For details refer to section titled "Risk Factors" on page 18 of the Prospectus.

1. **Dependence on Unsecured Loan Products:** A significant portion of our AUM consists of unsecured loans. Any decrease in demand for our unsecured loan products, can arise from factors beyond our control, inter alia, economic slowdown in India, rise in unemployment, regulatory hurdles, competition and customer-specific factors, could adversely affect our business, financial condition, results of operations and cash flows.

In the nine months ended December 31, 2025 and Fiscals 2025, 2024 and 2023, a significant portion of our AUM consisted of unsecured loans. Set out below is a breakdown of our AUM by our product offerings, as of the dates indicated:

2. **Risk on Customer Retention, Customer Expansion and Technology Development:** The success and future growth of our Company depends on our ability to attract new customers to expand on AUM from existing customers by continuously enhancing our platform and technology offerings. Any failure to meet evolving customer preferences, offer competitive products or upgrade our mobile application and platform in a timely and cost effective manner may lead customers to shift to competitors and adversely affect our business, financial condition, results of operations and cash flows.

Below are details of our users and customers, as of and for the periods/years indicated:

3. **Customer Creditworthiness Risk:** We offer a range of financial products to our customers, primarily comprising young individuals with high income potential and substantial consumption needs. Our customers may be economically less stable than large corporates and as a result, we are more vulnerable to customer default risks including delay in repayment of principal or interest on our loans. Our profitability depends on our ability to evaluate the right income levels of our customers, assess the credit risks and to price our loans accordingly. Our customers may default on their obligations as a result of various factors including bankruptcy, insolvency, lack of liquidity and/or failure of the business or commercial venture in relation to which such borrowings were sanctioned.

4. **Brand and Related Reputational Risks:** The growth of our business will depend on the strength, recognition and reputation of the "Kissht" brand and our ability to conduct branding and marketing activities in a cost effective manner. Our brand and reputation may be adversely impacted by negative publicity, including in relation to our brand ambassador, or adverse perceptions regarding our conduct, products or services. If we are unable to conduct our branding and marketing activities cost-effectively, our financial condition and results of operations may be materially and adversely affected. Further, our future marketing activities may not achieve the desired results, necessitating continuous adaptation to evolving market trends.

5. **Negative cash flows from operating activities in the past:** We and our Subsidiary, Si Creva, have experienced negative operating cash flows in the past, primarily due to significant expansion of our on-book loan portfolio and related working capital outflows. Any failure to increase revenues in line with our investments and other expenses may result in continued negative cash flows in future. In addition, we intend to further invest into our Subsidiary and augment its capital base to support our future growth, which could subject us to additional liabilities. If we are unable to generate positive operating cash flows on a sustained basis, our business, financial condition and results of operations could be adversely affected.

Set out below are details of such negative operating cash flows for the periods/years indicated:

6. **Contingent Liabilities Risk:** We have certain contingent liabilities, including corporate guarantees, tax matters under appeal and guarantees given pursuant to business correspondent arrangements. These contingent liabilities may become actual liabilities. If a significant portion of such liabilities materializes, it could adversely affect our business, financial condition, cash flows and results of operations. Further, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current fiscal year or in the future.

7. **Geographical Risks:** A significant portion of our AUM is attributable to the southern and western regions of India (35.00% and 26.47%, respectively, of our AUM in the nine months ended December 31, 2025 and 32.91% and 29.07%, respectively, of our AUM in Fiscal 2025). Any disruption, termination or failure of such third party services, or our inability to obtain or renew licenses on acceptable terms, could adversely affect our operations.

9. **Dependency on Subsidiary Risk:** We are dependent on our Subsidiary, Si Creva, for on-book lending activities and our growth, asset quality and liquidity are linked to its regulatory standing, capital adequacy, funding access and risk management. Any adverse regulatory action, changes in applicable RBI regulations, increase in capital or provisioning requirements, or deterioration in portfolio quality or compliance could restrict our Subsidiary's lending capacity and profitability, and in turn, our own.
