Dear Sirs,

Launch of 'Household Electrical Safety Handbook' along with safety training for its consumers in Mumbai

The Company has always been a front runner in promoting safety and safe usage of electricity. Continuing with its efforts, Tata Power released a **'Household Electrical Safety Handbook'** along with safety training for its consumers in Mumbai. The safety handbook was inaugurated by Mr. Sunil Joglekar, Chief- Distribution Customer Services, Tata Power at a session in a co-operative housing society which saw participation of close to 70 consumers including women and senior citizens.

The objective behind this initiative is to provide a unified solution to consumers' concerns related to household safety and address the diverse challenges faced in case of high rise buildings. The Company through this educative handbook aims to advice on safety guidelines for household electrical appliances, maintenance and testing of electrical installations, practices to prevent fire, lift safety and steps to follow in case of a fire.

The Press Release to be issued by the Company is attached for your ready reference.

Yours faithfully,
For The Tata Power Company Limited

Tata Power launches 'Household Electrical Safety Handbook' along with safety training for its consumers in Mumbai

~ A comprehensive guide to all the concerns of electrical and fire safety at home~

National, December 7th, 2015: Tata Power, India's largest integrated power company, has always been a front runner in promoting safety and safe usage of electricity. Continuing with its efforts, Tata Power released a **'Household Electrical Safety Handbook'** along with safety training for its consumers in Mumbai. The safety handbook was inaugurated by Mr. Sunil Joglekar, Chief- Distribution Customer Services, Tata Power at a session in a co-operative housing society which saw participation of close to 70 consumers including women and senior citizens.

The objective behind this initiative is to provide a unified solution to consumers' concerns related to household safety and address the diverse challenges faced in case of high rise buildings. Mumbai as a geography has varied residential structures, century old buildings, chawls, slums, tall towers and the upcoming high-rise. Safety in high rise buildings need significant attention due to absence of some critical knowledge on safety practices and working of safety installations. It is rare to hear about electrical incidents at home but each year there are numerous such incidents resulting in losses. These incidents mostly occur due to carelessness or lack of awareness of some basic principles. The Company through this educative handbook aims to advice on safety guidelines for household electrical appliances, maintenance and testing of electrical installations, practices to prevent fire, lift safety and steps to follow in case of a fire.

A training session demonstrating various safety measures including the importance of proper location of fire extinguisher, maintenance aspects and how to check its healthiness was also conducted for the consumers.

Speaking on the launch of this initiative, **Mr. Ashok Sethi, COO & ED, Tata Power,** said- *"We at Tata Power believe in giving utmost priority to safety in day to day life. With the help of the Safety Handbook and training sessions, we hope that this handbook will be an effective guide for consumers to enjoy the comforts and convenience of electricity with utmost safety. We look forward to cover more consumers in housing societies under this initiative and make a difference in their lives."*

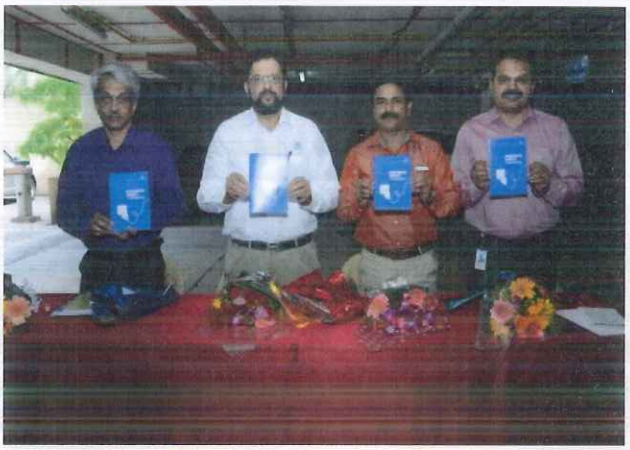

At Tata Power safety has been a core value and in pursuit of this belief and commitment, the company has been regularly conducting safety training programs for its residential consumers with a significant attention on high rise buildings. Consumers also shared their feedback and requested Tata Power to print the electrical safety handbook in hindi, display safety posters inside lifts, carry out additional safety audit of their premises and recommend suitable auditors for this purpose.

Tata Power launches 'Household Electrical Safety Handbook' for its consumers in Mumbai

About Tata Power:

Tata Power is India's largest integrated power company with a growing international presence. The Company together with its subsidiaries and jointly controlled entities has an installed gross generation capacity of [8669] MW and a presence in all the segments of the power sector viz. Fuel Security and Logistics, Generation (thermal, hydro, solar and wind), Transmission, Distribution and Trading. It has successful public-private partnerships in Generation, Transmission and Distribution in India namely "Tata Power Delhi Distribution Limited" with Delhi Vidyut Board for distribution in North Delhi, 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi and 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology. It is also one of the largest renewable energy players in India. Its international presence includes strategic investments in Indonesia through a 30% stake in the leading coal company PT Kaltim Prima Coal (KPC), 26% stake in mines at PT Baramulti Suksessarana Tbk ("BSSR") and a geothermal project; in Singapore through Trust Energy Resources to securitise coal supply and the shipping of coal for its thermal power generation operations; in South Africa through a joint venture called 'Cennergi' to develop projects in South Africa, Botswana and Namibia; in Australia through investments in enhanced geothermal and clean coal technologies and in Bhutan through a hydro project in partnership with The Royal Government of Bhutan. With its track record of technology leadership, project execution excellence, world class safety processes, customer care and driving green

initiatives, Tata Power is poised for a multi-fold growth and committed to 'lighting up lives' for generations to come. Visit us at: www.tatapower.com
