Subject: Intimation of Credit Rating under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ("SEBI Listing Regulations")

Dear Sir/Madam,

Pursuant to Regulation 30 read with para-A, part A of Schedule III of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), this is to inform you that CARE Ratings Limited has assigned the credit ratings as under to the bank loan facilities of the Company vide its communication dated September 07, 2026.

Facilities/Instruments	Amount (₹ Crore)	Rating	Rating Action
Long-term/Short-term bank facilities	130.00	CARE A-; Stable/CARE A2+	Assigned
Long-term bank facilities	30.00	CARE A-; Stable	Assigned

The said information was published by the CARE Ratings Limited in their website.

The above information will be made available on the website of the Company at www.rajputanastainless.com

Kindly take the above on your record.

Thanking You

Yours Faithfully,

For Rajputana Stainless Limited

Richa Sanjeev Prashar
Company Secretary & Compliance Officer

Rajputana Stainless Limited

September 07, 2026

Facilities/Instruments	Name of the Regulator ¹	Amount (₹ crore)	Rating ²	Rating Action
Long-term / Short-term bank facilities	RBI	130.00	CARE A-; Stable / CARE A2+	Assigned
Long-term bank facilities	RBI	30.00	CARE A-; Stable	Assigned

Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

Ratings assigned to bank facilities of Rajputana Stainless Limited (RSL) derive strength from the extensive experience of its promoters in the steel industry, moderate scale of operations and profitability supported by integrated operations, comfortable financial risk profile aided by funds raised via Initial Public Offering (IPO) proceeds in March 2026, and adequate liquidity.

Rating strengths are partially offset by RSL's working capital intensive operations, cyclical nature of the steel industry, and profitability susceptible to raw material price, power cost, and foreign exchange rate volatility. Ratings also take cognisance of planned partly debt-funded capex in FY27 (FY refers to April 01 to March 31).

Rating sensitivities: Factors likely to lead to rating actions

Positive factors

- Improvement in scale of operations above ₹1,800 crore with sustained operating margin aided by product diversification.
- Sustenance of comfortable capital structure with overall gearing below 0.3x.
- Improvement in operating cycle leading to improvement in liquidity.

Negative factors

- Significant decline in scale of operations with profit before interest, lease rentals, depreciation and taxation (PBILDT) margin less than 6.50% on a sustained basis.
- Stretch in working capital cycle above 110 days on a sustained basis, impacting the liquidity profile and increased reliance on working capital borrowings.
- Moderation in debt coverage indicators with net debt to PBILDT ratio above 1.5x on a sustained basis.

Analytical approach: Standalone

Outlook: Stable

CARE Ratings Limited (CareEdge Ratings) expects RSL will benefit from the extensive experience of its promoter in the stainless steel industry and integrated operations, which will enable it to sustain its operational and financial risk profile over medium term.

Detailed description of key rating drivers

Key strengths

Moderate scale of operations and profitability

RSL operates on a moderate scale with total operating income (TOI) of ₹1,008 crore in FY26. In FY26, TOI increased by 8% y-o-y primarily driven by growth in sales volume of 8%, while sales realisation remained largely stable. The growth continued in Q1FY27, with the company reporting TOI of ₹307 crore. The company caters to end-user industries, primarily pipes, forging, automobiles, and utensils, among others.

RSL operated at full capacity in FY26 reflecting healthy demand. The company is currently undertaking capacity expansion in bright bars. Timely completion and stabilisation of this project shall remain crucial for RSL's growth prospects.

The company's profitability is supported by integrated nature of its operations, and it has gradually improved from 6.70% in FY24 to 9.18% in FY26 supported by increased sales of bright bars and better absorption of overheads.

¹SEBI: Securities and Exchange Board of India; RBI: Reserve Bank of India; MCA: Ministry of Corporate Affairs; IRDAI: Insurance Regulatory and Development Authority of India; PFRDA: Pension Fund Regulatory and Development Authority

²Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE Ratings Limited's publications.

Comfortable capital structure and debt protection metrics

In March 2026, RSL raised ₹178.73 crore through IPO and got listed on Bombay Stock Exchange and National Stock Exchange. The IPO proceeds strengthened its net worth to ₹363.23 crore as on March 31, 2026, from ₹151.88 crore as on March 31, 2025. Consequently, capital structure improved, with overall gearing of 0.39x (PY: 0.99x) and total outside liabilities to total net worth (TOL/TNW) of 0.64x (PY: 1.72x) as on March 31, 2026. Debt protection metrics remained moderate, with PBILDT interest coverage of 4.60x (PY: 4.85x) and total debt to gross cash accruals (TD/GCA) of 2.45x (PY: 3.07x) in FY26. In Q1FY27, RSL prepaid its term loan (in entirety) and working capital borrowings from IPO proceeds. With this, PBILDT interest coverage strengthened to 16.70x in Q1FY27 (UA).

The company is planning to undertake partly debt-funded capex for capacity expansion in bright bars, setting up of seamless pipes unit and other initiatives. The total outlay is expected to be funded by a mix of debt, IPO proceeds and internal accruals. Financial risk profile of RSL even after considering this debt, is expected to remain comfortable.

Extensive experience of promoters in the steel industry

The company's operations are led by directors, Shankarlal Deepchand Mehta, Babulal D. Mehta, and Jayesh Natvarlal Pithva, who have an experience of over two decades in the steel industry. Yash Mehta, Promoter and Chief Executive Officer, also has around a decade of industry experience.

Key weaknesses**Working capital intensive nature of operations**

The company's operations remain inherently working capital intensive, as reflected by gross current asset days of 137 days as on March 31, 2026 (PY: 134 days). The gross current asset days were primarily due to inventory holding period of 62 days and collection period of 52 days. The company sources large part of its raw material against confirmed orders, mitigating the raw material price fluctuation risk to certain extent.

Cyclical nature of the steel industry

The company's operating performance remains exposed to the inherently cyclical nature of the stainless steel industry. Demand for stainless steel products is closely linked to the performance of key end-user sectors such as construction, infrastructure, automobiles, engineering, and capital goods. Consequently, slowdown in economic activity, reduction in infrastructure spending, or weakness in industrial and automotive demand can adversely impact steel consumption and product realisations.

Susceptibility of profitability to raw material and forex volatility

The company's profitability remains vulnerable to fluctuations in raw material prices and foreign exchange rates. Raw materials, primarily stainless steel scrap, constituted ~82% of the total cost of sales in FY26, exposing margins to volatility in steel scrap prices.

The company imports ~35-40% of its raw material requirements and does not have active foreign currency hedging, exposing its profitability to adverse movements in foreign exchange rates.

Liquidity: Adequate

RSL had adequate liquidity, supported by GCA of ₹57.97 crore in FY26, repayment of entire term loan in Q1FY27 and no utilisation of fund-based working capital limits post April 2026. The operating cycle elongated to 80 days in FY26 (PY: 52 days), primarily due to increase in inventory days and lower creditor days, following payments made to creditors at the year-end. Cash and bank balance stood at ₹126.04 crore as of FY26-end, including unutilised IPO proceeds of ₹116.67 crore earmarked for repayment of bank borrowings and capital expenditure.

Average utilisation of fund-based and non-fund-based working capital limits for the 12 months ending July 2026 remained moderate at ~54% and ~51%, respectively. The company has not utilised its fund-based working capital limits since April 2026, underpinning its adequate liquidity.
