Aartech Solonics Limited Announces Strategic Updates and Operational Highlights for Q1 FY 2025-26

Bhopal, India – July 8, 2025 – Aartech Solonics Limited (BSE:542580, NSE: AARTECH), a leading provider of high-reliability engineering solutions for the power and defense sectors, today shared key strategic developments and operational progress made during the first quarter of the financial year 2025-26.

Strategic Domestic and International Growth

- **International Expansion:** Aartech successfully executed a key international project involving its Bus Transfer System for Jawa Power in Indonesia, underscoring the company's growing global presence. The company also secured a strategic order from Qatar for its flagship Current Limiting Protectors, expanding its footprint in the Middle East.
- **Strengthening Domestic Market Leadership:** In India, Aartech continues to reinforce its market leadership with fresh orders, including a notable project for SCADA-enabled Control and Relay Panels from Chhattisgarh Power. These developments reflect strong demand for the company's advanced technological solutions in the Indian power sector.
- **Defense Sector Milestone:** Aartech's BestCase division achieved a significant milestone by delivering customized rugged tool cases to the Indian Air Force and Indian Navy. These IP-rated enclosures exemplify the division's capabilities in delivering defense-grade equipment that meets stringent military requirements.

Innovation and Technological Advancements

- **Electro-Magnetic Launch System (EMLS):** In collaboration with R&DEE Pune and supported by extensive in-house Research & Development (R&D) efforts, Aartech has advanced the development of the Electro-Magnetic Launch System (EMLS) – a next-generation system engineered to launch aircraft, drones, and lightweight UAVs from compact platforms such as naval ship decks. The company's in-house R&D team is actively involved in refining system architecture, propulsion control algorithms, and compact platform integration. This positions the company at the forefront of emerging defense technologies.
- **Adaptive Alternate Power Module (AAPM):** Aartech is conducting successful validation trials for its newly developed Adaptive Alternate Power Module (AAPM), intended for deployment in armored fighting vehicles and artillery systems. The development has been driven by in-house Research & Development (R&D) initiatives focusing on power optimization, thermal management, and rugged design. The company has also filed for Intellectual Property Rights under Patent Application No. E-2/1858/2024/MUM, reaffirming its commitment to innovation-led growth.

About Aartech Solonics Limited

Aartech Solonics Limited, headquartered in Bhopal, India, specializes in high-reliability power switching, control, and protection systems. Over the years, the company has diversified into advanced defense technologies, offering ruggedized, mission-critical equipment to utilities, defense forces, and global markets. Aartech's deep-rooted commitment to quality, innovation, and operational integrity continues to position it as a trusted partner in infrastructure and national security ecosystems.
