NIBE Limited Secures Landmark Export Order for Ship-Mounted Universal Rocket Launching System from Israel

Pune, India – August 8, 2025 – NIBE Limited proudly announces that it has secured a prestigious export order from Elbit Systems, for the manufacturing and supply of **Ship-Mounted Universal Rocket Launching System**. The system is equipped with extra missiles, delivering precise, long-range capability.

This naval rocket and missile launcher system is designed to address battlespace challenges that require effective maritime fire support solutions and extended modern naval capabilities. The order marks a major endorsement of NIBE Limited's engineering excellence, indigenous manufacturing capability, and its growing role in strengthening India's position in the global defence manufacturing ecosystem. The order with Elbit Systems underscores mutual trust, technological constructive collaboration, and a shared commitment to advancing maritime defence capabilities.

The Ship-Mounted Universal Rocket Launching System represents a breakthrough in modern maritime combat capability — **a long-range, autonomous sea-to-shore weapon system** designed to redefine the limits of naval power. Engineered for cost-effectiveness, ease of operation, and minimal maintenance, the system delivers unmatched reliability and performance in critical missions. Its ability to extend impact zones beyond traditional naval limitations empowers naval forces with superior strike range and tactical flexibility.

This system significantly enhances naval value in joint operations, enabling seamless integration with air and land forces. It also boosts naval independence, reducing reliance on allied systems during mission-critical scenarios. Most importantly, it acts as a force multiplier by enhancing the repower abilities of ground forces, delivering precision firepower and support from the sea with speed and efficiency.

This development also aligns with the Government of India's vision of *'Make in India, Make for the World.'* reinforcing NIBE Limited's mission to deliver precise manufacturing solutions from Indian soil to trusted allies worldwide.

About NIBE Limited

NIBE Limited is a leading Indian defense technology company, specializing in the development, manufacturing, and integration of advanced defense systems. With a focus on innovation, self-reliance, and global collaboration, NIBE Limited is playing a crucial role in bolstering India's defense capabilities and expanding its export potential in the global market. As a cornerstone of India's defense sector, it is committed to delivering world-class solutions that address the evolving challenges of modern warfare.

About Elbit Systems Land Limited

Elbit Systems Land Limited, a division of Elbit Systems Ltd., is a global leader in the design, development, and integration of advanced land-based defense solutions. The company specializes in a wide range of platforms and technologies, including armored vehicles, artillery systems, unmanned ground vehicles, and combat vehicle modernization. Known for its innovation, reliability, and battlefield-proven systems, Elbit Land Systems supports militaries worldwide with solutions that

enhance operational capabilities, survivability, and mission success in modern combat environments.
