ANNEXURE A

Sr. No.	Particulars	Details
1.	Name of the entity awarding the order(s)/contract(s)	MP Power Management Company Limited ("MPPMCL")
2.	Significant terms and conditions of order(s)/contract(s) awarded, in brief	As per the provisions of the tender floated by MPPMCL.
3.	Whether order(s)/contract(s) have been awarded by domestic/international entity	Domestic Entity
4.	Nature of order(s)/contract(s)	Long term procurement of electricity from 800 MW Ultra-supercritical thermal power project/plant to be set up in Anuppur District of Madhya Pradesh.
5.	Whether domestic or international	Domestic
6.	Time period by which the order(s)/contract(s) is to be executed	54 months from the Appointed Date
7.	Broad consideration or size of the order(s)/contract(s)	Supply of power from 800 MW Ultra-supercritical thermal power project/plant to be set up in Anuppur District of Madhya Pradesh on Design, Build, Finance, Own and Operate model.
8.	Whether the promoter/ promoter group / group companies have any interest in the entity that awarded the order(s) / contract(s)? If yes, nature of interest and details thereof.	No
9.	Whether the order(s)/contract(s) would fall within related party transactions? If yes, whether the same is done at "arm's length"	No

ANNEXURE B

Media release

Adani Power receives LoA for supply of power from 800 MW thermal power plant to be developed in MP

- Adani Power bids a tariff of Rs 5.838 per unit in a competitive bidding process conducted by MP state.
- Adani Power will supply power to MP Discom from a greenfield 800 MW Ultra-supercritical power plant to be set up at Anuppur district of Madhya Pradesh at an investment of ~INR 10,500 Cr.

Ahmedabad, Aug 30, 2025: Adani Power Ltd., India's largest private sector thermal power generator, today said it has received a Letter of Award (LoA) from MP Power Management Company Ltd. (MPPMCL) for supply of power from a new 800 MW Ultra-supercritical thermal power plant to be developed in Anuppur district of MP.

The said project will help Madhya Pradesh to meet its ever-growing electricity demand owing to increased industrialization and urbanisation. The Company will invest ~10,500 crore towards setting up the plant and related infrastructure.

Adani Power Ltd. emerged as one of the lowest bidders in a highly competitive bidding process, with the final tariff of Rs 5.838 per KWh. As part of the contract, the Company will supply power from a new 800 MW Ultra-supercritical thermal power unit, to be set up under the Design, Build, Finance, Own, and Operate (DBFOO) model, in the state. The unit will be commissioned within 54 months of the appointed date.

"As India's power demand continues to rise, driven by rapid economic growth, especially the base load power, it is imperative to invest in robust energy infrastructure to meet the nation's growing needs. Adani power remains committed to securing India's energy future in a sustainable way by expanding capacity and embracing advanced technologies, The Anuppur plant will play a pivotal role in ensuring reliable, affordable, and competitively priced power for households and businesses, strengthening India's and Madhya Pradesh's energy security and fueling continued progress in the state," said **Mr. SB Khyalia, Chief Executive Office, Adani Power.**

The coal linkage for the power plant has been allocated under the SHAKTI Policy of Government of India to state of Madhya Pradesh. The project is expected to generate direct and indirect employment of ~6,000 – 7,000 during the construction phase and employ ~1,000 personnel once in operation.

The Company expects to execute the Power Supply Agreement (PSA) in due course with the State Discom.

This is the fourth major power supply order received by the Company in the last 12 months. In September 2024, it, along with Adani Green Energy, received the LoI for a composite 6,600 MW (5,000 MW solar and 1,600 MW thermal) power supply order from Maharashtra state. In May 2025, it received the LoA from Uttar Pradesh government for supply of 1,600 MW power from a greenfield plant in the state. In August 2025, the Company received the LoA from Bihar government for supply of 2,400 MW of power from a new power plant to be set up in the state.

About Adani Power Limited

Adani Power (APL), a part of the Adani portfolio, is the largest private thermal power producer in India. The Company has an installed thermal power capacity of 18,110 MW spread across twelve power plants in Gujarat, Maharashtra, Karnataka, Rajasthan, Chhattisgarh, Madhya Pradesh, Jharkhand, and Tamil Nadu, apart from a 40 MW solar power plant in Gujarat. With the help of a world-class team of experts in every field of power, Adani Power is on course to achieve its growth potential. The Company is harnessing technology and innovation to transform India into a power-surplus nation and provide quality and affordable electricity for all.
