In this Red Herring Prospectus, discrepancies in any table, graphs or charts between the total and the sums of the amounts listed are due to rounding-off.

There are significant differences between Ind AS, Indian GAAP, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, the Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should, accordingly, be limited.

Unless the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” on Page Nos. 18, 129, 235 respectively, of this Red Herring Prospectus, and elsewhere in this Red Herring Prospectus have been calculated on the basis of the Restated Financial Statements of our Company, prepared in accordance with GAAP, and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to two decimal places including percentage figures in “*Risk Factors*”, “*Industry Overview*” and “*Our Business*” on Page Nos. 18 and 119 and 129 respectively, this Red Herring Prospectus.

Industry and Market Data

Unless stated otherwise, the industry and market data and forecasts used throughout this Red Herring Prospectus has been obtained from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable. The extent to which the market and industry data used in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, “Basis for Issue Price” on Page No. 110 of this Red Herring Prospectus includes information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the BRLM have independently verified such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “Risk Factors” on Page No. 18 of this Red Herring Prospectus.

FORWARD - LOOKING STATEMENTS

This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “propose”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. These forward-looking statements, whether made by us or a third party, are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Our ability to successfully implement our strategy, achieve growth and expansion;
- Sharp price fluctuation in our commodity prices could have a significant impact on our results of operations;
- Our revenues and continued growth are highly dependent upon increasing wallet share of existing clients and establish new client relationships;
- A significant portion of our international trade is conducted via ocean freight. Any adverse impact on ocean freight—such as increases in shipping costs, port congestion, container shortages, regulatory changes, or disruptions due to geopolitical tensions, natural disasters, or pandemics—could materially affect our cost structure, delivery timelines, and customer commitments;
- We are majorly dependent upon a few third party miners and manufacturers for procurement of trading minerals. Any disruption or restriction on the mining operations or manufacturing, may have an adverse impact on our business operations
- Any failure in our quality control processes may adversely affect our business;
- Any change in government policies resulting in increases in taxes payable by us;
- Our ability to retain our key managements persons and other employees;
- Changes in laws and regulations that apply to the industries in which we operate;
- Changes in political and social conditions in India or in countries that we operate in, the monetary and interest rate policies of India and other countries, inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
- Inability to successfully obtain registrations in a timely manner or at all;
- Conflicts of interest with affiliated companies, the promoter group and other related parties; and
- The performance of the financial markets in India and globally

For further discussion of factors that could cause the actual results to differ from our estimates and expectations, see “Risk Factors”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” beginning on Page Nos. 18, 129 and 235 respectively, of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect current views as on the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these

forward-looking statements are based on reasonable assumptions, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the Promoters, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company, the Promoters and the Book Running Lead Manager will ensure that the Bidders in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange for the Issue.

SECTION II – RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the sections “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 119, 129 and 235 of this Red Herring Prospectus, respectively. The industry-related information disclosed in this section that is not otherwise publicly available is derived from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

This Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 16 of this Red Herring Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Restated Financial Information.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, whether quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Red Herring Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

In this section, unless the context requires otherwise, any reference to “we”, “us” or “our” refers to Sri Priyanka Geo Commex Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding.

INTERNAL RISK FACTORS

BUSINESS RELATED RISKS

1. ***During the period ended December 31, 2025 and Fiscals 2025, 2024 and 2023, we derived 87.85%, 77.27%, 81.30% and 70.24%, respectively, of our revenue contribution from our subsidiaries on consolidated basis. Any loss of sales due to reduction in demand for the products of our subsidiaries would have a material adverse effect on our business, financial condition, results of operations and cash flows.***

We are engaged in the business of procurement and supply of Barite and also manufacturing and selling crude rice bran oil and refining crude rice bran oil and the byproducts generated while processing of the finished products. Our subsidiaries, (1) Geo Min Commodities Pte. Ltd., Singapore, wholly-owned subsidiary and (2) Atlas Resources International, Morocco, wholly-owned step-down subsidiary, operates into high demand minerals segment in global markets. Our subsidiaries deals in Barite, Fluorspar, Copper Cathode and other minerals. We rely heavily on revenue generated from the sale of Barite, Fluorspar, Copper Cathode and other minerals, therefore any reduction in the demand of our products or any downturn in the rice bran oil industry, may have an adverse impact on our business, results of operations and financial condition.

The table below set out the revenue from operations earned from our company and our subsidiaries for the period indicated below:

Particulars	December 31, 2025		2025		2024		2023	
	(₹ in lakhs)	As a % of total Revenue	(₹ in lakhs)	As a % of total Revenue	(₹ in lakhs)	As a % of total Revenue	(₹ in lakhs)	As a % of total Revenue
Sri Priyanka	3,016.64	12.15%	3,696.88	13.89%	4,538.94	18.15%	6,525.72	29.76%
Subsidiaries	21,820.15	87.85%	22,927.93	86.11%	20,464.68	81.85%	15,403.14	70.24%
Total	24,836.79	100.00%	26,624.81	100.00%	25,003.62	100.00%	21,928.86	100.00%

Our success is dependent upon our ability to diversify and grow our operations, retain our existing customers and expand our customer base. In the event, we are unable to scale our operations or retain or grow our customers for Barite, Fluorspar, Copper Cathode and other minerals, our revenue from operations and cash flow may experience a decline. There is no assurance that we will not face any such decline in sale of such products in the future. Therefore, any reduction in the demand of our products or any downturn in the rice bran oil industry, may have an adverse impact on our business, results of operations and financial condition.

2. ***Our Singapore subsidiary, Geo Min Commodities Pte. Ltd., operation is highly dependent on Copper Cathode and a few key suppliers who help us procure the same. Geo Min Commodities Pte. Ltd. has not entered into long-term agreements with its suppliers for supply of raw materials. In the event we are unable to procure adequate amounts of Copper Cathode at competitive prices, results of operations and financial condition may be adversely affected.***

Our Singapore subsidiary, Geo Min Commodities Pte. Ltd., operation is highly dependent on Copper Cathode and a few key suppliers who help us procure the same. The details of the suppliers from whom it was procured are provided below:

Geo Min Commodities Pte. Ltd. has not entered into long-term agreements with its suppliers for supply of raw materials. Thus, if we experience significant increase in demand, or need to replace an existing supplier, we cannot assure you that we will be able to meet such demand or find suitable substitutes, in a timely manner and at reasonable costs, or at all. Further, we may not be able to replace our suppliers in a timely manner or arrange for suppliers who provide us the raw materials of the same quality as our previous suppliers.

Further, the amount of raw materials procured and the price, at which we procure Copper Cathode, may fluctuate from time to time. In addition, the availability and price of Copper Cathode may be subject to a number of factors beyond our control, including economic factors, environmental factors and changes in government policies and regulations, including those relating to mining industry in general. We cannot assure you that we will always be able to meet our Copper Cathode requirements at prices acceptable to us, or at all, or that we will be able to pass on any increase in the cost of Copper Cathode to our customers. Further, we also cannot assure you with a reasonable certainty that the Copper Cathode that we would procure in the future will not be defective / inferior in quality / grade. In the absence of formal agreements, should we receive any such defect, we may not be in a position to recover any advance payments made or claim compensation from our suppliers. Any inability on our part to procure sufficient quantities of Copper Cathode, on commercially acceptable terms, may lead to a decline in our sales volumes and profit margins which could adversely affect our Copper Cathode business, results of operations and financial condition. However, there was no such incident in the past.

3. Our Group is significantly dependent on revenue generated from certain products and any adverse change affecting such products could materially and adversely affect our business, financial condition, results of operations and cash flows.

A substantial portion of the revenue from operations of our Group is derived from a limited number of products. The product-wise revenue contribution of the Group for the relevant financial periods is set out below:

(₹ in lakhs)

* include bauxite lumps, thump hard coking coal, non-coking coal, aluminium scrap coils, copper birch cliff, refined lead ingots, white barite, pet coke and limestone

Our dependence on revenues from these products exposes us to risks relating to changes in market demand, pricing pressure, availability and cost of raw materials, regulatory changes, quality standards, competition and customer preferences specific to such products. Any slowdown in demand, adverse regulatory action, inability to comply with applicable quality or grading requirements, increase in input costs, or disruption in supply chain relating to these products may adversely impact our revenues and profitability.

Further, the concentration of revenue from certain products may limit our ability to quickly offset any decline in performance of such products with revenues from other products. There can be no assurance that we will be able to diversify our product mix or that such diversification, if undertaken, will be successful or timely.

Any of the foregoing factors could have a material adverse effect on our business, financial condition, results of operations and cash flows

4. We are majorly dependent upon third party mining operations for procurement of barite for our international operations. Any disruption or restriction on the mining operations either domestically or internationally, may have an adverse impact on our business operations.

We are engaged in the business of trading of barite domestically as well as internationally through our Subsidiaries. For our Subsidiaries, Geo Min Commodities Pte. Ltd. and Atlas Resources International, we procure Barite and Fluorspar from miners in Morocco, and market and sell the same in various international markets. Our Subsidiaries have entered into procurement agreements with third parties which are valid for a specific period of time.

Our Company and our Subsidiaries are dependent on third-party mining operations, both domestic and international, for the procurement of barite. These mines are subject to various operational, regulatory, environmental, and geological risks which may directly impact the availability, quality, and cost of barite supplied to the Company. Further, the procurement operations of our Subsidiaries are also susceptible to risks relating to termination of procurement agreements, with or without notice, resulting in finding additional suppliers, which may impact quality, cost competitiveness and timely delivery to our customers. While, the aforementioned events have not occurred in the preceding three Fiscals, occurrence of any such events may have an adverse impact on our business, results of operations and financial condition.

Mining activities are inherently uncertain and can be affected by factors such as depletion of reserves, changes in ore grade, equipment failures, labor shortages, adverse weather conditions, or natural disasters. Furthermore, mining operations are subject to stringent environmental and regulatory approvals, including licenses, mining leases, and periodic renewals. Any suspension or cancellation of mining rights or non-compliance by the mine operators may lead to supply disruptions. In addition, many mines are located in regions that may be geopolitically sensitive or prone to regulatory changes. Government-imposed restrictions on mineral exports, increased royalties, environmental clearances, or changes in land acquisition laws can significantly impact the operations of these mines, thereby affecting our procurement schedule and cost structures. Since we do not have direct control over these mining operations, it is exposed to the risk of inconsistent supply, delays in delivery, quality deviations, or sudden escalation in procurement costs. Any

prolonged disruption in supply from key mines could adversely affect the Company's ability to meet its customer commitments and result in loss of business, revenue, and reputation. As on the date of this Red Herring Prospectus, there was no events or circumstances have occurred in past that have materially affected or are likely to materially affect the Company's operations, supply chain, or financial performance in connection with mining activities or the procurement of raw materials sourced from mining operations.

5. *We are exposed to risks relating to volatility in the mining industry and fluctuation in the prices of our traded products, which may lead to decline of our revenue from trading operations.*

We are engaged in the business of trading of Barite, Fluorspar, Copper Cathode and other minerals domestically as well as internationally through our Subsidiaries. The business operations of our Company and our Subsidiaries are significantly influenced by the overall trends in the mining industry and the global pricing mechanisms applicable to Barite, Fluorspar, Copper Cathode and other minerals such as bauxite lumps, thump hard coking coal, non-coking coal, aluminium scrap coils, copper birch cliff, refined lead ingots, and limestone. Being a mineral commodity, barite, Fluorspar, Copper Cathode and other minerals is subject to cyclical fluctuations driven by global supply-demand dynamics, mining output levels, exploration activity, and geopolitical developments in mineral-rich regions. Any downturn in the mining industry, such as regulatory restrictions, environmental limitations, strikes, or depletion of reserves may adversely impact the availability and cost of barite, Fluorspar, Copper Cathode and other minerals.

Furthermore, barite, Fluorspar, Copper Cathode and other minerals pricing is increasingly influenced by commodity market benchmarks and trading sentiment on regional and global platforms. Although barite is not traded on major commodity exchanges in the same way as base or precious metals, its price is often indirectly linked to trends observed in the broader industrial minerals market. Speculative activities, announcements of government policy changes, and fluctuations in the prices of associated minerals may contribute to sharp and unpredictable price movements.

In the absence of fixed-price procurement or hedging mechanisms, our Company and our Subsidiaries remain exposed to both upward and downward price fluctuations. A significant increase in barite prices may reduce profit margins, especially if we are unable to pass on the increase to customers. Conversely, a sharp price drop may result in inventory losses if we hold large quantities of high-cost stock. Such volatility may materially affect our profitability, cash flows, and overall financial performance.

6. *We do not have firm commitment agreements with most of our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.*

We do not enter into formal agreements or arrangements with our customers and typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit of the products that are to be supplied to/ purchased by them from us. Pursuant to the purchase order, our customers provide us the product specification, quantities of units to be supplied along with the delivery schedules specifying the details of delivery. In the event our customers terminate their arrangements with us or commit defaults in payment of amounts owed to us, our business, results of operations and financial condition may be impacted.

Due to the absence of long term agreements with most of our customers, the actual sales by our Company may differ from the estimates of our management. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute terms of arrangements with our customers that are commercially viable or that we will be able to significantly reduce customer concentration in the future. In the absence of formal agreements, if our customers arbitrarily terminate work orders or fail to make payment towards the products offered by us, we may not be in a position to claim compensation. We take advance payments from our customers to mitigate risks relating to default in payment by our customers, however there can be no assurance that such advance payments would be commensurate with the work undertaken and resourced deployed on an order. While, there have been no instances of default by our customers in the past, occurrence of such instances in the future may impact our business, results of operations and financial condition.

We cannot assure you that we will be able to continue our arrangements with our customers on terms that are commercially acceptable to us, or at all. We cannot assure you that such customers shall fulfil their obligations entirely, or at all, shall not breach certain terms of their arrangements with us, including with respect to payment obligations or quality standards, or shall not choose to terminate their arrangements with our

Company. While there have been instances in the past, wherein our Company failed to renew its arrangements with its customers, however we cannot assure you that such instances will not occur in the future and will not adversely affect our business, results of operations and financial condition.

7. *During the period ended December 31, 2025, and for the year fiscal 2025, 2024 and 2023, we derived 82.48%, 61.10%, 97.08% and 100.00% of our revenue contribution is from sale of rice bran oil and its by-products on standalone basis. Any loss of sales due to reduction in demand for such products would have a material adverse effect on our business, financial condition, results of operations and cash flows.*

We are a manufacturer and seller of crude rice bran oil and refining crude rice bran oil and the byproducts generated while processing of the finished products. On standalone basis, we rely heavily on revenue generated from the sale of rice bran oil and its by-products, therefore any reduction in the demand of our products or any downturn in the rice bran oil industry, may have an adverse impact on our business, results of operations and financial condition. The table below set out the revenue from operations earned from our product categories for the period indicated below:

Our success is dependent upon our ability to diversify and grow our operations, retain our existing customers and expand our customer base. In the event, we are unable to scale our operations or retain or grow our customers for rice bran oil, our revenue from operations and cash flow may experience a decline. There is no assurance that we will not face any such decline in sale of such products in the future.

In the event, there takes place a shift of practice, wherein the end use customers integrate their operations by setting up manufacturing units for manufacturing the required raw materials, it may have an adverse impact on our business and results of operations. It may also happen that our competitors are able to improve the efficiency of their manufacturing process and thereby offer similar or high quality products at competitive prices. While the aforementioned events have not materially occurred in the past, however upon occurrence of any such events, our Company may be unable to adequately react to such developments which may affect our revenues and profitability.

In order to mitigate the risk relating to dependency on rice bran oil, we have strategically diversified our product portfolio by entering into export of barite and other allied products in the Company also. Any failure to successfully expand and diversify our operations, could adversely affect our business, financial condition, cash flows and results of operations.

8. *Form 2 for allotments made on April 01, 1991, March 30, 1994 and May 26, 2006, were not available in the records.*

For allotments made on April 01, 1991, March 30, 1994 and May 26, 2006, Form 2 for allotment of the shares were not available in the records. The details of allotments have been compiled from the minutes of the Board Meeting held for the respective allotments. Further, a search report on the issued capital has been taken from GRNK & Associates, Practicing Company Secretary, (Membership No. F13447 and PR No. 3230/2023) dated August 23, 2025, and the same has been relied upon in making disclosure of issued and paid-up capital in the DRHP.

While no show cause notice, penalty or fine has been imposed by the RoC or any other regulatory authority

in respect of the aforesaid non-availability till date, there can be no assurance that no regulatory authority will raise any observation or impose any penalty or fine in the future in respect of such past allotments.

Any adverse regulatory action in this regard may result in monetary penalties, reputational risks, increased compliance burden, and diversion of management's attention, which could in turn have a material adverse effect on the Company's business, financial condition and results of operations

9. Majority of our revenue during the period ended December 31, 2025 and in the past three financial years is derived from Copper Cathode trading operations. Any impact on the Copper Cathode trading operations of our Subsidiaries may affect our consolidated financial condition and results of operations.

In the last three financial years, a majority of the revenue of our subsidiary Geo Min Commodities Pte. Ltd. is derived from Copper Cathode trading operations. The table below sets forth a break-up of the revenue earned by our Subsidiary during the period ended December 31, 2025 and preceding three years from Copper Cathode trading operations:

Particulars	December 31, 2025		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Revenue (₹ in lakhs)	As a % of total Revenue	Revenue (₹ in lakhs)	As a % of total Revenue	Revenue (₹ in lakhs)	As a % of total Revenue	Revenue (₹ in lakhs)	As a % of total Revenue
Copper Cathode	11,024.17	44.39%	14,568.45	63.54%	13,987.29	68.35%	9,945.69	64.57%

In the event, our Subsidiary losses any Copper Cathode trading operations, they may not be able to contribute to our revenues for a prolonged period of time, which may have a negative impact on our cash flows and financial statements. We are significantly dependent upon the continued Copper Cathode trading operations of our Subsidiary and any losses in such Copper Cathode trading operations may impact our operations and thereby indirectly impact our business and financial condition. The realization of any of these risks and other factors may lead to disputes, loss of deposits paid and may affect the operations of our Company and our Subsidiary and, as a result, our financial condition and results of operations may be materially and adversely affected. We further confirm that there was no such event occurred in the past, however, there is no assurance that the same will not occur in future.

10. We highly depend on our key raw material for our rice bran oil segment and a few key suppliers who help us procure the same. Our Company has not entered into long-term agreements with its suppliers for supply of raw materials. In the event we are unable to procure adequate amounts of raw materials, at competitive prices our standalone business, results of operations and financial condition may be adversely affected.

We are a manufacturer and seller of crude rice bran oil and refining crude oil and the byproducts generated while processing of the finished products. We are highly dependent on few raw materials which form primary component of our manufacturing process. The details of the raw materials procured by us are provided below:

S.No.	Material	Procured from
1	Rice Bran	Rice bran is procured from various rice mills located in Andhra Pradesh and Tamil Nadu. The major suppliers include Sri Venkatadri Parboiled Rice Mill and Sri Srinivasa Raw & Boiled Rice Mill.
2	Rice Bran oil	Rice bran oil is procured from solvent extraction units located in Andhra Pradesh and Tamil Nadu. The major suppliers include Aswini Agro Tech Private Limited and Sai Lakshmi Venkateswara Solvent Extractions.
3	Chemicals Enzymes, Bleaching Earth, Citric Acid, Caustic Soda, Phosphoric Acid	Directly from the local manufacturers and traders across India

Thus, if we experience significant increase in demand, or need to replace an existing supplier, we cannot assure you that we will be able to meet such demand or find suitable substitutes, in a timely manner and at reasonable costs, or at all. Further, we may not be able to replace our suppliers in a timely manner or arrange for suppliers who provide us the raw materials of the same quality as our previous suppliers

The purchases from our top ten suppliers by our Company are as under:

Particulars	December 31, 2025		Fiscal 2025		Fiscal 2024		Fiscal 2023

We depend on a number of suppliers for procurement of raw materials required for manufacturing our products. Our Company maintains a list of registered and unregistered suppliers from whom we procure the materials on order basis as per our internal demand projections. We have not entered into long term contracts with our suppliers and prices for raw materials are normally based on the quotes we receive from various suppliers. Since we have no formal arrangements with our suppliers, they are not contractually obligated to supply their products to us and may choose to sell their products to our competitors. Non-availability or inadequate quantity of raw material or use of substandard quality of the raw materials in the manufacture of our products, could have a material adverse effect on our business. Further, any discontinuation of production by these suppliers or a failure of these suppliers to adhere to the delivery schedule or the required quality and quantity could hamper our manufacturing schedule. There can be no assurance that strong demand, capacity limitations or other problems experienced by our suppliers will not result in occasional shortages or delays in their supply of raw materials to us. Further, we cannot assure you that our suppliers will continue to be associated with us on reasonable terms, or at all. Since our suppliers are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms to such suppliers, which may cause them to cater to our competitors alongside us.

Further, the amount of raw materials procured and the price, at which we procure such materials, may fluctuate from time to time. In addition, the availability and price of our raw materials may be subject to a number of factors beyond our control, including economic factors, seasonal factors, environmental factors and changes in government policies and regulations, including those relating to rice bran oil industry in general. We cannot assure you that we will always be able to meet our raw material requirements at prices acceptable to us, or at all, or that we will be able to pass on any increase in the cost of raw materials to our customers. Further, we also cannot assure you with a reasonable certainty that the raw materials that we would procure in the future will not be defective. In the absence of formal agreements, should we receive any defective raw materials, we may not be in a position to recover any advance payments made or claim compensation from our suppliers consequently increasing the manufacturing costs and/or reducing the realization of our finished products. Any inability on our part to procure sufficient quantities of raw materials, on commercially acceptable terms, may lead to a decline in our sales volumes and profit margins which could adversely affect our standalone business, results of operations and financial condition.

11. We depend on a few customers for our products, for a significant portion of our revenue, and any decrease in revenues or sales from any one of our key customers may adversely affect our business and results of operations.

We are in the business of processing and manufacturing of rice bran oil and its by-products for sale to oil manufacturers and packers. As part of our business model, we manufacture products as per the specification of our customers, which helps us improve of our offerings and achieve overall efficiencies. We are also engaged in the business of trading of barite domestically as well as internationally through our Subsidiaries.

The table below sets forth a break-up of the revenue earned by our Company on a standalone basis from top ten customers during the period ended December 31, 2025 and preceding three years:

Atlas Resources International has executed 100% of its sale to our Company and Geo Min Commodities Pte. Ltd., being the wholly owned subsidiary of our Company and the holding company of Atlas Resources International.

Our business operations are highly dependent on our customers, which we cater to and the loss of any of our customers may adversely affect our sales and consequently on our business and results of operations.

Based on our long term relationship with our customers, Geo Min Commodities Pte. Ltd., Singapore, our subsidiary, have entered into long term supply order for Moroccan Crude Barite with a reputed mineral-based additive solutions provider based out of USA, which is valid upto January 2026 for 90,000 MT with load port Laycan every quarter; for Moroccan Barite mixed Fluorspar with a reputed company based out of Germany, which is valid upto July 2026 for 40,000 MT with load port Laycan every quarter; and for Moroccan Industrial barite with a reputed company based out of Germany, which is valid upto July 2026 for 8,000 MT with load port Laycan every quarter. We typically have long term relationships with our customers, however, we have not entered into long terms agreements with many of our customers and the success of our business is accordingly significantly dependent on us maintaining good relationships with our customers and suppliers. The actual sales by our Company and our Subsidiaries may differ from the estimates of our management due to the absence of long-term agreements. The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future.

Further, neither do we have any exclusive agents, dealers, distributors nor have we entered into any agreements with any of the market intermediaries for selling or marketing our products. If there occurs any change in the market conditions, requirements of our customers, or if we fail to identify and understand evolving industry trends, preferences or fail to meet our customers' demands, it might have a direct impact on our revenue and customer base. The inability to procure new orders on a regular basis or at all may adversely affect our business, revenues, cash flows and operations.

12. We are majorly dependent upon third party mining operations for procurement of barite for our international operations. Any disruption or restriction on the mining operations either domestically or internationally, may have an adverse impact on our business operations.

We are engaged in the business of trading of barite domestically as well as internationally through our Subsidiaries. For our Subsidiaries, Geo Min Commodities Pte. Ltd. and Atlas Resources International, we procure Barite and Fluorspar from miners in Morocco, and market and sell the same in various international markets. Our Subsidiaries have entered into procurement agreements with third parties which are valid for a specific period of time.

Our Company and our Subsidiaries are dependent on third-party mining operations, both domestic and international, for the procurement of barite. These mines are subject to various operational, regulatory, environmental, and geological risks which may directly impact the availability, quality, and cost of barite supplied to the Company. Further, the procurement operations of our Subsidiaries are also susceptible to risks relating to termination of procurement agreements, with or without notice, resulting in finding additional suppliers, which may impact quality, cost competitiveness and timely delivery to our customers. While, the aforementioned events have not occurred in the preceding three Fiscals, occurrence of any such events may have an adverse impact on our business, results of operations and financial condition.

Mining activities are inherently uncertain and can be affected by factors such as depletion of reserves, changes in ore grade, equipment failures, labour shortages, adverse weather conditions, or natural disasters. Furthermore, mining operations are subject to stringent environmental and regulatory approvals, including licenses, mining leases, and periodic renewals. Any suspension or cancellation of mining rights or non-compliance by the mine operators may lead to supply disruptions. In addition, many mines are located in regions that may be geopolitically sensitive or prone to regulatory changes. Government-imposed restrictions on mineral exports, increased royalties, environmental clearances, or changes in land acquisition laws can significantly impact the operations of these mines, thereby affecting our procurement schedule and cost structures. Since we do not have direct control over these mining operations, it is exposed to the risk of inconsistent supply, delays in delivery, quality deviations, or sudden escalation in procurement costs. Any prolonged disruption in supply from key mines could adversely affect the Company's ability to meet its customer commitments and result in loss of business, revenue, and reputation.

13. Failure to manage our inventory of minerals could have an adverse effect on our net sales, profitability, cash flows and liquidity.

The results of operations of our business, including our international operations, are dependent on our ability to effectively manage inventory levels and stocks of minerals. Inventory management requires accurate assessment of customer demand, procurement planning, storage capacity, logistics coordination and timely movement of inventory. Any inability to accurately estimate demand or align procurement with sales requirements may result in inventory imbalances.

If actual customer demand is lower than anticipated, we may experience an accumulation of excess inventory, which could lead to higher storage, handling and insurance costs, increased working capital requirements, potential deterioration in quality, price markdowns or write-offs, thereby adversely affecting our profitability and cash flows. Conversely, if customer demand exceeds our estimates or if there are disruptions in procurement, transportation or supply chains, we may face shortages of inventory, which could result in loss of sales opportunities, delayed order fulfilment, strained customer relationships and adverse impact on revenues.

Further, fluctuations in international mineral prices, foreign exchange rates, regulatory changes, trade restrictions, port congestion or geopolitical events may impact the availability, valuation and turnover of inventory, thereby affecting inventory planning and carrying costs. Any significant volatility in such factors could increase the risk of inventory mismatches and liquidity pressure.

While the Company has not experienced any material failure in managing its inventory of minerals in the past, there can be no assurance that such instances will not occur in the future. Any failure to effectively manage inventory levels may have a material adverse effect on our business, net sales, profitability, cash flows, liquidity and financial condition.

14. Our Company requires significant amount of working capital for a continuing growth. Our inability to

meet our working capital requirements may adversely affect our results of operations.

Our business requires a significant amount of working capital. As per our settled business terms, we majorly require our customers to pay the full amount of the consideration only after they receive the order, as a result, significant amounts of our working capital are often required to finance the purchase of raw material and execution of manufacturing processes before payment is received from our customers. Further, we are also required to meet the increasing demand and for achieving the same, adequate stocks have to be maintained which requires sufficient working capital. In the event, we are unable to source the required amount of working capital for addressing such increased demand of our products, we might not be able to efficiently satisfy the demand of our customers. Even if we are able to source the required amount of funds, we cannot assure you that such funds would be sufficient to meet our cost estimates and that any increase in the expenses will not affect the price of our products.

Further, one of the objects of this Issue include funding of working capital requirements of our Company to the tune of ₹ 1,650.00 Lakhs for our Company and to the tune of ₹ 4,700.00 Lakhs for our Singapore subsidiary, which is based on management estimates and certain assumptions. Basis of estimation of working capital requirement for our Company is as under:

For more information in relation to such management estimates and assumptions, please see “*Objects of the Issue*” on page 91. Our working capital requirements may be subject to change due to factors beyond our control including force majeure conditions, an increase in defaults by our customers, non-availability of funding from banks or financial institutions. Accordingly, such working capital requirements may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

Any delay in processing our payments by our customers may increase our working capital requirement. Further, if an intermediary defaults in making payments for a product on which we have devoted significant resources, it could affect our profitability and liquidity and decrease the capital reserves that are otherwise available for other uses. We may file a claim for compensation of the loss that we incurred pursuant to such defaults but settlement of disputes generally takes time and financial and other resources, and the outcome is often uncertain. In general, we take provisions for bad debts, including those arising from such defaults based primarily on ageing and other factors such as special circumstances relating to special customers. There can be no assurance that such payments will be remitted by our clients to us on a timely basis or that we will be able to effectively manage the level of bad debt arising from defaults. We may also have large cash outflows, including among others, losses resulting from environmental liabilities, litigation costs, adverse political conditions, foreign exchange risks and liability claims.

All of these factors may result in increase in the amount of receivables and short-term borrowings. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. Any issuance of

equity, on the other hand, could result in a dilution of your shareholding. Accordingly, continued increases in our working capital requirements may have an adverse effect on our financial condition and results of operations.

15. Under-utilization of our rice bran oil manufacturing capacities may have an adverse effect on our business, future prospects and future financial performance.

The success of any capacity investment and expected return on investment on capital expenditure is subject to, among other factors, the ability to procure requisite regulatory approvals in a timely manner; recruit and ensure satisfactory performance of personnel to further grow our business; and the ability to absorb additional infrastructure costs and develop new expertise. Our ability to maintain our profitability depends on our ability to optimize the product mix to support high-margin products and products with consistent long-term demand and the demand and supply balance of our products in the principal and target markets. In particular, the level of our capacity utilization can impact our operating results. Capacity utilization is also affected by our product mix and the demand and supply balance. Our break up of the capacity utilization in our manufacturing unit for the period indicated has been provided below:

The refinery operated at nil capacity utilization during the period ended Dec 31, 2025, due to non-availability of adequate crude rice bran oil. The production from our solvent extraction plant alone was not sufficient and refining small quantities was not commercially feasible, thus the same is not operated.

For further information, see “Our Business” on page 122 of this Red Herring Prospectus.

These capacity utilization details are not indicative of future capacity utilization rates, which are dependent on various factors, including demand for our products, availability of raw materials, our ability to manage our inventory and improve operational efficiency.

Under-utilization of our rice bran oil manufacturing capacities over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance. Our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at our manufacturing facilities, the availability of raw materials, industry/ market conditions, as well as by the product requirements of, and procurement practice followed by us. In the event we face prolonged disruptions at our facilities including due to interruptions in the supply of water, electricity or as a result of labour unrest, or are unable to procure sufficient raw materials, we would not be able to achieve full capacity utilization of our current manufacturing facilities, resulting in operational inefficiencies which could have a material adverse effect on our standalone business and financial condition.

16. We have a limited operating history in respect of our Barite operations, which may make it difficult for

investors to evaluate our business and prospects.

In the year 2025, considering our expertise in Barite operation through our Subsidiaries, our Company started trading in Barite as well. We have a limited operating history of dealing in barite and allied products in the Company. Due to our limited operating history, the investors may not be able to evaluate our business, future prospects and viability. Further, on account of our operating history, we may not have sufficient experience to address the risks relating to providing the aforementioned services. Additionally, at an early stage, we may not be able identify risks involved in such operations and therefore could fail to achieve timely fulfilment of orders and the quality requirements of our products. While, we have sufficient orders for execution in this segment, we cannot assure you that we shall be able to execute the orders in a timely manner. Additionally, we may face challenges in planning and forecasting accurately as a result of our limited historical data and inexperience in implementing and evaluating our business strategies. Our inability to successfully address these risks, difficulties and challenges as a result of our inexperience and limited operating history may have a negative impact on our ability to implement our strategic initiatives, which may have an adverse effect on our business, prospects, financial condition and results of operations.

17. *There have been instances of delays in filing of GST returns by the Company. In case of any delay in filing of statutory returns in future by our Company, the Regulatory Authorities may impose monetary penalties on us or take certain punitive actions against our Company in relation to the same which may have adverse impact on our business, financial condition and results of operations.*

In the past, there have been certain instances of delays in filing of GST returns, i.e. GSTR-3B, by the Company. The details of the delay caused in filing return have been provided below:

GSTR-3B

Month	Due Date of filing	Date of Filing Return	Reason of Delay	Delay Period
Apr-22	20-05-2022	24-05-2022	Delay in reconciliation of ledger	4 days
Nov-22	20-12-2022	22-12-2022		2 days

It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays or defaults in relation to payment of statutory dues. The happening of such event may cause imposition of fine/ penalty which may have adverse effect on the results of our operations and financial position.

The Company acknowledges that delays in the filing of statutory returns are a matter of concern and have, at times, resulted in inadvertent non-compliance. The reasons for these delays have primarily included reconciliation issues and the complexities involved in compiling accurate data for filing. Steps Taken by the Company to prevent future delays:

- i. The Company is in process of establishing stricter internal controls and periodic reviews to ensure that all required statutory forms and returns are filed in a timely manner. This includes ensuring that all departments are aligned and there is no delay in providing the necessary data.
- ii. The reconciliation process will be optimized to ensure that all financial data is verified and prepared well in advance, thus preventing last-minute delays due to discrepancies.
- iii. A dedicated compliance would be set up, responsible solely for ensuring timely and accurate filing of all statutory returns, including GST and other forms.

We clarify that no penalty has been imposed by the statutory authority for the late filing of returns, however late fees and interest levied have been paid at the time of filing of returns. Further, the delays have been regularized as on date by the company

18. *There have been instances of delays in filings of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 2013 to ROC.*

In the past, there have been certain instances of delays in filing statutory forms which have been subsequently filed by payment of an additional fee as specified by ROC. The details of such forms have been provided below:

Year	Name of the Form	Due Date	Date of filing	No. of days in delay	Reason
2022-23	AOC-4 (Annual audited financials)	29-10-2023	01-04-2024	155	Due to technical issue on MCA site
2022-23	AOC-4 CFS (Annual consolidated audited financials)	29-10-2023	04-04-2024	158	Due to technical issue on MCA site
2022-23	MGT-7 (Annual Return)	28-11-2023	04-04-2024	128	Due to technical issue on MCA site

No show cause notice in respect to the above has been received by our Company till date and no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a material effect on our results of operations and financial position.

To address this, the Company has strengthened its internal compliance processes by implementing a tracking mechanism for due dates, enhancing coordination with external consultants, and designating dedicated personnel Company Secretary to oversee statutory filings. The Company has since regularized all delayed filings and remains committed to ensuring timely compliance with all applicable regulatory requirements.

The statutory authority has not imposed any penalty for aforesaid delay in filing of forms with MCA till date. The delays have been regularized by paying delay fine along and the same has been regularized.

19. *We do not have firm commitment agreements with most of our customers. If our customers choose not to source their requirements from us, there may be a material adverse effect on our business, financial condition, cash flows and results of operations.*

We do not enter into formal agreements or arrangements with our customers and typically rely on blanket purchase orders issued by our customers from time to time that set out the price per unit of the products that are to be supplied to/ purchased by them from us. Pursuant to the purchase order, our customers provide us the product specification, quantities of units to be supplied along with the delivery schedules specifying the details of delivery. In the event our customers terminate their arrangements with us or commit defaults in payment of amounts owed to us, our business, results of operations and financial condition may be impacted.

Due to the absence of long term agreements with most of our customers, the actual sales by our Company may differ from the estimates of our management. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute terms of arrangements with our customers that are commercially viable or that we will be able to significantly reduce customer concentration in the future. In the absence of formal agreements, if our customers arbitrarily terminate work orders or fail to make payment towards the products offered by us, we may not be in a position to claim compensation. We take advance payments from our customers to mitigate risks relating to default in payment by our customers, however there can be no assurance that such advance payments would be commensurate with the work undertaken and resourced deployed on an order. While, there have been instances of default by our customers in the past, occurrence of such instances in the future may impact our business, results of operations and financial condition.

We cannot assure you that we will be able to continue our arrangements with our customers on terms that are commercially acceptable to us, or at all. We cannot assure you that such customers shall fulfil their obligations entirely, or at all, shall not breach certain terms of their arrangements with us, including with respect to payment obligations or quality standards, or shall not choose to terminate their arrangements with our Company. While there have been instances in the past, wherein our Company failed to renew its arrangements with its customers, however we cannot assure you that such instances will not occur in the future and will not adversely affect our business, results of operations and financial condition.

20. *Our recent entry into the United States market exposes us to various risks associated with market development, regulatory compliance, and competitive conditions, which may adversely affect our results of operations.*

The Company has commenced sales to the United States market only during FY 2025-26 and does not have an established presence, customer relationships, or track record in that geography. The ability to scale operations in this market will depend on several factors, including the pace of customer acquisition, product acceptance, pricing competitiveness, distribution efficiency, and compliance with local regulations and tariffs. The Company may face longer receivable cycles, higher marketing and compliance costs, and heightened competitive pressures, any of which could adversely affect its revenue growth, profitability, and overall financial performance. There can be no assurance that the Company's expansion in the US market will meet management expectations or yield anticipated returns.

21. *The improper handling, processing or storage of our raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our rice bran oil products, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.*

Rice bran oil products that we manufacture is for human consumption and are subject to risks such as contamination, adulteration, and product tampering during their manufacture, transport or storage. Our raw materials and our products are required to be stored, handled, and transported at specific temperatures and under certain food safety conditions. Any shortcoming in the production or storage of our products due to negligence, human error or otherwise, may damage our products and result in non-compliance with applicable regulatory standards. Any allegation that our products contain contaminants could damage our reputation, adversely affect our sales and result in legal proceedings being initiated against us, irrespective of whether such allegations have any factual basis.

The improper handling, processing or storage of our raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our products, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.

As on the date of this Red Herring Prospectus, there was no events, incidents, or circumstances have occurred in the past that have resulted in or are likely to result in contamination, adulteration, spoilage, product tampering, or non-compliance with applicable food safety and quality standards in respect of the Company's rice bran oil products or raw materials used in their manufacture

22. *Our rice bran oil business is dependent on the sale of our products to certain oil manufacturers. The loss of such customers, a significant reduction in purchases by such customers, or a lack of commercial success of their product of which we are a major supplier could materially adversely affect our standalone business, results of operations and financial condition.*

We supply rice bran oil in bulk to certain oil manufacturers. We have historically derived, and may continue to derive, a significant portion of our income from sales to these customers. Any reduction in orders from our customers would adversely affect our income. The demand from our customers determines our revenue levels and results of operations, and our sales are directly affected by their production and inventory levels. Over the years, we have developed strong relationships with our customers through whom we have been able to increase the quality of our offerings. Our standalone business depends on the continuity of business with these customers.

Furthermore, the demand of our products and services is directly proportional to the demand of the products of our customers who use our products in their manufacturing process. Therefore the commercial success of our standalone business is highly dependent on the commercial viability, demand and success of the end use products of our customers. Any downturn in the demand of such products could have a direct impact on our business operations. Any disturbance in the industry in which our customers supply their end use products could adversely impact our business due to our high dependence on our customers. A reduction in the demand, development and production activities in the industries in which the end use products of our customers are supplied to, may correspondingly cause a decline in the demand for our products due to a slump in the business activities of our customers. Our failure to effectively react to these situations or to successfully introduce new products could adversely affect our business, prospects, results of operations and financial condition. While such instances have occurred in the past, however they did not have any material impact on our standalone business, results of operations, cash flows and financial condition.

23. *Our operations are dependent on uninterrupted functioning of critical utilities, regulatory permissions and stable operating conditions, and any mandatory maintenance shutdowns, equipment breakdowns, regulatory restrictions or natural calamities could adversely affect our production, capacity utilization and financial performance.*

Our Company's operations are critically dependent on the uninterrupted availability and efficient functioning of key utilities, including steam boilers and power supply, for both our Solvent Extraction Plant ("SEP") and Refinery ("REP"). Steam requirements are met through our in-house boiler system, and any disruption in its operation directly affects the continuity of production across both facilities.

In the past, our Company has experienced temporary halts in production due to mandatory boiler maintenance undertaken pursuant to the directions of the Deputy Chief Inspector of Boilers. Such maintenance activities included replacement of bed coils in the steam boiler, which required a complete shutdown of the boiler and consequently resulted in suspension of operations at both the SEP and REP for an extended period. In particular, during FY 2024, the Company undertook boiler maintenance which resulted in approximately 40 days of downtime, adversely impacting production levels, capacity utilization and revenues for that financial year.

Further, our manufacturing facility is located in a cyclone-prone region of coastal Andhra Pradesh, and the Company has, in the past, experienced operational disruptions due to cyclonic events and heavy rainfall. For instance, during FY 2024, cyclonic conditions in and around Nellore resulted in power outages, flooding of utility areas and damage to certain auxiliary equipment, including Variable Frequency Drive (VFD) components in the boiler system. Replacement and restoration activities required additional time, further affecting production schedules and operating days. While no material financial loss was incurred, such events led to reduced capacity utilization and unplanned restoration and maintenance expenditure.

Additionally, our operations are exposed to regulatory risks impacting demand and offtake of key products and by-products. In FY 2025, capacity utilization was adversely affected due to a temporary ban imposed by the Government of India on the export of De-oiled Rice Bran (DORB), a key by-product of our solvent extraction operations. The restriction constrained the offtake of DORB and, consequently, impacted the production of Crude Rice Bran Oil (CRBO) and Refined Rice Bran Oil (RRBO). Although the export ban on DORB has since been lifted with effect from October 3, 2025 pursuant to a Government notification, there can be no assurance that similar regulatory restrictions will not be imposed in the future.

While the Company has implemented various preventive and mitigation measures, including scheduled preventive maintenance of boilers and critical utilities, establishment of emergency protocols and backup arrangements, procurement of machinery breakdown and business interruption insurance, and strengthening of plant infrastructure and drainage systems to mitigate cyclone-related risks, there can be no assurance that such measures will be sufficient to prevent or mitigate all future disruptions.

Any recurrence of mandatory maintenance shutdowns, equipment failures, power interruptions, regulatory restrictions or adverse weather conditions could result in temporary suspension of production, reduced plant utilization, delays in fulfilling customer orders, increased operating and maintenance costs and may materially and adversely affect our business, financial condition, results of operations and cash flows.

24. *Majority of our international operations are concentrated in certain countries. Any adverse changes in economic and political conditions in these regions may have an adverse impact on our business, results of operations, cash flows, and financial condition.*

During the last three Financial Years, our international operations are spread across 6 (six) countries and as of March 31, 2025, ~86% of our consolidated revenue from operations was generated from outside India. While, we have created a global footprint, our operations are concentrated in select countries, through our Subsidiaries. We have in the past derived, and we believe that we will continue to derive, a significant portion of our revenue from such geographic region. In the events we are unable to expand our operations to other regions, adverse changes in economic and political conditions of the aforementioned regions may have an adverse impact on our business, results of operations, cash flows, and financial condition.

The table below sets forth a break-up of the revenue earned by our subsidiaries across various countries during the period ended December 31, 2025 and the preceding three years:

Country	December 31, 2025		2025		2024		2023	
	Revenue earned in (₹ in lakhs)	% of total revenue	Revenue earned in (₹ in lakhs)	% of total revenue	Revenue earned in (₹ in lakhs)	% of total revenue	Revenue earned in (₹ in lakhs)	% of total revenue

Total	21,820.15	100.00%	22,927.93	100.00%	20,464.68	100.00%	15,403.14	100.00%

Atlas Resources International has executed 100% of its sale to our Company, India, and to Geo Min Commodities Pte. Ltd., Singapore, being the wholly owned subsidiary of our Company and the holding company of Atlas Resources International.

Any downturn in the such regions or any deterioration of the financial conditions of customers in such region or any renegotiation of arrangements may result in a reduction in the scope of our operations and the revenue booked against such region. Further, there are a number of factors outside of our control that might result in the loss of a client, including a demand for price reductions; market dynamics and financial pressures; and a change in strategy by moving more work in-house or to our competitors. Any failure to retain our customers, expand the size of our business with them, or expand to new clients in new geographies could have an adverse effect on our business, profits and results of operations.

25. *Our products are in the nature of commodities, and their prices are subject to fluctuations that may affect our profitability.*

Our earnings are to an extent dependent on the prices of the commodities that we sell mainly Barite, Fluorspar, Copper Cathode and physically refined rice bran oil. These fluctuate due to factors beyond our control, including, amongst others, world supply and demand, minoring regulations in the source country, supply of raw materials, weather, crop yields, trade disputes between governments of key producing and consuming countries and governmental regulation. Global demand for commodities may be adversely affected in periods of sustained economic downturn, while supply may increase due to weather patterns or long-term technological developments, all of which are factors beyond our control. High commodity prices have also led to an exponential rise in raw material prices, which could result in a decrease in our gross profit margin. Nonetheless, it is difficult to predict the specific price fluctuations that may occur and the exact impact which they may have on our earnings, and it is possible for such price fluctuations to adversely affect our business, results of operations and financial condition.

26. *Failure to manage our inventory of minerals could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of international operations of our business are dependent on our ability to effectively manage our inventory and stocks of minerals. To effectively manage our inventory of minerals, we must be able to accurately estimate customer demand and supply requirement accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory.

29. *Majority of our Directors are or were not on the Boards of listed companies, thus, in case of any failure on part of our Directors to perform their duties as required in relation to a listed company, our Company may face regulatory scrutiny, penalties, or reputational risks, which could have a material adverse effect on our business and financial performance.*

A majority of our Directors are or have not previously been directors on the boards of listed companies. While our Directors possess industry knowledge, business experience, and managerial expertise, their limited exposure to the governance, compliance and disclosure requirements applicable to listed entities may pose challenges in ensuring full adherence to the regulatory framework under securities laws.

Although the Company has in place adequate compliance processes and engages qualified professionals to support the Board in discharging its responsibilities, there can be no assurance that such limited listed-company experience will not impact the effectiveness of corporate governance practices or compliance mechanisms. Any failure in this regard may result in regulatory scrutiny, penalties, or reputational risks, which could have a material adverse effect on our business and financial performance.

30. Our inability to procure, maintain or realise adequate insurance coverage for our business operations may expose us to significant losses and adversely affect our financial condition, cash flows and results of operations.

Our business operations are subject to various operational, industrial and commercial risks and hazards, including breakdowns and malfunctions of plant and machinery, sub-standard performance, fire and allied perils, natural calamities, accidents, theft, riots, transit-related risks, and potential third-party liability claims. To mitigate certain of these risks, our Company maintains insurance coverage for specified assets, inventory, employees and operations, including policies relating to building and machinery, stock, marine cargo, money insurance, motor vehicles, group personal accident, and other incidental risks. Details of the insurance policies availed by our Company have been provided below:

S. No.	Insurer	Description of Property Insured	Policy No.	Expiry date	Insured Amount (₹ in Lakhs)

As on December 31, 2025, the aggregate insurance cover maintained by the Company amounts to approximately ₹6,315.60 lakhs, which represents approximately 119% of the total value of the insured assets, based on management's assessment of replacement cost and risk exposure. The insurance policies are obtained from various insurers and are renewed periodically in consultation with insurance advisors. During the period ended December 31, 2025 and the past three financial years (FY 2023, FY 2024 and FY 2025), the Company has filed only one insurance claim amounting to approximately ₹1.05 lakh, primarily relating to motor vehicle insurance.

However, there can be no assurance that the insurance coverage maintained by the Company will be adequate to cover all potential losses or liabilities that may arise. Certain risks may be uninsured or underinsured, and insurance policies are subject to exclusions, deductibles, coverage limits, waiting periods and other terms and conditions. Further, some losses, including consequential losses, prolonged business interruption, reputational harm or losses arising from extraordinary events, may not be covered under existing policies.

In addition, there can be no assurance that insurance claims, if made, will be accepted, settled in full, or settled in a timely manner by insurers. Any delay, partial settlement or rejection of claims could require the Company to bear substantial costs out of its own resources. Further, there can be no assurance that insurance coverage can be renewed in the future on commercially reasonable terms or at all.

Any significant uninsured or underinsured loss, or failure to realise insurance proceeds in a timely manner, may adversely affect our business operations, liquidity, cash flows, financial condition and results of operations.

31. We generate major portion of our standalone revenue from operations in certain geographical regions. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.

We generate major sales from our customers situated at selected geographical regions. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations.

The table below sets forth a break-up of the standalone revenue from operations earned by our Company across various domestic states during the preceding three years:

Existing and potential competitors to our businesses in these states may increase their focus on these states. The concentration of our operations heightens our exposure to adverse developments related to competition, as well as economic, political, demographic and other changes, which may adversely affect our business prospects, financial conditions and results of operations. While we strive to geographically diversify our product portfolio and reduce our concentration risk, we cannot assure you that adverse developments associated with the region will not impact on our business. If we are unable to mitigate the concentration risk, we may not be able to develop our business as planned and our business, financial condition and results of operation could be adversely affected.

This concentration of business subjects us to various risks, including but not limited to:

- (i) vulnerability to change in laws, policies and regulations of the political and economic environment;
- (ii) perception by our potential customers that we are a regional company which hampers us from competing for large and complex projects at the national level; and
- (iii) limitation on our ability to implement the strategy to cluster projects in the states where we intend to conduct business.

Further, any significant interruption to our operations directly or indirectly as a result of any severe weather or other natural disasters could materially and severely affect our business, financial condition and results of operations. Similar adverse consequences could follow if war, or war-like situation were to prevail or terrorist attacks, *etc.* In such instance, we may have to completely halt our operations which may severely impact our business operations. Any such disruption for any reason could result in significant increase of costs and delays in execution of orders.

Factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside our present geographical regions may adversely affect our business prospects, financial conditions and results of operations. While our management believes that our Company has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we may face and should not rely on our results of operations for any prior periods as an indication of our future performance. While such instances have not materially occurred in the past, however future occurrence of any such instances could impact our standalone earnings, financial condition and results of operation.

32. *There can be no assurance that the objects of the Issue will be achieved within the time frame anticipated or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment. Further, the plan for deployment of the Net Proceeds has not been appraised by any bank or financial institution.*

Our Company intends to use the Net Proceeds towards the various heads as disclosed in the section titled “*Objects of the Issue*” on page 97. Further, the plans for deployment of the Net Proceeds are in accordance with our management’s estimates and have not been appraised by any bank, financial institution or any other external agency. Our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, and interest or exchange rate fluctuations and consequently its requirements may change.

In the event there is a shortfall in receipt of issue proceeds from this Issue, we may be unable to meet the equity requirement for working capital. In case of any shortfall of the proceeds raised from this Issue, there can be no assurance that we will be able to raise the funds through other sources to meet our obligations of meeting equity contribution for our proposed unit. In case of shortfall in the proceeds of this Issue which are to be utilized for meeting the objects of the Issue, the shortfall will be met by such means as are available to our Company at such future time and at the discretion of the management, including by way of cash available with us or by any other means permissible under law. We cannot assure that we will be able to arrange for adequate cash or will be able to procure further loans to meet the funding requirements. Any failure to meet the additional funding requirements will have a material adverse effect on the implementation of the proposed unit.

We may also be required to adhere to certain restrictive covenants as regards raising of finance for the unit from means other than those sanctioned under our present financing documents. Any failure or delay on our part to raise funds from the Issue or any shortfall in the Issue proceeds and subsequent inability of our Company to source alternate means of finance may delay the implementation of our project and could adversely affect our growth plans.

33. We may not be able to maintain our current levels of profitability due to increased costs or reduced trading spreads or margins.

Our business strategy involves a relatively high level of ongoing interaction with our clients. We believe that this involvement is an important part of developing our relationship with our clients, identifying new cross selling opportunities and monitoring our performance. However, this level of involvement also entails higher levels of costs and also requires a relatively higher gross spread, or margin, on the various products we offer in order to maintain profitability. There can be no assurance that we will be able to maintain our current levels of profitability if the gross spreads on our traded products were to reduce substantially, which could adversely affect our results of operations.

34. Our Company had negative cash flows in the past years, details of which are given below. Sustained negative cash flow could impact our growth and business.

We have experienced negative cash flows in the past which have been set out below:

(₹ in lakhs)

Particulars	31st December, 2025	31st March, 2025	31st March, 2024	31st March, 2023
Net cash flow used in operating activities	(1,059.78)	656.48	(449.40)	(376.67)
Net cash flow used in investing activities	(56.46)	9.57	18.45	(26.26)
Net cash flow used in financing activities	1394.74	(194.33)	545.22	473.07

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet its capital expenditure, pay dividends, repay loans, and make new investments without raising finance from external resources. Such negative cash flows lead to a net decrease in cash and cash equivalents. Any negative cash flow in future could adversely affect our operations and financial conditions and the trading price of our Equity Shares. For further details, please refer “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 193 and 235, respectively.

35. The improper handling, processing or storage of our raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our rice bran oil products, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.

Rice bran oil products that we manufacture is for human consumption and are subject to risks such as contamination, adulteration, and product tampering during their manufacture, transport or storage. Our raw materials and our products are required to be stored, handled, and transported at specific temperatures and under certain food safety conditions. Any shortcoming in the production or storage of our products due to negligence, human error or otherwise, may damage our products and result in non-compliance with applicable regulatory standards. Any allegation that our products contain contaminants could damage our reputation, adversely affect our sales and result in legal proceedings being initiated against us, irrespective of whether such allegations have any factual basis.

The improper handling, processing or storage of our raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our products, could subject us to regulatory action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.

36. If we are not able to obtain, renew or maintain our statutory and regulatory licenses, registrations and approvals required to operate our business, it may have a material adverse effect on our business, results of operations and financial condition.

We require certain statutory and regulatory licenses, registrations and approvals to operate our business some of which are granted for a fixed period of time and need to be renewed from time to time. Further, in future, we may also be required to obtain new licenses, registrations and approvals for any proposed operations, including any expansion of existing operations. There can be no assurance that the relevant authorities will renew such licenses, registrations and approvals in a timely manner or at all. Further, these licenses, registrations and approvals are subject to several conditions, and our Company cannot assure that it shall be able to continuously meet such conditions or be able to prove compliance with such conditions to statutory authorities, and this may lead to cancellation, revocation or suspension of relevant licenses, approvals and

registrations. We may be subject to penalties or suffer a disruption in our business activities, any of which could adversely affect our results of operations. Further, our Company will be responsible for bearing any and all liabilities arising out of this non-compliance. If we are unable to renew, maintain or obtain the required registrations or approvals, it may result in the interruption of our operations and may have a material adverse effect on our revenues and operations. Failure by our Company to renew, maintain or obtain the required licenses or approvals, or cancellation, suspension, or revocation of any of the licenses, approvals and registrations may result in the interruption of our Company's operations and may have a material adverse effect on our business. For further details on the licenses obtained by our Company and licenses for which renewal applications have been made, kindly refer the chapter titled "*Government and Other Approvals*" beginning on page 256 of this Red Herring Prospectus.

37. *We operate our rice bran oil operations out of a single Manufacturing Facility which is located at Nellore, Andhra Pradesh, and is subject to operating risks. Any shutdown of our Manufacturing Facility or other production problems caused by unforeseen events may reduce sales and adversely affect our business, cash flows, results of operations and financial condition*

We operate our rice bran oil operations out of a single Manufacturing Facility which is located at Nellore, Andhra Pradesh. Any significant localized social unrest, natural disaster or breakdown of services or any other natural disaster in and around Andhra Pradesh or any disruption in production at, or shutdown of, our Manufacturing Facility could have material adverse effect on our business and financial condition.

Our business is dependent upon our ability to manage our manufacturing activities, which are subject to operational risks. We may encounter manufacturing problems or experience difficulties or delays in production as a result of occurrence of the following events or any other events beyond our control:

- forced or voluntary closure of manufacturing plants, including as a result of regulatory actions or comply with the directives of relevant government authorities;
- problems with supply chain continuity, including as a result of natural or man-made disasters at any of our Manufacturing Facility;
- manufacturing shutdowns, breakdown or failure of equipment, equipment performance below expected levels of efficiency, obsolescence of our equipment and production facility, industrial accidents;
- labour disputes, strikes, lock-outs that may result in temporary shutdowns or manufacturing disruptions;
- any changes in the availability of power or water availability which impacts the entire region; and
- failure of a supplier to provide us with the critical raw materials or components for an extended period of time, which could impact continuous supply.

While, there have not been any instances of material disruptions in the preceding three Fiscals, which had an adverse effect on our business, financial conditions, cash flows and results of operations. There is no assurance that our business and financial results may not be adversely affected by any disruption of operations at our Manufacturing Facility, including as a result of any of the factors mentioned above. Disruption in our operations may result in reduced production and reduced sales or higher costs to arrange for alternative arrangements to meet our customer obligations.

38. *We depend on the accuracy and completeness of information about customers and counterparties and any misrepresentation, errors in or incompleteness of such information could cause our business to suffer.*

In deciding whether to extend credit or enter into other transactions with customers, we rely on information furnished to us by or on behalf of customers. We may also rely on certain representations from our customers as to the accuracy and completeness of that information. For ascertaining the creditworthiness we do not obtain any independent support from credit information companies or credit bureaus and on independent valuers in relation to the value of the net worth of such parties. Our reliance on any misleading information given may affect our judgment of credit worthiness of potential customers, which may affect our business, prospects, results of operations and financial condition.

39. *Our Subsidiaries are engaged in a similar line of business as our Company and may compete with us.*

Our Subsidiaries, Geo Min Commodities Pte. Ltd., Singapore and Atlas Resources International, Morocco are engaged in the same business as our Company, and may have common pursuits with our Company. We cannot assure you that there will be no conflict of interest in allocating business opportunities between us and our

Subsidiaries going forward. While, there is currently no active conflict between our Subsidiaries and our Company, however we cannot assure you that there will not be any conflict of interest in allocating business opportunities between us and our Subsidiaries going forward. We have not entered into any non-compete agreement with our Subsidiaries, and there can be no assurance that our Subsidiaries will not compete with our existing business or that we will be able to suitably resolve any such conflict without an adverse effect on our business and financial performance.

40. Any failure in our quality control processes may adversely affect our business, results of operations and financial condition. We may face product liability claims and legal proceedings if the quality of our products does not meet our customers' expectations.

Our products may contain certain quality issues or undetected errors, due to defects in manufacture of products or raw materials which are used in the products. We have a quality control and assurance division ("**Quality Division**") in our manufacturing unit which carries out the required tests on the materials received including raw materials which are used in the manufacturing process and also on the final products. Our quality laboratory carries out tests on the raw materials and finished products to ensure that our products are compliant with the specifications provided by our customers in case of sales and are compliant with specifications of FSSAI. Our Quality Division also carries out tests on all the stages of our manufacturing processes to ensure that the quality is built through the process. We have implemented quality control processes for our raw materials and finished goods, however, we cannot assure you that our quality control processes or our product will pass the quality tests and inspections conducted by various agencies as per their prescribed standards will not fail. Any shortcoming in the raw materials procured by us or in the production of our products due to failure of our quality control procedures, negligence and human error or otherwise, may damage our products and result in deficient products. It is imperative for us to meet the regulatory quality standards set by regulatory agencies and our customers as deviation from the same can cause them to reject our products and can also cause damage to our reputation, market standing and brand value.

In the event the quality of our products is sub-standard or our products suffer from defects and are returned by our customers due to quality complaints, we might be compelled to take back the sub-standard products and reimburse the cost paid by our customers. Such quality lapses could strain our longstanding relationship with our customers and our reputation and brand image may suffer, which in turn may adversely affect our business, results of operations and financial condition. Our customers may lose faith in the quality of our products and could in turn refuse to further deal in our products, which could have a severe impact on our revenue and business operations. We also face the risk of legal proceedings and product liability claims being brought against us by our customers for defective products sold. We cannot assure you that we will not experience any material product liability losses in the future or that we will not incur significant costs to defend any such claims. A product liability claim may adversely affect our reputation and brand image, as well as entail significant costs.

41. There are outstanding litigations involving our Company, Directors and Promoters which, if determined adversely, may affect our business and financial condition.

As on the date of this Red Herring Prospectus, our Company, Directors and Promoters are involved in certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts and tribunals. The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and/or severally from us and/or other parties, as the case may be. We cannot assure you that these legal proceedings will be decided in favour of our Promoters or that no further liability will arise out of these proceedings. Our Company, Directors and Promoters may incur significant expenses in such legal proceedings and we may have to make provisions in our financial statements, which could increase our expenses and liabilities. Any adverse decision may adversely affect our business, results of operations and financial condition.

42. *Unfavourable local weather patterns may have an adverse effect on our standalone business, results of operations and financial condition.*

For our rice bran oil segment, our business is sensitive to weather conditions, including extremes such as drought, floods and natural disasters. There is growing concern that carbon dioxide and other greenhouse gases in the atmosphere may have an adverse impact on global temperatures, weather patterns and the frequency and severity of extreme weather and natural disasters. The availability of raw materials for our operations, which includes, amongst others, crude oil which is derived from rice bran may be adversely affected by longer than usual periods of heavy rainfall in certain regions or a drought caused by weather patterns such as the El Nino. Such events may have an adverse impact on the availability and prices of raw materials mainly rice bran crude oil for our operations, which may increase the costs of our operations as well as negatively affect our standalone business, results of operations and financial condition.

43. *Any delays and/or defaults in payments could result in increase of working capital investment and/or reduction of our Company's profits, thereby affecting our operation and financial condition.*

We are exposed to payment delays and/or defaults by our customers. Our financial position and financial performance are dependent on the creditworthiness of our customers. As per our business network model, we majorly supply our products directly to our customers without taking any advance payment or security deposit against the orders placed by them. Such delays in payments may require our Company to make a working capital investment. We cannot assure you that payments from all or any of our customers will be received in a timely manner or to that extent will be received at all. If a customer defaults in making its payments on an order on which our Company has devoted significant resources, or if an order in which our Company has invested significant resources is delayed, cancelled or does not proceed to completion, it could have a material adverse effect on our Company's results of operations and financial condition.

There is no guarantee on the timeliness of all or any part of our customers' payments and whether they will be able to fulfil their obligations, which may arise from their financial difficulties, deterioration in their business performance, or a downturn in the global economy. If such events or circumstances occur, our financial performance and our operating cash flows may be adversely affected.

44. *Our inability to effectively manage our growth or to successfully implement our business plan and growth strategy could adversely affect our business, results of operations and financial condition.*

We have experienced considerable growth over the past three years and we have expanded our operations and product portfolio. We cannot assure you that our growth strategies will continue to be successful or that we will be able to continue to expand further, or at the same rate. Our inability to execute our growth strategies in a timely manner or within budget estimates or our inability to meet the expectations of our customers and other stakeholders, could have an adverse effect on our business, results of operations and financial condition. Our future prospects will depend on our ability to grow our business and operations. The development of such future business could be affected by many factors, including general, political and economic conditions in India, government policies or strategies in respect of specific industries, prevailing interest rates and price of equipment and raw materials. Further, in order to manage our growth effectively, we must implement, upgrade and improve our operational systems, procedures and internal controls on a timely basis. If we fail to implement these systems, procedures and controls on a timely basis, or if there are weaknesses in our internal controls that would result in inconsistent internal standard operating procedures, we may not be able to meet our customers' needs, hire and retain new employees or operate our business effectively. Failure to manage growth effectively could adversely affect our business and results of operations.

48. *We have in past entered into related party transactions and we may continue to do so in the future.*

In the past, we have entered into several related party transactions with our Promoters, individuals and entities forming a part of our promoter group relating to our operations as per the below details:

While we believe that all our related party transactions have been conducted on an arm's length basis, and we confirm that the related party transactions entered into by the company are in compliance with the relevant provisions of Companies Act and other applicable laws, we cannot assure you that we may not have achieved more favorable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

49. Our Company requires significant amount of working capital for a continuing growth. Our inability to meet our working capital requirements may adversely affect our results of operations.

Our business requires a significant amount of working capital. As per our settled business terms, we majorly require our customers to pay the full amount of the consideration only after they receive the order, as a result, significant amounts of our working capital are often required to finance the purchase of raw material and execution of manufacturing processes before payment is received from our customers. Further, we are also required to meet the increasing demand and for achieving the same, adequate stocks have to be maintained which requires sufficient working capital. In the event, we are unable to source the required amount of working capital for addressing such increased demand of our products, we might not be able to efficiently satisfy the demand of our customers. Even if we are able to source the required amount of funds, we cannot

assure you that such funds would be sufficient to meet our cost estimates and that any increase in the expenses will not affect the price of our products.

Further, one of the objects of this Issue include funding of working capital requirements of our Company to the tune of ₹1,650.00 Lakhs for our Company and to the tune of ₹4,700.00 Lakhs for our Singapore subsidiary, which is based on management estimates and certain assumptions. For more information in relation to such management estimates and assumptions, please see “*Objects of the Issue*” on page 97. Our working capital requirements may be subject to change due to factors beyond our control including force majeure conditions, an increase in defaults by our customers, non-availability of funding from banks or financial institutions. Accordingly, such working capital requirements may not be indicative of the actual requirements of our Company in the future and investors are advised to not place undue reliance on such estimates of future working capital requirements.

Any delay in processing our payments by our customers may increase our working capital requirement. Further, if an intermediary defaults in making payments for a product on which we have devoted significant resources, it could affect our profitability and liquidity and decrease the capital reserves that are otherwise available for other uses. We may file a claim for compensation of the loss that we incurred pursuant to such defaults but settlement of disputes generally takes time and financial and other resources, and the outcome is often uncertain. In general, we take provisions for bad debts, including those arising from such defaults based primarily on ageing and other factors such as special circumstances relating to special customers. There can be no assurance that such payments will be remitted by our clients to us on a timely basis or that we will be able to effectively manage the level of bad debt arising from defaults. We may also have large cash outflows, including among others, losses resulting from environmental liabilities, litigation costs, adverse political conditions, foreign exchange risks and liability claims.

All of these factors may result in increase in the amount of receivables and short-term borrowings. If we decide to raise additional funds through the incurrence of debt, our interest and debt repayment obligations will increase, and could have a significant effect on our profitability and cash flows and we may be subject to additional covenants, which could limit our ability to access cash flows from operations. Any issuance of equity, on the other hand, could result in a dilution of your shareholding. Accordingly, continued increases in our working capital requirements may have an adverse effect on our financial condition and results of operations.

50. *We do not own certain premises used by our Company. Disruption of our rights as licensee/ lessee or termination of the agreements with our licensors/ lessors would adversely impact our manufacturing operations and, consequently, our business.*

As on the date of this Red Herring Prospectus, certain of our offices have been taken on lease by our Company from third parties. The details of our lease agreements have been provided below:

There can also be no assurance that our Company will be able to renew the lease agreements or deeds entered into with third parties in a timely manner or at all. Further, there can be no assurance that we will not face any disruption of our rights as a lessee/ licensee and that such leave and license and lease agreements will not be terminated prematurely by the licensor/lessor. Any such non-renewal or early termination or any disruption of our rights as lessee / licensee will adversely affect our business operations.

- 51. *We are dependent on information technology systems in carrying out our business activities and it forms an integral part of our business. Further, if we are unable to adapt to technological changes and successfully implement new technologies or if we face failure of our information technology systems, we may not be able to compete effectively which may result in higher costs and would adversely affect our business and results of operations.***

We are dependent on information technology system in connection with carrying out our business activities and such systems form an integral part of our business. Any failure of our information technology systems could result in business interruptions, including the loss of our customers, loss of reputation and weakening of our competitive position, and could have a material adverse effect on our business, financial condition and results of operations. Additionally, our information technology systems, specifically our software may be vulnerable to computer viruses, piracy, hacking or similar disruptive problems. Computer viruses or problems caused by third parties could lead to disruptions in our business activities. Fixing such problems caused by computer viruses or security breaches may require interruptions, delays or temporary suspension of our business activities, which could adversely affect our operations. Breaches of our information technology systems may result in unauthorized access to confidential information. Such breaches of our information technology systems may require us to incur further expenditure to put in place advanced security systems to prevent any unauthorised access to our networks. In the event, any breach of our systems or software leads to the leaking of our trade secrets or any inventive techniques devised by our Company, it might lead to loss of our originality in the market and increase the chance of our products being substituted by the products of our competitors.

Our future success depends in part of our ability to respond to technological advancements and emerging standards and practices on a cost-effective and a timely basis. Our failure to successfully adopt such technologies in a cost-effective manner could increase our costs thereby compelling us to bid at lower margins which might lead to loss of bidding opportunities vis-à-vis such competitors. Additionally, the government authorities may require adherence with certain technologies and we cannot assure you that we would be able to implement such technologies in a timely manner or at all. The cost of upgrading or implementing new technologies or upgrading our existing equipment or expanding our capacity could be significant, less cost effective and therefore could negatively impact our profitability, results of operations, financial condition as well as our future prospects.

- 52. *We are dependent on third party transportation providers for delivery of raw materials to us from our suppliers and delivery of our products to our customers. We have not entered into any formal contracts with our transport providers and any failure on part of such service providers to meet their obligations could adversely affect our business, financial condition and results of operation.***

To ensure smooth functioning of our manufacturing operations, we need to maintain continuous supply and transportation of the raw materials required from the supplier to our manufacturing unit and transportation of our products from our unit to our customers, which may be subject to various uncertainties and risks. We are dependent on third party transportation providers for the delivery of raw materials to us and delivery of our products to our customers. Uncertainties and risks such as transportation strikes or delay in supply of raw materials and products could have an adverse effect on our supplies and deliveries to and from our customers

and suppliers. Additionally, raw materials and products may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. A failure to maintain a continuous supply of raw materials or to deliver our products to our customers in a timely, efficient and reliable manner could adversely affect our business, results of operations and financial condition.

Further, we have not entered into any long term agreements with our transporters for our manufacturing unit and the costs of transportation are generally based on mutual terms and the prevailing market price. In the absence of such agreements, we cannot assure that the transport agencies would fulfill their obligations or would not commit a breach of the understanding with us. In the event that the finished goods or raw materials suffer damage or are lost during transit, we may not be able to prosecute the agencies due to lack of formal agreements. Further, the transport agencies are not contractually bound to deal with us exclusively, we may face the risk of our competitors offering better terms or prices, which may cause them to cater to our competitors alongside us or on a priority basis, which could adversely affect our business, results of operations and financial condition.

53. *Our Company has availed certain unsecured loans which may be recalled at any time.*

As of December 31, 2025, our Company has availed certain unsecured loans from our third parties, which amount to ₹ 2,105.99 lakhs, which may be recalled at any time. In the event, any of such unsecured lenders seek a repayment of any these loans, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all. If we are unable to arrange for any such financing arrangements, we may not have adequate working capital to undertake new projects or complete our ongoing projects. Therefore, any such demand may adversely affect our business, financial condition and results of operations. For further details, see “*Financial Indebtedness*” on page 232 of this Red Herring Prospectus.

54. *Failure to identify and effectively respond to changing consumer preferences and spending patterns in a timely manner, may adversely affect the demand for our products, causing our business, results of operations, financial condition and cash flows.*

The industries in which we operate are characterized by frequent changes, particularly in consumer preferences, new products and product variations. The popularity and demand of our products may vary over time due to changing consumer preferences, including those relating to products or shift to other new products etc. Consumer preferences in the markets are difficult to predict and changes in those preferences or the introduction of new products by our competitors could put our products at a competitive disadvantage. Our continued success depends on our ability to anticipate, gauge and react in a timely and cost - effective manner to changes in consumer preferences for our products, as well as to where and how consumers shop for those products. We continually work to enhance the recognition of our products and refine our approach as to how, when and where we can market and sell our products. While we aim to introduce new products from time to time, we recognize that consumer preferences cannot be predicted with certainty and can change rapidly, and that there is no certainty that, these will be commercially viable or effective or accepted by our consumers. If we are unable to foresee or respond effectively to the changes in market conditions, new and changing trends or desired consumer preferences, accurately anticipate and forecast demand for products, then there may be a decline in the demand and sales for our products, thereby reducing our market share and preventing us from acquiring new customers and retaining existing customers, which could have an adverse effect on our business, results of operations, financial condition and cash flows.

55. *If our Company is unable to protect its intellectual property, or if our Company infringes on the intellectual property rights of others, our business may be adversely affected.*

Our Company is currently using the logo  which is not yet registered in the name of our Company. While, our Company has made an application for registering our logo with the Registry of Trademark, however the same is pending. There can be no assurance that third parties will not infringe upon our name and logo, causing damage to our business prospects, reputation and goodwill. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot be guaranteed. We may not be able to detect any unauthorized use or take appropriate and

timely steps to enforce or protect its intellectual property, which could adversely affect our business, results of operations and financial condition.

We are also exposed to the risk that other entities may pass off their products as ours by imitating our brand name and attempting to create counterfeit products. We believe that there may be other companies or vendors which operate in the unorganized segment using our brand names. Any such activities may harm the reputation of our brand and sales of our products, which could in turn adversely affect our financial performance. We rely on protections available under Indian law, since our name and logo are not yet registered, such protection may not be adequate to prevent unauthorized use of our intellectual property by third parties. Furthermore, the application of laws governing intellectual property rights in India is uncertain and evolving, and could involve substantial risks to us. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may copy or otherwise infringe on our rights, which may have an adverse effect on our business, results of operations, cash flows and financial condition. Furthermore, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. For further details, please refer to the chapters titled “*Our Business*” and “*Government and other Statutory Approvals*” on pages 129 and 256, respectively of this Red Herring Prospectus.

56. *Our business may expose us to potential product liability claims and recalls, which could adversely affect our results of operation, goodwill and the marketability of our products.*

We may be exposed to potential product liability claims, and the severity and timing of such claims are unpredictable. We face the risk of loss resulting from, and the adverse publicity associated with, product liability lawsuits, whether or not such claims are valid. We may also be subject to claims resulting from manufacturing defects or negligence in storage or handling which may lead to the deterioration of our products. We do not maintain a product liability insurance, therefore we will not be able to insure or cover the risks arising out of any such claims. Any product liability claims would likely require us to incur substantial amounts on litigation and require our management’s time and focus. Further, customers may cease purchasing products from us. Accordingly, such product liability claims, may adversely affect our results of operation, goodwill and the marketability of our products.

57. *We have significant power requirements for continuous running of our rice bran oil manufacturing unit. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.*

Our rice bran oil manufacturing operations require significant amount of electricity and any interruption in the supply of power may temporarily disrupt our operations at our rice bran oil manufacturing unit. Since, our manufacturing process requires high power consumption, any unexpected or unforeseen increase in the tariff rates can increase the operating cost of our manufacturing unit and thereby cause an increase in the production cost which we may not be able to pass on to our customers. There are limited number of electricity providers in the areas from where we operate due to which in case of a price hike, we may not be able to find a cost-effective substitute, which may negatively affect our business, financial condition, cash flows and results of operations. For further details, please refer to the chapter titled “*Our Business*” on page 129 of this Red Herring Prospectus.

58. *We operate in a competitive business environment and our inability to compete effectively may adversely affect our business, results of operations, financial condition and cash flows.*

All our product verticals are competitive with both organized and unorganized markets. However, we are required to compete both in the domestic and international markets. We may be unable to compete with the prices and products offered by our competitors. We may have to compete with new players in India and abroad who enter the market and are able to offer competing products. Our competitors may have access to greater financial, manufacturing, research and development, marketing, distribution and other resources and more experience in obtaining the relevant regulatory approvals. Increasing competition may result in pricing pressures and decreasing profit margins or loss of market share or failure to improve our market position, any of which could substantially harm our business and results of operations. We cannot assure you that we will be able to compete with our existing as well as future competitors as well as the products prices and payment terms offered by them. In addition, our customers may enter into contract manufacturing arrangements with third parties, for products that they are presently purchasing from us. Our failure to

successfully face existing and future competitors may have an adverse impact on our business, growth and development.

Further, some of our competitors may be larger than we are or develop alliances to compete against us and may have greater resources, market presence and geographic reach and have products with better brand recognition than ours. Some of our competitors may be able to procure raw materials at lower costs than us, and consequently be able to sell their products at lower prices. As a result, our competitors may be able to withstand industry downturns better than us or provide customers with products at more competitive prices. Some of our international competitors may be able to capitalize on their overseas experience to compete in the Indian market. Consequently, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors or that our business and results of operations will not be adversely affected by increased competition. We cannot assure you that we will be able to maintain our existing market share. Our competitors may significantly increase their marketing expenses to promote their brands and products, which may require us to similarly increase our advertising and marketing expenses and engage in effective pricing strategies, which we may not be able to pass on to our customers which in turn may have an adverse effect on our business, results of operations and financial condition. For further details, please see “*Industry Overview*” on page 119 of this Red Herring Prospectus.

59. *Our Promoter, Directors and Key Managerial Personnel have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.*

Our Promoter, Directors and Key Managerial Personnel, may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. Our Promoter, Directors and Key Managerial Personnel may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners. For further details please refer to the paragraphs titled — “*Interest of our Directors*” in the chapter titled — “*Our Management*”, the paragraphs titled — “*Interest of Promoters*” in the chapter titled — “*Our Promoter and Promoter Group*”, “*Financial Indebtedness*” and “*Restated Financial Information*” on pages 178, 188, 232 and 193, respectively of this Red Herring Prospectus.

There can be no assurance that our Promoter, Directors, Key Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoter and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors and our Key Management Personnel may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders.

60. *Stringent food safety, consumer goods, health and safety laws and regulations may result in increased liabilities and increased capital expenditures.*

Our rice bran oil operations are subject to stringent health and safety laws as our products are for human consumption and are therefore subject to various industry specific regulations. We may also be subject to additional regulatory requirements due to changes in governmental policies. Further, we may also incur additional costs and liabilities related to compliance with these laws and regulations that are an inherent part of our business. We are subject to various central, state and local food safety, consumer goods, health and safety and other laws and regulations. These laws and regulations are increasingly becoming stringent and may in the future create substantial compliance or remediation liabilities and costs. These laws may impose liability for non-compliance, regardless of fault. Other laws may require us to investigate and remediate contamination at our facilities and production processes. While we intend to comply with applicable regulatory requirements, it is possible that such compliance may prove restrictive, costly and onerous and an inability to comply with such regulatory requirement may attract penalty. For details see, “*Government and Other Approvals*” beginning on page 256.

61. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further, we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “*Objects of the Issue*” beginning on page 97 of this Red Herring Prospectus.

62. *Our success largely depends upon the knowledge and experience of our Promoter, Directors, and our Key Managerial Personnel. Loss of any of our Directors and key managerial personnel or our ability to attract and retain them could adversely affect our business, operations and financial condition.*

The growth and success of our Company’s future significantly depends upon the experience of our Promoter and continued services and the management skills of our Key Managerial Personnel and the guidance of our Promoter and Directors for development of business strategies, monitoring its successful implementation and meeting future challenges. We believe the expertise, experience and continued efforts of our Key Managerial Personnel and their inputs are valuable to for the operations of our Company. Our future success and growth depend largely on our ability to attract, motivate and retain the continued service of our highly skilled management personnel. Our Company has never been faced with a challenge of high rate of attrition of our Key Management Personnel in the past, however, any attrition of our experienced Key Managerial Personnel, would adversely impact our growth strategy. We cannot assure you that we will be successful in recruiting and retaining a sufficient number of personnel with the requisite skills to replace those Key Managerial Personnel who leave. In the event we are unable to motivate and retain our key managerial personnel and thereby lose the services of our highly skilled Key Managerial Personnel may adversely affect the operations, financial condition and profitability of our Company and thereby hampering and adversely affecting our ability to expand our business. For further details on our Directors and Key Managerial Personnel, please refer to the chapter titled — “*Our Management*” on page 173 of this Red Herring Prospectus.

63. *Our Promoters and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.*

Upon completion of this Issue, our Promoters and members of our Promoter Group will collectively hold upto 72.54% of the Equity share capital of our Company. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, undertaking sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interests of our Company. Further, such control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company’s best interest. The interests of our Promoters could conflict with the interests of our other equity shareholders, and our Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

64. *The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.*

Our Promoters’ average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price which is proposed to be determined through fixed price mechanism. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapter titled “*Capital Structure*” on page 85 of this Red Herring Prospectus.

65. *Our future fund requirements, in the form of further issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the Shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any further issue of Equity Shares or convertible securities would dilute the shareholding of the existing Shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing Shareholders. If such funds are raised in the form of loans or debt or preference shares, then it may substantially increase our fixed interest/dividend burden and decrease our cash flows, thus adversely affecting our business, results of operations and financial condition.

66. *We have certain contingent liabilities and our financial condition and profitability may be adversely affected if any of these contingent liabilities materialize.*

As of March 31, 2025, our contingent liabilities and commitments (to the extent not provided for) as disclosed in the notes to our Restated Financial Information aggregated to ₹ 38.98 lakhs. The details of our contingent liabilities are as follows:

(₹ in lakhs)				
Particulars	31.12.2025	31.03.2025	31.03.2024	31.03.2023
GST Act, 2017	35.46	35.46	35.46	35.46
TDS Demand	2.20	2.20	2.17	2.17
Claims against the Company not Acknowledged as Debt	-	-	-	-
Other money for which the company may be contingently liable*	1.32	1.32	1.32	1.32

* Demand against the company under Minimum Wages Act, 1948 for the year 1998-99

For further details of contingent liability, see the section titled — “Financial Information” on page 193 of this Red Herring Prospectus. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future.

67. *Our Subsidiary, Promoters and members of our Promoter Group have extended personal guarantees with respect to loan facilities availed by our Company. Further, one of our Promoters and members of our Promoter Group have extended personal properties as collateral for securing the facilities availed by our Company. Revocation of any or all of these personal guarantees or withdrawal of such properties may adversely affect our business operations and financial condition.*

Our Promoters and members of our Promoter Group, Nuthalapati Venkata Sai Shiv Prasad, Nuthalapati Ravi Kumar, Jonnalagadda Lakshmi Kumari, Nuthalapati Padma Priy, Nuthalapati Vani, Nuthalapati Indira and J Venkataramana Rao have extended personal guarantees in favour of certain banks with respect to the loan facilities availed by our Company and have also provided their personal property as collateral for securing the loans availed by our Company. Our Subsidiary, M/s. Geo Min Commodities Pte. Ltd. has also extended a corporate guarantee in favour of our Company. In the event any of these guarantees are revoked, our lenders may require us to furnish alternate guarantees or an additional security or may demand a repayment of the outstanding amounts under the said facilities sanctioned or may even terminate the facilities sanctioned to us. There can be no assurance that our Company will be able to arrange such alternative guarantees in a timely manner or at all. In the event if the personal property of our Promoters and members of our Promoter Group is withdrawn, our lenders may require us to furnish alternate properties or may demand a repayment of the outstanding amounts under the said facilities sanctioned or may even terminate the facilities sanctioned to us. There can be no assurance that our Company will be able to arrange such alternative properties in a timely manner or at all. If the properties are withdrawn, the ability of our Company to continue its business operations could be adversely affected. If our lenders enforce these restrictive covenants or exercise their options under the relevant debt financing agreements, our operations and use of assets may be significantly hampered and lenders may demand the payment of the entire outstanding amount and this in turn may also affect our further borrowing abilities thereby adversely affecting our business and operations.

68. *Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, financial condition, cash flows and results of operations.*

We have entered into various financing arrangements with various lenders for short-term and long terms facilities. Our ability to pay interest and repay the principal for our indebtedness is dependent upon our ability to generate sufficient cash flows to service such debt. Any additional indebtedness we incur may have significant consequences, including, requiring us to use a significant portion of our cash flow from operations and other available cash to service our indebtedness, thereby reducing the funds available for other purposes, including capital expenditure and reducing our flexibility in planning for or reacting to changes in our business, competition pressures and market conditions. Our financing arrangements include conditions that

require us to obtain respective lenders' consent prior to carrying out certain activities and entering into certain transactions including altering our capital structure, further issuance of any Equity Shares, effecting any scheme of amalgamation or reconstruction, changing the management and dilution of Promoters' shareholding, alteration in the constitutional documents and creation of security. Failure to meet these conditions or obtain these consents could have significant consequences on our business and operations. As of the date of this Red Herring Prospectus, we have received all consents required from our lenders in connection with the Issue.

In terms of security, we are required to create a mortgage or charge over our current assets, movable and immovable properties. We may also be required to furnish additional security if required by our lenders. Additionally, these financing agreements also require us to maintain certain financial ratios such as debt to equity ratio, current ratio, fixed asset coverage ratio, equity ratio (calculated as total outside liability/ tangible net worth) and total debt/ adjusted tangible net worth. While there has been no breach of such covenants in the last three Fiscals, there can be no assurance that we will be able to comply with these financial or other covenants at all times or that we will be able to obtain the consent necessary to take the actions that we believe are required to operate and grow our business.

There has been no re-scheduling/ re-structuring in relation to borrowings availed by our Company from any financial institutions or banks in the last three Fiscals. Further, we are susceptible to changes in interest rates and the risks arising therefrom. Certain of our financing agreements provide for interest at variable rates with a provision for the periodic resetting of interest rates. Further, under certain of our financing agreements, the lenders are entitled to charge the applicable rate of interest, which is a combination of a base rate that depends upon the policies of the RBI and a contractually agreed spread, and in the event of an adverse change in our Company's credit risk rating.

69. Our Company is subject to foreign exchange control regulations which can pose a risk of currency fluctuations.

Our Company is involved in various business transactions with international clients and also majorly imports materials and has to conduct the same in accordance with the rules and regulations prescribed under FEMA. Due to non-receipt of such payments in a timely manner, our Company may fail to adhere to the prescribed timelines and may be required to pay penalty to the appropriate authority or department to regularize the payment.

India is also a party to, and is currently negotiating, free trade agreements with several countries and if we export our products to such countries or import raw materials from such countries, any revocation or alteration of those bilateral agreements may also adversely affect our ability to export, and consequently, our business, financial condition, cash flows and results of operations. Additionally, export destination countries may also enter into free trade agreements or regional trade agreements with countries other than India. Such agreements and alteration of existing tax treaties may lead to increased competition or may even place us at a competitive disadvantage compared to manufacturers in other countries and could adversely affect our business, financial condition, cash flows and results of operations. Further, our inability to secure any license, certification, registrations and permits that may become necessary in other jurisdictions to which we export our products, in a timely manner or at all, could result in operational delays or suspensions and/or administrative fines and penalties, which could have a material adverse effect on the overall business, results of operations, cash flows and financial condition.

Further, our international operations (export sales) make us susceptible to the risk of currency fluctuations, which may directly affect our operating results. In case we are unable to adhere to the timelines prescribed under the applicable laws or are unable to mitigate the risk of currency fluctuation, it could adversely affect our business, results of operations, financial conditions and cash flows.

70. In addition to our existing indebtedness for our existing operations, we may incur further indebtedness during the course of business. We cannot assure that we would be able to service our existing and/ or additional indebtedness.

In addition to the indebtedness for our existing operations, we may incur further indebtedness during the course of our business. We cannot assure you that we will be able to obtain further loans at favorable terms. Increased borrowings, if any, may adversely affect our debt-equity ratio and our ability to borrow at competitive rates. In addition, we cannot assure you that the budgeting of our working capital requirements

for a particular year will be accurate. There may be situations where we may under-budget our working capital requirements, which may lead to delays in arranging additional working capital requirements, loss of reputation, levy of liquidated damages and can cause an adverse effect on our cash flows.

Any failure to service our indebtedness or otherwise perform our obligations under our financing agreements entered with our lenders or which may be entered into by our Company, could trigger cross default provisions, penalties, acceleration of repayment of amounts due under such facilities which may cause an adverse effect on our business, financial condition and results of operations. For details of our indebtedness, please refer to the chapter titled — “*Financial Indebtedness*” on page 232 of this Red Herring Prospectus.

71. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

We have provided security in respect of loans / facilities availed by us from banks and financial institutions by creating a charge over our movable and immovable properties. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be subject to forfeiture by lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information, kindly refer the chapter titled “*Financial Indebtedness*” beginning on page 232 of this Red Herring Prospectus.

72. *The deployment of funds raised through this Issue shall be purely dependent on the discretion of the management of our Company.*

The deployment of funds raised through this Issue, shall be at the discretion of the management and the Board of Directors of our Company. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials. However, in accordance with Regulation 262 of the SEBI ICDR Regulations, our Company shall appoint a monitoring agency to monitor the utilisation of the Net Proceeds.

73. *Any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval.*

Our Company intends to use the Net Proceeds towards various heads, as disclosed in the section titled “*Objects of the Issue*” on page 97. In case of any exigencies arising out of business conditions, economic conditions, competition or other factors beyond our control which adversely affect our business, we may require to use the Net Proceeds to meet any other expenditure or fund which expenditure cannot be determined with certainty as on the date of this Red Herring Prospectus. In terms of Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Red Herring Prospectus without obtaining the shareholders’ approval through a special resolution. In the event of any such circumstances requiring us to undertake variation in the utilisation of the Net Proceeds disclosed in this Red Herring Prospectus, we cannot assure that we will be able to obtain the shareholders’ approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Fresh Issue, if any, or vary the terms of any contract referred to in this Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company’s ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

74. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future also. For further details, please refer to the chapter titled “*Dividend Policy*” on page 192 of this Red Herring Prospectus.

75. *We have not independently verified certain data in this Red Herring Prospectus.*

We have not independently verified data from the industry and related data contained in this Red Herring Prospectus. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

76. *The requirements of being a listed company may strain our resources.*

We are not a listed Company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI (LODR) Regulations which will require us to file audited annual and unaudited half yearly results and limited review reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies which may adversely affect the financial position of the Company.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management’s attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

77. *The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Although we currently intend that the Equity Shares will remain listed on the Stock Exchanges, there is no guarantee of the continued listing of the Equity Shares. Failure to maintain our listing on the Stock Exchanges or other securities markets could adversely affect the market value of the Equity Shares.

The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in

economic, legal and other regulatory factors. You may not be able to resell your Equity Shares at a price that is attractive to you.

78. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the Emerge platform of NSE in a timely manner or at all.

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Emerge platform of NSE due to delay in submission of required documents/ completion of formalities/compliance with required laws by the issuer. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

79. There is no existing market for our Equity Shares, and we do not know if one will develop to provide you with adequate liquidity. Further, an active trading market for the Equity Shares may not develop and the price of the Equity Shares may be volatile.

An active public trading market for the Equity Shares may not develop or, if it develops, may not be maintained after the Issue. Our Company, in consultation with the lead manager, will determine the Issue Price. The Issue Price may be higher than the trading price of our Equity Shares following this Issue. As a result, investors may not be able to sell their Equity Shares at or above the Issue Price or at the time that they would like to sell. The trading price of the Equity Shares after the Issue may be subject to significant fluctuations in response to factors such as, variations in our results of operations, market conditions specific to the sectors in which we operate economic conditions of India and volatility of the securities markets elsewhere in the world.

80. The price of the Equity Shares may be highly volatile after the Issue.

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including, volatility in the Indian and global securities market; our operations and performance; performance of our competitors and the perception in the market about investments in the our industry; adverse media reports on us or the industry; changes in the estimates of our performance or recommendations by financial analysts; significant developments in India's economic liberalization and deregulation policies; and significant developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market subsequently.

81. You will not be able to sell immediately on the Stock Exchanges any of the Equity Shares you purchase in the Issue.

The Equity Shares will be listed on the Emerge Platform of NSE. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Upon receipt of final approval from the Stock Exchange, trading in the Equity Shares is to commence within three (03) working days of the date of closure of the Issue or such other time as may be prescribed by SEBI. We cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time period prescribed by law. Further, there can be no assurance that the Equity Shares to be Allotted pursuant to this Issue will be listed on the Stock Exchanges in a timely manner or at all.

82. There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.

Our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit

the upward and downward movements in the trading price of the Equity Shares. As a result of this circuit breaker, there can be no assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

83. *The price of the Equity Shares may be volatile, which could result in substantial losses for investors acquiring the Equity Shares in the Issue.*

The market price of the Equity Shares may be volatile and could fluctuate significantly and rapidly in response to, among others, the following factors, some of which are beyond our control:

- volatility in the Indian and global securities market or in the value of the Rupee relative to the U.S. Dollar, the Euro and other foreign currencies;
- our profitability and performance;
- changes in financial analysts' estimates of our performance or recommendations;
- perceptions about our future performance or the performance of Indian companies in general;
- performance of our competitors and the perception in the market about investments in the industries in which we operate;
- adverse media reports about us or the industries in which we operate;
- significant developments in India's economic liberalisation and deregulation policies;
- significant developments in India's fiscal and environmental regulations;
- economic developments in India and in other countries; and
- any other political or economic factors.

These fluctuations may be exaggerated if the trading volume of the Equity Shares is low. Volatility in the price of the Equity Shares may be unrelated or disproportionate to our results of operations. It may be difficult to assess our performance against either domestic or international benchmarks.

Indian stock exchanges, including the Stock Exchanges, have experienced substantial fluctuations in the prices of listed securities and problems such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. The governing bodies of Indian stock exchanges have also, from time to time, imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Further, disputes have occurred between listed companies, stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment. If such or similar problems were to continue or recur, they could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares.

84. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoters or members of our Promoter Group may adversely affect the trading price of the Equity Shares.*

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through further issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoters and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoters and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

85. *Sale of Equity Shares by our Promoters or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of Equity Shares by our Promoters or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sale of Equity Shares might occur.

86. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

EXTERNAL RISK FACTORS

87. *Political, economic or other factors that are beyond our control may have an adverse effect on our business, financial condition, results of operations and cash flows.*

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. We are incorporated in and currently functioning only in India and, as a result, are dependent on prevailing economic conditions in India. Our results of operations are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters (such as hurricanes, typhoons, floods, earthquakes, tsunamis and fires) which may cause us to suspend our operations;
- civil unrest, acts of violence, terrorist attacks, regional conflicts or situations or war may adversely affect the Indian markets as well as result in a loss of business confidence in Indian companies;
- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's various neighbouring countries, such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 pandemic;
- any downgrading of India's debt rating by a domestic or international rating agency;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- protectionist and other adverse public policies, including local content requirements, import/export tariffs, increased regulations or capital investment requirements; and
- being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

While our results of operations may not necessarily track India's economic growth figures, the Indian economy's performance nonetheless affects the environment in which we operate. Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy, could adversely affect our business, financial condition and results of operations, and the price of the Equity Shares.

88. *Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations, financial condition, cash flows and prospects.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes,

including the instances mentioned below, may adversely affect our business, results of operations, financial condition, cash flows and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For instance, Government of India announced the union budget for Fiscal 2026, following which the Finance Bill was introduced in the Lok Sabha on February 1, 2025. Subsequently, the Finance Bill received the assent from the President of India and became the Finance Act. Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

Further, the GoI introduced new laws relating to social security, occupational safety, industrial relations and wages namely, the Code on Social Security, 2020 (“**Social Security Code**”), the Occupational Safety, Health and Working Conditions Code, 2020, the Industrial Relations Code, 2020 and the Code on Wages, 2019, which consolidate, subsume and replace numerous existing central labour legislations, were to take effect from April 1, 2021 (collectively, the “**Labour Codes**”). The GoI has deferred the effective date of implementation of the respective Labour Codes, and they shall come into force from such dates as may be notified. Different dates may also be appointed for the coming into force of different provisions of the Labour Codes. While the rules for implementation under these codes have not been finalized, as an immediate consequence, the coming into force of these codes could increase the financial burden on our Company, which may adversely impact our profitability. For instance, under the Social Security Code, a new concept of deemed remuneration has been introduced, such that where an employee receives more than half (or such other percentage as may be notified by the Central Government) of their total remuneration in the form of allowances and other amounts that are not included within the definition of wages under the Social Security Code, the excess amount received shall be deemed as remuneration and accordingly be added to wages for the purposes of the Social Security Code and the compulsory contribution to be made towards the employees’ provident fund.

Unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, financial condition, cash flows and prospects. Uncertainty in the application, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

89. Any downgrading of India’s debt rating by an international rating agency could have a negative effect on our business and the trading price of the Equity Shares.

India’s sovereign debt rating could be downgraded due to several factors, including changes in tax or fiscal policy or a decline in India’s foreign exchange reserves, all which are beyond our control. Our borrowing costs and our access to the debt capital markets depend significantly on the sovereign credit ratings of India. Any adverse revisions to India’s credit ratings for domestic and overseas debt by international rating agencies may adversely affect our ability to raise additional external financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of the Equity Shares.

90. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA and the rules thereunder. Under foreign exchange regulations currently in force in India, the transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Further, unless specifically

restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or conditions, or at all, or that we will be able to continue to comply with all the conditions prescribed under the FEMA Rules.

91. Investors may have difficulty in enforcing foreign judgments against our Company or our management.

Our Company is incorporated under the laws of India and most of our Directors and key managerial personnel reside in India. Further, certain of our assets, and the assets of our key managerial personnel and Directors, may be located in India. As a result, it may be difficult to effect service of process outside India upon us and our executive officers and Directors or to enforce judgments obtained in courts outside India against us or our key managerial personnel and Directors, including judgments predicated upon the civil liability provisions of the securities laws of jurisdictions outside India. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, which includes the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements of the Code of Civil Procedure, 1908 (“**Civil Code**”). The Civil Code only permits the enforcement of monetary decrees, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be enforceable in India. Even if an investor obtained a judgment in such a jurisdiction against us, our officers or directors, it may be required to institute a new proceeding in India and obtain a decree from an Indian court. However, the party in whose favour such final judgment is rendered may bring a fresh suit in a competent court in India based on a final judgment that has been obtained in a non-reciprocating territory within three years of obtaining such final judgment. Further, there are considerable delays in the disposal of suits by Indian courts. It is unlikely that an Indian court would award damages on the same basis or to the same extent as was awarded in a final judgment rendered by a court in another jurisdiction if the Indian court believed that the amount of damages awarded was excessive or inconsistent with public policy in India. In addition, any person seeking to enforce a foreign judgment in India is required to obtain prior approval of the RBI to repatriate any amount recovered pursuant to the execution of the judgment.

BOOK BUILDING PROCESS

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of this Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in consultation with the Book Running Lead Manager in accordance with the Book Building Process and advertised in all editions of Business Standard English, an English national newspaper, all editions of Business Standard Hindi, a Hindi national newspaper and Tamil editions of Makkal Kural, a regional language newspaper (Tamil, being the regional language of Tamil Nadu, where our Registered Office is situated) at least two working days prior to the Bid/Issue Opening date. The Issue Price shall be determined by our Company in consultation with the Book Running Lead Manager in accordance with the Book Building Process after the Bid/Issue Closing Date.

Principal parties involved in the Book Building Process are-

- Our Company;
- The Book Running Lead Manager, in this case being **Horizon Management Private Limited**;
- The Syndicate Member(s) who are intermediaries registered with SEBI / registered as brokers with National Stock Exchange of India Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the Book Running Lead Manager;
- The Registrar to the Issue, in this case being **Cameo Corporate Services Limited**;
- The Escrow Collection Banks/ Bankers to the Issue and;
- The Designated Intermediaries and Sponsor bank.

The SEBI ICDR Regulations have permitted the Issue of securities to the public through the Book Building Process, wherein allocation to the public shall be made as per Regulation 253 of the SEBI ICDR Regulations.

The Issue is being made through the Book Building Process wherein 0.98% of the Net Issue shall be available for allocation on a proportionate basis to QIBs. 5% of the QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 29.71% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders, in the following manner: (a) one third of the portion available to Non-Institutional Investors shall be reserved for Applicants with application size of more than two lots and up to such lots equivalent to not more than ₹10 lakhs; (b) two third of the portion available to Non-Institutional Investors shall be reserved for applicants with Application size of more than ₹10 lakhs; and (c) any unsubscribed portion in either of the sub-categories specified in clauses (a) or (b), may be allocated to applicants in the other sub-category of Non-Institutional Investors; and not less than 69.31% of the Net Issue shall be available for allocation to Individual Investors, in accordance with the SEBI Regulations, subject to valid Bids being received at or above the Issue Price.

All potential Bidders may participate in the Issue through an ASBA process by providing details of their respective bank account which will be blocked by the SCSBs. All Bidders are mandatorily required to utilize the ASBA process to participate in the Issue. Under-subscription if any, in any category, except in the QIB Category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLM and the Designated Stock Exchange.

All Bidders, other than Anchor Investors are mandatorily required to use the ASBA process by providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs or, in the case of UPI Bidders, by using the UPI Mechanism. Anchor Investors are not permitted to participate in the Issue through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIB and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Anchor Investors are not allowed to revise and withdraw their Bids after the Anchor Investor Bidding Date. Individual Bidders can revise their Bids during the Bid/Issue Period and withdraw their Bids until the Bid/Issue Closing Date.

Subject to valid Bids being received at or above the Issue Price, allocation to all categories in the Net Issue, shall be made on a proportionate basis, except for individual Portion where allotment to each Individual Bidders shall not be less than the minimum application size, subject to availability of Equity Shares in Individual Portion, and the remaining available Equity Shares, if any, shall be allotted on a proportionate basis. Under – subscription, if any, in any category, would be allowed to be met with spill – over from any other category or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and the Stock Exchange. However, under – subscription, if any, in the QIB Portion will not be allowed to be met with spill over from other categories or a combination of categories.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Individual Investors applying in public issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention is invited to the chapter titled “**Issue Procedure**” beginning on page 288 of this Red Herring Prospectus.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “**Issue Procedure**” on page 288 of this Red Herring Prospectus.

Illustration of the Book Building and Price Discovery Process:

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “**Issue Procedure**” on page 288 of this Red Herring Prospectus);

- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant's verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form;

Bid/Issue Program:

Event	Indicative Dates
Bid/Issue Opening Date^	Wednesday, June 24, 2026

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 3 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. In terms of SEBI circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, the listing of specified securities shall be done 3 working days (T+3 days) after the closure of public issue; 'T' being issue closing date. Our Company shall follow the timelines provided under the aforementioned circular.

Bid Cum Application Forms and any revisions to the same will be accepted only between 10.00 a.m. to 5.00 p.m. (IST) during the Issue Period (except for the Bid/Issue Closing Date). On the Bid/ Issue Closing Date, the Bid Cum Application Forms will be accepted only between 10.00 a.m. to 3.00 p.m. (IST) for Individual Investors who applies for minimum application size and other Bidders who applies for more than minimum application size. The time for applying for Individual Applicant on Bid/ Issue Closing Date maybe extended in consultation with the BRLM, RTA and National Stock Exchange of India Limited Emerge taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/ Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 3.00 p.m. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Issue Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid/ Issue Closing Date. Allocation to Individual Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right not to proceed with the Issue at any time before the Bid/Issue Opening Date without assigning any reason thereof.

If our Company withdraw the Issue any time after the Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraw the Issue after the Bid/Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Draft Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approval of the Stock Exchange with respect to the Equity Shares Issued through the Prospectus, which our Company will apply for only after Allotment;

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS ISSUE

Our Company has entered into a Market Making Agreement dated May 15, 2026 with the following Market Maker for fulfilling the Market Making obligations under this Issue:

Name	Nikunj Stock Brokers Limited
Address	A-92, Ground Floor, Left Portion, Kamla Nagar, New Delhi-110007
Telephone	+91 9810655378
E-mail	complianceofficer@nikunjonline.com
Contact Person	Mr. Anshul Aggarwal
SEBI Registration No.	INZ000169335

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Book Running Lead Manager and the Market Maker (duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making) dated May 15, 2026, to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issuer.

Nikunj Stock Brokers Limited, registered with EMERGE Platform of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making Arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The minimum depth of the quote shall be ₹ 1,00,000. However, the Investors with holdings of value less than ₹ 1,00,000 shall be allowed to offer their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% of Issue Size (Including the 2,23,200 Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 2,23,200 Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of market maker in our Company reduce to 24% of Issue Size, the market maker will resume providing 2-way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
6. There would not be more than five Market Maker for the Company's Equity Shares at any point of time and the Market Maker may compete with other Market Maker for better quotes to the investors.
7. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. In case equilibrium price is not discovered the price band in the normal trading session shall be based on Issue price.
8. The Market Maker may also be present in the opening call auction, but there is no obligation on him to do so.

9. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
10. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Managers, who shall then be responsible to appoint a replacement Market Maker.

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.

11. **Risk containment measures and monitoring for Market Maker:** EMERGE Platform of National Stock Exchange of India Limited will have all margins which are applicable on the National Stock Exchange of India Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. National Stock Exchange of India Limited can impose any other margins as deemed necessary from time-to-time.
12. **Punitive Action in case of default by Market Maker:** EMERGE Platform of National Stock Exchange of India Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
13. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.
14. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:
 - a. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - b. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.
15. Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME platform.

S. No.	Market Price Slab (in Rs.)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6
4.	Above 100	5

All the above mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

16. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper

side for market makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue size)
Upto ₹20 Crore	25%	24%
₹20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / National Stock Exchange of India Limited from time to time.

* Subject to finalisation of Basis of Allotment.

(1) For a period of three years from the date of allotment.

(2) All Equity Shares have been fully paid-up at the time of allotment.

(3) All Equity Shares held by our Promoters are in dematerialized form.

For details on the build-up of the Equity Share capital held by our Promoters, see “**-Shareholding of our Promoters**” on page 91.

The Promoters’ Contribution has been brought to the extent of not less than the specified minimum lot and from persons defined as ‘promoter’ under the SEBI (ICDR) Regulations.

The Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters’ Contribution under Regulation 237 of the SEBI (ICDR) Regulations. In this computation, as per Regulation 237 of the SEBI (ICDR) Regulations, our Company confirms that the Equity Shares which are being locked-in do not, and shall not, consist of:

- Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalization of intangible assets
- Equity Shares resulting from bonus issue by utilization of revaluations reserves or unrealized profits of the Company or from bonus issue against Equity Shares which are otherwise ineligible for minimum promoters’ contribution;
- Equity Shares acquired during the preceding one year, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- Equity Shares allotted to the promoter against the capital existing in the firms for a period of less than one year on a continuous basis.
- Equity Shares held by the Promoters that are subject to any pledge; and
- Equity Shares for which specific written consent has not been obtained from the respective shareholders for inclusion of their subscription in the Promoters’ Contribution subject to lock-in.

Our Company has not been formed by the conversion of a partnership firm into a company in the past one year and thus, no Equity Shares have been issued to our Promoter upon conversion of a partnership firm in the past one year. All the Equity Shares held by the Promoter and the members of the Promoter Group are held in dematerialized form.

In terms of undertaking executed by our Promoters, Equity Shares forming part of Promoters’ Contribution subject to lock in will not be disposed/ sold/ transferred by our Promoters during the period starting from the date of filing of this Red Herring Prospectus till the date of commencement of lock in period as stated in this Red Herring Prospectus.

Other than the Equity Shares locked-in as Promoters’ Contribution for a period of three years as stated in the table above, the entire pre-Issue capital of our Company, including the excess of minimum Promoters’ Contribution, as per Regulation 238 of the SEBI (ICDR) Regulations, shall be locked in as follows:

- (i) fifty percent. of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of two years from the date of Allotment; and
- (ii) remaining fifty percent. of promoters' holding in excess of minimum promoters' contribution shall be locked in for a period of one year from the date of Allotment.
- (iii) All other pre-issue shares shall be locked in for a period of one year from the date of Allotment

Other requirements in respect of 'lock-in'

In terms of Regulation 17 of the SEBI ICDR Regulations in addition to the Minimum Promoters' Contribution locked in for eighteen months from the date of allotment in the Initial public offer as specified above, the entire pre-issue Equity Share capital of our Company will be locked-in for a period of six months from the date of Allotment in the Initial public offer.

There shall be a lock-in of 90 days on 50% of the Equity Shares Allotted to Anchor Investors from the date of Allotment, and a lock-in of 30 days on the remaining 50% of the Equity Shares Allotted to Anchor Investors from the date of Allotment.

As required under Regulation 20 of the SEBI ICDR Regulations, our Company shall ensure that the details of the Equity Shares locked-in are recorded by the relevant Depository.

Pursuant to Regulation 21 of the SEBI ICDR Regulations, Equity Shares held by our Promoters which are locked-in for a period of six months from the date of Allotment in the initial public offer, may be pledged only with scheduled commercial banks or public financial institutions or NBFC-SI or a deposit accepting housing finance company as collateral security for loans granted by such banks or public financial institutions, provided that with respect to the Equity Shares locked-in for six months from the date of Allotment, the pledge of such Equity Shares is one of the terms of the sanction of such loans. Equity Shares locked-in as Minimum Promoters' Contribution for eighteen months from the date of allotment in the initial public offer, can be pledged only if in addition to fulfilling the aforementioned requirements, such loans have been granted by scheduled commercial banks or public financial institutions or NBFC-SI or a deposit accepting housing finance company for the purpose of financing one or more objects of the Issue.

However, the relevant lock-in period shall continue post the invocation of the pledge referenced above, and the relevant transferee shall not be eligible to transfer to the Equity Shares till the relevant lock-in period has expired in terms of the SEBI ICDR Regulations.

In terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by our Promoter may be transferred to a member of the Promoter Group or a new promoter or persons in control of our Company, subject to continuation of lock-in applicable to the transferee for the remaining period and compliance with provisions of the Takeover Regulations as applicable and such transferee shall not be eligible to transfer them till the lock-in period stipulated in SEBI ICDR Regulations has expired.

Further, in terms of Regulation 22 of the SEBI ICDR Regulations, Equity Shares held by persons other than our Promoters prior to the Issue and locked-in for a period of six months, may be transferred to any other person holding Equity Shares which are locked in along with the Equity Shares proposed to be transferred, subject to the continuance of the lock-in at the hands of the transferee and compliance with the provisions of the Takeover Regulations.

Our Company, our Promoters, our Directors and the Book Running Lead Manager have no existing buyback arrangements or any other similar arrangements for the purchase of Equity Shares being offered through the Issue.

The post-Issue paid up Equity Share Capital of our Company shall not exceed the authorised Equity Share Capital of our Company.

There have been no financing arrangements whereby our Directors or any of their relatives have financed the purchase by any other person of securities of our Company during the six months immediately preceding the date of filing of this Red Herring Prospectus.

No person connected with the Issue, including, but not limited to, our Company, the members of the Syndicate, or our Directors, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid, except for fees or commission for services rendered in relation to the Issue.

There neither have been and there will be no further issue of Equity Shares whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of filing of this Red

Herring Prospectus until the Equity Shares have been listed on the Stock Exchange or all application monies have been refunded, as the case may be.

Our Company has no outstanding warrants, options to be issued or rights to convert debentures, loans or other convertible instruments into Equity Shares as on the date of this Red Herring Prospectus.

There shall be only one denomination of the Equity Shares, unless otherwise permitted by law. Our Company will comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

Our Company shall ensure that any transactions in Equity Shares by our Promoters and the Promoter Group during the period between the date of filing this Red Herring Prospectus and the date of closure of the Issue, shall be reported to the Stock Exchanges within 24 hours of the transaction.

All Equity Shares issued pursuant to the Issue shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of this Red Herring Prospectus.

As on the date of this Red Herring Prospectus, the Book Running Lead Manager and their respective associates (as defined under the Securities and Exchange Board of India (Merchant Bankers) Regulations, 1992) do not hold any Equity Shares of our Company. The Book Running Lead Manager and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

Our Promoters and the members of our Promoter Group will not participate in the Issue.

Following are the details of Equity Shares of our Company held by our Directors, Key Management Personnel:

Sr. No.	Name of the Directors, Key Managerial Personnel	Pre-Issue		Post - Issue	
		Number of Equity Shares	% of Pre-Issue Equity Share Capital	Number of Equity Shares	% of Post-Issue Equity Share Capital
1	Venkata Sai Shiv Prasad Nuthalapati	55,52,729	47.14%	55,52,729	34.20%
2	Ravi Kumar Nuthalapati	30,03,605	25.50%	30,03,605	18.50%
3	Veera Vikram Nuthalapati	1,01,116	0.86%	1,01,116	0.62%
	Total	86,57,450	73.50%	86,57,450	53.32%

Our Company has not raised any bridge loans which are proposed to be repaid from the proceeds of the Issue.

Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under “Basis of Allotment” in the chapter titled “*Issue Procedure*” beginning on page 288 of this Red Herring Prospectus. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 253 (2) of SEBI (ICDR) Regulations, as amended from time to time.

An investor cannot make an application for more than the number of Equity Shares offered in this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investor.

An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Issue. Consequently, the actual allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock- in shall be suitably increased; so as to ensure that 20% of the post Issue paid-up capital is locked in.

Under subscription, if any, in any of the categories, would be allowed to be met with spill-over from any of the other categories or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and Designated Stock Exchange. Such inter-se spill over, if any, would be effected in accordance with applicable laws, rules, regulations and guidelines.

No payment, direct, indirect in the nature of discount, commission, and allowance, or otherwise shall be made either by us or by our Promoters to the persons who receive allotments, if any, in this Issue.

We confirm that none of the investors of our Company are directly/indirectly related with Book Running Lead Managers and their associates.

OBJECTS OF THE ISSUE

We intend to utilize the Proceeds of the Issue, after deducting the Issue related expenses, as estimated to be ₹ [●] lakhs (the “**Net Proceeds**”).

Our Company proposes to utilize the Net Proceeds from the Issue towards the following objects:

1. Prepayment or repayment of certain loans availed by our Company
2. Funding of working capital requirements of our Company;
3. Investment in our wholly owned subsidiary Geo Min Commodities Pte. Ltd., Singapore for funding of its working capital requirements; and
4. General Corporate Purposes.

(Collectively, referred to herein as the “**Objects**”)

In addition, our Company expects to receive the benefits of listing of the Equity Shares on the Stock Exchange and enhancement of our Company’s visibility and brand image and creation of a public market for our Equity Shares in India.

The main objects clause and objects incidental and ancillary to the main objects as set out in the Memorandum of Association of our Company enable our Company to undertake its existing activities and the activities proposed to be funded from the Net Proceeds.

Issue Proceeds

The details of the proceeds of the Issue are set out in the following table:

(₹ in lakhs)	
Particulars	Estimated amount ⁽¹⁾
Gross Proceeds from the Issue	[●]
(Less) Issue related expenses	[●]
Net Proceeds	[●]

⁽¹⁾ To be finalized on determination of the Issue Price and updated in the Prospectus prior to filing with the RoC.

Requirement of Funds and Utilization of Net Proceeds

The Net Proceeds are proposed to be used in the manner set out in the following table:

(₹ in lakhs)		
Sr. No.	Particulars	Estimated amount
1	Prepayment or repayment of certain loans availed by our Company	1,000
2	Funding of working capital requirements of our Company	1,650
3	Investment in our wholly owned subsidiary Geo Min Commodities Pte. Ltd., Singapore for funding of its working capital requirements	4,700
4	General corporate purposes ⁽¹⁾⁽²⁾	[●]

⁽¹⁾ To be finalized on determination of the Issue Price and updated in the Prospectus prior to filing with the ROC.

⁽²⁾ The amount to be utilised for general corporate purposes shall not exceed ₹1,000 lakhs or 15% of the Gross Proceeds of the Issue, whichever is less.

Schedule of implementation and Means of Finance

We propose to deploy the Net Proceeds for the aforesaid purposes in accordance with the estimated schedule of implementation set forth in the table below:

(₹ in lakhs)

Sr. No.	Particulars	Total estimated cost	Amount which will be financed from Net Proceeds ⁽¹⁾	Estimated Utilisation of Net Proceeds
				Financial Year 2026-27
1.	Prepayment or repayment of certain loans availed by our Company	1,000	1,000	1,000
2.	Funding of working capital requirements of our Company	1,650	1,650	1,650
3.	Investment in our wholly owned subsidiary Geo Min Commodities Pte. Ltd., Singapore for funding of its working capital requirements	4,700	4,700	4,700
4.	General corporate purposes ⁽¹⁾	[•]	[•]	[•]
Total		[•]	[•]	[•]

⁽¹⁾ To be finalised upon determination of Issue Price. The amount shall not exceed ₹1,000 lakhs or 15% of the Gross Proceeds of the Issue, whichever is less.

Given the dynamic nature of our business, we may have to revise our funding requirements and deployment on account of a variety of factors such as our financial condition, business strategy and external factors such as market conditions, competitive environment and interest or exchange rate fluctuations, logistics and transport costs, incremental preoperative expenses, taxes and duties, interest rate and finance charges, working capital margin, regulatory costs, environmental factors and other external factors which may not be within the control of our management. This may entail rescheduling or revising the planned expenditure and funding requirements, including the expenditure for a particular purpose, at the discretion of our management, subject to compliance with applicable law. Moreover, if the actual utilisation towards any of the Objects is lower than the proposed deployment such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed ` , in accordance with the SEBI ICDR Regulations. In case of a shortfall in raising requisite capital from the Net Proceeds or an increase in the total estimated cost of the Objects, business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue. To the extent our Company is unable to utilise any portion of the Net Proceeds towards the aforementioned objects, per the estimated scheduled of deployment specified above, our Company shall deploy the Net Proceeds in subsequent Fiscals towards the aforementioned Objects.

For further details see “Risk Factor – Risk Factor 32. There can be no assurance that the objects of the Issue will be achieved within the time frame anticipated or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment. Further, the plan for deployment of the Net Proceeds has not been appraised by any bank or financial institution” on page 38.

The fund requirements mentioned above are based on the internal management estimates of our Company, and have not been verified by the BRLM or appraised by any bank or financial institution. The fund requirements are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the Net Proceeds as stated above, our Company may re-allocate the Net Proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds or cost overruns, our management may explore a range of options including utilising our internal accruals or seeking debt financing. For further details see “Risk Factors – Risk Factor 73 - Any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in this Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval” on page 55.

Means of Finance

The fund requirements set out for the aforesaid objects of the Issue are proposed to be met entirely from the Net Proceeds and internal accruals. In view of above, we confirm that, with respect to the Objects, our Company is in compliance with Regulation 230(1)(e) of the SEBI ICDR Regulations and we are not required to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Issue and existing identifiable internal accruals. In case of a shortfall in the Net Proceeds or any increase in the actual utilization of funds earmarked for the Objects, our Company may explore a range of options including utilizing our internal accruals.

Details of the Object

The details of the Objects of the Issue are set out below:

1. Prepayment or repayment of all or a portion of loans availed by our Company

Our Company has entered into various financing arrangements from time to time, with various lenders. The financing arrangements availed by our Company include, *inter alia*, unsecured loans and working capital facilities. For further details, please refer “*Financial Indebtedness*” on page 232.

As at December 31, 2025 our total outstanding borrowings from various lenders (other than loans from related parties) amounted to ₹1,567.34 lakhs. Our Company proposes to utilise an estimated amount of up to ₹1,000 lakhs from the Net Proceeds towards full or partial repayment or pre-payment of certain borrowings, listed below, availed from the lenders by our Company. Pursuant to the terms of the financing arrangements, prepayment of certain borrowings may attract prepayment charges as prescribed by the respective lender. Such prepayment charges, as applicable, will be funded from the internal accruals of our Company.

We believe that such repayment/ pre-payment will help reduce our outstanding indebtedness, debt servicing costs, assist us in maintaining a favourable debt to equity ratio and enable utilisation of our internal accruals for further investment in our business growth and expansion. Additionally, we believe that the leverage capacity of our Company will improve our ability to raise further resources in the future to fund our potential business development opportunities and plans to grow and expand our business.

The following table provides details of loans and facilities as at December 31, 2025, which are proposed to be pre-paid or partly or fully repaid by our Company from the Net Proceeds:

(₹ in Lakhs)

S. No.	Name of Lender	Nature of Borrowings	Interest rate (%) P.A	Repayment Terms	Prepayment penalties, if any	Sanctioned amount	Amount Outstanding as on December 31, 2025	Purpose for which the was sanctioned *	Amount to be repaid from IPO Proceeds	% of outstanding amount of loan to be repaid from IPO proceeds
	Date of sanction and disbursement									
1	Axis Bank Limited Sanctioned on: July 27, 2025	Cash Credit	8.00%	12 months from date of sanction i.e. July 27, 2025	NIL	1,600.00	1,567.34	Working Capital requirements	1,000.00	63.80%

Note: The details included in the above table have been certified by M/s. Ravi & Raghu, Chartered Accountants, Statutory Auditors, pursuant to their certificate dated May 15, 2026.

* M/s. Ravi & Raghu, Chartered Accountants, Statutory Auditors by way of their certificate dated August 06, 2025, have confirmed that the borrowings specified above has been utilized for the purposes availed, as per the sanction letters issued by the respective lenders.

For further details in relation to our borrowings, please see “*Financial Indebtedness*” on page 232.

Payment of additional interest, prepayment penalty or premium, if any, and other related costs shall be made by us out of the internal accruals or out of the Net Proceeds as may be decided by our Company.

Given the nature of the above-mentioned borrowings and the terms of repayment, the aggregate outstanding borrowing amounts which we propose to repay may vary from time to time. However, the aggregate amount to be utilised from the Net Proceeds towards prepayment or repayment of borrowings (including refinanced or additional facilities availed, if any), in part or full, will not exceed ₹ 1,000 lakhs.

If the actual utilization towards the above object is lower than the proposed deployment, such balance will be used either for funding other objects as mentioned above or towards general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes shall not exceed ₹1,000 lakhs or 15% of the Gross Proceeds of the Issue, whichever is less in accordance with the SEBI ICDR Regulations.

2. Funding the working capital requirements of our Company

We operate across the rice bran oil value chain, encompassing the manufacture of crude rice bran oil, its refining, and the processing of associated residues and by-products. These include De-Oiled Rice Bran (DORB), Fatty Acids, Gums, Spent Earth, and Wax- each contributing to a diversified product suite that supports downstream industries and promotes circular resource utilization.

The production of crude and refined rice bran oil primarily involves two stages: extraction of crude oil from rice bran, followed by refining to achieve the desired purity and specifications. Our company manufactures rice bran oil across multiple grades and color profiles, tailored to meet the specific requirements of our customers.

Our Company has capacity of 60,000 MT per annum for Solvent Extraction Plant and 15,000 MT per annum oil refinery as on the date of this RHP. Our manufacturing facility, located in the state of Andhra Pradesh, is automated and constructed using Stainless Steel 304. It is equipped with machinery for efficient oil refining and by-product extraction, ensuring minimal physical intervention by the workforce, maintenance of quality standards and minimal wastage. We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form.

Our Barite and Fluorspar business comprises operations in India undertaken by our Company.

In fiscal year 2025, building on our expertise in Barite operations, our Company expanded into domestic Barite trading in India. Our operations are strategically located in Andhra Pradesh, home to both India's largest and the world's single largest Barite mine. The site is situated just 128 km from Krishnapatnam Port, offering efficient access to export infrastructure and reinforcing our ability to serve both domestic and international markets with speed and scale.

With the expansion of the business, our Company will be in the need of additional working capital requirements. We fund a majority of our working capital requirements in the ordinary course of business from banks facilities and internal accruals. Our Company requires additional working capital for funding its incremental working capital requirements and releasing the internal accruals deployed in working capital. The funding of the incremental working capital requirements will lead to a consequent increase in our profitability, ability to utilize internal accruals for growth opportunities and achieving the proposed targets as per our business plan.

Our Company proposes to utilize ₹1,650 Lakhs of the Net Proceeds towards our Company's working capital requirements. The company shall utilize ₹ 1,650 Lakhs in Fiscal 2026 towards our Company's working capital requirements. Our Company has working capital limits sanctioned by Axis Bank Limited vide sanction letter dated July 27, 2025 for upto ₹1,600 Lakhs

Basis of estimation of working capital requirement

The details of our existing Company's working capital on a standalone basis as at December 31, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 and the source of funding, derived from the financial statements of our Company, as certified by our peer reviewed Auditor through their certificate dated May 15, 2026, are provided in the table below. Key assumptions for working capital requirements

Our Company's estimated working capital requirements on a standalone basis are based on the following key assumptions:

S. No.	Particulars	Assumptions
Current Assets		

S. No.	Particulars	Assumptions
1	Trade Receivables	<p>The Company's credit terms vary across geographies and types of customers.</p> <p>Historically, the Debtors Holding Days were 3 days, 3 days and 97 days in FY2023, FY2024 and FY2025, respectively. And for the period ended December 31, 2025 were 9 days.</p> <p>The increase in receivable days in FY2025 was on account of the Company commencing operations in the minerals segment for Merchanting Trade Transactions (MTT), which typically has longer credit terms compared to the edible oil business.</p> <p>Going forward, the Company expects Debtors Holding Days to stabilize at around 86 days in FY2026 and 75 days in FY2027, factoring in the mix of both edible oil and minerals business.</p>
2	Inventories	<p>The Company's operations require maintaining raw material stock in line with procurement cycles and seasonal availability.</p> <p>Historically, the Inventory Holding Period was 157 days, 234 days and 173 days in FY2023, FY2024 and FY2025, respectively. And for the period ended December 31, 2025 were 307 days.</p> <p>The higher levels in FY2024 reflect procurement timing and commodity cycle considerations.</p> <p>With improved procurement planning, capacity utilization, and expected increase in sales volumes, the Company estimates the inventory holding period will reduce to around 175 days in FY2026 and 61 days in FY2027.</p>
Current Liabilities		
1	Trade Payables	<p>The Company had a creditors' payment cycle of 87 days, 117 days and 181 days in FY2023, FY2024 and FY2025, respectively. And for the period ended December 31, 2025 were 139 days.</p> <p>Going forward, the Company expects creditor days to reduce substantially to around 161 days in FY2026 and 79 days in FY2027, primarily due to the minerals business, where suppliers do not extend any credit period.</p> <p>This change in business mix is expected to bring down the overall average creditor days.</p>

Reason for substantial increase of working capital requirement are mentioned below:

We are a globally diversified group engaged in supplying of critical minerals, and manufacturing of rice bran oil. With active operations across India, Morocco, and Singapore, our strategically positioned hubs enable us to efficiently respond to regional market dynamics and evolving demand patterns.

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - critical inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

In parallel, we operate across the rice bran oil value chain, encompassing the manufacture of crude rice bran oil, its refining, and the processing of associated residues and by-products. These include De-Oiled Rice Bran (DORB), Fatty Acids, Gums, Spent Earth, and Wax—each contributing to a diversified product suite that supports downstream industries and promotes circular resource utilization.

Our Company has capacity of 60,000 MT per annum for Solvent Extraction Plant and 15,000 MT per annum oil refinery as on the date of this RHP. Our manufacturing facility, located in the state of Andhra Pradesh, is semi-automated and constructed using Stainless Steel grade 304. It is equipped with machinery for efficient oil refining and by-product extraction, ensuring minimal physical intervention by the workforce, maintenance of quality standards and minimal wastage. We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form

Our Barite and Fluorspar business comprises operations in India and Outside India. India business is conducted by our Company.

Over the past three financial years, our Company has demonstrated a consistent growth in turnover and profitability, driven by strategic decisions across market expansion, product diversification, and operational efficiency.

For the year ended March 31, 2025, the total working capital requirement of our Company on a standalone basis was ₹ 1,727 Lakhs. However, this is estimated to increase to ₹ 2,616.25 Lakhs during FY2026 and ₹ 3,846.30 Lakhs during FY2027. The reasons for increase in future working capital requirements of our company are as under:

- Our Company's business is a working capital intensive and to address the current issue of limited working capital and achieve exponential growth, the company plans to infuse funds into working capital from the Issue Proceeds.
- Our Company anticipates a substantial expansion in business operations in the forthcoming financial years supported by the fresh infusion of funds from the proceeds of the proposed Issue. The Company expects substantial increase in trade receivables in line with expansion in business operations in forthcoming financial years.
- During FY2025, considering our Company started trading in Barite. This line of business requires substantial working capital.

On standalone basis, we operate across the rice bran oil value chain, encompassing the manufacture of crude rice bran oil, its refining, and the processing of associated residues and by-products. These include De-Oiled Rice Bran (DORB), Fatty Acids, Spent Earth, and Wax - each contributing to a diversified product suite that supports downstream industries and promotes circular resource utilization.

In parallel, the Company is planning to resume the supply of barite from India to international markets. The sourcing for this segment is undertaken within India, with sales directed to third-party customers.

3. Investment in our wholly owned subsidiary Geo Min Commodities Pte. Ltd., Singapore for funding of its working capital requirements

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - critical inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

We supply Barite and Fluorspar to customers across the United States, Germany, Singapore, and Oman, serving key sectors such as the oil & gas and chemical industries. Our products meet stringent industry specifications and are tailored to support oil and gas drilling, refining, and industrial processing applications in these markets.

Sale and marketing of our Copper Cathode business is undertaken by our subsidiary, Geo Min Commodities Pte. Ltd. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE. We supply Grade A cathodes to customers in UAE and Singapore. Our cathodes meet LME-approved specifications, ensuring consistent quality for industrial and commercial applications.

Our Company holds 100% shares in Geo Min Commodities Pte. Ltd., Singapore making it a wholly owned subsidiary of our Company. The registered office of Geo Min Commodities Pte. Ltd. is situated at 17 Phillip Street, #05-01 Grand Building, Singapore 048695.

Atlas Resources International, Morocco, 100% subsidiary of Geo Min Commodities Pte. Ltd, is engaged in the procurement of Barite and Fluorspar from local mining partners. Atlas Resources International has executed 100% of its sale to our Company and Geo Min Commodities Pte. Ltd.

With the expansion of the business, our subsidiary will be in the need of additional working capital requirements. We fund a majority of our working capital requirements in the ordinary course of business from banks facilities and internal accruals. Our subsidiary requires additional working capital for funding its incremental working capital requirements and releasing the internal accruals deployed in working capital. The funding of the incremental working capital requirements will lead to a consequent increase in our profitability, ability to utilize internal accruals for growth opportunities and achieving the proposed targets as per our business plan.

All materials sourced by Atlas Resources International from Morocco are procured by Geo Min Commodities Pte. Ltd., Singapore, which serves as the marketing and distribution arm for our global operations.

Our Company proposes to utilize ₹4,700 Lakhs of the Net Proceeds towards investment in our subsidiary Geo Min Commodities Pte. Ltd., Singapore These funds would be utilized by our subsidiary for meeting its working capital requirements. The company shall invest ₹4,700 Lakhs in our subsidiary in Fiscal 2027.

Mode of Investment in Geo Min Commodities

The investment by our Company in Geo Min Commodities is proposed to be undertaken through issue of redeemable preference shares aggregating to ₹ 4,700 lakhs to be allotted by our subsidiary to our Company. Post such infusion of funds, Geo Min Commodities will continue to be a wholly owned subsidiary of our Company.

We believe that the said investment will result in increase in the value of the investment made by our Company in Geo Min Commodities.

Basis of estimation of working capital requirement

The details of the existing working capital of Geo Min Commodities on a standalone basis as at December 31, 2025, March 31, 2025, March 31, 2024 and March 31, 2023 and the source of funding, derived from the financial statements of our subsidiary, as certified by our peer reviewed Auditors through their certificate dated May 15, 2026, are provided in the table below. On the basis of the existing and estimated working capital requirement of our subsidiary, and assumptions for such working capital requirements, our Board pursuant to its resolution dated May 15, 2026, has approved the estimated working capital requirements for Fiscals 2026 and 2027 as set forth below:

The reduction in borrowings in FY 2026 as compared to FY 2025 is primarily on account of the Company's decision to repay the existing loan from internal accruals with a view to reducing interest costs. The Company may, as and when required in the future, avail additional borrowings from banks based on its business requirements. We further confirm that the IPO proceeds shall not be utilised for repayment of the existing loan.

Our Subsidiary shall also fund the incremental working capital requirements by availing loan facilities.

Key assumptions for working capital requirements

Our subsidiary's estimated working capital requirements on a standalone basis are based on the following key assumptions:

S. No.	Particulars	Assumptions
Current Assets		
1	Trade Receivables	<p>The subsidiary's credit terms vary across geographies and customer categories.</p> <p>Historically, Debtors Holding Days were 24 days, 59 days, and 62 days in FY2023, FY2024 and FY2025, respectively. And for the period ended December 31, 2025 were 138 days.</p> <p>The increase in receivable days over this period reflects higher sales to geographies/customers with relatively longer credit cycles.</p> <p>Going forward, Debtors Holding Days are expected to remain stable at around 62 days in FY2026 and 64 days in FY2027, broadly in line with the existing terms of trade.</p>
2	Inventories	<p>The subsidiary operates in the mineral trading business and does not maintain any inventory.</p> <p>Accordingly, no working capital requirement has been assumed towards inventories.</p>
Current Liabilities		
1	Trade Payables	<p>The subsidiary's operations involve procurement of minerals from multiple geographies.</p> <p>Historically, the creditor payment cycle was Nil days, 5 days and 23 days in FY2023, FY2024 and FY2025, respectively. And for the period ended December 31, 2025 were 69 days.</p> <p>Going forward, creditor days are expected to be around 6 days in FY2026 and 5 days in FY2027, as the subsidiary's business model generally requires prompt settlement with suppliers.</p> <p>Faster payments to creditors are expected to strengthen supplier relationships and may support improved margins.</p>

Reason for substantial increase of working capital requirement are mentioned below:

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - critical inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

Our Barite and Fluorspar business comprises operations in India and Outside India. Our international Barite and Fluorspar business is conducted through our subsidiaries, namely Geo Min Commodities Pte. Ltd ("Geo Min") in Singapore and its step-down subsidiary in Morocco, Atlas Resources International ("Atlas Resources"). Geo Min operates as our global marketing and selling arm of minerals and the Morocco subsidiary operates as a procurement arm for minerals.

Our group operates in different mineral and geographies, with active business lines in Copper, Barite and Fluorspar. We maintain operational hubs in India, Morocco, and Singapore, and serve customers across 5 countries as of fiscal year 2025, spanning Asia, the Middle East, Europe, Africa, South America, and North America.

In Morocco, we leverage both the Port of Casablanca and the Port of Agadir for bulk and container shipments, enabling cost-efficient access to key markets across Europe, Africa, the Americas, and the Middle East. Morocco's strategic location—at the crossroads of Europe and the Americas—makes it an ideal base for global trade. As the third-largest Barite producer globally, Morocco offers both resource depth and logistical advantage.

We supply Barite and Fluorspar to customers across the United States, Germany, Suriname and Oman, serving key sectors such as the oil & gas and chemical industries. Atlas Resources International, Morocco, 100% subsidiary of Geo Min Commodities Pte. Ltd, is engaged in the procurement of Barite and Fluorspar from local mining partners. Atlas Resources International has executed 100% of its sale to our Company and Geo Min Commodities Pte. Ltd

Sale and marketing of our Copper Cathode business is undertaken by our subsidiary, Geo Min Commodities Pte. Ltd. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE

To further secure our supplies and to support the increasing demand for Barite and Copper, we have secured mining permit for one Barite mine and one Copper mine, both in Morocco. The Company has been allocated a Barite mining permit bearing Permit No. 3739267 situated in the Ighoud Commune, Youssoufia Province, Marrakech-Safi Region, Kingdom of Morocco. Based on the geological assessment reports, the mining area is estimated to contain approximately 0.75 million MT of Barite ore with an average grade of 4.25. the Company expects to receive the mining licence by the end of June 2026 or mid-July 2026, following which commercial extraction and sale of barite from the mine is proposed to commence.

Over the past three financial years, our subsidiary has demonstrated a consistent growth in turnover and profitability, driven by strategic decisions across market expansion, product diversification, and operational efficiency.

For the year ended March 31, 2025, the total working capital requirement of our subsidiary on a standalone basis was ₹ 3,399.42 Lakhs. However, this is estimated to increase to ₹ 5,915.88 Lakhs during FY2026 and ₹ 6,509.52 Lakhs during FY2027. The reasons for increase in future working capital requirements of our company are as under:

- The mineral procurement and supply business is a working capital intensive and to address the current issue of limited working capital and achieve exponential growth, the company plans to infuse funds into working capital from the Issue Proceeds.
- Our Company anticipates a substantial expansion in business operations in the forthcoming financial years supported by the fresh infusion of funds from the proceeds of the proposed Issue. The Company expects substantial increase in trade receivables in line with expansion in business operations in forthcoming financial years.

4. General Corporate Purposes

#As certified by the peer review Auditor vide their certificate dated May 15, 2026.

KPIs disclosed above has been approved by the Audit Committee of the Company in their meeting held on dated May 20, 2026.

Explanation for the Key Performance Indicators

1. EBITDA means Earnings before interest, taxes, depreciation and amortisation expense, is calculated as profit before tax/ (loss) before extraordinary item for the period/year and adding back finance costs, and depreciation & amortisation expenses.
2. EBIT means Earnings before interest and tax, and is calculated as profit before tax/ (loss) before extraordinary item for the

period/year and adding back finance cost.

3. EBITDA Margin is calculated as EBITDA as a percentage of Revenue from operations.
4. PAT Margin is calculated as profit after tax for the year / period as a percentage of Revenue from operations.
5. Return on Equity (ROE) is calculated as profit after tax for the year/period divided by Average Total Equity.
6. Return on Capital Employed (ROCE) is calculated as EBIT divided by Capital Employed. Capital Employed is calculated as total assets less total current liabilities as at the end of the period/year.
7. Net Debt/ EBITDA: Net Debt is calculated as total borrowings (including lease liabilities) less cash and cash equivalents and bank balances other than cash and cash equivalents as at the end of the period/year divided by EBITDA.

We shall continue to disclose these KPIs, on a half-yearly basis, for a duration that is at least the later of (i) three years after the listing date; and (ii) the utilization of the issue proceeds disclosed in the objects of the issue section of the Prospectus. We confirm that the ongoing KPIs would be certified by the statutory auditor of the Issuer Company.

Dear Sir,

Subject: Statement of Possible Special Tax Benefits Available to the Company and its shareholders prepared in accordance with the requirements under Schedule VI-PART A, Clause (9) (L) of the SEBI (ICDR) Regulations, 2018, as amended (the “Regulations”)

We hereby report that the enclosed annexure prepared by Sri Priyanka Geo Commex Limited, states the possible special tax benefits available to **Sri Priyanka Geo Commex Limited (the “Company”)**, and the shareholders of the Company under the Income Tax Act, 1961 (“Act”), presently in force in India. Several of these benefits are dependent on the Company or its shareholders, fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the Company may or may not choose to fulfil.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and shareholders, so it does not cover any general tax benefits available to the Company. Further, the preparation of enclosed statement and the contents stated therein is the responsibility of the Company’s management. We are informed that this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of equity shares (the “Issue”) by the Company.

We do not express any opinion or provide any assurance as to whether:

- i. Company or its shareholders will continue to obtain these benefits in future; or
- ii. The conditions prescribed for availing the benefits has been/ would be met with.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company. Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein.

We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in this Red Herring Prospectus / Red Herring Prospectus / Prospectus or any other offer related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

SECTION IV – ABOUT THE COMPANY

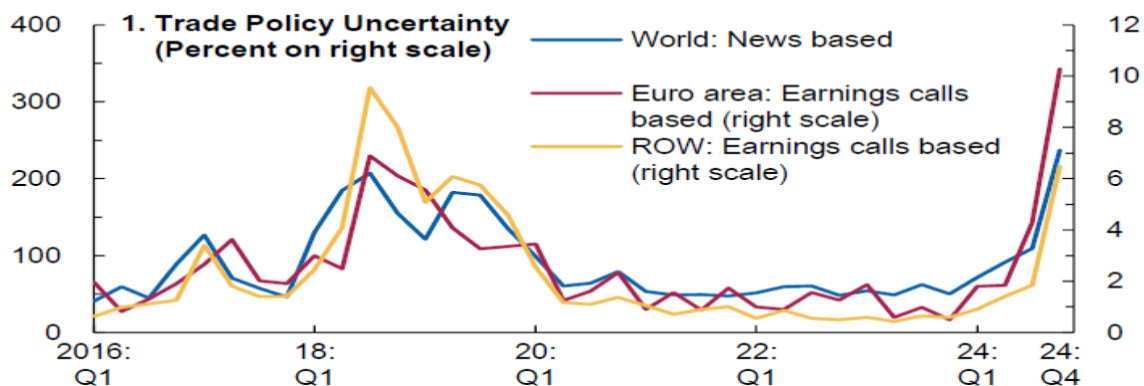

INDUSTRY OVERVIEW

GLOBAL ECONOMY

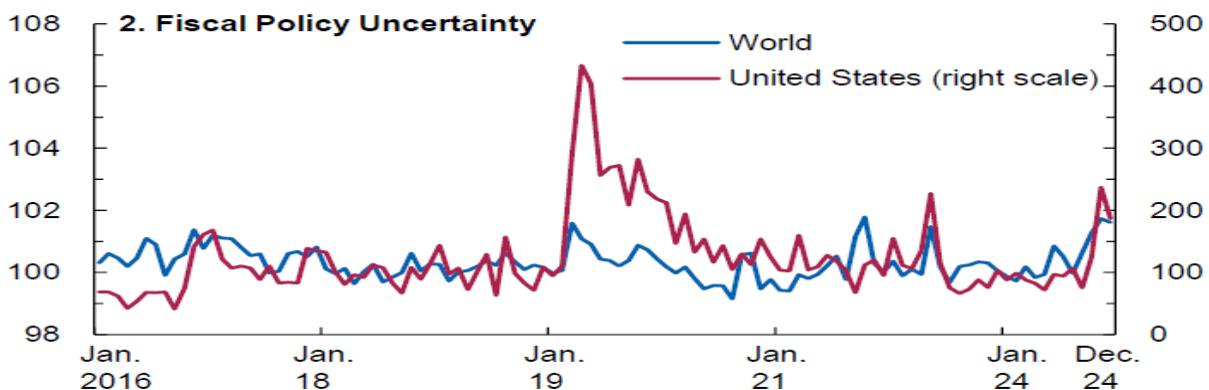

The global economy is holding steady, although the degree of grip varies widely across countries. Global GDP growth in the third quarter of 2024 was 0.1 percentage point below that predicted in the October 2024 WEO, after disappointing data releases in some Asian and European economies. Growth in China, at 4.7 percent in year-over-year terms, was below expectations. Faster-than-expected net export growth only partly offset a faster-than-expected slowdown in consumption amid delayed stabilization in the property market and persistently low consumer confidence. Growth in India also slowed more than expected, led by a sharper-than-expected deceleration in industrial activity. Growth continued to be subdued in the euro area (with Germany's performance lagging that of other euro area countries), largely reflecting continued weakness in manufacturing and goods exports even as consumption picked up in line with the recovery in real incomes. In Japan, output contracted mildly owing to temporary supply disruptions. By contrast, momentum in the United States remained robust, with the economy expanding at a rate of 2.7 percent in year-over-year terms in the third quarter, powered by strong consumption.

Where inflation is proving more sticky, central banks are moving more cautiously in the easing cycle while keeping a close eye on activity and labor market indicators as well as exchange rate movements. A few central banks are raising rates, marking a point of divergence in monetary policy.

Global financial conditions remain largely accommodative, again with some differentiation across jurisdictions (see box below). Equities in advanced economies have rallied on expectations of more business friendly policies in the United States. In emerging market and developing economies, equity valuations have been more subdued, and a broad-based strengthening of the US dollar, driven primarily by expectations of new tariffs and higher interest rates in the United States, has kept financial conditions tighter.

Economic policy uncertainty has increased sharply, especially on the trade and fiscal fronts, with some differentiation across countries (see box below). Expectations of policy shifts under newly elected governments in 2024 have shaped financial market pricing in recent months. Bouts of political instability in some Asian and European countries have rattled markets and injected additional uncertainty regarding stalled progress on fiscal and structural policies. Geopolitical tensions, including those in the Middle East, and global trade frictions remain elevated.

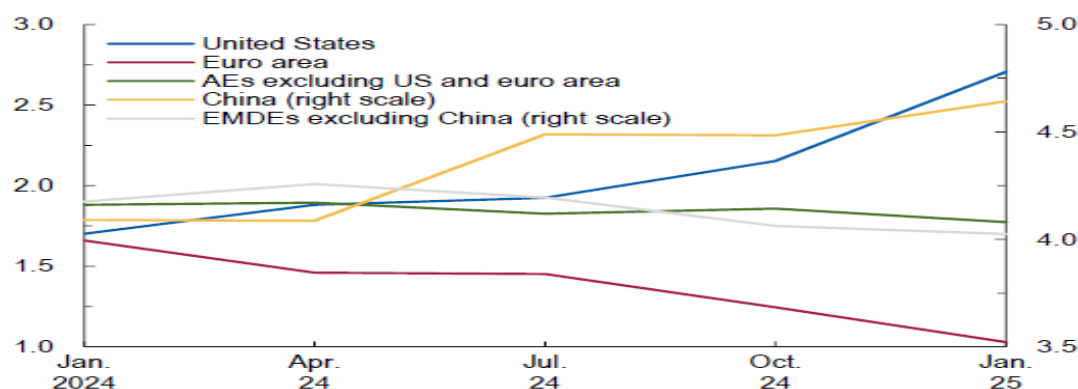

The Outlook

Energy commodity prices are expected to decline by 2.6 percent in 2025, more than assumed in October. This reflects a decline in oil prices driven by weak Chinese demand and strong supply from countries outside of OPEC+ (Organization of the Petroleum Exporting Countries plus selected non-member countries, including Russia), partly offset by increases in gas prices as a result of colder-than-expected weather and supply disruptions, including the ongoing conflict in the Middle East and outages in gas fields. Nonfuel commodity prices are expected to increase by 2.5 percent in 2025, on account of upward revisions to food and beverage prices relative to the October 2024 WEO, driven by bad weather affecting large producers. Monetary policy rates of major central banks are expected to continue to decline, though at different paces, reflecting variations in growth and inflation outlooks. The fiscal policy stance is expected to tighten during 2025–26 in advanced economies including the United States and, to a lesser extent, in emerging market and developing economies.

Global growth is expected to remain stable, albeit lackluster. At 3.3 percent in both 2025 and 2026, the forecasts for growth are below the historical (2000–19) average of 3.7 percent and broadly unchanged from October. The overall picture, however, hides divergent paths across economies and a precarious global growth profile (see the box below). Among advanced economies, growth forecast revisions go in different directions. In the United States, underlying demand remains robust, reflecting strong wealth effects, a less restrictive monetary policy stance, and supportive financial conditions. Growth is projected to be at 2.7 percent in 2025. This is 0.5 percentage point higher than the October forecast, in part reflecting carryover from 2024 as well as robust labor markets and accelerating investment, among other signs of strength. Growth is expected to taper to potential in 2026.

Figure 2. Evolution of 2025 Growth Forecasts (Percent)

Source: IMF staff calculations.

Note: The x-axis shows the months the *World Economic Outlook* is published. AEs = advanced economies; EMDEs = emerging market and developing economies.

In the euro area, growth is expected to pick up but at a more gradual pace than anticipated in October, with geopolitical tensions continuing to weigh on sentiment. Weaker-than-expected momentum at the end of 2024, especially in manufacturing, and heightened political and policy uncertainty explain a downward revision of 0.2 percentage point to 1.0 percent in 2025. In 2026, growth is set to rise to 1.4 percent, helped by stronger domestic demand, as financial conditions loosen, confidence improves, and uncertainty recedes somewhat.

In other advanced economies, two offsetting forces keep growth forecasts relatively stable. On the one hand, recovering real incomes are expected to support the cyclical recovery in consumption. On the other hand, trade headwinds—including the sharp uptick in trade policy uncertainty—are expected to keep investment subdued.

OVERVIEW OF THE INDIAN ECONOMY

India is poised to lead the global economy once again, with the International Monetary Fund (IMF) projecting it to remain the fastest growing major economy over the next two years. According to the April 2025 edition of the IMF's *World Economic Outlook*, India's economy is expected to grow by 6.2 percent in 2025 and 6.3 percent in 2026, maintaining a solid lead over global and regional peers.

The April 2025 edition of the WEO shows a downward revision in the 2025 forecast compared to the January 2025 update, reflecting the impact of heightened global trade tensions and growing uncertainty. Despite this slight moderation, the overall outlook remains strong. This consistency signals not only the strength of India's macroeconomic fundamentals but also its capacity to sustain momentum in a complex international environment. As the IMF reaffirms India's economic resilience, the country's role as a key driver of global growth continues to gain prominence.

(Source: India: Fastest-Growing Major Economy, Ministry of Finance, Posted On: 23 APR 2025 4:40PM by PIB Delhi)

The recent GDP growth figures of 5.4% year over year¹ for the second quarter of fiscal year 2024 to 2025 probably caught markets off guard (it was significantly below the Reserve Bank of India's projection of 6.8%). Slower growth in the first half of the fiscal (6%) led the RBI to bring down the annual projection to 6.6% (down from an earlier projection of 7%). However, it's essential not to let the headline numbers overshadow the nuanced story beneath: GDP is just one lens to evaluate economic health, and this quarter reveals resilience in certain pockets that are worth noting.

Rural consumption has remained robust, supported by strong agricultural performance, while the services sector continues to be a key driver of growth. Manufacturing exports, particularly in high-value-added components (such as electronics, semiconductors, and pharmaceuticals), have displayed strength, underscoring India's growing role in global value chains. We believe the slow growth in the secondary sector³ is temporary (due to disruptions caused by monsoons).

Deloitte has revised its annual GDP growth projection for India to between 6.5% and 6.8% in this fiscal year, and between 6.7% and 7.3% in the following one. A tempered global growth outlook and a delayed synchronized recovery in the industrial economies amid changing trade and policy regulations—compared to what was previously expected—will likely weigh on India's exports and outlook for the next fiscal year. India will have to adapt to the evolving global landscape and harness its domestic strengths to drive sustainable growth.

Decoding the slowdown in the second quarter

On the expenditure side, the slowdown in investments and exports were key factors weighing on the economy. Gross fixed capital formation (GFCF), a key driver of economic growth, slowed down to 5.4%. This was partly due to slower government capex utilization, which was at 37.3% in the first half of this year, lower than last year's 49%.

Geopolitical uncertainties and disruptions in global supply chains, particularly in the Red Sea region, continued to weigh on exports. Petroleum product exports experienced a consistent decline across all three months of the quarter, averaging an approximate 30% contraction. As a result, total export growth slowed to 2.8%. At the same time, imports were higher due to a rise in oil and gold imports.

On the production side, gross value added grew by 5.6% in the second quarter, down from 6.8% in the previous one, primarily due to poor performance in the secondary sector. The slowdown in the industrial sector was somewhat expected as the index of industrial production showed signs of slowing across multiple sectors, particularly in mining and electricity. Mining contracted by 0.1%, while electricity and other utilities grew by just 3.3% (a sharp decline from the previous quarter's 10.4%). The construction sector grew 7.7%—its lowest since the last quarter of fiscal 2021 to 2022. Growth in manufacturing was modest, at 2.2% (down from 7%).

We believe these sectoral declines are temporary due to monsoon-driven disruptions (8% above-normal rainfall)⁴ and restrictive spending during elections. What is concerning is we also suspect the possibility of higher dumping from neighboring countries. Imports of goods such as plastics, organic chemicals, iron and steel products, machinery, and electronic components have seen a sharp jump in recent months and pose a significant threat in the months ahead amid restrictive trade regulations in industrialized nations.

Amid this growth slowdown, there were a few emerging trends that pointed to inert resilience.

- **Robust rural consumption:** Agricultural growth hit a five-quarter high of 3.5%, aided by a strong monsoon season. Indicators like rising sales of fast-moving consumer goods and declining numbers of jobs demanded through the Mahatma Gandhi National Rural Employment Guarantee Act (more commonly, MGNREGA) confirm strength in rural demand. With healthy kharif⁵ harvests and improved rabi sowing, rural consumption is expected to remain strong, further boosted by festive season spending.⁶
- **Strong services sector growth:** Services grew by 7.2%, driven by public administration and defense (9.1%) and finance, insurance, and real estate (7.2%). Services exports surged 21.3%. Between April and October 2024, total services exports stood at US\$216 billion, compared to US\$192 billion in 2023. This growth is crucial given the

sector's significant contribution to India's GDP and employment, specifically for the urban middle-income population.

- **High-value manufacturing exports:** Exports of electronics, engineering goods, and chemicals have grown significantly, now comprising 31% of total merchandise exports. Given that micro, small, and medium enterprises are significant contributors to manufacturing supply chains and exports, rising performance of these enterprises points to healthy growth in this export segment.
- **Controlled fiscal deficit:** The fiscal deficit stood at 4.4% of GDP in the second quarter of this fiscal year, accounting for 29.4% of the budget estimate, and standing 10% lower than last year. This gives government some room to ramp up spending to boost demand. With lower capital expenditure in the first half of this fiscal year, the government is poised to ramp up spending in the coming half, supporting demand and crowding in private investments. A significant uptick in government spending is expected in the second half of this fiscal year to meet budgetary targets, which may provide additional support to the economy and boost investment by crowding in private investments.

India's near-term outlook

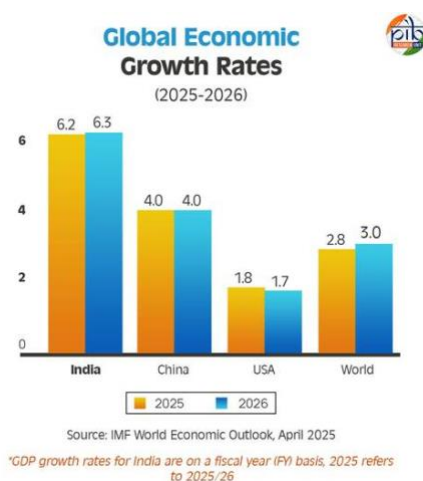

We now expect India to grow between 6.5% and 6.8% in fiscal year 2024 to 2025, in our baseline scenario. Although admittedly lower than previously estimated, because of a slower first half of the year, we expect strong domestic demand in the second half, driven by a significant uptick in government spending).

This will be followed by growth between 6.7% and 7.3% in fiscal year 2025 to 2026, with significant downside risks (hence a wider range; figure 1). India's growth projections in the subsequent year will likely be tied to broader global trends, including rising geopolitical uncertainties and a delayed synchronous recovery in the West than anticipated. Disruptions to global trade and supply chain due to intensifying geopolitical uncertainties will also affect demand for exports.

India's Growth in Global Context

India is projected to remain the fastest-growing large economy for 2025 and 2026, reaffirming its dominance in the global economic landscape. The country's economy is expected to expand by 6.2 per cent in 2025 and 6.3 per cent in 2026, outpacing many of its global counterparts. In contrast, the IMF projects global economic growth to be much lower, at 2.8 per cent in 2025 and 3.0 per cent in 2026, highlighting India's exceptional outperformance.

The IMF has also revised its growth estimates for other major global economies. China's GDP growth forecast for 2025 has been downgraded to 4.0 per cent, down from 4.6 per cent in the January 2025 edition of the World Economic Outlook. Similarly, the United States is expected to see a slowdown, with its growth revised downward by 90 basis points to 1.8 per cent. Despite these revisions, India's robust growth trajectory continues to set it apart on the global stage.

INDUSTRY OVERVIEW

Barite Mining Industry

Barite is a mineral ore that is naturally occurring and is barium-based. Barite has a high density and is chemically inert but is relatively soft. Barite is explored in various regions all over the world, in various colors and deposit types. Its chemical and physical properties have found its wide-ranging applications in various industries, which has led to a surge in demand for barite mining.

Based on the type of mine, the market is classified into open-pit and underground. The open-pit segment accounted for the major share of the market, and it is anticipated that it will maintain its attractiveness during the forecast period, as they provide greater recovery of the barite ore due to the increased maneuverability using heavy machinery. Open-pit mining is also a safer alternative to underground mining.

Based on the grade, the global market is classified into up to grade 3.9, grade 4.0, grade 4.1, grade 4.2, grade 4.3, above grade 4.3. The grade determines the purity of barite by measuring the specific gravity of the barite based on the concentration of barium sulfate present in the ore. Different grades have different applications. The grade 4.2 segment accounted for the major share in the market. Grade 4.2 barite has a specific gravity of 4.22 g/cm³ and is the most found grade in explorations and finds its use in fluid drilling applications. Based on the deposit type, the market is classified into residual, bedding, vein, and cavity filling. The bedding segment accounted for the major share of the market, and it is anticipated that it will maintain its attractiveness during the forecast period. It is the most widely used barite, used in oil well drilling, and is grey in color.

Due to the increased industrialization and urbanization, there has been a surge in energy consumption all over the world. This has given rise to increasing crude oil explorations and mining, which requires barite as a weighting agent in drilling processes. This increase in demand for barite is likely to drive the global barite mining market during the forecast period.

The key market restraint for the market is the rising awareness of the negative impacts of barite mining on the sulfate levels in the groundwater. The sulfates tend to act as laxatives in water and give it a bad taste and odor, which is affecting the growth of the market.

The global barite market size was estimated at USD 1,505.0 million in 2023 and is projected to reach USD 2,131.2 million by 2030, growing at a CAGR of 5.1% from 2024 to 2030. The rise in oil & gas exploration and drilling activities is anticipated to augment the demand for barite over the forecast period.

Key Market Trends & Insights

- In terms of region, North America was the largest revenue generating market in 2023.
- Country-wise, Venezuela is expected to register the highest CAGR from 2024 to 2030.
- Based on application, the oil & gas segment accounted for a revenue share of over 76.0% in 2023

Market Size & Forecast

- 2023 Market Size: USD 1,505.0 Million
- 2030 Projected Market Size: USD 2,131.2 Million
- CAGR (2024-2030): 5.1%
- North America: Largest market in 2023

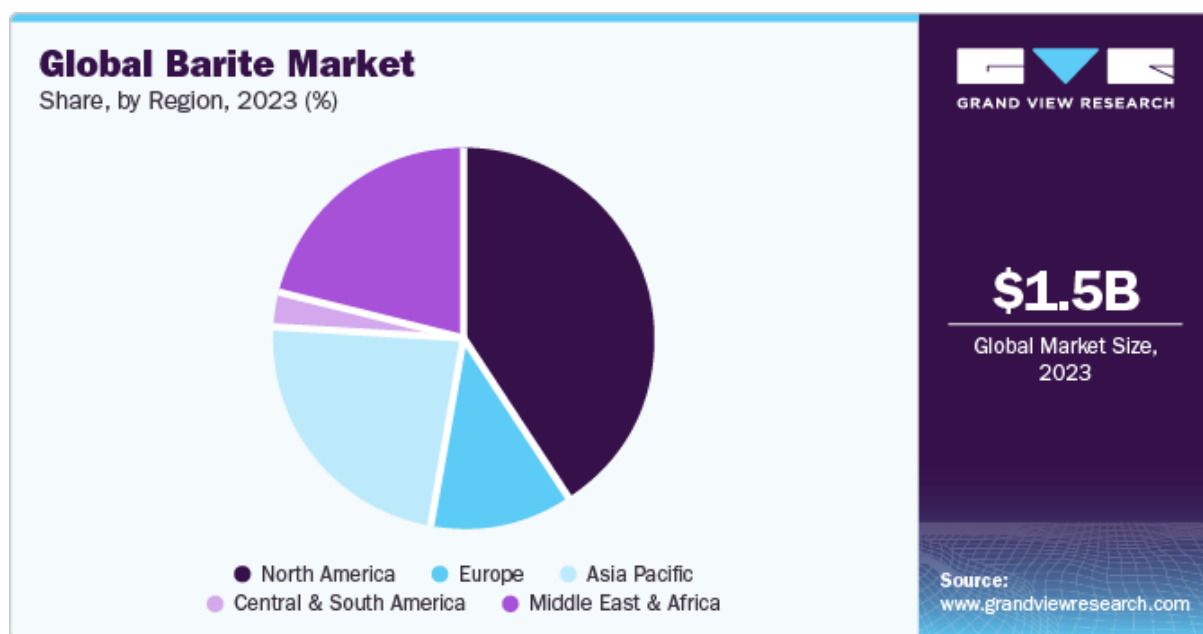

The surging global requirement for oil & gas owing to the expanding population, ongoing urbanization, and increasing energy demand, along with the rising number of infrastructure development projects, is anticipated to prove fruitful for the growth of the market in the coming years.

Regional Insights

North America dominated the market and accounted for a revenue share of over 40.0% in 2023. This is because barite is primarily used as a weighting agent in drilling fluids during oil & gas exploration and production. The demand for it is also driven by the expansion of the energy generation industry in North America. The growth of the oil & gas industry due to initiatives undertaken by their respective governments is anticipated to propel the demand for barite over the

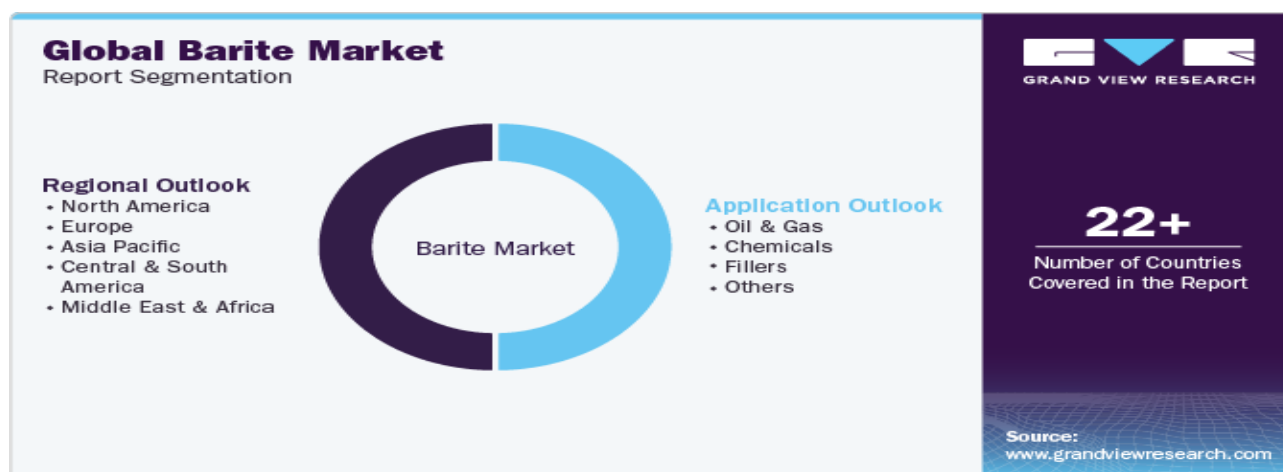

forecast period. For instance, in April 2022, the Government of Canada approved the offshore oil project proposed by Equinor ASA.

In January 2022, the National Hydrocarbons Commission (CNH) of Mexico authorized onshore & offshore plans of Pemex Exploracion y Produccion S.A. de C.V. (PEP) involving an investment worth USD 800.0 million. The Middle East and Africa are expected to register a CAGR of 4.3% over the forecast period. The Middle East is a major producer and exporter of crude oil & natural gas, which makes it a key consumer of barite. The increasing investments by countries of the region to increase their oil & gas production is expected to propel market growth. For instance, in January 2023, the discovery of a new gas field in the eastern Damanhur in Egypt's Nile Delta onshore was announced by Germany-based Wintershall Dea AG.

Global Barite Market Segmentation

This report forecasts revenue and volume growth and provides an analysis of the latest trends in each of the sub-segments from 2018 to 2030. For this report, Grand View Research has segmented the global barite market report based on application and region:

INDIA BARITE MARKET SIZE & TRENDS

The India barite market size was estimated at USD 38.5 million in 2023 and is projected to grow at a CAGR of 7.6% from 2024 to 2030. The increasing demand for oil and gas, expansion in the renewable energy sector, and increased usage in paints and coatings are driving the demand for barite in the market. Barite is a dense mineral composed of barium sulfate (BaSO₄) with a high specific gravity, making it valuable in various industrial applications.

Barite is essential in the oil and gas sector, operating as a vital component in drilling fluids to regulate pressure and avert blowouts while drilling. Its inclusion is vital for upholding wellbore stability, managing formation pressure, and transporting rock fragments to the surface during drilling activities, thus guaranteeing operational safety and efficacy.

Barite is used to produce lead-acid batteries with a wide range of applications, including in renewable energy systems such as wind turbines and solar power installations. Lead-acid batteries are known for their reliability, low cost, and ability to store large amounts of energy, making them a popular choice for energy storage in various renewable energy applications. Barite is commonly used as a component in the production of lead-acid batteries, where it serves as a filler material to enhance the battery's performance and durability.

As the world moves towards sustainable energy sources to reduce the impact of climate change and decrease reliance on fossil fuels, the demand for renewable energy technologies such as wind turbines and solar power systems is expected to grow significantly. This increasing focus on sustainable energy solutions is anticipated to drive the demand for lead-acid

batteries, boosting the need for barite as a key ingredient in these batteries. Barite's properties make it well-suited for use in lead-acid batteries, where it helps improve the battery's efficiency, longevity, and overall performance.

Market Concentration & Characteristics

Market concentration in the barite industry is high. The Indian barite industry is dominated by a few key producers who hold a significant share of the market. These major players have established themselves as key suppliers in the industry. Furthermore, the barite industry requires substantial investments in mining operations, processing facilities, and transportation infrastructure. The significant barrier to entry poses a challenge for new entrants seeking to penetrate the market and compete with established manufacturers.

The market growth stage is medium, and the pace is accelerating. The Indian market is characterized by a moderate degree of innovation. While the mineral itself has well-established uses in industries such as oil and gas drilling, paints and coatings, and construction, there is ongoing research and development aimed at exploring new applications and enhancing existing products. Innovations in processing techniques, quality control measures, and product formulations are improving the performance and versatility of barite in different end-use sectors, driving growth and expanding market opportunities.

The availability of substitutes and competitive pricing play a role in shaping the filler segment of the barite market. Ilmenite, synthetic hematite, iron ore, nano silica, and celestite are some popular alternatives for barite utilized in diverse industries. Celestite is seen as an effective replacement for barite in many sectors, particularly in oil and gas drilling, because of their comparable characteristics. Similarly, nano-silica particles can serve as a substitute for enhancing lubrication, enhancing drilling mud density, reducing pressure transmission, and decreasing permeability.

Application Insights

Based on application, the market is categorized as oil & gas, chemicals, fillers, and others. The oil & gas segment held the market with the largest revenue share of 69.7% in 2023, owing to the rising demand for energy and electricity. India is the third-largest oil consumer and the fourth-largest gas consumer in the world. According to the NITI Aayog, the total petroleum product consumption in 2023 increased to 223.02 million tonnes from 194.30 million tonnes in 2021, boosting the overall demand for barite.

The fillers segment is anticipated to grow at the fastest CAGR over the forecast period, owing to the growth in the construction industry, where barite is commonly used as a filler in products such as paints, coatings, and plastics. The construction sector's expansion, driven by infrastructure development projects, residential construction, and commercial building activities, creates a strong demand for high-quality fillers.

Recent Developments

In May 2022, the Andhra Pradesh Mineral Development Corporation (APMDC) signed a Memorandum of Understanding (MoU) with local firms in the U.S. to facilitate exports and expand its presence in the global barytes market. The

agreement aims to enable APMDc to export approximately 750 crore worth of barytes to the U.S. market, with plans to further increase this to an additional 250 crore by the end of the fiscal year. This strategic initiative signifies APMDc's inaugural foray into MoUs for barytes sales, strategically targeting the high demand for barytes minerals in the U.S.

Outlook & Opportunities

- Expansion into high-growth segments: adhesives, pharmaceuticals, radiation shielding, and possibly battery systems.
- Focus on high-grade (>4.2 sp. gr.) barite to meet oil & gas and export grade demand.
- Sustainability & recycling: growing interest in eco-friendly extraction and reuse to reduce environmental impact.
- Leveraging new exploration policies: private players can capitalize on reforms like the NCMM and mineral block auctions.
- Export potential: India already exports to markets such as the United States, Saudi Arabia, and UAE—and may boost exports through quality upgrades and diversification

INDIAN RICE BRAN OIL INDUSTRY

Introduction

In India rice is not just a crop, it's country's economy. India is the world's second largest producers of rice with approximately 43 million hectare planted area, accounting for 22% of the world's rice production, it is mostly grown in the eastern and southern parts of the country. Rice being member of tropical C3 plant it flourishes well in hot and humid climate. In India rice is mainly grown under rainfed situation where annual rainfall is ranges from 1000-2500 mm. Therefore, it is fundamentally grown as kharif crop in India however, it is also being cultivated in rabi and summer season based on the water availability. If we see the journey of rice around the world, it has been slow, but if it establishes its roots, crop stayed and became integral part of agriculture and economy of that locality. In the Indian subcontinent, more than a quarter of the cultivated land is under the rice crop. It makes essential part of the daily meal in the southern and eastern parts of India, whereas in the northern and central India, wheat is common food stuff, nevertheless, rice holds its own importance and is cooked daily at least once. Hence, demand for rice is increasing year after year. At present, rice is being grown in 43.79 million hectare and producing 117.47 million tons annually with the average productivity of 2578 kg/ha (GOI, 2020). Milling is a crucial step in post-production of rice. The basic objective of rice milling system is to remove the husk and the bran layers, and produce an edible, white rice kernel that is sufficiently free from impurities. Rice being the indispensable source of energy to the huge group of Indian population, upon it milling we also generate huge amount of rice bran. Based on the country's paddy production, rice bran output potential is about 9.8 million tonnes annually (Solvent Extractors' Association, 2019), However, at present India is processing only 5 million tonnes out of 9.8 million tonnes which is just half of its total potentiality and the rest is consumed directly as cattle feed. The rice bran oil production potential is over 1.62 million tonnes per annum in India as against untapped potential of nearly 6.5 tonnes (Solvent Extract Association, 2019). However, a study conducted by Zúñiga-Díaz et al., (2017) for quality profiling of rice bran oil indicated that, rice bran has 21.44% of raw oil, with a chemical composition of 48.48% oleic acid, 35.26% linoleic acid and 14.54% palmitic acid, as well as a free fatty acid content of 8.15%. On the other side if we see the scenario of vegetable oilseeds in India, Oilseed crops stands next to the cereals and plays a key role in deciding agricultural economy. The so called "Yellow Revolution" happened during 1986-87 brought self-sufficiency in oilseeds but was not sustained for a longer period of time. This could be due to huge gain in population followed by tremendous shift in the fat consumption pattern (Fig 1). At present, India need to produce about 25 million tonnes of edible oils to meet its domestic requirement at the current consumption level of 19.4 kg per.

At present, the global rice bran oil market size was valued at USD 4.04 billion and is expected to register a compound annual growth rate of 3.44% from 2019 to 2025 (Market Analysis Report, 2019). The annual production of rice bran oil market is tremendously increasing with about 50 thousand tons per annum, which could be due to growing interest on health and high cost of animal fat in developing and under developed countries. Therefore, this is the high time to focus ourselves in devising suitable strategies to explore this untapped reservoir of rice bran oil in India to reduce pressure on rainfed agro-ecosystems as oilseeds crops are imperative members of rainfed cropping systems. In this context, this paper review throws some light on present status and way forward to achieve self sufficiency in edible oil.

National Price Trends (Export–Focus)

- Export prices from India for rice bran oil increased from approximately \$1.13 to \$1.91 USD/kg in 2023, and further to \$1.33–\$2.12 USD/kg in 2024.
- In Q4 2024, average export prices reached around \$1,768 USD per metric ton, equivalent to about \$1.77/kg

Projected Market Growth

- India's rice bran oil market is forecast to expand from around 565 million liters in 2025 to 757 million liters by 2030, implying a compound annual growth rate (CAGR) of approximately 6.0% during 2025–2030
- According to IMARC Group, the global market was about 1.85 million tons in 2024 and is projected to reach 2.15 million tons by 2033—a CAGR of 1.7% during 2025–2033. India accounts for over 36.7% market share in 2024, making it a key driver of global growth

Demand Drivers in India

- Increasing health consciousness among urban consumers—especially the demand for oils with benefits like high oryzanol and vitamin E content—fuels interest in rice bran oil as a heart-friendly alternative.
- Edible oil demand in India is forecasted to reach ~29.8 million tonnes by 2030, up from ~27.7 million tonnes in 2021, underlining rising population and rising per-capita consumption (~19.7 kg/year).
- Higher rice production globally and in India ensures adequate supply of rice bran for processing into oil—a favorable condition for producers

Supply & Production Trends

- Companies are embracing advanced extraction technologies, including supercritical CO₂ and AI-optimized solvent/cold-press methods, to improve oil yields from ~75-80% to ~92-95% recovery rates.
- Major players like Marico (Saffola), Adani Wilmar (Fortune), Ricela Health Foods, Modi Naturals, BCL, King Rice Oil Group, and others are scaling operations, expanding product portfolios, and investing in direct-to-consumer health branding

Recent & Planned Investments

- Gemini Edibles & Fats India (GEF India) is investing ₹375 crore into a new 700-TPD greenfield edible oils refinery in Telangana, with a capacity split (300 TPD) dedicated to rice bran and palm oil, including cold-pressed variants. A second phase (₹75 crore) to commence by 2027 will support spices and RTE food lines.
- New entrants like Swasth Foodtech India launched their IPO in February 2025 to expand zero-waste packaging for rice bran oil products.

Sustainability & Regulation Push

- Sustainability is a growing theme: producers are adopting eco-friendly extraction, water-efficient farming, organic cultivation, and biodegradable packaging in response to consumer demand and regulatory trends
- Government programs, including the launch of fortified rice bran oil via NAFED and the National Edible Oil Mission, support increased domestic production and reduced import dependence.

Summary Forecast for Indian Industry

✓ 2025–2030 Outlook:

- **Production volumes:** Up by ~6% CAGR—leading to ~757 million L by 2030.
- **Demand:** Driven by health trends, urbanization, and dietary shifts.
- **Pricing:** Likely stabilized or moderate growth—largely due to improved extraction efficiencies and expanded supply.
- **Brands:** Premium, organic, and fortified variants gaining traction.

✓ 2030–2033 Outlook:

- Growth may slow to a **1.7% CAGR**, as per global forecasts, but India will remain the dominant producer-share (>36%) with rising penetration in export and premium retail segments

OVERVIEW

Our Company was incorporated under the Companies Act, 1956 as a private limited company under the name and style of ‘Sri Priyanka Agro Enterprises Private Limited’ pursuant to a certificate of incorporation dated April 30, 1990 issued by the Registrar of Companies, Tamil Nadu at Chennai. Subsequently, pursuant to resolutions passed by our Board of Directors in their meeting held on November 1, 2024 and by a Shareholders’ Resolution passed on November 15, 2024, the name of our Company was changed to ‘Sri Priyanka Geo Commex Private Limited’ and a fresh certificate of incorporation dated November 25, 2024 was issued by the Registrar of Companies, Central Processing Centre. Further, pursuant to resolutions passed by our Board of Directors in their meeting held on November 26, 2024 and Shareholder’s Resolution passed on November 27, 2024 our Company was converted into a public limited company, consequent to which its name was changed to ‘Sri Priyanka Geo Commex Limited’, and a fresh certificate of incorporation dated December 6, 2024, consequent to such conversion was issued by the Registrar of Companies, Central Processing Centre. The Corporate Identity Number of our Company is U10402TN1990PLC019110.

We are a commodity focused group engaged in supplying of minerals, and manufacturing of rice bran oil. With active operations across India, Morocco, and Singapore, our operating locations enable us to efficiently respond to regional market dynamics and evolving demand patterns.

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

The Company does not use any specialised, proprietary or custom-built software for its business operations. The nature of the Company’s business does not require deployment of any specialised information technology systems.

The Company primarily uses standard off-the-shelf accounting software and basic information technology tools for maintaining books of accounts, statutory compliances, record keeping and routine administrative functions. Such software is used under valid licenses and does not constitute a core operational dependency.

Further, the Company has implemented basic data protection and information security practices, including restricted access to systems, password-protected devices, periodic data backups and use of standard antivirus and firewall protections, commensurate with the size and scale of its operations.

In parallel, we operate across the rice bran oil value chain, encompassing the manufacture of crude rice bran oil, its refining, and the processing of associated residues and by-products. These include De-Oiled Rice Bran (DORB), Fatty Acids, Gums, Spent Earth, and Wax—each contributing to a diversified product suite that supports downstream industries and promotes circular resource utilization.

Our Product Portfolio

Rice Bran Oil: The production of crude and refined rice bran oil primarily involves two stages: extraction of crude oil from rice bran, followed by refining to achieve the desired purity and specifications. Our company manufactures rice bran oil across multiple grades and color profiles, tailored to meet the specific requirements of our customers.

Our Company has capacity of 60,000 MT per annum for Solvent Extraction Plant and 15,000 MT per annum oil refinery as on the date of this RHP. Our manufacturing facility, located in the state of Andhra Pradesh, is automated and constructed using Stainless Steel grade 304. It is equipped with machinery for efficient oil refining and by-product extraction, ensuring minimal physical intervention by the workforce, maintenance of quality standards and minimal-wastage. crude oil extraction, refining and by-product recovery. The operations are semi-automated, with minimal manual interventions.

We have a quality control and assurance division (“**Quality Division**”) in our manufacturing unit to ensure that our products are compliant with the specifications provided by regulatory bodies such as FSSAI.

We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form

Barite and Fluorspar: Our Barite and Fluorspar business comprises operations in India and Outside India. India business is conducted by our Company. Our international Barite and Fluorspar business is conducted through our subsidiaries, namely Geo Min Commodities Pte. Ltd (“**Geo Min**”) in Singapore and its step-down subsidiary in Morocco, Atlas Resources International (“**Atlas Resources**”). Geo Min operates as our global marketing and selling arm of minerals and the Morocco subsidiary operates as a procurement arm for minerals.

We supply Barite and Fluorspar to customers across the United States, Germany, Suriname, and Oman, serving key sectors such as the oil & gas and chemical industries. Our products meet stringent industry specifications and are tailored to support oil and gas drilling, refining, and industrial processing applications in these markets.

Our total Barite and Fluorspar sales in FY2025 was 35,672.26 tons and 15,163.22 tons respectively and for the nine months ended December 31, 2025 was 70,730.76 tons and 4,066 tons respectively.

Copper Cathode: Sale and marketing of our Copper Cathode business is undertaken by our subsidiary, Geo Min Commodities Pte. Ltd. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE.

We supply Grade A cathodes to customers in UAE and Singapore. Our cathodes meet London Metal Exchange (LME) approved specifications, ensuring consistent quality for industrial and commercial applications.

Our total Copper Cathode sale in FY2025 was 1,806.47 tons and for the nine months ended December 31, 2025 was 1,202.54 tons.

As a backward integration strategy to secure our supplies and support the increasing demand for Barite and Copper, we have secured mining permit for one Barite mine and one Copper mine, both in Morocco. The Company has been allocated a Barite mining permit bearing Permit No. 3739267 situated in the Ighoud Commune, Youssoufia Province, Marrakech-Safi Region, Kingdom of Morocco. Based on the geological assessment reports, the mining area is estimated to contain approximately 0.75 million MT of Barite ore with an average grade of 4.25. the Company expects to receive the mining licence by the end of June 2026 or mid-July 2026, following which commercial extraction and sale of barite from the mine is proposed to commence.

Others: Rice bran processing yields a range of by-products at various stages of production. The process begins with rice bran, which is used to manufacture crude rice bran oil. This yields De-Oiled Rice Bran as a primary by-product. Upon refining the crude oil, additional by-products are generated, including gums, wax, fatty acids, and residual spent earth—alongside the final output of refined rice bran oil. We produce high-purity rice bran fatty acids (99.5%).

The Company is engaged in trading of Copper Cathodes (LME Grade A, 99.99% purity), which are widely used in electrical, electronics, power, and construction industries. We source Copper Cathodes from reputed global suppliers, independent third-party quality certification, secured storage at bonded warehouses, logistics and customs clearance, and shipment to overseas buyers.

The Copper Cathode segment has become a key revenue driver, offering a scalable and consistent revenue stream, portfolio diversification, and strong international linkages.

OUR COMPETITIVE STRENGTHS

Diversified and de-risked business operations with large and growing total addressable market

Our Company operates across a diversified portfolio of commodities and geographies, with active business lines in Copper, Barite, Fluorspar, and Edible Oil. We maintain operational hubs in India, Morocco, and Singapore, and serve customers across 5 countries as of fiscal year 2025 and for the nine-month period ending December 2025, spanning Asia, the Middle East, Europe, Africa, South America, and North America.

This carefully curated commodity mix is part of a broader strategy to build sustainable, de-risked, and counter-cyclical cash flows—designed to withstand market volatility and capitalize on region-specific demand cycles. Our addressable markets are large, fast-growing, and resilient, offering long-term growth opportunities across industrial and consumer sectors. For the fiscal year 2025, Copper, Barite / Fluorspar, Rice Bran, and Edible Oil / By-Products and Others contributed 54.72%, 21.95%, 13.88%, and 9.45%, respectively, and for the nine-month period ending December 2025 was 44.39%, 29.18%, 12.14% and 14.29% to our consolidated revenue from operations, reflecting a balanced and strategically diversified business mix.

Our business is underpinned by years of operational expertise across each of the commodities we engage in. We have been active in the edible oil segment since 1996, and have been strategically diversified into global Barite, Fluorspar and Copper market since 2015.

Each of our core markets is experiencing strong growth for our products on account of:

- Global copper cathode demand driven by electrification and infrastructure
- Barite demand supported by oil & gas and industrial use

- Rice bran oil is experiencing favourable growth fuelled by rising health-focused consumption trends.

On a cumulative basis, our addressable market is poised for significant expansion, reinforcing the long-term relevance and scalability of our platform.

Operational hubs strategically located to optimize supply chain efficiency and market proximity

Our Barite operations are anchored in Morocco and India, both ranked among the world's top three Barite producers.

- In Morocco, we leverage both the Port of Casablanca and the Port of Agadir for bulk and container shipments, enabling cost-efficient access to key markets across Europe, Africa, the Americas, and the Middle East. Morocco's strategic location—at the crossroads of Europe and the Americas—makes it an ideal base for global trade. As the third-largest Barite producer globally, Morocco offers both resource depth and logistical advantage.
- In fiscal year 2025 and for the nine-month period ending December 2025, building on our expertise in Barite operations, our Company expanded into domestic Barite trading. Our operations are strategically located in Andhra Pradesh, home to both India's largest and the world's single largest Barite mine. The site is situated just 128 km from Krishnapatnam Port, offering efficient access to export infrastructure and reinforcing our ability to serve both domestic and international markets with speed and scale.

Our rice bran oil business is based in Andhra Pradesh—widely recognized as the “rice bowl” of India. As the world's largest rice producer, India offers a robust supply ecosystem, with Andhra Pradesh ranking as the fourth-largest rice-producing state nationally.

- We source rice bran—our primary raw material—from local rice mills across Andhra Pradesh as well as from other rice-producing regions and trusted traders. This ensures consistent and cost-effective access to high-quality inputs for our manufacturing unit.
- With proximity of major ports and well-developed road infrastructure, we benefit from efficient logistics and reduced procurement costs, strengthening our supply chain and operational efficiency.
- The abundant availability of rice bran, coupled with infrastructure, enables us to aggressively price our finished products, enhancing our competitiveness in India's rice bran oil market.

Our consolidated revenue from operations from various regions in India and Outside India in last three years is as follows:

Automated manufacturing unit with strong focus on quality across operations

Our automated manufacturing unit in Andhra Pradesh is built with Stainless Steel 304 and equipped with machinery for crude oil extraction, refining, and by-product recovery—ensuring minimal manual intervention. As of the date of this RHP, we operate with an installed capacity of 60,000 MT per annum for Solvent Extraction and 15,000 MT per annum for Oil Refining.

Continuous investment in automation and refining infrastructure enables us to maintain process efficiency and consistent product quality.

Our determination towards quality is demonstrated by well-defined quality and safety procedures at various stages of our manufacturing process from procurement of raw material to distribution of our products. Our manufacturing facilities have a fully equipped Quality Division with experienced and qualified staff to carry out quality checks and inspections at all the stages of our manufacturing process.

In our international mineral operations, we have outsourced the testing and quality certification of minerals such as Barite and Fluorspar to reputed, independent third-party laboratories namely Mitra S. K. Morocco SARL. These laboratories conduct essential quality checks including chemical composition, density, purity, and compliance with international 127 specifications. The certifications issued by these agencies help us meet the requirements of overseas buyers and facilitate smoother export processes. Outsourcing ensures impartial assessment and adherence to applicable quality standards.

Long term, strategic and optimized procurement for barite and fluorspar from miners in Morocco

Atlas Resources International, our Morocco subsidiary, procures Barite and Fluorspar from miners in Morocco under long term supply agreements. Atlas have entered into the following agreements for procurement of Barite and Fluorspar:

1. Agreement dated January 1, 2022, for purchase of Mixed Barite Fluorspar from a miner in Morocco, valid till December 30, 2028.
2. Agreement dated January 1, 2023, for purchase of Purchase of Drilling Grade Barite 4.20 density API Grade from a miner in Morocco, valid till December 30, 2027.

Atlas Resources International has executed 100% of its sale to our Company and Geo Min Commodities Pte. Ltd., being the wholly owned subsidiary of our Company and the holding company of Atlas Resources International.

Our long-term Barite supply contracts guarantee reliability for global customers, backed by deep industry ties and a proven track record.

As a backward integration strategy to secure our supplies and support the increasing demand for Barite and Copper, we have secured mining permit for one Barite mine and one Copper mine, both in Morocco. Geo Min Commodities Pte. Ltd., Singapore, procures all the material sourced by Atlas from Morocco and market the same in USA, Germany, Singapore, UAE, Oman and Suriname. In addition, we also strategically procure Copper Cathode from Chile, world's largest copper producing country. Geo Min acts as a selling and marketing arm for our global operations.

The strategy to procure through Atlas and market it through Geo Min is designed to take advantage of different tax rate in Morocco and Singapore and to keep the details of ultimate buyer in Singapore entity only. This strategy enabled us to actively engage in Barite and Fluorspar procurement and selling globally and strengthen our global presence in Singapore and Morocco.

Our barite and copper business is operating at scale and serves broad base of customers in multiple geographies. We sell barite products to oil & gas, paint and pharma industry. We have customers in Germany, Oman, UAE, Singapore, China, and Suriname. We serve Grade A copper cathode, barite lumps, barite mixed fluorspar to our broad base of customers.

We supply Barite in bulk as well as in containers and makes us a preferred choice amongst customers with varying levels of demand.

Based on our long-term relationship with our customers, Geo Min Commodities Pte. Ltd., Singapore, our subsidiary, have entered into long term supply order for Moroccan Crude Barite with a mineral-based additive solutions provider based out of USA, which is valid upto January 2026 for 90,000 MT with load port Laycan every quarter; for Moroccan Barite mixed Fluorspar with a German company, which is valid upto July 2026 for 40,000 MT with load port Laycan every quarter; and for Moroccan Industrial barite with a German company, which is valid upto July 2026 for 8,000 MT with load port Laycan every quarter.

Such long-term supply agreements with customers have been possible because of our presence of over a decade in Morocco and our strong relationship with key players in Morocco's Barite mining industry.

Additionally, we are closely observing the global end-use of Barite and Barite based products. For instance, Barite adoption in construction and defence related applications is on the rise due to its ability to block radioactive elements in the atmosphere. *Source: <https://www.researchdive.com/>*

Geo Min Commodities Pte. Ltd., Singapore, procures all the material sourced by Atlas from Morocco and market the same in USA, Germany, Singapore, UAE, Oman and Suriname. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE. Geo Min acts as a selling and marketing arm for our global operations.

The company has a well-diversified client base based for its products and their end use. The Company operates across multiple product segments, namely Barite, Fluorspar, Copper Cathodes, Rice Bran Crude Oil, Rice Bran Refined Oil, and other products, and caters to a different set of customers across these product categories including oil & gas, paint, and edible oil industry.

OUR BUSINESS STRATEGIES

Our Company, along with its subsidiaries, is focused on expanding its footprint in international and domestic markets through strategic initiatives aimed at revenue growth, market diversification and long-term sustainability. The following achievable strategies form the core of our business expansion plan:

Integration of business operations across product value chain for barite, copper and rice bran oil business

Our company has plans to embark on backward and forward integration of Barite and Copper operations. We have already received mining permits for one Barite mine and one Copper mine both in Morocco. Hence, mining led backward integration will result in secured supplies at low mining cost and de-risk our business from price shocks.

Specifically, for drilling-grade barite—principally serving the Oil & Gas sector—we will forward-integrate by installing our own grinding mills. This end-to-end model, combining mining and milling, lets us deliver product directly from our mines to oil rigs. For industrial-grade barite, we’ll set up milling, beneficiation, and leaching plants to achieve barite sulphate purities of 96–97%, reliably meeting stringent industrial specifications.

We have also secured mining permits for a Copper mine in Morocco. The planned mining operations, supported by an on-site flotation unit, will enable copper cathode production via third-party smelters. This initiative is expected to drive growth and enhance margins in our copper cathode business.

For the rice bran oil business, we plan to sell a portion of our refined oil under our own brand name. This will result in creation of a direct-to-consumer brand in the rice bran oil segment.

Our management is deeply focused on charting the right strategic path for our multiple businesses.

Expansion into New International Markets

Our overseas subsidiaries, engaged in the procurement and marketing of minerals such as Barite, Fluorspar and Copper Cathode, presently mainly operating in US, Germany, Singapore, UAE, Oman and Suriname. They are actively exploring new opportunities in Europe and the United States. These regions present significant demand from industries including oil & gas, chemicals, and metallurgy. We intend to strengthen our presence in these geographies through:

- Establishing long-term supply contracts with industrial consumers and intermediaries.
- Participating in global trade exhibitions and B2B platforms to enhance visibility and buyer engagement.

Additionally, we are closely observing the global end-use of Barite and Barite based products. For instance, Barite adoption in construction and defence related applications is on the rise due to its ability to block radioactive elements in the atmosphere.

These initiatives will drive our future growth and financial performance.

Enhancing Domestic Market Reach in Agri-Oil Segment

The holding company is engaged in the sale of Rice Bran Crude Oil, Refined Oil, and De-Oiled Rice Bran in the domestic market. To consolidate and expand our market position in this segment, we plan to:

- Expand our marketing and sale network with new tie-ups with branded oil manufacturers and feed manufacturers
- Explore value-added product variants aligned with evolving demand for healthy edible oils and animal feed inputs
- Increase sales of refined oil direct-to-consumer under own brand name

Strengthening Global Supply Chain Infrastructure

To support our mineral operations, we aim to enhance logistical efficiency through:

- Strengthened sourcing partnerships in Morocco and India.
- Investment in warehousing and port-based logistics support via our Singapore and Morocco subsidiaries.

Further in FY2025, considering our expertise in Barite operation through our subsidiaries, our Company started trading in Barite in India as well. We are eligible to procure Barite from Andhra Pradesh Mineral Development Corporation (APMDC). APMDC owns the only Barite mine in India, and our presence in Andhra Pradesh provides us an edge in procuring the Barite from APMDC and exporting the same to middle-east countries. We intend to make new tie-ups in middle east countries for supply of Barite. Middle-East being the largest oil and gas reserve holder, provide us immense opportunity for supply of raw and finish Barite to oil and gas exploration companies.

The Company is eligibility to participate in Andhra Pradesh Mineral Development Corporation (APMDC) tenders in India, where prior experience in such transactions is a mandatory requirement.

The Company is now eligible to participate in APMDC tenders. The tenders are open for participation for other participants also. Thus, the tender may or may not be awarded to the Company.

We continuously develop dynamic, proactive strategies that account for both macroeconomic trends and micro-market conditions—whether in our current operations or potential new markets. Our Company shall always strive to:

- Achieve maximum operational efficiency;
- Strengthen and expand our market position and product portfolio;
- Enhance our depth of experience, knowledge-base and know-how; and
- Increase our network of distributors, customers and geographical reach.

DETAILS OF OUR BUSINESS

OUR PRODUCTS

Of our Company

We manufacture and sell rice bran crude oil and refined oil. Our rice bran value chain includes:

- Rice Bran Refined Oil
- Rice Bran Oil (Crude)
- De-Oiled Rice Bran
- By-products

We source barite locally and export it to key markets across the Middle East.

Of our subsidiaries

Through our subsidiaries—Geo Min Commodities Pte. Ltd., Singapore, and Atlas Resources International, Morocco—we are actively engaged in the marketing and sale of Barite, Fluorspar, and Copper Cathode across global markets. Our diversified product portfolio includes:

- Barite
- Fluorspar
- Copper Cathode

Description of our Products and its Usages:

Name of product	Usages	Description
Refined Rice Bran Oil	<ul style="list-style-type: none"> - Cooking (ideal for frying, sautéing, grilling, baking) - Health-focused culinary uses - Salads, dressings, stir-fries 	A heart-healthy oil extracted from the bran of rice. Known for its high smoke point (450°F/232°C), balanced flavor, and nutritional profile, it's widely used in both home and professional kitchens.
Rice Bran Fatty Acid	<ul style="list-style-type: none"> - Plastics: enhances flexibility and durability - Rubber: improves elasticity and resilience 	A byproduct of rice bran oil refining, with 99.50% purity. Used as a high-performance raw material in plastics and rubber manufacturing, offering strength and long-term performance.
Rice Bran Wax	<ul style="list-style-type: none"> - Cosmetics (lipsticks) - Shoe polish - Candle manufacturing 	A natural, eco-friendly byproduct of rice bran oil refining. Known for smooth texture and clean burn, it is used in cosmetics, footwear care, and candles as a sustainable alternative to paraffin.
De-Oiled Rice Bran	<ul style="list-style-type: none"> - Animal & poultry feed - Aquaculture - Government and private feed supply 	A nutrient-rich byproduct of oil extraction, DORB boosts digestibility and nutritional value in livestock and fish feed. Essential for feed manufacturers across sectors.
Barite	<ul style="list-style-type: none"> - Oil & gas (drilling muds) - Paints, plastics - Medical imaging (barium meal) - Construction 	A heavy, non-metallic mineral (BaSO ₄) known for its high specific gravity. Widely used as a weighting agent in drilling fluids and in various industrial applications. Also used in paints, plastics, radiation shielding, and medical imaging (as barium meal)
Fluorspar	<ul style="list-style-type: none"> - Steelmaking (flux) - Aluminum extraction - Chemical industry (hydrofluoric acid) - EV batteries (fluoropolymers) 	Fluorine-rich mineral essential in multiple industries. Sourced from China, Mexico, and South Africa. Crucial for hydrofluoric acid production and components in EV technology.

Copper Cathode	<ul style="list-style-type: none"> - Electrical & power transmission - Electronics - Construction and infrastructure - Metallurgical processing (copper rods, tubes, sheets and alloys) 	Copper cathode is a high-purity form of copper (typically 99.99%), produced through smelting and electrorefining. It serves as a foundational material across multiple industries due to its exceptional conductivity, malleability, and corrosion resistance.
Others – Bauxite, Gypsum & Limestone	<ul style="list-style-type: none"> - Oil & gas (drying agent, catalyst) - Aluminum production - Customized industrial applications - White cement - Plaster of Paris - Agriculture - Construction - Cement - Steel industry - Agriculture - Water treatment 	<p>Primary ore of aluminum, composed of hydrated aluminum oxides. Offered in lump (150mm) and fine powder (up to 400 mesh) formats. Formed in tropical lateritic soils and tailored to meet industrial needs.</p> <p>High-grade natural gypsum sourced from Oman, Fujairah, and other Middle Eastern regions. Known for consistent quality and used across large-scale cement and construction operations.</p> <p>Limestone is a versatile Sedimentary rock composed mainly of calcium carbonate. A fundamental raw material sourced from trusted mines in UAE and Oman. Supplied for diverse industrial applications with assured quality.</p>

OUR CUSTOMERS

While our business model is predominantly B2B. A portion of sales of De-oiled Rice Bran include B2C customers.

For our rice bran operations, our Company supplies rice bran oil to reputed manufacturers and packers in tankers. We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form. We plan to start supply the refined oil to branded players in refined rice bran oil segment to improve our capacity utilisation.

For our global mineral operations, Geo Min Commodities Pte. Ltd., Singapore, our wholly-owned subsidiary, serves as the selling and marketing arm. As part of our long-term supply strategy, Geo Min has entered into the following contractual arrangements for the export of Moroccan-origin minerals:

- A long-term supply order for Moroccan Crude Barite with a reputed mineral-based additive solutions provider based in the USA, valid until January 2026, covering 90,000 MT, with quarterly load port Laycan.
- A supply agreement for Moroccan Barite mixed with Fluorspar with a reputed company based in Germany, valid until July 2026, covering 40,000 MT, with quarterly load port Laycan.
- A supply agreement for Moroccan Industrial Barite with another reputed German-based company, valid until July 2026, covering 8,000 MT, with quarterly load port Laycan.

RAW MATERIAL PROCUREMENT

We procure rice bran and crude oil from local rice mills and solvent plants and also purchase from local traders. The details of the raw materials procured by us are provided below:

Material		Procured from
1	Rice Bran	Rice bran is procured from various rice mills located in Andhra Pradesh and Tamil Nadu. The major suppliers include Sri Venkatadri Parboiled Rice Mill and Sri Srinivasa Raw & Boiled Rice Mill.
2	Rice Bran Oil	Rice bran oil is procured from solvent extraction units located in Andhra Pradesh and Tamil Nadu. The major suppliers include Aswini Agro Tech Private Limited and Sai Lakshmi Venkateswara Solvent Extractions.
3	Chemicals - Enzymes, Bleaching Earth, Citric Acid, Caustic Soda, Phosphoric Acid	Directly from the local manufacturers and traders across India

Atlas Resources International, Morocco, procures Barite and Fluorspar from miners in Morocco. Atlas has entered into the following agreements for procurement of Barite and Fluorspar:

Material		Procured from
1	Mixed Barite Fluorspar	Supply Agreement dated January 1, 2022, for purchase of Mixed Barite Fluorspar from a miner in Morocco, valid till December 30, 2028
2	Drilling Grade Barite	Supply Agreement dated January 1, 2023, for purchase of Purchase of Drilling Grade Barite 4.20 density API Grade from from a miner in Morocco, valid till December 30, 2027.

Additionally, the supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE.

MANUFACTURING OF RICE BRAN OIL

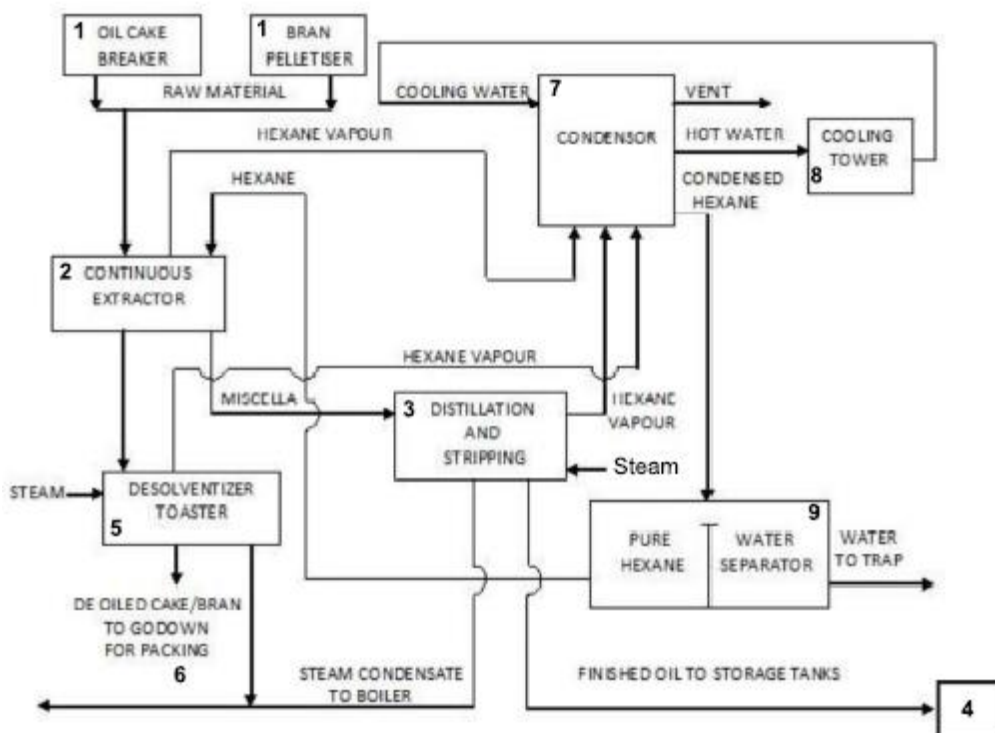

As of the date of this RHP, our company has manufacturing facility in Nellore, Andhra Pradesh. The plant comprises of :

- Solvent Extraction unit with an installed capacity of 60,000 MT per annum
- Physical refining unit with an installed capacity of 15,000 MT per annum

Our manufacturing facility, located in the state of Andhra Pradesh, is equipped with state-of-the-art machinery for crude oil extraction, refining and by-product recovery. The operations are semi-automated, with minimal manual interventions.

A. Solvent Extraction Process – Crude Rice Bran Oil

Flow Diagram of Solvent Extraction Process

The solvent extraction process is used to extract crude rice bran oil from rice bran or oil cake. Due to the powdery form of rice bran, it is first pelletized to facilitate effective solvent percolation.

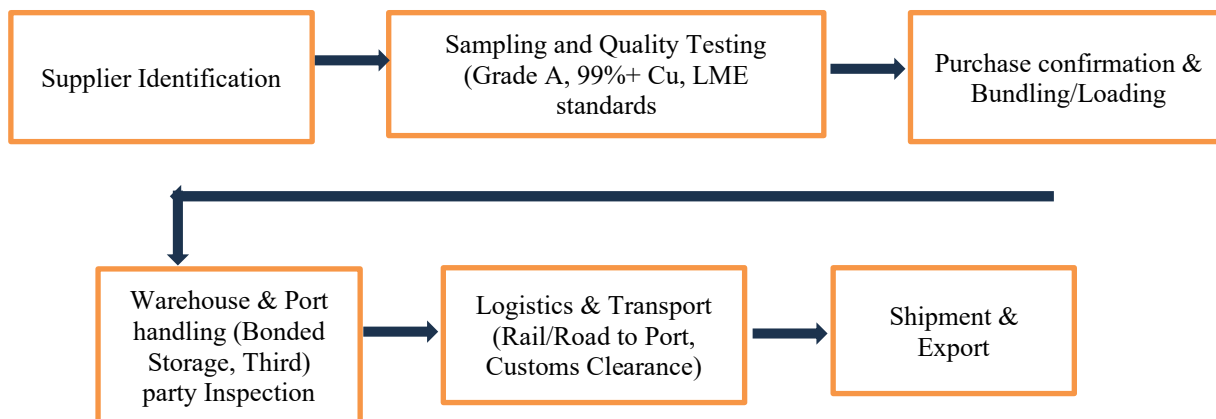

Step-by-Step Process

No.	Process	Description
1	Raw Material Preparatory	Rice bran is pelletized to enhance solvent contact and to facilitate easy percolation of hexane. Oil cake, being flaky, is broken into smaller pieces and does not require further preparation. Item No. 1 in Flow Diagram
2	Continuous Extractors	The raw material suitably prepared in preparatory section is fed to a horizontal continuous extractor by a redler chain conveyor. Raw material is washed with food grade hexane by spraying hexane through sprayers. Hexane percolates through the bed of raw material and dissolves the oil content and forms miscella (hexane + oil). The miscella is collected in hoppers at the bottom of extractor. Item No. 2 in Flow Diagram.
3	Distillation & stripping	The miscella is heated under vacuum by using steam to separate hexane (boiling point: 59°C) from the oil. Hexane evaporates at a temperature of 59° and hexane vapours so formed are condensed in condensers. Item No. 3 in Flow Diagram.
4	Finished Oil to Storage Tanks	The separated crude rice bran oil, free from traces of hexane, is pumped to oil storage tanks for further processing. Item No. 4 in Flow Diagram
5	Desolventizer Toaster	The de-oiled rice bran or oil cake is heated to approximately 105°C in a desolventizer toaster to remove residual hexane vapors. Hexane vapours are condensed and recovered in condenser. Item No. 5 in Flow Diagram
6	Packing	The final de-oiled material is humidified and packed in gunny bags. Item No. 6 in Flow Diagram.
7	Condensers	Hexane vapours coming out of distillation, stripping unit and de-solventizer toaster are condensed in condensers. Item No. 7 in Flow Diagram
8	Cooling Tower	Hot water coming out of condensers are cooled in cooling towers and pumped back to condensers for condensing hexane vapours. This water is recycled. Item No. 8 in Flow Diagram.

No.	Process	Description
9	Hexane and Water separation	Hexane coming out of condensers contain a small quantity of water also. The mixture of water and hexane are taken into water separator where water and hexane are separated by gravity. Hexane so separated is reused for extraction of oil (Item No. 9 in Flow Diagram).

MINERAL SOURCING AND EXPORT OPERATIONS

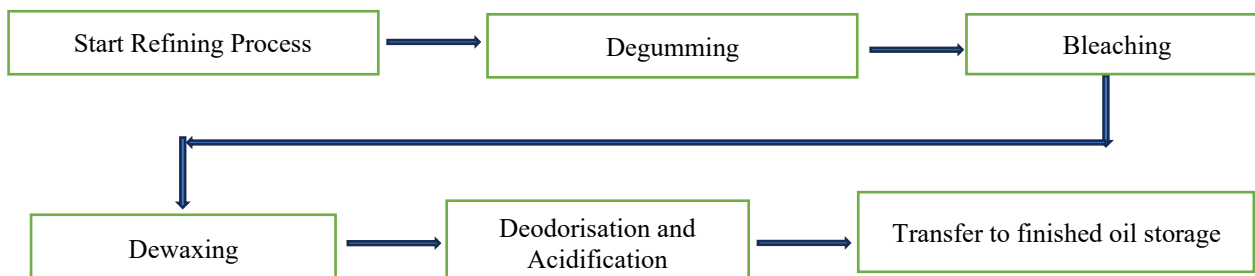

Copper Cathode Procurement Flow

Sr. No.	Process	Description
1	Supplier Identification	Copper Cathodes are sourced from reputed global producers and suppliers with established track records.
2	Sampling & Quality Testing	All consignments undergo rigorous sampling and certification to ensure adherence to LME Grade A standards. Independent third-party inspection agencies validate purity and specifications.
3	Purchase Confirmation & Loading	After confirmation of quality and commercial terms, secured bundling and containerised loading is carried out at supplier premises.
4	Warehouse & Port Handling	The cathodes are moved to bonded warehouses at ports under third-party supervision until shipment.
5	Logistics & Transport	Material is transported by road/rail to port; customs documentation and clearances are completed by authorised agents.
6	Shipment & Export	Shipment to overseas buyers is executed with all regulatory and contractual compliances under agreed Incoterms.

B. Physical Refining Process – Rice Bran Oil

Flow Diagram of Refining Process

The Company undertakes physical refining of crude rice bran oil to produce refined, edible rice bran oil.

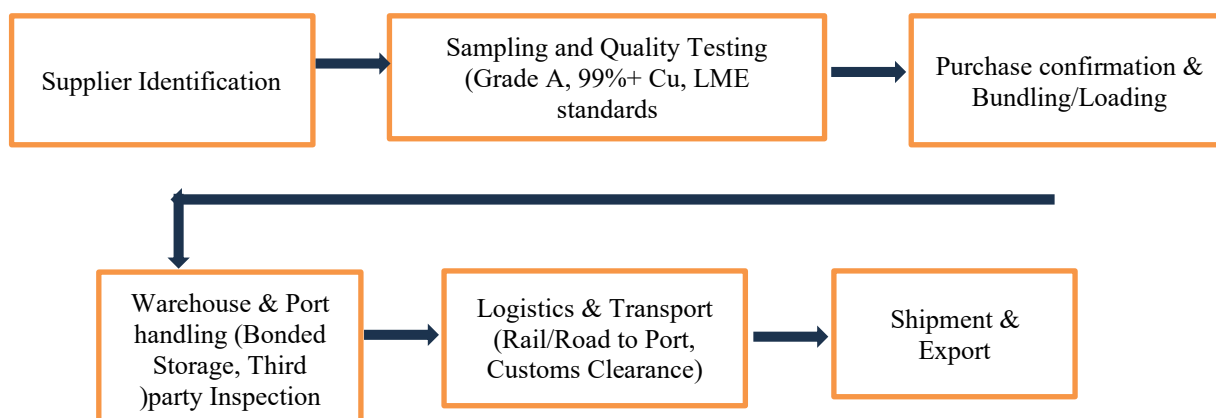

The refining of crude rice bran oil avoids caustic neutralization and retains higher nutrient value. The process consists of the following stages:

Step-by-Step Process

No.	Process	Description
1.	Degumming	Crude rice bran oil (RBO) contains up to 3% acid-soluble gums. The oil is heated, mixed with phosphoric acid, and homogenized. The mixture is passed through a centrifugal separator to remove gums, which have commercial value in the soap industry. Degumming improves colour, clarity, and downstream processing efficiency.
2.	Bleaching	Degummed oil is dried to remove moisture, then mixed with bleaching earth to absorb pigments and impurities. The mixture is filtered using pressure leaf filters, producing light-coloured bleached oil ready for further processing.
3.	Dewaxing	To remove up to 3% wax content, the oil is chilled to ~10°C, crystallizing the waxes, which are then separated through filtration. Dewaxed oil proceeds to refining; recovered waxes have uses in cosmetics and polishes.
4.	Deodorisation & Deacidification	Using physical refining, the oil is heated under very high vacuum in a refining tower, causing free fatty acids (FFAs) and odorous compounds to evaporate. Vapors are condensed, and recovered FFAs are sold commercially. The resulting oil is neutral, odorless, cooled, and transferred to finished storage tanks.

QUALITY CONTROL PROCESS

Our Company has a fully equipped laboratory that ensures comprehensive quality analysis of oils and de-oiled bran, adhering to industry standards and regulatory requirements.

The Quality Control laboratory is equipped with specialised instruments for precise testing and measurement.

Testing Capabilities

Oil Analysis Capabilities:

- **Free Fatty Acid (FFA):** Determines acid content to assess oil quality
- **Iodine Value (IV):** Evaluates contamination in oil
- **Peroxide Value (PV):** Monitors rancidity via oxidation products
- **Unsaponifiable Matter (USM):** Ensures purity by estimating non-fatty substances
- **Cloud Point:** Identifies temperature at which waxes precipitate
- **Wax and Gum Content:** Quantifies impurities affecting refinement and clarity

De-Oiled Bran Analysis Capabilities:

- **Protein Content:** Determines nutritional value
- **Fibre Content:** Supports feed-grade classification
- **Sand Silica Content:** Evaluates foreign matter to classify feed-grade

All tests are carried out using calibrated equipment such as Lovibond Tintometers, electronic balances, Soxhlet extractor apparatus, muffle furnaces, and flash point testing devices. Our processes follow standardised test methods to ensure accurate, reproducible results.

In our international mineral operations, Atlas Resources International, Morocco, follows a multi-stage quality assurance process for minerals such as Barite and Fluorspar. Initial testing is conducted in-house to verify basic quality parameters. This is followed by independent third-party testing and certification by reputed laboratories, namely Mitra S.K. Morocco SARL, covering chemical composition, density, purity, and compliance with international specifications. Additionally, at the time of shipment, a final quality check is undertaken to reconfirm compliance. Geo Min Commodities Pte. Ltd., Singapore, sources minerals directly from Atlas and relies on these certifications, without undertaking separate testing, ensuring a seamless and efficient supply chain while maintaining adherence to global quality standards.

CAPACITY INSTALLED AND CAPACITY UTILISATION

The following tables set details of the installed and utilized capacity of our manufacturing unit for the last three years.

Solvent Extraction Plant (Crude Rice Bran Oil)

Fiscal Year	Installed Capacity (In Metric Tonnes Per Annum (MTPA))	Utilized Capacity (In Metric Tonnes Per Annum (MTPA))	Percentage of utilization (%)
2025-26 (for nine months)	45,000	9,812.725	21.81%
2024-25	60,000	11,872.97	19.79%
2023-24	60,000	14,104.40	23.51%
2022-23	60,000	19,509.61	32.52%

Physical Refinery (Refined Rice Bran Oil)

Fiscal Year	Installed Capacity (In Metric Tonnes Per Annum (MTPA))	Utilized Capacity (In Metric Tonnes Per Annum (MTPA))	Percentage of utilization (%)
2025-26 (for nine months)	11,250	Nil*	Nil
2024-25	15,000	494.47	3.30%
2023-24	15,000	3,371.989	22.48%
2022-23	15,000	3698.82	24.66%

The refinery operated at nil capacity utilization during the period ended Dec 31, 2025, due to non-availability of adequate crude rice bran oil. The production from our solvent extraction plant alone was not sufficient and refining small quantities was not commercially feasible, thus the same is not operated.

ENVIRONMENT, HEALTH AND SAFETY MEASURES

Pollution Control and Safety Measures

Our factory is committed to maintaining environmental sustainability and workplace safety. The following pollution control systems and safety measures are currently implemented at our facility:

Category	Measure	Details / Infrastructure
Pollution Control	Effluent Treatment Plant (ETP)	Fully operational; treatment capacity up to 60,000 litres/day.
	Boiler Emission Control	Mechanical Dust Collector and Water Pre-Heater with 100-foot chimney to reduce Suspended Particulate Matter (SPM) emissions from the Boiler.
	Thermic Fluid Heater Emission Control	Mechanical Dust Collector and Air Pre-Heater with 100-foot chimney to minimize SPM emissions from the thermic fluid heater.
	Green Belt Development	Plantation around premises for air purification and ecological balance.
Workplace Safety	Fire Safety	Adequate fire extinguishers at key locations and exits.
	Mechanical Safety	Protective iron mesh guards on all V-belt drives and motor couplings.
	Boiler Section PPE	Asbestos aprons, asbestos gloves, safety goggles, and protective footwear for boiler section workers.
	General Employee Safety	Role-specific personal protective equipment (PPE) for all employees.

We further confirm and undertake that the Company shall comply with the provisions of the Section 135 of the Companies Act, 2013 as and when the same become applicable to the Company based on financials of FY2026.

HUMAN RESOURCE

Our manpower is a prudent mix of the experienced and young people which gives us the dual advantage of stability and growth while ensuring quality and efficiency.

Geo Min Commodities Pte. Ltd. has no employee and its operations are controlled by the directors of Geo Min Commodities Pte. Ltd. In Singapore, it has a virtual office at 17 Phillip Street #05-01 Grand Building Singapore 048695, and operates through its appointed representative who is not an employee of the Company.

In addition to the above, during fiscal year 2025, Sri Priyanka Geo Commex Limited engaged 24 contractual employees at its Nellore manufacturing facility, while Geo Min Commodities Pte. Ltd. engaged 1 consultant for operational support in Singapore.

COMPETITION

Our Company operates in a competitive environment across both its business segments. In the rice bran oil segment, we face competition from large integrated players as well as small and medium-scale rice bran oil manufacturers, many of whom have established market presence and distribution networks.

In the mineral procurement and export segment, our operations face competition in the international markets, particularly from other exporters based in Morocco.

SELLING AND MARKETING STRATEGY

Our Company follows a focused and market-driven sales and marketing strategy tailored to the unique needs of both our domestic and international business segments. We operate in two primary verticals: (i) the sale of Rice Bran Crude Oil, Refined Oil, and De-Oiled Rice Bran in the Indian market, and (ii) the international of Barite, Fluorspar and Copper Cathode through our subsidiaries based in Singapore and Morocco.

- ***Domestic Sales and Marketing – Rice Bran crude and oil, and de-oiled rice bran***

Our domestic operations primarily cater to the edible oil and animal feed industries across various regions in India. Our products, including Rice Bran Crude Oil, Refined Rice Bran Oil, and De-Oiled Rice Bran (DORB), are marketed under a business-to-business (B2B) model. Key elements of our domestic sales strategy include:

- **Direct Sales to Institutional Buyers:** We maintain strong relationships with leading solvent extraction plants and feed manufacturers, ensuring recurring bulk orders.
- **International Sales and Marketing – Mineral procurement and selling**

Through our subsidiaries in Singapore and Morocco, we are engaged in the global trade of industrial minerals such as Barite, Fluorspar which are widely used in the oil & gas, paint, chemical, and metallurgical industries. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE. Our international sales and marketing strategy includes:

- **Global Sourcing and Supply Model:** We source minerals from resource-rich geographies and cater to buyers in Germany, the United States, Middle East and South America.
- **Participation in Trade Fairs and Exhibitions:** Our team regularly engages in international industry events to build visibility, generate leads, and identify new customers.

- **Long-Term Contracts and Bulk Sales:** We aim to secure long-term supply agreements with large industrial buyers, thereby ensuring stable revenue and operational scale.

Company's customer acquisition process

1. **Market Identification & Outreach:** We identify potential customers through industry databases, trade fairs, exhibitions, referrals, and direct business inquiries. Our business development team engages with prospective clients by presenting our product portfolio, technical specifications, and pricing advantages.
2. **Evaluation & Technical Approval:** Customers typically conduct their due diligence, which includes product sampling, testing, and quality approvals. Our products are benchmarked against required industry standards, and technical teams coordinate with customers to ensure compliance with their quality requirements.
3. **Commercial Negotiations:** Upon satisfactory evaluation, we engage in negotiations relating to product pricing, delivery schedules, credit terms, and other contractual obligations.
4. **Onboarding & Trial Orders:** After execution of agreements or purchase orders, customers usually commence with trial orders. Based on performance and satisfaction, this progresses into regular business transactions.
5. **Relationship Management & Retention:** Our Company maintains dedicated key account managers for continuous support, after-sales service, and ensuring timely resolution of queries. We regularly interact with customers to understand their evolving requirements and align our supply accordingly.

This structured approach has helped us establish and retain reputed clients, ensure repeat business, and expand our market presence.

UTILITIES

Power

The electricity for our manufacturing unit is sourced from Andhra Pradesh State Electricity Board. Adequate power is available for office from Andhra Pradesh State Electricity Board.

Water

Adequate arrangements with respect to water requirements is available at the registered office and manufacturing unit of our Company which are sourced from ground water.

IT infrastructure

The Company does not use any specialised, proprietary or custom-built software for its business operations. The nature of the Company's business does not require deployment of any specialised information technology systems.

INSURANCE

We generally maintain insurance covering our stocks, machineries and assets at such levels we consider to be appropriate for our operations. As on the date of this RHP, the details of our insurance policies are as follows:

INFRASTRUCTURE AND FACILITIES

Our registered office is located at 7B, 7th floor, century plaza, 560- 562, Anna Salai, Chennai – 600 018.

Our Manufacturing units is located at Survey No. - 681 Patta No 283 and 284 Chandrasekhra Puram Kodavalur mandal SPSR Nellore – 524316, Andhra Pradesh.

All key operational facilities including our in-house quality laboratory, Quality Division, and warehouse are housed within our manufacturing unit. Our sales and marketing team operate from Chennai and Morocco office

Transportation

Our raw materials are supplied and delivered by our suppliers at our rice bran oil manufacturing unit. Further, most of our customers, pick up the finished products from our manufacturing units and therefore our Company is not required to arrange for logistical transport for our raw materials and finished products. However, some of our customers, do insist on us delivering the final products at their units, for which our Company engages third party transport providers.

For our subsidiaries, we are dependent on the third-party transport service provider. To safeguard against any loss in transit, we take insurance for transportation of our materials to middle-east countries and in case of sale to buyers in USA and Germany, they take insurance.

KEY INDUSTRIAL REGULATIONS AND POLICIES

The following description is an overview of certain sector-specific relevant laws and regulations in India which are applicable to the operations of our Company and its business. The description of laws and regulations set out below is not exhaustive and is only intended to provide general information to Bidders. The information in this section is neither designed nor intended to be a substitute for professional legal advice and investors are advised to seek independent professional legal advice.

The statements below are obtained from publications available in the public domain based on the current provisions of applicable Indian law, and the judicial, regulatory and administrative interpretations thereof, which are subject to change or modification by legislative, regulatory, administrative, quasi-judicial or judicial decisions/actions and our Company are under no obligation to update the same.

A. Industry Related Laws and Regulations

Shops and establishments legislations

Under the provisions of local shops and establishments legislations applicable in the states in India where our establishments are set up and business operations exists, such establishments are required to be registered. Such legislations regulate the working and employment conditions of the workers employed in shops and establishments, including commercial establishments, and provide for fixation of working hours, rest intervals, overtime, holidays, leave, termination of service, maintenance of records, maintenance of shops and establishments and other rights and obligations of the employers and employees. These shops and establishments' acts, and the relevant rules framed thereunder, also prescribe penalties in the form of monetary fine or imprisonment for violation of provisions, as well as procedures for appeal in relation to such contravention of the provisions.

The Electricity Act, 2003 ("Electricity Act")

The Electricity Act is a central legislation and provides for, inter alia, generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution, and trade of electricity are regulated activities which require licenses from the Central Electricity Regulatory Commission ("CERC"), the State Electricity Regulatory Commissions ("SERCs") or a joint commission (constituted by an agreement entered into between two or more state governments or the central government in relation to one or more state governments, as the case may be). Under the Electricity Act, the appropriate commission, guided by, inter alia, the methodologies specified by the CERC with the aim of promotion of co-generation and generation of electricity from renewable sources of energy, shall specify the terms and conditions for the determination of tariff. The Electricity Act requires the Government of India ("GoI") to prepare the national electricity policy and tariff policy, from time to time, in consultation with the state governments and Central Electricity Authority. The Draft Electricity (Amendment) Bill, 2020 ("Draft EAA") was proposed by the Ministry of Power in April 2020 which seeks to amend certain provisions of the Electricity Act. Among others, the amendment proposes the establishment of the Electricity Contract Enforcement Authority ("ECEA") to adjudicate on matters pertaining to performance of contracts regarding the sale, purchase, or transmission of electricity between a generation company and other licensees. Further, Draft EAA empowers the GoI to formulate a national renewable energy policy in consultation with state governments, whereby the GoI may prescribe a minimum percentage of purchase of electricity from renewable sources of energy.

Electricity Rules, 2005

The Electricity Rules, 2005 (the "ER 2005"), as amended, were framed under the Electricity Act and provide the requirements in respect of captive generating plants and generating stations. The authorities constituted under the ER 2005 may give appropriate directions for maintaining the availability of the transmission system of a transmission licensee.

Information Technology Act, 2000 (the "IT Act")

The IT Act seeks to provide legal recognition to transactions carried out by various means of electronic data interchange and other means of electronic communication and facilitate electronic filing of documents with the Government agencies. The IT Act also creates a mechanism for the authentication of electronic documentation through digital signatures. The IT Act prescribes punishment for publishing and transmitting obscene material in electronic form. The IT Act provides for extraterritorial jurisdiction over any offence or contravention under the IT Act committed outside India by any person, irrespective of their nationality, if the act or conduct constituting the offence or contravention involves a computer,

computer system or computer network located in India. Additionally, the IT Act empowers the Government of India to direct any of its agencies to intercept, monitor or decrypt any information generated, transmitted, received or stored in any computer source in the interest of sovereignty, integrity, defence and security of India, among other things.

The Micro, Small and Medium Enterprises Development Act, 2006 (“MSME Act”)

No. J-9/1/2020-CPU dated July 15, 2020 as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, inter alia, service providers in cases of deficiencies in services, unfair or restrictive trade practices and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to inter alia remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-compliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

The Registration Act, 1908

The Registration Act, 1908 (“Registration Act”) was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

The Indian Contract Act, 1872

The Indian Contract Act codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced. It provides a framework of rules and regulations that govern formation and performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

The Legal Metrology Act, 2009 (“Legal Metrology Act”) and Legal Metrology (Packaged Commodities) Rules, 2011

The Legal Metrology Act was enacted to establish and enforce standards of weights and measures and to regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number. It

repealed and replaced the Standard of Weights and Measures Act, 1976 and the Standards of Weights and Measures (Enforcement) Act, 1985. Making use of any numeration not in accordance with the standards of weights and measures prescribed under the Legal Metrology Act may be punished by a fine which may extend to ₹25,000 and for the second or subsequent offense, with imprisonment for a term not exceeding six months and also with fine. Any transaction, deal or contract in contravention of the standards of weights and measures prescribed by the government may be punished with fine which may extend to ₹ 10,000 and for the second or subsequent offence, with imprisonment for a term which may extend to one year, or with fine, or both. The Legal Metrology Act permits the central government to make rules thereunder to carry out provisions of the Act. Further, states may, after consultation with the central government, frame state specific rules under this Act to provide for the time limits for verification of weights and measures, maintenance of registers and records, manner of notifying government authorities, fees for compounding of offences etc.

The Legal Metrology (Packaged Commodities) Rules, 2011 framed under the Legal Metrology Act lay down specific provisions applicable to packages intended for retail sale, wholesale packages and for export of packaged commodities and also provide for registration of manufacturers, packers and importers. Petroleum Act, 1934 (“Petroleum Act”) and Petroleum Rules, 2002 (“Petroleum Rules”)

The Petroleum Act, 1934 was enacted to consolidate and amend the law relating to the import, transport, storage, production, refining, and blending of petroleum. The Petroleum Act empowers the government to authorize any officer to enter premises where petroleum is being imported, transported, stored, produced, refined, or blended, in order to conduct inspections and take samples for testing.

In accordance with the Petroleum Rules, 2002, any person intending to store furnace oil or petroleum of a specified class and quantity, otherwise than under a license, is required to obtain prior approval from the Chief Controller before commencing such storage.

Foreign Trade (Development and Regulation) Act, 1992

It vests the Central Government with broad powers to frame and implement a Foreign Trade Policy, appointing the Director General of Foreign Trade to oversee its execution. All the importers and exporters must obtain an Importer-Exporter Code Number and where applicable, specific licenses, ensuring only authorised entities engage in cross-border trade. Robust provisions for search, seizure, penalty and confiscation deter and address contraventions, while an adjudicating authority and appellate mechanism ensure fair dispute resolution. Strict suspension or cancellation clauses for code numbers and licenses impose operational risk for non-compliance.

Customs Act, 1962

The Customs Act, 1962 provides the legal framework empowering the central government to levy and collect customs duties on imports and exports, ensuring control over the cross-border trade. It mandates accurate declaration through bills of entry and shipping bills, backed by importer-exporter registration and strict documentation, to guarantee lawful clearance of goods. Detailed classification and valuation provisions along with the Customs Tariffs Act ensure correct duty assessment. Robust search, seizure and detention powers enable the customs officers to intercept contraband and curb smuggling. Mechanisms such as warehousing, temporary import schemes and duty drawback facilities optimise the cash-flow and logistical flexibility for businesses.

The Bureau of Indian Standards Act, 2016

The Bureau of Indian Standards Act, 2016 governs the formulation, recognition and enforcement of standards for goods and services in India. To the extent applicable to the products dealt in by the Company, the Company is required to

comply with the relevant quality, packaging and labelling standards, if any, prescribed under the said Act. The Company ensures that its products and operations are aligned with applicable standards, where mandated.

The Essential Commodities Act, 1955

The Essential Commodities Act, 1955 empowers the Central and State Governments to regulate the production, supply, distribution and trade of essential commodities. To the extent applicable, the Company ensures compliance with the applicable standards and labelling requirements for blended edible vegetable oils, if any, dealt in by the Company.

It establishes the Food Safety and Standards Authority of India (FSSAI) as the central regulator to frame science-based standards for food products and oversee their implementation. Mandatory licensing and registration of all food businesses ensure that only compliant operators can manufacture, store, transport or sell food items. Detailed regulations on hygiene, processing, packaging and labelling safeguard against contamination and misleading claims. Empowered food safety officers conduct inspections, sampling and testing to enforce compliance and nip risks in the bud. Strict penalties for food adulteration, misbranding or non-compliance act as a strong deterrent against malpractices. By mandating these measures, the Act protects consumer health, enhances public confidence and secures your business's legal standing.

Mines and Minerals (Development and Regulations) Act, 1957, as amended (the "MMDR Act")

Management of mineral resources fall under the control of both Central and State Governments, pursuant to entry 54 of Union List and entry 23 of State List, respectively, of the Seventh Schedule of the Constitution of India. The MMDR Act regulates the mining sector in India and aims for the development and regulation of mines and minerals. The MMDR Act classifies mining-related activities into: (i) reconnaissance, which involves a preliminary survey to determine mineral resources; (ii) prospecting, which includes exploring, locating, or proving mineral deposits; and (iii) mining, the commercial activity of extraction of minerals. The MMDR Act has categorized, among other things, building stones (which includes granite), gravel, ordinary clay, ordinary sand other than sand used for prescribed purposes, as 'minor minerals'. The power to make rules with respect to minor minerals is delegated to the State Governments.

The Factories Act, 1948, as amended (the "Factories Act")

The term 'factory', as defined under the Factories Act, means any premises which employs or has employed on any day in the previous 12 months, 10 or more workers and in which any manufacturing process is carried on with the aid of power, or any premises wherein 20 or more workmen are employed at any day during the preceding 12 months and in which any manufacturing process is carried on without the aid of power. State Governments have issued rules in respect of prior submission of plans and their approval for the establishment of factories and registration and licensing of factories. The Factories Act requires the 'occupier' of a factory to ensure the health, safety, and welfare of all workers in the factory premises. Further, the 'occupier' of a factory is also required to ensure (i) the safety and proper maintenance of the factory such that it does not pose health risks to persons in the factory premises; (ii) the safe use, handling, storage and transport of factory articles and substances; (iii) provision of adequate instruction, training, and supervision to ensure workers' health and safety; and (iv) cleanliness and safe working conditions in the factory premises. If there is a contravention of any of the provisions of the Factories Act or the rules framed thereunder, the occupier and manager of the factory may be punished with imprisonment or with a fine or with both.

Foreign Investment Regulations

Foreign investment in India is governed by the provisions of the Foreign Exchange Management Act, 1999 ("FEMA"), as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, and the

consolidated FDI Policy (“FDI Policy”) issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India from time to time. Further, the RBI has enacted the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 which regulate the mode of payment and reporting requirements for investments in India by a person resident outside India. Under the current FDI Policy (effective October 15, 2020), 100% foreign direct investment in companies engaged in the food products retail trading is permitted, under the government route, i.e., investment requiring prior government approval, subject to compliance with certain prescribed conditions.

Agricultural and Processed Food Products Export Development Authority Act, 1985

The Agricultural and Processed Food Products Export Development Authority Act, 1985 (“APEDA Act”) governs the development, regulation and promotion of exports of specified agricultural and processed food products in India. The Act establishes the Agricultural and Processed Food Products Export Development Authority (“APEDA”) and empowers it to promote export-oriented production, prescribe standards and specifications, improve packaging and marketing, undertake inspections, and collect export-related data.

Exporters of products specified under the schedules to the APEDA Act are required to obtain registration with APEDA and comply with applicable reporting, inspection and regulatory requirements. The Central Government is also empowered under the Act to issue directions to APEDA and to prohibit, restrict or otherwise control the export of scheduled products in public interest.

B. Tax Related Legislations

Income Tax Act, 1961

Income Tax Act, 1961 is applicable to every Domestic / Foreign Company whose income is taxable under the provisions of this Act or Rules made under it depending upon its “Residential Status” and “Type of Income” involved. Goods and Service Tax Act, 2017

The Central Goods and Services Tax Act, 2017 is an Act to make a provision for levy and collection of tax on intra-State supply of goods or services or both by the Central Government and for matters connected therewith or incidental thereto. In line with CGST Act, each state Governments has enacted State Goods and Service Tax Act for respective states. Goods and Services Tax (GST) is a comprehensive indirect tax on manufacture, sale and consumption of goods and services throughout India to replace taxes levied by the Central and State Governments. This method allows GST-registered businesses to claim tax credit to the value of GST they paid on purchase of goods or services or both as part of their normal commercial activity. The mechanism provides for two level taxation of interstate and intra state transactions. When the supply of goods or services happens within a state called as intra-state transactions, then both the CGST and SGST will be collected. Whereas if the supply of goods or services happens between the states called as inter-state transactions and IGST will be collected. Exports are considered as zero-rated supply and imports are levied the same taxes as domestic goods and services adhering to the destination principle in addition to the Customs Duty which has not been subsumed in the GST.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

C. Key Environment Regulations

Environment (Protection) Act, 1986 (the “EP Act”), Environment (Protection) Rules, 1986 (the “EP Rules”) and Environmental Impact Assessment Notification, 2006 (“EIA Notification”)

The EP Act has been enacted for the protection and improvement of the environment. EP Act empowers the government to take all measures to protect and improve the quality of environment, such as by laying down standards for emission and discharge of environmental pollutants. It is in the form of an umbrella legislation designed to provide a framework for Central Government to coordinate the activities of various central and state authorities established under previous laws. It is also in the form of an enabling law, which delegates wide powers to the executive to enable bureaucrats to frame necessary rules and regulations. Further, the EP Rules specify, inter alia, the standards for emission or discharge of environmental pollutants and restrictions on the handling of hazardous substances in different areas. For contravention of any of the provisions of the EP Act or the rules framed thereunder, the punishment includes either imprisonment or fine or both. Additionally, under the EIA Notification and its subsequent amendments, projects are required to mandatorily obtain environmental clearance from the concerned authorities depending on the potential impact on human health and resources.

National Environmental Policy, 2006

The dominant theme of this policy is that while conservation of environmental resources is necessary to secure livelihoods and well-being of all, the most secure basis for conservation is to ensure that people dependent on particular resources obtain better livelihoods from the fact of conservation, than from degradation of the resource.

Air (Prevention and Control of Pollution) Act, 1981(the “Air Act”) and Air (Prevention and Control of Pollution) Rules, 1982 (“Air Rules”)

The Air Act was enacted to provide for the prevention, control and abatement of air pollution in India. It is a specialized piece of legislation which was enacted to take appropriate steps for the preservation of natural resources of the earth, which among other things include the preservation of the quality of air and control of air pollution.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”) and Water (Prevention and Control of Pollution) Board, 1975 (“Water Rules”)

The Water Act was enacted to control and prevent water pollution and for maintaining or restoring of wholesomeness of water in the country. The Design Laws permit the proprietor to file a suit for recovery of damage and as well as an injunction in the event of piracy of a registered design.

G. State Legislations

Tamil Nadu Shops and Establishment Act, 1947

The Tamil Nadu Shops and Establishments Act, 1947, mandates that all commercial and service outlets register with the labour department, ensuring legal compliance from day one. It sets maximum daily and weekly working hours, rest breaks and compulsory weekly holidays, protecting employees from overwork. The Act prescribes proper maintenance of employee registers and wage records, promoting transparency and easing audits. It enforces essential health, safety and

cleanliness standards, reducing workplace hazards and liabilities. Special provisions safeguard hours and conditions for women and young workers, upholding statutory protections. Non-adherence attracts fines and prosecution, making strict observance vital to secure your business's legal standing and reputation.

Andhra Pradesh Shops and Establishments Act, 1988

The Andhra Pradesh Shops and Establishments Act, 1988 mandates that every shop and commercial establishment in the State register and display a valid licence, and it regulates working hours (normally up to nine hours a day and 48 hours a week) with prescribed rest and meal intervals. It prescribes opening and closing times allowing extensions only with official permission and requires prompt wage payments, compensating overtime at twice the normal rate. The Act guarantees paid annual leave, weekly holidays and specified public holidays, and imposes duties on employers to ensure clean, well-ventilated premises with adequate lighting, drinking water, latrines and first-aid facilities. It places special restrictions on the employment of women (e.g., no work between 7 pm and 8 am without permission) and adolescents, and penalizes non-compliance such as failure to register, excess work hours or unpaid overtime with fines or prosecution.

Tamil Nadu Goods and Services Tax Act, 2017

It brings Tamil Nadu into the nationwide GST regime by levying tax on all intra-state supplies of goods and services, ensuring a uniform indirect tax structure. Every business whose turnover exceeds the prescribed threshold must register under the act, obtain a GSTIN and issue compliant tax invoices. Timely filing of monthly, quarterly and annual returns with detailed outward and inward supply data promotes the transparency and eases conciliation.

Andhra Pradesh Goods and Services Tax Act, 2017

It integrates Andhra Pradesh into India's unified GST framework by levying tax on all intra-state supplies of goods and services, replacing multiple state levies. Businesses whose aggregate turnover exceeds the notified threshold must register under the Act, obtain a GSTIN and issue tax-compliant invoices. Regular filing of detailed monthly, quarterly and annual returns for outward and inward supplies enhances transparency. The seamless input tax credit mechanism allows businesses to deduct GST paid on inputs from their output liability, improving cash-flow efficiency. Robust provisions authorise assessment, audit and inspection by tax authorities to verify compliance and detect tax evasion.

H. Other Applicable Legislations

Negotiable Instruments Act, 1881 ("NI Act")

The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid.

Food Safety and Standards Act, 2006

It establishes the Food Safety and Standards Authority of India (FSSAI) as the central regulator to frame science-based standards for food products and oversee their implementation. Mandatory licensing and registration of all food businesses ensure that only compliant operators can manufacture, store, transport or sell food items. Detailed regulations on hygiene, processing, packaging and labelling safeguard against contamination and misleading claims. Empowered food safety officers conduct inspections, sampling and testing to enforce compliance and nip risks in the bud. Strict penalties for food adulteration, misbranding or non-compliance act as a strong deterrent against malpractices. By mandating these measures, the Act protects consumer health, enhances public confidence and secures your business's legal standing.

Municipality Laws Pursuant to the Constitution (Seventy-Fourth Amendment) Act, 1992

The respective state legislatures in India have power to endow the municipalities with power to implement schemes and perform functions in relation to matters listed in the Twelfth Schedule to the Constitution of India. The respective States of India have enacted laws empowering the municipalities to issue trade license for operating stores and implementation of regulations relating to such license along with prescribing penalties for non-compliance.

Fire Prevention Laws

The state legislatures in India have enacted legislations for fire control and safety, which are applicable to our properties established in the respective states. They impose the requirement of obtaining no-objection certificate from the concerned

authorities. They also include provisions in relation to provision of fire safety and life saving measures by occupiers of buildings and penalties for non-compliance. In addition to the above, our Company is also required to comply with other applicable laws and regulations imposed by the Central and State Governments and other authorities for its day-to-day operations, including the Companies Act and rules framed thereunder, municipal laws, fire safety laws and legal metrology laws, to the extent applicable. Our Company is also amenable to various central and state tax laws.

Approvals from Local Authorities

Setting up of an establishments entails the requisite Planning approvals to be obtained from the relevant Local Panchayat(s) outside the city limits and appropriate Metropolitan Development Authority within the city limits. Consents from the state Pollution Control Board(s), the relevant state Electricity Board(s), the State Excise Authorities, Sales Tax, are required to be obtained before commencing the building of a factory or the start of manufacturing operations.

The Companies Act, 2013

The consolidation and amendment in the law relating to the Companies Act, 1956 made way to the enactment of the Companies Act, 2013 and rules made thereunder. The Companies Act primarily regulates the formation, financing, functioning, and restructuring of Companies as separate legal entities. The Act provides regulatory and compliance mechanism regarding all relevant aspects including organizational, financial, and managerial aspects of companies. The provisions of the Act state the eligibility, procedure, and execution for various functions of the company, the relation and action of the management and that of the shareholders. The law laid down transparency, corporate governance, and protection of shareholders & creditors. The Companies Act plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

Competition Act, 2002 (the “Competition Act”)

The Competition Act is an act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect the interests of consumers and to ensure freedom of trade in India. The Act deals with prohibition of (i) certain agreements such as anti-competitive agreements and (ii) abuse of dominant position and regulation of combinations. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Competition Act. The prima facie duty of the Competition Commission of India (“CCI”) is to eliminate practices having adverse effect on competition, promote and sustain competition, protect interests of consumers and ensure freedom of trade. The CCI shall issue notice to show cause to the parties to combination calling upon them to respond within 15 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India. In case a person fails to comply with the directions of the CCI and Director General (as appointed under section 16(1) of the Competition Act), he shall be punishable with a fine which may exceed to ₹ 100,000 for each day during such failure subject to maximum of ₹ 10,000,000, as the CCI may determine.

The registered office is situated at 7B, 7th Floor, Century Plaza, 560-562, Anna Salai, Chennai, Tamilnadu, 600018.

The company's name changed from M/s. Sri Priyanka Agro Enterprises Private Limited to M/s. Sri Priyanka Geo Commex Private Limited vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on 15-11-2024.

Subsequently the Company was converted into Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on 27-11-2024 and the name of the Company was changed to M/s. Sri Priyanka Geo Commex Limited ("the Company" or the "Issuer") pursuant to issuance of Fresh Certificate of Incorporation dated 06-12-2024 Registrar of Companies, Chennai with Corporate Identification Number U10402TN1990PLC019110.

The Company is primarily engaged in the business of extraction and processing of edible oils, as well as trading in metals and minerals.

Geomin Commodities Pte Ltd (GMCPL) is headquartered in Singapore and is involved in trading of minerals like Barytes, limestone, Flourspar and Bauxite. Atlas Resources International as a wholly owned subsidiary of Geomin Commodities Pte Ltd.

B. SIGNIFICANT ACCOUNTING POLICIES**a) Basis of preparation**

The summary statement of consolidated restated assets and liabilities of the Company as at 31st December 2025, 31st March 2025, 31st March 2024 and 31st March, 2023 and the related summary statement of consolidated restated profit and loss and cash flows for the period ended 31st December 2025, the year ended 31st March 2025, year ended 31st March 2024 and 31st March, 2023 (collectively referred to as the "Restated summary financial information") have been prepared specifically for the purpose of inclusion in the offer document to be filed by the Company in connection with the proposed Initial Public Offering (hereinafter referred to as 'IPO').

The restated summary financial information has been prepared by applying necessary adjustments to the financial statements ("financial statements") of the Company. The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the accounting standards specified under section 133 of the Companies Act, 2013, of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act"), as applicable and Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) regulations 2018, as amended (the "Regulations"). The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistently applied.

b) Principles of consolidation

The consolidated financial statements relate to the Company and its subsidiary companies, together the Group. The consolidated financial statements have been prepared on the following basis:

- The financial statements of the subsidiary companies used in the consolidation are drawn up to the same reporting date as that of the Company, December 31, 2025.
- The financial statements of the Company and its subsidiary companies have been prepared on the line-by-line basis by adapting together like terms of assets, liabilities, income and expenditure, after eliminating intra group balances, intra-group transactions and resulting profit or loss.
- Good will/Capital Reserve represents the difference between the Company's share in the net worth of the subsidiaries and the cost of acquisition at each point of time of making the investment in the subsidiaries. Capital reserve on consolidation is adjusted against the good will on consolidation. The good will on consolidation is evaluated for impairment whenever events or changes in circumstances indicate that its carrying amount may have been impaired. The good will or capital reserve is determined for each subsidiary and such amounts are not set off between different entities.
- The companies included in consolidation:

Name of the Subsidiary	Country of Incorporation	Relationship	% of Holding or Voting Power either directly or indirectly
Geo Min Commodities Pte Ltd	Singapore	Wholly owned Subsidiary	100% held by Sri Priyanka Geo Commex Limited
Atlas Resources International	Morocco	Stepdown Wholly owned Subsidiary	100% held by Geo Min Commodities Pte Ltd

Consolidated Financial Statements are prepared to the extent possible in the same format adapted by the Company, which were prepared for reporting independent financial statements.

c) Use of estimates

The preparation of the consolidated financial statements in conformity with the Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and reported income and expenditure during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Further results could differ due to these estimates and the differences between actual results and the estimates are recognized in the period in which the results are known/materialize.

d) Cash and cash equivalents for cash flow purposes

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term balances (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible in to known amount of cash and which are subject to insignificant risk of changes in value.

e) Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

f) Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Sales are recognized on transfer of significant risk and ownership.

- a. Revenue from sale of goods are recognized when the goods are delivered and accepted by the buyers. Sale includes products net of trade discounts and exclude goods and service tax.
- b. Commission income is recognized upon the completion of service rendered.
- c. Interest income from financing activities and others is recognized on an accrual basis.
- d. Interest income on other deposits is recognized on accrual basis.

g) Property, Plant & Equipment and Intangible Assets:

•Tangible assets:

Tangible fixed assets are stated at cost, net of tax / duty credits available, if any less accumulated depreciation / impairment loss, if any. Cost includes original cost of acquisition including incidental expenses related to the acquisition and installation.

•Intangible assets:

Intangible assets are stated at cost, net of tax duty credits availed, if any, less accumulated amortization / impairment loss if any. Cost includes original cost of acquisition including incidental expenses related to such acquisition and installation.

•Projects under which assets are not ready for use and other capital work in progress are carried at cost, comprising direct costs, related incidental expenses and attributable interest.

h) Depreciation and amortization

The Company has applied the estimated useful lives as specified in Schedule II of the Companies Act 2013 and calculated the depreciation as per the Straight Line Method. Depreciation on new assets acquired during the year is provided at the rates applicable from the date of acquisition to the end of the financial year. In respect of the assets sold during the year, depreciation is provided from the beginning of the year till the date of its disposal. Intangible assets are amortised on a straight-line basis over the estimated useful life as specified in Schedule II of the Companies Act 2013.

The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss. In respect of the assets sold during the year, amortisation is provided from the beginning of the year till the date of its disposal.

i) Impairment of assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such asset is estimated and impairment is recognized, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value on a appropriate discount factor. When there is indication that there is impairment loss recognized for an asset in earlier accounting periods no longer exists or have decreased, such reversal of impairment loss is recognized in the statement of profit and loss except in the case of revalued assets.

j) Investments

Investments are classified as long term and current. Long term investments are carried individually at cost less provision for diminution, other than temporary in the value of the investments. Current investments are carried individually at the lower of cost and fair value. Cost of investments includes acquisition charges such as brokerage, fees and duties.

k) Foreign currency transactions and translations

Recognition & translation

- a. Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of transaction.
- b. Any income or expense on account of exchange difference either on settlement or on translation is recognized in statement of profit or loss.

l) Employee Benefits

Defined Contribution Plan:

Contributions payable to the recognized provident fund and Employee State Insurance fund, which is a defined contribution scheme, are charged to the statement of profit and loss.

Defined Benefit Plan:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides for lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service without any monetary limit. Vesting occurs upon completion of five years of service. Provision for gratuity has been made in the books as per actuarial valuation done as at the end of the year.

m) Taxes on Income

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) is paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability. is considered as an asset if there is convincing evidence that Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit is associated with it will flow to the Company.

Deferred tax is recognized on timing differences, being the difference between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and tax laws enacted or substantively enacted as on the reporting date. Deferred tax liabilities are recognized for all timing differences. Deferred tax assets are recognized for timing differences for items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realized. However, if there are unabsorbed depreciation and carry forward losses, deferred tax assets are recognized only if there is virtual certainty that there will be sufficient future taxable income available to realize the assets. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

When current or deferred tax arises in relation to an item that is recognized directly in reserves (i.e., not routed through Profit and Loss), the tax effect should also be recognized in reserves—not in the Profit and Loss Statement.

n) Leases

Assets leased by the Company in its capacity as a lessee, where substantially all the risks and rewards of ownership vest in the Company are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of the fair value and the present value of the minimum lease payments and a liability is created for an equivalent amount. Each lease rental paid is allocated and the interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each year. Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognized as operating leases. Lease rentals under operating leases are recognized in the statement of profit and loss on straight line basis.

o) Borrowing costs

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

p) Provision and contingencies

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are disclosed in the notes. Contingent assets are not recognized in the financial statements.

q) Inventories:

Inventories comprise Raw Material, Work-in-Progress, Finished Goods, Stock in Trade and Consumables. Inventories are measured at the lower of cost and net realizable value. Finished Goods and Process Stock include cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The cost of inventories is based on the first-in, first-out principle. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

r) Earnings Per Share

Basic earnings per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity share outstanding during the year. Diluted earning per share is computed by dividing the profit/ (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

s) Segment Reporting

The Company operates in two reportable segments as identified based on criteria specified under Accounting Standard (AS) 17 – Segment Reporting. These segments represent distinct components of the enterprise engaged in providing different products/services and are subject to different risks and returns.

Segment revenues, results, assets, and liabilities have been separately disclosed in line with the quantitative thresholds of AS-17. The aggregate external revenue of the reportable segments constitutes more than 75% of the Company's total revenue, meeting the prescribed requirement.

The segment information disclosed facilitates an understanding of the enterprise's performance, risks, and returns across its business activities and geographical operations. Reconciliation of segment revenue and results to the respective amounts in the financial statements is also provided.

Unless otherwise indicated, financial information included herein are based on our Restated Consolidated Financial Statements for the nine months period ended December 31, 2025 and financial years ended March 31, 2025, 2024 and 2023 included in this RHP beginning on page 193 of this RHP

BUSINESS OVERVIEW

We are a commodity focused group engaged in supplying of minerals, and manufacturing of rice bran oil. With active operations across India, Morocco, and Singapore, our operating locations enable us to efficiently respond to regional market dynamics and evolving demand patterns.

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - critical inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

Our mineral portfolio includes Barite, Fluorspar, and Copper Cathode - inputs for industries ranging from energy and chemicals to infrastructure and electronics. Through our network, we leverage infrastructure and logistics capabilities to seamlessly connect producers with end-users, driving greater efficiency, reliability, and value across the supply chain.

The Company does not use any specialised, proprietary or custom-built software for its business operations. The nature of the Company’s business does not require deployment of any specialised information technology systems.

The Company primarily uses standard off-the-shelf accounting software and basic information technology tools for maintaining books of accounts, statutory compliances, record keeping and routine administrative functions. Such software is used under valid licenses and does not constitute a core operational dependency.

Further, the Company has implemented basic data protection and information security practices, including restricted access to systems, password-protected devices, periodic data backups and use of standard antivirus and firewall protections, commensurate with the size and scale of its operations.

In parallel, we operate across the rice bran oil value chain, encompassing the manufacture of crude rice bran oil, its refining, and the processing of associated residues and by-products. These include De-Oiled Rice Bran (DORB), Fatty Acids, Gums, Spent Earth, and Wax—each contributing to a diversified product suite that supports downstream industries and promotes circular resource utilization.

Our Product Portfolio

Rice Bran Oil: The production of crude and refined rice bran oil primarily involves two stages: extraction of crude oil from rice bran, followed by refining to achieve the desired purity and specifications. Our company manufactures rice bran oil across multiple grades and color profiles, tailored to meet the specific requirements of our customers.

Our Company has capacity of 60,000 MT per annum for Solvent Extraction Plant and 15,000 MT per annum oil refinery as on the date of this RHP. Our manufacturing facility, located in the state of Andhra Pradesh, is automated and

constructed using Stainless Steel 304. It is equipped with machinery for efficient oil refining and by-product extraction, ensuring minimal physical intervention by the workforce, maintenance of quality standards and minimal wastage.

We have a quality control and assurance division (“Quality Division”) in our manufacturing unit to ensure that our products are compliant with the specifications provided by regulatory bodies such as FSSAI.

We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form

Barite and Fluorspar: Our Barite and Fluorspar business comprises operations in India and Outside India. India business is conducted by our Company. Our international Barite and Fluorspar business is conducted through our subsidiaries, namely Geo Min Commodities Pte. Ltd (“Geo Min”) in Singapore and its step-down subsidiary in Morocco, Atlas Resources International (“Atlas Resources”). Geo Min operates as our global marketing and selling arm of minerals and the Morocco subsidiary operates as a procurement arm for minerals.

We supply Barite and Fluorspar to customers across the United States, Germany, Suriname, and Oman, serving key sectors such as the oil & gas and chemical industries. Our products meet stringent industry specifications and are tailored to support oil and gas drilling, refining, and industrial processing applications in these markets.

Our total Barite and Fluorspar sales in FY2025 was 35,672.26 tons and 15,163.22 tons respectively, and for the nine months ended December 31, 2025 was 70,730.76 tons and 4,066 tons.

Copper Cathode: Sale and marketing of our Copper Cathode business is undertaken by our subsidiary, Geo Min Commodities Pte. Ltd. These supplier entities source copper cathodes from smelters in Chile and supplies in the international market. Accordingly, while the origin of copper is Chile, procurement is diversified through multiple trading partners across Singapore and the UAE.

We supply Grade A cathodes to customers in UAE and Singapore. Our cathodes meet London Metal Exchange (LME) approved specifications, ensuring consistent quality for industrial and commercial applications.

Our total Copper Cathode sale in FY2025 was 1,806.47 tons, and for the nine months ended December 31, 2025 was 1,202.54 tons.

Others: Rice bran processing yields a range of by-products at various stages of production. The process begins with rice bran, which is used to manufacture crude rice bran oil. This yields De-Oiled Rice Bran as a primary by-product. Upon refining the crude oil, additional by-products are generated, including gums, wax, fatty acids, and residual spent earth—alongside the final output of refined rice bran oil. We produce high-purity rice bran fatty acids (99.5%).

Our company actively markets and sells these by-products in the open market, ensuring optimal resource utilization.

As of FY 2025, we sold commodities across 7 Indian states and in more than 5 international markets. Our consolidated India revenue for the fiscal year 2025 was Rs. 3,696.88 lakhs which constituted 13.89% of our consolidated revenue from operations. Our consolidated revenue outside India to countries such as UAE, Singapore, Oman, Germany and Suriname for the fiscal year 2025 was Rs.22,927.93 lakhs which constituted 86.11% of our consolidated revenue from operations. For the period ended December 31, 2025, we sold commodities across 6 Indian states and in 4 international markets. Our consolidated India revenue for the said period was Rs. 3,016.64 lakhs which constituted 12.15% of our consolidated revenue from operations. Our consolidated revenue outside India to countries such as USA, Singapore, Oman and Germany for the period ended December 31, 2025 was Rs.21,820.15 lakhs which constituted 87.85% of our consolidated revenue from operations.

Our Promoters, Venkata Sai Shiv Prasad Nuthalapati, Chairman and Managing Director, and Veera Vikram Nuthalapati, our Whole-time Director, have years of experiences in solvent extraction and mineral processing business and are actively involved in all the critical aspects of our business, including product innovation, sales and marketing, finance, operations, strategy and quality.

The Company has been allocated a Barite mining permit bearing Permit No. 3739267 situated in the Ighoud Commune, Youssoufia Province, Marrakech-Safi Region, Kingdom of Morocco. Based on the geological assessment reports, the mining area is estimated to contain approximately 0.75 million MT of Barite ore with an average grade of 4.25. the Company expects to receive the mining licence by the end of June 2026 or mid-July 2026, following which commercial extraction and sale of barite from the mine is proposed to commence.

For detailed information on the business of our Company please refer to “Our Business” beginning on page numbers 129 of this RHP.

OUR CUSTOMERS

Our company has a B2B business model for all the business segments.

For our rice bran operations, our Company supplies rice bran oil to reputed manufacturers and packers in tankers. We majorly sell our products in bulk form to players who sell edible oil in unbranded or loose form. We also sell our products to re-packers who ultimately sell the oil either in their own brands or further sell in bulk form. We plan to start supply the refined oil to branded players in refined rice bran oil segment to improve our capacity utilisation.

For our global mineral operations, Geo Min Commodities Pte. Ltd., Singapore, our wholly-owned subsidiary, serves as the selling and marketing arm. As part of our long-term supply strategy, Geo Min has entered into the following contractual arrangements for the export of Moroccan-origin minerals:

- A long-term supply order for Moroccan Crude Barite with a reputed mineral-based additive solutions provider based in the USA, valid until January 2026, covering 90,000 MT, with quarterly load port Laycan.
- A supply agreement for Moroccan Barite mixed with Fluorspar with a reputed company based in Germany, valid until July 2026, covering 40,000 MT, with quarterly load port Laycan.
- A supply agreement for Moroccan Industrial Barite with another reputed German-based company, valid until July 2026, covering 8,000 MT, with quarterly load port Laycan.

MECHANISM FOR REDRESSAL OF INVESTOR GRIEVANCES

The Registrar Agreement provides for the retention of records with the Registrar to the Issue for a minimum period of three years from the date of listing and commencement of trading of the Equity Shares on the Stock Exchanges, subject to agreement with our Company for storage of such records for longer period, to enable the investors to approach the Registrar to the Issue for redressal of their grievances.

In terms of SEBI Master Circular, SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2021 and SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022 subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs at the rate higher of ₹100 per day or 15% per annum of the application amount in the events of delayed or withdrawal of applications, blocking of multiple amounts for the same UPI application, blocking of more amount than the application amount, delayed unblocking of amounts for non-allotted/partially allotted applications for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the Book Running Lead Manager shall compensate the investors at the rate higher of ₹100 per day or 15% per annum of the application amount.

SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days). ‘T’ being issue closing date. In partial modification to circulars dated March 16, 2021 and April 20, 2022, the compensation to investors for delay in unblocking of ASBA application monies (if any) shall be computed from T+3 day. The provisions of this circular shall be applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timeline prescribed under the SEBI circular bearing number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023. The timelines prescribed for public issues as mentioned in SEBI circulars dated November 1, 2018, June 28, 2019, November 8, 2019, March 30, 2020, March 16, 2021, June 2, 2021, and April 20, 2022 shall stand modified to the extent stated in this Circular.

All grievances relating to the Issue may be addressed to the Registrar to the Issue, giving full details such as name, address of the applicant, Bid application number, number of Equity Shares Bid for, amount paid on Bid application and the bank branch or collection center where the application was submitted.

All grievances relating to the ASBA process may be addressed to the Registrar to the Issue with a copy to the relevant SCSB or the member of the Syndicate (in Specified Cities) or the Sponsor Bank, as the case may be, where the Application Form was submitted by the ASBA Bidder or through UPI Mechanism, giving full details such as name, address of the Bidder, Bid application number, UPI Id, number of Equity Shares applied for, amount blocked on application and designated branch or the collection center of the SCSBs or the member of the Syndicate (in Specified Cities), as the case may be, where the Application Form was submitted by the ASBA Bidder or Sponsor Bank.

Our Company has obtained authentication on the SCORES in terms of SEBI circular no. CIR/OIAE/1/2013 dated April 17, 2013 and complied with the SEBI circular (CIR/OIAE/1/2014/CIR/OIAE/1/2013) dated December 18, 2014 in relation to redressal of investor grievances through SCORES. Our Company has not received any complaints as on the date of this Red Herring Prospectus.

DISPOSAL OF INVESTOR GRIEVANCES BY OUR COMPANY

Our Company estimates that the average time required by our Company or the Registrar to the Issue or the SCSB (in case of ASBA Bidders) or Sponsor Bank (in case of UPI Mechanism) or for redressal of routine investor grievances including through SEBI Complaint Redress System (SCORES) shall be 10 Working Days from the date of receipt of the complaint. Jurisdiction

Exclusive Jurisdiction for the purpose of this Issue is with the competent courts/authorities in India.

The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, —U.S. personal (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agent of our Company.

In accordance with Section 72 of the Companies Act, 2013, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- To register himself or herself as the holder of the Equity Shares; or
- To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

ISSUE PROCEDURE

All Bidders shall review the “General Information Document for Investing in Public Issues” prepared and issued in accordance with the circular SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 notified by SEBI, suitably modified from time to time, if any, and the UPI Circulars (“General Information Document”), highlighting the key rules, procedures applicable to public issues in general in accordance with the provisions of the Companies Act, 2013, the Securities Contracts (Regulation) Act, 1956, the Securities Contracts (Regulation) Rules, 1957, and the SEBI Regulations.

The General Information Documents will be updated to reflect the enactments and regulations including the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2014, SEBI Listing Regulations and certain notified provisions of the Companies Act, 2013, to the extent applicable to a public issue. The General Information Document will also be available on the websites of the Stock Exchange and the Lead Manager, before opening of the Issue. Please refer to the relevant provisions of the General Information Document which are applicable to the Issue.

SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 effective to public issues opening on or after from May 01, 2021. However, said circular has been modified pursuant to SEBI Circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 in which certain applicable procedure w.r.t. SMS Alerts, Web portal to CUG etc shall be applicable to Public Issue opening on or after January 1, 2022 and October 1, 2021 respectively.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) Category of investor eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) Allocation of shares; (iii) Payment Instructions for ASBA Bidders; (iv) Issuance of CAN and Allotment in the Offer; (v) General instructions (limited to instructions for completing the Application Form); (vi) Submission of Application Form; (vii) Other Instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (viii) applicable provisions of the Companies Act, 2013 relating to punishment for fictitious applications; (vi) mode of making refunds; (vii) interest in case of delay in Allotment or refund; and (viii) illustration explaining the procedure of allotment for Non-Institutional Investors in case of initial public offer by SME companies.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, had introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for Individual Investors applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by Individual Investors through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds was discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”) and this phase was to continue till March 31, 2020 and post which reduced timeline from T+6 days to T+3 days was to be made effective using the UPI Mechanism for applications by Individual Investors. The final reduced timeline of T+3 days for the UPI Mechanism for applications by UPI Bidders (“UPI Phase III”), and modalities of the implementation of UPI Phase III was notified by SEBI vide its circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 and made effective on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023 (“T+3 SEBI Circular”). The Issue will be undertaken pursuant to the processes and procedures under UPI Phase III, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on/or after May 1, 2021, except as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, and the provisions of this circular, are deemed to form part of this Red Herring Prospectus. SEBI, vide the SEBI RTA Master Circular, consolidated the aforementioned circulars to the extent relevant for RTAs, and rescinded these circulars. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application size are up to ₹5 lakhs shall use the UPI Mechanism. Subsequently,

pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories). These circulars are effective for initial public offers opening on/or after May 1, 2021, and the provisions of these circulars, as amended, are deemed to form part of this Red Herring Prospectus.

In terms of Regulation 23(5) and Regulation 52 of SEBI ICDR Regulations, the timelines and processes mentioned in SEBI RTA Master Circular, shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and lead manager shall continue to coordinate with intermediaries involved in the said process.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by Individual

Investors through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.
- b) Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Individual Investors through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c) Phase III/T+3: This phase has become applicable on a voluntary basis for all issues opening on or after September 1, 2023 and on a mandatory basis for all issues opening on or after December 1, 2023 vide T+3 Press Release. In this phase, the time duration from public issue closure to listing has been reduced to three Working Days. The Issue shall be undertaken pursuant to the processes and procedures as notified in the T+3 Press Release as applicable, subject to any circulars, clarification or notification issued by SEBI from time to time, including any circular, clarification or notification which may be issued by SEBI.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Individual Investors using the UPI.

The processing fees for applications made by Individual Investors using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

3. Foreign Nationals (except NRIs)
4. Overseas Corporate Bodies

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non- resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Individual Investors

The Application must be for the minimum application size

2. For Other than Individual Investors (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application is for more than 2 lots and in multiples of [●] Equity Shares thereafter. An Application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised all editions of the English national newspaper Business Standard English, all editions of the Hindi national newspaper Business Standard Hindi and Chennai editions of the Tamil regional newspaper Makkal Kural , a Tamil newspaper, Tamil being the regional language of Tamil Nadu, where our registered office is located each with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

- a) The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period,

if applicable, will be published all editions of the English national newspaper Business Standard English, all editions of the Hindi national newspaper Business Standard Hindi and Chennai editions of the Tamil regional newspaper Tamil Nadu, a Tamil newspaper, Tamil being the regional language of Tamil Nadu, where our registered office is located each with wide circulation and also by indicating the change on the website of the Book Running Lead Manager.

- b) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- c) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- d) The BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- e) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- f) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- g) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- h) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b. Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Individual Investors may Bid at the Cut-off Price. However, bidding at the Cut-off

Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.

- d. Individual Investors, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Individual Investors shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

Participation by Associates /Affiliates of BRLM and the Syndicate Members

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Category or in the Non- Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

Option to Subscribe in the Issue

- a. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- b. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.
- c. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

The demat accounts of Bidders for whom PAN details have not been verified, excluding person resident in the State of Sikkim or persons who may be exempted from specifying their PAN for transacting in the securities market, shall be "suspended for credit" and no credit of Equity Shares pursuant to the Issue will be made into the accounts of such Bidders.
10. The Bidders may note that in case the PAN, the DP ID and Client ID mentioned in the Bid Cum Application Form and entered into the electronic collecting system of the Stock Exchange Designated Intermediaries do not match with PAN, the DP ID and Client ID available in the Depository database, the Bid Cum Application Form is liable to be rejected.

BIDS BY HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: "Name of sole or first Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta". Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No Mutual Fund scheme shall invest more than 10.00% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10.00% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10.00% of any company's paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIS

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non-repatriation basis, shall not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non-repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circular). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circular) to apply in the Issue, provided the UPI facility is enabled for their NRE/ NRO accounts.

NRIs applying in the Issue using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of investment by NRIs, see ***“Restrictions on Foreign Ownership of Indian Securities”*** beginning on page 320. Participation of eligible NRIs shall be subject to FEMA NDI Rules.

BIDS BY FPIs

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for retail trading of food products manufactured and/ or produced in India is 100% under automatic route.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. **FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.**

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivative instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- (i). such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and
- (ii). Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilize the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations (“Operational FPI Guidelines”), submitted with the same PAN but with different beneficiary account

numbers, Client IDs and DP IDs shall not be treated as multiple Bids (“MIM Bids”). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that initialize the multi-investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as “MIM Structure”). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

BIDS BY SEBI-REGISTERED AIFS, VCFS AND FVCIS

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFS and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFS, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its

subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see *“Key Regulations and Policies”* beginning on page 156.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

- b) The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the

percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.

- c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e) In case if the Individual Investors category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue, it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Individual Investors may be on proportionate basis. No Individual Investors will be allotted less than the minimum Bid Lot subject to availability of shares in Individual Investors Category and the remaining available shares, if any will be allotted on a proportionate basis.

BASIS OF ALLOTMENT

a. For Individual Investors

Bids received from the Individual Investors at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Individual Investors will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for allotment to Individual Investors who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Issue Price, full Allotment shall be made to the Individual Investors to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Issue Price.

The Issue size less Allotment to QIBs and Retail shall be available for allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Issue Price, full allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. For QIBs

Bids received from QIBs Bidding in the QIB Category at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

- i. In the first instance, allocation to Mutual Funds for [●]% of the QIB Portion shall be determined as follows:
 - In the event that Bids by Mutual Fund exceeds [●]% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●]% of the QIB Portion.
 - In the event that the aggregate demand from Mutual Funds is less than [●]% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
 - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- ii. In the second instance, allotment to all QIBs shall be determined as follows:
 - In the event of oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter for [●]% of the QIB Portion.
 - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, along with other QIB Bidders.
 - Under-subscription below [●]% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares.
- iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Emerge Platform of National Stock Exchange of India Limited (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over

subscription ratio).

- c) For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
- Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this RHP.

Individual Investors means an investor who applies for shares of value of not more than ₹ 2,00,000/. Investors may note that in case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with NSE Limited.

The Executive Director / Managing Director of NSE Limited – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Issuance of Allotment Advice

- 1) Upon approval of the Basis of Allotment by the Designated Stock Exchange.
- 2) On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

The below outline summarizes the steps followed from the receipt of applications to the final allotment:
Allotment Process Methodology

1. Post-Approval of Basis of Allotment from the Exchange

Once the basis of allotment is approved by the stock exchange, the following steps are initiated:

- Random Allocation: The basis of allotment is based on a reverse application number to ensure a random lottery system, eliminating any discretion in the allotment process.
- Sharing of Lucky Numbers: The Exchange provides the lucky numbers based on the ratio determined for each investor category.

2. Reversal of Application Numbers

- Reversal Process: For each valid application, the application number is reversed. For example, an application number of 12345678 becomes 87654321 after reversal.
- Arrangement: All reversed application numbers are arranged in ascending order for each investor category.

3. Segregation into Buckets

- Bucket Creation: If the ratio for allotment is determined to be 2:5, the applications are segregated into buckets of five. This allows for a structured allocation approach.
- Selection of Lucky Numbers: The Exchange assigns lucky numbers (e.g., 3 and 4) to determine which applications will receive shares from each bucket.

4. Allotment Determination

- Allocating Shares: For every bucket of applications:
Applications numbered 3 and 4 in each bucket will be selected for allotment.
This process is repeated for all categories that require allotment via the lottery system.

Note on Allotment Process

1. Receipt & Validation of Bid Data

- Data Download: Bid data is downloaded from the stock exchanges through SFTP (Secure File Transfer Protocol)

- Validation Checks: The data is validated against depository records to check for:

Invalid demat accounts
Invalid client status
PAN mismatch records

- Error Marking: Any errors identified are marked with the corresponding rejection criteria.

2. Collection of Final Certificates (FCs) and Schedule Data

- Follow-Up: The RTA follows up with Self-Certified Syndicate Banks (SCSBs) to collect Final Certificates confirming:

The total amount blocked.
The number of applications.

- Reconciliation Process:

A reconciliation is performed between bid data and bank schedule data. Applications without funds blocked are removed from the master list.

Post-reconciliation, a valid dataset of applications is prepared for the allotment process.

3. Technical Rejection Process

- Identification of Valid Applications: The technical rejection process as per the terms outlined in the letter of offer is executed, which identifies valid applications eligible for the basis of allotment.

4. Basis of Allotment

- Category-wise Allocation: The basis of allotment is prepared for different categories:

Market Makers
Eligible Employees
Individual Investors (applications under ₹2 lakhs)
High Net worth Individual Investors (HNI) (applications over ₹2 lakhs)

- Tagging Applications: Applications are tagged according to the above categories for allotment processing.
- Allocable Shares Calculation: Allocable shares for each category are determined as per the RHP and in proportion to subscriptions among each category.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“RBI”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“FDI”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”), has issued consolidated FDI Policy Circular of 2017 (“FDI Policy 2017”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular. The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to *inter-alia*, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, *inter-alia* with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore, applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company. The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, , FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under

Schedule 1, 2, 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument under any arrangement shall be reckoned as foreign investment under the composite cap. Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FPIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

ii. Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent of the paid-up value of each series of debentures or preference 373 shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

iii. Investment by NRI or OCI on non-repatriation basis:

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws. Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

The reduction of Preference Shares under the provisions by the Company shall not be taken as reducing the amount of its Authorized Share Capital</p>
9.	Reduction of capital	<p>The Company may (subject to the provisions of sections 52, 55, 66, both inclusive, and other applicable provisions, if any, of the Act) from time to time by Special Resolution reduce</p> <p>(a) the share capital;</p> <p>(b) any capital redemption reserve account; or</p> <p>(c) any security premium account</p> <p>In any manner for the time being, authorized by law and in particular capital may be paid off on the footing that it may be called up again or otherwise. This Article is not to derogate from any power the Company would have, if it were omitted.</p>
10.	Debentures	<p>Any debentures, debenture-stock or other securities may be issued at a discount, premium or otherwise and may be issued on condition that they shall be convertible into shares of any denomination and with any privileges and conditions as to redemption, surrender, drawing, allotment of shares, attending (but not voting) at the General Meeting, appointment of Directors and otherwise. Debentures with the right to conversion into or allotment of shares shall be issued only with the consent of the Company in the General Meeting by a Special Resolution.</p>
11.	Issue of Sweat Equity Shares	<p>The Company may exercise the powers of issuing sweat equity shares conferred by Section 54 of the Act of a class of shares already issued subject to such conditions as may be specified in that sections and rules framed thereunder.</p>
12.	ESOP	<p>The Company may issue shares to Employees including its Directors other than independent directors and such other persons as the rules may allow, under Employee Stock Option Scheme (ESOP) or any other scheme, if authorized by a Special Resolution of the Company in</p>
		<p>general meeting subject to the provisions of the Act, the Rules and applicable guidelines made there under, by whatever name called.</p>
13.	Buy Back of shares	<p>Notwithstanding anything contained in these articles but subject to the provisions of sections 68 to 70 and any other applicable provision of the Act or any other law for the time being in force, the company may purchase its own shares or other specified securities.</p>
14.	Consolidation, Sub- Division And Cancellation	<p>Subject to the provisions of Section 61 of the Act, the Company in general meeting may, from time to time, sub-divide or consolidate all or any of the share capital into shares of larger amount than its existing share or sub-divide its shares, or any of them into shares of smaller amount than is fixed by the Memorandum; subject nevertheless, to the provisions of clause (d) of sub-</p>

		section (1) of Section 61; Subject as aforesaid the Company in general meeting may also cancel shares which have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of the shares so cancelled.
15.	Issue of Depository Receipts	Subject to compliance with applicable provision of the Act and rules framed thereunder the company shall have power to issue depository receipts in any foreign country.
16.	Issue of Securities	Subject to compliance with applicable provision of the Act and rules framed thereunder the company shall have power to issue any kind of securities as permitted to be issued under the Act and rules framed thereunder.
MODIFICATION OF CLASS RIGHTS		
17.	Modification of rights	(a) If at any time the share capital, by reason of the issue of Preference Shares or otherwise is divided into different classes of shares, all or any of the rights privileges attached to any class (unless otherwise provided by the terms of issue of the shares of the class) may, subject to the provisions of Section 48 of the Act and whether or not the Company is being wound-up, be varied, modified or dealt, with the consent in writing of the holders of not less than three-fourths of the issued shares of that class or with the sanction of a Special Resolution passed at a separate general meeting of the holders of the shares of that class. The provisions of these Articles relating to general meetings shall mutatis mutandis apply to every such separate class of meeting. Provided that if variation by one class of shareholders affects the rights of any other class of shareholders, the consent of three-fourths of such other class of shareholders shall also be obtained and the provisions of this section shall apply to such variation.
18	New Issue of Shares not to affect rights attached to existing shares of that class.	(b) The rights conferred upon the holders of the Shares including Preference Share, if any) of any class issued with preferred or other rights or privileges shall, unless otherwise expressly provided by the terms of the issue of shares of that class, be deemed not to be modified, commuted, affected, abrogated, dealt with or varied by the creation or issue of further shares ranking pari passu therewith.
19.	Shares at the disposal of the Directors.	Subject to the provisions of Section 62 of the Act and these Articles, the shares in the capital of the company for the time being shall be under the control of the Directors who may issue, allot or otherwise dispose of the same or any of them to such persons, in such proportion and on such terms and conditions and either at a premium or at par and at such time as they may from time to time think fit and with the sanction of the company in the General Meeting to give to any person or persons the option or right to call for any shares either at par or premium during such time and for such consideration as the Directors think fit, and may issue and allot shares in the capital of the company on payment in full or part of any property sold and transferred or for any services rendered to the company in the conduct of its business and any shares which may so be allotted may be issued as fully paid up shares and if so issued, shall be deemed to be fully paid shares.
20.	Power to issue shares on preferential basis.	The Company may issue shares or other securities in any manner whatsoever including by way of a preferential offer, to any persons whether or not those persons include the persons referred to in clause (a) or clause (b) of sub-section (1) of section 62 subject to compliance with section 42 and 62 of the Act and rules framed thereunder.
21.	Shares should be Numbered progressively and no share to be subdivided.	The shares in the capital shall be numbered progressively according to their several denominations, and except in the manner hereinbefore mentioned no share shall be sub-divided. Every forfeited or surrendered share shall continue to bear the number by which the same was originally distinguished.
22.	Acceptance of Shares.	An application signed by or on behalf of an applicant for shares in the Company, followed by an allotment of any shares therein, shall be an acceptance of shares within the meaning of these Articles, and every person who thus or otherwise accepts any shares and whose name is on the Register shall for the purposes of these Articles, be a Member.

23.	Directors may allot shares as full paid-up	Subject to the provisions of the Act and these Articles, the Directors may allot and issue shares in the Capital of the Company as payment or part payment for any property (including goodwill of any business) sold or transferred, goods or machinery supplied or for services rendered to the Company either in or about the formation or promotion of the Company or the conduct of its business and any shares which may be so allotted may be issued as fully paid-up or partly paid-up otherwise than in cash, and if so issued, shall be deemed to be fully paid-up or partly paid-up shares as aforesaid.
24.	Deposit and call etc.to be a debt payable immediately.	The money (if any) which the Board shall on the allotment of any shares being made by them, require or direct to be paid by way of deposit, call or otherwise, in respect of any shares allotted by them shall become a debt due to and recoverable by the Company from the allottee thereof, and shall be paid by him, accordingly.
25.	Liability of Members.	Every Member, or his heirs, executors, administrators, or legal representatives, shall pay to the Company the portion of the Capital represented by his share or shares which may, for the time being, remain unpaid thereon, in such amounts at such time or times, and in such manner as the Board shall, from time to time in accordance with the Company's regulations, require on date fixed for the payment thereof.
26.	Registration of Shares.	Shares may be registered in the name of any limited company or other corporate body but not in the name of a firm, an insolvent person or a person of unsound mind.
RETURN ON ALLOTMENTS TO BE MADE OR RESTRICTIONS ON ALLOTMENT		
27.		The Board shall observe the restrictions as regards allotment of shares to the public, and as regards return on allotments contained in Sections 39 of the Act.
CERTIFICATES		
28.	Share Certificates.	<p>(a) Every member shall be entitled, without payment, to one or more certificates in marketable lots, for all the shares of each class or denomination registered in his name, or if the Directors so approve (upon paying such fee as provided in the relevant laws) to several certificates, each for one or more of such shares and the company shall complete and have ready for delivery such certificates within two months from the date of allotment, unless the conditions of issue thereof otherwise provide, or within one month of the receipt of application for registration of transfer, transmission, sub-division, consolidation or renewal of any of its shares as the case may be. Every certificate of shares shall be under the seal of the company and shall specify the number and distinctive numbers of shares in respect of which it is issued and amount paid-up thereon and shall be in such form as the directors may prescribe or approve, provided that in respect of a share or shares held jointly by several persons, the company shall not be bound to issue more than one certificate and delivery of a certificate of shares to one of several joint holders shall be sufficient delivery to all such holder. Such certificate shall be issued only in pursuance of a resolution passed by the Board and on surrender to the Company of its letter of allotment or its fractional coupons of requisite value, save in cases of issues against letter of acceptance or of renunciation or in cases of issue of bonus shares. Every such certificate shall be issued under the seal of the Company, which shall be affixed in the presence of two Directors or persons acting on behalf of the Directors under a duly registered power of attorney and the Secretary or some other person appointed by the Board for the purpose and two Directors or their attorneys and the Secretary or other person shall sign the share certificate, provided that if the composition of the Board permits of it, at least one of the aforesaid two Directors shall be a person other than a Managing or whole-time Director. Particulars of every share certificate issued shall be entered in the Register of Members against the name of the person, to whom it has been issued, indicating the date of issue.</p> <p>(b) Any two or more joint allottees of shares shall, for the purpose of</p>

		<p>this Article, be treated as a single member, and the certificate of any shares which may be the subject of joint ownership, may be delivered to anyone of such joint owners on behalf of all of them. For any further certificate the Board shall be entitled, but shall not be bound, to prescribe a charge not exceeding Rupees Fifty. The Company shall comply with the provisions of Section 39 of the Act.</p> <p>(c) A Director may sign a share certificate by affixing his signature thereon by means of any machine, equipment or other mechanical means, such as engraving in metal or lithography, but not by means of a rubber stamp provided that the Director shall be responsible for the safe custody of such machine, equipment or other material used for the purpose.</p>
29.	Issue of new certificates in place of those defaced, lost or destroyed.	<p>If any certificate be worn out, defaced, mutilated or torn or if there be no further space on the back thereof for endorsement of transfer, then upon production and surrender thereof to the Company, a new Certificate may be issued in lieu thereof, and if any certificate lost or destroyed then upon proof thereof to the satisfaction of the company and on execution of such indemnity as the company deem adequate, being given, a new Certificate in lieu thereof shall be given to the party entitled to such lost or destroyed Certificate. Every Certificate under the Article shall be issued without payment of fees if the Directors so decide, or on payment of such fees (not exceeding Rs.50/- for each certificate) as the Directors shall prescribe. Provided that no fee shall be charged for issue of new certificates in replacement of those which are old, defaced or worn out or where there is no further space on the back thereof for endorsement of transfer.</p> <p>Provided that notwithstanding what is stated above the Directors shall comply with such Rules or Regulation or requirements of any Stock Exchange or the Rules made under the Act or the rules made under Securities Contracts (Regulation) Act, 1956, or any other Act, or rules applicable in this behalf.</p> <p>The provisions of this Article shall mutatis mutandis apply to debentures of the Company.</p>
30.	The first named joint holder deemed Sole holder.	<p>(a) If any share stands in the names of two or more persons, the person first named in the Register shall as regard receipts of dividends or bonus or service of notices and all or any other matter connected with the Company except voting at meetings, and the transfer of the shares, be deemed sole holder thereof but the joint-holders of a share shall be severally as well as jointly liable for the payment of all calls and other payments due in respect of such share and for all incidentals thereof according to the Company's regulations.</p>
31.	Maximum number of joint holders.	<p>(b) The Company shall not be bound to register more than three persons as the joint holders of any share.</p>
32.	Company not bound to recognise any interest in share other than that of registered holders.	<p>Except as ordered by a Court of competent jurisdiction or as by law required, the Company shall not be bound to recognise any equitable, contingent, future or partial interest in any share, or (except only as is by these Articles otherwise expressly provided) any right in respect of a share other than an absolute right thereto, in accordance with these Articles, in the person from time to time registered as the holder thereof but the Board shall be at liberty at its sole discretion to register any share in the joint names of any two or more persons or the survivor or survivors of them.</p>
33.	Installment on shares to be duly paid.	<p>If by the conditions of allotment of any share the whole or part of the amount or issue price thereof shall be payable by installment, every such installment shall when due be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the share or his legal representative.</p>
UNDERWRITING AND BROKERAGE		
34.	Commission	<p>Subject to the provisions of Section 40 (6) of the Act, the Company may at any time pay a commission to any person in consideration of his subscribing or</p>

		agreeing, to subscribe (whether absolutely or conditionally) for any shares or debentures in the Company, or procuring, or agreeing to procure subscriptions (whether absolutely or conditionally) for any shares or debentures in the Company but so that the commission shall not exceed the maximum rates laid down by the Act and the rules made in that regard. Such commission may be satisfied by payment of cash or by allotment of fully or partly paid shares or partly in one way and partly in the other.
35.	Brokerage	The Company may pay on any issue of shares and debentures such brokerage as may be reasonable and lawful.
CALLS		
36.	Directors may make calls	<p>(1) The Board may, from time to time, subject to the terms on which any shares may have been issued and subject to the conditions of allotment, by a resolution passed at a meeting of the Board and not by a circular resolution, make such calls as it thinks fit, upon the Members in respect of all the moneys unpaid on the shares held by them respectively and each Member shall pay the amount of every call so made on him to the persons and at the time and places appointed by the Board.</p> <p>(2) A call may be revoked or postponed at the discretion of the Board.</p> <p>(3) A call may be made payable by installments.</p>
37.	Notice of Calls	Fifteen days' notice in writing of any call shall be given by the Company specifying the time and place of payment, and the person or persons to whom such call shall be paid.
38.	Calls to date from resolution.	A call shall be deemed to have been made at the time when the resolution of the Board of Directors authorising such call was passed and may be made payable by the members whose names appear on the Register of Members on such date or at the discretion of the Directors on such subsequent date as may be fixed by Directors.
39.	Calls on uniform basis.	Whenever any calls for further share capital are made on shares, such calls shall be made on uniform basis on all shares falling under the same class. For the purposes of this Article shares of the same nominal value of which different amounts have been paid up shall not be deemed to fall under the same class.
40.	Directors may extend time.	The Board may, from time to time, at its discretion, extend the time fixed for the payment of any call and may extend such time as to all or any of the members who on account of the residence at a distance or other cause, which the Board may deem fairly entitled to such extension, but no member shall be entitled to such extension save as a matter of grace and favour.
41.	Calls to carry interest.	If any Member fails to pay any call due from him on the day appointed for payment thereof, or any such extension thereof as aforesaid, he shall be liable to pay interest on the same from the day appointed for the payment thereof to the time of actual payment at such rate as shall from time to time be fixed by the Board not exceeding 21% per annum but nothing in this Article shall render it obligatory for the Board to demand or recover any interest from any such member.
42.	Sums deemed to be calls.	If by the terms of issue of any share or otherwise any amount is made payable at any fixed time or by installments at fixed time (whether on account of the amount of the share or by way of premium) every such amount or installment shall be payable as if it were a call duly made by the Directors and of which due notice has been given and all the provisions herein contained in respect of calls shall apply to such amount or installment accordingly.
43.	Proof on trial of suit for money due on shares.	On the trial or hearing of any action or suit brought by the Company against any Member or his representatives for the recovery of any money claimed to be due to the Company in respect of his shares, it shall be sufficient to prove that the name of the Member in respect of whose shares the money is sought to be recovered, appears entered on the Register of Members as the holder, at or subsequent to the date at which the money is sought to be recovered is alleged to have become due on the share in respect of which such money is sought to be recovered in the Minute Books: and that notice of such call was

		duly given to the Member or his representatives used in pursuance of these
		Articles: and that it shall not be necessary to prove the appointment of the Directors who made such call, nor that a quorum of Directors was present at the Board at which any call was made was duly convened or constituted nor any other matters whatsoever, but the proof of the matters aforesaid shall be conclusive evidence of the debt.
44.	Judgment, decree, partial payment motto proceed for forfeiture.	Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member of the Company in respect of his shares, either by way of principal or interest, nor any indulgence granted by the Company in respect of the payment of any such money, shall preclude the Company from thereafter proceeding to enforce forfeiture of such shares as hereinafter provided.
45.	Payments in Anticipation of calls may carry interest	<p>(a) The Board may, if it thinks fit, receive from any Member willing to advance the same, all or any part of the amounts of his respective shares beyond the sums, actually called up and upon the moneys so paid in advance, or upon so much thereof, from time to time, and at any time thereafter as exceeds the amount of the calls then made upon and due in respect of the shares on account of which such advances are made the Board may pay or allow interest, at such rate as the member paying the sum in advance and the Board agree upon. The Board may agree to repay at any time any amount so advanced or may at any time repay the same upon giving to the Member three months' notice in writing: provided that moneys paid in advance of calls on shares may carry interest but shall not confer a right to dividend</p> <p>(b) or to participate in profits.</p> <p>(b) No Member paying any such sum in advance shall be entitled to voting rights in respect of the moneys so paid by him until the same would but for such payment become presently payable. The provisions of this Article shall mutatis mutandis apply to calls on debentures issued by the Company.</p>
LIEN		
46.	Company to have Lien on shares.	The Company shall have a first and paramount lien upon all the shares/debentures (other than fully paid-up shares/debentures) registered in the name of each member (whether solely or jointly with others) and upon the proceeds of sale thereof for all moneys (whether presently payable or not) called or payable at a fixed time in respect of such shares/debentures and no equitable interest in any share shall be created except upon the footing and condition that this Article will have full effect. And such lien shall extend to all dividends and bonuses from time to time declared in respect of such shares/debentures. Unless otherwise agreed the registration of a transfer of shares/debentures shall operate as a waiver of the Company's lien if any, on such shares/debentures. The Directors may at any time declare any shares/debentures wholly or in part to be exempt from the provisions of this clause.
47.	As to enforcing lien by sale.	For the purpose of enforcing such lien the Directors may sell the shares subject thereto in such manner as they shall think fit, but no sale shall be made until such period as aforesaid shall have arrived and until notice in writing of the intention to sell shall have been served on such member or the person (if any) entitled by transmission to the shares and default shall have been made by him in payment, fulfillment of discharge of such debts, liabilities or engagements for seven days after
		such notice. To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand

		cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.
48.	Application of proceeds of sale.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.
FORFEITURE AND SURRENDER OF SHARES		
49.	If call or installment not paid, notice may be given.	If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non- payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or installment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force.
50.	Terms of notice.	The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid. The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited.
51.	On default of payment, shares to be forfeited.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.
52.	Notice of forfeiture to a Member	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members.
53.	Forfeited shares to be property of the Company and may be sold etc.	Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.
54.	Members still liable to pay money owing at time of forfeiture and interest.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the

		forfeiture, but shall not be under any obligation to do so.
55.	Effect of forfeiture.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.
56.	Evidence of Forfeiture.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.
57.	Title of purchaser and allottee of Forfeited shares.	The Company may receive the consideration, if any, given for the share on any sale, re-allotment or other disposition thereof and the person to whom such share is sold, re-allotted or disposed of may be registered as the holder of the share and he shall not be bound to see to the application of the consideration: if any, nor shall his title to the share be affected by any irregularly or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or other disposal of the shares.
58.	Cancellation of share certificate in respect of forfeited shares.	Upon any sale, re-allotment or other disposal under the provisions of the preceding Article, the certificate or certificates originally issued in respect of the relative shares shall (unless the same shall on demand by the Company have been previously surrendered to it by the defaulting member) stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a duplicate certificate or certificates in respect of the said shares to the person or persons entitled thereto.
59.	Forfeiture may be remitted.	In the meantime and until any share so forfeited shall be sold, re- allotted, or otherwise dealt with as aforesaid, the forfeiture thereof may, at the discretion and by a resolution of the Directors, be remitted as a matter of grace and favour, and not as was owing thereon to the Company at the time of forfeiture being declared with interest for the same unto the time of the actual payment thereof if the Directors shall think fit to receive the same, or on any other terms which the Director may deem reasonable.
60.	Validity of sale	Upon any sale after forfeiture or for enforcing a lien in purported exercise of the powers hereinbefore given, the Board may appoint some person to execute an instrument of transfer of the Shares sold and cause the purchaser's name to be entered in the Register of Members in respect of the Shares sold, and the purchasers shall not be bound to see to the regularity of the proceedings or to the application of the purchase money, and after his name has been entered in the Register of Members in respect of such Shares, the validity of the sale shall not be impeached by any person and the remedy of any person aggrieved by the sale shall be in damages only and against the Company exclusively.
61.	Surrender of shares.	The Directors may, subject to the provisions of the Act, accept a surrender of any share from or by any Member desirous of surrendering on such terms the Directors may think fit.
