SYMBOL: ABHAPOWER

Sub: Press Release

Ref: Information under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Sir,

Abha Power and Steel Limited (NSE Emerge: ABHAPOWER) is pleased to announce that the Company has achieved a significant milestone with the acceptance and approval of its product by the Research Designs & Standards Organisation (RDSO), Ministry of Railways, Government of India.

RDSO has approved the Company's inclusion in its Vendor Directory for the supply of "Striker Casting (B.G.) with Wear Plate", a component forming part of the Upgraded High Tensile Centre Buffer Coupler for Freight Stock Wagons. This marks the addition of a new railway product to the Company's product profile and strengthens Abha Power and Steel Limited's presence in the Indian railway components sector.

This development reflects the Company's continued focus on expanding its product portfolio and serving the growing requirements of the Indian Railways.

Kindly arrange to disseminate and display the same on your Notice Board for the purpose of information.

Thanking You

Yours Faithfully

FOR ABHA POWER AND STEEL LIMITED

This press release includes forward-looking statements. We have based these forward-looking statements on our current expectations and projections about future events. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially. Such factors include, but are not limited to, changes in local and global economic conditions, our ability to successfully implement our strategy, the market acceptance of and demand for our products, our growth and expansion, technological change and our exposure to market risks. By their nature, these expectations and projections are only estimates and could be materially different from actual results in the future.

About Abha Power and Steel Limited

Abha Power and Steel Limited (APSL) cater to diverse industries such as Indian Railways, steel, cement, heavy engineering, mining, and power, offering a comprehensive range of standard and customized products. The Company focus on quality, safety, value, and price competitiveness that helps to establish and maintain long-term relationships with customers both domestically and in over six countries, including UAE, Qatar, Germany, Canada, Italy, Netherlands, and Nepal. The manufacturing facility includes a captive solar power plant with a capacity of 3 MW, reducing our operating costs. 3400 MT of Co2 emissions saved annually by our solar Plant. The Company plans to become a green manufacturer of castings. Since inception in 2004 with a steel ingot and billet manufacturing plant in Hardikala, Bilaspur, Chhattisgarh, it expanded in 2009 by adding a spheroidal graphite iron foundry to serve Indian Railways. In 2016, the company transformed ingot plant into a steel foundry. Currently, the company operate two foundries—SG iron and steel—within our 319,200 square-foot ISO 9001:2015, ISO 14001:2015 and ISO 45001 : 2018 certified manufacturing facility at Silpahri Industrial Area, Bilaspur.
