BENGALURU, AUGUST 02, 2021

ABB India partners with Audi India to provide charging solutions for their newly launched, fully electric Audi e-tron and Audi e-tron Sportback

ABB's Terra AC wallbox charger provides flexibility to customers by enabling convenient charging for Audi e-tron

To ensure a premium charging customer experience, the newly launched Audi e-tron and Audi e-tron Sportback are offered with ABB's smart Terra AC wall box charger along with the car to its customers for smart charging at home. The Terra AC wallbox charger is capable of delivering 11 kW power to the Audi e-tron and complies with all safety standards and necessary certifications.

Kiran Dutt, President - Electrification business, ABB India, said, "ABB solutions symbolise how technology leadership is the driving force for solving the challenges that our planet is currently facing. In line with making the global best in class charging technology available in India, we are pleased to offer our smart EV chargers for Audi India for their fully electric vehicle in India. We offer a range of AC as well as DC fast charging solutions for EVs along with seamless back-end integration for AC chargers with ChargerSync. It is a reliable and convenient app for ABB Terra AC wall box owners, who are looking to upgrade their charging experience to the next level. With over a decade of experience in EV charging solutions, we aim to support the clean mobility infrastructure in the country and contribute to a sustainable future."

The Terra AC wallbox is a market leading EV charger ideal for the home, delivering high-value quality, futureproof flexibility, and advanced safety and protection. The charger has various options for network connectivity including LAN, Wifi, and 4G SIM connectivity. It can be connected to Cloud, on OCPP protocol. It comes with all the in built protection which makes it safe and reliable to be used not only at home but also parking and commercial buildings.

ABB (ABBN: SIX Swiss Ex) is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future. By connecting software to its electrification, robotics, automation and motion portfolio, ABB pushes the boundaries of technology to drive performance to new levels. With a history of excellence stretching back more than 130 years, ABB's success is driven by about 105,000 talented employees in over 100 countries.

ABB's Electrification Business Area is a global leader in electrical products and solutions, operating in more than 100 countries, with over 200 manufacturing sites. Our 55,000+ employees are dedicated to delivering safe, smart and sustainable electrification. With ABB Ability™ enabled digital solutions at its core, our portfolio protects, connects and optimizes the flow of electrical energy, including the integration of renewables and energy storage for smarter electricity distribution for utilities, industry, infrastructure and transportation.
