The list of securities witnessing price volatility

In view of the volatile market scenario , Clearing Corporation has decided that scrips witnessing price volatility of more than 250% in the past 6 weeks and having low liquidity would attract an additional security specific margin of 50%. The scrips witnessing price volatility of more than 150% and less than 250% will attract an additional security specific margin of 20%.

The list of scrips attracting this additional margin would be announced to members from time to time (normally at the beginning of a settlement and along with the list of scrips subject to volatility margin).

The list of 63 securities witnessing price volatility of more than 250% and attracting additional security specific margin of 50% effective from January 19, 2000 is placed in Annexure – A

The list of 78 securities witnessing price volatility of more than 150% and less than 250% and attracting additional security specific margin of 20% effective from January 19, 2000 is placed in Annexure – B.
