Risk to Investors

For details, refer to section titled "Risk Factors" on page 24 of the RHP.

- We are subject to extensive and evolving regulatory requirements:** The key regulatory requirements and prudential norms applicable to our Company include net worth / capital adequacy, Total Expense Ratio ("TER") / Base Expense Ratio ("BER") restrictions, investment, valuation and portfolio norms, governance and trustee oversight, risk management, compliance and SEBI inspections, cybersecurity, data protection and technology resilience, KYC, AML and investor protection. Introduction of the BER framework and reduction in TER caps under the SEBI (Mutual Funds) Regulations directly reduce our management fee and TER income. Any changes to applicable laws, regulations or guidelines, or any adverse outcome from regulatory inspections, enquiries or investigations, including penalties, enhanced supervision may lead to suspension or cancellation of our registration, or reputational damage could have a material adverse effect on our business, financial condition, results of operations and cash flows.
- Scheme Underperformance Risk:** A significant number of our schemes have underperformed relative to benchmarks and peer schemes in the past three years. Underperformance relative to benchmarks in any given period may be driven by various factors and may persist across multiple periods. Any sustained underperformance of a significant number or proportion of our schemes, or the persistence of underperformance of existing bottom-quartile schemes, could result in increased investor redemptions, deterioration in our QAAUM, loss of market share, and reputational damage, each of which could have a material adverse effect on our business, results of operations, financial condition and prospects. The following table sets forth the number and percentage of our schemes (by category) that were ranked in the bottom quartile of their respective categories based on three-year returns, as at the relevant dates:

Period	Total Schemes	Bottom-Quartile Equity / Equity-Oriented Schemes	% of Equity / Equity-Oriented Schemes	Bottom-Quartile Debt Schemes	% of Debt Schemes	Bottom-Quartile Schemes (All Categories)	% of Total Schemes	AUM of Bottom-Quartile Schemes (₹ billion)	% of total ranked AUM

3. Revenue and Profitability is directly linked to QAAUM which could decline due to adverse market movements, redemptions: Any decline in our QAAUM, whether due to market depreciation, investor redemptions, or other factors, directly reduces our management fee income. Investor redemptions in response to poor scheme performance, market volatility, or changes in investor preferences could result in a significant decline in our QAAUM. Large-scale redemptions, particularly by institutional investors or high-net-worth individuals, could create a compounding effect where redemptions force schemes to sell securities at unfavourable prices, resulting in further performance deterioration and additional redemptions.

The table below sets forth our management fees as a percentage of our total revenue from operations for Fiscal 2026, Fiscal 2025 and Fiscal 2024:

Particulars	For Fiscal 2026	For Fiscal 2025	For Fiscal 2024
Management fees (₹ million) (A)	42,344.92	34,377.87	26,101.82
Total revenue from operations (₹ million) (B)	43,894.88	35,977.57	26,905.58
Management fees as a percentage of total revenue from operations (C=A/B)%	96.47%	95.55%	97.01%

4. Lower fees on Passive Investment Products: We face risks relating to the growth of passive investment products, which typically have lower fees and could impact our actively managed QAAUM and reduce our profitability. The table below sets forth our mutual fund QAAUM from passive products (i.e., ETFs and index funds) as at March 31, 2026, March 31, 2025, and March 31, 2024:

Particulars	As at March 31, 2026	As at March 31, 2025	As at March 31, 2024

5. Distribution Channel Dependence Risk: We distribute our mutual fund schemes through multiple channels, including SBI's branch network and YONO banking platform, mutual fund distributors including 132,519 institutional and individual MFDs, which includes 122,460 independent financial advisors, 9,964 national distributors, and 95 banks (including SBI) as of March 31, 2026, digital channels and direct channels including our branches, website and InvesTap mobile application. Any disruption in distribution channels or deterioration in relationships with key distributors could adversely affect our ability to attract and retain investors.

The table below provides a split of our MAAUM generated from direct and third party distribution channels as at the dates indicated:

Distribution Channel	As at March 31, 2026		As at March 31, 2025		As at March 31, 2024

Total MAAUM	12,149.32	100.00%	10,619.89	100.00%	9,297.56	100.00%

6. Scheme Concentration Risk: A portion of our mutual fund QAAUM and revenue from mutual fund operations is concentrated in a limited number of schemes, and any adverse developments affecting these schemes could materially affect our business. As at March 31, 2026, our top 5 schemes by mutual fund QAAUM accounted for 42.57% of our total mutual fund QAAUM and our top 10 schemes by mutual fund QAAUM accounted for 59.47% of our mutual fund QAAUM. Any adverse developments affecting these schemes could have a disproportionate impact on our overall assets under management, revenues, and profitability.

7. B-30 Cities Redemption Volatility Risk: B-30 investors tend to be relatively newer to mutual fund investing and may exhibit higher redemption volatility during periods of market stress or market downturns compared to MAAUM sourced from T-30 cities; additionally, any material reduction in our B-30 MAAUM, or higher-than-anticipated redemption volatility from B-30 cities, could have an adverse effect on our business, financial condition, results of operations and cash flows. The table below sets forth geographic breakdown of our mutual fund MAAUM as at the dates specified:

Geographic Breakdown	As at March 31, 2026	As at March 31, 2025	As at March 31, 2024

9. A significant component of our PMS business has historically been derived from our mandate to manage a portion of a statutory provident fund institution in India's corpus, where we have served as a portfolio manager since the inception of its equity investment program. As at March 31, 2026, we held a 49.9% market share of this institution's equity corpus under management (Source: CRISIL Report) reflecting the depth of our institutional track record. This fund in India is currently undertaking a comprehensive update of its investment management structure, including appointment of new portfolio managers and asset management companies across its fixed income and exchange traded fund mandates. As part of this process, we have received a reallocation notice under our fixed income mandate, which may result, for the time being, in a material reduction of assets under management in our discretionary PMS business. Any such reallocation may also impact assets under management and mutual fund market share.
