Press Release

J.G.Chemicals Strengthens Long-Term Expansion Platform as Material Subsidiary-BDJ Oxides Acquires 16.74 Acres in Andhra Pradesh

Kolkata, August 18, 2026: JG Chemicals Limited, India's largest Zinc Oxide (ZnO) manufacturer and one of the leading zinc recycling companies globally, today announced that its Material Subsidiary, BDJ Oxides Private Limited, has acquired approximately 16.74 acres of freehold land at APIIC Industrial Park, Attivaram, Tirupati, Andhra Pradesh. The acquisition is part of the Company's long-term strategy to expand its sustainable recycling and zinc-based product portfolio and strengthen its manufacturing footprint.

Strategic Location to Support Future Expansion

The newly acquired land is located directly opposite BDJ Oxides' existing manufacturing facility at Naidupeta, Andhra Pradesh, creating a strategically advantageous opportunity for future expansion.

The acquisition, with a total consideration of Rs. 18.41 crore, plus applicable registration charges and other charges/levies, provides JG Chemicals with a ready platform for its future growth plans. The Company intends to utilise the land for expansion of its sustainable recycling product portfolio and potentially develop additional manufacturing capabilities as opportunities emerge.

Commenting on the development, Mr. Anirudh Jhunjunwala – Managing Director and Chief Executive Officer of JG Chemicals Limited said, *"This acquisition represents an important step in our long-term expansion journey. The strategic piece of land is located right opposite our existing Naidupeta manufacturing facility, providing us with an opportunity to leverage our existing infrastructure and capabilities as we expand in the future. We believe this investment will provide us with the flexibility to pursue future growth opportunities while strengthening our manufacturing ecosystem in Andhra Pradesh."*

About JG Chemicals Limited

JG Chemicals Limited (JGCL), incorporated in 1975, is India's largest manufacturer of Zinc Oxide and among the top five global manufacturers, with a total zinc chemicals capacity of 70,000 MTPA. The Company is also India's largest zinc recycling company, with strong in-house recycling technology for processing various forms of zinc waste and scrap. JGCL serves 200+ domestic and 50+ global customers across more than 10 countries, catering to diverse industries including Rubber & Tyres, Pharmaceuticals, Ceramics, Paints & Coatings, Agriculture, Electronics, Batteries and Specialty Chemicals.

With more than five decades of manufacturing experience, JGCL has built strong customer relationships, technical expertise and manufacturing capabilities, serving 9 of the top 10 global tyre manufacturers. The Company is steadily diversifying into higher-value applications and strengthening its sustainable portfolio through R&D, recycling and green manufacturing initiatives. Its recycled-zinc-led business model supports a circular economy.
