## ***Commenting on the Q2 & H1FY25 results Mr. Vinay Tripathi, Managing Director of the company said:***

*In Q2 FY25, our revenue from operations stood at Rs. 253.2 crores, a significant increase compared to Rs. 207.4 crores in Q2 FY24. Gross profit for the quarter was Rs. 16.2 crores, while EBITDA rose to Rs. 6.6 crores, a substantial improvement from Rs. 2.4 crores in the same quarter last year. This translated into an EBITDA margin of 2.6%, reflecting a year-on-year improvement of 144 basis points.*

*The growth in revenue was primarily driven by normalizing freight rates and increased cargo volumes. The stabilization of freight costs after previous volatility positively impacted profitability, enabling better predictability in planning and operations. Despite global challenges such as economic slowdowns, geopolitical tensions, and fluctuating fuel prices, we delivered a robust performance and are well-positioned to further expand our logistics segment.*

*Our strategy remains focused on increasing revenue share from existing customers, which has been a key driver of performance across all segments. Looking ahead, we see significant opportunities for growth and are confident that leveraging our operational efficiencies will allow us to further expand margins and enhance overall profitability.*

*Our commercial vehicles and spare parts segments contributed approximately 17% to our overall revenue, delivering an EBITDA of Rs. 0.7 crores. We are actively working to diversifying these segments further, aiming to strengthen their contribution to our overall business performance.*

*At ASL, we take pride in offering the most comprehensive range of services in the industry, supported by our ability to deliver tailor-made solutions that cater to the unique needs of our customers. This flexibility and customer-centric approach distinguish us from our competitors and solidify our position as a preferred partner in the market.*

*We remain committed to not only delivering best-in-class services but also continually enhancing our capabilities through innovation and operational excellence. By leveraging our expertise, expanding our service portfolio, and focusing on customer satisfaction, we aim to strengthen our market presence and create long-term value for all stakeholders.*

## End-to-End Logistics Player

- To benefit from large scale presence across value chain by offering logistical solutions under single roof i.e. from Point of Origin to Point of Destination

## Revenue Diversification

- Adding new streams of revenue through backward & forward integration to strengthen our bouquet of logistical services

## Industry Diversification

- Catering to diversified industry to accelerate the revenue & profit growth

## Pan India Presence with Global Network

- Presence across India with 14 offices and more than 60 agency agreements across the globe to cater to the growing logistical needs for cross border transactions

## Large Marquee Customer base

- More than 1900 customers across industry giving us revenue sustainability going forward
