Form 1B Annual Self-Disclosures Report

Based on requirements of SEBI Circular of September 19, 2022:

C - Annual disclosure by NPOs on SSE which have either raised funds through SSE or are registered with SSE in terms of Regulation 91C of the LODR Regulations,

D - Disclosure of Annual Impact Report by all Social Enterprises which have registered or raised funds using SSE in terms Regulation 91E of the LODR Regulations and

Annexure I: Guidance notes for listed/ registered NPOs on disclosures of general, governance and finance aspects.

Please refer to the circular and its Annexures for detailed description of requirements.

Form 1A covers disclosures of general and governance aspects that are not dependant on statutory financial audit.

Form 1B covers disclosures of general, governance and finance aspects that have a reference to audited financial statements and filings with Income Tax, FCRA, Charity Commissioner, Registrar of Societies, Registrar of Companies and other regulators as applicable.

Instructions

All NPOs participating on the SSE (all registered regardless of whether they have currently listed securities or not) will **self-report annually in Form 1B Annual Self-Disclosures Report. A copy will be filed with the respective SSE by 31st Oct every year.**

Form 1B indicates which fields are mandatory for NPOs based on their annual spending

Annual Spending as per Audited Financial Statements of the previous financial year under review.

S1: Upto Rs1 Cr

S2: >Rs1 Cr

(These slabs may be reviewed by SEBI, periodically as per need.)

Auditor's Report

Global Vikas Trust TRN: E-33025 (Mumbai)

We have audited the Balance Sheet of Global Vikas Trust as at 31st March 2026 and the Income and Expenditure Accounts for the year ended on that date. Key points include:

1. These financial statements are the responsibility of the Trust's Management. Our responsibility is to express an opinion based on the audit.
2. We have conducted our audit in accordance with generally accepted auditing standards in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining on a test-check basis, the evidence supporting the amount and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates, made by the management, as well as evaluation of overall financial statement presentation. We believe that our audit provides reasonable basis for our Opinion.
3. Further to our comments in the report attached in the prescribed form under the relevant section and rules of the Maharashtra Public Trust Act and subjects to the notes forming part of the Accounts (Attached to the Balance sheet and the Income & Expenditure Accounts) we report as under:
 - All necessary information and explanations were obtained.
 - Proper books of accounts have been kept by the trust so far as appears from our examination of those books.

- The Balance Sheet and Income and Expenditure Accounts are in agreement with the books of accounts and comply with the applicable accounting standards.
4. In our opinion and to the best of our information and according to the explanation given to us, the said accounts, read together with the significant Accounting Policies and Notes to Accounts and other Notes and remarks appearing elsewhere in the accounts and remarks give the information required by the Maharashtra Public Trusts Act, 1950 in the manner so required and give a true and fair view:
- of the assets and liabilities as on 31st March 2026 (Balance Sheet)
 - of the surplus for the year ended 31st March 2026 (Income and Expenditure Account)

GLOBAL VIKAS TRUST

Trust Registration No: E-033025 (Mumbai)

Significant Accounting Policies and Notes to Accounts for the year ended 31.03.2026

I. BACKGROUND:

Global Vikas Trust a charitable trust, is dedicated to transforming rural India by enhancing the livelihoods of marginal farmers and promoting sustainable agricultural practices. Operating primarily in the Marathwada region of Maharashtra and Gujrat, the project tackles critical issues such as water scarcity, soil quality, and crop productivity. Key activities include encouraging farmers to diversify from traditional crops to horticultural fruit tree plantations, aiming to boost incomes to at least ₹1 lakh per acre annually also improving water management through the construction of check dams and Global River Aqua shafts, which recharge aquifers and raise the water table, thereby supporting agricultural activities and enhancing household resilience.

The Trust is registered under Section 12A(a) and 80G of the Income Tax Act, 1961, vide Registration no. AACTG7113LE20214 Dated 28.05.2021 from AY 2022-23 to AY 2026-27.

The Trust is registered under FCRA 1976 vide No. 083781701 dated 22.09.2023 for a period of 5 years with effect from date of Registration.

II. SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS:

1. Basis of preparation

The financial statements are prepared and presented under the historical cost convention on the accrual basis of accounting and comply with the mandatory Accounting Standards ("AS") prescribed by the Institute of Chartered Accountants of India to the extent applicable.

2. Revenue Recognition

The Trust has a policy to recognize income as follows:

- a) Grants as and when utilized
- b) Donations as and when received
- c) Project Receipts as and when received
- d) Interest income from bank as and when received and as per the certification from banks.
- e) Expenses are recognised on accrual basis.

For GLOBAL VIKAS TRUST

  Trustee

3. Other Earmarked Fund

Further, for FY 2022-2023 & FY 2023-2024 Trust had filed Form 10 Setting a side Rs. 11,08,24,246/-. During the year amount of Rs. 5,64,35,435/- of FY 2022-2023 is Utilised in FY 2025-2026 from Set Apart Fund.

4. Investment

The Trust has made Investments in Fixed Deposits with Bank. The year-end Balance including Accrued Interest Rs. 36,19,27,294.00/-

5. Project Expenses

Project Expenses consist of expenses directly incurred as identified by the Management towards specific projects.

6. Fixed Assets and Depreciation

- a) The fixed assets have been capitalized at acquisition cost, with all identifiable expenditure incurred to bring the asset into present condition.
- b) As informed, the management has done physical verification of Fixed Assets during the year. On such verification no discrepancies were found.
- c) The assets acquired for specific usage are accounted at its full value.
- d) Depreciation has been charged at the rates prescribed under the Income Tax Act, 1961.
- e) Some fixed assets purchased have been installed at the premises of the Project. The Management has informed that the same has been physically verified by them and no material discrepancies from books were found on such verification.
- f) None of the fixed assets have been revalued during the year.

7. Provisions

A provision is recognized if, as a result of a past event, the Trust has a present legal obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by the best estimate of the outflow of economic benefits required to settle the obligation at reporting date. Where no reliable estimate can be made, a disclosure is made as contingent liability. A disclosure for contingent liability is also made, when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resource is remote, no provision or disclosure is made.

For GLOBAL VIKAS TRUST

  Trustee

8. **Contingent Liabilities**

There are no Contingent Liabilities.

9. **Events occurring after the date of the Balance Sheet**

As per the information and explanations given, there are no events occurring after the date of the Balance Sheet which alter or materially affect the financial position of the Balance Sheet as on that date.

The balances of creditors, loans, advances, deposits etc as shown in the Financial Statements as on 31.03.2026, are subject to confirmation & subject to adjustments due to any reconciliation after such confirmation.

10. Wherever documentary evidence or supporting was not available for expenses, we have relied upon the management authentication and representation, that the same has been incurred for the purpose of the Trust.
11. All the figures in the Financials are rounded to nearest rupees.
12. Corresponding figures for previous periods presented have been regrouped, where necessary, to conform to the current year's classification.

**Audit Report under Section 12A (b) of the Income Tax Act, 1961, in the case of
Charitable or Religious Trusts or Institutions**

We have examined the Balance Sheet of **GLOBAL VIKAS TRUST** Registered office at **G-1, Plot No. 215, Nilan Sagar CHSL, Jawahar Nagar, Road No. 3, Goregaon West, Mumbai - 400104** as at 31.03.2026 and the Income and Expenditure Account for the year ended on the date, annexed thereto, which are in agreement with the books of accounts maintained by the said Trust. These Financial statements are the responsibility of the Trust's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

In our opinion, the accompanying Financial Statements of the trust are prepared, in all material aspects, in accordance with Income Tax Act, 1961.

Basis for Opinion:

We conducted our audit in accordance with Standard on Auditing (SAs). Our responsibilities under those Standards are further described in the Auditor's responsibilities for the Audit of the Financial Statement section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of management and Those Charged with Government for the Financial Statements.:

Trust Management is responsible for the preparation of the Financial Statements in accordance with Income Tax Act, 1961 and for such internal controls as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, trust management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

We have obtained all the information and explanation, which to the best of our knowledge and belief were necessary for the purpose of our audit. In our opinion, proper books of accounts have been kept by the above named Trust, so far as appears from our examination of the Books.

Based on our audit and in our opinion and to the best of our information, and according to information given to us, the said accounts, subject to Notes forming part of the Accounts, give a true and fair view.

In the case of the Balance Sheet of the state of affairs of the Trust as at 31st March, 2026.

In the case of the Income and Expenditure Account, of the Surplus of the Trust for the year ended on that date.

42. Details of transactions referred to in section 13 (2)

- | | |
|--|----|
| (a) Whether any part of the income or property of the auditee is, or continues to be, lent to any specified person for any period during the previous year without either adequate security or adequate interest or both | No |
| (b) Whether any land, building or other property of the auditee is, or continues to be, made available for the use of any specified person, for any period during the previous year without charging adequate rent or other compensation; | No |
| (c) Whether any amount is paid by way of salary, allowance or otherwise during the previous year to any specified person out of the resources of the trust or institution for services rendered by that person to such auditee and the amount so paid is in excess of what may be reasonably paid for such services; | No |
| (d) Whether the services of the auditee are made available to any specified person during the previous year without adequate remuneration or other compensation; | No |
| (e) Whether any share, security or other property is purchased by or on behalf of the auditee from any specified person during the previous year for consideration which is more than adequate; | No |
| (f) Whether any share, security or other property is sold by or on behalf of the auditee to any specified person during the previous year for consideration which is less than adequate; | No |
| (g) Whether any income or property of the auditee is diverted during the previous year in favour of any specified person | No |
| (h) Whether any funds of the auditee are, or continue to remain, invested for any period during the previous year, in any concern in which any specified person has a substantial interest. | No |

43. Specified Violation

Whether the auditee has incurred any specified violation as referred to in Explanation 2 to the fifteenth proviso to clause (23C) of section 10 or Explanation to sub-section (4) of section 12AB and the amount of such violation

No

(a) Income of the auditee has been applied, other than for the objects of the trust or institution.

No

(b) Whether the auditee has income from profits and gains of business which is not incidental to the attainment of its objectives or separate books of account are not maintained by auditee in respect of the business which is incidental to the attainment of its objectives.	No
(c) Whether the auditee, referred to in clause (a) of sub-section (1) of section 13, has applied any part of its income from the property held under a trust for private religious purposes, which does not enure for the benefit of the public.	No
(d) Whether the auditee, referred to in clause (b) of sub-section (1) of section 13, has applied any part of its income for the benefit of any particular religious community or caste.	No
(e) Whether any activity being carried out by the auditee is not genuine or is not being carried out in accordance with all or any of the conditions subject to which it was registered.	No
(f) Whether the auditee has not complied with the requirement of any other law, for the time being in force, and the order, direction or decree, by whatever name called, holding that such noncompliance has occurred, has either not been disputed or has attained finality.	No
44. Whether there is any claim of depreciation or otherwise has been made in terms of Explanation 1 to clause (23C) of section 10 or sub-section (6) of section 11 in respect of any asset, acquisition of which has been claimed as an application of income and the amount of such depreciation?	No
45. In view of provisions of nineteenth proviso to clause (23C) of section 10 or sub-section (7) of section 11, please specify whether the trust or institution has claimed deduction under section 10 [other than clause (1), clause (23C) and clause (46) thereof] during the previous year and the amount of such claim?	No
46. Whether the auditee has taken or accepted any loan or deposit or any specified sum, exceeding the limit specified in section 269SS during the previous year?	No
47. Whether the auditee has received an amount exceeding the limit specified in section 269ST, from a person in a day; or in respect of a single transaction; or in respect of transactions relating to one event or occasion from a person during the previous year?	No
48. Whether the auditee has repaid any amount being loan or deposit or any specified advance exceeding the limit specified in section 269T, during the previous year?	No
49. Whether the auditee is required to deduct or collect tax as per the provisions of Chapter XVII-B or Chapter XVII-BB?	Yes

Schedule Corpus: Details of Corpus

Type of corpus donation	Opening balance at the beginning of the previous year (Corpus not applied till the beginning of the previous year) (1)	Received/Treated as corpus during the previous year (2)	Applied during the previous year (3)	Amount invested or deposited back in to corpus (which was earlier applied and not claimed as application if such application fulfilled the condition e) (4)	Total amount invested or deposited back in to corpus (5)	Financial year in which (4) was applied earlier (6)	Closing balance (7) [(1+2+5)-3]	Invested in modes specified in section 11(5) (8)	Amount taxed in previous assessment year (9)	Invested in modes other than specified in section 11(5) as on last day of the previous year (10)	If corpus donation is of type (i) then whether it fulfills the following conditions			Invested or deposited in the forms and modes other than those specified under sub-section (5) of section 11 (14)
											Amount applied out of corpus for the purpose other than for which the voluntary contribution was made (11)	Contribution or donation to any person (12)	Maintained as not separately identifiable (13)

**Independent Auditor's Report pursuant to the requirements of Rule 17(5) of
the Foreign Contribution (Regulation) Rules, 2011 (as amended)**

To,

The Board of Members

Global Vikas Trust

G-1, Plot No 215,

Nilan Sagar CHSL,

Jawahar Nagar, Goregaon West,

Mumbai 400104, Maharashtra.

1. This Report is issued in accordance with the terms of our engagement with **Global Vikas Trust** (the 'Trust') Registration no. under **FCRA 083781701**.
2. We have audited the accompanying special purpose financial statements of the Trust which comprise the Balance Sheet as at 31 March 2026, the Income and Expenditure Statement and Receipts and Payment Account for the year ended 31 March 2026, and significant accounting policies and notes to the financial statements (hereinafter together referred to as 'Foreign Contribution Financial Statements') with respect to Foreign Contribution and basis of accounting to the Foreign Contribution Financial Statements, prepared by the management of the Trust pursuant to the requirement of section 19 of the Foreign Contribution (Regulation) Act, 2010 ('Act') read with rule 17 of the Foreign Contribution (Regulation) Rules, 2011 (as amended) ('Rules'). The accompanying Annexure have been initiated by us for identification purpose only.

Management's Responsibility for the Foreign Contribution Financial Statements

3. The Management is responsible for preparation and presentation of the Foreign Contribution Financial Statements in accordance with the basis of accounting including preparation and maintenance of all accounting and other relevant supporting records and documents. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation

and presentation of the Foreign Contribution Financial Statements and applying an appropriate basis of preparation; and making estimates that are reasonable in the circumstances. The Management is also responsible for ensuring that the Trust complies with the requirements of the Act read with relevant Rules and providing all required information to the Ministry of Home Affairs.

Auditor's Responsibility

4. Pursuant to the requirement as stated in paragraph 2 above, it is our responsibility to provide a reasonable assurance in form of an opinion on these Foreign Contribution Financial Statements based on our audit.
5. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Foreign Contribution Financial Statements are free from material misstatement due to fraud or error.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Foreign Contribution Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Foreign Contribution Financial Statements whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Trust's preparation of the Foreign Contribution Financial Statements in all material respects, in accordance with the basis of accounting described to these Foreign Contribution Financial Statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Management of the Trust, as well as evaluating the overall presentation of the Foreign Contribution Financial Statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Foreign Contribution Financial Statements.

Opinion

8. In our opinion the accompanying Foreign Contribution Financial Statements and Annexure for the year ended 31st March 2026 are prepared, in all material respects, in accordance with the basis of accounting described to these Foreign Contribution Financial Statements.

Basis of accounting and restriction on distribution or use

9. Our work was performed solely to assist you in meeting your responsibilities in relation to submission of accompanying Foreign Contribution Financial Statements with the Ministry of Home Affairs. The Management has also prepared complete set of financial statements for Trust for the purpose of submission with Form 10B of the Income Tax Rules, 1962.
10. The report is addressed to and provided to the Trustees of the Trust solely for the purpose of enabling them to comply with the requirements of Rule 17(5) of the Rules, which requires them to submit the report with the accompanying Foreign Contribution Financial Statements to the Ministry of Home Affairs, and should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

FCRA NO: 083781701

Part – A: Significant Accounting Policies (FCRA Book of Accounts)

A. Basis of Preparation of Financial Statements

The FCRA financial statements (comprising the **FCRA Balance Sheet, FCRA Income & Expenditure Account, and FCRA Receipts & Payments Account**) are prepared under the historical cost convention on a **Cash Basis of Accounting**. They strictly comply with the applicable Accounting Standards issued by the **Institute of Chartered Accountants of India (ICAI)** and the statutory provisions of the **Foreign Contribution (Regulation) Act, 2010**.

Under the cash basis, Grants and donations are recognized only when cash/funds are actually received in the bank, and expenses are recognized only when the actual payment is made. These statements are prepared exclusively to reflect the transactions, assets, and liabilities related to **Foreign Contributions** received and utilized by the Organization. No domestic transactions are mixed with these accounts.

B. Foreign Currency Transactions

- **Initial Recognition:** Grants and donations received in foreign currency are recorded in Indian Rupees (INR) by applying the actual exchange rate credited by the State Bank of India (SBI), **New Delhi Main Branch** on the date of transaction realization.
- **Exchange Fluctuations:** Any gain or loss arising due to differences in foreign exchange conversion rates or year-end revaluation of foreign currency bank accounts is treated as **Foreign Exchange Fluctuation Income/Loss** and recognized in the Income & Expenditure Account under foreign funds.

C. Revenue Recognition (Grants and Contributions)

- **Foreign Grants / Donations:** Foreign contributions are recognized as income strictly upon receipt in the designated **SBI FCRA Account**.
- **Interest Income:** Bank interest earned on the designated SBI FCRA Account and any subsequent operational utilization bank accounts or fixed deposits is recognized as an extension of foreign contribution on a receipt basis and utilized solely for approved FCRA objectives.

D. Property, Plant, and Equipment (Fixed Assets)

- **Cost of Acquisition:** Fixed assets acquired out of foreign contributions are stated at their original cost of acquisition, including structural installation expenses, taxes, and duties. Since the financial statements are prepared on a cash basis, the entire cash outflow for the asset is captured in the Receipts & Payments account, while the asset is capitalized in the Balance Sheet.

For GLOBAL VIKAS TRUST

Trustee

- **Segregation:** Assets acquired through foreign funds are tracked under distinct identification codes to ensure complete separation from assets acquired through domestic/local funds.
- **Depreciation:** Depreciation is charged on a written-down value (WDV) method based on the useful life of assets as prescribed under the Income Tax Act, 1961, to accurately represent the diminished value of assets over time.

E. Restrictions on Sub-Grants and Administrative Expenses

- **Administrative Cap:** Administrative expenses funded out of foreign contributions are monitored and strictly capped within the **20% statutory limit** of the total foreign contributions utilized during the financial year, as mandated by the FCRA regulations.
- **Sub-Grants:** In compliance with statutory FCRA mandates, the Organization **does not transfer or sub-grant** any portion of foreign contributions to any other association, entity, or third party.

Part B: Notes to Accounts (Statutory Disclosures)

a. Statutory Registrations & Background

The Organization is registered under the **Foreign Contribution (Regulation) Act, 2010** with the Ministry of Home Affairs, Government of India.

- **FCRA Registration Number:** 083781701
- **Registration Validity Period:** 22.09.2023 to 21.09.2028

The Organization also maintains valid registrations under Section 12A/12AB and 80G of the Income Tax Act, 1961.

b. Details of Designated FCRA Bank Accounts

As mandated by Section 17 of the FCRA, 2010, the Organization maintains its primary designated account for receiving foreign funds exclusively with the State Bank of India. The utilization accounts used for executing project expenditures are detailed below:

Account Type	Bank Name & Branch	Account Number	Purpose
Primary FCRA A/c	State Bank of India, New Delhi Main Branch.	0041199661151	Exclusive Receipt of Foreign Funds
Utilization A/c	Kotak Mahindra Bank, Evershine Anangan, Goregaon West, Branch	9150030349	Object of the Trust Activity

c. Foreign Contribution Received in Kind

During the financial year, the organization has **not received any foreign contributions in kind** (such as materials, goods, equipment, or medicines). The value of foreign contributions received in kind during the reporting period is **NIL**.

For GLOBAL VIKAS TRUST

 Trustee

d. Activity-Wise Expenditure Breakdown

To satisfy both **Form FC-4 Annual Return tracking** and ICAI reporting mandates, the project expenditures incurred strictly from Foreign Contributions are broken down by core activity sectors:

Activity / Project Name	Nature (Social/Edu cational/Cu ltural)	Current Year (INR)	Previous Year (INR)
Project Cluster based horticulture plantation program with farmers:	Social	₹3,14,05,631.20	₹ 23,510.16
Project Flood Relief: Parli, Beed	Social	₹23,97,600.00	Nil
Administrative Expenses	Support/ Overhead	Nil	Nil
Total Utilization		₹ 3,38,03,231.20	₹ 23,510.16

e. Compliance on Administrative Expenses (Form FC-4 Verification)

The total utilization of foreign contributions during the year is ₹ **3,38,03,231.20**. Total Administrative Expenses as defined under Rule 5 of the Foreign Contribution (Regulation) Rules, 2011, stand at ₹ **Nil**, which represents **0%** of the total mix—thereby complying cleanly with the 20% legal ceiling.

f. Property, Plant & Equipment (Fixed Assets):

No Fixed Assets have been acquired out of foreign contribution during the year.

g. Reconciliation with Form FC-4

The financial data presented in the FCRA Balance Sheet, Income & Expenditure Account, and Receipts & Payments Account matches and reconciles comprehensively with the online **Annual Return in Form FC-4** filed with the Ministry of Home Affairs (MHA) for the period ending March 31, 2026.

SSE submission of programme expenses for FY 2025-26

Greetings Ma'am,

As per your requirement for the renewal of registration with the Social Stock Exchange I have shared the details of the programme specific expenses incurred by the organisation in FY 2025-26

As per our Financials for FY2025-26, we spent the following amounts on different programmes:

Farmer Livelihood Programme : Rs. 25,93,89,810/-

Water Conservation Programme : Rs. 2,73,05,144/-

AIDS awareness programme : Rs. 8,83,750/-

Total Programme Specific Spending : Rs. 28,75,78,704/-

Additionally, we have spent the following at the organisation level:

Administrative Expenses : Rs. 8,37,055/-

Legal & Professional Fees : Rs. 26,71,592/-

Audit Fees : Rs. 3,54,000/-

Depreciation : Rs. 26,53,660/-

TOTAL : Rs. 65,16,307/-

Please Note: The additional expenses have not been added to the programme expenses because bifurcating or apportioning these expenses based on the amount spent for different programmes is not possible.

Form 1B.2

This section covers the Annual Impact Report (AIR) that should, at a minimum, cover the aspects described below.

This should cover at least the top 67 percent of programme spending for the reporting period. For each of the thematic areas the organisation works in, as per the SEBI defined 16 thematic areas, a separate AIR is to be prepared in Form 1B.2. This would help the organisation to determine eligibility for listing projects.

If the organisation has active listed securities in the same period, they should be covered using Form 2 that needs to be assessed by a competent social impact assessor of an empanelled social impact assessment firm, for each of the listed securities.

1B.2(i) List of Programmes funded through Listed Securities on SSE for which Form 2.1 is applicable

Serial No.	Listing ID	Programme/ Project Title	Total Spending in INR on this Programme in this FY	% spending on this Programme/ Project in the FY under review	Form 2.1 Prepared (Yes/ No)
1.					
Add more rows, if needed					

1B.2(ii) List of Programmes for which AIR is prepared in this section

Serial No.	Programme/ Project Title	Total Spending in INR on this Programme in this FY	% spending on this Programme/ Project in the financial year under review	Page Nos in this report
1.				
Add more rows, if needed				

Please note: Total of 1B.2(i) and 1B.2(ii) should be at least the top 67 percent of programme spending for the reporting period.

Sub-Section 1B.2.1 Annual Impact Report (AIR) Self-Reported

for the period from 01.04.25 to 31.03.26

For *<Project Name>* comprising *< > %* spending in the financial year under review

Under *<.....SSE Thematic Area>*

Programme start date:

Programme Objective(s):

1) Strategic Intent and Planning

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
a) What is the social or environmental or cultural challenge the organization is addressing in this thematic area? Has this changed in the last year?	Must Reply	Global Vikas Trust is working towards addressing the economic development of rural India by helping small and marginal farmers adopt high income generating crops and sustainable agriculture practices. Since 2019 we have helped 31,000+ farmers earn over 10X from their livelihood (earlier the average annual income per acre was Rs. 38,000. After our intervention the average income is Rs. 3.93 lakhs) as per TISS report

b) <i>How is the organization attending to the challenge or planning to attend to the challenge in this thematic area? Has this changed in the last year?</i>	<i>Must Reply</i>	<i>Our project takes a new approach to an existing problem of farmers trapped in traditional crops with low income generation from agriculture.</i> <i>The details of the same are as follows;</i> <i>We undertake a cluster based cultivation program that enables farmers to come together as a group to participate in the program, take benefits and support, adopt high value crops, train them extensively and provide forward linkages support etc. this increases commitment and accountability amongst farmers and enables us to deliver our services properly.</i> <i>The scale of the program allows for a greater quantity of produce being available in a small area giving buyers easy access for bulk purchase and farmers the option to sell from their farm gate.</i> <i>Collective farming, sharing of resources and knowledge and helping each other to mutually coexist and benefit.</i> <i>We undertake a holistic approach of improving a farmer's resources - soil and water, so that aside from higher income from fruit tree cultivation the farm resources also improve.</i> <i>This approach has helped us uplift 31,000+ farmers to higher income generation from farming across 5,000 villages.</i> <i>We have not changed any part of the project last year.</i> <i>On the water conservation interventions - We rejuvenate seasonal rivers and tributaries in drought-prone and water scarcity facing regions enabling rural communities to conserve rainwater for their requirements beyond the monsoon season.</i> <i>We rejuvenate the rivers by deepening and widening the river bed and also constructing groundwater recharge shafts within these river beds to enable recharging of aquifers with runoff water and improving the groundwater table in the catchment area along the river flow path. Additionally, we have built surface</i>
--	--------------------------	---

		<i>level structures which enable conservation of water including CNB dams, KT Weirs, and Farm Ponds.</i> <i>Cumulatively we have rejuvenated 5 seasonal rivers and their tributaries covering a length of 200 kilometers which flow through 39 villages with a population of 66,847 people.</i> <i>We have not changed any part of the project last year.</i>
<i>c) Who or what is being impacted (target segment/ affected area)? Has this changed in the last year?</i>	<i>Must Reply</i>	<i>Through our livelihood programme we help small and marginal farmers. And it has not changed.</i> <i>Through our water conservation initiatives we intend to help village communities in drought-prone regions address their water requirements. And this has not changed.</i>
<i>d) What will be the outcomes of the activities, intervention, programs or project? Disclosure should include positive and potential unintended negative outcomes.</i>	<i>Must Reply</i>	<i>1) The intended impact of our project in the future will be the same as what we have achieved in the past implementing the same project.</i> <i>2) Higher income for small and marginal farmers who adopt our program.</i> <i>3) Farmers who are educated, trained and guided by us to adopt sustainable agriculture practices, soil management practices and water management techniques - successfully adopt the same and witness benefits in their farms.</i> <i>4) Improved quality of life and access to resources for farmers and their family members due to increased household income.</i> <i>5) Positive impact on the environment due to carbon capture from fruit tree plantation, soil management practices and water conservation.</i> <i>6) Educating, training and empowering more farmers through our training centre.</i> <i>7) With the increase in income there is reverse migration happening and youth are seeing future in farming</i>

		8) <i>In an era of subdivision of lands our project ensures that the family and relatives adopts collective farming approach thereby increasing the revenue and co-operation.</i>
--	--	---

9) Approach

<i>Item</i>	<i>S1: Upto Rs1 Cr</i>	<i>S2: More than Rs1 Cr</i>
a) <i>What is the baseline status* at the start of the activity/intervention/programs or project and at the end of the last reporting period?</i> <i>*Baseline status includes situation analysis/ context description at the start</i>	Must Reply	<i>At the start of the project, small and marginal farmers were cultivating cash crops and MSP backed crops in their farms and earning an average annual income of Rs. 38,000 per acre.</i> <i>After adopting our program, farmers planted fruit trees and started earning an average annual income of Rs 3.93 lakhs per acre as concluded by TISS report 2024.</i> <i>Before implementing our water conservation intervention the groundwater table in most locations was below 400 ft and post intervention the groundwater table has improved 40~50 ft The water levels in wells and borewells have improved</i>
b) <i>What has been the past performance trend? (if relevant)</i>	Must Reply	<i>Farmers have seen an increase in income from adopting our program, better soil health and better usage of water in their farm.</i> <i>Availability and accessibility of water has resulted in better development of rural communities</i>
c) <i>What is the solution implementation plan and the measures taken for sustainability of activity/intervention/programs or</i>	Must Reply	<i>Our program has been designed to be self-sustaining as we involve only marginal, credible and committed farmers to adopt the program in their respective farms.</i>

<i>project outcomes? Has there been any material change in your implementation model in the last one year?</i>		<i>There has been no material change to our implementation model.</i>
<i>d) Please brief out alignment of solution to Sustainable Development Goals (SDGs)/national priorities/state priorities/developmental priorities.</i>	<i>Must Reply</i>	<i>There are 8 UN SDG themes which get addressed through our programs and interventions.</i> <i>Improving the income generation of marginal farmers ensures two things, no poverty in farmer families and no hunger i.e. availability of food, nutrition and good health to all members (UN SDG 1, 2)</i> <i>By focusing on livelihood related education for farmers (UN SDG 4) we ensure farmers are not left behind in upskilling their technical knowledge and capabilities.</i> <i>Our water interventions ensure availability of water for farming and daily life usage for village communities beyond the rainfall season (UN SDG 6).</i> <i>By focusing on holistic rural development through various livelihood, women empowerment, and other socio-economic activities, we are able to ensure gender equality in opportunities and better economic prospects for the bottom segment of the population (UN SDG 5, 8).</i> <i>Climate action (UN SDG 13) is at the core of our program as we work towards implementing fruit tree plantation, capture atmospheric carbon, improve soil health and water management practices.</i> <i>The combined effect of more trees and river bodies in a given ecological system will have a positive impact on the environment ensuring sustainability of life (UN SDG 15).</i>

e) <i>How have you taken into consideration stakeholder feedback in this reporting period?</i>	<i>Must Reply</i>	<i>Farmers : Helpline number is available to share questions, queries, concerns, feedback at anytime</i> <i>Vendor : Dedicated point of contact with alternative contact options on both ends to ensure timely communication and coordination</i> <i>Ground Team : dedicated HR team and feedback, complaints and grievance redressal mechanism in place</i> <i>Donor / Team : dedicated donor management team in place to address any questions, queries, feedback</i>
f) <i>In the last year, what have you seen as the biggest risks to the achievement of the desired impact? How are these being mitigated?</i>	<i>Must Reply</i>	<i>Climate and weather related impact is the biggest risk we face in implementing our program.</i>

10) Impact Indicators

<i>Item</i>	<i>S1: Upto Rs1 Cr</i>	<i>S2: More than Rs1 Cr</i>
a) <i>What are the indicators used to evaluate the effectiveness and outcomes of programmes</i>	<i>Must Reply</i>	<i>For livelihood - Number of farmers beneficiaries</i> <i>Farm output of farmers from our intervention</i> <i>Farmer income</i> <i>For Krishikul - Number of farmers who got trained</i> <i>For Water Conservation - rural population benefitting from water availability and access</i>

<i>Item</i>	<i>S1: Upto Rs1 Cr</i>	<i>S2: More than Rs1 Cr</i>
<i>i) Timeline specific output indicators from inception to end of project</i> (1) <i>Number of interventions implemented</i> (2) <i>Timeliness of intervention delivery</i> (3) <i>% of planned vs. achieved programmes</i>	<i>Must Reply</i>	<i>Number of beneficiaries:</i> <i>4,611 farmers for livelihood,</i> <i>20,000 farmers trained at farmer training centre,</i> <i>66,847 rural population benefitting from water conservation</i> <i>Implementation period:</i> <i>April 2025 to March 2026</i> <i>Target vs Achieved: 100%</i>
<i>ii) Intermediate outcomes indicators (for e.g.) - starts around mid-term and continue to end-term of project</i> (1) <i>Increased awareness or knowledge among the target population</i> (2) <i>Changes in attitudes or perceptions</i> (3) <i>Adoption of new behaviours or practices</i> (4) <i>Improved skills or capabilities</i> (5) <i>Increased access to resources or services</i>	<i>Must Reply when applicable</i>	1. <i>Yes</i> 2. <i>Yes</i> 3. <i>Yes</i> 4. <i>Yes</i> 5. <i>Yes</i>
<i>iii) Overall outcome indicators (for e.g.) towards end-term and after end of the project period (depends on project gestation period)</i> (1) <i>Behavioural change sustained over time</i> (2) <i>Improved social or economic conditions</i> (3) <i>Reduced rates of negative outcomes (e.g., poverty, disease, crime)</i> (4) <i>Enhanced quality of life</i> (5) <i>Increased resilience to future challenges</i>	<i>Must Reply when applicable</i>	1. <i>Yes</i> 2. <i>Yes</i> 3. <i>Yes</i> 4. <i>Yes</i> 5. <i>Yes</i>

11) Relevance and Sustainability

(Please share in 3-5 sentences with a supporting fact/ data point)

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
i) <i>Relevance: Explain with a supporting fact/ data point how the initiative aligns with the organization's values and goals and is relevant to the target audience</i> ii) <i>Sustainability: Explain with a supporting fact/ data point how the initiative is sustainable and if it can continue to make a positive impact in the future.</i>	<i>Must Reply</i>	<i>Re 1: Today, 86% of the farming population are small and marginal land holders who earn an average annual income of Rs 38,000 per acre. GVT intends to uplift out of this low income trap by helping them earn over Rs 1 lakh per acre annually.</i> <i>Global Vikas Trust intends to transform rural India by helping small and marginal farmers adopt high income generating crops and sustainable agriculture practices, along with soil management practices and water management techniques. All activities of the program are aligned to achieve these objectives.</i> <i>Our farmer training centre extends training and guidance sessions to farmers on soil, water management, crop care, adoption of sustainable agriculture practices, tools, equipment, technology and high value crops, food processing and value chain activities.</i> <i>Re 2: This program is designed to be sustainable from the start as we involve the farmers to cultivate the crop in their own land. By giving them better income prospects from their own farm, we ensure they stay committed and sustain the project beyond our intervention.</i> <i>Water Conservation</i> <i>Marathwada, a region in Maharashtra, faces acute water scarcity due to its semi-arid climate and frequent droughts. The region receives between 500mm and 700mm of rainfall.</i>

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
		<i>The over-reliance on groundwater, inefficient irrigation methods, and deforestation have further worsened the situation. Many villages in Marathwada struggle with water availability, leading to distress migration, farmer suicides, and declining agricultural output. Water conservation initiatives, such as watershed management, rainwater harvesting and river rejuvenation are crucial for ensuring long-term water security in the region.</i> <i>Seasonal rivers drying up:</i> <i>Smaller seasonal rivers, which are the lifeline for the villages along the river path tend to dry up quickly post monsoon season. There are 4 reasons why water in smaller rivers and tributaries dry up beyond monsoon</i> <i>i) Climate Variability: Erratic monsoons and prolonged droughts reduce water flow, causing rivers and tributaries to dry up.</i> <i>ii) Overexploitation: Excessive groundwater extraction for agriculture and urban use depletes aquifers that feed small rivers.</i> <i>iii) Deforestation: Loss of forest cover in watersheds reduces soil moisture retention and disrupts the hydrological cycle.</i> <i>iv) Siltation: Accumulation of silt in riverbeds due to erosion reduces water-holding capacity, leading to drying during low-flow periods.</i> <i>Essentially, flowing water needs to be halted and stored for usage, with some of it going below the ground to improve the water table.</i> <i>Impact of these rivers drying up</i>

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
		i) Lack of drinking water during summer for both humans and animals ii) Lack of water for farming and vegetation iii) Erosion of soil, loss of soil nutrients, degradation of land iv) The long-term impact is salinization of soil, deforestation, and ecological impact <i>Solution: Rejuvenation of rivers through widening and deepening of the river. River deepening and widening is an engineering intervention aimed at modifying a river's physical characteristics to enhance its utility to the people in the nearby region (water flow, volume, sustenance, ease access, improve navigational access, etc.) and mitigate flood risks (often in the downstream areas). This process involves usage of machinery and calibrated scientific techniques to achieve the functional utility of the river whilst balancing ecological preservation.</i> <i>Global River Aquashfts (GRAs) are being constructed to channel river water underground, replenishing aquifers with lowered groundwater levels. This technique is especially effective in areas with low natural recharge or where groundwater levels have declined due to overuse. Water is directed into the GRA shafts built within the riverbed, where it percolates through soil and rock layers. This process not only aids in natural purification but also restores the aquifer, raises the water table, and enhances long-term groundwater availability.</i> <i>Benefits of GRA</i>

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
		i) Increased groundwater levels: The injection of rainwater into the borewell helps replenish the groundwater levels. This ensures a sustainable source of water and reduces dependence on surface water sources. ii) Improved water quality: The rainwater being clean improves the quality of the ground water and reduces the total dissolved solids (TDS) in the groundwater. iii) Reduced waterlogging and flooding: Injection recharge promotes better groundwater storage, reducing surface runoff, and minimizing the risk of waterlogging and flooding. iv) Cost-effective: Injection recharge of borewells is a cost-effective method of recharging groundwater compared to other methods like rainwater harvesting or building check dams. v) Environmentally friendly: Borewell recharge through the injection method helps reduce the pressure on surface water sources and minimizes the impact on the environment. vi) Increased agricultural productivity: Increased groundwater levels through injection recharge can help improve agricultural productivity, especially in areas with water scarcity. Overall, borewell recharge through the injection method (Global River Aquashaft) is an effective way to improve groundwater levels and ensure a sustainable source of water while minimizing the impact on the environment.
a) Briefly include narratives of Social, Environmental, Cultural and Economic impact on target segment(s) in the reporting period.	Must share any impact observed on the target segment	<u>Economic impact :</u> Farmer groups participating in our programs have witnessed increased income to a minimum of one lakh per acre per annum.

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
		Village communities benefit from availability and accessibility of water post monsoon season for both household and agriculture purposes adding to increased agriculture productivity. Farmers from across the country benefit from gaining training and knowledge on adopting sustainable agriculture practices, soil and water management, crop care practices, tools, equipment and technology adoption, cow based agriculture, food processing, and value chain activities. <u>Environment impact :</u> By planting short and long term fruit trees we are able to capture atmospheric carbon and sequester them adding positive impact to the environment By rejuvenating the river and constructing groundwater recharge shafts we are able to conserve runoff water to improve the groundwater table, improve the ecosystem around the river and restore ecological balance <u>Social impact :</u> Improved economic conditions have resulted in better social participation and engagements amongst farmer community members. We have also noticed joint farming by family members and relatives where sub division of land was a huge problem thus rendering all the benefits of collective farming. Availability and accessibility of water for the larger rural communities has resulted in better social cohesion and inclusion.

Item	S1: Upto Rs1 Cr	S2: More than Rs1 Cr
b) Beneficiary ⁴ /Stakeholder Validation through surveys and other feedback mechanism	Must Reply based on any simple method of validation	We have received several beneficiary testimonials and positive feedback which have been detailed on our website for public information. 1. Project Assessment report conducted by our donor, supporter and advisory board member Mr. Vallabh Bhansali through Tata Institute of Social Science (TISS). 2. Impact Assessment report conducted by our CSR partner B C Jindal Foundation through Pranav & Associates. 3. Impact Assessment report conducted by our CSR partner United Phosphorous Limited (UPL) through Deloitte.

12) Photographs conveying before and after impact of the Programme

(a maximum of 3 impact situations may be shared per Programme)

Statement of Compliance

I, **Mayank Gandhi** (name and designation – Chair / CEO / Equivalent Senior position) of Managing Trustee (name of the Social Enterprise) certify that:

- a. All activities undertaken by the Social Enterprise are in conformity with the objectives as stated in the relevant constitution documents and aligned to the vision, purpose and mission of the Social Enterprise
- b. Activities reflect primacy of Social intent in the functioning of the Social Enterprise as per SEBI Act and regulations made thereunder that at least 67 percent* of our organisation's activities cover target population segments/ entities that are under-served or less privileged or live in regions recording lower performance in the development priorities of central or state governments (immediately preceding 3-year average of revenues/ expenditure/ total customer base and/or total number of beneficiaries⁶)
- c. I have reviewed the financial statements prepared by the Social Enterprise for the year ended and to the best of my knowledge and belief these Statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading. Further, these Statements together present a true and fair view of the Social Enterprise's affairs and are in compliance with the relevant Accounting Standards, applicable laws and regulations
- d. To the best of my knowledge and belief, no transactions entered into by the Social Enterprise during the year ended are fraudulent, illegal or violative of the laws, regulations and policies and procedures of the Social Enterprise. The Social Enterprise has complied with all applicable laws and regulations as applicable for the Social Enterprise
- e. I accept responsibility for establishing and maintaining internal controls for operations as well as financial reporting and the Social Enterprise has implemented and evaluated the effectiveness of internal control systems of the Social enterprise in the conduct of operations and reporting thereon
- f. I am not aware of any instance during the year of significant fraud with involvement therein of the management or any employee having a significant role in the Social Enterprise's internal control systems.

MONTHLY *Progress* REPORT

April 2025

Our vision

GVT *is* passionately committed to transforming **Indian** *economy* back to the **‘Sone ki Chidiya’** *period by* multiplying **farmers’ income** *through* **sustainable agriculture** at scale

From my heart

Healthy Soil, Healthy Future

Soil is more than just dirt—it's the foundation of our food and the soul of our farms. But across rural India, I've seen this lifeline turning lifeless due to overuse of chemicals and poor practices.

Many farmers don't know their soil is sick—until the harvest suffers. Yet with simple steps like organic composting, crop rotation, and soil testing, we can bring it back to life. I've seen barren lands bloom again, just by healing the soil beneath our feet.

At Global Vikas Trust, we're working with farmers to revive soil health—restoring not just productivity, but pride. Because when the soil thrives, so do the farmers, and so does Bharat.

INDIA CAN WAIT NO MORE!

Mayank Gandhi

SUCCESS STORIES

Empowering grassroots:

PoCRA 2.0 online training CM Fadnavis & Minister Kokate

The Nanaji Deshmukh Agricultural Sanjeevani Project and PoCRA 2.0 held a one-day online training session at GVT Krishikul, in collaboration with the Global Vikas Trust and the Agriculture Department, Parli Vaijnath.

CM Devendra Fadnavis and Agriculture Minister Manikrao Kokate joined virtually to share their insights. The event saw active participation from the Sarpanch and Gram Samiti members of Sirsala Mandal, Parli Taluka, who contributed meaningfully to the discussions.

Water conservation efforts

A group of 12 farmers from Waghala village visited the Gunwara riverbed to observe GVT's water conservation efforts in Govardhan river at Beed. They learned how river deepening and widening improved groundwater levels and crop

productivity, & expressed interest in replicating these efforts in their own village.

visits & discussions on community-led interventions & GVT Krishikul initiatives.

The GVT team visited Ahmednagar to review Sun Pharma & WOTR's water conservation efforts in Ghospuri and Mandavgan village, followed by field

structures have been installed along the Tapovan River, boosting groundwater recharge & promoting sustainable farming.

GVT in collaboration with its Jalmitra team, has adopted the innovative Kedia Farm Pattern (KFP) to enhance water conservation. As part of this effort, 20 KFP

Guest visit at GVT Krishikul

MP Shashank Mani visited GVT Krishikul to understand its agricultural innovations and sustainable practices.

MP Shashank Mani
Member of the Lok Sabha

MLA Ranajagjitsinha Patil toured GVT Krishikul to review the infrastructure & ongoing development initiatives.

MLA Ranajagjitsinha Patil
Member of the Maharashtra Assembly

VHP's Goraksha Vibhag held its annual training camp at GVT Sirsala on, focusing on sustainable farming exposure.

VHP's Goraksha team
At GVT Krishikul

Exploratory visit

With the aim of showcasing climate-controlled farming techniques, plans are underway to establish a shade net at GVT Krishikul. A team of four agronomists visited Khyati Farm R&D Center in Shadnagar, Hyderabad, to learn about different types of shade nets (like tunnel and flat-top) and techniques for growing fruits & vegetables in controlled environments.

GVT connects with farmers

Through online & offline sessions

As part of GVT's ongoing monthly farmer engagement initiative, interactive sessions were held both offline and online this month as well.

Offline meeting – April 15:

Nilesh Bhovar, a local vegetable farmer, attended an in-person session where GVT's Harshad Dumade provided guidance on Mogra cultivation. Impressed by the session, he booked 1,000 Mogra saplings for his farm.

Online meeting – April 25:

In a virtual session, GVT's Manoj Bundhe shared key Mogra farming techniques with farmer Raju Raut. The farmer appreciated the insights and expressed interest in implementing the practices.

GVT's Strategic engagement

with Government departments

The GVT team visited Jawhar village to meet officials from the Sericulture, Agriculture, and MGNREGA departments, sharing their work in Palghar and exploring partnerships.

- **Sericulture Department:**

Met Mr. Amar Suryavanshi to discuss support for local sericulture farmers. It was agreed to collect on-ground data and plan a follow-up meeting for actionable support.

- **Agriculture Department:**

Mr. S.P. Jadhav highlighted increasing farmer interest in banana cultivation and assured full cooperation from the department.

- **MGNREGA:**

Positive discussions with Mr. K.V. Patil around mango and cashew plantations. He showed keen interest in aligning future plantation projects with GVT's initiatives.

ABP News podcast

In this insightful podcast, Mayank Gandhi shares his journey from political activism to grassroots transformation in rural India. Disturbed by rising farmer suicides in Marathwada, he chose to work directly with the people—focusing on sustainable agriculture as the key to real change.

The conversation also dives into his personal spiritual journey. Battling stress-related illness led him to meditation, which sparked powerful inner experiences—including energy awakening and deep self-realization. He reflects on how true change starts within, blending action with awareness.

Enhancing donor visibility through on-ground branding

To enhance donor branding and visibility, GVT has initiated the installation of digital wall prints in respective project areas, highlighting the work done along with donors' names and logos. These displays help acknowledge and showcase donor contributions at the grassroots level.

Success Story - 1

Our farmer from Beed, has transformed his life by shifting from **Soybeans to Lemon** cultivation. This has led to a significant boost in his annual profit showcasing the success of crop diversification. He now earns a profit of **₹1,56,800 per year from 0.75 acre.**

Our social media

Presence for this month

The Path of Balance

Nation first and the state government are working together to improve healthcare for the poor through better utilization of resources, efficient systems, and focused support.

3rd Socio CSR Film Festival Award

GVT's film 'India Can Wait No More!' had won at the 3rd Socio CSR Film Festival—celebrating real stories of impact, from farmers to water warriors.

CASCA Event

Mayank Gandhi was honored to speak at CASCA'25, sharing his journey from urban planning to empowering 26,400+ farmer families and driving climate resilience and real change in rural India.

Gunwara River

The rural river is under revival—bringing hope and resilience back to the villages through collective vision and action.

From my heart

Rain Brings Hope—Let's Catch Every Drop

The rains are here—and with them, a fresh chance for life to grow. Fields turn green, rivers fill, and dreams of a good harvest return.

But only if we act wisely. Every drop of rain is precious. By building small recharge pits, planting trees, and preparing our land well—we can turn this season into a blessing.

At Global Vikas Trust, we're working with farmers to make the rain work for them, not against them. Because when rain meets good planning, the future becomes brighter.

Empowering farmers

GVT – AU bank bridge loan schemes

Global Vikas Trust (GVT), in collaboration with AU Bank, organized farmer meetings in Mandwa Pathan & Nitrud villages in Beed district and Nipani village in Dharashiv district to provide information about GVT-designed loan schemes offered by AU Bank for sericulture shed construction and banana cultivation in PoCRA-notified villages.

The sessions focused on a unique bridge loan model where farmers applying for sericulture subsidies receive advance funding to construct sheds. GVT acts as a guarantor, and the loan is repaid once the subsidy amount is credited to the farmer's account. This initiative addresses the challenge of upfront capital, which has prevented many farmers from adopting sericulture.

Over 400 farmers benefited from this model during a successful pilot phase last year. The meetings were attended by local farmers, sarpanches, and representatives from GVT and AU Bank executives who provided detailed information. Farmers welcomed the initiative and showed strong interest in availing themselves of these schemes to enhance their livelihoods and agricultural income.

📍 **Nipani**

📍 **Nitrud**

Pre-Kharif training at GVT Krishikul

by Agriculture Department

A pre-Kharif workshop was held at GVT Krishikul, bringing together Agriculture Department experts and farmers to discuss crop planning and soil health. Speakers included Mr. Govind Mundhe (Custard Apple Research Dept.), Mr. Rahul Gaikwad (Sub-Divisional Agri. Officer), Mr. Suresh Dhakne (Taluka Agri. Officer), progressive farmers, and GVT's senior agronomist. The session covered best practices for soybean, jowar, bajra, maize, and fruit crops helping farmers prepare for the season. Such workshops offer practical insights, promote better techniques, and improve outcomes for marginal farmers.

Culture, dignity & sustainability —

A Mass Wedding Initiative

Driven by a commitment to equality and social upliftment, Global Vikas Trust (GVT) proudly organized a memorable mass wedding for 11 couples in Parli this month.

The event was majorly funded by a generous donation from GVT's Advisory Board member Shri Pradeep Kheruka's family, given in honor of their daughter's wedding abroad.

Each groom pledged a no-dowry commitment, reinforcing the values of dignity and fairness. All couples were presented with gold ornaments, complete household essentials, and furniture. An additional donation from other well-wishers provided joint fixed deposits to each couple, ensuring financial security as they begin their new lives.

News Article: [Mass wedding_press release](#)

The weddings were conducted in a completely traditional and local style, celebrating cultural heritage and community values.

Attended by nearly 4,000 guests, the occasion was also a shining example of sustainability, being fully plastic-free and eco-friendly. This initiative embodies GVT's vision of fostering dignity, compassion, and lasting positive change in communities.

Grown banana test reveals the power of Organic farming

GVT Krishikul promotes organic, cow-based agricultural practices and actively demonstrates them on its model farms. In a recent milestone, organically grown bananas from Krishikul's first harvest were sent for lab testing alongside market samples. The results revealed higher levels of natural sugars, fiber, potassium, and healthy fats—contributing to better taste and digestion. As this marks the beginning of our organic journey, we expect these results to further improve with continued practice and soil enrichment.

Parameter	GVT Krishikul Organic Banana	Local Market Banana
Total Sugar	10.62 g	7.49 g
Dietary Fiber	2.17 g	2.01 g
Potassium	415.93 mg	408.23 mg
Chemical Residue	0% (Chemical-free)	~40% trace residue*

Donor's project review visit

Engaging with farmers

As part of the ongoing project supported by the Rotary Club of Delhi Premier (RCDP), Project Coordinator Mr. Swayang Bikash Jena visited the field to assess progress and engage directly with beneficiary farmers.

He began his visit by attending a Gram Panchayat meeting and then interacted with sericulture farmers, discussing their experiences and challenges in silk production. This was followed by dialogues with progressive farmers and village leaders on issues related to mango cultivation, value chain bottlenecks, and marketing opportunities.

He also visited banana farms, recognizing the encouraging shift towards high-value crops. He later reviewed GVT's water conservation initiatives and concluded his visit at the Krishikul Training Center, where he observed the impact of GVT's training efforts and lauded the community's spirit of innovation and resilience.

Hands-on training on Kjeldahl digestion and distillation system

Borosil Scientific provided their advanced Kjeldahl digestion and distillation system, along with expert-led hands-on training for protein estimation in cottonseed cake and cow milk.

GVT agronomists were trained in all key steps of the Kjeldahl method—sample preparation, digestion, distillation, titration, and protein calculation. The results—24% protein in cottonseed cake and 3.25% in cow milk—closely aligned with standard benchmarks.

The session emphasized lab safety, precision, and teamwork. This capacity-building effort will enable GVT to conduct in-house protein analysis, supporting better feed and milk quality assessment, improving farmer awareness, and reducing dependence on external laboratories.

Honoring donors through thoughtful branding solutions

To promote visibility of generous donor contributions, Global Vikas Trust (GVT) has begun installing durable digital prints of donor branding at key locations within project clusters. To maintain farmers' dignity, these are not placed on individual farms using metal nameplates or banners, which often deteriorate quickly due to weather and have limited lifespan.

This approach ensures lasting donor recognition while efficiently utilizing funds for farmer-centric activities, reflecting GVT's commitment to transparency, accountability, and honoring the invaluable support of its partners in rural development.

GVT connects with farmers

Through online & offline sessions

As part of GVT's ongoing monthly farmer engagement initiative, interactive sessions were held both offline and online this month as well.

Offline meeting – May 15:

At the monthly Wada meeting, farmers from across the taluka joined an engaging session led by Mr. Harshad Dumade. Key discussions focused on suitable fertilizers for Mogra, correct dosages, and application methods—offering practical guidance to enhance crop yield and health.

Online meeting – May 25:

An online session was held with two farmers, where Mr. Kalpesh Bonge provided detailed guidance on Mogra pre-cultivation, farming techniques, and fertilizer use. The farmers appreciated the insights and expressed interest in adopting the improved methods in their fields.

Voices from the ground

institutional outreach

Gram panchayat meeting:

At the Vasuri Gram Panchayat meeting, GVT was given a 20-minute slot where Mr. Harshad Dumade and Mr. Bharat Sapte represented GVT & provided our key initiatives, including Mogra, Banana plantations, and sericulture. They also shared sustainable practices like vermicomposting. Sarpanch Mrs. Swati Sahare appreciated GVT's efforts. A list of interested Mogra and Banana growers was initiated following the session.

Agriculture department & NGO meeting:

In a collaborative meeting organized by the Vikramgad Taluka Agriculture Department, Mr. Kalpesh represented GVT, sharing details on plant distribution, training initiatives, and regional impact. The Agriculture Officer praised GVT's quality of work and encouraged similar efforts from other NGOs. The Krishikul training center was also introduced, with plans requested for upcoming farmer visits.

Marathwada

Guest Visit

at GVT Krishikul

As part of our ongoing capacity-building efforts, this month too Krishikul hosted 353 visitors this month, including farmers, NGO and FPO leaders, agriculture students, and officials from both government and private sectors. Our agronomist led sessions on various agricultural topics. This growing interest highlights the positive impact we're making in sustainable agriculture and the communities we serve.

Global support & innovation

for rural transformation

GVT Launches Fundraising Office in California, USA

Moved by the generous support of well-wishers from across the globe, GVT is proud to launch our fundraising office in California, USA — by the name **"Global Vikas Foundation Inc."** (GVF). This marks a new step in building global partnerships to scale rural transformation in India.

GVT registered on Manthan; Launches RuTAGE Smart Villages

Supported by RCDP, GVT is registered on Manthan—India's platform for science-driven rural transformation. RuTAGE Smart Village Centers at Krishikul and Dhoki now serve 15–20 villages with innovative solutions in agriculture, water, energy, and livelihoods, in collaboration with IITs and partners.

Strategic collaborations & diplomatic engagements

advancing GVT's mission

Union Minister Shri. CR Patil Backs GVT's Mission for Water Security

Shri Pradeep and Sreevar Kheruka, Advisory Board member and Chairman of Borosil respectively, invited Mr. Mayank Gandhi to address a gathering of visitors and dignitaries, which included the Union Minister of Jal Shakti, Hon'ble CR Patil. During the meeting, Mr. Gandhi explained how the construction of Global River Aquashfts (GRAs) helps raise the water table in targeted areas, thereby enhancing livelihoods and boosting agricultural productivity. Impressed by the concept, the Minister invited GVT to Delhi for further discussions to develop a joint action plan, including potential policy changes.

GVT at Israel's 77th Independence Day Celebration:

Global Vikas Trust (GVT) was honored to attend the celebration of Israel's 77th Independence Day and to bid farewell to Consul General Mr. Kobbi Shoshani and Mrs. Yael De-Paz Shoshani. The evening celebrated the enduring Indo-Israel partnership—rooted in mutual respect, innovation, and shared democratic values. GVT wishes Mr. & Mrs. Shoshani all the best in their next chapter. Their warmth and dedication will be fondly remembered in India.

GVT builds bridges

to empower Rural India

Partnership for PoCRA's farming future:

In a key step to improve agricultural practices in PoCRA villages, GVT Trustees Mayank Gandhi and Sanjay Parmar met with Mr. Vijay Kolekar, Agronomist and Soil Science Specialist from the Maharashtra Department of Agriculture, at the Nanaji Deshmukh Krishi Sanjivani Prakalp office in Mumbai.

The discussion focused on planning joint efforts to deliver real, on-ground impact for farmers through meaningful collaboration.

RCF & GVT: Coming together for Rural transformation

Shri Shriniwas Mudgerikar, Chairman & Managing Director of Rashtriya Chemicals & Fertilizers Ltd. (RCF), invited Mayank Gandhi, Founder and Managing Trustee of Global Vikas Trust (GVT), to address a gathering of dignitaries and visitors.

In his impactful talk, Mayank Sir shared GVT's mission, achievements, and future vision for rural transformation. His address received a standing ovation, reflecting strong support from the audience.

Moved by GVT's work, the Chairman assured full cooperation and expressed a desire to collaborate through RCF's CSR initiatives.

JUNE 2025

OUR VISION

GVT is passionately committed to transforming Indian economy back to the 'Sone ki Chidiya' period by multiplying farmers' income through sustainable agriculture at scale

Mayank Gandhi

FROM MY HEART

Grow Pure, Live Pure – The Strength of Organic Farming

Our land is tired of chemicals. Our food is losing its purity. But there is a way to bring back health—to our soil, our crops, and our families.

Organic farming means using natural ways to grow—no harmful chemicals, just compost, cow dung, and love for the land. It protects nature, keeps our water clean, and gives us safe food to eat.

At Global Vikas Trust, we're helping farmers switch to organic methods—step by step, field by field.

Because when we grow pure, we live pure.

INDIA CAN WAIT NO MORE!

NOTEWORTHY ACTIVITIES

MARATHWADA

PALGHAR

BHARUCH

EVENTS

SUCCESS STORIES

NURSERY INSPECTION FOR SAPLING PROCUREMENT

Senior agronomists from GVT visited pomegranate and lemon nurseries to assess the quality and readiness of saplings for procurement. The evaluation covered multiple aspects including mother plants, nursery practices, supply capacity, sapling health, and overall management standards.

The team also gathered references of farmers who have previously planted from these nurseries and reviewed their field-level results, ensuring that only reliable and high-performing sources are considered for distribution.

SECURING WATER, EMPOWERING COMMUNITIES

In continuation of the earlier construction of 16 Global River Aquashaft (GRA) structures and one Cement Nala Bund (CNB), the foundation ceremony for the second CNB in Nipani village (Dhoki Cluster, Dharashiv) was held in the presence of the village Sarpanch and local villagers.

The initiative reflects the community's growing involvement in water conservation efforts and marks another step towards ensuring long-term water security for the region.

MANGO ORCHARD CAPACITY BUILDING

As part of its ongoing efforts to provide advanced field training, Global Vikas Trust (GVT) organized a session on “Mango Orchard Management” at Wagholi (Varuda), Dharashiv.

The training was conducted by Mr. M.B. Patil, a Horticulture expert & Former Associate Dean, College of Agriculture, Dharashiv, along with experts from Vasant Rao Naik Marathwada Agricultural University—Prof. Chavan, Prof. Waghmare, and Prof. Deshmukh—who guided farmers on land preparation, spacing, planting techniques, and nutrient and water management.

Farmers from villages like Sanja, Sarola, Balpirwadi, Tuljapur, Alni, Kajala, and Khed attended in large numbers, showing strong interest in improved orchard practices.

COLLABORATING FOR FARMER-TECH SOLUTIONS

To explore farmer-focused technological solutions, Mr. Mahesh Surve and Mr. Amar Dixit from Borosil Scientific visited GVT Krishikul. GVT agronomists shared key challenges faced by farmers and highlighted the need for affordable equipment with only essential features, as many existing tools are costly due to advanced functionalities. They also noted that while some Chinese-made instruments are useful, they often lack reliability. Borosil's support in developing practical and cost-effective alternatives could greatly benefit marginal farmers.

EMPOWERING FARMERS WITH HANDS-ON AGRICULTURAL INSIGHTS

As part of a structured exposure visit aimed at promoting practical learning and capacity building, a group of 40 farmers from the Subir Cluster in Gujarat visited GVT Krishikul. The two-day program was jointly organized by the L&T Public Charitable Trust (LTPTC) and the Aga Khan Foundation.

The visit focused on enhancing farmers' understanding of improved agricultural practices. Participants were introduced to key topics such as soil and water testing, scientific farming methods, and locally relevant techniques for sustainable cultivation. The interactive sessions offered valuable insights into practical, low-cost solutions to help improve productivity and farm resilience.

ON-GROUND REVIEW OF WATER CONSERVATION PROJECTS

As part of a project review and field assessment, Mr. Swayang Bikash Jena from the Rotary Club of Delhi Premier (RCDP) and Geologist Mr. Devendra Joshi visited several villages in Kalamb (Nipani) and Dharashiv (Waghole, Upala Makdache, Pimpri) to observe the ongoing initiatives by Global Vikas Trust (GVT).

During the visit, they interacted with Gram Panchayat members and closely inspected the water conservation structures under implementation. The visit acknowledged GVT's impactful grassroots work and reinforced the importance of collaborative efforts in driving sustainable water resource management across rural communities.

GVT ADVANCES TOWARD TECH-DRIVEN FARMING SOLUTIONS

To adopt and promote advanced farming technologies, the Global Vikas Trust (GVT) team undertook a two-day study visit focused on protected farming.

They visited KVK Baramati, RnS Polyhouse units (Baramati & Theur), and Govind Greenhouse, Talegaon, exploring AI- and IoT-based climate control systems, Indo-Dutch farming techniques, and various polyhouse models. Experts like Mr. Vasane and Mr. Gadekar shared insights on structure selection, cultivation practices, and market trends.

The team also learned about banana plant hardening, crop planning, and polyhouse cost structures. The visit concluded with actionable insights, potential collaboration opportunities, and a clear direction for conducting local farmer surveys to assess future implementation strategies.

EMPOWERING FARMERS THROUGH CONSISTENT FIELD ENGAGEMENT

As part of Global Vikas Trust's regular engagement with farmers, regional meetings were conducted in Palghar, and Bharuch to provide timely, crop-specific guidance.

Key topics included banana cultivation, Mogra farming, and the plant booking process, tailored to local needs. Farmers participated actively and showed strong interest throughout the sessions.

Such regular interactions continue to strengthen farmer awareness and readiness for the upcoming season.

Save Every Drop – The future of farming depends on it

Rain has come, but will it stay? Our farmers depend on water—but wasting even a little can cost us a lot.

With climate change and rising droughts, water is no longer just a resource—it's a lifeline.

At Global Vikas Trust, we are helping farmers adopt better water practices: drip irrigation, farm ponds, mulching, and moisture-retaining soil methods. These small steps bring big results—healthier crops, lower costs, and water that lasts longer.

Saving water isn't just about today. It's about the next season, the next generation.

Because when we save every drop, we protect every dream.

INDIA CAN WAIT NO MORE!

NOTEWORTHY ACTIVITIES

MARATHWADA

PALGHAR

EVENTS

SUCCESS STORIES

EMPOWERING SERICULTURE FARMERS THROUGH MODERN TECHNIQUES & TRAINING

Global Vikas Trust hosted a Sericulture Farmers Seminar at GVT Krishikul – Farmer Training Centre, attended by over 500 silk-producing farmers from across the state. Dr. M. B. Dhawale, Deputy Director, State Sericulture Directorate, was the chief guest. Sessions covered modern sericulture technologies, government schemes, sustainable practices, pest management, and market opportunities, along with expert insights on silkworm rearing, cocoon farming, and processing. A live demonstration of the silkworm reeling machine enhanced the learning experience. The event aimed to equip farmers with the latest knowledge, tools, and techniques in sericulture, enabling them to improve productivity, enhance silk quality, and secure better market returns — ultimately strengthening livelihoods and promoting sustainable rural development.

EMPOWERING AGRI GRADUATES: GVT'S CAMPUS PLACEMENT DRIVES

Campus Placement Drives – 01 & 02:

Global Vikas Trust, in collaboration with the College of Agriculture, Dharashiv, organized two campus placement drives aimed at creating employment opportunities for agriculture graduates. The initiative focused on bridging academic knowledge with practical applications in the agricultural sector.

Across both drives, final-year students actively participated and were evaluated by GVT representatives on their technical skills, professional readiness, and sectoral understanding. Selected candidates will contribute to various development projects of the Trust, marking a significant step in their career journey and strengthening the future of agri-based development.

PROMOTING DRONE SPRAYING TECHNOLOGY

Under the CSR initiative of Dorf Ketal, GVT demonstrated drone spraying on horticulture crops in Dahanu taluka of Palghar district & Parli taluka is Beed district, to reduce farmer exposure to harmful agrochemicals and improve efficiency. In Dahanu, with the support of the Government Research Department and KVK Kosbad, the trials showed uniform spraying, time and labour savings, and drew strong farmer interest. This initiative seeks to promote drone-based spraying and training, furthering GVT's mission of making farming safer, smarter, and more sustainable.

EMPOWERING TAMIL NADU FARMERS WITH MODERN, SUSTAINABLE PRACTICES

Farmers from Thiruvarur, Tamil Nadu, attended a two-day programme at GVT Krishikul – Farmer Training Centre on sustainable agriculture and modern technology. Sessions covered soil testing, AI-based weather forecasting, and IoT-enabled irrigation, along with field demonstrations on fruit and vegetable crops, crop protection, and orchard management. Visits to the cowshed, biogas unit, and compost shed offered practical insights into livestock, renewable energy, and organic composting, combining theory with hands-on learning.

TATA TRUST VISITS GVT KRISHIKUL TO DISCUSS POTENTIAL CSR COLLABORATION

Global Vikas Trust organised a one-day workshop at GVT Krishikul for farmers from villages identified for upcoming watershed development projects, where riverbed surveys are already complete. The session focused on watershed management techniques, including riverbed treatment, recharge structures (CNBs, GRAs), rainwater harvesting, catchment area development, and organic farming. Farmers engaged actively, sharing experiences and showing strong interest in adopting these practices. During the ongoing session, Ms. Debasmita from Tata Trust CSR visited Krishikul, interacted with farmers to understand local challenges, and explored possibilities for a joint CSR initiative.

JALSAMVAD 2025 WATER CONFERENCE AT GVT KRISHIKUL

Global Vikas Trust and Vibha Vani India jointly organized 'JalSamvad 2025', a two-day conference held at GVT Krishikul on July 19–20, bringing together 61 organizations working on water conservation and rural development.

The event featured experts and dignitaries who shared insights on water management, biodiversity, organic farming, and community-led water planning. Participating organizations presented success stories and future plans. The conference served as a powerful platform to promote integrated water governance, rural sustainability, and collective action for a water-secure future. Special appreciation was given to the GVT team for the successful coordination of the event.

OPERATIONAL REVIEW AND PLANNING AT WADA OFFICE

A review meeting was recently held at the GVT Wada office, led by a GVT Trustee who oversees the organization's operations. Grounded in real challenges faced in the field, the discussion aimed to chart practical, farmer-centric solutions. It was a positive and energetic session that helped the team reflect, plan, and move forward with greater clarity.

The meeting focused on the present ongoing work and upcoming priorities, such as identifying suitable locations for water projects, earmarking land for research plots, and planning sites for nurseries and crop trials. It further reinforced GVT's commitment to creating meaningful, on-ground impact for rural communities.

PALGHAR

MOSL EXPLORE CSR OPPORTUNITIES IN PALGHAR

A CSR team from Motilal Oswal Financial Services Ltd. (MOSL) and ISKCON visited Devgaon village, Wada Taluka, to assess GVT's work in Mogra cultivation. They interacted with farmers on cultivation practices, pest management, market linkages, and income potential, supported by inputs from GVT's technical team. The visit offered valuable insights into how CSR support could strengthen the floriculture value chain, improve market access, and enhance farmer incomes in the Palghar region.

LEARNING FROM SAHYADRI FARMS TO STRENGTHEN FARMER VALUE CHAINS

The GVT team recently visited Sahyadri Farms in Nashik, led by Mr. Vilas Shinde. As one of India's top farmer-owned collectives, Sahyadri has built a strong model around fruit processing and direct market access.

The visit was a great opportunity to learn about building better value chains, ensuring fair prices for farmers, and promoting sustainable farming practices. GVT aims to apply these learnings to support small and marginal farmers across the country.

PALGHAR

GVT'S FARMER CONNECT: FROM QUESTIONS TO SOLUTIONS

As part of our monthly series, an online farmers' session was conducted on July 25th from the GVT Wada office.

Farmers from Vikramgad and Dahanu taluka participated in the session. Harshad Dumade from the GVT team guided them on the impact of climate, soil conditions, water management, and farming practices on Mogra cultivation. He also shared practical strategies to tackle environmental challenges, boost crop health, and improve yields.

TOWARDS A STRONGER RURAL INDIA: PARTNERSHIP IN ACTION

Collaborating for Rural Growth: GVT Meets Ajmera Realty

The discussion explored ways to deepen collaboration in farmer livelihood initiatives, building on Ajmera Realty's past CSR support to create a larger impact in rural India.

Meeting with Shri Sashank Mani, MP from Deoria

Exploring impactful collaboration with Shri Sashank Mani Tripathi, Member of Parliament (Deoria, Uttar Pradesh) and BJP leader, to drive rural transformation and strengthen farmer welfare initiatives.

OUR VISION

GVT is passionately committed to transforming Indian economy back to the **'Sone ki Chidiya'** period by multiplying farmers' income through sustainable agriculture at scale

FROM MY HEART

Nurture the Soil –
The Future of Farming
Grows from it

“The rains are here, but healthy crops don’t just depend on water—they depend on soil that breathes, lives, and nourishes. Poor soil means weaker plants, lower yields, and higher costs for farmers. At Global Vikas Trust, we are helping farmers adopt better soil practices: composting, mulching, cover crops, & organic manures. These small steps bring big results—fertile land, stronger plants, and a future that grows season after season. Healthy soil isn’t just about today. It’s about the next harvest, the next generation, the future of farming. Because when we nurture the soil, we protect every dream.”

SUCCESS STORIES

CAPACITY DEVELOPMENT FOR FARMERS AT GVT KRISHIKUL

Dharashiv District, Maharashtra

Farmers from Umarga, Dharashiv attended training on vermicompost and scientific methods to improve organic fertilizers.

Beed District, Maharashtra

Women farmers from Salegaon village participated in training on watershed management, modern farming technologies, and sustainable practices.

Latur District, Maharashtra

A women farmers' group from Latur learned about organic farming, water management, market opportunities, and value addition using a dehydrator.

Jalna District, Maharashtra

Farmers from Jalna attended training on mango cultivation, focusing on modern practices, improved production techniques, and long-term crop management.

CAPACITY DEVELOPMENT FOR FARMERS AT GVT KRISHIKUL MARATHWADA

Bidar District, Karnataka:

Farmers from Karnataka participated in sessions on modern fruit tree planting, crop management, and sustainable horticulture practices.

STAKEHOLDER & COMMUNITY ENGAGEMENT ACTIVITIES

Media Interaction Program at GVT Krishikul:

A Media Interaction Program was held for journalists from Beed district to showcase the centre's scientific training and sustainable farming practices, enabling them to accurately report and raise awareness about its farmer-focused initiatives.

Water Conservation Planning at Bankaranja Village:

GVT held a community meeting at Bankaranja village, Kaij taluka, to engage villagers in planning a comprehensive water conservation initiative, aiming to promote sustainable water management and develop a practical roadmap for implementation.

CAMPUS PLACEMENT DRIVE FOR AGRICULTURAL GRADUATES

 MARATHWADA

Global Vikas Trust, in collaboration with the College of Agriculture, Sailu, organized a campus placement drive to create employment opportunities in agriculture and allied sectors. Graduating students were interviewed by GVT representatives to assess their skills, knowledge, and perspective on the agri sector. Selected candidates will join GVT's development projects, gaining valuable career-building experience and contributing to sustainable agriculture initiatives.

As part of collaboration discussions, representatives from TATA Trust CSR visited GVT Krishikul to review the centre's work and understand GVT's initiatives. They observed projects, interacted with staff, and gained insights into farmer-focused programs, marking a step forward in exploring ways to work together.

COLLABORATIONS FOR FARMER EMPOWERMENT

📍 MARATHWADA

Representatives from the Rotary Clubs of Latur & Ambajogai visited GVT Krishikul to explore possibilities of collaboration for rural transformation. They were briefed on GVT's initiatives and visited the river widening and deepening project at Tapovan village, gaining insights into its role in water conservation and the benefits it brings to farmers. The visit opened discussions on working together for a common cause.

GVT MOBILIZATION VAN: SPREADING KNOWLEDGE VILLAGE TO VILLAGE

 MARATHWADA

To expand its outreach and ensure that farmers across rural India are well-informed about modern agricultural practices, Global Vikas Trust (GVT) has introduced a mobilization van. The van travels from village to village, raising awareness about GVT's key interventions in plantation, water conservation, Krishikul initiatives, and sustainable farming. A huge video wall mounted on the van showcases inspirational transformation stories, progressive farmer journeys, and village development initiatives, making the learning experience both engaging and impactful.

The initiative, inaugurated at the GVT Krishikul Farmer Training Centre, serves as a mobile knowledge hub, bringing guidance directly to farmers in their own villages. It motivates them to adopt scientific cultivation methods and provides detailed information about GVT's ongoing projects and facilities.

Through such efforts, GVT not only promotes large-scale fruit plantation but also builds awareness of sustainable farming practices, equipping farmers to embrace new opportunities and improve their livelihoods.

GVT CONNECTS WITH FARMERS THROUGH ONLINE & OFFLINE SESSIONS

As part of GVT's ongoing monthly farmer engagement initiative, interactive sessions were held both offline and online this month as well.

PALGHAR

Offline Meeting – 20 August:

As part of the “Shetkari Charcha Satra” offline session, five progressive farmers from Khand village, Vikramgad taluka, visited the Wada office. They expressed interest in Mogra cultivation and were provided insights on the economics and cultivation practices of both Mogra and Banana.

The farmers were also introduced to GVT's new drone-based spraying initiative, which they received with great enthusiasm, reflecting their interest in adopting innovative agricultural practices

Online meeting – 25 August:

An online farmers' meeting was conducted from the Wada office, with participation from Vikramgad and Wada talukas. GVT Agronomist Harshad Dumade shared practical guidance on fertilizer and spray management for Mango and Mogra, addressing queries and helping farmers improve cultivation practices and crop yields.

BHARUCH HORTICULTURE OFFICIALS VISIT AT GVT BHARUCH OFFICE

 BHARUCH

With GVT supporting 6.5+ lakh banana tissue culture plants for small and marginal farmers in Bharuch, officials from the Horticulture Department visited GVT Bharuch, Rajpardi office to understand the project. They reviewed farmer selection, plant quality, and technical guidance, visited fields, and interacted with farmers, who expressed satisfaction with the support received. The officials also assured facilitation of local farmers' visits to Krishikul to promote knowledge sharing and modern agricultural practices.

STRENGTHENING PARTNERSHIPS & SUPPORT FOR GVT INITIATIVES

 MUMBAI

Blog

Mr. Mayank Gandhi is the founder and chief trustee of Global Vikas Trust, which works on rural transformation.

Mayank Gandhi, Founder & Managing Trustee of GVT, and Ravi Junjunwala, GVT Advisory Member, met Nigel Dsouza, the Editor of CNBC TV18, to brief him on GVT's initiatives and the transformative impact on farmers. Impressed by the work, Nigel has extended his support to GVT's mission, opening avenues for potential collaboration.

In a flagship engagement with the Rotary Club of Bombay Mahakali Heights, Mayank Gandhi, Founder & Managing Trustee of GVT, shared the journey of Global Vikas Trust and the vision of the Krishikul Farmer Training Centre, highlighting efforts to transform rural livelihoods across India. The presentation inspired nine Rotary Clubs to explore forming a consortium with GVT to further amplify grassroots impact.

HDFC BANK CSR REPRESENTATIVE VISIT TO GVT MUMBAI OFFICE

 MUMBAI

As part of the ongoing collaboration process, representatives from HDFC Bank CSR visited the GVT Mumbai office to review documentation, policies, and organizational processes. During the visit, they engaged with the GVT team, observed project operations, and assessed the impact of ongoing initiatives. They were impressed by the scale, organization, and tangible outcomes of GVT's work in sustainable agriculture, water conservation, and rural development, reinforcing the foundation for strengthened joint efforts to enhance farmer livelihoods.

देश बदलायचा असेल तर शेतकरी आर्थिक उन्नत झाला पाहिजे - मयंक गांधी

कृषिकुल येथे संवाद माध्यम प्रतिनिधींशी कार्यक्रमास जिल्हाभरातील पत्रकारांची उपस्थिती

परळी (प्रतिनिधी)

जुन्या काळात आपला देश हा "सोने की चिडिया" म्हणून ओळखला जायचा. मध्यंतरीच्या काळात काळानुरूप बदल होत गेले. येथील लोकजीवन, वातावरण, पर्यावरणातील बदल आणि संसाधनांमध्ये खूपच मोठे बदल झाले आहेत. आज देशाची अवस्था सुधारण्यासाठी अनेक स्तरावरून प्रयत्न होतात. अनेक लोकसेवा संस्था आणि लोकसेवक सुधारणावादी काम करत असल्याचे पाहायला मिळते. मात्र जर देशाला घडवायचे असेल तर सर्वप्रथम

शेतकऱ्यांची अर्थव्यवस्था सुधारली पाहिजे असे मत ग्लोबल विकास ट्रस्टचे संस्थापक अध्यक्ष जलनायक मयंक गांधी यांनी व्यक्त केले. बुधवार, दिनांक 13 ऑगस्ट रोजी सिरसाळा येथील कृषिकुल येथे आयोजित "संवाद माध्यम प्रतिनिधींशी" या कार्यक्रमात जिल्हाभरातून उपस्थित असलेल्या पत्रकार बांधवांशी संवाद साधत असताना ते बोलत होते. यावेळी महाराष्ट्र शेती सहाय्य मंडळाचे विश्वस्त विजय अण्णा बोरडे, ग्लोबल विकास ट्रस्टचे विश्वस्त हरिश्चंद्र वगे यांची उपस्थिती होती. (पान 7 वर.)

OUR VISION

GVT is passionately committed to transforming Indian economy back to the '**Sone ki Chidiya**' period by multiplying farmers' income through sustainable agriculture at scale

FROM MY HEART

*Turning Loss into
Learning. Farmers
Journey with GVT*

This season, nature tested our strength. Floods washed away crops, homes, and dreams across many villages. But even in the mud and silence, one thing still grows—the farmer's courage.

At Global Vikas Trust, we stand with every farmer picking up the pieces, helping them restore their soil, replant their fields, and rebuild their confidence. Through guidance, training, and support, we are turning loss into learning, and despair into determination.

Because farming is not just about growing crops—it's about growing hope.

And as long as the farmer stands tall, India will keep rising.

INDIA CAN WAIT NO MORE!

ADVANCING ORGANIC BANANA CULTIVATION AT KRISHIKUL

A knowledge-sharing session was held at GVT Krishikul, where experts and the GVT team engaged in a detailed discussion on organic banana cultivation, focusing on sustainable ways to enhance productivity. Led by Mayank Sir, along with Dr. M.B. Patil, Dr. Sayyed Ismail, and Dr. Dayanand, the session explored strategies to maximize yields through organic practices, enrich soil health, address common cultivation challenges, and review new trials being conducted at Krishikul. The discussion underscored the value of blending scientific guidance with practical experience to strengthen organic farming and promote sustainable productivity for farmers.

Global Vikas Trust (GVT) organized an awareness program on watershed management in the villages of Mankeshwar and Bhandgaon, located in the Bhumi and Paranda talukas.

The session began with the local Sarpanch introducing the purpose of the GVT team's visit and providing an overview of the organization's mission and activities. GVT staff Gulab Rupnar further elaborated on the objectives of the meeting, highlighting Mayank Gandhi's vision and GVT's ongoing initiatives in sustainable water management.

The discussion focused on the region's prevailing water scarcity, the current status of local water resources, and the future roadmap for watershed development. The meeting served as an important step toward community awareness and participation in long-term water conservation efforts.

DONOR VISITS – FIELD ENGAGEMENTS BY PARTNER ORGANIZATIONS

 MARATHWADA

Mr. Saurabh Anand from the EY Foundation visited farms across Bhoshe, Pirachi Kuroli, and Patwardhan Kuroli in the Akluj Cluster. During the visit, he interacted with local farmers to understand the yield differences between traditional farming and fruit orchard cultivation. He also observed the banana harvesting and box-packing processes at the farmers' plots. The visit concluded with a meeting at the Patwardhan Kuroli Gram Panchayat office, where further discussions were held on agricultural practices and ongoing initiatives with the farmers.

Mr. Faraz Ahmad, Project Director of the Rotary Club of Delhi Premier, along with Mr. Swayang Bikas, Project Coordinator, visited mango farmers in Wagholi, Dharashiv District, who initiated plantations in 2024. They assessed the mango orchards, reviewed the drip irrigation systems, and engaged with farmers to understand challenges in crop management. The visit included discussions at the Gram Secretariat in Upala village with the Gram Vikas Officer, Sarpanch, and Deputy Sarpanch, focusing on the potential for tree plantation initiatives on vacant forest land adjacent to the village.

MakeMyTrip CSR team members Mr. Yuvraj Srivastava & Mr. Rajneesh Kumar Sharma visited their intervention area in Aurangabad with reference to a potential collaboration for the GVT project. The team interacted with farmers, reviewed ongoing activities, and discussed possible avenues of partnership aimed at strengthening rural livelihoods and promoting sustainable development.

These visits reinforced the shared commitment to improving farmer livelihoods through field-based understanding, collaboration, and sustainable agricultural development.

EMPOWERING FARMERS: UNITY, ADVOCACY, AND ACTION IN BEED DISTRICT

The agricultural community of Beed district witnessed a series of impactful initiatives aimed at empowering farmers, addressing challenges, and promoting sustainable rural development.

Gram Vikas Manthan – Fostering Unity Among Farmers

The Gram Vikas Manthan program in Bodhegaon brought together thousands of farmers with a shared goal: strengthening the voice of agriculture in the region. Honourable Mayank Gandhi emphasized the necessity of unity, urging farmers to transcend caste, creed, and political affiliations to embrace a singular identity. Highlighting that farmers, despite being the backbone of the nation's food supply, often face neglect and suppression, he encouraged a united front as a means to compel government attention. Held on September 19 at the Bodheshwar Temple, the event featured engaging discussions with local dignitaries and provided a platform for farmers to deliberate on rural development and agricultural advancement.

FROM FIELD TO GOVERNMENT: FARMERS TAKE ACTION AGAINST CROP DAMAGE

Village-Level Advocacy – Addressing Crop Losses

The Marathwada region recently experienced heavy rainfall and subsequent flooding, causing significant damage to crops across multiple villages. In Kaudgaon Huda (Parli Taluka) and Rakshaswadi & Mandwa Pathan (Ambajogai Taluka), village meetings were organized to inform farmers about a memorandum campaign seeking government compensation. Farmers were urged to participate collectively, emphasizing the strength of unity in advocating for their rights and ensuring that their grievances are formally recognized.

Tehsil-Level Action – Formal Submissions for Relief

To tackle the hardships caused by recent floods, memorandums were submitted to the Parli and Ambajogai Tehsil Offices after extensive village consultations. The documents emphasized the damage due to heavy rainfall and sought prompt field assessments (panchanamas) and compensation to support affected farmers.

FROM VILLAGE TO DISTRICT: FARMERS' RELIEF INITIATIVES WITH THE DISTRICT COLLECTOR

District Engagement – Government Response and Support

To address the flood situation at a broader level, a group of farmers met with the district administration to discuss the crop losses caused by excessive rainfall. The authorities assured them that detailed assessments would be carried out and appropriate relief measures implemented to support the affected farmers.

This engagement reflects the collaborative efforts between farmers and government officials to ensure timely assistance and safeguard rural livelihoods.

EXPLORING PINEAPPLE CULTIVATION FOR FARMER PROSPERITY

The GVT team has been consistently visiting the pineapple nursery of Mr. Hemant Chhabra in Zadpoli village, Vikramgad Taluka, to monitor crop performance and evaluate its potential as a feasible, economically viable option for marginal farmers. On 3rd September, a focused assessment was carried out to study the economics of pineapple cultivation, including profitability, sapling sourcing, and sustainability.

During the visit, the team closely observed the farm operations and engaged in detailed discussions on cultivation costs, labour needs, expected returns, and potential profit per acre. Key challenges in cultivation were also reviewed, with practical, field-based solutions explored to enhance productivity and strengthen farmer livelihoods.

IMPOWERING FARMERS WITH MOGRA: FIELD INSIGHTS AND FUTURE READINESS

As part of its preparation for the upcoming financial year, Global Vikas Trust (GVT) initiated a detailed field assessment to plan large-scale procurement of mogra saplings. The GVT Palghar team conducted visits to nurseries across Jawhar and Vikramgad talukas to evaluate production capacity, assess sapling quality, and understand nursery operations.

The visits focused on key aspects such as stick selection, nursery practices, sapling preparation techniques, and the overall readiness of farmers for bulk supply. Over the course of several days, the team interacted with 7–8 nursery groups to gather comprehensive data and insights into their operational capabilities.

As a follow-up, GVT has requested nursery owners to review the proposed supply plan and confirm their potential sapling output. The collected information will serve as the foundation for finalizing MOUs for the next financial year, ensuring timely and efficient sapling distribution to farmers.

PLANTING FOR THE FUTURE: AURUM FOUNDATION JOINS HANDS WITH GVT

As part of the annual plantation initiative, members of the Aurum Foundation visited the GVT Wada office to understand Global Vikas Trust's vision, journey, and developmental work in the Palghar region. The GVT team shared insights into ongoing projects, highlighting key challenges faced by farmers such as water scarcity, unstable income, and agricultural uncertainty.

To gain on-ground perspective, the visitors interacted with Mogra farmers in Malwada village, where Ashish Sir explained the technical and economic aspects of Mogra cultivation, including land suitability, cost structure, climate requirements, and post-plantation management.

The visit concluded with a symbolic plantation activity, where the Aurum team planted Mogra saplings, reaffirming their support for sustainable farming and farmer empowerment.

GVT CONNECTS WITH FARMERS THROUGH ONLINE

Online meeting – 25 September:

As part of GVT's ongoing monthly farmer engagement initiative, interactive sessions were held online this month as well.

An online farmers' session was conducted from the Wada office, with participation from farmers of Jawhar and Shahapur talukas. The session was highly interactive, with farmers sharing their experiences and raising queries on Mogra cultivation practices, fertilizer use, and pest management. In response, Kalpesh from the GVT team provided detailed guidance, explaining fertilizer types, dosages, and schedules for each growth stage, along with a recommended spray management plan highlighting safe and effective application methods. The session fostered a meaningful exchange of knowledge, enabling farmers to clarify doubts and receive tailored advice for improving crop management and productivity.

EMPOWERING FARMERS THROUGH PRACTICAL TRAINING ON BANANA CULTIVATION

A comprehensive farmer training program was organized by Global Vikas Trust (GVT), led by the agronomy team, focusing on banana cultivation, soil health, and the effective use of vermicompost. The session covered essential aspects such as pre- and post-plantation care, pest and disease management, fertilizer application, and root growth enhancement techniques.

A total of 21 farmers, including both registered and non-registered participants, actively took part in the training. They engaged enthusiastically, raising practical queries related to root damage, leaf caterpillar control, and nutrient management, which were effectively addressed by the agronomist.

The participants found the training highly insightful and practical, expressing appreciation for GVT's efforts and requesting that such knowledge-sharing sessions be organized regularly to further strengthen their farming practices.

Honoured to receive the Transformative Leadership Award in Community Upliftment at the Sustainability Convergence Summit and Awards 2025. This award is dedicated to our farmers, the true backbone of the nation, whose struggles must remain at the center of our national agenda. Grateful for this honour and committed to keeping their cause alive in our hearts, minds, and actions.

MUMBAI

AWARDED FOR LEADERSHIP, ENGAGING FOR RURAL TRANSFORMATION

In a high-level discussion with Mr. R. Venkataramanan (Venkat), CEO of Karkinos Healthcare, Mr. Mayank Gandhi, Founder & Managing Trustee of GVT, shared the vision and initiatives of GVT Krishikul, highlighting efforts to drive sustainable agriculture, rural development, and livelihood enhancement across India. The conversation offered valuable insights from Venkat's diverse experience — from leading Tata Trusts to revolutionizing technology-driven cancer care — and opened possibilities for future collaboration to amplify impact in rural Bharat.

Mr. Mayank Gandhi, Founder & Managing Trustee of GVT, and CA. Sanjay Parmer, Trustee, met Dr. Anand Bang, Joint Director of SEARCH, Gadchiroli, and Advisor to the Chief Minister of Maharashtra, to discuss GVT's initiatives supporting farmers through cluster-based cultivation and water conservation programs. Dr. Bang shared valuable insights on scaling these efforts across Maharashtra, and we anticipate his visit to GVT Krishikul to discuss collaboration possibilities.

STRENGTHENING PARTNERSHIPS & SUPPORT FOR GVT INITIATIVES

In a productive discussion with Mr. Pavithra Kumar, CEO of JSW Foundation, and Mr. Lakshman Sivasubramanian, Chief Strategy Officer of JSW Foundation, Mr. Mayank Gandhi, Founder & Managing Trustee of GVT, shared the vision and initiatives of Global Vikas Trust. The conversation focused on strengthening farmer livelihoods, exploring collaborative opportunities to scale GVT's impact across rural communities.

SPECIAL GUEST VISIT AT GVT KRISHIKUL

As part of our ongoing capacity-building efforts, GVT Krishikul welcomed distinguished guests this month, including Mr. Vilas Vishnu Shinde, Chairman & MD of Sahyadri Farms, Nashik, and Shir Subhash Salve, District Superintendent Agriculture Officer. Both leaders explored our world-class farming center, interacted with farmers, and shared insights on sustainable and profitable agriculture.

Till date - Total visitors

11,564

Total visitors in September

612

This month, 809 visitors from across the agricultural ecosystem — farmers, FPO/NGO leaders, students, and government and private sector officials — participated in sessions led by our agronomists on key farming techniques. The growing participation underscores the strong interest in adopting innovative and sustainable farming practices.

OUR VISION

GVT is passionately committed to transforming Indian economy back to the '**Sone ki Chidiya**' period by multiplying farmers' income through sustainable agriculture at scale

FROM MY HEART

Seeds of Change: Empowering Rural India

Every seed sown carries a dream — a dream of growth, dignity, and a better tomorrow. But without guidance, technology, and support, even the best seeds can struggle to grow.

At Global Vikas Trust, we're helping farmers turn those dreams into reality — through training, modern techniques, and sustainable farming practices that ensure long-term prosperity.

Because true change begins in the soil... but grows stronger in the hands of an empowered farmer.

Building Climate-Smart Solutions:

GVT'S STRATEGIC ENGAGEMENT AT PARBHANI UNIVERSITY

The Global Vikas Trust (GVT) team, accompanied by GVT Hydrogeologist Devendra Joshi, visited the Department of Agricultural Meteorology at Vasantryao Naik Marathwada Krishi Vidyapeeth (VNMKV), Parbhani.

During this visit, the team engaged in an in-depth discussion with Dr. Kailash Dakhore, Head of the Department, on key topics such as rainfall trends over the past five years, shifting climate patterns, and the recent episodes of heavy rainfall across the Marathwada region.

The interaction focused on developing scientific strategies and climate resilience measures to help mitigate the recurrence of extreme weather events and minimize their adverse impact on agriculture in the region.

CLIMATE RESILIENCE DIALOGUE

Amid growing climate instability and recurring extreme rainfall in Marathwada, Global Vikas Trust (GVT) has taken a proactive step toward understanding and addressing these challenges. Mayank Gandhi, along with hydrologist Devendra Joshi, interacted with affected farmers and villagers and released a white paper titled “Marathwada Excess Rainfall – Disaster Analysis and Future Measures.”

The report, prepared after extensive field assessment, will be submitted to government officials to support proposals for relief packages and long-term measures for the affected farmers.

During the event, Mayank Gandhi emphasized that environmental conservation, large-scale tree plantation, and effective water management are essential for building a sustainable and resilient future for the region’s farming communities.

GVT Initiative for Climate

RESILIENT AGRICULTURAL AWARENESS

In response to the recent excessive rainfall that caused severe crop damage across the region, Global Vikas Trust (GVT) organized community meetings to assess on-ground losses and identify immediate recovery measures.

Mayank Gandhi addressed the meetings & personally visited several affected villages, interacting with farmers to understand their concerns and guide them on restoring their fields. Discussions also focused on climate-resilient farming, including balanced cropping patterns, soil and water conservation, and long-term sustainability.

The initiative reaffirmed GVT's commitment to support farmers through scientific guidance and collective action for a more resilient future.

Standing with Farmers in Times of Crisis

GVT'S FLOOD RELIEF EFFORT IN MARATHWADA

In September 2025, severe floods devastated Marathwada, damaging farmland and leaving thousands of farming families in distress. In response, Global Vikas Trust (GVT), under Mayank Gandhi's initiative, launched a flood relief program supported by CSR partners to provide food and essential kits to affected families.

The first phase, flagged off by Mr. and Mrs. Raamdeo Agrawal and Mr. Sushil jiwarajka, distributed 4,750 kits benefiting around 24,000 individuals across 30 villages. The ongoing drive aims to reach more affected farmers, reflecting GVT's commitment to support and rebuild rural livelihoods with dignity and hope.

Each kit consists of 22 items

Two-Day Practical Training on

MULTILAYER FARMING CONDUCTED AT GVT KRISHIKUL

As part of Global Vikas Trust's (GVT) ongoing efforts to promote innovative and sustainable farming, a two-day training program on Multilayer Farming was organized at Krishikul. Led by Mr. Akash Chaurasia, an expert in multilayer agriculture, the program aimed to help farmers adopt resource-efficient and high-yield methods while maintaining soil health.

The training combined theoretical sessions on structural design, soil preparation, and organic fertilizer use with hands-on field practice, where farmers built multilayer structures and learned practical plantation and maintenance techniques.

The program empowered farmers with both knowledge and practical skills to implement multilayer farming effectively in their own fields.

Empowering Rural Communities through

FIELD INTERACTION

As part of its ongoing efforts to strengthen grassroots engagement and promote sustainable farming, the Global Vikas Trust team visited Vikramgad Taluka, District Palghar, on 8th October 2025.

Mayank Gandhi (Founder & Managing Trustee), Minal Gandhi, Sanjay Parmer (Trustee), and Shyam Pammi (CFO) of GVT visited Ambivali and Onde villages. In Malwada, they were warmly welcomed by farmers and held interactive discussions with farmers from Malwada and Mangrul, introducing the Krishikul initiative and its vision.

Later, Mayank Gandhi met social leaders and progressive farmers in Onde to discuss GVT's agricultural initiatives. The visit concluded with a field inspection of Mr. Hemant Chhabra's pineapple farm at Vikramgad, showcasing innovative cultivation practices in the region.

Hands-On Learning

FARMERS TRAINED IN MOGRA CULTIVATION TECHNIQUES

To strengthen farmers' technical expertise and promote sustainable practices, Global Vikas Trust organized a Mogra cultivation training program on 11th October 2025 at Karsud village, Vikramgad Taluka.

The session, led by GVT Agronomist Mr. Ashish Bujad, focused on key aspects of Mogra farming, including pest control, fertilizer management, and pruning techniques. Nineteen farmers participated in the program, actively engaging in discussions and seeking practical solutions to field challenges.

The training also included a field visit to nearby Mogra plots, where hands-on demonstrations helped farmers gain a better understanding of effective cultivation practices.

The program proved highly impactful, enhancing farmers' confidence, knowledge, and capacity to adopt improved and sustainable agricultural methods.

Donor Visit:

STRENGTHENING PARTNERSHIPS FOR RURAL DEVELOPMENT

To deepen donor engagement and provide firsthand insights into field-level activities, GVT organized a visit for its donors to interact with farmers and understand the on-ground impact of its initiatives.

GVT donors Mr. and Mrs. Anil Chandarana visited the Wada Office, where Sudhir Chinta and Ashish Bujad shared an overview of GVT's initiatives and their impact in Palghar district. The donors interacted with the team to understand local agricultural challenges and GVT's sustainable solutions.

They later visited Karsud village, Vikramgad Taluka, meeting Mogra farmers to discuss cultivation practices and ways to improve productivity and income. The visit offered valuable field insights, and the donors appreciated GVT's dedicated efforts toward empowering rural communities.

Mogra Nursery Kit

DISTRIBUTION AND CAPACITY BUILDING INITIATIVE

To enhance the technical capacity of nursery owners and ensure a consistent supply of quality Mogra saplings for the upcoming plantation season.

GVT prioritizes improving the technical knowledge of nursery owners to promote sustainable and quality sapling production. The GVT Palghar team conducted field visits to nurseries in Jawhar and Vikramgad talukas, offering hands-on guidance on Mogra cultivation and nursery management practices. During the visits, the team distributed Mogra Nursery Management Kits, with Mr. Ashish explaining their proper use and timing for maximum effectiveness. The discussions also covered upcoming initiatives to further strengthen nursery operations and enhance sapling production.

This visit concluded with the team extending Diwali greetings to nursery owners, reaffirming GVT's long-term partnership and commitment to supporting their growth and success.

GVT connects with farmers

THROUGH ONLINE & OFFLINE

On 15th October 2025, GVT conducted its monthly 'Shetkari Charchasatra' at the Wada Office, attended by farmers from Wada Taluka. The session focused on Mogra, Lemon, Guava, and Banana cultivation, addressing pests, diseases, and nutrient deficiencies. GVT Agronomist Ashish Bujad shared practical guidance on fertilizer use, pest management, and techniques to improve yield and quality, making it an effective platform for farmer learning and skill enhancement.

As part of GVT's monthly farmer engagement initiative, an online session was held on 25th October, during which farmers from Dahanu attended a discussion on Mogra, Mango, and Banana cultivation. Mr. Harshad from GVT provided guidance on fertilizer management, pest control, and spray schedules. These regular consultations help farmers clarify doubts and adopt better practices for improved productivity and sustainability.

Offline meeting – 15 October

Online meeting – 25 October

Leadership Connects and

STRATEGIC COLLABORATIONS

In continuation of GVT's mission to build strong leadership associations, former Mumbai Police Commissioner Shri Arup Patnaik visited the GVT Mumbai office to learn about the organization's initiatives and the impact created in the lives of farmers through its on-ground work. With his deep connect to Marathwada, where he served as SP of Latur, he understood the realities faced by farmers in the region and appreciated GVT's efforts toward their upliftment. He graciously agreed to join GVT's Advisory Board, further strengthening GVT's mission to empower India's farmers.

To explore potential collaborations for sustainable rural development, Team GVT, led by Mr. Mayank Gandhi (Founder & Managing Trustee), met with Mr. Brijendra Pratap Singh, CMD of NALCO, in Bhubaneswar. The meeting focused on aligning NALCO's CSR initiatives with GVT's on-ground agricultural programs to drive long-term impact.

Due to the severe damage caused by excessive rainfall in Beed district, Mayank Gandhi (GVT Founder & Managing Trustee) met with District Collector Mr. Vivek Johnson to discuss the issues faced by farmers. The Collector assured that compensation would be released soon and confirmed that surveys of the affected farmlands are being conducted to prepare proposals for additional government assistance.

Special guest visit

AT GVT KRISHIKUL

As part of our ongoing capacity-building initiatives, GVT Krishikul had the honour of hosting several distinguished guests this month, including Mr. Nitin Sharma and Ms. Divyaprakash Pandey from Reliance Foundation; Dr. Indramani, Vice Chancellor of VNMKV Parbhani; and IPS Navneet Kanwat, Superintendent of Police, Beed. They explored our world-class farming centre, interacted with farmers, and shared valuable insights on promoting sustainable and profitable agriculture.

Till date - Total visitors

12,924

Total visitors in October

1,517

This month, 1,517 visitors from across the agricultural ecosystem — farmers, FPO/NGO leaders, students, and government and private sector officials — participated in sessions led by our agronomists on key farming techniques. The growing participation underscores the strong interest in adopting innovative and sustainable farming practices.

REPORT

November 2025

OUR VISION

GVT is passionately committed to transforming Indian economy back to the **'Sone ki Chidiya'** period by multiplying farmers' income through sustainable agriculture at scale

FROM MY HEART

HEALING THE SOIL – STRENGTHENING THE FUTURE

Years of depletion have left our soils tired. Organic carbon is falling, fertility is declining, and yields are shrinking. But beneath every handful of soil lies a story of renewal—and farmers who refuse to give up.

At Global Vikas Trust, we are restoring soil health through science-based interventions, awareness, and farmer training. From composting to microbial solutions and sapling-based regeneration, we are helping rebuild the foundation of farming.

Because healthy soil grows more than crops—it grows prosperity, dignity, and hope for generations to come

NOTEWORTHY ACTIVITIES

- ▶ MARATHWADA

- ▶ PALGHAR

- ▶ EVENTS

- ▶ SUCCESS STORIES

SHETKARI SAMVAD MELAVA

On 7 November, the Hon'ble Union Minister of Agriculture and Former Chief Minister of Madhya Pradesh, Shri Shivraj Singh Chouhan ji, visited GVT Krishikul, Beed.

The Minister reviewed GVT's sustainable livelihood, cluster-based plantation, and water conservation initiatives, along with Krishikul's demonstration plots, training classrooms, and soil health enhancement model. He also visited nearby flood-affected areas to observe GVT's relief efforts and intervention work.

A large farmer outreach event, "Shetkari Samvad Melava," was held at Sirsala, Beed, with 50,000 farmers in attendance. The Minister addressed the gathering and interacted directly with farmers.

Impressed by GVT's structured, data-driven, and scalable model, the Minister announced that the Central and State Governments will collaborate with GVT to replicate this approach across India.

This endorsement marks a key milestone for GVT, strengthening government partnerships and supporting nationwide expansion of the GVT model.

STRENGTHENING ACCESS TO GOVERNMENT WELFARE SCHEMES

GVT Krishikul, in collaboration with the National Labour Education and Development Board, conducted a focused awareness programme for farmers and rural workers to improve access to key government welfare schemes.

Participants were guided on initiatives such as the e-Shram Portal, Atal Pension Yojana, Pradhan Mantri Suraksha Bima Yojana, and Pradhan Mantri Shram Yogi Maandhan Yojana, including basic eligibility and application steps. On-site registrations for the e-Shram Card and National Career Service (NCS) were also completed for several attendees.

This initiative supports GVT's ongoing efforts to equip rural communities with essential information and improved access to welfare benefits.

MEETING WITH DISTRICT COLLECTOR & DISTRICT AGRICULTURE OFFICER

DISTRICT COLLECTOR OFFICE

As GVT scales its initiatives across Marathwada, a strategic review was held with senior district authorities in Beed.

At the District Collector Office, Mayank Gandhi (Founder & Managing Trustee, GVT) and the team met District Collector Shri Vivek Johnson to discuss upcoming interventions, including strengthening banana cultivation, expanding sericulture, and establishing an aggregation centre at Shirasala.

Subsequently, GVT met District Agriculture Officer Shri Salwe to review the orchard plantation programme, sericulture expansion, and alignment with government schemes like MNREGA and Pokhara. Technical requirements, field implementation, and plans to operationalise the Shirasala aggregation centre were also deliberated to enhance market linkages for farmers.

DISTRICT AGRICULTURE OFFICER

FLOOD RELIEF INITIATIVE: DISTRIBUTION OF FOOD AND ESSENTIAL KITS

KANNAPUR VILLAGE

SIRSALA VILLAGE

FAKIR JAWALA VILLAGE

In the aftermath of severe flooding, many families in the affected villages lost stored food supplies and access to daily essentials, creating an immediate risk of food insecurity. To address this ongoing need, GVT has been continuing its structured food package distribution drive across the worst-hit areas. Essential food kits are being distributed to identified vulnerable households through a transparent village-level process, ensuring sustained relief and basic food security during the recovery period.

EMPOWERING MOGRA FARMERS:

GVT PROVIDES ESSENTIAL TOOLKITS

Global Vikas Trust, with the generous support of Ms. Vandana Mehta, launched the first phase of an empowerment initiative for Mogra farmers. Fourteen GVT-registered farmers from Malwada and Karsud villages in Vikramgad Taluka were selected to receive essential farm tools at subsidised rates.

Each farmer was provided with a practical toolkit comprising a 20-litre spray pump, key fertilizers, sticky trap, seggator, pruning scissors, head torch, and a Mogra bud collection bag. Farmers were also introduced to GVT's ongoing initiatives and informed about the donor whose contribution made this effort possible.

Hands-on demonstrations were conducted to ensure correct tool usage, along with guidance on scientific fertilizer application to enhance yield and maintain crop health.

This initiative extended beyond distributing tools—it aimed to build farmers' confidence, strengthen their skills, and support improved cultivation practices, contributing to more sustainable and secure livelihoods.

DUE DILIGENCE VISIT – JSW FOUNDATION CSR ENGAGEMENT

As part of the due diligence being conducted by CPFI on behalf of JSW Foundation, Mr. Imran Sheikh visited the GVT Wada office to review GVT's plantation programme and on-ground implementation systems. The visit was undertaken in the context of JSW Foundation's proposed CSR support to Global Vikas Trust.

During the visit, Mr. Sheikh was briefed on GVT's vision, beneficiary selection and documentation process, and the roles of the Palghar field team. Agronomist Mr. Ashish shared insights on regional soil and climatic conditions, cropping patterns, and the use of interventions such as drones, vermibeds, and GKA for soil improvement.

Mr. Sheikh also visited a mogra plantation in Karsud, where he interacted with beneficiary farmers. Farmers shared that seasonal migration has reduced and that several have transitioned into independent growers, highlighting the livelihood impact of GVT's interventions.

ENHANCING SAPLING QUALITY: R&D AND FARMER TRAINING

Under its R&D initiatives, GVT has developed experimental beds to test best practices and nutrient management for optimal sapling growth. These trials help identify nursery-level gaps that often lead to sapling mortality at farmers' fields, thereby reducing potential losses.

To ensure ideal growing conditions amid changing climatic patterns—such as extreme daytime heat and cooler evenings—GVT has installed tunnels, foggers, sprinklers, and automated temperature and humidity sensors. Agronomists closely monitor sapling growth and continuously refine cultivation practices based on field observations.

Apart from providing saplings at subsidised rates, farmers are supported through capacity-building initiatives that train them in practices to enhance productivity, improve yields, and promote sustainable farming.

GVT CONNECTS WITH FARMERS

ONLINE MEETING – 25 NOVEMBER:

As part of the regular monthly “Shetkari Charcha Satra”, this month too an online farmer discussion session was conducted on 25th November 2025. The session aims to provide farmers with practical agricultural guidance, address their queries, and help improve farming practices to enhance productivity. During the session, a farmer from Shahapur raised concerns regarding mango cultivation and management. GVT agronomist Harshad Dumade addressed the query by first gathering details about the soil type and current management practices, and then providing specific recommendations on fertilizers and spray techniques. Practical advice was shared on optimizing these processes to improve crop yield, protect mango crops from pests and diseases, and use fertilizers efficiently.

Initiatives like these not only empower farmers with knowledge and hands-on guidance but also strengthen their confidence to adopt better agricultural practices, ultimately contributing to sustainable and productive farming.

NATIONAL POLICY ENGAGEMENT AND LEADERSHIP RECOGNITION

In a high-level meeting with senior leaders from NITI Aayog and ICRIER, Mr. Mayank Gandhi, Founder & Managing Trustee of GVT, highlighted the urgent challenges faced by farmers in Marathwada and the need for national-level action. Eminent experts including Prof. Ramesh Chand, Padma Shri Dr. Ashok Gulati, and the ICRIER policy team expressed strong interest and will visit Parli for an on-ground assessment. This engagement strengthens GVT's mission to take farmers' voices to the highest policy platforms.

Honoured to receive the India Leadership Conclave 2025 Award for our rural transformation work. This recognition belongs to the entire GVT family—our dedicated team and the resilient farmers who inspire this mission. Grateful for the honour and deeply committed to advancing a stronger, more empowered rural India.

NOTEWORTHY ACTIVITIES

MARATHWADA

PALGHAR

EVENTS

SUCCESS STORIES

EXPOSURE VISITS — BUILDING TECHNICAL KNOWLEDGE & PRACTICAL INSIGHT

GVT's Marathwada and Palghar teams visited KISAN 2025, one of India's largest agricultural exhibitions held at Moshi, Pune, to explore innovations aligned with GVT's ideology of promoting organic, low-cost, farmer-centric, and sustainable farming, with a transition toward fruit-based and high-value agriculture. The exhibition showcased advancements in mechanization, irrigation, biological inputs, and precision farming. This visit helped the team understand emerging technologies and identify practical, scalable solutions to further strengthen programme implementation.

To strengthen technical capacity, the Palghar team conducted exposure visits to Banana Tissue Culture laboratories (Namo Biotech, Nashik and Callus Biotech, Kolhapur) along with a field visit in Sangli. These visits helped the team understand laboratory processes, hardening, quality control, sapling selection, and on-ground field challenges. The interactions with farmers further provided practical insights into cultivation practices and feedback that will support refining strategies and strengthening future program implementation.

GUEST VISIT: EMPOWERING FARMERS THROUGH EXPERT ADVICE AND EXPORT INSIGHTS

To provide farmers with expert guidance and market insights, GVT Krishikul hosted distinguished leaders to strengthen knowledge-driven and export-oriented agriculture.

A press conference and farmer interaction session was held at the Krishikul Training Centre with Dr. Ashok Gulati, National Agricultural Economist, and Mr. Mayank Gandhi, Founder & Managing Trustee of Global Vikas Trust, focusing on farmers' income enhancement. The discussion highlighted the need to reduce input costs, adopt modern technology, improve market access, and shift from low-income crops to high-value fruit cultivation. Emphasis was also placed on value addition, FPCs, e-NAM, and direct market linkages as key pathways to sustainable income growth.

Mr. Harry Asher, Managing Director of Trident Agrocom Exports, provided a detailed session on banana exports, including quality standards, best cultivation practices, post-harvest handling, grading, packaging, and compliance with international norms. The discussion highlighted opportunities for value addition, cold storage development, and market linkages, enabling farmers to access better prices and stable export markets.

EMPOWERING FARMERS THROUGH FRUIT PROCESSING SKILLS

To enhance income opportunities and promote value addition for farmers and rural entrepreneurs, Global Vikas Trust conducted a practical training program on banana fruit processing at GVT Krishikul. The program aimed to equip participants with skills to convert raw fruits into high-value products such as powders, and dehydrated items, thereby increasing profitability and reducing post-harvest losses.

Participants were trained on step-by-step processes including selection, cleaning, slicing, blanching, dehydration, storage, and packaging, with guidance on maintaining hygiene and quality standards. The session also highlighted market potential and practical strategies for establishing small-scale fruit processing enterprises, enabling participants to generate additional income and develop sustainable livelihood opportunities.

PROMOTING SOIL HEALTH THROUGH COW-BASED NATURAL FARMING

GVT distributed Go Krupa Amrutam (GKA) to farmers this month as part of our sustainable agriculture initiative. Developed by Shri Gopalbhai Sutariya, Founder of Bansi Gir Gaushala, Ahmedabad, and Knowledge Partner of Global Vikas Trust, GKA is a natural, cow-based organic formulation prepared using cow dung, cow urine, jaggery, and other natural ingredients. It helps rejuvenate soil health, enhances microbial activity, improves nutrient absorption and moisture retention, strengthens plant growth, and reduces dependence on chemical fertilizers—thereby lowering input costs and promoting long-term sustainable farming. Farmers were also guided on its proper usage to ensure effective adoption and improved crop productivity.

[For more information click link](#)

CAPACITY-BUILDING OF GVT STAFF FOR IMPROVED FIELD SUPPORT

To strengthen the technical capabilities of our team and enhance farmer handholding, Global Vikas Trust periodically conducts advanced training programs facilitated by subject experts. During the month, a comprehensive training session was organized focusing on sustainable and scientific horticulture practices. Experts from Biome Technology delivered an insightful session on soil health and biological farming, emphasizing the role of living soil, bio-fertilizers, and beneficial microbes in improving productivity. This was followed by a technical session by RNS Biotech, Pune; Namo Biotech, Nashik; Callus Biotech, Kolhapur; and Patil Biotech, Jalgaon, providing practical guidance on banana cultivation and addressing key field challenges such as uneven fruiting, plant mortality, and growth management.

Additionally, a focused session on lemon and mango orchard management by Dr. M. B. Patil, an Horticulture expert highlighted best practices in pruning, flowering, fruiting, and productivity enhancement. This capacity-building initiative has further strengthened the team's technical expertise, enabling them to deliver more informed, scientific, and effective field-level support to farmers.

FIELD LEARNING FOR BETTER AGRICULTURAL PRACTICES

To strengthen technical understanding and support evidence-based decision-making, two focused field studies were undertaken.

Banana Farmers' Plot Visit – Solapur District:

The team visited Akluj, Pandharpur, and Karkamb villages to study export-quality banana production, fertigation practices, and cold-chain systems. Key observations included well-drained soils, double-drip irrigation, and science-based fertigation contributing to yields of 25–30 kg per plant. Established cold storage, careful fruit handling, and year-round production have strengthened the export ecosystem, despite challenges such as chilling

injury affecting prices. Discussions with local vendors and growers opened avenues for future collaboration with Krishikul

Kisan Biogas Project – Farmers' Field Visit:

A visit to Nimgaon Wagha village assessed the performance of farmer-installed biogas units, focusing on gas output, maintenance, and practical use. Farmers reported benefits in cooking energy, reduced fuel costs, and availability of nutrient-rich slurry for fields. The review also identified operational challenges and improvement areas to enhance reliability and long-term sustainability of the units.

AGRICULTURAL DRONE AWARENESS SESSIONS

Village: Malwada, Tal.Wada

Village: Gargaon, Tal.Wada

Village: Pinjal, Tal.Wada

Village: Ambivali, Tal.Vikramgad

Village: Poshera, Tal. Mokhada

As part of promoting technology-driven farming, GVT conducted agricultural drone spraying awareness sessions across villages in Wada, Vikramgad & Mokhada Talukas of Palghar District.

The demonstrations highlighted how drones reduce labour, avoids human intervention, save time, and ensure precise application on mogra and mango crops. Farmers showed strong interest, while Agriculture Department officials appreciated the initiative and encouraged wider adoption across villages

EMPOWERING MOGRA FARMERS: GVT PROVIDES ESSENTIAL TOOLKITS

To enhance productivity and reduce farm costs, Global Vikas Trust continued its initiative to support small and marginal farmers with essential tools and practical guidance.

With the generous support of Ms. Vandana Mehta, fourteen farmers from Malwada and Karsud villages earlier received subsidized farming toolkits. This month, seven farmers from Mangrul village (Wada Taluka) were also equipped with comprehensive tools — including a 20-litre spray pump, fertilizers, sticky traps, a segeter, pruning shears, a head torch, and a Mogra flower collection bag.

Along with distribution, farmers were trained on fertilizer application, crop management, and sustainable practices, while also being briefed on GVT initiatives and donor support.

By combining tools with knowledge, the program is helping farmers improve crop quality, protect plant health, increase confidence, and strengthen their livelihoods.

GVT CONNECTS WITH FARMERS THROUGH ONLINE MEETING

As conducted every month, this month too an online farmers' interaction session, "Shetkari Charcha Satra," was held to guide farmers and address their queries.

During the session, the participating farmers raised concerns mainly related to pest management and low flowering in their crops. GVT agronomists explained that the low flowering is largely due to low temperature conditions, which commonly affect crops during this period. Farmers were advised on appropriate fertilizer sprays and crop protection measures to help maintain plant health and support recovery. It was also communicated that flowering will remain low during winter season, and improvement can be expected once the temperature rises. Such regular interaction sessions help farmers gain clarity, adopt timely corrective measures, and feel confident in managing crop challenges, reinforcing GVT's commitment to continuous guidance and sustainable farming practices.

KNOWLEDGE, CONVERSATION & CHANGE: AT WELINGKAR INSTITUTE

To inspire future leaders on the role of social change in nation-building, a meaningful interaction session was held with students of Welingkar Institute, Mumbai. The discussion explored how NGOs and civil society can reshape rural development through integrity, innovation, and empathy. Reflections from Global Vikas Trust's journey were shared, reinforcing the belief that when people unite around a shared purpose, villages transform and communities thrive.

SPECIAL GUEST VISIT AT GVT KRISHIKUL

Mr. Dhiraj Mankapure & Mr. Abhijeet Chaugule
Geojit Financial Services

Mr. Arvind Latkar
Sub-Divisional Officer, Parli

Mr. Amol Dhavan & Ms. Anjali Ritu
ADM Agro Industries, Latur

As part of our ongoing capacity-building efforts, GVT Krishikul had the honour of welcoming several distinguished guests this month: Mr. Dhiraj Mankapure and Mr. Abhijeet Chaugule from Geojit Financial Services; Mr. Arvind Latkar, Sub-Divisional Officer, Parli; and Mr. Amol Dhavan and Ms. Anjali Ritu from ADM Agro Industries, Latur. They explored our world-class farming centre, interacted with farmers, and shared valuable insights on advancing sustainable and profitable agriculture.

JANUARY 2026

From My Heart

Welcoming a New Season with Our Farmers

A new year begins, and with it, new hopes in our fields. Farmers step into 2026 with determination — planning, sowing, and believing in a better harvest ahead.

At Global Vikas Trust, we walk with them from the very start — supporting water security, horticulture, climate-smart practices, and stronger market linkages so effort turns into lasting progress.

Because when farmers move forward, India moves forward.

INDIA CAN WAIT NO MORE!

OUR VISION

GVT is passionately committed to transforming Indian economy back to the '**Sone ki Chidiya**' period by multiplying farmers' income through sustainable agriculture at scale

- ✓ Palghar
- ✓ Events
- ✓ Success Stories

RIVER REJUVENATION INITIATIVE

With the generous CSR support from Sun Pharmaceutical Industries Ltd., Global Vikas Trust has initiated a water conservation project aimed at strengthening long-term water security and promoting sustainable agriculture in Rakshaswadi village, Parli taluka.

The project was formally inaugurated with a Bhoomipujan ceremony for the widening and deepening of an 8 km stretch of the Paapnashi River, performed by Mr. Mayank Gandhi, Founder & Managing Trustee of Global Vikas Trust.

Through this intervention, the project seeks to enhance local water resources, improve groundwater recharge, and create sustained benefits for farmers and surrounding communities—reinforcing GVT's commitment to resilient rural development and water security.

FLOOD RELIEF INITIATIVE: DISTRIBUTION OF SURVIVING KIT

The past heavy rainfall had caused significant crop losses and disrupted access to basic necessities, Global Vikas Trust, in collaboration with the Rotary Clubs, organized a relief distribution program in Rakshaswadi village of Parli Taluka to support affected farming families.

Food and essential kits were distributed to 37 families, providing immediate relief and basic support during the recovery period. The team interacted with farmers, expressed solidarity, and reassured them of continued assistance. Beneficiaries described the support as timely and meaningful for the community's recovery.

EMPOWERING FARMERS: GVT LAUNCHES RAVER FIELD OFFICE

Jalgaon, especially Raver, is home to many small and marginal farmers dependent on banana cultivation. For years, farmers requested Global Vikas Trust to establish a local presence for regular guidance and timely support.

After the recent severe hailstorm caused major crop losses and financial distress, GVT responded by opening a dedicated field office in Raver. The office will provide continuous on-ground support, and as an immediate step, subsidized banana tissue culture saplings are being facilitated to help farmers replant and recover.

Inaugurated by local farmers, the office reflects their trust and a strong step toward restoring stability and resilience.

ed Mobilization

GROUND-LEVEL IMPACT ASSESSMENT BY HDFC AUDIT TEAM

The HDFC auditor team visited GVT's Krishikul – Farmer Training Centre to understand the organization's implementation framework and project processes. The session included a detailed overview of cluster identification, farmer selection, documentation systems, and monitoring mechanisms.

This was followed by field visits to selected villages in Basmath, Sirsala, and Sirasdevi talukas for on-ground validation. The team interacted with farmers to assess landholding patterns, income improvements, and livelihood changes resulting from GVT's interventions.

The auditors also observed training sessions and reviewed before-and-after outcomes in crops such as banana, lemon, and sericulture, gaining a comprehensive view of GVT's structured approach and measurable grassroots impact.

GVT CONNECT WITH FARMERS

To promote crop diversification from traditional cropping systems to horticulture and to strengthen farmer engagement, a farmers' meeting was conducted in Vasuri village, Wada taluka, with the participation of local farmers.

During the session, farmers were informed about GVT's ongoing initiatives and the upcoming Farmers' Training Centre. Technical guidance was provided on the economics and cultivation practices of Mogra, Banana, and Pineapple, along with the benefits of horticulture-based diversification. Information on organic farming practices, including vermiculture and the preparation and use of Go-Krupa Amrutam, was also shared.

Farmers showed keen interest, particularly in Mogra cultivation, and an exposure visit to a progressive farmer's field is being planned to further strengthen practical understanding. The participants appreciated GVT's efforts and expressed their willingness to adopt Mogra cultivation.

 PALGHAR

AGRICULTURAL DRONE AWARENESS SESSIONS

To promote modern agricultural practices, Global Vikas Trust (GVT) conducted a drone spraying demonstration on Mogra fields in Karsud village, Vikramgad taluka, showcasing its benefits in reducing labor, saving time, and ensuring precise input application. Farmers responded positively and showed strong interest in adopting the technology, while Agricultural Department officials encouraged wider awareness and more such demonstrations to accelerate technological adoption in farming.

FARMER AWARENESS AND CAPACITY-BUILDING PROGRAMME

A group farmers' meeting was organized by the Mokhada Taluka Agriculture Department at Kalamgaon village to promote awareness and capacity building in horticulture and floriculture farming, with Global Vikas Trust (GVT) participating as a key stakeholder.

During the programme, GVT representatives shared the organization's vision and initiatives in Palghar, provided guidance on Mogra, Pineapple, and Banana cultivation, demonstrated Go-Krupamrutam and vermicompost preparation, and briefed farmers on the upcoming Farmer Training Center. The initiative was well appreciated by the Taluka Agriculture Officer and participating farmers, who expressed interest in continued engagement.

The meeting also featured a technical session by Mr. Bharat Koshari, Agronomist, KVK Kosbad, on improving productivity in mango and cashew cultivation through scientific farming practices.

HANDS-ON ORGANIC FARMING FOR TEAM LEARNING

As part of a team-building and skill-development initiative, the team carried out a small-scale organic vegetable farming activity on a 1-gunta plot. The objective was to build practical understanding of organic farming, improve task planning, and strengthen coordination through hands-on fieldwork. Eight short-duration crops were cultivated using organic practices.

Sunflower and marigold were planted for pollination support and natural pest control, while spinach, fenugreek, and coriander were grown on main beds. Creeper crops such as bottle gourd, cowpea, and cucumber were taken as intercrops to demonstrate efficient land use and mixed cropping. The activity encouraged collective responsibility and equal participation, offering practical learning on crop planning, execution, and teamwork. Overall, it served as a valuable learning exercise and helped prepare the team for future field-based initiatives under the upcoming GVT Krishikul project.

BUILDING INDIA'S AGRICULTURAL FUTURE: POLICY VISION AND GROUND-LEVEL ACTION

To discuss a national roadmap for shifting small and marginal farmers towards horticulture.

A constructive meeting at Krishi Bhavan, New Delhi with the Hon'ble Union Minister of Agriculture and Farmers' Welfare, Shri Shivraj Singh Chouhan ji, focused on enabling 1 crore (10 million) farmers to transition from traditional farming to horticulture, positioning India as a global horticulture hub,

To gain an in-depth understanding of GVT's operational and governance model, members of RCDP and Rotary International visited the GVT Khar Office, Mumbai, to explore the organization's systems and on-ground implementation approach. The interaction focused on project management processes, transparency mechanisms, and GVT's scalable impact model, fostering meaningful knowledge exchange and potential collaboration.

INDIA CAN WAIT NO MORE!

MONTHLY PROGRESS REPORT

FEBRUARY 2026

FROM MY HEART

While the Israel–Iran conflict unfolds, its impact quietly reaches India's farms through rising fuel prices, costlier inputs, and disrupted supply chains. With nearly 250 banana export shipments returning, there is growing concern that prices may fall at the farm gate.

For farmers, this isn't just global news; it directly affects the cost of cultivation and creates uncertainty at every stage, from sowing to selling.

At Global Vikas Trust, the focus is on reducing this vulnerability through water security, horticulture, climate-smart practices, and stronger market linkages, ensuring that farmers remain resilient despite external shocks.

Because when farmers stay resilient, India stays strong.

INDIA CAN WAIT NO MORE!

OUR VISION

GVT is passionately committed to restoring India's status as a

'Sone ki Chidiya'

by multiplying farmers' incomes

PALGHAR

MSW STUDENTS EXPOSURE VISIT TO GVT WADA

As part of their academic field exposure, 25 MSW students and faculty members from Dr. Babasaheb Ambedkar College of Social Work, Dhule, visited the Global Vikas Trust (GVT) Wada office to learn about the organization's development initiatives. The GVT Palghar team shared insights on its work in community development and sustainable agriculture in the Palghar region.

Students were introduced to soil enrichment practices such as vermicompost, Go-Krupa Amrutam, and tree plantation initiatives, along with discussions on local farming practices and challenges faced by farmers. The interactive session provided valuable exposure to grassroots development work and was well appreciated by the students.

FIELD REVIEW VISIT AT KRISHIKUL, PALGHAR

To review ongoing agricultural trials and strengthen field implementation, the Founder & Managing Trustee and Operations Manager of Global Vikas Trust visited the Krishikul site at Ambivali, Palghar, along with the Palghar team.

The visit focused on evaluating the banana and mogra (jasmine) trials being conducted to validate cultivation practices recommended to farmers. Crop growth, nutrient management, irrigation practices, and overall field performance were reviewed. The team also assessed a potential site for future expansion as part of GVT's efforts to scale sustainable agricultural models for farmers.

AGRICULTURAL DRONE DEMONSTRATION SESSIONS

In a step toward technology-led agriculture, Global Vikas Trust and the Taluka agriculture Department conducted drone-based crop spraying demonstrations for farmers. A live demonstration was held in Gandhre during a mango cultivation program, followed by similar sessions in Sawarai and Kegava for mogra cultivation. Farmers observed that drone spraying can reduce labour dependency, ensure uniform application of inputs, optimize chemical use, and save time during critical crop stages. The demonstrations received an encouraging response from farmers and agriculture officials.

PALGHAR

COMMUNITY MEETING FOR VILLAGE DEVELOPMENT INITIATIVE

To promote community bonding through collective social initiatives, GVT organized a meeting in Sirsala which was attended by prominent members of the village. The discussion focused on activities that could bring villagers together while improving the local environment.

As part of the initiative, roadside plantation of shade-giving and environmentally beneficial trees along the main road was proposed, along with provisions for tree guards, watering, and maintenance. The effort will also encourage participation from school students and local volunteers, fostering shared responsibility while enhancing the village landscape.

MARATHWADA
..

OUTREACH AND AWARENESS ACTIVITIES AT AGRICULTURAL FESTIVAL

PARLI, MARATHWADA

KASA, PALGHAR

The Kasa Festival, a prominent regional gathering in Palghar, brings together farmers, communities, and institutions for knowledge exchange. GVT participated to connect with a large number of farmers, sharing sustainable agriculture practices, crop diversification, and livelihood support. Demonstrations like Vermibed and Go Krupa Amrutam, along with subsidized saplings, drew keen interest and strengthened awareness of support initiatives.

GVT participated in the three-day Maha Pashudhan Expo at Parli Vajinath, engaging over 1,500 farmers from Marathwada and Vidarbha, with 300+ registering for fruit orchard plantations. Senior officials, farmer groups, and SHGs visited the stall, where GVT showcased Krishikul training, fruit plantations, sericulture, vermicompost beds, water conservation, and other initiatives, receiving an enthusiastic response.

MARATHWADA

EMPOWERING FARMERS WITH IMPROVED AGRICULTURAL PRACTICES

Dabhon & Paste Villages, Wada Taluka

Keshav Srishti an NGO in Palghar & GVT Jointly organized an farmers' awareness sessions focusing on structured farm management and institutional support. Farmers were introduced to GVT's ongoing interventions, advisory platforms, and practical guidance on fertilizer management, crop nutrition, timely inputs, and systematic crop monitoring to improve productivity.

Kinhawalli & Chalani Villages, Dahanu Taluka

Two farmers' meetings (4th Feb at Kinhawalli, 26th Feb at Chalani) saw participation of ~30–50 farmers, mostly women. GVT oriented farmers on Mogra, pineapple, and banana cultivation, vermicompost management, and initiatives like the Palghar Krishikul Project and Go Krupa Amritam. Farmers actively engaged with queries on techniques, costs, yields, and markets, showing strong interest in crop diversification and willingness to adopt new crops.

Overall, the sessions enhanced awareness of improved agricultural practices and encouraged sustainable livelihood adoption, especially among women farmers.

MASS WEDDING CEREMONY AT KRISHIKUL

Continuing last year's compassionate initiative, Global Vikas Trust (GVT) organized a Mass Wedding Ceremony at Sirsala Krishikul this year too, where 11 underprivileged couples were married. Priority was given to economically weaker, flood-affected, and differently-abled couples, while promoting dowry-free marriages.

To support the newlyweds in beginning their married life with dignity, GVT also provided essential household materials, making the occasion a meaningful step toward community support and social harmony.

FARMER SUPPORT INITIATIVE:

MARATHWADA
...

Facing the harsh drought conditions in Marathwada, small and marginal farmers struggle to sustain their crops and livelihoods. To ease this burden, GVT, supported by the Rotary Club of Delhi, distributed drip irrigation systems, providing much-needed relief. The initiative was warmly received by the farmers, marking an important step toward promoting sustainable farming and improving the lives of those most affected by water scarcity.

DIGNITARIES' VISIT TO KRISHIKUL

Prof. Ramesh Chand (Member of NITI AAYOG)

Prakashchandra Patidar
(Director of Shakti Pumps)

Padma Shri Dr. Ashok Gulati
(Agricultural Economist)

Shri Mangal Prabhat Lodha (Minister of Skill, Employment, Entrepreneurship and Innovation,
Government of Maharashtra.)

With a focus on strengthening sustainable farming and increasing farmers' incomes, Honorable Minister Shri Mangal Prabhat Lodha (Minister of Skill, Employment, Entrepreneurship and Innovation, Government of Maharashtra.), Prof. Ramesh Chand (Member of NITI AAYOG), and other eminent guests visited Krishikul. The delegation observed and appreciated GVT's work on the ground, interacting with farmers and discussing market trends, scalable agricultural opportunities, and strategies to improve profitability.

DONOR REPRESENTATIVES' FIELD VISIT

Members of the Afcons Infrastructure auditor team visited the project intervention areas in Hingoli to review the ongoing livelihood initiatives. During the visit, they interacted with farmers, understood the challenges faced by them, and observed the interventions implemented by Global Vikas Trust (GVT).

The team visited farmers' fields and reviewed activities such as fruit orchard plantations, gaining insights into how these initiatives are supporting sustainable farming and improving livelihood opportunities for farmers in the region.

IMPACT ASSESSMENT FIELD VISIT

MARATHWADA
...

An independent assessment was conducted by the MOSL team at the Krishikul Farmer Training Center to review the impact of Global Vikas Trust's (GVT) rural development initiatives, particularly in horticulture development and water conservation. During the visit, the team toured the Krishikul campus, observed model plots, reviewed the training facilities, and gained insights into the farmer training programmes and practical demonstrations conducted to promote improved and sustainable agricultural practices.

LIONS CLUB & GVT

Water Conservation Project Inauguration

To strengthen long-term water security and enhance agricultural resilience, Global Vikas Trust (GVT), with the generous support from Lions Club of Shivaji Park, inaugurated key water conservation initiative in Revli village Beed District

The project includes the installation of 10 GRA efforts to improve rainwater retention and groundwater recharge.

These interventions are expected to significantly boost water availability, laying a strong foundation for sustainable farming and improved livelihoods for the farmers and residents of Revli.

FARMER TRAINING CENTRE

EXPOSURE VISIT:

CadAgro & Banshi Gir Gaushala

As part of the exposure visit, GVT staff visited a Gir Gaushala and Cadila Biotech to gain insights into sustainable agricultural practices and the use of quality inputs. The learnings on soil health, cattle-based inputs, and quality planting material will be further transferred to farmers to improve crop survival, productivity, and overall impact.

FROM CLASSROOM TO FIELD:

Inspiring Future Farmers with Innovation

To inspire the next generation of agricultural leaders and bridge the gap between theory and practice, GVT visited the Agricultural Institute, Kosbad, Dahanu, engaging B.Sc. students with hands-on insights into modern farming. Good personalities shared their journeys with GVT, while one of our team member from Palghar showcased drone technology for precision agriculture. Through this interaction, students gained practical knowledge, explored sustainable farming techniques, and were motivated to innovate, creating a strong foundation for the future of agriculture.

WATER TRANSFORMATION INITIATIVE:

Enabling irrigation and reducing migration

- To overcome severe water scarcity and reduce migration, GVT initiated a focused intervention in a drought-affected region. Field assessments identified lack of irrigation as the key constraint, and a nearby water source was selected for a solar-powered water lifting system to ensure reliable access. With farmers ready to adopt year-round cultivation, the initiative is expected to improve water availability, increase cropping intensity, and enhance farmer incomes, creating a sustainable and water-secure model for rural development.

EMPOWERING FARMERS THROUGH SERICULTURE & GOVERNMENT SCHEMES

**Samruddha Gaav,
Saksham Shetkari**

Mulberry training

To address water scarcity, low agricultural productivity, and income instability, GVT conducted targeted capacity-building sessions across Parbhani and Beed districts. Farmers were introduced to scientific practices such as mulberry cultivation and sericulture under initiatives like Maha Reshim Abhiyan 2026 and the POCRA scheme, along with interventions in water conservation and fruit orchard development under the "Samruddha Gaav, Saksham Shetkari" program.

These efforts focused on promoting efficient water use, improving crop performance, and diversifying income sources. Farmers were also guided on government support schemes and future opportunities in sericulture. Collectively, these interventions are contributing to higher productivity, increased incomes, and more resilient rural livelihoods.

GUEST VISIT:

Assessing progress and strengthening implementation

Mr. Satyajit Bhatkal from Paani Foundation visited GVT Krishikul to gain an in-depth understanding of GVT's implementation approach and field-level impact. During his visit, he interacted with the GVT team to understand the program framework and subsequently visited project sites, where he engaged with farmers and observed on-ground interventions. The visit provided valuable insights into the effectiveness and impact of GVT's initiatives at the community level.

DRIP IRRIGATION SUPPORT

To support farmers who could not even afford basic irrigation systems and were struggling with severe water scarcity, GVT, with the generous support of its donor partner RCDP, implemented a focused intervention across Beed and Dharashiv districts. Drip irrigation systems were provided to small and marginal farmers at a time when crops were failing and uncertainty was high. Today, these systems are helping farmers use every drop efficiently, revive their fields, and move towards better yields and more stable incomes, bringing back hope and confidence in farming

DONOR'S FIELD VISIT FOR MONITORING AND ASSESSMENT OF THE PROJECT

As part of on-ground monitoring and assessment, Mr. Swayang Bikash Jena from the RCDP team visited 14 beneficiaries of GVT's fruit plantation program who had received drip irrigation systems. He interacted with farmers to understand field-level challenges, particularly those arising from heavy rainfall and waterlogging. The visit offered firsthand insights into the effectiveness of the interventions and will help in strengthening program implementation and farmer support.

WATER CONSERVATION WORK

Deepening and widening of 39.76 km of rivers and tributaries in Beed district, Marathwada, has been completed, and similar work is currently in progress in other rivers across the region.

SUCCESS STORY - 1

From traditional farming to a successful Banana - G9 Tissue plantation, the farmer harvested 39,000KG, sold at Rs. 12/KG, earning Rs. 4.68Lakh revenue and Rs. 3.43Lakh net profit, Rs. 2.14Lakh per acre annually, made possible with Global Vikas Trust's support.

LETTER FROM THE TRUSTEE

Namaste,

Thank you for all of your generous support in enabling Global Vikas Trust (GVT) to undertake its initiatives to support rural transformation in some of the most backward regions of this country. Your generous support towards our various initiatives including farmer livelihood programme, water conservation programme, Marathwada flood relief campaign, community wedding, etc. have impacted many farmers and thier families.

To share some details, in **FY 2025-26** our farmer livelihood programme has helped **4,166 farmer families**, with their livelihood, planting **1,26,20,196 plants** and transition from low value cultivation to high value crops cultivation.

Our water conservation efforts have led to **119 kilometres** of rejuvenation of seasonal rivers and tributaries and construction of **420 GRAs**, to improve the groundwater recharge, enabling availability and accessibility of water for **66,847 community members** across **39 villages**.

Additionally, about **9,619 farmers were trained** at Krishikul in this period. In September 2025 heavy rainfall within a short period in caused major devastation in the Marathwada region. GVT stepped in and supported **6,179 families** with **32,349 members** across **38 villages** by distributing flood relief kits.

We also arranged for a community mass wedding this year the like previous year, supporting **11 couples** from socio-economically weaker background to start their lives by providing them with home basic necessities and financial support for the women.

Last year has been a journey of many learnings. Our extensive engagement with the people on the ground and the government at all **3 levels - District, State and Centre**, has helped us to do more in helping rural communities address some of their core issues.

MAYANK GANDHI
FOUNDER & TRUSTEE

FY 2025-26 IN NUMBERS

Income Statement

ORGANISATION OVERVIEW

→ Vision

Global Vikas Trust (GVT) is a charitable organization focused on economic transformation of rural India by helping small and marginal farmers increase their income from their livelihood income multifold times by adopting high-value crops and sustainable agriculture practices

→ Mission

- Increasing the income of small and marginal farmers from their livelihood through adoption of high value crops and sustainable agriculture practices.
- Establish and operate a world class farmer training centre for educating, training, and empowering farmers to adopt sustainable agriculture practices.
- Undertake water conservation projects in drought prone and water deficit villages to help people manage their water requirements and restore ecological balance.

ORGANISATION OVERVIEW

➔ Farmer Livelihood

- We undertake cluster based farmer livelihood programmes to help farmers adopt high value crops and sustainable agriculture practices
- Under this programme we extend the following interventions
 - a. Provide farmers with high quality saplings and materials
 - b. Support and guide overall farming activities covering backward and forward linkages
 - c. Improve know-how, resources, and transaction capabilities across agriculture value chain for farmers

➔ Farmer Training

- At our farmer training centre we provide farmers with practical guidance, classroom sessions, on ground training and demonstrations that would help them understand and adopt sustainable agriculture practices. We focus on extending knowledge and guidance on topics within agriculture that would help them manage their farm resources and improve their farm productivity.
 - a. Demonstration Plots
 - b. Soil Management
 - c. Water Management
 - d. Crop Science, Crop Care
 - e. Tools, equipment, and technology
 - f. Value-addition, Value-chain

ORGANISATION OVERVIEW

→ Water Intervention

We implement river rejuvenation projects on seasonal rivers and their tributaries improving the water conservation efforts, flow of surface water, ground water table and water availability for villagers during non-monsoon seasons in drought prone and water scarcity villages. We also construct Global River Aquashafts to improve groundwater table

→ Social Welfare

In 2025, we supported 6,179 rural families affected by floods with food supplies and basic household requirements for 4~6 weeks ensuring families have the necessary supplies to manage their lives until normalcy restores.

Organised community weddings for 11 couples from underprivileged background, supporting them with the wedding expense and some funds to begin their journey together.

Helped patients from socio-economically weaker sections to receive free medical treatment under applicable government schemes.

→ 4,987

Cumulative Farmer Beneficiaries

→ 31,028

Increase in net income per acre

→ 5X ~ 10X

Cumulative Area under Plantation

→ 45,110 acres

Estimated farmers who adopted high value crops on their own

→ 100,000+

PROGRAMME HIGHLIGHTS

WATER CONSERVATION

Importance of water conservation in Marathwada:

Marathwada, a region in Maharashtra, faces acute water scarcity due to its semi-arid climate and frequent droughts. The over-reliance on groundwater, inefficient irrigation methods, and deforestation have further worsened the situation. Many villages in Marathwada struggle with water availability, leading to distress migration, farmer suicides, and declining agricultural output. Water conservation initiatives, such as watershed management, rainwater harvesting and river rejuvenation are crucial for ensuring long-term water security in the region.

Our Solution: Rejuvenation of rivers through **widening and deepening of the river** using machinery and calibrated scientific techniques to achieve the functional utility of the river whilst balancing ecological preservation. We also construct groundwater recharge shafts (**Global River Aquashafts - GRA**) to improve groundwater table.

PROGRAMME HIGHLIGHTS

WATER CONSERVATION

Cumulative River Rejuvenation

→ 211 km

Seasonal Rivers & Tributaies

→ 5 & 5

Bank Loans for Sericulture Shed Construction and Banana Cultivation

Global Vikas Trust, in collaboration with AU Small Finance Bank, introduced a pre-financing model wherein loans were extended in advance to eligible farmers. GVT also facilitated security deposits on behalf of the farmers, making them credit-eligible without immediate capital outlay.

Once the shed is constructed and the subsidy is received from the government, the farmers repaid the loan using the subsidy amount, ensuring a low-risk, self-sustaining model that promotes enterprise and climate-resilient farming practices. The loan was repaid by all the farmers in record time with zero delay or defaults.

Similar loan product has been created for Banana cultivators from the coming year.

PROJECT SPOTLIGHT

Flood Relief Campaign

→ **6,179** Families Supported

→ **32,349** Families Member

Cost of each support KIT

→ **₹4,000**

Each KIT had the following

→ **22** items. **55** kgs

In the aftermath of the devastating floods in Marathwada GVT's team, led by Shri Mayank Gandhi, visited the worst-hit villages in Parli and Ambejogai talukas, held gram sabhas (community meetings), listened to farmers' stories, and assessed their challenges. With generous aid from our esteemed donors, GVT has been on the ground, reaching out to affected communities with carefully prepared food packages. We reached out to 6,179 households, supporting a total of 32,349 individuals across 38 villages in Parli and Ambejogai talukas of Beed district to help them with their basic household requirements. Each package was designed to sustain a family of 4 adults and 2 children for 4 to 5 weeks.

PROJECT SPOTLIGHT

Drip Irrigation Kit Distribution

Beneficiaries Supported

→ **175** Farmers

Length of drip pipes distributed

→ **1,904** meters

Location Details

→ **4** Districts **47** Villages

As part of a CSR initiative backed by one of our esteemed donor, GVT distributed 1904 meters of drip irrigation kits to 175 small & marginal farmers in Beed, Dharashiv, Solapur & Parbhani district. This initiative aims to promote water conservation, optimize water use, and enhance crop productivity amid water scarcity.

GVT agronomists demonstrated the installation and use of the kits during the distribution of the kits and emphasised the need to use water effectively and efficiently in order to obtain the best results from limited resources and adopt climate resilient agriculture practices.

SUCCESS STORIES FY 24-25

Statistics

About 5,083 farmer beneficiaries were supported in FY 2024-25 under our farmer livelihood programme. 3,791 farmers received their harvest in FY 2025-26 (Short Term). The details of their harvest income are -

86 % of them earned over Rs. 1 lakh per acre, 52.8 % of them earned over Rs. 2 lakh per acre from our intervention.

3,791 Farmer Beneficiaries Net Income per Acre

Below the navigation bar, there is a 'Registration' section with a form for 'New User Registration'. The form includes fields for 'First Name', 'Last Name', 'Email', 'Phone', 'Password', and 'Confirm Password'. There is also a 'Register' button. To the right of the registration form, there is a 'Login' section with a form for 'Email' and 'Password', and a 'Login' button. Below the registration and login forms, there is a 'Forgot Password' link. At the bottom of the page, there is a footer with the text 'KIPP Karamoja' and a small image of a banana plantation.

POLICY ENGAGEMENT

Engagement with the Government at 3 levels

GVT is working with the **District Administration** in extending the benefits under different schemes to the beneficiaries and supporting farmers and communities in improving their livelihood activities. GVT will soon enter into a formal Memorandum of Understanding (MoU) with the **Beed District Administration** and **Maharashtra State Government** for collaborating on livelihood programmes to further support farmers, women and rural communities through various government schemes.

GVT represents the interest of farmers and village communities to the **Maharashtra State Government**, highlighting their issues and concerns, and suggesting improvements to policy for better impact. Additionally, it has engaged with the Minister of Skill Development and Entrepreneurship to extend training and guidance programmes.

In November 2025, GVT invited the **Union Minister of Agriculture** to Marathwada to witness the model first-hand. Over **50,000 farmers** gathered to demonstrate the impact and transformation achieved. The Minister publicly acknowledged the success and expressed commitment to scaling the model nationally with state and central support.

Subsequently:

- GVT was invited to Delhi for discussion and consultations with the Minister, Cabinet Secretary, and senior officials.
- Policy proposals were submitted outlining how India can transition toward becoming the Horticulture Capital of the World.

POLICY ENGAGEMENT

POLICY ENGAGEMENT

ENGAGEMENT WITH NITI AAYOG

Recognising the need for structural policy alignment:

- GVT engaged with Prof. Ramesh Chand, Member, NITI Aayog (Agriculture).
- He visited Krishikul, interacted directly with farmers, and reviewed income data.
- Discussions focused on transitioning from low-value crop cultivation to high-value crop cultivation – horticulture, floriculture, and allied activities.
- Alignment is being pursued to integrate this model into national agricultural policy frameworks.

ENGAGEMENT WITH PROMINENT ECONOMISTS

To further validate our model we engaged with Padma Shri awardee and prominent agriculture economist Prof. Ashok Gulati, ICRIER, New Delhi. We met with Prof. Gulati and presented our model and invited him to visit Krishikul to interact with our farmers and our team.

He visited the centre and later wrote an exclusive article detailing the prospects of this model in changing the agriculture sector and the rural economy.

EVENTS & DEVELOPMENTS

Building on the success of Manthan 2025, GVT organised the event this year on March 7th, 2026 at Motilal Oswal Towers, delving deeper into expert discussions and dialogues focused on increasing farmers' incomes and achieving rural household prosperity at scale. Reflecting on the different aspects of the rural ecosystem and addressing the challenges and constraints of stakeholders, experts from diverse backgrounds shared their insights and suggestions on developing holistic and replicable and scalable models that will enable rural development across the country.

The event included seven lead speakers and two panel discussions who presented different models addressing key issues and how a collaborative approach between organisations and engaging other stakeholders including the government and value-chain partners will enable better farmers adopt sustainable agriculture practices and achieve higher income.

Attended by over 125 esteemed guests including industrialists, thought leaders, experts, policymakers, and changemakers who are passionately committed to nation-building, the event included individual sessions and group discussions highlighting key challenges and solutions addressing rural livelihood development.

EVENTS & DEVELOPMENTS

MANTHAN 2.0

- A blueprint to scale rural development model (Dr. Abhay Bang)
- The Birds Eye View (Prof. Ramesh Chand, NITI Aayog)
- GVT Model Validation (Prof. Ashok Gulati, ICRIER)
- GVT Model: From POC to Scale (Mr. Mayank Gandhi, GVT)
- Taking an integrated approach towards a scalable solution (Mr. Vilas Shinde, Sahyadri Farms & Mr. Satyajit Bhatkal, Paani Foundation)
- Offering a cow based solution for improving soil quality, water consumption, and farm yield (Gopalbhai Sutariya, Bansi Gir Farms)
- Corporate Philanthropy (Mr. Ramdeo Agrawal & Mr. Vallabh Bhansali)

EVENTS & DEVELOPMENTS

Global Vikas Foundation

In 2025, we established Global Vikas Foundation and extension entity of GVT to channel global support to our programmes. We undertook the necessary registration and documentation and obtained the 501(c)(3) certificate to benefit our international donors. Our office in California will be headed by a senior development professional Mrs. Geeta Kulkarni along with Mr. Amit Gadhia.

Forward Linkage - We have entered into an MoU with a leading Banana exports company - Trident Agro Limited, partnering with them to purchase the produce from 4,000 acres of banana cultivation under GVT livelihood programme, further supporting our farmers to achieve better forward market linkage.

Institutional Expansion - This coming year we will commence the work of building the second state-of-the-art farmer training centre in Palghar to train and guide farmers from the region. The location has been identified and plans in place we intend to commence work this year.

WAY FORWARD

GVT's vision is to create a framework that will enable every village in this country to adopt a self-reliant, self-sustaining, inclusive economic growth model.

Our approach is an amalgamation of multiple interventions, solutions and extensive experience gathered over the years, addressing various structural and cyclical challenges faced by rural communities.

At every step of the journey, we addressed core issues faced by rural communities, paving the way for sustainable development.

- From water distress and drought conditions to water security and productivity through river rejuvenation projects.
- From low-income farming and poverty to high-income generating livelihood through our cluster-based cultivation programmes.
- From facing challenges accessing credit, market and government subsidies on time to customised credit facilities, farm-gate purchase and government scheme convergence.
- Most important of all, we changed the mindset of the people, to transition from constrained thinking about only their farm land to coming together as a community.
- From thinking like a labourer to becoming an entrepreneur, aspiring for better outcomes from their livelihood.

Game plan to transform India by
“Sustainable agriculture at scale”

The GVT model is consciously designed to become independent of any individual or organisation. It is a scalable, policy-ready framework that can empower rural communities across the country. With structured collaboration between GVT, Organisations, Institutions, and the different Government departments, this model can be replicated across India's 6,60,000 villages – achieving rural economic prosperity.

WAY FORWARD

SAMRIDDHI GRAM VIKAS

This coming year we will be working on a new integrated village development model. Village development is not achieved through economic progress alone. A truly "Prosperous Village" is created when agriculture, water resources, education, healthcare, environmental conservation, social harmony, and local employment are developed in a balanced manner.

The project being implemented is not limited to agriculture alone; it is an integrated development model designed to transform the overall lifestyle of the village.

Through these initiatives, long-term positive changes can be brought about in the lives of farmers, women, youth, students, laborers, traders, and all village residents.

➔ Future Plan

Today, we are working across nearly 6,000 villages. The immediate responsibility before us is to strengthen and continuously improve this model so that every intervention becomes more effective, more scalable and more impactful. For this reason, the next phase of GVT's journey must move beyond implementation alone.

Three strategic pillars proposed for the next stage of growth:

1. **Thought Leadership**
2. **Advocacy and Policy Influence**
3. **Replication and Capacity Building**

Together, these three pillars will help convert a successful field initiative into a national movement for rural transformation.
