For, Adani Green Energy Limited

Pragnesh Darji
Company Secretary

Internal Leadership Transition in Adani Portfolio

Ahmedabad, 30 December 2024: In alignment with the Adani Group's routine internal leadership transitions and planning, and to continue fostering sustainable growth and an ever-evolving leadership development consistent with the broader group and Company objectives, a leadership transition has been undertaken.

Adani Green Energy Limited

Mr. Amit Singh, the current CEO of Adani Green Energy Limited (AGEL), will step down from his position as CEO of the Company, effective 31 March 2025 and will transition to his new role as CEO of International Energy Business of the Adani Group.

Adani International Energy Business

Mr. Ashish Khanna, who is currently CEO of the International Energy Business of Adani Group, is appointed as AGEL's new CEO, effective 1 April 2025.

Mr. Ashish Khanna has over three decades of experience in areas of renewables, infrastructure, project management and contracts management in both India and abroad.

Mr. Amit Singh is an energy industry strategist and a leader in energy transition with extensive global experience with SLB (formerly Schlumberger). He has worked in over a dozen countries and has held positions such as Managing Director and Country Chair, Qatar and subsequently Director Corporate Strategy & Marketing, Digital and Integration division based out of London. As Adani Group now wishes to expand its business territory to international geographies, especially where growth paradigms are formidable such as MENA, Amit's leadership will further strengthen Group and align Group's goals.

About Adani Green Energy Limited

Adani Green Energy Limited (AGEL) is India's largest and one of the leading renewable energy companies in the world enabling the clean energy transition. AGEL develops, owns, and operates utility scale grid-connected solar, wind, hybrid and hydro pumped storage renewable power plants. AGEL currently has an operating renewable portfolio of 11.2 GW, the largest in India, spread across 12 states. The company has set a target of achieving 50 GW by 2030 aligned to India's decarbonization goals. AGEL is focused on leveraging technology to reduce the Levelized Cost of Energy (LCOE) in pursuit of enabling largescale adoption of affordable clean energy. AGEL's operating portfolio is certified 'water positive for plants of more than 200 MW capacity', 'single-use plastic free' and 'zero waste-to-landfill', a testament to the company's commitment of powering sustainable growth.
