Press Release:

Karamtara Engineering Secures New Orders of ₹1199 Cr. (One Thousand One Hundred Ninety-Nine Crore) across Transmission and Renewable Energy Segments:

Karamtara Engineering Limited, one of India's leading manufacturers of products serving the renewable energy and transmission infrastructure sectors, has secured new orders aggregating approximately **₹1199 Cr. (One Thousand One Hundred Ninety-Nine Crore)** in the Transmission and Renewable Energy sectors.

These orders reinforce Karamtara's strong market position and reflect the continued confidence of customers in the Company's manufacturing capabilities, quality standards and project execution expertise.

Commenting on the development, **Mr. Rajiv Singh, Joint Managing Director, Karamtara Engineering Limited** said:

"We are pleased to secure these new orders, which strengthen our order book and reaffirm our position as a trusted partner in India's energy transition journey. These wins reflect our engineering capabilities, operational excellence and commitment to delivering high-quality solutions to our customers. We remain focused on creating long-term value through sustainable growth and disciplined execution. The newly secured orders are expected to contribute positively to the Company's revenue visibility over the execution period."

Karamtara continues to support the renewable energy development by delivering critical solutions across power transmission and renewable energy. With state-of-the-art manufacturing facilities and an expanding customer base in India and overseas markets, the Company remains well positioned to capitalize on opportunities arising from investments in power infrastructure and clean energy."

About Karamtara Engineering Limited

Karamtara Engineering Limited is an integrated manufacturer of products serving the renewable energy and transmission infrastructure sectors. Its product portfolio includes solar module mounting structures, solar tracker piles and piers, solar torque tubes, lattice towers for transmission lines, angular and tubular wind towers, fasteners, Conductor & Insulator hardware fittings and accessories and other engineered products. Its upcoming products include Solar Stamping Parts, Pre-Engineered Buildings for data centres, and Battery Energy Storage System. The Company has a strategic network of manufacturing facilities across India, along with operations in Italy and an upcoming manufacturing facility in Saudi Arabia. It has a track record of exports to more than 50 countries and serves global customers including OEMs, EPCs and IPPs.

Karamtara Engineering is focused on strengthening its market position in renewable energy and related infrastructure through manufacturing expansion, product development, international market expansion and operational efficiency.
