NIBE Limited Secures Major Order from Elbit Systems for 70mm Guided Advanced Tactical Rocket

Pune, India – August 02, 2025 – NIBE Limited, a pioneering Indian defense manufacturer, proudly announces a landmark achievement, the company has secured a significant order from Elbit Systems, Israel's globally renowned defense technology firm, to manufacture and supply the parts of **70mm class air-to-surface rockets**, also known as the Guided Advanced Tactical Rocket (GATR).

This advanced rocket combines precision strike capabilities (up to 10 km), with capacity to intercept moving targets of up to 100 kmph and **sophisticated semi-active, laser guidance systems**, for unmatched accuracy. The Guided Advanced Tactical Rocket is compatible and can be integrated into multiple attack helicopters around the world like AH-64 Apache and HAL Rudra. GATR can deliver 16 Kg of warhead with penetration of up to 200mm in reinforced concrete. Overall, it is a cost-effective, high-precision solution for tactical air operations and medium-strike missions.

With this deal, India will produce a sophisticated rocket of this caliber for the first time, which is significant for both NIBE Limited and the country's changing defense environment. The deal emphasizes NIBE Limited's rising prominence as a reliable international defense partner and India's expanding contribution to high-end defense production.

Leveraging its extensive aerospace expertise and systems integration capabilities, NIBE Limited will lead the acquisition, localized production, and platform integration of the 70 mm Guided Advanced Tactical Rocket for the Indian Armed Forces and Global Allies. The collaboration will boost mission success rates and operational safety, while accelerating India's journey toward technological self-reliance.

A Strategic Step Toward Atmanirbhar Bharat

Aligned with the "Make in India" and "Atmanirbhar Bharat" initiatives, this partnership is a step forward in developing indigenous capabilities and strengthening India's global defense footprint. The order opens new horizons for NIBE Limited in both technological advancement and international expansion, reinforcing the company's commitment to deliver cutting-edge, locally manufactured defense solutions.

About NIBE Limited

NIBE Limited is a leading Indian defense technology company, specializing in the development, manufacturing, and integration of advanced defense systems. With a focus on innovation, self-reliance, and global collaboration, NIBE Limited is playing a crucial role in bolstering India's defense capabilities and expanding its export potential in the global market. As a cornerstone of India's defense sector, it is committed to delivering world-class solutions that address the evolving challenges of modern warfare.

About Elbit Systems Land Limited

Elbit Systems Land Limited, a division of Elbit Systems Ltd., is a global leader in the design, development, and integration of advanced land-based defense solutions. The company specializes in a wide range of platforms and technologies, including armored vehicles, artillery systems, unmanned

ground vehicles, and combat vehicle modernization. Known for its innovation, reliability, and battlefield-proven systems, Elbit Land Systems supports militaries worldwide with solutions that enhance operational capabilities, survivability, and mission success in modern combat environments.
