Sub : Press Release

Dear Sir/Ma'am,

Please find enclosed herewith a Press Release titled **“Aeroflex Industries Limited Strengthens R&D Capabilities, Secures Patent for Innovative Engineering Technology”**.

The contents of the press release are self-explanatory and are being submitted for your information and for dissemination on your website.

You are requested to take the above information on record.

Thanking you

Yours faithfully,

FOR AEROFLEX INDUSTRIES LIMITED

AEROFLEX INDUSTRIES LIMITED STRENGTHENS R&D CAPABILITIES: SECURES PATENT FOR INNOVATIVE ENGINEERING TECHNOLOGY

- Indian Patent granted for an innovative system and method to automatically generate 3D computer-aided models of braided hose assemblies.
- Reflects the Company's increasing focus on R&D, engineering innovation, automation and development of advanced technological capabilities.

Mumbai, October 19th, 2026: Aeroflex Industries Limited (NSE: AEROFLEX, BSE: 543972), a leading manufacturer of flow control solutions with a growing presence in high-value liquid cooling systems for next-generation AI data centres, today announced that the company has been granted a patent for its innovative technology for Automatically Generating 3D Computer-Aided Model of a Braided Hose Assembly

The patented technology focuses on the automated generation of 3D computer-aided models of braided hose assemblies, reflecting the Company's efforts towards advancing its engineering and design capabilities through technology-driven innovation.

The grant of this patent marks another significant milestone in Aeroflex's journey towards strengthening its R&D and engineering capabilities. R&D has been the backbone of the Company's growth and product innovation, enabling it to develop an extensive portfolio of over 3,300 SKUs, with hose diameters ranging from 1/4 inch to 14 inches. This extensive product basket reflects Aeroflex's strong engineering expertise, product customization capabilities and ability to cater to diverse customer requirements across industries.

Commenting on the development, Mr. Asad Daud, Managing Director, Aeroflex Industries Ltd., said,

"At Aeroflex, innovation and R&D remain central to our growth strategy, with a continued emphasis on strengthening our research capabilities and encouraging a culture of technological excellence across the organization.

The grant of this patent is an encouraging milestone in this journey and reflects our efforts towards developing innovative engineering solutions and enhancing our technological capabilities. We believe that continued investment in R&D, automation and product innovation will play an important role in strengthening our competitive positioning and supporting our long-term growth ambitions."

About Aeroflex Industries Limited

Aeroflex Industries Limited (Aeroflex) is one of the leading manufacturers of flow control solutions in India. The Company specializes in manufacturing flexible flow solutions used for flow of liquids and gases across a wide range of industries and applications. Aeroflex caters to a diverse base of domestic and international customers and has established a presence across multiple end-user industries. The Company is expanding its product portfolio and manufacturing capabilities, with a growing focus on high-potential segments such as data centre liquid cooling infrastructure, including liquid cooling skid assemblies. Through its engineering capabilities, product innovation and expanding manufacturing footprint, Aeroflex aims to strengthen its position in the global flow solutions market.
