI Mechanism shall use only his / her own bank account or only his / her own bank account linked UPI ID to make an application in the Issue. The SCSBs, upon receipt of the Application Form will upload the Bid details along with the UPI ID in the bidding platform of the Stock Exchange. Applications made by the Individual Investors using third party bank accounts or using UPI IDs linked to the bank accounts of any third parties are liable for rejection. The Bankers to the Issue shall provide the investors’ UPI linked bank account details to the RTA for the purpose of reconciliation. Post uploading of the Bid details on the bidding platform, the Stock Exchanges will validate the PAN and demat account details of Individual Investors with the Depositories.

ASBA Applicants shall submit an Application Form either in physical or electronic form to the SCSB’s authorizing blocking funds that are available in the bank account specified in the Application Form used by ASBA applicants.

ASBA Bidders (other than RIBs using UPI Mechanism) must provide bank account details and authorization to block funds in their respective ASBA Accounts in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected.

As per the existing regulations, OCBs are not eligible to participate in this Offer. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as incorporated non-resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Offer provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Individual Investors who applies for minimum application size:

The Application must be for a minimum of 2 lots so as to ensure that the Application Price payable by the Applicant exceed Rs. 2,00,000. In case of revision of Applications, the Individual investor has to ensure that the Application Price exceed Rs. 2,00,000.

2. For Other Applicants (Non-Institutional Applicants and QIBs)

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds 2 lots and Rs. 2,00,000. An application cannot be submitted for more than the Net Offer Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Offer Closing Date and is required to pay 100% QIB Margin upon submission of Application.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Offer and the same shall be advertised in all editions of the English national newspaper [●], all editions of Hindi national newspaper [●], all editions of [●] newspaper being Regional language where the registered office of the company is situated, each with wide circulation at least two Working Days prior to the Bid / Offer Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Offer Period.

a) The Bid / Offer Period shall be for a minimum of three (3) Working Days and shall not exceed ten (10) Working Days. The Bid/ Offer Period may be extended, if required, by an additional three Working Days, subject to the total Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Offer Period, if applicable, will be published in all editions of the English national newspaper [●], all editions of Hindi national newspaper [●], all editions of [●] newspaper being Regional language where the registered office of the company is situated, each with wide circulation and also by indicating the change on the websites of the Book Running Lead Manager.

b) During the Bid/ Offer Period, Individual Bidders who apply for minimum application size, should approach the BRLM or their authorized agents to register their Bids. The BRLM shall accept Bids from Anchor Investors and ASBA Bidders in Specified Cities and it shall have the right to vet the Bids during the Bid/ Offer Period in accordance with the terms of the Red Herring Prospectus. ASBA Bidders should approach the Designated Branches or the BRLM (for the Bids to be submitted in the Specified Cities) to register their Bids.

c) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Offer Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Offer Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.

d) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Offer. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.

e) Except in relation to the Bids received from the Anchor Investors, the BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.

f) The BRLM shall accept the Bids from the Anchor Investors during the Anchor Investor Bid/ Offer Period i.e. one working day prior to the Bid/ Offer Opening Date. Bids by QIBs under the Anchor Investor Portion and the QIB Portion shall not be considered as multiple Bids.

g) Along with the Bid cum Application Form, Anchor Investors will make payment in the manner described in “Escrow Mechanism - Terms of payment and payment into the Escrow Accounts” in the section “Issue Procedure” beginning on page 371 of this Red Herring Prospectus.

h) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form prior to uploading such Bids with the Stock Exchange.

i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.

j) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.

k) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalisation of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Offer or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Offer shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Offer, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Offer.

Bids At Different Price Levels And Revision Of Bids

1. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Offer Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.

2. Our Company, in consultation with the BRLM, will finalize the Offer Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
3. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Bidders who apply for minimum application size may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.
4. Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Bidders shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.
5. The price of the specified securities offered to an anchor investor shall not be lower than the price offered to other Bidders

PARTICIPATION BY ASSOCIATES/AFFILIATES OF BRLM AND THE SYNDICATE MEMBERS

The BRLM and the syndicate member, if any shall not be entitled to subscribe to this Issue in any manner except towards fulfilling their underwriting obligations. However, associates and affiliates of the BRLM and the syndicate members may subscribe to Equity Shares in the Issue, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients. All categories of Applicants, including associates and affiliates of the BRLM and syndicate member, shall be treated equally for the purpose of allocation to be made on a proportionate basis.

Neither the BRLM nor any persons related to the BRLM (other than Mutual Funds sponsored by entities related to the BRLM), Promoters and Promoter Group can apply in the Offer under the Anchor Investor Portion.

OPTION TO SUBSCRIBE IN THE ISSUE

- a) As per Section 29(1) of the Companies Act 2013, Investors will get the allotment of Equity Shares in dematerialization form only.
- b) The Equity Shares, on allotment, shall be traded on Stock Exchange in demat segment only.
- c) In a single Application Form any investor shall not exceed the investment limit/minimum number of specified securities that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

The Securities and Exchange Board of India (Venture Capital Funds) Regulations, 1996 as amended, (the “SEBI VCF Regulations”) and the Securities and Exchange Board of India (Foreign Venture Capital Investor) Regulations, 2000, as amended, among other things prescribe the investment restrictions on VCFs and FVCIs registered with SEBI. Further, the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012 (the “SEBI AIF Regulations”) prescribe, amongst others, the investment restrictions on AIFs.

The holding by any individual VCF registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of the corpus in one Investee Company. A category III AIF cannot invest more than 10% of the corpus in one Investee Company. A venture capital fund registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its corpus by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the VCF Regulation until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

All FIIs and FVCIs should note that refunds, dividends, and other distributions, if any, will be payable in Indian Rupees only and net of Bank charges and commission.

Our Company or the BRLM will not be responsible for loss, if any, incurred by the Applicant on account of conversion of foreign currency.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Applicants will be treated on the same basis with other categories for the purpose of allocation.

6. Allocation to Anchor Investors will be completed on the Anchor Investor Bid/ Issue Period. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation is made will be made available in the public domain by the BRLM before the Bid/Issue Opening Date, through intimation to the Stock Exchange.
7. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.

8. If the Issue Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Issue Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors within 2 (two) Working Days from the Bid/ Issue Closing Date. If the Issue Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor Issue Price.
9. At the end of each day of the bidding period, the demand including allocation made to anchor investors, shall be shown graphically on the bidding terminals of syndicate members and website of stock exchange offering electronically linked transparent bidding facility, for information of public.
10. Equity Shares Allotted in the Anchor Investor Portion will be locked in for a period of 90 days on fifty per cent of the shares allotted to the anchor investors from the date of allotment, and a lock-in of 30 days on the remaining fifty per cent of the shares allotted to the anchor investors from the date of allotment.
11. The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection byes.
12. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
13. Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

Failing this, our Company reserves the right to accept or reject any application in whole or in part, in either case, without assigning any reason therefore.

In addition to the above, certain additional documents are required to be submitted by the following entities:

- (a) With respect to applications by VCFs, FVCIs, FIIs and Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Application Form. Failing this, our Company reserves the right to accept or reject any application, in whole or in part, in either case without assigning any reasons thereof.
- (b) With respect to applications by insurance companies registered with the Insurance Regulatory and Development Authority, in addition to the above, a certified copy of the certificate of registration issued by the Insurance Regulatory and Development Authority must be lodged with the Application Form as applicable. Failing this, our Company reserves the right to accept or reject any application, in whole or in part, in either case without assigning any reasons thereof.
- (c) With respect to applications made by provident funds with minimum corpus of Rs. 2,500 Lakhs (subject to applicable law) and pension funds with a minimum corpus of Rs. 2,500 Lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be lodged along with the Application Form. Failing this, our Company reserves the right to accept or reject such application, in whole or in part, in either case without assigning any reasons thereof.

Our Company in its absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Application Form, subject to such terms and conditions that our Company, the BRLM may deem fit.

Our Company, in its absolute discretion, reserves the right to permit the holder of the power of attorney to request the

Registrar to the Issue that, for the purpose of mailing of the Allotment Advice / CANs / letters notifying the unblocking of the bank accounts of ASBA applicants, the Demographic Details given on the Application Form should be used (and not those obtained from the Depository of the application). In such cases, the Registrar to the Issue shall use Demographic Details as given on the Application Form instead of those obtained from the Depositories.

The above information is given for the benefit of the Applicants. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE OFFER:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the BRLM or Registrar to the Offer shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Offer.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

Offer Procedure for Application Supported by Blocked Account (ASBA) Bidders

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015, all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations which may occur after the date of this Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes> For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

Terms of Payment

The entire Offer price of Rs. [●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Offer or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Offer and the Registrar to the Offer to facilitate collections from the Bidders.

Payment mechanism

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Retail

Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Offer shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Offer and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Offer or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors who apply for minimum application size applying in public Issue have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

Price Discovery and Allocation

- a. Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalise the Offer Price and the Anchor Investor Offer Price.
- b. The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of

Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.

- c. Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d. In case of under subscription in the Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Offer. For allocation in the event of an under subscription applicable to the Issuer, Bidders may refer to the RHP.
- e. In case if the Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage. f) Allocation to Anchor Investors shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs.20 to Rs. 24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

| Bid Quantity | Bid Amount (Rs.) | Cumulative Quantity | Subscription |
|--------------|------------------|---------------------|--------------|
| 500 | 24 | 500 | 16.67% |
| 1,000 | 23 | 1,500 | 50.00% |
| 1,500 | 22 | 3,000 | 100.00% |
| 2,000 | 21 | 5,000 | 166.67% |
| 2,500 | 20 | 7,500 | 250.00% |

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

OTHER INSTRUCTIONS

Joint Applications in the case of Individuals

In the case of Joint Bids, the Bids should be made in the name of the Bidders whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Bidders would be required in the Bid cum Application Form/Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Bidder whose name appears in the Bid cum Application Form or the Revision Form and all communications may be addressed to such Bidder and may be dispatched to his or her address as per the Demographic Details received from the Depositories.

Multiple Applications

An Applicant should submit only one Application (and not more than one) for the total number of Equity Shares required. Two or more Applications will be deemed to be multiple Applications if the sole or First Applicant is one and the same.

In this regard, the procedures which would be followed by the Registrar to the Issue to detect multiple applications are given below:

1. All applications are electronically strung on first name, address (1st line) and applicant's status. Further, these applications are electronically matched for common first name and address and if matched, these are checked manually for age, signature and father/ husband's name to determine if they are multiple applications.
2. Applications which do not qualify as multiple applications as per above procedure are further checked for common DP ID/ beneficiary ID. In case of applications with common DP ID/ beneficiary ID, are manually

checked to eliminate possibility of data entry error to determine if they are multiple applications.

3. Applications which do not qualify as multiple applications as per above procedure are further checked for common PAN. All such matched applications with common PAN are manually checked to eliminate possibility of data capture error to determine if they are multiple applications.

In case of a mutual fund, a separate Application can be made in respect of each scheme of the mutual fund registered with SEBI and such Applications in respect of more than one scheme of the mutual fund will not be treated as multiple Applications provided that the Applications clearly indicate the scheme concerned for which the Application has been made.

In cases where there are more than 20 valid applications having a common address, such shares will be kept in abeyance, post allotment and released on confirmation of know your client norms by the depositories. The Company reserves the right to reject, in our absolute discretion, all or any multiple Applications in any or all categories.

After submitting an ASBA Application either in physical or electronic mode, an ASBA Applicant cannot apply (either in physical or electronic mode) to either the same or another Designated Branch of the SCSB. Submission of a second Application in such manner will be deemed a multiple Application and would be rejected. More than one ASBA Applicant may apply for Equity Shares using the same ASBA Account, provided that the SCSBs will not accept a total of more than five Application Forms with respect to any single ASBA Account.

Duplicate copies of Application Forms downloaded and printed from the website of the Stock Exchange bearing the same application number shall be treated as multiple applications and are liable to be rejected. The Company, in consultation with the BRLM reserves the right to reject, in its absolute discretion, all or any multiple applications in any or all categories. In this regard, the procedure which would be followed by the Registrar to the Issue to detect multiple applications is given below:

1. All Applications will be checked for common PAN. For Applicants other than Mutual Funds and FII subaccounts, Applications bearing the same PAN will be treated as multiple Applications and will be rejected.
2. For Applications from Mutual Funds and FII sub-accounts, submitted under the same PAN, as well as Applications on behalf of the Applicants for whom submission of PAN is not mandatory such as the Central or State Government, an official liquidator or receiver appointed by a court and residents of Sikkim, the Application Forms will be checked for common DP ID and Client ID.

PERMANENT ACCOUNT NUMBER OR PAN

Pursuant to the circular MRD/DoP/Circ 05/2007 dated April 27, 2007, SEBI has mandated Permanent Account Number (PAN) to be the sole identification number for all participants transacting in the securities market, irrespective of the amount of the transaction w.e.f. July 02, 2007. Each of the Applicants should mention his/her PAN allotted under the IT Act. Bid submitted without this information will be considered incomplete and are liable to be rejected. It is to be specifically noted that Applicants should not submit the GIR number instead of the PAN, as the Application is liable to be rejected on this ground.

GROUND FOR REJECTIONS

In addition to the grounds for rejection of Bids on technical grounds as provided in the General Information Document, the bidders are advised to note that Bids are liable to be rejected inter alia on the following technical grounds:

- Bids submitted without instruction to the SCSBs to block the entire Bid Amount;

- Bids which do not contain details of the Bid Amount and the bank account details in the ASBA Form

- Applications by OCBs;

BIDDERS SHOULD NOTE THAT IN CASE THE PAN, THE DP ID AND CLIENT ID MENTIONED IN THE BID CUM APPLICATION FORM AND ENTERED INTO THE ELECTRONIC APPLICATION SYSTEM OF THE STOCK EXCHANGES BY THE BIDS COLLECTING INTERMEDIARIES DO NOT MATCH WITH PAN, THE DP ID AND CLIENT ID AVAILABLE IN THE DEPOSITORY DATABASE, THE BID CUM APPLICATION FORM IS LIABLE TO BE REJECTED.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The Allotment of Equity Shares to Bidders other than Individual Investors who apply for minimum application size and Anchor Investors may be on proportionate basis. For Basis of Allotment to Anchor Investors, Bidders may refer to RHP. No Individual Investor who apply for minimum application size will be Allotted less than the minimum Bid Lot subject to availability of shares in Individual Investor Category and the remaining available shares, if any will be Allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Offer for Sale only, then minimum subscription may not be applicable.

Flow of Events from the closure of bidding period (T DAY) Till Allotment:

- On T Day, RTA to validate the electronic bid details with the depository records and also reconcile the final certificates received from the Sponsor Bank for UPI process and the SCSBs for ASBA and Syndicate ASBA process with the electronic bid details.
- RTA identifies cases with mismatch of account number as per bid file / Final Certificate and as per applicant's bank account linked to depository demat account and seek clarification from SCSB to identify the applications with third party account for rejection.
- Third party confirmation of applications to be completed by SCSBs on T+1 day.
- RTA prepares the list of final rejections and circulate the rejections list with BRLM(s)/ Company for their review/ comments.
- Post rejection, the RTA submits the basis of allotment with the Designated Stock Exchange (DSE).
- The Designated Stock Exchange (DSE), post verification approves the basis and generates drawal of lots wherever applicable, through a random number generation software.

- The RTA uploads the drawal numbers in their system and generates the final list of allottees as per process mentioned below:

Process for generating list of allottees: -

- Instruction is given by RTA in their Software System to reverse category wise all the application numbers in the ascending order and generate the bucket /batch as per the allotment ratio. For example, if the application number is 78654321 then system reverses it to 12345687 and if the ratio of allottees to applicants in a category is 2:7 then the system will create lots of 7. If the drawal of lots provided by Designated Stock Exchange (DSE) is 3 and 5 then the system will pick every 3rd and 5th application in each of the lot of the category and these applications will be allotted the shares in that category.
- In categories where there is proportionate allotment, the Registrar will prepare the proportionate working based on the oversubscription times.
- In categories where there is undersubscription, the Registrar will do full allotment for all valid applications.
- On the basis of the above, the RTA will work out the allottees, partial allottees and non- allottees, prepare the fund transfer letters and advice the SCSBs to debit or unblock the respective accounts.

BASIS OF ALLOTMENT

a. For Individual Bidders

Bids received from the Individual Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Bidders will be made at the Offer Price.

The Net Offer size less Allotment to Non-Institutional and QIB Bidders shall be available for Allotment to Individual Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to 18,66,000 Equity Shares at or above the Offer Price, full Allotment shall be made to the Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [Equity Shares at or above the Offer Price, the Allotment shall be made on a proportionate basis up to a minimum of 2,000 Equity Shares and in multiples of 1,000 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Offer Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Offer Price.

The Net Offer size less Allotment to QIBs and Individual bidders shall be available for Allotment to Non- Institutional Bidders who have Bid in the Offer at a price that is equal to or greater than the Offer Price. If the aggregate demand in this category is less than or equal to 8,01,000 Equity Shares at or above the Offer Price, full Allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 8,01,000 Equity Shares at or above the Offer Price, Allotment shall be made on a proportionate basis up to a minimum of 2,000 Equity Shares and in multiples of 1,000 Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. For QIBs

Bids received from QIBs Bidding in the QIB Category at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price.

Allotment shall be undertaken in the following manner:

- In the first instance allocation to Mutual Funds for 5.00 % of the QIB Portion shall be determined as follows:

- i. In the event that Bids by Mutual Fund exceeds 5.00 % of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5.00 % of the QIB Portion.
- ii. In the event that the aggregate demand from Mutual Funds is less than 5.00 % of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Offer Price.
- iii. Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;

• In the second instance Allotment to all QIBs shall be determined as follows:

- i. In the event that the oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Offer Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of 2,000 Equity Shares and in multiples of 1,000 Equity Shares thereafter for 50 % of the QIB Portion.
- ii. Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of 2,000 Equity Shares and in multiples of 1,000 Equity Shares thereafter, along with other QIB Bidders.
- iii. Under-subscription below 50 % of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis.

d. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Offer:

In the event of the Offer being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the NSE Emerge (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b. The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e., Total number of Shares applied for into the inverse of the over subscription ratio)
- c. For Bids where the proportionate allotment works out to less than 1,000 equity shares the allotment will be made as follows:
- d. Each successful Bidder shall be allotted 2,000 equity shares; and
- e. The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- f. If the proportionate allotment to a Bidder works out to a number that is not a multiple of 1,000 equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of 1,000 equity shares subject to a minimum allotment of 2,000 equity shares.
- g. If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 1,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Offer specified under the Capital Structure mentioned in this RHP.

“Individual Investor” means an investor who applies for minimum application size. Investors may note that in case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with NSE Limited.

The Executive Director / Managing Director of NSE - the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Offer shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Issuance of Allotment advice

- a. Upon approval of the Basis of Allotment by the Designated Stock Exchange.
- b. On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Offer. The Book Running Lead Manager or the Registrar to the Offer will dispatch an Allotment Advice to their Bidders who have been allocated Equity Shares in the Offer. The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract for the Allotment to such Bidder.
- c. Issuer will make the allotment of the Equity Shares and initiate corporate action for credit of shares to the successful Bidders Depository Account within 4 working days of the Offer Closing date. The Issuer also ensures the credit of shares to the successful Bidders Depository Account is completed within one working Day from the date of allotment, after the funds are transferred from ASBA Public Issue Account to Public Issue account of the issuer.

Designated Date

On the Designated date, the SCSBs shall transfer the funds represented by allocations of the Equity Shares into Public Issue Account with the Bankers to the Issue.

The Company will Issue and dispatch letters of allotment/ or letters of regret along with refund order or credit the allotted securities to the respective beneficiary accounts, if any, within a period of 4 working days of the Bid/ Issue Closing Date. The Company will intimate the details of allotment of securities to Depository immediately on allotment of securities under relevant provisions of the Companies Act, 2013 or other applicable provisions, if any.

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under the automatic route in our Company.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (DIPP), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue. The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws.

Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulations under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

| LIEN | | |
| 45. | <p>The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.</p> <p>Provided that the fully paid shares shall be free from all lien, while in the case of partly paid shares, the company's lien, if any, shall be restricted to moneys called or payable at a fixed time in respect of such shares.</p> | Company to have Lien on shares. |
| 46. | <p>For the purpose of enforcing such lien the Directors may sell the shares subject thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person (if any) entitled by transmission to the shares and default shall have been made by him in payment, fulfillment of discharge of such debts, liabilities or engagements for seven days after such notice.</p> <p>To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.</p> | As to enforcing lien by sale. |
| 47. | The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale. | Application of proceeds of sale. |
| FORFEITURE AND SURRENDER OF SHARES | | |

| | | |
|-----|---|--|
| 48. | If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or installment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force. | If call or installment not paid, notice may be given. |
| 49. | The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid. The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited. | Terms of notice. |
| 50. | If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture. | On default of payment, shares to be forfeited. |
| 51. | When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members. | Notice of forfeiture to a member |
| 52. | Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit. | Forfeited shares to be property of the Company and may be sold etc. |

| | | |
|-----|---|--|
| 53. | Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so. | Members still liable to pay money owing at time of forfeiture and interest. |
| 54. | The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved. | Effect of forfeiture. |
| 55. | A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares. | Evidence of Forfeiture. |
| 56. | The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares. | Title of purchaser and allottee of Forfeited shares. |
| 57. | Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons entitled thereto. | Cancellation of share certificate in respect of forfeited shares. |
| 58. | In the meantime and until any share so forfeited shall be sold, re-allotted, or otherwise dealt with as aforesaid, the forfeiture thereof may, at the discretion and by a resolution of the Directors, be remitted as a matter of grace and favour, and not as was owing thereon to the Company at the time of forfeiture being declared with interest for the same unto the time of the actual payment thereof if the Directors shall think fit to receive the same, or on any other terms which the Director may deem reasonable. | Forfeiture may be remitted. |

| | | |
|--|--|--|
| 59. | Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively. | Validity of sale |
| 60. | The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit. | Surrender of shares. |
| TRANSFER AND TRANSMISSION OF SHARES | | |
| 61. | (a) The instrument of transfer of any share in or debenture of the Company shall be executed by or on behalf of both the transferor and transferee. The transferor shall be deemed to remain a holder of the share or debenture until the name of the transferee is entered in the Register of Members or Register of Debenture holders in respect thereof. | Execution of the instrument of shares |
| 62. | The instrument of transfer of any share or debenture shall be in writing and all the provisions of Section 56 and statutory modification thereof including other applicable provisions of the Act shall be duly complied with in respect of all transfers of shares or debenture and registration thereof. Provided that the company shall use a common form of transfer; | Transfer Form. |
| 63. | The Company shall not register a transfer in the Company other than the transfer between persons both of whose names are entered as holders of beneficial interest in the records of a depository, unless a proper instrument of transfer duly stamped and executed by or on behalf of the transferor and by or on behalf of the transferee and specifying the name, address and occupation if any, of the transferee, has been delivered to the Company along with the certificate relating to the shares or if no such share certificate is in existence along with the letter of allotment of the shares: Provided that where, on an application in writing made to the Company by the transferee and bearing the stamp, required for an instrument of transfer, it is proved to the satisfaction of the Board of Directors that the instrument of transfer signed by or on behalf of the transferor and by or on behalf of the transferee has been lost, the Company may register the transfer on such terms as to indemnity as the Board may think fit, provided further that nothing in this Article shall prejudice any power of the Company to register as shareholder any person to whom the right to any shares in the Company has been transmitted by operation of law. | Transfer not to be registered except on production of instrument of transfer. |
