AUGMONT

PRESS RELEASE

Reports Record Profitability in Q2FY27

Mumbai, November 04, 2026: Augmont Enterprises Limited (BSE: 544888; NSE: AUGMONT) India's leading integrated gold and silver platform with a technology-enabled ecosystem spanning the precious metals value chain, today announced its unaudited consolidated financial results for the quarter and half year ended September 30, 2026.

Financial Highlights

(₹ Cr)

Particulars	Q2FY27	Q2FY26	H1FY27	H1FY26
Total Income	15,852	21,754	34,829	36,308
EBITDA	181	156	265	259
EBITDA Margin	1.14%	0.72%	0.76%	0.71%
PAT	120	113	181	185
PAT Margin	0.76%	0.52%	0.52%	0.51%

Commenting on the results, **Mr. Ketan Kothari, Whole-Time Director of Augmont Enterprises said**, "*As this is our first earnings announcement following the listing, I would like to thank all our shareholders for their trust and confidence in Augmont. We remain committed to creating sustainable long-term value as we begin this journey as a listed company.*

Q2 FY27 was a strong quarter for Augmont, marked by record profitability and meaningful margin expansion. Consolidated PAT reached an all-time high of ₹120 crore, up 97.7% QoQ and 6.8% YoY, while EBITDA grew 16% YoY to ₹181 crore. PAT margin improved to 0.76% and EBITDA margin to 1.14%, reflecting a better business mix and our continued focus on quality of earnings.

Revenue from operations stood at ₹15,836 crore, lower by 27% YoY, partly reflecting softer demand and a conscious shift towards higher-margin domestic scrap sourcing. In line with the broader objective of reducing dependence on gold imports, scrap sourcing increased from around 3% of total procurement in Q2 FY26 to 24.5% in Q2 FY27. While this business has a relatively longer working capital cycle and consequently impacts revenue throughput, it contributes better margins and strengthens our sourcing ecosystem.

The strength of this strategy was visible in our core business, with AEL reporting Q2 FY27 PAT of ₹85 crore, around 2.5x YoY, and EBITDA of ₹113 crore compared with ₹50 crore last year. Our integrated platform continued to benefit from diversified sourcing and distribution capabilities across banks, refiners, recycled gold, imports, IIBX and ETF redemptions, enabling us to optimise opportunities across changing market conditions. This was also evident in silver, where following import restrictions, we leveraged our multi-

source procurement network, secured the required DGFT licence and sourced through IIBX, supporting availability which led to higher margins during the quarter. We view the benefit from silver as situational and linked to the prevailing import restrictions.

At our core, Augmont is a technology-first precious metals platform. Today, we serve over 52.3 million registered consumers, and we believe our scale, technology and deep ecosystem position us well to participate in the continued formalisation of India's precious metals market. Our agreement with NSE for Electronic Gold Receipts is another step in that direction, and we remain focused on building Augmont into a stronger and more valuable platform over the long term."

Key Highlights

- Augmont Enterprises reported consolidated revenue of ₹15,836 cr in Q2FY27. Enterprise business revenue was ₹13,852 crore a decline of 32% YoY, while Consumer business revenue reported healthy growth of 47.3% YoY to ₹1,984 crore contributing 12.5% of Q2 FY27 revenue.
- H1FY27 total Income stood at ₹34,829 crore a marginal decline of -4.1% YoY.
- EBITDA for the quarter grew 16.0% YoY to ₹181 crore, with margins expanding to 1.14% from 0.72% in Q2FY26; reflecting stronger profitability and an improved business mix.
- EBITDA for H1FY27 increased by 2% YoY to ₹265 Cr, with margin expanding by 5 bps to 0.76% from 0.71% in H1FY26.
- Q2FY27's PAT increased 6.8% YoY to ₹120.3 crore, with PAT margin improving to 0.76% from 0.52% in Q2FY26.
- In response to concerns around higher gold imports, the company significantly increased domestic scrap sourcing from ~3% of total procurement in Q2 FY26 to ~24.5% in Q2 FY27, supporting better margins.
- The Company also leveraged its DGFT licence to import silver through IIBX during a period of constrained domestic availability.
- Augmont's technology-led ecosystem reached 52.3 million registered consumers, 245 fintech partners and 5,309 registered SPOT members, supported by 20 SPOT delivery centres as of September 30, 2026.

ABOUT AUGMONT ENTERPRISES LIMITED

Augmont is one of India's leading integrated gold and silver companies, with a presence across the precious metals value chain spanning refining, wholesale trading, digital gold, jewellery, gold-backed lending and retail services.

Combining physical infrastructure with technology-led platforms, Augmont seeks to make gold more accessible, transparent and convenient for consumers, jewellers, bullion traders and businesses. Its ecosystem includes Augmont SPOT, its B2B platform for physical gold and silver bullion, as well as offerings across coins and bars, Digital Gold, Gold SIPs, gold loans, old-gold exchange, jewellery and diamonds.

As of 30 September 2026, Augmont's ecosystem included two refineries, 245 fintech partnerships, 5,309 registered members on SPOT, 20 SPOT delivery centres, 5,558 retail touchpoints and 122 Gold For All centres across India. Through its platforms and partnerships, Augmont had served more than 52.3 million registered consumers.

Augmont has been recognised as 'India's No. 1 Gold Platform' at IGC for two consecutive years, in 2025 and 2026, and as 'India's No. 1 Silver Platform' in 2025.

Guided by its vision of "Gold For All", Augmont is focused on making gold more accessible, trusted and useful for Indian households and businesses.
