ACME Solar commissions 66.68 MW Solar Capacity and 300 MWh BESS Capacity in Rajasthan

Gurugram – September 16, 2026: ACME Solar Holdings Limited (ACME Solar), through its subsidiaries has commissioned 66.68 MW of Solar and 300 MWh of Battery Energy Storage System (BESS) capacities in Bikaner, Rajasthan, expanding its operational portfolio.

Commissioning of Phase-I of ACME Solar's first hybrid project

ACME Solar, through its subsidiary, ACME Renewtech Private Limited, has commissioned Phase-I, comprising 66.68 MW solar out of the total 300 MW Solar capacity. The solar capacity is located at Kelan Village in Bikaner, Rajasthan. The capacity forms part of **ACME Solar's first hybrid renewable energy project**, combining 300 MW of solar capacity with 100 MW of wind capacity. The Power Purchase Agreement (PPA) for the project has been signed with **NTPC Limited and long-term project financing with PFC**. ACME Solar expects to commission **entire 300 MW solar capacity by the end of Q3 FY27**. Following the commissioning of this project, the renewable energy operational capacity of ACME Solar is now approximately 3,057 MW.

Commissioning of Phase-I of BESS capacity

Separately, ACME Solar, through its subsidiary ACME Greentech Seventh Private Limited, has commissioned Phase-I of the Battery Energy Storage System (BESS) component of its FDRE project located at the same site. Phase-I comprises 53.63 MW / 300 MWh of BESS capacity out of the project's total 300 MW / 1581 MWh BESS capacity. The project marks **ACME Solar's first assured off-peak power supply project** for which the Power Purchase Agreement (PPA) for the project has been signed with **SJVN Limited and long term project finance is with REC**. ACME Solar expects to commission **entire BESS capacity for this project by Q3 of the current fiscal**.

With this commissioning milestone, ACME Solar has crossed 4 GWh milestone in operational BESS capacity with total operational capacity of 4.16 GWh.

Leading Through Innovation

About ACME Solar: ACME Solar Holdings Limited is a leading integrated renewable energy player with a diversified contracted portfolio of 8,370 MW spanning solar, wind, storage, FDRE and hybrid solutions and an operational capacity of ~3,057 MW and 4.16 GWh of BESS capacity. With an in-house EPC and O&M division, the company does end-to-end development and O&M of the plants, thereby delivering projects in a time & cost-effective manner while ensuring best in class operating performance evident in its industry leading CUF and operating margins.
