The key highlight of the quarter has been the acquisition of strategic clients against global competition in the United States which is slowly but surely gaining traction as we move forward. A large hotel chain, a transportation rental company and a global law firm were some of the marquee clients that have entrusted Allied with managing their complete infrastructure outsourcing needs in the US. We believe that these wins point towards our increasing visibility in the US market as well as customers recognition of our service capabilities.”

He also added, “We are confident that the momentum built in this quarter through the client acquisitions will translate into growth in the coming quarters.”
