RISK TO INVESTORS

For details refer to section titled "Risk Factors" on page 33 of the Prospectus

- Customer Concentration Risk:** Customer concentration risk is a natural consequence of the "Broader Market Adoption Stage" in our business journey. During this phase, rapid market expansion for new propositions, such as our SLC-based ISG for the 2/3W industry, often relies on our relationships with our anchor customers who are early adopters. TVS Motor is our most significant customer, having adopted our SLC-based ISG proposition since 2018 and contributed 75.48%, 80.46%, 83.46% and 79.05% of our revenue from operations for the nine months ended December 31, 2025, Fiscals 2025, 2024 and 2023, respectively, exposing us to significant business risk if demand from these customers reduces or commercial relationships change could have a negative effect on the Company's business, profitability, and cash flows.
- Mobility Segment Concentration Risk:** We are significantly dependent on the mobility segment which contributed 84.63%, 85.69%, 85.64% and 80.37% of our revenue from operations for the nine months ended December 31, 2025, and Fiscals 2025, 2024 and 2023, respectively. Any downturn, cyclical fluctuation, or adverse development in this segment could materially impact our business, results of operations, and financial condition.
- Geographical Risk:** We are currently dependent on two manufacturing facilities in Pune, Maharashtra, for all the production requirements which exposes us to regional and operational risks that could have a material adverse effect on the business, results of operations, cash flows, and financial condition.
- Product development and lifecycle risk:** We are exposed to evolving, stage-specific, and proposition-specific risks which may materially and adversely affect the operations, financial condition, and prospects. The risk profile of the business is therefore dynamic, shifting according to the mix of products at different stages and their relative strategic and revenue importance.
- Industrial Segment Concentration Risk:** Our Company's results are affected by demand for gensets in India and globally, i.e., the industrial segment, which contributed 15.37%, 14.31%, 14.36% and 19.63% of our revenue from operations for the nine months ended December 31, 2025, and Fiscals 2025, 2024 and 2023, respectively. As a result, our operations remain closely tied to the ongoing relevance and adoption of gensets across industries. Any significant reduction in genset demand whether due to faster adoption of alternative power solutions, further tightening of regulatory standards, or decreasing customer preference for genset could materially and adversely affect our revenue, business performance, and financial stability.
- Trade Receivables Risk:** We are exposed to counterparty credit risk. As at December 31, 2025, March 31, 2025, 2024 and 2023, trade receivables from our top 10 customers were ₹1,384.06 million, ₹412.01 million, ₹257.12 million, and ₹131.19 million, respectively. Any delay in receiving payments or non-receipt of payments may adversely impact the business, financial condition, cash flows and results of operations.
- Supplier Risk:** We are significantly dependent on the top 10 suppliers for primary raw materials, wherein purchases from top 10 suppliers constituted 63.63%, 63.64%, 65.63% and 63.34% of Company's total purchases during the nine months ended December 31, 2025, and Fiscals 2025, 2024 and 2023, respectively. Any disruption, delay, or inability of these suppliers to fulfil their commitments may materially and adversely affect the production, financial performance, reputation and growth prospects.
- Critical Raw Material Sourcing Risk:** Our Company imports critical raw materials such as semiconductors and printed circuit boards from People's Republic of China ("China"), which exposes to heightened supply chain and geopolitical risks that may materially affect the costs, production schedules, and business continuity and thereby the business, results of operations, cash flows, and future growth prospects.
- Offer related risk:** The Offer is 100% Offer for Sale of Equity Shares and the Selling Shareholders shall be entitled to the net proceeds from the Offer for Sale, which comprise proceeds from the Offer for Sale net of Offer expenses, to the extent of their respective portion of the Offered Shares and our Company will not receive any proceeds from the Offer.
- Audit qualification and statutory compliance risk:** Our Statutory Auditors' audit reports for Fiscals 2025 and 2024 and the examination report to the Restated Financial Information have included certain observations on matters specified in the Companies (Audit and Auditors) Rules, 2014 and Companies Auditor's Report Order, 2020, including limitations in our audit trail functionality and delays in tax deposits. If similar modifications and comments are included in the Statutory Auditors' reports for our financial statements in the future, it could adversely affect our financial condition, cash flows and results of operations.
- Compliance Risk:** Certain of our corporate records are not traceable. We cannot assure you that any regulatory proceedings or actions will not be initiated against us in the future and we will not be subject to any penalty imposed by the competent regulatory authority in this regard.
