ITEM NO. 4, 5 AND 6

The Company, having recently transitioned into a publicly listed entity, stands at a defining moment in its growth trajectory. With a legacy of executing complex infrastructure projects across geographies, the Company has consistently upheld technical excellence, financial discipline, and stakeholder trust. As it enters this new phase of scale, transparency, and accountability, the Company recognizes that long-term value creation is intrinsically linked to the strength, commitment, and alignment of its human capital.

In today's competitive talent environment, fostering a high-performance culture and enabling wealth creation for employees are strategic imperatives. The Company acknowledges the role of long-term equity-based incentives in attracting, motivating, and retaining top-tier talent. Employee stock options (“**Options**”) not only reward performance but also instill a sense of ownership and accountability, aligning employee interests with those of members and reinforcing the Company's long-term objectives.

In view of the Company's evolving strategic priorities and talent retention needs, the Company, based on the recommendation of the Nomination Remuneration Committee (“**Committee**”) and approval of the Board of Directors (“**Board**”) at their meetings held on September 24, 2025 and September 25, 2025 respectively and subject to members' approval, proposes to implement the “**Afcons Infrastructure Limited – Employee Stock Option Plan 2025**” (“**ESOP 2025**” or “**Plan**”), comprising a pool of not exceeding **1,83,89,232 (One Crore Eighty-Three Lakh Eighty-Nine Thousand Two-Hundred and Thirty-Two Only)** Options, aggregating to 5% of the Company's outstanding share capital on a fully diluted basis. The Plan is proposed to cover eligible employees (as defined in the Plan) of the Company, its subsidiary companies and associate companies.

By institutionalizing ESOP 2025, the Company affirms its commitment to building an ownership-driven culture where employees are not merely contributors but co-creators of long-term value. The Plan reflects the Company's belief that equity is not just a financial instrument, but a symbol of trust, recognition, and shared ambition.

The Committee shall determine the quantum of Options to be granted, taking into account role-specific metrics. The grant will be made based on multi-criteria selection process based on:

1. Demonstrated commitment and tenure with the Company, its subsidiary or its associate companies;
2. Consistent performance, as reflected in formal evaluations; and
3. Any other parameters deemed appropriate in the interest of the Company and its stakeholders.

This structured and transparent framework assures members that the grant of Options is not arbitrary but is rooted in meritocracy, performance, and alignment with long-term value creation. Through this approach, the Company aims to nurture a culture of ownership, accountability, and sustained excellence.

In line with the operational nature of the infrastructure engineering and construction business, the Company participates for EPC infrastructure projects in India and overseas regions either directly or through the establishment of subsidiary or associate company(ies), regularly deploying its employees across these entities depending on the requirements of specific projects. Given the dynamic and project-based nature of EPC contracts, which often involve cross-functional teams working across geographies and disciplines, it is essential to maintain continuity and fairness in employee incentives. This becomes particularly important in cases where individuals may be seconded or transferred between the Company and its subsidiaries or associates. Accordingly, it is proposed to extend the ESOP benefits, as permitted by the law, to the employees of the subsidiary or associate companies (whether present and future, if any) of the Company, to ensure that employees do not lose their eligibility or continuity of benefit due to organizational structure or project-based deployment. This approach helps preserve morale, foster long-term commitment, and enhance alignment with shareholder value creation, especially in a sector where execution excellence and institutional knowledge are critical to success.

In terms of Section 62(1)(b) of the Companies Act, 2013 (“**the Act**”) and Rules made thereunder read with Regulation 6 of the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 (“**SEBI SBEB Regulations**”), the salient features of the ESOP 2025 are given as under:

a. Brief description of the Scheme:

ESOP 2025 is a comprehensive plan to grant employee stock options (“**Options**”) to the eligible employees of the Company, its subsidiary company(ies) and associate company(ies) as described below, to subscribe to the equity shares of the Company underlying the Options at the exercise price to be determined by the Committee in accordance with the ESOP 2025.

The primary objective of the ESOP 2025 is to offer a wealth creation opportunity to the employees while also aligning the interests of employees with the long-term goals of the Company. This ESOP 2025 is intended to achieve the following:

- (i) Long term wealth creation for employees: Provide employees with an opportunity to participate in the Company’s value appreciation over time, thereby fostering financial growth.
- (ii) Align employee interest with organizational goals: Encourage employees to actively contribute to the Company’s future growth and success by sharing the financial benefits of that growth.
- (iii) Attract and retain talent: Utilize ESOP 2025 as a strategic tool to attract top talent in the industry, offering them a compelling reason to join and remain with the Company by participating in its growth and success.
- (iv) Recognize performance: Offer Options as a form of recognition and reward for employees who have consistently delivered exceptional performance, thereby encouraging continued excellence and dedication.

Together, they have steered the Company through a period of sustained growth and operational excellence, delivering some of the most challenging and iconic projects, setting new benchmarks in safety, engineering, and innovation, and fostering a culture of leadership and professionalism recognised across the industry.

Their steadfast focus on engineering excellence, innovation, technological advancement, knowledge-building, and leadership development has been central to this transformation has resulted into a strong performance trajectory — between FY2002 and FY2025, turnover grew nearly thirty-one times to ₹13,023 crore, EBITDA increased at a CAGR of around 19%, and the order book expanded around thirty-seven times to ₹36,869 crore. The Company has also diversified into new sectors, expanded its presence across multiple geographies and in FY2024, achieved a landmark milestone with its successful listing on both BSE and NSE.

Mr. Subramanian brings with him a unique blend of expertise and leadership which makes him very vital in the Organisation. His professional journey and demonstrated capabilities strongly align with the future needs of the organisation. He has consistently delivered on complex and large-scale projects, ensuring timely planning, resource allocation, and disciplined execution. His ability to foresee challenges and design practical solutions has been instrumental in achieving operational efficiency and cost effectiveness. He possesses deep understanding of contractual frameworks, risk allocation, and dispute resolution mechanisms. His insight into structuring and managing contracts not only secures the company's interests but also minimises exposure to liabilities. This capability is especially crucial at a time when the organisation is engaged in arbitration cases of very sizeable value. He combines hands-on experience with a forward-looking perspective. His strategic vision enables him to identify opportunities, anticipate industry trends, and provide clear direction. This quality positions him to guide the company through its current challenges and to steer it towards sustainable growth. Beyond project delivery, he has shown the ability to build and strengthen organisations—shaping structures, processes, and teams that can deliver consistently. His focus on institution building ensures not only immediate results but also long-term resilience and continuity. Given the company's current requirements—particularly the need for strong guidance in strategy, organisation build-up, and effective handling of high-value arbitration matters—his continuity becomes not only desirable but essential.

Mr. Paramasivan's continuity matches the organisation's current priorities of building order inflow, scaling operations, and resolving critical financial and contractual matters. His expertise, experience, and network make him uniquely positioned to add value. He has cultivated strong professional relationships with key bankers and government officials. His ability to identify opportunities, establish partnerships, and convert leads into secured orders is well proven. This strength will be critical at a time when the company is actively looking to build a strong order book and expand its market presence. With deep understanding of finance and commercial functions, he is adept at optimising resources, managing risks, and ensuring profitability across projects. His financial prudence will ensure stability even as the company embarks on aggressive growth. He has demonstrated exceptional ability in negotiations—whether in finalising contracts, securing business terms, or resolving disputes. His skills will be of immense use in ongoing high-value arbitration cases where careful negotiation can lead to significant savings and favourable outcomes. Beyond strategy and finance, he brings practical experience in managing large-scale operations, ensuring projects and business units deliver in line with company objectives. His leadership ensures alignment of operational performance with strategic goals. At this critical juncture, when the organisation is aiming for order growth and operational scale-up, while simultaneously handling sizeable arbitration disputes, his continuity is both timely and essential. His relationships, financial acumen, negotiation strength, and operational leadership will not only support business continuity but will act as a catalyst for sustained growth and value creation.
