Commenting on the financial performance of the Company Mr. Gautam Adani, Chairman, Adani Power said, "It is matter of pride that Mundra Power Plant has surpassed its installed capacity. The effective utilization of increased capacity coupled with implementation of various Government initiatives, we are confident and committed to meet the demand supply gap in electricity in India."

Mr. Vinod Bhandawat, Chief Financial Officer of Adani Power, said, "The challenges of limited domestic coal availability and non-remunerative PPA prices continued to impact our financial performance. However, with increased operational capacity, improving operating efficiencies, implementation of policy initiatives like CERC

guidelines on tariff revision, reforms on SEBs and rail infrastructure for coal transportation, we are confident of better performance in the ensuing quarters."

The company expects to achieve thermal power generation capacity of 9,240 MW by FY14.

About The Adani Group

The Adani Group is one of India's leading business houses with revenue of over \$8.7 billion.

Founded in 1988, Adani has grown to become a global integrated infrastructure player with businesses in key industry verticals - resources, logistics and energy. The integrated model is well adapted to the infrastructure challenges of the emerging economies.

We live and work in the communities where we operate and take our responsibilities to society seriously. The Group protects biodiversity in ecologically sensitive areas like Mundra and undertakes initiatives to reduce CO₂ emissions. At Adani, we deliver benefits to our customers and customers' customers.

Resources means obtaining coal from mines and trading; in future it will also include oil and gas production.

Adani is developing and operating mines in India, Indonesia and Australia as well as importing and trading coal from many other countries. Currently, we are one of the largest coal importers in India. We also have extensive interests in oil and gas exploration. Extractive capacity is scheduled to increase from 4 MMT of thermal coal in 2013 to 200 MMT per annum by 2020.

Logistics denotes a large network of ports, Special Economic Zone (SEZ) and multi-modal logistics - railways and ships.

Adani owns and operates four ports – Mundra, Dahej, Visakhapatnam and Hazira in India. The Mundra Port, which is the largest port in India, benefits from deep draft, first-class infrastructure and SEZ status. Adani is also developing ports at Mormugao and Kandla in India.

Energy involves power generation & transmission and gas distribution.

Adani is the largest private thermal power producer in India. Our power generation capacity is expected to increase from current 7,960 MW to 9,280 MW by the end of FY14.

We are currently developing six power projects across Gujarat, Maharashtra, Rajasthan and Madhya Pradesh.
