| **Diluted EPS (₹ Per share)** | **1.84** | 3.53 | -47.9% | 5.34 | 5.51 | -3.1% |

### Business Performance – Q2 & FY27

- **Distribution Network Expansion:** AAL continued to strengthen its pan-India distribution network and deepen its B2B market presence, enhancing customer reach, market penetration and institutional relationships, backed by an expanding business footprint spanning 19 states across India and 14 countries internationally.

- **Exports:** AAL has significantly strengthened its global footprint, expanding its export presence from 7 to 14 countries with entry into new international markets. This expansion across Afghanistan, Bangladesh, China, Egypt, Kenya, Libya, Myanmar, Nepal, Oman, Saudi Arabia, Somalia, Tanzania, Turkey and the UAE reflects the Company's growing international reach, strengthening global market presence and commitment to building a diversified export business.

- **Product Registrations:** AAL's extensive portfolio of 500+ CIB & RC registrations represents a significant competitive strength, providing a strong foundation for sustained market presence, product diversification, regulatory resilience and expansion into new domestic and international markets.

- **Manufacturing Expansion:** Commissioning of the Gidhani Plant by the end of Q4 is expected to strengthen the Company's manufacturing capabilities, enhance production capacity, support future business growth and facilitate product diversification.

**Commenting on the financial performance, Mr Omprakash Choudhary, CMD, Advance Agrolife Limited said,** "We remain focused on building a resilient, scalable and diversified business, with strategic priorities centred on strengthening our distribution network, expanding our international presence, leveraging our strong product registration portfolio and enhancing manufacturing capabilities.

During the period, we continued to strengthen our pan-India distribution footprint and deepen our presence across the B2B segment, enabling greater market penetration, wider customer reach and stronger institutional relationships. On the international front, we made further progress in expanding our export presence by entering newer geographies, including Libya, Myanmar, Oman, Saudi Arabia, Somalia, Tanzania and Afghanistan, reflecting our continued efforts to broaden our global market reach. Our extensive portfolio of over 500 CIB & RC product registrations remains a significant competitive advantage, providing a strong foundation for business continuity, market access and product diversification.

We remain confident that our continued investments in distribution, exports, product registrations and manufacturing infrastructure will strengthen our competitive positioning and create sustainable long-term value for all our stakeholders."

## About Advance Agrolife Limited

**Advance Agrolife Limited (AAL) [BSE: 544562; NSE: ADVANCE]** is a leading manufacturer of a broad spectrum of technical and formulated agrochemical products, including insecticides, fungicides, herbicides, and plant growth regulators, primarily serving the B2B segment. The company operates three state-of-the-art manufacturing facilities and is in the process of establishing its fourth facility in Jaipur, Rajasthan, India. These facilities are supported by well-equipped quality testing laboratories to ensure consistent product standards. Advance Agrolife holds over 500+ product registrations across herbicides, insecticides, fungicides, and plant growth regulators, enabling extensive market penetration and a strong presence in the agri-input industry.

### Forward-Looking Statement:

*These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. This could be due to risks or uncertainties associated with expectations relating to, and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, changes in the incidence of any natural calamities and/ or violence, regulations and taxes and changes in competition in the industries in which we operate.*
