5. Negative cash flows from operating activities in the past:

We have experienced negative cash flows from operating activities from Fiscal 2022 onwards as a result on increase in the volume of disbursements in line with business requirements. Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans.

The following table sets forth certain information relating to our cash flows for the periods indicated:

Particulars	Six Months Ended September 30, 2025	Six Months Ended September 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023

6. Interest rate risk:

Our business is vulnerable to interest rate risk. Any increase in the rate of interest at which we borrow from our lenders, without a corresponding increase in the interest rates we are able to charge our borrowers, could expose us to interest rate risk. Volatility in interest rates could have an adverse effect on our net interest income and net interest margin, thereby affecting our results of operations and cash flows.

7. Funding Access Constraint Risk:

If we cannot obtain adequate financing when needed or on reasonable terms, our business, results of operations, cash flows, and financial condition may be adversely affected.

Non-compliance could trigger defaults and constraints, adversely affecting our business, results of operations and financial condition.

10. Asset Liability Mismatch risk:

As of September 30, 2025, ₹53,823.30 million, or 75.64% of our overall assets is derived from our lending business. These assets have an average maturity period of 29.23 months, compared to our borrowings tenor of 23.43 months. Any mismatch in the maturity profile of our assets and liabilities may lead to a liquidity risk, particularly if our liabilities mature before our assets or if there is a significant change in interest rates.
