Shadowfax Launches ‘Shadowfax 360’ Digital Shipping Platform for SMEs and D2C Brands

National | April 21, 2026 – Shadowfax Technologies Limited, India’s fastest-growing third-party logistics company, today announced the launch of **Shadowfax 360**, a unified digital shipping platform built to empower India’s SME and D2C ecosystem.

Shadowfax 360 provides small sellers and emerging brands with immediate access to an enterprise-grade network covering 15,000+ pincodes across 2,500 cities. Designed to solve core merchant pain points, the platform features a first-of-its-kind transparent flat-rate billing model that eliminates weight-based disputes, one-click integrations with major sales channels like Shopify and WooCommerce, and an AI-driven RTO Predictor to minimize return risks. To support SME liquidity, the platform also offers the industry’s fastest Cash on Delivery (COD) remittance cycles. The self-serve portal enables businesses to bypass traditional logistics onboarding hurdles, allowing them to register and start nationwide shipping in minutes. Unlike traditional logistics partnerships that demand volume commitments, Shadowfax 360 imposes no minimum order requirements - making enterprise-grade logistics accessible to every SME, regardless of size or stage.

The launch marks an important step in the Company’s efforts to scale its seller ecosystem and diversify its merchant base beyond enterprise and marketplace relationships - expanding to a broader base of online-first SMEs, early-stage D2C brands and marketplace-first sellers transitioning to owned-channel commerce. The Company expects Shadowfax 360 to be a meaningful driver of new customer acquisition in the years ahead, contributing to volume growth and revenue diversification.

“Shadowfax 360 is how we bring thousands of new customers into our network and make Shadowfax the default logistics partner for SME and D2C commerce in India. We see this as a significant lever to help us scale our business and diversify our merchant base over time.”

— **Praharsh Chandra, Whole-time Director and CBO, Shadowfax Technologies Limited**

Availability

Shadowfax 360 is available effective immediately. SMEs and D2C brands may register at www.shadowfax360.in and begin shipping within minutes of sign-up.

About Shadowfax Technologies Limited

About Shadowfax: Shadowfax is India’s leading on-demand tech-enabled logistics platform in India, providing a comprehensive suite of last-mile, mid-mile, and cross-border delivery solutions for brands and marketplaces across 2500 cities and more than 15100 PIN codes.
