

SBI's micro markets vertical to bring cost-efficiency: Rajnish

FE BUREAU
Mumbai, September 25

STATE BANK OF India (SBI) chairman Rajnish Kumar on Friday said its newly-created vertical for agri customers would bring cost-efficiency to the bank. The lender in July had created the Financial Inclusion and Micro Markets (FI&MM) vertical to improve customer experience in rural and semi-urban areas.

The existing 8,000 branches of the bank have been identified to work for this new vertical. Additionally, the

vertical also has 64,000 customer service points (CSPs).

The vertical will offer loans predominantly for agriculture and micro/small enterprises. It will also provide services to the micro-segment, including micro-credit for small businesses and farmers through

the branch network.

The bank aims to increase business due to a focused approach of this vertical. Kumar said existing 8,000 branches, which account for 40% of the bank's network, were only contributing 16% to the business. "If this network is of the size of 40%, the size of the business should also go up without increasing any extra resources," he said.

The bank, however, did not provide any specific target for business through new vertical. Kumar said that the potential of the bank's business correspon-

dents channel is yet to be fully explored. "Our target is to have 75,000 customer service points till March, 2021," he said.

The bank aims to strengthen the credit delivery system and improve the turnaround time for quick sanctions and disbursement of small loans. Emphasis will be on consolidating the district-level presence, which will provide constant sales and recovery support to branches. "This will help us to focus and improve our synergy with government agencies and functionaries," Kumar added.

LIC, GIC, New India Assurance systemically important: Irdai

PRESS TRUST OF INDIA
New Delhi, September 25

REGULATOR IRDAI HAS identified LIC, GIC and New India Assurance as domestic systemically important insurers (D-SIIs) and subsequently decided to subject them to enhanced regulatory supervision.

The three insurers have also been asked to raise the level of corporate governance, identify all relevant risks and promote a sound risk management culture, the Insurance Regulator and Development Authority of India (Irdai) said.

"D-SIIs will also be subjected to enhanced regulatory supervision," it added.

D-SIIs refer to insurers of such size, market importance and domestic and global interconnectedness, whose distress or failure would cause a significant dislocation in the domestic financial system. Therefore, the continued functioning of D-SIIs is critical for the uninterrupted availability of insurance services to the national economy, Irdai said.

Poultry industry may take 6 months to turn around

NANDA KASABE
Pune, September 25

THE OUTBREAK OF Covid-19 and the consequent lockdowns have pushed the India's poultry sector into losses to the tune of ₹30,000 crore between February and April. Although the demand is gradually picking up, with government agencies encouraging consumers to eat more chicken and eggs to improve immunity, it may take another six months for the industry to get back on its feet, industry people said.

Vasant Kumar Shetty, president, Poultry Farmers and Breeders Association, Maharashtra, said although the market is slowly limping back to normalcy, the sector is operating at 50% capacity. The hike in prices is due to supply-side constraints. Egg prices at the farmgate level are currently at ₹550 per 100 pieces, while chicken is priced at around ₹90 per bird, he said.

The association had informed the Maharashtra Animal husbandry ministry that shrinkage in the market would lead to a hike in prices, he said. The market, at present,

is facing a shortage with prices increasing by 20-40%.

"The consumption levels have not gone up to the pre-Covid levels since hotels, restaurants and canteens are not fully functioning. For the industry, the focus would be on recovery in 2020-21 and 2021-22," Shetty said.

Although the demand has gone up in recent times, production is still down by nearly 40%. "The industry is on the mend and India presents a humungous opportunity given the fact that both chicken and eggs are cheap sources of protein. Prices have improved but at least 30-40% of the small players have been wiped out since they did not have enough cash to feed the business. Feed constitutes 80% of the cost. The industry may recover if prices continue to remain firm until March next year," Suresh Chitturi, vice-chairman, All India Poultry Breeders Association, said.

Equitas SFB reduces IPO size

CHENNAI-BASED EQUITAS SMALL Finance Bank (ESFB) has reduced the size of its initial public offering (IPO) from ₹550 crore to ₹280 crore. It has also reduced the offer-for-sale of size from 8 crore equity shares to 7.2 crore.

Equitas Holdings (EHL), the

parent company of ESFB, in a regulatory filing to the stock exchanges said following the relaxation permitted by Sebi, its subsidiary has filed an addendum to its DRHP, revising its offer size for the proposed IPO.
